Your Attention Please!

In presenting the fifteenth (1943) issue of the **INDUSTRY YEAR BOOK & DIRECTORY**, the publishers have the highest pleasure to announce that additions and revisions have been effected in this edition on a wide scale to render the volume quite comprehensive and of practical usefulness, in spite of numerous handicaps arising out of war conditions.

The latest statistical figures regarding banking, insurance, agricultural crops, trades and industries, foreign trade, etc. have been included to render the volume a serviceable book of reference to businessmen, journalists, statesmen and students of economics alike.

The Market Places of India Section has been thoroughly revised and rewritten. Our best thanks are due to the various Departments of the Provincial Governments and of the Indian States which have helped us with important facts and figures relating to trade, industries and agricultural and cattle fairs.

The Directory Section has also been thoroughly revised and enlarged. The number of sections have been considerably increased for the sake of easy reference. The list of agents and distributors of foreign goods in India has also been revised and extended.

Among the outstanding features introduced in the present volume mention may be made of the inclusion of quotations of stocks, shares and important commodities month by month along with index numbers of commodity prices and cost of living. Position of some of the important companies has also been shown.

Other additions to the volume are . A summary of the provisions and notifications made by the Government of India as are likely to affect the business community; a broad survey of the financial, economic and industrial situation in India during 1942-43; a digest of the Central and Railway Budgets; Foreign Trade of India during 1942; a brief account of the Industrial Expansion during 1942-43; income tax rates, tariff schedules, stamp duties, etc., etc.

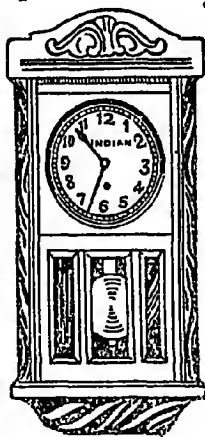

The copyright of the contents which are all exclusively collected for this work is fully reserved.

Though every care has been taken to put in the accurate addresses of reliable parties only, the publishers cannot vouchsafe their respectability and financial status, and are not responsible for any errors that may have crept in.

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs. 3/- Industry Book Dept, Calcutta.

IT IS THE MODERN METHOD !

MONEY MAKING BY THE MAIL

ENLARGED SECOND EDITION

By K. M. BANERJEE.

Price Rs. 2/-, Postage As. 6.

Covers new ground and goes over the old in the light of more experience and knowledge of more ways of Money-Making

Ambitious men, if you have energy and a spirit of enterprise, you have every chance of success in business, whatever be your situation in life. The book gives the secret to you. It shepherds everyone into the fold of business, it proves that everyone has an equal chance. The book guides and stimulates an aspirant to Business Success!

Thoroughly revised, new chapters added, gilt lettered, & cloth bound.

Mercantile & Mail Order Letters & Methods

By K. M. BANERJEE.

Expansion of Business is brought about more by correspondence than by contact. Every part of the world is open to correspondence and, as Business is essentially exchange of goods on a mutually profit making basis, the basic importance of letter-writing is obvious. Like every Business aspect, Business correspondence is a specialised branch which can be mastered by home study.

The above Industry publication is a practical treatise on up-to-date letter-writing which has a profit-making setting. A large selection of model letters and illustrations by expert writers and a thorough exposition of secrets of Mail-Order Success raise the book to the level of creative work.

Buy The Book For Your Business. Price Rs. 3/-, postage As. 7.

POSTAL INFORMATION

GENERAL INFORMATION.

POSTCARDS AND ENVELOPES.

Postcards are of two kinds, viz, Inland and International postcards. Inland postcards measure $5\frac{1}{2} \times 3\frac{1}{2}$ inches and bear a $\frac{3}{4}$ anna stamp, and in the case of a reply card a $\frac{3}{4}$ anna stamp on each half. International postcards measure $5\frac{1}{2} \times 3\frac{1}{2}$ inches and bear a two-anna stamp, and in the case of a reply card, a two-anna stamp on each half. Postcards, both Inland and International, are sold at the denoted values of the stamps on them.

POST BOX.

A post Box may be rented at the three Presidency towns of Calcutta, Bombay and Madras and at places where the post box system is in force, for an official year on payment of a fee of Rs 15. The fee charged for a period of less than one official year is Rs 5 for every three calendar months or a portion thereof.

EXPRESS DELIVERY LETTERS.

Express delivery letters and postcards are transmitted like ordinary articles to the post office of destination whence they are transferred to the nearest Government telegraph office for delivery like a telegram. The fee for express delivery of a letter or postcards is two

PHONE BB 1538, ESTD 1880 'GRAMS BASUMATI, CALCUTTA

THE BASUMATI

166, BOWBAZAR STREET, CALCUTTA.

THE WEEKLY BASUMATI—The best medium for advertisements. Certified circulation 48,000 per week. The "Statesman" Year Book published in England since the year 1913 says, "The Weekly with the largest circulation is the Basumati of Calcutta."

THE DAINIK BASUMATI—Guaranteed circulation, 40,000 Copies Daily, is an independent non-party nationalist daily. Advertisement charges are moderate in comparison with its immense circulation.

THE MONTHLY BASUMATI—Guaranteed circulation, 18,000 copies per month is the best and most profusely illustrated Magazine of the day, enriched with contributions from the best brains of India. It is the only Magazine in which it pays well to advertise.

ANNUAL PUJA SPECIAL—Is the biggest, brightest and best journal of its class. Collection of masterpieces in Art and Literature, full of Cartoons. Circulation—over 30,000 copies.

IT PAYS WELL TO ADVERTISE IN THE BASUMATI.

annas in addition to the ordinary postage. Unregistered letters and postcards may be transmitted by post for express delivery to any place not more than five miles distant from a Government Telegraph Office. Express delivery letters and postcards must be conspicuously marked on the address side with the words "Express Delivery." Postal articles marked "Express Delivery" which are addressed to a place more than five miles distant from a Government Telegraph Office or on which the postage and the Express Delivery fee have not been fully prepaid will be treated like ordinary postal articles.

BUSINESS REPLY CARDS & ENVELOPES.

"Business Reply Cards" and "Business Reply Envelopes" are transmitted by post without prepayment of postage, and the postage thereon is collected in cash from the address on delivery. The fee for permission to use business reply cards and envelopes is Rs 10 for one year.

Business Reply Cards and Envelopes must be furnished by the user, and must bear on the address side (a) the printed name and address of the person or concern to whom they are to be delivered, (b) the permit number, (c) the name of the post office issuing the permit, (d) the words "Business Reply Envelope" or "Business Reply Card," (e) the inscription "No postage stamp necessary if posted in India" and (f) the words "Postage will be paid by address." Sufficient space must be left for post marking at the top of the card or envelopes.

When Business Reply Cards and Envelopes are returned to the office of origin, they will be delivered to the person for whom they are intended on payment of the postage chargeable thereon.

COMPLAINTS AGAINST POST OFFICES.

Letters containing complaint against the Post Office should be properly stamped. In all cases of loss of the contents of an article, the cover or wrapper should accompany the complaint and a full description of the missing contents should be given, if the missing contents are currency notes, the serial letters and numbers and general numbers of the notes should be given.

Complaints regarding the wrong payment or non-payment of a money order cannot be attended to unless preferred within twelve months of the date of the money order.

Whenever the sender or addressee of a value payment postal article makes a complaint regarding the delivery of, or payment for, a value payable postal article, he is required to furnish full particulars regarding each value-payable article to which the complaint refers and to pay a fee of one anna in respect of each article. No complaint will be attended to unless made within twelve months of the date of posting of the value payable article. This fee will be refunded in cases where the complaint is found to be well-grounded.

FOREIGN PARCELS.

Each parcel despatched outside India should be accompanied, by a Customs declaration in the prescribed form, which is obtainable free at every post office.

BOOK PACKETS.

The dimensions of a book packet, which may be of any shape, must not exceed two feet in length by one foot in width and one foot in depth. When, however, the packet is in the form of a roll, the length

THE RETAIL TRADE—an exposition of Methods that build up Retail Trade. Price Re. 1/4. Industry Book Dept., Shambazar, Calcutta

must not exceed thirty inches, provided that, if the length exceeds two feet, the diameter must not exceed four inches.

A book packet must be posted without a cover or in an unfastened envelope, or in a cover which can be easily removed for the purpose of examination without breaking any seal or tearing any paper or separating any adhering surfaces.

INDIAN POSTAL ORDERS.

Indian Postal Orders are available in the denominations of 8 annas, 1 rupee, 5 rupees and 10 rupees, and the commission chargeable in respect of each order will be 1 anna. They are sold and paid by all Head and Sub-post offices in India and Burma.

To make up broken amounts, unused postage stamps not exceeding three in number may be affixed on the face of Indian Postal Orders of all denominations except Rs. 10, in the space reserved for the purpose, provided that the total amount payable on the order shall not exceed Rs. 10 and provided also that a fraction of an anna shall not be included.

If an Indian Postal Order is presented for payment after three months from the last day of the month of issue, a second commission of one anna will be charged. Indian Postal Orders presented for payment more than six months after the last day of the month of issue will not be paid.

The purchaser of an Indian Postal Order can obtain repayment of its value (but not the commission), on presenting the Order and the counterfoil at the post office from which the Order was purchased.

AIRGRAPH SERVICE.

The Airgraph Service which has been operating in the outward direction from India to only the United Kingdom, has been extended to Eire and Canada

The postage for an airgraph to U K, Canada or Eire sent by numbers of the public other than members of His Majesty's Forces has been reduced from fourteen annas to eight annas with effect from March 2, 1942

In order to avoid complaints of the contents of airgraphs received in India being spoiled by the gum with which airgraph envelopes are pasted, it has provisionally been decided by the Post Office not to paste down these envelopes but to merely insert the flaps inside the covers as in the case of printed papers

Modern foundry shop practice is described in **PRACTICAL METAL CASTING.** Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

RAILWAY INFORMATION

RAILWAY development in India dates back to 1853 when the Great Indian Peninsular Railway constructed their first line extending from Bombay to Kalyan. The following year the railway between Calcutta and Pandua was opened. Since then the mileage of Indian railways has recorded steady increases till this now stands at about 43 118 miles, of which 31,783 miles are under State management. In 1940-41, the total mileage of the railways was 41,952.

One of the special features of the Indian Railways system is the diversity of conditions that prevails in the relation of the State to the various lines in respect of ownership and control. Of the important lines situated in British India or in which the Government of India is interested, five, e.g., the North Western, Bengal and Assam, East Indian (with which has been amalgamated the Oudh and Rohilkhand Railway from the 1st July 1935), Great Indian Peninsula and Burma Railways, are owned and worked by the State, five (the Bombay, Baroda and Central India, Madras and Southern Mahratta, Assam Bengal, Bengal Nagpur, and South Indian) are owned by the State but worked on its behalf by Companies enjoying a guarantee of interest from the Government, two important lines (the Bengal and North Western and Rohilkhand and Kumaon) and many of less importance are the property of private companies, some being worked by the owning companies, and some by the State or by the companies that work State-owned systems. Several minor lines are the property of District Boards and enjoy a guarantee of interest granted by such Boards.

It has been notified by the Railway Board that railway systems now known as the Assam-Bengal Railway and the Eastern Bengal Railway will be combined with effect from the 1st January 1942 and known as the Bengal and Assam Railway (B & A Ry).

Mention may be made to the provision made in the Budget for 1941-42, of Rs 2 crores for the purchase of the Assam Bengal Railway and Rs 2½ crores for the purchase of the Bombay, Baroda and Central India Railway. Notice had also been given to purchase the Tapti Valley Railway (156 miles) at the end of March 1942 at an estimated cost of Rs 1½ crores, but the payment being due only in 1942-43, has not been provided for in this budget.

Railway Finance.—Under the separation convention which came into effect since 1925-26, the Railways in India are liable to make a contribution to general revenues which amounts on the average to a net payment of Rs 6 crores a year. The first payment to Government consists of the 1 per cent on the capital at charge of commercial lines less the loss incurred on working strategic lines. The Convention provides that the next three crores should go to the railway reserve and that thereafter only, two-thirds of the surplus should go to the railway reserve. The remaining third goes to general revenues. Yet there is another provision of the Convention. This stipulates that there shall be added to the 1 per cent contribution one-fifth of the surplus profits remaining after payment of that contribution. The fixed

Modern foundry shop practice is described in **PRACTICAL METAL CASTING**. Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

contribution is based on the capital at charge in the penultimate year and this one-fifth is calculated likewise. What that means is that this sum is only put into the railway reserve to be taken out again in the year after next

Of the fifteen years that have elapsed since the separation of railway revenues from the general revenues of India, the first six were prosperous years. After paying interest charges, and putting by a net sum of Rs 12 crores in the Depreciation Fund after meeting such of the expenditure on renewals and replacements as is chargeable under rules, to the Fund, the total surpluses amounted to Rs 52½ crores. During the next six years, the position was very different. There were successive deficits of Rs 5.19, Rs 9.20, Rs 10.23, Rs 7.96 crores, Rs 5.06 crores and Rs 3.99 crores during the years ending 1935-36. During the next years ending 1940-41 there were surpluses of Rs 121 lakhs, Rs 276 lakhs, Rs 433 lakhs, Rs 137 lakhs and Rs 14.59 lakhs respectively. During the period of prosperity, Railways met all their liabilities, and even in 1930-31, the first year of depression, they contributed 5½ crores to general revenues. This contribution was, however, met from accumulations in the Railways Reserve Fund. In all, during this period, after meeting all their liabilities, Railways contributed 42 crores to general revenues. After 1930-31, Railways have made no contribution to general revenues, and have only been able to meet working expenses and interest charges by borrowings from the depreciation reserve fund and 1940-41 was the first year after a period of eleven years in which the Railways had earned a profit after paying full interest charges and the entire amount of contribution for the year due to general revenues. The increase in earnings was mainly due to rise in traffic brought about by the war and enhancement of rates and fares with effect from March 1, 1940. The surplus for the year amounted to nearly Rs 18½ crores which is the highest in any year up to 1940-41 in the history of Indian railways. The following year however saw a further rise of surplus by over Rs 28 crores. Of the surplus in 1940-41, Rs 12.16 crores were adjusted towards contribution to general revenues and a substantial sum on account of arrears. In 1941-42, contribution to general revenues amounted to Rs 20.19 crores with the result that the amount of unpaid contribution now stands at Rs 12.61 crores. This fund began the year 1940-41, with assets of Rs 30½ crores. This excludes the debt of Rs. 30½ crores representing raids on the fund in the years of depression.

During 1936-37, Rs 121 lakhs were paid back to the Depreciation Fund. During 1937-38, 1938-39, 1939-40, 1940-41 and 1941-42, the Railways paid Rs 276 lakhs, Rs 137 lakhs, Rs 433 lakhs, Rs 12.16 lakhs and Rs 20.19 lakhs respectively as contribution to General Revenue.

The financial position of the State-owned Railways is as follows —

	Gross Receipts	Working Expenses*	Depreciation Fund	Interest Charges	Surplus or Deficit	Contribution to General Revenue	Transferred to Rly Reserve
			(in lakhs of Rupees)

As regards the arrears of contributions to the general revenues, it is stated that, until, the railways produced a surplus of the order of four crores and a half, the question of paying these arrears would not arise. The question relating to the Separation Convention and the question of evolving a more suitable system for the future will be gone into during the period of extension of the moratorium, but until the period of five years under the Niemeyer Award ended, no departure from the existing practice can be made.

Mention may be made of the fact that the extension of the moratorium in respect of the arrears of payments to the Depreciation Reserve Fund maintained for the Indian State-owned Railways and arrears of contributions to the general revenues, has been granted by the Central Assembly up to 1st April, 1942.

State Railways Earnings.—The following figures show the gross earnings of the principal State-owned Railways during the year 1941-42 as compared with the corresponding periods of the five preceding years:—

	1936-37	1937-38	1938-39	1939-40	1940-41	1941-42
	(in lakhs of rupees).					
A B Ry	1,70	1,76	1,91	2,00	2,09	2,26
B N. Ry	8,39	9,48	9,47	11,02	12,07	13,28
B B & C I Ry	11,92	11,97	11,89	12,25	14,08	15,40
E B Ry.	5,77	5,82	5,94	6,22	6,77	7,24
G I Ry	19,51	21,08	20,77	21,51	24,42	27,01
G I P Ry	13,26	12,97	12,91	13,60	16,76	20,94
M & S M Ry	6,72	6,89	7,26	7,65	8,13	9,53
N W Ry	17,07	16,88	16,39	16,33	19,08	22,09
S I Ry	5,13	5,34	5,22	5,26	5,85	6,80
Tirhoot & Lucknow						
Bareilly Ry.	2,07	2,11	2,08	2,03	2,33	2,37
Other Railways	50	53	51	56	58	68
TOTAL	92,04	94,84	94,35	98,43	1,12,16	1,27,60

It will be seen that the earnings in 1941-42, were Rs 15.44 crores more than those in 1940-41 and Rs 29.17 crores more than those in 1939-40.

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

The earnings from passengers in 1939-40 carried on all railways decreased from Rs 30,73,00,000 to Rs 30,47,00,000. The number of passengers carried in 1940-41 was 575,723,000 as against 529,700,000 in 1939-40 and 530,600,000 in 1938-39. Similarly, passenger-miles totalled 18,522,000,000 only, as against 18,743,000,000 in the preceding year. There was also a slight fall in the average lead per passenger, from 35.3 miles in 1938-39 to 35.0 miles.

The total freight tons carried in 1940-41 were 92,780,000 tons as against 92,200,000 tons in 1939-40. The net ton miles, similarly, rose from 22,159,000,000 in the previous year to 23,493,000,000, and the average haul likewise rose from 250.8 miles to 254.9. In 1940-41 nearly 693,000 persons were employed in State-owned railways in India involving a payroll of Rs 36.46 crores.

Goods earnings rose from Rs. 68,57,00,000 to Rs 72,56,00,000. Earnings from coal, rice and iron and steel (wrought) were the highest for the decade.

State Railway Expenses.—The expenses of the State-owned Railways during 1939-40 and 1940-41 follow—

	1939-40	1940-41
	(in lakhs of rupees)	
A, B Ry	1.19	1.29
B N Ry	6.09	6.20
B B & C I Ry	5.80	6.00
E B Ry	4.61	4.11

Miscellaneous Small	1,721,796	1,761,276	1,749,061	1,821,930	1,603,961
Miscellaneous Full					
Wagons	2,737,156	2,737,816	2,884,073	2,946,773	3,099,256
Home line stores					
& Materials		447,487	420,776	431,251	428,202

Munitions Production in Indian Railways.—More than 16,000 men in railway workshops are working on munitions, and thousands of others are under training for workshops or railway military units.

The gauge of the Indian railways may be chiefly classified under three heads—Standard (5 ft 6 in) gauge, Metre (3 ft 3½ in) gauge, and Narrow (2 ft 6 in and 2 ft) gauge.

Capital at Charge.—The capital at charge at the end of the year 1940-41 was Rs 761 crores as against Rs 758½ crores in 1939-40 and Rs 847 crores in 1938-39. The chief reduction in the assets arise from

Remodel your business methods with the ideas given in K. M. Banerjee's BUSINESS EFFICIENCY. Rs 2. Industry Book Dept., Calcutta.

the dismantling of the branch lines, the total mileage reduced by the end of the year ended March, 1940, being about 305 miles, of which 44 miles are of 2' 6" gauge and the rest broad gauge

Railway Rates Advisory Committee.—The committee has been constituted to investigate and make recommendation on (a) complaints of undue preference, (b) complaints about unreasonableness of rates, (c) complaints of disputes about terminals, (d) complaints about dearth of reasonable facilities in the railways. Headquarters of the Committee—Calcutta

Works Programme for 1941-42.—No expenditure is expected on new constructive projects. Important provisions include: Track renewals Rs. 6 crores, bridge work Rs 75 lakhs, structural works Rs 2½ crores, rolling stock Rs 4½ crores, locomotives and boilers Rs 181 lakhs, carriages Rs 89 lakhs, wagons Rs 169 lakhs and ferries Rs 18 lakhs, purchase of new lines Rs 4½ crores

Rolling Stock Programme for 1943-44—At the meeting of the Standing Finance Committee for Railways held on July, 4, 1942, the following rolling stock programme for 1943-44 was passed—

Capital Expenditure Rs 131 41 lakhs; Depreciation Rs 405 55 lakhs, Total Rs 536 96 lakhs. The total distribution by classes is as under—

	Depreciation		
	Capital	Fund	Total
	(in lakhs of rupees)		
Locomotives and boilers	77 54	134 26	211 80
Carriages	6 38	50.77	57 15
Wagons	47 49	220 52	268 01
TOTAL	131 41	405 55	536 96

Provision has been made for 31 new boilers, 11 broad gauge and 20 metre gauge engines on replacement account and 104 locomotives and 73 boilers on account of throw-forward. The carriage building programme has provision for 87 carriages. The wagon building programme includes provision for 2,858 broad gauge wagons, of which 500 are addition and 2,358 on replacement account. Of the latter 1,650 are required to replace stock sent overseas. The provision for 1,035 metre gauge general service wagons is all on replacement account. The detailed programme will be found elsewhere in this issue

RAILWAY SYSTEM IN INDIA.

Indian Railways are grouped under 3 classes—

CLASS I—The Indian railways with annual earnings exceeding 50 lakhs of rupees belong to Class I. A list of the Class I railways and the tract these traverse follows—

Baroda State Railways.—The total mileage owned by the State was 723 miles of which 21 42 miles were broad-gauge, 345 85 miles metre-gauge and 355 73 miles narrow-gauge. The broad-gauge section was worked by the B B & C I Railway and the Okha Railway, the metre-gauge section of 37 21 miles by the Jamnagar and Dwarka Railway.

The gross earnings of the metre-gauge and narrow-gauge railways during 1940-41 amounted to Rs 61,62,000. The coaching and goods earnings on both the narrow gauge and metre gauge sections increased by Rs 6,33,000, as compared with the average of the previous ten years. The chief item of goods traffic on the State-managed railways is cotton.

Bengal-Nagpur Railway. It traverses tracts with rich deposits of minerals and operates about 3,500 miles of line. One main branch of

Remodel your business methods with the ideas given in K. M. Banerjee's **BUSINESS EFFICIENCY.** Rs 2. Industry Book Dept., Calcutta.

the Railways runs from Howrah to Nagpur, where it joins the G I P lines, thus serving the eastern half of the Central Provinces, Bihar, Orissa, Western Bengal, etc. Another main branch of the Railway proceeds up to Waltair and Vizagapatam Port in the Madras Presidency branching off at Kharagpur. A secondary main line runs to the Bengal Coalfields connecting with the East Indian Railways at Asansol, Gomoh, Baikakana and Chandrapura. Among the branch lines, mention may be made of Purulia-Lohardaga, Tata-Baikakana, Tata-Badampahai, Sini-Asansol, Kanhan-Ramtek, Rajkhaishwan-Gua, Jharsuguda-Sambalpur, Katni-Bilaspur, Annupur-Chirmiri, Abhanpur-Rajm, Raipur-Dhamra, Raipur-Vizianagram, Adra-Gomoh, Gondia-Jubbulpur, Nagpur-Itwari-Chhindwara, Tumsar-Tirodi, Khurda Road-Puri, Cuttack-Talcher, Mayurbhanj and Palakmeda Light Rly, etc. The most important junctions with the E I Ry are Howrah, Asansol, Gomoh, Baikakana and Jubbulpur, with the G I P Ry are Nagpur, Itwari, Katni, Jubbulpore and Parasia, with the M & S M Ry is Waltair.

Areas served are different parts of Bengal, Bihar, Orissa, Madras and the Central Provinces.

Main workshops are situated at Kharagpur and Headquarters of the Controller of Stores at their offices in Garden Reach, Calcutta.

Figures of working for the system, during 1941-42 follow—Route mileage 3,379.95, number of passengers carried 24,012,121, amounts of goods carried 21,339,000 tons, Freight earnings (goods only) Rs 10,40,28,000, gross earnings Rs 13,42,18,000, new lines opened nil, gross expenditure (including appropriation to Depreciation Reserve Fund) Rs 7,72,10,000.

Head Office—Garden Reach, Calcutta.

Bengal and Assam Railway.—On the 31st December, 1941, the contract between the Government of India and the Assam Bengal Railways was terminated and the railway was purchased by the Government and amalgamated with the Eastern Bengal Railway. The line thus formed was styled the Bengal and Assam Railway.

The Bengal and Assam Railway serves the Province of Assam, Bengal and the north eastern portion of the province of Bihar.

The important lines are Calcutta to Siliguri, Calcutta to Goalundo, Calcutta to Khulna, Calcutta to Sirajganj, Calcutta to Lalgaol-Jogbani, Katihar to Lumding, Narayanganj to Bahadurabad and Chittagong to Tinsukia.

The Railway connects with other railways at Naihati, Katihar, Siliguri, Mariani, Titabai and Tinsukia and with the river services at Goalundo, Khulna, Narayanganj, Chandpur, Jugannathganj, Sirajganj, Dhubri, Amingaon, Pandu, Silghat, Bhairab Bazar.

The Railway's broad gauge locomotive, carriage and wagon works are at Kanchrapara and its metric gauge locomotive and carriage and wagon works are at Sandpur and Pahartali.

Figures of working during 1941-42 are—

Route mileage 3,456, Number of stations 804, Number of passengers carried 171,600,717, Tonnage carried 8,920,000, Total gross earnings 10,18,06,471, Working expenses 7,18,13,257, New lines opened, Nil, Stores purchased 1,66,83,000, Number of staff employed 76,318, Head Office—3, Kailaghat Street, Calcutta.

Bombay, Baroda and Central India Railway.—It is the largest of the Company-managed Railway in India and operates over 3,509.41 miles of line of which 1,259.59 miles are broad gauge, 2,025.30 miles metre gauge and 224.52 miles narrow gauge during 1940-41. This serves the northern half of the Bombay Presidency, Central India and

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners. As 5 Industry Book Dept, Shambazar, Calcutta.

the Southern portion of Rajputana. The main line runs from Bombay to Delhi through Surat, Broach, Baroda, Dohad, Kotah, Muttra, etc. The Southern section of the Railway runs from Bombay to Viamgam and Kharaghoda via Ahmedabad, while the northern section of the Railway extends through Rajputana to Delhi. There are also other important Branch Lines as Ajmer-Khandwa, Rewari-Fazilka, Agra-Cawnpore, Surat-Amalner, etc, etc. The Railway has junctions with G I P Railways, N W Rly., E I Railway and thus connects Bombay with the rest of India. It joins Jodhpur Railway at Maiwar Junction and thus forms part of a through route between Bombay and Karachi.

The Railway provides the shortest and quickest route between Bombay, Delhi and Northern India, and the Frontier Mail, a daily service de luxe, is one of the fastest and the best known, long distance trains operating in the East. It has its own workshops and Stores Depots in Bombay, with recently erected workshops at Dohad for the Broad Gauge system, and at Ajmer, the headquarters of the Metre Gauge system. There are Locomotive Workshops where locomotives are constructed, carriage and wagon shops, and a subsidiary stores Depot.

The results of the working of the Railways during 1940-41 are as follows—Route mileage 3,509.41 miles, number of passengers carried 104,678,100, weight of goods carried 10,583,000 tons, freight earnings (a) coaching Rs 53,693,000, and (b) goods Rs 91,973,000, gross earning Rs 14,80,63,000, new lines opened, nil total working expenses, Rs 7,63,39,000.

Head Office—Church Gate, Bombay

East Indian Railway.—The East Indian Railway is in point of route mileage the second largest of the Indian Railway systems but so far as freight traffic is concerned it is the most important. It serves the numerous cities of commercial, industrial, historical and religious importance in the Great Gangetic plain and serves as the outlet of the industrial quarters round Calcutta and the coal districts in Bengal and Bihar. The principal line runs from Howrah to Ghaziabad in the United Provinces serving the Western parts of Bengal, Bihar & United Provinces. The branch line linking Allahabad with Jubbulpore in the Central Provinces has been transferred under the control of the Great Indian Peninsular Railway while the lines which were formerly managed by the Oudh and Rohilkhand Railway have been added to it. Chief branch lines are—

Howrah-Mokameh Loop Line, Grand Chord Line, Bahaiwa-Bandel Line, Patna-Gaya Branch, Moghal Sarai-Saharanpur Line, etc. The Railway has junctions with the following railways

N W Railway—Saharanpur, Meerut, Ghaziabad, B B. & C I. Railway—Agra East Bank, Farukhabad, Hathras, Cawnpore, G I P. Railway—Cawnpore, Chheoki, Jumna Bridge, B N Railway—Howrah, Asansol, Pathardihi, Bhaga, Katrasgarh, Baikakana, Gomoh, B & N W Railway—Barabanki, Cawnpore, Jaunpur, Shahganj, Benares Cantt., Taighat, Digba Ghat, Mokameh Ghat, Bhagalpur, B A Railway—Nalhati, Manihari Ghat, R & K Railway—Bareilly, Moradabad, Lucknow.

The gross earning for 1941-42, namely Rs 27,23,67,000 showed an increase of Rs 2,81,93,000 equivalent to 11.55 per cent increase compared with the preceding year. The goods traffic earning was Rs 18,46,96,000 against Rs 17,03,12,000 in the preceding year. Passenger train miles in 1941-42 namely 17,425,000 showing a decrease by 63,000 or by 0.36%. Passenger traffic earning amounted to Rs 6,55,12,000 showing an increase of Rs 73,69,000 or 12.67%. Working expenses were

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners As 5. Industry Book Dept, Shambazar, Calcutta

Rs 15,48,13,000 showing an increase of Rs 1,98,92,000 or 14.74 p c compared with the preceding year.

Workshops—This Railway's carriage and wagon shops are situated at Lillooah and Lucknow (Alambagh) and Loco shops at Jamalpur and Lucknow (Chaubagh)

Head Office—Fairlie Place, Calcutta.

Great Indian Peninsula Railway.—This is the third largest railway in India with route mileage of 3,564.86. It is the first system in India to develop electrical traction. It serves the Central portion of the Bombay Presidency, Hyderabad, Western half of the Central Provinces, Central India, lower parts of the United Provinces and some parts of Rajputana. One line connects Bombay with Delhi, another with Allahabad, via Jubbulpore, another line extends from Bombay to Raichur via Poona while a fourth joins the Bengal Nagpur Railway at Nagpur. The branch lines are Dhond to Manmad, Itarsi to Nagpur, Katni to Bina, Kotah to Bina, etc. The system makes important junctions with other railways B B & C I Ry—Bombay, Amalner, E I Ry—Allahabad, Delhi, Agra, Cawnpore, N W Ry—Delhi, B N Ry—Katni, Jubbulpore, Nagpur, M & S M Ry—Poona, Hotgi, Raichur, Nizam's State Railway—Balharshah, Wadi.

Figures for 1940-41 follow—Route Mileage—Broad Gauge 3,363.30 miles, Narrow Gauge 201.56 miles, No of passengers carried 62,907,548, Tonnage of Goods carried 12,063,672 Tons, Freight earnings Rs 11,30,73,086, Gross earnings Rs 17,46,55,632, New lines opened Nil.

Head Office—Victoria Terminus, Bombay.

Jodhpur Railway—This serves the Eastern part of Sind and North-Western part of Rajputana. It runs from Hyderabad (Sind) to Kuchaman Road via Luni Junction, Jodhpur, Pipal Road, Merta Road, Degana and Makrana and from Luni Junction to Maiwar Junction. Its branches are (1) Pithoro-Jamras Loop, (2) Mirpur Khas-Nawabshah (in Sind), (3) Balotra-Pachpadia Salt Depot, (4) Samdani-Raniwara, (5) Maiwar Junction—Phulad, (6) Jodhpur-Pokaran, (7) Pipal Road—Bilara, (8) Merta Road—Merta City, (9) Merta Road—Chilo, (10) Degana—Sujangarh, (11) Makrana—Paibatsar. At Chilo Junction and Sujangarh Junction it joins the Bikaner State Railway carrying traffic to Bhatinda and Hissar respectively. At Kuchaman Road and Maiwar Junction it joins the B B & C I Railway for traffic to Delhi and Bombay respectively. The North-Western Railway joins the Jodhpur Railway at Hyderabad for traffic to Karachi and at Nawabshah for traffic to Upper Sind. At Phulad it joins the Mewar State Railway for traffic to Udaipur.

Figures of working during 1941-42 follow—

Route mileage 1,125.69, Number of passengers carried 59,38,219. Amount of Goods carried 14,92,454 tons, Freight earnings Rs 1,01,96,671, Gross earnings Rs 1,70,69,584, Stores purchased Rs 23,38,320, Gross expenditure Rs 73,78,932.

Important changes in fares and goods tariff are as under—

(1) A reduced rate for soda ash or soda crystals in wagon loads from Dhrangadra to Hyderabad (Sind) via Marwar Jn was introduced in competition with the rail-cum-sea route via Karachi.

(2) A reduced rate for tea O R L from Howrah to Hyderabad (Sind) via Agra East Bank and Kuchaman Road equal to that obtaining via all B G route was introduced.

(3) A reduced rate for coconuts and coconuts kernels in bags W/270, O R L from Badagara to Hyderabad (Sind) via Jalarpur.

Those after business will get novel business tips from **START A BUSINESS** As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Aikonam, Raichur, Dadar and Marwar Jn was quoted in competition with the sea-cum-rail route via Karachi.

(4) Reduced rates for sugar at O R. from certain stations on the R. & K and B. & N W. Railways to Hyderabad (Sind) were introduced in order to ensure that sugar from these stations is booked direct to Hyderabad (Sind) instead of being first booked to Karachi and thence rebooked to Hyderabad (Sind) as was being done previously.

(5) Reduced rates quoted for wheat from Nawabshah and Hyderabad (Sind) to Bombay via Marwar Jn were extended to apply from via Hyderabad (Sind) and via Nawabshah for traffic from N W. Railway stations

(6) Concessions for Easter & Divali holidays for all classes were allowed.

(7) Third class zone tickets were introduced over the Gadra Road—Hyderabad (Sind) section including Pithoro—Jamrao loop line and Mirpurkhas—Nawabshah Railway to stimulate passenger traffic in slack season

(8) 3rd class single journey tickets at reduced fares between certain stations in Sind and all concession return tickets issued over this railway were withdrawn due to suspension of competitive bus services and to discourage passenger traffic during the present emergency

Madras and Southern Mahratta Railway.—It affords direct communication between various places in the Madras Presidency, and in connection with other Railways forms direct main line through routes from Madras to Calcutta, Bombay, Upper India and to Mangalore and West Coast. The chief lines run from Madras and Poona, and thus serve the Northern and Central parts of the Madras Presidency, a small part of Hyderabad and the Southern part of the Bombay Presidency and Mysore. The important junctions are—N. S. Railway—Dronachellam and Bezwada; G. I. P. Railway—Raichur, Poona, Hoga, B. L. Railway—Miraj, B. N. Railway—Waltair, S. I. Railway—Madras, Arkonam, Katpadi, Jalarpet, Mysore Railway—Bangalore, Bowringpet, Harihar and Hindupur.

Figures for 1940-41 Route Mileage 2935 90, Gross earnings Rs 805 lakhs, Gross expenditure Rs. 380 lakhs

Head Office—Park Town, Madras

Mysore State Railway.—The total mileage of the lines in the State is 757.70 miles, of which 988 miles of Broad Gauge are worked by the M & S M Railway Company and 747.82 miles (Metre Gauge 609.42 miles, 2'—6" Gauge 102.20 miles and 2ft.—0 in Gauge 36.20 miles) are worked by the State

Particulars of working for 1941-42 are given below —

Route Mileage 747.82 miles, No of passengers carried 1,16,12,994, No of tons carried 12,32,220, Freight (Goods) Earnings Rs. 55,19,293, Stores Purchased Rs. 20,32,885, Gross Earnings Rs 103.40 lakhs, Gross Expenditure Rs 6.54 lakhs

Head Office —Mysore

Nizam's State Railway.—This serves the Hyderabad State. The system furnishes a direct through route between Madras, Delhi and the North. The railway connects at three points with the G. I. P. Ry, viz Wadi, Manmad and Balharshah. It has two exchange points with M & S Ry at Bezwada (for Madras and Cocanada points) and at Dronachellam. The chief lines are Wadi-Bezwada including mineral branch Karepalli-Kothagudam, Kazipet-Balharshah, Vikarabad-Purli-Vairnath, Secunderabad-Manmad, Purna-Hingoli, Parbhani-Purli, Secun-

Those after business will get novel business tips from **START A BUSINESS. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta**

derabad-Dronachellam A branch line to serve the sugar factory at Bodhan has been constructed and construction of new line to serve Adilabad abounding in minerals and agricultural and forest products has been sanctioned

Figures for 1941-42—Route mileage 1,360 No of passengers carried 93,89,000. Tonnage of goods carried 34,16,000, Freight earnings Rs 3,14,95,000, Gross earnings Rs 3,20,39,000, Stores purchased Rs 61,52,000

Lines under Construction—A new line (101 mile), from Mukhed to Adilabad to serve the Adilabad District abounding in minerals and agricultural and forest products

Head Office —Secunderabad (Deccan), Workshop, Lallaguda

North Western Railway.—This is the longest railway in India and comprises 7088.23 route miles, including the Nekkundi-Zahidan (157.28 miles single line), the Landi Kotal-Landi Khana (5 miles, single line) and the Baijnath Paprola-Jogindar Nagar (14.53 miles single line) section closed to traffic. It serves almost the whole of the Punjab, Sind, North-West Frontier and Baluchistan Provinces. The two most important main lines connect Delhi with Peshawar Cantonment and Delhi with Karachi via Lahore. Some of the important branches are — Bhatinda to Samasatta, Bhatinda to Rajpura, Wazirabad to Khanewal, Wazirabad to Jammu Tawi, Rawalpindi to Kohat Cantt, Pathankot to Amritsar, Lahore to Lyallpur, Ludhiana to Hissar and Ferozepore to Hoshiarpur. The N W Ry, connects with the East Indian Railway at Saharanpur, Meerut and Gaziabad and with the Great Indian Peninsula Railway at Delhi. The Bombay Baroda and Central India Railway metre gauge line from Ahmedabad and Khandwa has interchange facilities with the North Western Railway at Delhi, Hissar, Bhatinda, Fazilka and Kot Kapura while the Bikaner Railway connects at Bhatinda and Jodhpur Railway at Hyderabad and Nawabshah

Figures for working in 1939-40 Total route mileage 6,941 miles Number of passengers carried 67,246,000, total tonnage carried 1,35,72,000 Freight earnings (excluding miscellaneous goods earnings) Rs 1,06,79,653 and gross earnings Rs 16,89,78,546 Stores purchased Rs 2,76,69,757 Gross expenditure Rs 11,96,45,179

Head Office —Lahore

Oudh Trihut Railway.—It is the only big Indian line that is not based upon one or other of the four principal cities—Delhi, Bombay, Calcutta and Madras. Its system, constructed throughout on the metre gauge traverses some of the richest and densely populated parts in Northern India and taps at several places the independent State of Nepal. This connects Bihar with Bengal on the one hand and the United Provinces on the other. The principal line extends from Katihar on the B & A Ry to Cawnpore in the United Provinces. The other branch lines consist of Mokameh Ghat to Sonapur via Muzaffarpur, Chapra to Benares Cantt, Gorakhpur to Gonda, Shahganj to Ballia, Narkatgunj to Darbhanga, etc, etc. It joins the Rohilkhand and Kumaon Railway at Sitapur and Lucknow and makes important connections with E I Ry. at Mokameh Ghat, Cawnpore, Benares, Allahabad, Patna, Bhagalpur and Barabanki. It joins the G I P at Cawnpore and Allahabad and B B & C I at Cawnpore again. In fact the Railway serves U P and Bihar provinces north of the Ganges. Cawnpore to Katihar.

Figures of working during 1940-41 —Route mileage 2,098, number of passengers carried 33,624,000, goods carried 4,548,000

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**. Re 1/12 Industry Book Dept., Shambazar, Calcutta.

tons, freight earnings Rs 2,44,45,000, gross earnings Rs 41,384,000, stores purchased Rs 5,720,000, gross expenditure Rs. 1,84,15,000 New Lines opened Nil

Hd Office —Gorakhpur

Rohilkund and Kumaon Railway Co., Ltd.—This Railway runs from Lucknow on the E I Ry, to Kasganj on the B B & C I Ry passing through Sitapur, Lakhimpur Kheri, Gola Gokarannath, Pilibhit, Bareilly, Budaon and from Bareilly to Kathgodam the station nearest Naini Tal It also serves by branch lines the area bordering Nepal, also Shahjehanpur, Moradabad and Ramnagar at the foot of the hills

Head Office —Izmatnagar

South Indian Railway:—The system is well connected up and the new lines opened during recent years help to consolidate railway facilities in Southern India The main line extends from Madras to Rameswaram and Dhanushkodi while others are Madras to Mettupalaiyam, Madras to Mangalore via Podanur, Trichinopoly to Erode, Madurai to Tutucoin, Maniyachi to Trivandrum via Quilon, etc. There are connections via Dhanushkodi and Talamannar with Ceylon The Railway has junctions solely with Madras and Southern Mahratta Railway, contact being made at Madras Beach, Jalarpet, Katpadi and Arkonam

Figures of working for 1940-41 —Route mileage on 31st March, 1941, 250018. Number of passengers carried 57,349,847 Tonnage of Goods carried 5,486,188, Freight earnings (Goods) excluding Steam Boat Rs 352,73,946, Gross earnings Rs 6,14,54,661. Stores Purchased Rs 78,95,000, Working Expenses Rs 3,29,04,864

MINOR RAILWAYS IN INDIA.

CLASS II—Those railways whose earnings exceed Rs 10 lakhs a year but are less than Rs 50 lakhs are—

Barsi Light Railway, Bhavnagar State Railway, Bikaner State Railway, Darjeeling-Himalayan Railway, Dibru-Sadiya Railway, Gondal Railway, Howrah-Amta Light Railway, Jamnagar and Dwarka Railway, Junagad State Railway, Morvi Railway, and Shahdara-Saharanpur Light Railway

CLASS III—The following are some of the railways whose earnings fall below Rs 10 lakhs a year —

Aden Railway, Ahmedpur-Katwa Railway, Allah-Sasaram Railway, Bankura-Damodar River Railway, Baraset-Basihat Light Railway, Bengal Provincial Railway, Bukhtiarpur-Bihar Light Railway, Burdwan-Katwa Railway, Cutch State Railway, Dehra-Rohtas Light Railway, Dholpur-Bari Railway, Futwah-Islampur Railway, Gwalior Light Railway, Howrah-Sheakhala Light Railway, Jagadhri Light Railway, Jorhat (Provincial) Railway, Kalighat-Falta Railway, Kolai District (including Bangalore—Chik Ballapur Light Ry) Railway, Kulasekarpattanam Light Railway, Matheran Light Railway, Tezpur-Bahpara Light Railway, Trivellore Light Railway, Udaipur-Chitorgarh Railway

GENERAL RULES ON INDIAN RAILWAYS.

Free Allowance for Luggage.—All passengers' luggage is weighed and the following quantities are allowed free of charge —

For each 1st Class Passenger	—	—	1½ maunds
" " 2nd Class Passenger	—	—	1 maund
" " Inter Class Passenger	—	—	30 seers
" " 3rd Class Passenger	—	—	25 seers

and half of these quantities is allowed for each child's (half) ticket

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

Bedding, Walking sticks, Tiffin baskets, etc., are allowed free

Rates for parcels exceeding $2\frac{1}{2}$ seers in weight.—Parcels exceeding 2½ seers in weight shall be charged at scheduled rates according to weight of the parcel on the through distance

Payment of charges.—Except in the case of dangerous and other goods specially provided for in the General Classification of Goods or in Exception Lists for which prepayment of freight is compulsory, all charges must be paid either when goods are presented for despatch or at the time of delivery, and all goods are subject to lien not only for the freight, wharfage demurrage and handling charges on the particular goods but also for any general balance which may be due to the Railway by the owner or consignor or consignee of such goods. If the money in respect of which goods are detained be not paid they may be sold by auction, in the case of perishable goods at once and in the case of other goods, on the expiration of 15 days' notice of the intended auction and the proceeds applied in liquidation or reduction of the amount due and expenses

Notice of loss or damage.—The Railway shall not be responsible for any damage to, or loss of property unless notice of such is given the Railway's premises of the property or of the package or packages, the contents or parts of the contents of which are alleged by the claimant to be damaged or lost or of the rest of the consignment, a portion of which is alleged by the claimant to be lost (as the case may be)

Time-limit of claims for compensation.—No person shall be entitled to claim compensation for loss destruction or deterioration of animals or goods delivered to be carried by the Railway unless a claim is preferred in writing to the Railway Administration within six months from the date of the delivery of the animals or goods for carriage by Railway

Time limit for refund of over-charges—No person shall be entitled to a refund of an overcharge in respect of animals or goods carried by railway unless his claim to the refund has been preferred in writing by him or on his behalf to the Railway Administration within six months from the date of the delivery of the animals or goods for carriage by railway

Risk Notes.—In all cases when goods or live stock are conveyed at the risk of the owner or on the understanding that the risk accepted by the Railway is limited to any extent the full value of the consignment or the several sums prescribed in the Indian Railways Act IX of 1890, the consignor is required to execute a risk note

GOODS TARIFF.

The Indian General Railway classification of goods comprises 16 classes, each with a scale of maximum and minimum rates and is in force in most of the railways. But goods are often carried at reduced commodity rates, either on the basis of fixed reduced schedules or at special lumpsum rates

Whereas the maximum and the minimum rates are the same for all Indian railways there remains a wide margin between the two to enable each railway to regulate its charges within the maxima and minima limits

The maximum and minimum rates for the 16 classes into which the goods have been grouped are as follows —

OPPORTUNITY BOOKS from INDUSTRY PRESS. Write for recent Catalogue INDUSTRY BOOK DEPT., Shambazar, Calcutta.

	Maximum pies per md per mile	Minimum pies per md per mile		Maximum pies per md per mile.	Minimum pies per md per mile
1	38	100	4B	72	166
2	42	100	5	77	166
2A	46	100	6	83	166
2B	50	100	6A	89	166
2C	54	100	7	96	166
3	58	166	8	1 04	166
4	62	166	9	1 25	166
4A	67	166	10	1 87	166

The following is the scale of maxima and minima rates for the carriage of coal including coke and patent fuel for the public exclusive of a surcharge of 20 per cent generally imposed on coal.—

Maxima Rates

- (I) In wagon loads at O R. per maund per mile.
 (a) For distances upto 400 miles—
 For the first 200 miles 0 165 pie.
 Plus for extra distance above 200 miles and upto 400 miles 0 150 „
 (b) For distance above 400 miles—
 For the first 400 miles 0 15 „
 Plus for the distance in excess of 400 miles 0 10 „
 The above rates are subject to the Differential Rule
- (II) In consignments of less than in wagon loads at O R. $\frac{1}{2}$ „
- (III) In wagon loads at R R. 38 „
- (IV) In consignments of less than in wagon loads at R R.

Minima Rates

- For distances up to 300 miles 0 10 „
 Plus for any distance in excess of 300 miles and upto 500 miles, inclusive 0 066 „
 Plus for any distance in excess of 500 miles 0 05 „

The surcharge does not apply in the case of (1) soft coke and (2) coal and coke consigned to Howrah and Calcutta, and (a) exported thence by sea to any port foreign or Indian, or (b) loaded for bunkering in the sea-going vessels within the limits of the port of Calcutta

PAYMENT OF RAILWAY ANNUITIES

The Government of India has entered into an agreement with His Majesty's Government, whereby the former, by making a lumpsum capital payment to the latter, has assured the provision of funds necessary to meet future payments in respect of sterling railway annuities. The aggregate amount of such payments which remain to be made after 1st October, 1942, is £34,114,654. The various purchase Acts relating to railways specifically impose this liability on the revenue of India. The Government of India will now pay to His Majesty's Government a lumpsum of £30,054,250 as against the outstanding liability of £34,114,654. In return for this, His Majesty's Government has given an undertaking to provide the Government of India with sums equal to the requisite instalments for the several annuities as and when they fall due. Henceforward, it will no longer be necessary for the Government of India to make any provision from Indian revenues in connection with railway annuities. Arrangements have been

Utilise your waste products by reading **UTILISATION OF COMMON PRODUCTS**. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

made by the Government of India with Reserve Bank of India for financing the above mentioned payment through ways and means advances and the issue of ad hoc Treasury Bills against the release of sterling from the Issue Department of the Bank, which will be liquidated in due course. In order to assist the financing of this operation, the Government is raising a new loan to the extent of Rs 15 crores by making a further issue of the existing 3 per cent 1963-65 loan, the issue price being Rs 95.

PAYMENTS OF RAILWAY'S STERLING LIABILITIES

Except for some £9 million which is the share capital of three railways still to be acquired, by the State, India has now paid off or will have paid off in a year's time, all her liabilities to Britain in respect of her railways. The Bengal-Nagpur, the Madras and Southern Mahratta and the South Indian Railways and only three foreign-owned branch lines will be left over for purchase. In pursuance of the policy of repatriating their sterling debt the Government of India—have arranged to repatriate the following debenture stocks of the aggregate nominal value of £200 million, the rupee counterpart prices of which per debenture of £100 are given in the brackets—

East Indian Railway irredemnable 4½ per cent debenture stock (Rs 1,499-2), Great Indian Peninsula Railway irredemnable 4 per cent debenture stock (Rs 1,392-0), South Indian Railway perpetual 4½ per cent debentures stock (Rs 1,449-4), East Bengal Railway irredemnable 4 per cent debenture stock (Rs 1,392-0), Burma Railways 3 per cent debenture stock (Rs 1,177-14), East Indian Railway 3 per cent new debenture stock (Rs 1,234-0), Bengal and North Western Railway 5 per cent special debenture stock (Rs 1,371-15), Bengal Nagpur Railway Company Limited, 4 per cent debenture stock (Rs 1,361-14), and South Indian Railway Company Limited, 4 per cent registered debenture stock (Rs 1,361-14).

The Secretary of State has also given a year's notice to redeem the following railway debentures aggregating £111 million—East Indian Railway 3½ per cent debenture stock, Great Indian Peninsula Railway 3½ per cent 95 debenture stock and Bombay Baroda and Central India Railway 3½ per cent debenture stock. These will be paid on the 4th February, 1944.

INDIA'S RAILWAY TRANSPORT DIFFICULTIES

During this war time the difficulties of Indian railways, which constitute the most important means of transport, are due to shortage of wagons and locomotives in the face of the increased pressure upon the railway system caused by war demands. These difficulties must be attributed more to the lack of a sufficient number of locomotives than to shortage of wagons. There are three ways of increasing the supply of locomotives. The first is to manufacture locomotives in India, but those railway workshops capable of undertaking the manufacture of locomotives are busy with the production of important munitions. The second possible method of improving locomotive supplies is to expedite repairs, and the third is to get imports of locomotives from abroad. In regard to wagons, it may be said, that India now possesses the requisite materials required to manufacture them. Besides these if vigorous efforts by the authorities are made to curtail unnecessary traffic and to eliminate transport of materials over long distances if such materials are available in the areas round about the centres where they are required India's railway transport difficulties can to a large extent be removed.

SHIPPING INFORMATION

WITH coastline of 2,500 miles and a foreign trade aggregating a sum of 430 crores of rupees, India harbours a large number of ports showing a great variation in shipping accommodation and the volume of foreign trade passing through them. The ports are generally classified as major ports and sub-ordinate ports. Calcutta, Bombay, Karachi, Madras and Chittagong which enjoy among them 85 per cent of the total foreign trade of India are classed as major ports while ports in a province next in importance to the chief port are known as sub-ordinate ports. A list of principal ports of India follows —

Bengal—Calcutta, Chittagong, Cox's Bazar, Nilla

Bombay Presidency—Bombay, Ratnagiri, Broach, Karanji, Dabhol, Uran, Henawar, Malwan, Bhandup, Bankut, Vengurla, Surat, Sanikatta, Revdanda, Belapur, Jaitapur, Karwar, Dharsana, Trombay

Madras Presidency—Madras, Cochin, Tuticorin, Calicut, Cocanada, Mangalore, Masulipatam, Vizagapatam, Dhanuskodi, Cuddalore, Negapatam, Cannanore, Badagara, Tellicherry, Bimlipatam.

Orissa—Balasore, Calingapatam, Chandbali, Gopalpur, Cuttack, False Point, Puri

Sind—Karachi, Keti Bandar, Sando Bandar, Shaha Bandar.

French Ports—Pondicherry, Mahe, Karikal.

Portuguese Ports—Mormugao, Porto Novo

Indian States—Bedi (Nawanagar), Okha (Baroda State), Porbandar (Porbandar State), Bhavnagar (Bhavnagar State), Alleppey, Colachel and Quilon (Tiravancore), Mandvi (Cutch), Jafarabad (Jafarabad State), Junagadh (Junagadh State), Navlakhi (Morvi State)

A table giving the tonnage entered and cleared with cargoes in India (proper) excluding Burma during the five years ending 1939-40 is given below. The figures for 1939-40, though smaller than those for the previous year are still considerably better than could be expected under the abnormal conditions prevailing since the declaration of war. With the introduction of the convoy system aided by the air force, conditions generally improved. Nevertheless, the shortage of shipping space and a great increase in freights and war risk insurance rates continued to hamper the export trade in many commodities.

		Tonnage entered with cargoes	Tonnage cleared with cargoes
		(in 1,000 tons)	
1935-36	—	9,232	8,702
1936-37	—	8,915	9,107
1937-38	—	9,040	9,501
1938-39	—	9,431	9,657
1939-40	—	9,232	9,059

The major ports of Calcutta, Bombay, Rangoon, Karachi, Madras and Chittagong are for administrative purposes placed under the control of bodies styled Port Trusts or Port Commissioners, who, subject to the control of the Local and Imperial Government, have certain wide powers vested in them by law to levy dues and taxes in connection

with the landing and shipping of goods and to utilise the amounts so realised for the betterment of the port

COASTAL AND INLAND SHIPPING.

Asiatic Steam Navigation Co., Ltd., (A. S. N. C.)—Sailings to Colombo and Bombay via Coast ports, also Middle East Managing Agents—Turner Morrison & Co. Ltd, 6, Lyon's Range, Calcutta.

Bengal Assam Steamship Co., Ltd.—Maintains a service of steamers and flats for the transport of produce, principally jute, on the rivers of Bengal Managing Agents—Andrew Yule & Co., Ltd, 8, Clive Row, Calcutta

Bengal River Service Co., Ltd.—Ply regularly a cargo service between Calcutta and Eastern Bengal and Assam Agencies—Dacca, Narainganj, Mirkadim, Bhairab, Chandpur, Madaripur, Charmuguria, Khulna, Dhubri, Goalpara, etc

Bombay Steam Navigation Co., Ltd., (B. S. N. Co.)—The Company have headquarters at Bombay Their principal routes are from Bombay to Mangalore (421 miles) via Mormugao and from Bombay to Kiamari (Karachi) (546 miles) via Porbunder, touching at the more important ports on way The steamers of the Company ply on the following lines, calling at intermediate ports—Bombay-Mangalore, Bombay-Karachi, Bombay-Gulf of Cutch, Bombay-Bhavnagar, Bombay-Nahava, Bombay-Dharamtar, Bombay-Dabhol, Bombay-Vizadurg, Bombay-Panym, Agents—Killick Nixon & Co, 100, Frere Road, Bombay

Calcutta Steam Navigation Company Limited (C. S. N. Co.)—The Principal lines are Calcutta to Ghatal (touching at Geonkhah, Kolaghat and Ranichuck), Kolaghat to Ranichuck, Calcutta to Nuddea (touching at Santipur and Kalna). Ferry Services are run between Chandpal Ghat, Rajgunge and intermediate stations in the Port of Calcutta These Services are run throughout the year The Services from Calcutta to Islampore, Calcutta to Dhulian (touching at Katwa, Jangipur and Raghunathgunge), are run during the rains The company owns, among others 5 double-decked steamers, 14 launches and tugs, 192 lighters, 17 barges and flats The company also owns a workshop at Bally (The Ganges Engineering Works) for the building and repairing of various types of water vessels It also acts as Shipping and Clearing Agents The Managing Agents of the company are Hoare, Miller & Co, Ltd, 5, Fairlie Place, Calcutta

East Bengal River Steam Service Ltd.—Regular Bi-weekly services on Mondays and Thursdays from Calcutta to Chandpur, Narayanguni, Kamlaghat, Dacca and Bhairab Carry jute and other merchandise to Calcutta from Ashuganj, Bhairab, Narsingdi, Dacca, Narayanganj, Sherajdigha, Tarpassa, Chandpur, Jobsa, Charmugria, Madaripur, Khulna, etc Mng Agents—Raja Sreenath Roy & Bros, 87, Sovabazar Street, Calcutta, Phone BB 1138, Telegrams "Indosteam," Calcutta

Eastern Steam Navigation Co. Ltd., 24 Mangalore Street, Fort, Bombay—Mng Agents Shariff Hassum & Co, Bombay Agents—L V Govindji & Co, Campbell Street, Karachi, Hemraj Pitamber, Cannanore, Kanji Raichand & Co, Tellicherry, Badagara and Calicut, Goverdhan Hathibhai & Co., Cochin & Alleppey, V N P Ramasami Nadar, Tuticorm, A Nanji & Co, Colombo, Pyarelal Malhotra, Madras

India General Navigation and Railway Co., Ltd., and Rivers Steam Navigation Co., Ltd.—Operate goods services between Calcutta and all parts of Assam, Eastern Bengal, Bihar and the United Provinces The most important services are (1) Calcutta (Jaggernathghat) to Dibrugarh (Assam) including cargo for Churmugria, Sirajganj,

The Sphere of Tea: An exposition of the Cultivation, Manufacture and Trade of Tea in India. Rs. 3. Industry Book Dept., Shambazar, Calcutta.

Jagannathganj, Dhubri, Gauhati Bazar Ghat, Tezpur, Silghat, Desangmukh and Dibrugarh (2) Calcutta (Armenian Ghat) to Silchar including cargo for Chandpur, Mirkadim, Narayanganj, Dacca, Bhairab, Markuli, Chhatak, Sylhet, Fenchuganj, Karimganj, and Silchar (3) Calcutta (Juggernathghat) to Barisal including cargo for Khulna, Hularhat, Jhalakati, Barisal, Patuakhali and Bhowaniganj (4) Calcutta (Juggernathghat) to Ganges Stations up to Buxar Ghat and Burhaj including cargo for Goalundo, Pabna, Rajshahi, Lalgola, Rajmahal, Bhagalpur, Khagaria, Monghyr, Semeria, Mokameh, Patna, Digha, Ballia and Buxar

The chief passenger services are (1) Goalundo to Narayanganj, Dacca, Chandpur (for Chittagong, Silchar and Sylhet), Fulchari and Bahadurabad (2) Khulna to Barisal, Chandpur and Dacca, Khulna to Madaripur, Satkhira, Boalmari, Magura (3) Barisal to Madaripur, Tarpasa, Bhowaniganj, Sylhet, Jhalakati, Bagirhat, Patuakhali, Galachupa and Khepupara (4) Narayanganj to Bhairab, Chhatak, Porabari (5) Sirajganj to Jagannathganj, Charabari (6) Amingaon and intermediate stations to Tezpur and Kakilamukh (7) Dhubri to Goalpara

THE MONEY MARKET

INDIAN MONETARY SYSTEM.

THE MOGHUL system of currency was distinguished by the large number of mints, scattered all over the country, from which coins were issued. The principal gold coin was called the S'hansah but twenty five other gold coins were also in circulation. The gold coins, however, were not so much in use as the silver ones. Of the latter the most important coin was the "Rupee" round in shape and weighing $11\frac{1}{2}$ mashas (almost the same weight as that of our present 'rupee,' which is 12 mashas). This was first introduced in the reign of Sher Shah but was greatly improved by Akbar. Another silver coin, first issued by Akbar, was the Jalalah which had the same weight and impression as the rupee but was square in shape. Then there were seven other subsidiary coins, the smallest silver piece being the Suki which was $\frac{1}{20}$ rupee. There were copper coins too in circulation, beginning with the Dam, forty of which went to the rupee. The smallest copper coin was the Damri ($\frac{1}{8}$ dam). Besides these there were a large number of coins issued by the other independent chiefs. Even in the beginning of the nineteenth century four different rupees were current—the Murshidabad rupee of the nineteenth year of Shah Alam's reign, weighing $179\frac{1}{2}$ grains (175.9 grains pure silver), which was known as the sikka rupee, the Surat rupee, containing 164.7 grains of pure silver, the Arcot rupee of 166.5 grains pure silver, when first coined at the mint of Fort St. George, and the Lucknow rupee of the Vizier of Oudh, containing 165.2 grains of pure silver when it was adopted for coinage at the Farukhabad mint. The sikka rupee was the principal standard of value. Besides these there were also various gold coins—the gold Mohur of Bengal, the old Bombay Mohur, the Bombay gold rupee, various pagodas of Madras (e.g., the Stal pagoda, the old pagoda and the Porto Novo pagoda) also the gold rupee, half-rupee and quarter rupee which took the place of Madras pagodas under a regulation of 1818.

In 1835 a uniform currency was established in the whole of India, when the Madras rupee, approximately equal in value to that of Bombay and Farukhabad, weighing 180 grains, out of which 165 grains were pure silver (i.e., $11\frac{1}{12}$ ths fine), was adopted as the standard for the whole of the Company's dominions in India. From the year 1862 the Government rupee, being exactly of the same weight and fineness, replaced the old East India Company's rupee as well as others which were in circulation.

The principal gold coin in British India was the gold Mohur which was exactly of the same weight and fineness as the silver rupee. Besides this, a double Mohur, a $\frac{1}{2}$ Mohur and $\frac{1}{4}$ Mohur were also supplied by the Mints of British India. These however ceased to circulate since 1806 when the Government of India laid down that silver should be the universal money of account in India.

The chief coin is the rupee weighing 180 grains Troy or 1 tola $11\frac{1}{12}$ fine (i.e., 165 grains fine silver to 15 grains alloy). The next

INVENTIONS OF TO-DAY makes your information up-to-date As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

in value is the 8-anna piece or $\frac{1}{2}$ rupee weighing 90 grains Troy silver 11/12 fine; 4-anna piece or $\frac{1}{4}$ rupee and 2-anna piece or $\frac{1}{8}$ rupee containing proportionate weights of silver of the same degree of fineness as the rupee. According to an amendments to the Indian Coinage Act, silver coins are now minted having the reduced fineness of one-half silver and one-half alloy. Token coins of cupro-nickel of the denomination of 1-anna, 2-anna and 4-anna are also in circulation. The bronze coins are 2-pice piece, 1-pice piece, $\frac{1}{2}$ -pice piece and 1 pie. Silver 4-anna pieces are still found in circulation in the market.

The old sikka rupee, a rupee of account known as current rupee commonly adopted by the East India Company, and the Government rupee sometimes occur in the description of the history of the Money Market and may lead to confusion. A conversion table here follows --

100 Government rupees = 93 $\frac{1}{2}$ sikka rupees = 108 $\frac{1}{2}$ current rupees.

100 Sikka rupees = 106 $\frac{1}{2}$ Government rupees = 116 current rupees

100 current rupees = 91.95 Government rupees = 86.20 sikka rupees

BRITISH INDIAN MONETARY UNITS.

1 Pie		Marked P	per value
3 Pies	make 1 Pice	" PS	" "
4 Pice or 12 Pies	" 1 Anna	" A	" "
16 Annas	" 1 Rupee	" R	" "

The rupee and $\frac{1}{2}$ rupee are legal tender in payment or on account. The other coins are legal tender for any sum not exceeding 1 rupee. Notes in denominations of 1, 5, 10, 50 and 100 are legal tender throughout British India but notes for 500, 1,000 and 10,000 had been at first legal tender in their respective circles, viz, Calcutta, Madras, Bombay, Lahore, Cawnpore and Karachi, but they are now encashable anywhere in the country.

Since the inauguration of the Reserve Bank of India in April 1935 the sole right of note issue has been given over to the Bank. The Reserve Bank issues bank notes of rupees 5, 10, 50, 100, 500, 1,000 and 10,000 in denomination and manages the old currency notes on a par with bank notes. Bank note of all denominations are legal tender in any place in British India. The Government of India have recently issued one-rupee notes.

EXCHANGE VALUE OF MONEYS.

The exchange value of the moneys on any particular date is determined in countries having different monetary units by the rate of exchange holding on that day. Indian newspapers publish daily quotations of foreign exchanges on such centres as London, New York, Paris, Japan, Java, Shanghai, Hongkong, Singapore and Germany. The mode of quoting the various rates will be seen below --

The exchange quotations appearing under the Foreign market columns of the Indian newspapers generally represent the number of standard coins that are equivalent to one sovereign. For example, London exchanges on New York, Sweden, etc., are given in their respective standard coins per pound sterling. But in some cases, e.g., Portugal, India, China, Japan, etc., the quotations are expressed the other way round i.e., in pence per monetary unit in circulation in these countries.

METHOD OF QUOTATION

Exchange is quoted in India on the following basis --

The London-New York cross rate is expressed in dollars per £ sterling.

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business. Rs. 2. Industry Book Dept., Shambazar, Calcutta.

On London—T T. (Telegraphic Transfer) in shillings and pence per rupee.

" —O. D. (On Demand) in shillings and pence per rupee.

" —3 m-st (3 months' sight) in shillings and pence per rupee.

On America—in rupees per 100 dollars

FOREIGN MONEYS WITH THEIR ENGLISH EQUIVALENTS.

The lawful and other recognised means of making payments in circulation vary in different countries. The currencies of various countries with their English equivalents follow —

Abyssinia.—1 Menelik \$ (or Talar) = 16 Menelik Piastres = 32 Besa = 100 centimes. Maria Theresa dollars are coins. Par of Exchange 1 M \$ = 2s

Aden and Perim.—As British India

Afghanistan.—1 Afghani = 100 pils 20 Afghanis = 1 Amania.

Albania.—5 lek = 1 gold franc. Par of exchange £ 1 = 25 2½ gold francs

Anglo-Egyptian Sudan.—As Egypt

Angola.—80 Angolares = 100 Escudos 110 Angolares to £1 sterling.

Arabia.—Indian silver coins and the Maria Theresa silver dollar used.

Accounts kept in rupees

Argentine Republic.—Gold Peso of 100 centavos = 3s 11 58d \$ 11 45 paper = £ 1. Gold coins in circulation are equivalent to 2½ and 5

peso pieces, the latter being known as Argentino. Silver coins are 1 peso, 5, 10, 20 and 50 centavos

Australia.—As Great Britain

Bermudas.—As Great Britain

Bolivia.—Gold Boliviano of 100 centavos £ sterling and £ Peruvian are legal tender U S \$ is legal currency, £ = 13 33 Bolivianos

Brazil.—1,000 reis = 1 milreis (paper) = 5 899d.

British East Africa.—100 cents = 1 shilling (British).

British Guiana.—100 cents = 1 dollar = 4 sh 2d

British North Borneo.—Straits Settlements Currency 100 cents = 2s 4d.

Canada (The Dominion of).—100 cents = 1 dollar = 4s 1½d. Par of exchange 4 dollars 86½ cents to the £ sterling

Ceylon.—According to Ceylon Currency Act, a new rupee has been introduced. This is divided into 100 cents.

Chile.—1 gold peso = 100 centavos; 40 pesos = £1. Gold coin are 20, 50 and 100 pesos

China.—10 cash = 1 candareen, 10 candareen = 1 Mace; 10 Mace = 1 tael. The tael is not a count but a weight of silver, varying in different localities. The Haikwan tael is that adopted and used by the Maritime Customs for all its transactions. It is a book unit with theoretical value equal to Mex. \$ 150 or 3. Its foreign exchange value is fixed monthly by the Customs. Foreign exchange rates are quoted in Shanghai Tael. Kuping Tael is the Treasury unit for Government accounts, 100 Shanghai Taels = 89 775 Haikwan Taels; 100 Kuping Taels = 109 60 Shanghai Taels, 100 Haikwan Taels = 101 6424 Kuping Taels = 105 215 Tientsin Tael = 111 40 Shanghai Taels. Dollars. 10 cash = 1 cent, 100 cents = 1 dollar = 1s 7d. Foreign dollars are the principal currency of the Treaty Ports

Colombia (Republic of).—100 centavos = 1 gold peso, 5 pesos = £1. Gold coins are 2½ and 5 pesos.

Cuba.—As U S A. 1 Gold Peso of 15046 grammes = 1 U. S A. dollar = 100 cents = 4/2d. Cuban coinage maintains the same values as

1 gaj (Poona)=34 1/5 inches

Land Measure.

Bengal—1 Cattah=16 chataks=720 sq ft

1 bigha=20 cattahs=14,400 sq ft =1,600 sq yd

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE.** Rs 3, Industry, Calcutta.

- 3 $\frac{1}{40}$ bighas = one acre, 1,936 bighas = 1 sq mile
Bombay—1 bigha = 20 pands = 3,927 sq yds
 1 chahur = 20 rukehs = 120 bighas
Madras—1 bigha = 6,400 sq yds
 1 cawni = 24 manais = 57,600 sq ft.
Punjab—1 bigha = 4 kanals = 1,620 sq yds.
 1 ghuma = 2 bighas = 3,240 sq yds
U. P.—1 bigha = 20 biswas = 3,025 sq yds.
Benares—1 bigha = 3,036 sq yds

Indian Dry Measure.

- Bengal**—1 maund = 32 rakis = 128 konkies,
 1 sal = $2\frac{1}{2}$ mds
Bombay—1 seer = 2 tipari = 72 tanks = 49 1408 cub in.
 1 phara = 16 payalis = 64 seers = 3,145 0112 cub inches
 1 muda = 25 pharas = 45 5 cub ft
Madras—1 phara = 5 markata = 40 padis = 320 olaks = 3,750 cub inches
 1 garu = 80 pharas

Indian Apothecaries Weight.

- 1 tollah = 16 annas = 96 ratis = 384 dhans, 1 dhan being the weight of 1 grain of paddy.
 1 masha = 15 grains = 8 ratis or gunjas

English Apothecaries Weight.

- 20 grains = 1 scruple, 3 scruples = 1 drachm, 8 drachms = 1 ounce, 12 ounces = 1 pound

Apothecaries Measures.

- 60 minims = 1 fluid dram, 8 fluid drams = 1 fluid ounce; 20 fluid ounces = 1 pint, 8 pints = 1 gallon
 A tea-spoonful = 1 fluid drachm
 A dessert-spoonful = 2 fluid drachms
 A wine-glassful = 2 to $2\frac{1}{2}$ fluid ounces
 A table-spoonful = 4 fluid drachms
 A tea-cupful = 5 fluid ounces
 A tumblerful = about 10 fluid ounces

English Weights and Measures.

- 1 yard (yd) = 3 feet (ft) = 36 inches (in) = 91 44 centimetres.
 1 mile = 8 furlongs = 80 chains = 1,760 yds = 3,520 cubits = 1,609 metres.
 1 sq. yard = 9 sq ft. = 144 sq in.
 1 acre = 4 roods = 160 sq. poles = 4,840 sq. yds = 3 $\frac{1}{40}$ bighas.
 1 square mile = 640 acres
 1 cubic yard = 27 cubic feet = 1,728 cubic inches.
 1 cubic foot = 28 315 litres.
 1 pound avoirdupois (lb) = 16 oz = 256 drachms (dr) = 7,000 grains = 453 6 grams = 38 89 tolas = 0 48611 seer
 1 oz = 16 drachms = 437 5 grains = 28 35 grams = 2 43 tolas
 1 fluid oz = 28 4 c.c.
 1 pound Troy = 12 ozs = 240 cwt = 5,760 grains = 373 248 grams = 32 tolas
 1 hundredweight = 4 quarters (28 lbs. each) = 112 lbs = 1 maund 14 seers = 1 36111 maund
 1 ton (gross ton) = 20 cwt = 2,240 lbs = 1 016 kilos = 27 $\frac{1}{2}$ maunds hearily = 27 2222 maunds

In England the ton or gross ton of 2,240 lbs. is exclusively used In the United States of America the term "ton" may mean the gross ton of 2,240 lbs. or the short ton of 2,000 lbs. avoirdupois

To convert Avoirdupois weight into Indian weight.—

Multiply the weight in lbs. Avoirdupois by 35 and divide by 72, or multiply the weight in cwt by 49, and divide by 36; the result will be the weight, in the former, in Seers, in the latter, in Maunds.

- 1 stone = 14 lbs, 1 cental = 100 lb
 1 carat = 4 grains.

Measures of Capacity.

- 1 Imperial gallon (gal) = 4 quarts (qts) = 2 pints (pts)

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE.** Rs. 3. Industry, Calcutta.

= 16 gills = 32, noggins
 = 10 lbs (of water) = 4 54
 litres
 1 pint = 0 568 litre = 2 gills
 = 4 noggins = 1½ lbs
 (water)
 In England, by the term gal-
 lon (gal) the Imperial gallon is
 understood, 1 Imperial gallon be-
 ing equal to 12 wine gallons or 1
 wine gallon = 0 8335 Imperial
 gallon, 1 wine gallon = 4 quarts
 = 6 pints = 3 785 litres

Metric System.

1 metre (m) = 10 decimetres
 (dm) = 100 centimetres
 (cm) = 1,000 millimetres
 (mm) = 39 371 inches.
 1 litre (l) = 1,000 cubic centi-
 metres (cc or c cm) = 0 22
 gallon = 35 2 fluid oz
 1 cubic metre (cb m) = 1,000
 litres = 220 gallons
 1 gramme (g or gr or grm) =
 10 decigrammes (dg) =
 100 centigrammes (cg) =
 1,000 milligrammes (mg) =
 15 43 grains
 1 metric ton = 1,000,000
 grammes = 26 79228 mds.
 1 kilogramme (kg or kilo) =
 1,000 grammes = 2 2 lbs =
 1 07169 seer.
 50 kilogrammes = 1 centner =
 1 cwt nearly
 100 kilogrammes = 1 quintal or 1
 metric centner = 1 doppel-
 zentner = 1 dz = about
 1/10th ton.
 1,000 kilogrammes = 1 ton (t),
 i.e., metric ton = 19 cwt. 77
 lbs = 2204 6 lbs
 1 cubic centimetre water = 1
 gramme
 1 litre water = 1 kilogramme
 = 2 2 lbs
 1 cubic metre water = 1 metric
 ton = 2204 6 lbs

Nautical Measures.

6 feet = 1 fathom
 100 fathoms = 1 cable length
 10 cables = 1 nautical mile or
 knot (1 151 miles)
 60 nautical miles = 1 degree

Yarn Measures.

Cotton.—Thread = 1½ yard

Lea or Skein (skn) = 120 yds.
 Hank (hk) = 7 skeins or Leas
 = 840 yards.
 Spindle (Spdl) = 18 hanks
 Bundle hanks, either of 5 lbs.
 or 10 lbs.
 Reels of cotton vary from 30 to
 1,760 yards

Wool—Warp = 80 yards

Hank = 7 warps = 560 yards

Linen.—Hank = 300 yards.

Spindle = 48 hanks

Bundle = 200 hanks

Count = the number of hanks
 in 1 lb

U.S.A. Weights & Measures.

U.S.A. weights and measures
 only differ from British in the
 following —

2000 lbs = 1 short ton

100 lbs = 1 cental.

U S gallon = 8 345 lbs av

U S Barrel of oil = 42 U S.
 gallons = 35 Imperial gal-
 lons

1 Bushel = 9692 Imperial Bu-
 shel

1 Barrel of Flour = 196 lbs.
 av.

Size of Papers.

	ins.	ins
Demy	-- 18	× 22
Double Crown	-- 20	× 30
Double Foolscap	-- 17	× 27
Double Imperial	-- 29	× 45
Double Royal	-- 26	× 40
Double Super Royal	29	× 44
Foolscap	-- 13½	× 16½
Imperial	-- 22½	× 29
Large Post	-- 16½	× 21
Medium	-- 18	× 23
Royal	-- 20	× 26
Super Royal	-- 22	× 29

(The weight varies, according
 to the thickness and quality of
 the paper, from 7 to 100 lbs)

Miscellaneous Weights and

Measures.

1 chest of opium = 140 lbs
 1 maund of wood = 32 lbs
 1 bale of cotton = 400 lbs
 1 bale of cotton goods = 25
 pieces of 30 yds
 1 kachha bale of jute = 3½ mds
 1 pakka bale of jute = 5 mds

Get a copy of COTTON DYEING & PRINTING and try it yourself.
 Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

1 chest of tea=80 120 lbs.
 1 bag of cement=1 cwt.
 1 bag of sugar=2½ mds
 1 barrel of tar=26 5 gallons.
 1 barrel of turpentine=224 to 280 lbs
 1 box of camphor = 112 lbs.
 1 bushel of wheat=60 lbs.
 1 firkin of soap=64 lbs.
 1 hogshead of brandy=45 to 60 gallons.

Special Units.

1 lakh=1,00,000.
 1 crore=1,00,00,000.
 1 gross=12 dozen=144 units.
 1 great gross=12 gross
 1 long hundred=120 units.
 1 long dozen=13 units
 1 ream paper=20 quires=480 or 500 sheets.
 1 phara of lime or coal=27 inches × 20 inches × 9 inches.

Cubic Feet Per Ton Of Merchandise.

1 ton Bengal coal	= 40	cubic feet.
1 " Fine screening coal	= 41	" "
†1 " Paddy (space measurement)	= 50	" "
1 " Sugar (new) in bags	= 50	" "
1 " Sugar (old) in bags	= 47	" "
*1 " Barley in bulk	= 54	" "
*1 " Cotton seed in bulk	= 80	" "
*1 " Linseed in bulk	= 54	" "
*1 " Oats in bulk	= 80	" "
*1 " Maize in bulk	= 52	" "
*1 " Rapeseed in bulk	= 61	" "
*1 " Rye in bulk	= 42	" "
*1 " Wheat in bulk	= 52	" "
1 " Java Molasses (liquid)	= 26	" "
1 " Java Molasses (sold in baskets)	= 25	" "
1 " Rice in bags	= 50	" "

†Actual weight about 1,640 lbs. gross

*To calculate space occupied by these seeds in bags, add 10 % to the given figures

WEIGHT & VOLUME OF WATER.

1 cub in. of water = 0361 lb. = 252 418 grains.
 1 Imperial gallon " = 10 lbs
 1 cub ft " = 62 32 lbs. = 6 232 Imperial gallons.
 1 ton " = 224 gallons = 35 88 cub ft.
 1 gallon of water occupies 277 274 cub inches.
 1 litre of distilled water = 2 2 lbs = 1 kilo gram = 0 22 Imperial gallon.
 1 lb. of water = 27 68 cub in, 1 cub ft salt water = 64 lbs.; 1 pint of water = 34 672 cub in, 1 oz of water = 1 729 cub in.

ENGINEERING MEASUREMENTS.

Circumference of a Circle = 3 1416 × diameter.

Area of triangle = ½ base × altitude

" rectangle = length × breadth.

" trapezium = ½ the sum of the parallel sides × altitude.

" circle = 3 1416 × (diameter)².

" section of circle = length of the arc × radius

Area of a segment of a circle = area of the section minus area of the triangle

" cylinders = Perimeter of the section of the base × height.

" parabola = 66 × height × breadth

" ellipse = 7854 × major axis × minor axis

" sphere = 3 1416 × (diameter)².

Circumference of a circle × 31831 = the diameter

Get a copy of COTTON DYEING & PRINTING and try it yourself.
 Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

122 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Diameter of a circle $\times 8862$ = the side of an equal square

Side of a square $\times 1128$ = the diameter of an equal circle.

Volume of parallelopiped = length \times breadth \times height

„ sphere = $5239 \times (\text{diameter})^3$

„ cone = $1047 \times (\text{radius})^2 \times \text{height}$

Horse Power = 33,000 ft pounds of work per minute or 550 ft.
pounds of work per second = 746 Watts

1 H P hr = 33,000 \times 60 foot lbs

Brake Horse Power (B H P) is the power not absorbed by the engine in driving the piston but available for other work

M E (Mechanical Efficiency) is the proportion of B H P to 1 H P

Atmospheric pressure = 14.7 lbs per sq in = 766 mm of mercury per sq cm

To calculate height from barometrical readings (B, b = readings at two different heights), Height = $60350 \log B/b$

THERMOMETERIC SCALES.

Three different systems of thermometers are in use, viz Fahrenheit thermometer, Centigrade thermometer, and Reaumur thermometer.

In the Fahrenheit thermometer the freezing point is marked 32° and the boiling point 212° , in the Centigrade thermometer these are marked 0° and 100° respectively while in the Reaumur thermometer these are marked 0° and 80° respectively

ELECTRIC MEASURES.

OHM, the unit of resistance, is the resistance offered to an unvarying electric current by a column of mercury, at the temperature of melting ice, 14,4521 grammes in mass, of a constant cross-sectional area, and of a length of 106.3 centimetres

AMPERE, the unit of current, is the unvarying electric current which, when passed through a solution of nitrate of silver in water, deposits silver at the rate of 0.001118 of a gramme per second

VOLT, the unit of pressure, is the pressure, which, when steadily applied to conductor whose resistance is one ohm, will produce a current of one ampere

JOULE, the unit of work, is the energy per second of one ampere in one ohm

WATT, the unit of power, is $1/746$ th. of one horse-power, the horse power being 33,000 lbs raised one foot in one minute

COULOMB, the unit of quantity and is the amount of electricity transferred by one ampere per second

FARAD the unit of capacity.

HENRY the unit of induction

B O. T. unit = 1,000 Watt-hours (1 kilowatt) = 3,600,000 joules
= $\frac{1}{3}$ h p hours

Volts \times Amperes = Watts 1 Electric Unit = 1,000 Watt-hrs = 1.34 H. P. hrs.

In carbon lamps of 16 candle power (nominal) about four watts are required per candle power to give good economical results for domestic purposes. Metallic filament lamps require considerably less

Guide to DYEING & CLEANING—A handbook for amateurs and professionals. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

UNITS OF SALES OF COMMODITIES.

Quotations in Indian market are in rupees, annas and pies :—

Bonemeal.	
Calcutta	per ton
Karachi	per md of 38 4 lbs.
Bristles.	
Bombay	per lb
Calcutta	per md
Cardamoms.	
Bombay	per Surti maund of 39 2 lbs
Madras	per candy of 25 mds
Castor Seed.	
Bombay	per candy of 560 lbs.
Calcutta	per md
Cocanada	per candy of 500 lbs
Madras	per candy of 500 lbs.

Commercial Laws & Notifications

EXPORT PROHIBITIONS

In exercise of the powers conferred by sub rule (3) of Rule 84 of the Defence of India Rules, the Central Government have prohibited the export to any place outside India of any goods of the description specified in the Schedule hereto annexed, except the following, namely —

(a) any goods consigned to or destined for the Portuguese possessions in India and intended for use or consumption therein,

(b) any goods of the description specified in Part E of the said Schedule and consigned to or destined for any part of the British Empire (including Mandated Territories) other than Elre and Palestine,

(c) any goods of the description specified in Part C of the said Schedule and covered by an export licence issued by the Central Government in the Department of Supply or by an officer authorised by that Department in this behalf,

(d) any goods of the description specified in Part B, D or E of the said Schedule and covered by an Export licence issued by or under the orders of the Export Trade Controller appointed in this behalf by the Central Government,

(e) any goods constituting the stores or equipment of an outgoing vessel or conveyance, or the bona-fide personal effects of the crew of, or of the passengers in, such vessel or conveyance,

(f) any goods transhipped at a port in British India,

(g) any goods exported under the orders of Naval, Military or Air Force Authorities for Naval, Military or Air Force requirements,

(h) any goods exported under the orders of the Central Government or such officers as may be appointed by the Central Government in this behalf,

(i) any goods covered by an Open General Licence issued by the Central Government

SCHEDULE

Part A.

(No licences)

1. Agar-agar
2. Arms, Ammunition and Military stores (including explosives and fulminate of mercury)
3. Chemicals and chemical preparations, the following —
 - (i) Acetone
 - (ii) Acid Acetic
 - (iii) Acid Formic
 - (iv) Aluminium Oxide
 - (v) Ammonium sulphate
 - (vi) Aniline and alkylated aniline
 - (vii) Calcium Acetate (acetate of lime)
 - (viii) Calcium Carbide
 - (ix) Chlorinated Hydrocarbons including Carbon Tetra-Chloride
 - (x) Chrome alum
 - (xi) Lithopone and Cadmium Lithopone

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

- (xii) Naphthalene
- (xiii) Phosphorus
- (xiv) Potassium bichromate.
- (xv) Sodium bichromate.
- (xvi) Sodium Hydrosulphite.
- (xvii) Sodium Nitrite.
- (xviii) Toluol (Toluene).

4. Drugs and medicines, the following—

Acidum Acetylsalicylicum, Acidum Boricum, Acidum Citricum, Acid Cresylic, Acidum Mandelicum, Acidum Tannicum, Acidum Tartaricum, Acriflavina, Aether Anaestheticus, Arsenious oxide Atropinae Sulphas, Barbitonum Solubile, Borax, Brilliant Green, Cinchona bark or powder, Chlorofomum, Cocainae Hydrochloridum, Creosotum, Dextrosum, Emetinae Hydrochloridum, Ergota Praeparata and preparations, Fluoresceinum, Hexobarbitonum Solubile, Homatropinae Hydrobromidum, Hyoscinae Hydrobromidum, Insulinum, Iodum and preparations, Ipecacuanha and preparations, Mepacrine Hydrochloride, Pamaquin, Paraldehydum, Pentothol Sodium, Percaine, Potassii Bromidum, Potassii Iodidum, Procainae Hydrochloridum, Quinine Salts, Sodii Salicylas, Sulphonamide preparations (e g, Sulphanilamide, Soluseptasine M & B. 693, etc)

5 Any medicinal-preparation containing any one or more of the drugs or medicines specified in item 4 of this Part whether in bulk or in any other form, such as tablets, ampoules, solutions, ointments, etc, including all proprietary brands and Trade Mark preparations and equivalents of them intended for oral, hypodermic, intravenous or external use.

6 Glass Substitute

6A Gums and Resins the following —Gum Benzoin.

7 Hides, the following —

(i) Wet salted cow hides (trimmed according to trade custom) from 13 lbs. to 28 lbs.

(ii) Dry salted or dry (arsenicated or otherwise) cow hides (trimmed according to trade custom) from 6 lbs upwards

(iii) Wet salted buffalo hides (trimmed according to trade custom) from 25 lbs upwards

(iv) Dry salted or dry (arsenicated or otherwise) buffalo hides (trimmed according to trade custom) from 12 lbs. upwards

8 Horse hair and manufactures thereof.

9 Horses and mules

10 Instruments, Apparatus and Appliances, and parts thereof, the following

(i) Cameras

(ii) Clinical thermometers

(iii) Optical glass, formed and unformed

(iv) Optical instruments, all sorts, not specified in Part C.

(v) Surveying instruments and appliances

11 Leather unwrought, the following.—

(i) All vegetable tanned leather produced from buffalo hides weighing in hides 14 lbs and over, or in sides 7 lbs and over.

(ii) All classes of vegetable tanned leather produced from cow hides, kips or cow calf-skins weighing 5 lbs. or over other than "East India Kips"

(iii) All chrome tanned upper leather produced from cow or buffalo hides and having a minimum substance of 15 mm and a minimum area of 9 sq ft per half hide (side) or 18 sq ft. per full hide

11A Leather Manufactures, the following—

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

- (i) Men's footwear, all sorts and component parts thereof
- (ii) Suitcases, bags, attache cases or other containers made of cow or buffalo hide or leather and component parts thereof
- 12 Metals and Ores, the following.—
 - (i) Antimony
 - (ii) Ferro-alloys including ferro-chrome, ferro-manganese, ferro-phosphorus, ferro-silicon, ferro-titanium, ferro tungsten, ferro-vanadium and ferro-molybdenum
 - (iii) Magnesium and magnesium alloys
 - (iv) Nickel, nickel oxide, nickel ore and matte, nickel alloys
 - (v) Phosphor alloys
 - (vi) Tin, wrought and unwrought, tin alloys.
 - (vii) Zinc or spelter, wrought and unwrought, zinc concentrates, dross and manufacturing residues, zinc alloys
 - (viii) Scrap containing any of the metals or alloys specified in entries (i) to (vii)
- 13 Pyrethrum flowers, whole or powdered, and extracts of any strength obtained therefrom, also insecticides containing pyrethrum flowers or extract of pyrethrum flowers
- 14 Roofing felts and associated joining materials.
- 15 Textiles, the following —
 - (i) Flax, raw.
 - (ii) Flax manufactures
- 16 Vessels for inland and harbour navigation (such as launches, boats, barges and dredgers) and component parts and equipment thereof
- 17 Wood preservatives, the following.—
 - (i) Coal tar.
 - (ii) Creosote
 - (iii) Mixtures containing coal tar or creosote

Part B.

(Licences issued by the Export Trade Controller)

- 1 Ascorbic acid
- 2 Bakelite and other synthetic moulding powders
- 3 Bacon and ham, not canned or bottled
- 4 Condiments, not canned or bottled
- 5 Drugs crude and refined, both indigenous and imported, medicines and medicinal preparations, other than those specified in Parts A and C
- 6 Glass bottles of crown cork pattern
- 7 Hops
- 8 Instruments, Apparatus and Appliances, and parts thereof, the following —
 - (i) Photographic papers, plates and films (excluding those used in X-ray photography and excluding cinema films).
- 9 Malt
- 10 Seed potatoes

Part C.

(Licences issued by the Central Government in the Department of Supply or by an officer authorised by that Department in this behalf)

- 1 Abrasives manufactured, including grinding wheels, emery wheel and powder, sand paper.
- 2 Belting for Machinery—
 - (i) of cotton;
 - (ii) of hair,
 - (iii) of leather

Remodel your business methods with the ideas given in K. M. Banerjee's
BUSINESS EFFICIENCY. Rs. 2. Industry Book Dept., Calcutta.

3. Bitumen
4. Bristles, pig, and manufactures thereof.
5. Buttons, all sorts.
6. Carbonised coconut shell.
7. Cement
8. Chemicals and chemical preparations, the following.—
 - (i) Acid Hydrochloric
 - (ii) Acid Nitric.
 - (iii) Acid Sulphuric.
 - (iv) Alcohol Methyl
 - (v) Aluminous sulphates (including all forms of alum except chrome alum).
 - (vi) Ammonia and ammonium compounds excluding ammonium sulphate.
 - (vii) Barium Sulphate (Barytes).
 - (viii) Bleaching powder and chlorine.
 - (ix) Calcium chloride
 - (x) Caustic Soda
 - (xi) Chemical manures other than Ammonium sulphate.
 - (xii) Glycerine.
 - (xiii) Iodine.
 - (xiv) Magnesium sulphate
 - (xv) Potassium and Potassium compounds excluding Potassium bichromate and potassium chlorate.
 - (xvi) Gases, all sorts.
 - (xvii) Salts and other compounds of arsenic, chromium, copper, lead, mercury, molybdenum, nickel, platinum, radium, tin and zinc.
 - (xviii) Sodium bicarbonate.
 - (xix) Sodium carbonate.
 - (xx) Sodium silicate.
 - (xxi) Sodium sulphate.
 - (xxii) Sodium sulphide.
 - (xxiii) Sodium thiosulphate.
 - (xxiv) Sulphur.

9 Cork and cork manufactures

10 Drugs and medicines, the following —

Acidum Salicylicum, Adrenalina and preparations, Aethylis Chloridum, Amylis Nitris, Amylocame Hydrochloride, Antiypol, Naganol, Argentoproteinum, Belladonna roots and leaves, Benzoinum, Bismuthi Carbonnas, Caffains, Calen Glueonas, Camphora, Chloral Hydras, Chrysa-robinum, Glucesum liquidum, Hexamina, Hydrargyrum and preparations, Liquor Formaldehydi, Menthol, Morphine salts, Neosarsphenamina, Oleum Menthae, Piperitae, Phenacetinum, Phenoharbitonum Solubile, Phenol, Physostigminae Salicylas, Pituitary Extract, Resorcinol, Saccharinum, Sodii Bicarbonas, Sulpharsphenamina, Thymol.

11 Any medicinal preparation containing any one or more of the drugs or medicines specified in item 10 of this Part whether in bulk or in any other form, such as tablets, ampoules, solutions, ointments, etc., including all proprietary brands and Trade Mark preparations and equivalents of them intended for oral, hypodermic, intravenous or external use

12. Glass, sheet
- 13 Graphite and graphite crucibles.
14. Hydraulic packing
- 15 Instruments, Apparatus and Appliances, and parts thereof, the following —
 - (i) Accumulators and dry cells.

Remodel your business methods with the ideas given in K. M. Banerjee's **BUSINESS EFFICIENCY**. Rs. 2. Industry Book Dept., Calcutta.

- (ii) All electrical instruments, apparatus and appliances, not specifically included under any other entry.
 - (iii) Electric fans and accessories
 - (iv) Electrical insulating materials of all sorts
 - (v) Electric lamps
 - (vi) Electric lighting accessories and fittings
 - (vii) Electric wires and cables (including telegraph and telephone) wires and accessories
 - (viii) Microscopes
 - (ix) Photographic plates and films used in X-ray photography
 - (x) Surgical and veterinary instruments, apparatus and appliances, including cotton wool and lint
 - (xi) Telegraph and telephone instruments and apparatus
 - (xii) Wireless instruments and parts thereof
 - 16 Nil
 - 17 Liquors, all sorts, excluding perfumed spirits
 - 18 Machinery and millwork, including parts thereof, but excluding—
 - (i) machine tools of any description, and
 - (ii) parts of machinery and millwork which are exported for purposes of repairs or are returned to the manufacturers as defective
 - 19 Machine Tools of all description and parts thereof
 - 20 Metals and Ores, the following —
 - (i) Aluminium and aluminium alloys
 - (ii) Antimony alloys containing more than 10 per cent of antimony including printing and bearing alloys
 - (iii) Beryl (Beryllium), ore, metal and alloys
 - (iv) Copper ores, copper wrought and unwrought, copper plates and sheets, copper wire, drawn, copper alloys
 - (v) Iridium, osmiridium, iridosmine and concentrates containing iridium
 - (vi) Iron or steel —
 - (a) Pig iron
 - (b) High speed Tool Steel in any form
 - (c) Die steel of any form
 - (d) Steel ingots
 - (e) Rolled, forged or cast steel
 - (f) Iron castings
 - (g) Tin plate
 - (vii) Lead ore; pig lead, lead sheets; lead pipes and tubes; lead alloys
 - (viii) Mercury
 - (ix) Molybdenum and molybdenum ores
 - (x) Platinum, crude and refined, platinum alloys
 - (xi) Radium, radium ores and concentrates
 - (xii) Tin Concentrates and ores
 - (xiii) Tungsten and Tungsten ore (Wolfram)
 - (xiv) Vanadium and Vanadium ores
 - (xv) Scrap containing any of the metals or alloys specified in entries (i) to (xiv)
 - 21 Manufactured articles, not specified elsewhere in this Schedule, made wholly or mainly of any of the metals or alloys specified in item 12 of Part A or in item 20 of this Part, including containers, when not in use as containers or when in use as containers of goods specified in this Part
- (NB—An article shall be deemed to be made mainly of any of the metals or alloys referred to if such metal or alloy constitutes the major part of either the bulk or the value of the article)

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners As. 5. Industry Book Dept., Shambazar, Calcutta.

- 22 Paints, varnishes and enamels, all sorts not covered by any other entry in this Part
- 23 Processing materials for rubber tyres not included in any other item in this Part
- 24 Provisions, the following —
 - (i) Canned and bottled
 - (ii) Ghee and butter
- 25 Rubber manufactures, all sorts, including rubber shoes and canvas shoes with rubber soles.
- 26 Sera
- 27 Textiles, the following —
 - (i) Cotton canvas
 - (ii) Cotton mosquito netting
 - (iii) Cotton sewing thread
 - (iv) Cotton tape
 - (v) Hemp, raw, all sorts (Manila, Sisal and Indian hemp, etc) and manufactures thereof, including twine
 - (vi) Woollen yarn and hosiery
28. Turpentine and pine oil
- 29 Vehicles and parts thereof (excluding old scrap parts), the following —
 - (i) Aircraft and parts of aircraft; special aircraft materials
 - (ii) Motor vehicles, namely, motor cars, motor cycles and motor omnibuses, vans and lorries and chassis for the same, whether fitted with rubber tyres and tubes or not.
 - (iii) Parts of motor vehicles, including rubber tyres and tubes
- 30 Vitamin A, its preparations and admixtures
- 31 Wood and timber, all sorts, including plywood and other laminated wood but excluding sandalwood, also chests, boxes, crates and other containers made therefrom when exported empty, and parts thereof including shooks

Part D.

(Licences issued by the Export Trade Controller.)

- 1 Asbestos and manufactures thereof
- 2 Asbestos cement
- 3 Chemicals and chemical preparations, the following —
 - (i) Caoutchoucine.
 - (ii) Ethyl alcohol.
 - (iii) Potassium chlorate.
 - (iv) Pyridine
- 4 Cinematograph films, not exposed.
- 5 Clocks, watches and parts thereof.
6. Coal.
7. Coffee
- 8 Coir, unmanufactured and manufactured.
- 9 Containers made wholly or mainly of any of the metals or alloys specified in item 12 of Part A or in item 20 of Part C, when in use as containers of goods other than those specified in Part C
 (NB—An article shall be deemed to be made mainly of any of the metals or alloys referred to, if such metal or alloy constitutes the major part of either the bulk or the value of the article)
10. Derris root and powder.
- 11 Diamonds, precious and semi-precious stones.
- 12 Domestic earthenware and chinaware.
- 13 Dyestuffs, the following:—
 - (i) Synthetic dyestuffs including coal tar derivatives used in any dyeing process

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners. As. 5. Industry Book Dept., Shambazar, Calcutta.

- (ii) Natural indigo.
- 14 Gall nuts
- 15. Glass and glassware, all sorts, other than those specified in Parts B and C.
- 16. Grain, pulse and flour.
- 17 Gums and resins, the following —
 - (i) nil
 - (ii) Gum Damar
- 18. Hides and skins, tanned or dressed, the following
East India Kips
- 19. Kapok.
- 20 Lac, all sorts; also mixtures containing some form of lac as one of the main ingredients
- 20A. Leather manufactures, all sorts, not specified in Part A
- 21 Matches, all sorts
- 22 Mica.
- 23 Oils, animal, all sorts
- 24 Oils, mineral, all sorts (including crude oil, kerosene, fuel oils, lubricating oils, greases, petrol, solvent oils, mineral turpentine, benzine and benzol)
- 25 Oils, vegetable, non-essential, all sorts other than tung oil
- 26 Seeds, the following —
 - (i) Seeds, oilseeds, non-essential, all sorts.
 - (ii) Seeds, other than oilseeds.
- 27. Paper and pasteboard, all sorts, and stationery.
- 28 Pulp of wood for paper-making.
- 29 Quartz crystals.
- 30 Rubber, raw
- 31 Rubber scrap and waste
- 32 Soaps, washing powders and toilet requisites
- 33. Spices.
- 34 Starch, dextrine and farina.
- 35 Sugar including molasses
- 36. Tea.
- 37 Textiles, the following—
 - (i) Artificial silk yarn
 - (ii) Artificial silk manufactures, including mixtures with other textiles or staple fibre
 - (iii) Cotton manufactures, all sorts (including cotton twist and yarn and piecegoods) other than those specified in Part C
 - (iv) Silk, raw cocoons, waste products (including Dupplion) and hand reeled
 - (v) Silk yarn and manufactures, all sorts (including silk hosiery)
 - (vi) Wool, raw, and manufactures, other than woollen yarn and hosiery.
- 38. Toys and requisites for games and sports.
- 39 Tung oil
- 40 Umbrellas and umbrella fittings
- 41 Waxes of all kinds, including paraffin wax

Part E.

(Licences issued by the Export Trade Controller)

- 1. Animal bladders, guts and casings
- 2 Candles of all kinds
- 3 Carbon black
- 4. Casein

5. Chemicals and chemical preparations, the following.—
 - (i) Cholesterol.
 - (ii) Fluorspar.
 - (iii) Phthalic acid and derivatives.
 - (iv) Picric acid.
 - (v) Radon.
 6. Coke, all sorts.
 7. Fibres for brushes and brooms.
 8. Fruits, nuts and vegetables (including dried, salted or preserved, not canned or bottled).
 9. Gums and resins, all sorts, other than Gum Benzoin and Gum Damar.
 10. Hair of all kinds and manufactures of hair, other than horse hair and manufactures of horse hair.
 11. Hides and skins, raw, other than those specified in Part A; furs and fur skins.
 12. Hides and skins, tanned or dressed, and leather, unwrought, all sorts, other than those specified in Parts A and D.
 13. Perfumed spirits
 14. Magnesite
 15. Metals and Ores, the following.—
 - (i) Antimony ore
 - (ii) Aluminium ore (Bauxite and Laterite).
 - (iii) Arsenic, ore and metal
 - (iv) Bismuth
 - (v) Cadmium
 - (vi) Chrome ore and metal
 - (vii) Cobalt ore
 - (viii) Columbium.
 - (ix) Ilmenite, Monazite, Rutile, Zircon Kyanite and Sillimanite.
 - (x) Iron ore.
 - (xi) Iron pyrites.
 - (xii) Lathium.
 - (xiii) Manganese ore and Manganese.
 - (xiv) Silver ore, metal, alloys and manufactures.
 - (xv) Strontium
 - (xvi) Tantalum ore and metal.
 - (xvii) Titanium metal.
 - (xviii) Thorium
 - (xix) Uranium.
 - (xx) Zinc ore.
 16. Myrobalans and other tanning substances, excluding gall nuts
 17. Oilcakes, all sorts.
 18. Plastics, manufactured or partly manufactured.
 - 18A. Postage Stamps
 19. Scrap Cinematograph films.
 20. Selenium.
 21. Talc.
 22. Tallow and stearine, all sorts.
 23. Textiles, the following.—
 - (i) Cotton, raw and waste.
 - (ii) Jute, manufactures
 - (iii) Jute, raw.
 - (iv) Mesta-fibre.
 - (v) Ramie fibre and piece-goods made therefrom
 24. Turkey red oil

IMPORT CONTROL IN INDIA.

Import control over a large number of goods was first announced in a notification in the Gazette of India extraordinary on August 23, 1941 and has since been amended from time to time. The controlled goods are classified into parts 'A' and 'B' of the schedule to the notification. In part 'A' are included almost all the goods that are under control already. Part 'B' contains a very large number of fresh items.

Excepting for a few articles such as dyes, newsprint and aluminium, import control has hitherto been confined to goods the imports of which could be curtailed without damage to any essential Indian interests. It is not necessary or practicable in the case of such goods to look beyond the importers and it has been sufficient to allot quotas to them on the basis of their past imports. The principle will be maintained in respect of goods in part 'A' of the schedule.

Extension of control to imports of machinery and other industrial requirements (Part 'B' of the schedule) has arisen not only because of the growing need for the conservation of exchange with difficult currencies but also because supplies, especially from U S A. of many of the goods concerned are becoming increasingly restricted with the result that before allowing export the U S A. Government require certificates to be furnished from the India Government that the goods represent essential requirements.

The Central Government have created for the purpose the post of the Chief Controller of Imports under the Commerce Department. He will be assisted by Import Trade Controllers or by other officers authorised for the purpose. His office is at Imperial Secretariat Buildings, New Delhi.

Applications for certain classes of goods in part 'B' of the schedule should be made in the prescribed form direct to the Chief Controller of Imports, New Delhi. While for the others in part 'B' applications should, for the present, be made to him through the Foreign Trade Controllers, (Imports) at the Ports, who will also continue to be the licensing authorities for goods in part 'A' of the schedule. The Director General of Supply, New Delhi, has been authorised to issue licences for imports for rubber goods in general, mineral oils etc., Advisory Panel on Drugs and Medicines with Colonel Sir R. N. Chopra as Chairman for imports of drugs, Chief Controller of Explosives, New Delhi for imports of gunpowder and explosives.

Importers of goods from the United Kingdom, Australia, Canada and Newfoundland are informed through a recent notification that goods despatched on through consignment from these countries on or after the 1st July 1942, must be individually covered by special import licences. Special licences will in the first instance be valid to cover despatches made during the six monthly period 1st July 1942 to 31st December 1942. Importers should make applications to the appropriate licensing authorities for licences to cover their requirements. They must include in their applications a statement of the gross weight (including packing) in tons (of 2 240 lbs) and lbs of the goods covered by such applications. Any application which does not contain such a statement of weight will not be considered by the licensing authorities.

Importers are also warned that goods, in whatever country they may have originated, will require special licences as from the 1st July 1942 if they are transhipped in, or otherwise on-carried from, any of the countries mentioned.

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

THE ESSENTIAL DRUGS (CENSUS) ORDER AMENDED

The Essential Drugs (Census) Order, 1941 which has been in force since July 24, 1941 has been amended in the following form

2 In this Order, "essential drug" means a drug specified in the first column of Schedule I annexed to this Order, and "specified quantity" in relation to an essential drug means the quantity specified in the corresponding entry in the second column of the said Schedule

3 Any person engaged in the business of manufacturing or importing drugs or of selling drugs whether wholesale or retail, shall submit to the authority specified in the entry in the second column of Schedule II annexed to this Order corresponding to the area specified in the first column of that Schedule in which he carries on such business, so as to reach that authority not later than the 27th day of each month a return showing the quantity of any essential drug in his possession or under his control within British India on the 20th day of such month

Provided that if the total quantity of an essential drug in the possession or under the control of any person is less than the specified quantity, that person shall not be required to submit a return in respect of that drug

4 Any person engaged in the business of manufacturing or importing drugs, or of selling drugs wholesale, shall keep a record of any purchase or sale made by him of any quantity of an essential drug whether such quantity is less than the specified quantity or not

5 Any person engaged in the business of selling drugs retail shall keep a record of any purchase or sale made by him of an essential drug of which the quantity in his possession or under his control is not less than the specified quantity.

6 The Director General, Indian Medical Services and the Deputy General, Indian Medical Service (stores) or any person authorised in writing by any person so appointed, may, for the purpose of verifying the correctness of any return submitted or record kept in pursuance of this Order, or otherwise with a view to securing compliances with the provisions of this Order, enter upon and inspect any premises in which the business of manufacturing, importing or selling drugs is carried on and may inspect and take copies of, or of any part of, any records books or accounts kept in relation to such business, whether in pursuance of this Order or otherwise

SCHEDULE I.

List of drugs and minimum quantities to be declared.

Item	Specified quantity.
Acidum Acetylsalicylicum — —	2 lbs
Acid Boric — —	14 lbs
Acid Citricum — —	14 lbs
Acid Mandelicum (and its salts) — —	8 ozs
Acriflavina — —	4 ozs
Adrenalina and preparations — —	1 oz. Liquor Adrenalini Hydrochloridi
Aether Anaestheticus — —	5 lbs
Agar — —	4 ozs
Ammonii Carbonas — —	1 cwt
Amylis Nitris — —	50 capsules.
Argentoproteinum — —	1 oz.

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

Item	Specified quantity.
Atropinae Sulphas	1 drachm
Barbitonum	4 ozs
Barbitonum Solubile	4 ozs
Belladonnae Folia	28 lbs
Belladonnae Radix	28 lbs
Bismuthi Carbonas	10 lbs.
Bismuthi Salicylas	10 lbs
Bismuthi Subnitras	10 lbs.
Calci Gluconas	1 lb
Camphora	10 lbs
Chloroformum	10 lbs
Cinchona Febrifuge	1 lb
Cocainae Hydrochloridum	4 ozs
Emetinae Hydrochloridum	1 oz
Ergota Praeparata and preparations	8 ozs
Extractum Hepatis Liquidum (Liver Extract)—	
Oral	10 lbs
Parental	50 ccs
Homatropinae Hydrobromidum	1 drachm
Hydrargyrum and preparations—	
Hydrargyrum	5 lbs
Unguentum Hydrargyri	10 lbs.
Hydrargyri Perchloridum	1 lb
Hydrargyri Subchlorum	1 lb
Hyoscinae Hydrobromidum	1 drachm
Insulnum Including Protamine	5000 units
Insulin (with zinc) Suspension	8 ozs.
Iodum and preparations—	
Iodum	20 lbs
Liquor Iodi Mitis	5 lbs
Liquor Iodi Fortis	1 lb
Ipecacuanha and preparations—	
Ipecacuanhae	8 ozs.
Pulvis Ipecacuanhae et Opil	250 tablets of any strength (stating strength in grams)
Mepacrinae Hydrochloridum (Quina-crine, Atebrin, etc)	12 grams
Naganol or British equivalents such as Antrypol (B D H)	40 ampoules of any dose (stating details of strength in grams)
Neoursphenamina	250 tablets of any strength
Pamaquin (Plasmoquine, Praequine, etc)	(stating strength in grams).
Percaine	
Phenacetinum	4 ozs
Phenobarbitonum	1 lb
Phenobarbitonum Solubile	4 ozs
Phenol (Acidum Carbolicum pure)	4 ozs
Pituitary Extract (Posterior Lobe)	1 lb
Potassii Bromidum	100 ampoules of any strength
Potassii Iodidum	1 lb

OPPORTUNITY BOOKS from INDUSTRY PRESS. Write for recent Catalogue. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Item	Specified quantity.
Procaine Hydrochloridum — — —	1 lb.
Quinine Salts — — —	4 ozs
Sodii Iodidum — — —	4 ozs.
Sodii Salicylas — — —	1 lb.
Soluble Hexobarbitone (Evipan Sodium, etc) — — —	7 lbs.
Strophanthin (in solution or in tablet form) — — —	4 ozs
Sulpharsphenamina — — —	60 grains
Sulphanilamide — — —	40 ampoules of any dose (stating details of strength in grams).
Sulphapyridine (M & B 693) — — —	4 oz or 200 tablets of $\frac{1}{2}$ gram each.
Sulphathiazol (Thiazamide, M & B 760) — — —	200 tablets of $\frac{1}{2}$ gram each
Sulphaguanidine — — —	200 tablets of $\frac{1}{2}$ gram each.
Totaquina — — —	200 tablets of $\frac{1}{2}$ gram each 1 lb

The Schedule applies to items of any Pharmacopoeial or other accepted standards whether pure or admixed with any other substance, in bulk or in the form of tablets, ampoules, ointments, etc., including all proprietary brands and trade mark preparations and equivalents of them intended for oral, hypodermic, intravenous or external use

SCHEDULE II.

Area.	Authority.
Madras Presidency, Central Provinces and Berar and Coorg.	The Deputy Assistant Director General (Medical Stores), Madras
Bombay Presidency, Sind and Ajmer-Merwara.	The Deputy Assistant Director General (Medical Stores), Bombay.
Bengal Presidency, Bihar, Orissa and Assam.	The Deputy Assistant Director General (Medical Stores), Calcutta
United Provinces, Punjab, North-West Frontier Provinces, Delhi and Baluchistan	The Deputy Assistant Director General (Medical Stores), Lahore

Nothing in the order shall be deemed to require any hospital or charitable dispensary to submit any returns, or keep any register in respect of drugs purchased, held or sold by it

SULPHURIC ACID CONTROL ORDER, 1942.

The following Notification dated the 13th August 1942 issued by the Government of India in the Department of Supply prohibits the sale of Sulphuric acid except through valid licences and the registration of manufacturers. The order has been made in exercise of the powers conferred by sub-rule (2) of rule 81 of the Defence of India Rules

- 1 Short title and extent.—(1) This Order may be called the Sulphuric Acid Control Order, 1942
- (ii) It extends to the whole of British India

OPPORTUNITY BOOKS from INDUSTRY PRESS. Write for recent Catalogue. **INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

138 INDUSTRY YEAR BOOK & DIRECTORY, 1943

2. **Definitions.**—In this Order, unless there is any thing repugnant in the subject or context—

(a) "sulphuric acid" means all grades and concentrations of sulphuric acid or oil of vitriol

(b) "Licensing Authority" means the Director General of Supply, New Delhi or any officer appointed by him to perform the duties of the Licensing Authority;

(c) "manufacturer" means a person who manufactures sulphuric acid for sale.

(d) "Form" means a form appended to the order

3. **Prohibition of sale except through valid licences.**—On and after the 1st October 1942

(a) no manufacturer other than manufacturer registered under clause 4 shall sell sulphuric acid, and

(b) no manufacturer registered as aforesaid shall sell or otherwise dispose of sulphuric acid except on the authority of a basic or special sales licence issued under this order by the Licensing Authority

4 **Registration of manufacturers.**—(1) Every manufacturer who wishes to sell sulphuric acid shall, on or before the 1st October 1942 make an application for registration in Form SA/A to the Licensing Authority, stating the names and addresses of all persons to whom he supplied sulphuric acid during the calendar year 1941 together with the quantities of each grade supplied. The application shall also state the estimated quantity of sulphuric acid which he expects to manufacture and make available for sale during the period 1st October 1942 to 31st December 1942. Such manufacturer shall from time to time as hereafter directed in writing by the Licensing Authority furnish a statement to the Licensing Authority of the estimated quantities of sulphuric acid which he expects to manufacture and make available for sale during such subsequent period or periods as the Licensing Authority may indicate in the discretion

(2) The Licensing Authority, if he sees fit, shall grant a Registration Certificate in Form SA/B and shall issue a basic sales licence in the same Form stating the quantity of each grade of sulphuric acid which the registered manufacturer may supply during the period specified in the licence and the persons to whom he may supply it

(3) The Licensing Authority may at any time during the currency of the licence rescind or amend the licence without notice by order in writing to the licence holder

5 **Power to fix prices.**—The Central Government may, by notification in the official Gazette fix from time to time the price or prices at which manufacturers shall supply sulphuric acid to consumers and the Licensing Authority shall, in issuing a licence quote the price at which the manufacturer shall supply during the period specified in the licence

6 **Information to consumers of the quantity of sulphuric acid and supplier from whom they may purchase.**—The Licensing Authority shall inform each consumer or person named in a basic sales licence of the name of the manufacturer authorised to supply him with sulphuric acid, together with the quantity of each grade which such manufacturer may supply to him, the period during which and the prices at which the supply shall be made

7 **Application for Special Licence.**—Any consumer or person included in a basic sales licence who wishes to purchase sulphuric acid in excess of the quantities authorised in respect of him by such licence, and any consumer or person not included in a basic sales licence who

Utilise your waste products by reading **UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

wishes to purchase sulphuric acid shall apply in Form SA/C to the Licensing Authority

8 Issue of Special Licences.—The Licensing Authority shall pass such orders on each application under clause 7 as it thinks fit and shall either inform the applicant that his application has been rejected or—

(a) shall issue a licence in Form SA/C for the whole or part of the quantity of sulphuric acid applied for, naming in the licence the supplier from whom the applicant may get his supply or

(b) if the applicant is not already included in a basic sales licence, and if it is considered suitable, include the applicant in one or other of the basic sales licences already issued and shall specify the quantity of sulphuric acid of each grade which may be supplied to him and shall inform the supplier concerned

In exercise of the powers conferred by clause 5 of the order, 1942 the Central Government has fixed until further notice that the prices at which Sulphuric acid of different grades shall be supplied in the areas mentioned in the first column of the subjoined schedule shall not exceed the rates noted against them

THE WHEAT CONTROL ORDER, 1942.

The Wheat Control Order 1942, has come into force on the first day of May 1942 and prohibits any person from exporting or importing any wheat except under and in accordance with a permit issued in that behalf by the Wheat Commissioner

Applications for permits to export or import wheat during any calendar month shall be made in writing not later than the fifteenth day of the preceding month—

(a) in the case of export and import by rail or by sea, to the Wheat Commissioner; and

(b) in any other case to the Provincial Price Controller and shall contain full and true particulars of the following:—

- (i) name of consignor;
- (ii) name of consignee;
- (iii) quantity and nature of consignment,
- (iv) port or railway station of despatch (including district and province in which situated);
- (v) port or railway station of destination (including district and province in which situated),

Utilise your waste products by reading UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT., Shambazar, Calcutta...

(vi) price at which the wheat included in the consignment has been sold.

Where wheat is exported by rail in accordance with a permit issued by the Wheat Commissioner, the permit shall be returned by the consignor to the Wheat Commissioner on completion of despatch of the quantity therein mentioned with the entries in respect of each consignment showing the quantity despatched and the date of despatch duly certified by the Station Master on the permit

Where wheat is exported by sea in accordance with a permit issued by the Wheat Commissioner, the consignor shall deliver the permit to the Customs Collector who shall return it to the Wheat Commissioner after the consignment has been exported

Where wheat is exported otherwise than by rail or by sea in accordance with a permit issued, by the Wheat Commissioner, the permit shall be disposed of in accordance with such instructions as the Provincial Price Controller may by general order give in this behalf

If it appears to the Wheat Commissioner that a permit issued under the Order is not likely to be utilised or that there are sufficient reasons requiring its cancellation he may cancel the permit and on such cancellation the holder of the permit shall forthwith return it to the Wheat Commissioner

THE FOODGRAINS CONTROL ORDER, 1942.

Foodgrains Control Order, 1942 extends to the whole of British India, but shall come into force in any Province only on such date as the Provincial Government may by notification in the official Gazette appoint in this behalf

2. In this Order, unless there is anything repugnant in the subject or context—

(a) "foodgrain" means such one or more of the commodities specified in the First Schedule to this Order as the Provincial Government may from time to time by notification in the official Gazette declare to be a foodgrain to which this Order applies,

(b) "Form" means a form as set forth in the Second Schedule to this Order,

(c) "purchase in wholesale quantities" means purchase in quantities exceeding 20 maunds in any one transaction, and includes purchase by any person on behalf of another as a commission agent or as an *arhatiya*,

(d) "sale in wholesale quantities" means sale in quantities exceeding 20 maunds in any one transaction, and includes sale by any person on behalf of another as a commission agent or as an *arhatiya*.

3. No person shall engage in any undertaking which involves the purchase, sale, or storage for sale, in wholesale quantities of any foodgrain except under and in accordance with a licence issued in that behalf by the Provincial Government or by an officer authorised by the Provincial Government in this behalf

Provided further that the Provincial Government or an officer authorised by the Provincial Government in this behalf may by a special or general order exempt subject to such conditions as may be specified in the order, a purchaser other than retail dealer from the operation of the clause

4. Licences issued under this Order shall specify—

(a) the foodgrain or foodgrains in which the licensee may deal,

(b) the place or places at which the licensee may carry on the licensed undertaking

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/ 12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

5 Applications for licences under the Order shall be made to the Provincial Government or to an officer authorised by the Provincial Government in this behalf

6 No person being the holder of a licence issued, or deemed to be issued, under this Order shall contravene any of the conditions mentioned in Form A; and if any such person contravenes any of the said conditions, then without prejudice to any other action that may be taken against him, his licence may be cancelled by order of the Provincial Government or by an officer authorised by the Provincial Government in this behalf

(2) Notwithstanding anything contained in sub-clause (1), the Provincial Government may in special circumstance, without giving any previous notice or without assigning any reason, suspend or cancel a licence issued, or deemed to be issued under this Order

7 Any officer authorised by the Wheat Commissioner for India or the Provincial Government in this behalf may enter upon and inspect any premises in which he has reason to believe that the purchase, sale, or storage for sale, in wholesale quantities of any foodgrain is taking place contrary to the provisions of this Order.

8 Nothing in this Order shall apply to the sale or storage for sale by any person of any foodgrain produced by himself or by his tenant

FIRST SCHEDULE

- 1 Wheat and wheat products (including *ata*, *maida*, *rawa*, *suji* and *bran*) (*Triticum Spp* inclusive of the different species).
- 2 Rice in the husk (Paddy) (*Oryza Satava*)
- 3 Rice husked (*Oryza Satava*).
- 4 Maize (*Zea, mays*)
- 5 Jowar (*Sorghum vulgare*)
- 6 Bajra (*Pennisetum typhoides*)
- 7 Gram, any variety (*Cicer arietinum*)
- 8 Barley (*Hordeum vulgare*)
- 9 Ragi or mandua (*Eleusine coracana*)
- 10 Rahar (*Cajanus indicus*)
- 11 Masur (*Lens esculenta* or *Ervum Lens*).
- 12 Kodra (Kodon) (*Paspalum scrobiculatum*).

SECOND SCHEDULE.

Form A.

Subject to the provisions of the Foodgrains Control Order, 1942, and to the terms and conditions of this licence, _____ is/are hereby authorised to purchase, sell, or store for sale, in wholesale quantities all or any of the under-mentioned foodgrains:—

2 The licensee shall carry on the aforesaid business at the following places —

3 The licensee shall maintain a register of daily accounts for each of the foodgrains mentioned in paragraph 1 showing correctly—

- (a) the opening stock on each day,
- (b) the quantities received on each day showing the place of origin,
- (c) the quantities delivered or otherwise removed on each day showing the places of destination if consigned to places outside the district; and

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/ 12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

(d) the closing stock on each day

4 The licensee shall in respect of each of the foodgrains mentioned in paragraph submit to the officer issuing this licence so as to reach him not later than the fifteenth day of each month, a true return in Form C of the Second Schedule to the Foodgrains Control Order, 1942 of stocks, receipts and deliveries of the foodgrain during the preceding month

5 The licensee shall not in one transaction, sell any of the foodgrains mentioned in paragraph

(i) in quantities exceeding 20 maunds, to any person who does not hold a licence therefor under the Foodgrains Control Order, 1942, nor is otherwise authorised to purchase the foodgrain in wholesale quantities, or

(ii) in quantities exceeding 2 maunds to any person who is not a bona fide retail dealer or miller

6 The licensee shall issue to every customer a correct receipt or invoice as the case may be giving his own name, address and licence number, the name, address and licence number (if any), of the customer, the date of transaction, the quantity sold, the price per maund and the total amount charged, and shall keep a duplicate of the same to be available for inspection on demand by any authorised officer of Government

7 The licensee shall prominently display at each of the places mentioned in paragraph a correct list written in the language of the locality of the prices of all foodgrains in which he deals

8 The licensee shall give all facilities at all reasonable times to any authorised officer of Government for the inspection of his stocks and accounts at any shop, godown or other place used by him for the storage or sale of any of the foodgrains mentioned in paragraph 1 and for the taking of samples of such foodgrain for examination

9 The licensee shall comply with any directions that may be given to him by the Provincial Government in regard to the purchase, sale, or storage for sale, of any of the foodgrains mentioned in paragraph.

THE FOODGRAINS (FUTURES AND OPTIONS PROHIBITION) ORDER, 1942.

The Foodgrains (Futures and Options Prohibition) Order, 1942 extends to the whole of British India, and has come into force since the 28th day of May, 1942

This order lays down that save with the permission of the Central Government or of an officer authorised by the Central Government in this behalf, enter into any "futures in foodgrain," or pay or receive, or agree to pay or receive, any margin in connection with any such futures, enter into any options in foodgrain

Every futures in foodgrain entered into before the commencement of this Order and outstanding for settlement shall be settled at the prevailing market rate applicable to the agreement at the close of transactions on the 27th May 1942.

All options in foodgrain entered into before the commencement of this Order and remaining to be performed whether wholly or in part shall be void within the meaning of the Indian Contracts Act, 1872 and shall not be enforceable by law.

No person being the owner or occupier of any premises shall knowingly permit such premises to be used—

For the making of any futures or options in foodgrain, or the payment or receipt of any margins, prohibited by clause 3 or for the settlement of any futures in foodgrain in contravention of the provisions of clause 4, or for the performance of any options in foodgrain declared void by clause 5

The Central Government may by a notification in the official Gazette appoint such persons as it thinks fit to be Inspectors for the purposes of this Order within such local limits as it may assign to them respectively.

Prepare ghee, butter, casein, condensed milk, etc. at home. MILK & MILK PRODUCTS explains the way. Re. 1/12. Industry Book Dept., Calcutta.

COTTON TEXTILES SIZING AND FILLING CONTROL ORDER, 1942.

The following Notification dated the 8th August 1942 has been issued by the Government of India in the Department of Commerce —

1 Short Title This Order may be called the Cotton Textiles Sizing and Filling Control Order, 1942

2 Definition In this Order, unless there is anything repugnant in the subject or context, "cotton piece-goods" includes any woven or knitted fabric or material containing more than 90 per cent by weight of cotton after removal of any size or filling

3 Sizing or filling No person shall on or after the 1st day of September 1942, manufacture or process, or cause to be manufactured or processed, any cotton piece-goods which contain any sizing or filling material, or both, of any description, exceeding in the aggregate 20 per cent of the weight of the cotton in the cloth

4 No person shall on or after the 1st September, 1942, sell or otherwise dispose of or purchase or otherwise acquire any cotton piece-goods which have been manufactured, processed or finished in contravention of clause 3

5 Tests For the purposes of this Order, the proportion of sizing or filling material, or both relative to the weight of the cotton in any finished cotton piece-goods shall be determined by such test as the Central Government may, from time to time, prescribe by order in writing and the result of such test shall be conclusive

6 Inspection of premises Any officer authorised by the Central Government in writing in this behalf may, enter upon and inspect any premises in which he has reason to believe that cotton piece-goods are manufactured or processed or sized or filled in contravention of the provisions of this Order, and may ask for any information relating to the manufacture, processing, sizing or filling of such piece-goods in those premises

7 Existing contracts Nothing in this Order shall apply to or affect the manufacture, processing, sizing or filling of any cotton piece-goods, which is in pursuance of any firm contract entered into before the 8th August, 1942, if particulars of such contracts are furnished to the Central Government in the Department of Commerce not later than the 28th August, 1942, but all contracts not saved by the provisions of this clause shall, in so far as they are at variance with the provisions of this Order, be void

RUBBER MANUFACTURES CONTROL ORDER, 1942.

The following Notification dated the 26th August 1942 has been issued by the Government of India in the Department of Supply —

1 Short title and commencement—(i) This Order may be called the Rubber Manufactures Control Order, 1942

(ii) It shall come into force on 1st September 1942

2 Interpretation—In this Order, 'rubber' means any crude rubber or liquid latex or gutta percha or balata whether crude, waste or reclaimed

3 Prohibition of production of certain articles—No person shall produce any article of any of the descriptions specified in the first schedule to this Order, any component part of any such article, if such article or component part contains any rubber

Provided that this clause shall not apply to the production of any article or component part of any article produced under a special or

HAND SPINNING & WEAVING: Contains Detailed Methods. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta

general direction issued by the Central Government in the Department of Supply

4 Restriction of production of certain articles—No person shall produce any article of the description specified in the second schedule to this Order, or any component part of any such article, if such article or component part contains any rubber except under the authority of and in accordance with a licence granted, or a special or general direction issued, by the Controller of Rubber Manufactures, Directorate General of Supply, Department of Supply

5 Application for and grant of licences—(1) All applications for permission to produce any of the articles detailed in the second schedule to this Order shall be made to the Controller of Rubber Manufactures, Directorate General of Supply, New Delhi.

(11) The Controller of Rubber Manufactures shall pass such orders on each application as he thinks fit and shall either inform the applicant that his application has been rejected or shall issue a licence for all or any of the articles covered by the application

(111) The holder of any licence shall comply with the terms thereof.

FIRST SCHEDULE

(Articles the production of which is prohibited)

1 Flooring, mats, paving, etc—(a) Flooring, (b) Mats or matting, (c) Stair nosing, risers or trades, (d) Goving, (e) Blocks (road or paving), (f) Traffic lines and studs other than reflector studs, (g) Wall covering

HAND SPINNING & WEAVING: Contains Detailed Methods. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

tyres, (f) Cycle pedal fittings, (g) Rubberised motor hood cloth, (h) Contraceptives, (i) Gloves (Surgical and Industrial), (j) Teats and valves for feeding bottles

3 Footwear (a) Soles, heels or tips, (b) Any type of footwear having rubber soles, heels or tips

4 Industrial goods (a) Solid rubber sheeting, (b) Insertion rubber sheeting

THE RUBBER CONTROL ORDER, 1942.

The following Notification dated the 24th March 1942, has been issued by the Government of India in the Department of Commerce:—

1 Short title and commencement—Rubber Control Order 1942, has been in force since applies to the 1st April 1942

2. In this Order, unless there is anything repugnant in the subject or context

(a) "the Act" means the Indian Rubber Control Act, 1934 (XXVIII of 1934),

(b) "approved" means approved by the Committee for the purpose of granting permits for sale or transfer of rubber in the Indian market,

(c) "Committee" means the Indian Rubber Control Committee constituted under clause 3;

(d) "dealer" means any person who deals in rubber (not being goods manufactured from rubber) or holds stocks thereof;

(e) "estate" means any area over 100 acres administered as one unit which contains land planted with rubber plants,

(f) "Form" means a form appended to this Order,

(g) "manufacturer" means any person engaged in the manufacture of articles containing rubber and includes his representative or agent;

(h) "rubber" means the following, namely,

(i) crude rubber, that is to say, rubber prepared from the leaves, bark of latex of any rubber plant,

(ii) the latex of any rubber plant, whether fluid or coagulated, in any stage of the treatment to which it is subjected during the process of conversion into rubber;

(iii) latex (dry rubber contents) in any state of concentration

3 There shall be constituted for the purposes of this Order a Committee to be called the Indian Rubber Control Committee, consisting of—

(a) the members of the Indian Rubber Licensing Committee constituted under the Act, and

(b) one person to be nominated by the Association of Rubber Manufacturers in India, and the Chairman of the Indian Rubber Licensing Committee shall be its Chairman

(2) So far as they are not inconsistent with this Order, rules made under section 10, and by-laws made under section 6, of the Act shall apply *mutatis mutandis* in relation to the Indian Rubber Control Committee and the sub-committees appointed under this Order

4 The Committee may appoint such sub-committees and such executive officers as may be necessary for the efficient performance of the duties imposed upon it by this Order and may prescribe the procedure to be followed by such sub-committees in functioning for the purposes of this Order,

Provided that sub-committees or executive officers appointed by the Indian Rubber Licensing Committee constituted under the Act shall be deemed to have been duly appointed under this Order.

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils." Re. 1/12. Industry Book Dept., 22, R. G. Kar Road, Cal.

Provided further that the prescribed procedure to be followed by such sub-committees shall include a provision for reference to the Committee of any point upon which opinion in the sub-committee may not be unanimous.

5. (1) The Committee shall—

(a) approve estates and dealers for the purpose of this Order and maintain a register of approved estates and dealers;

(b) receive the permits sent by the manufacturers after utilisation and check them and the endorsements thereon with the copies of permits, sent by the Controller of Rubber Manufactures,

(c) submit to the Central Government in the Commerce Department quarterly returns on the working of this Order,

(d) submit to the Central Government in the Commerce Department so as to reach that Department on or before the fifteenth day of each month beginning with the 15th May 1942, a report showing—

(i) the stocks of all grades of rubber held by each approved estate or dealer on the last date of the month for which returns of stocks have been last received by the Committee distinguishing clearly between the grades which are suitable or required for manufacture in India and those which are not, and

(ii) an estimate of all grades of rubber expected to be available for distribution in the three months following the date of the submission of the report;

(e) carry out such other functions in respect of this Order as the Central Government may from time to time assign to it

(2) The Committee may—

(a) make rules consistent with this Order to regulate the admission or removal of an estate or dealer to or from the register of approved estates or dealers,

(b) inspect approved estates or premises of approved dealers,

(c) examine consignments of rubber sent in pursuance of a permit;

(d) reject consignments which are not suitable or are not of the required grade,

(e) ensure that consignments are duly despatched and delivered,

(f) require approved estates or dealers to submit such returns at such intervals and on such occasions as the Committee may prescribe

(3) All rules made under sub-clause 2 (a) shall be subject to the previous sanction of the Central Government

6 All questions which may come before the Committee at any meeting or by circulation of papers shall be decided by a majority of votes.

7. (1) Any manufacturer wishing to purchase or otherwise acquire rubber in the Indian market shall apply in Form A to the Controller of Rubber Manufactures

(2) The Controller of Rubber Manufactures may in his discretion reject any application made under sub-clause (1), in which case he shall inform the applicant, or issue to the applicant, upon payment of the fee prescribed in clause 8, a permit in Form B for the purchase of such quantity of rubber, and subject to such conditions, as he may deem fit to specify in the permit.

(3) The manufacturer to whom a permit has been issued under this clause shall have it endorsed by the approved estates or dealers from whom he purchases or otherwise acquires rubber from time to time in pursuance thereof, and after the permit has been utilised, send it to the Committee

(4) The Controller of Rubber Manufactures shall send to the Committee a copy of every permit issued by him under this clause

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils." Re. 1/12. Industry Book Dept., 22, R.-G. Kar Road, Cal.

(5) Permits issued under this clause shall cease to be valid on the expiry of three months from the date of issue

8 (1) There shall be paid by the manufacturer for every permit in Form B a fee at the rate of two annas and six pies for every hundred pounds, or part thereof, of rubber covered by the permit, but the manufacturer shall be entitled to recover the amount *pro rata* from the approved estates and dealers from whom he purchases or otherwise acquires rubber from time to time in pursuance of the permit

(2) The fee shall be credited to the accounts of the Indian Rubber Licensing Committee constituted under the Act

8A (1) Any manufacturer holding stocks of rubber produced by him shall, before using such rubber for purposes of manufacture, apply every month in Form BB to the Controller of Rubber Manufactures, Directorate General of Supply, New Delhi

(2) The Controller or Rubber Manufactures may reject any application made to him or grant an authority to the manufacturers to use such rubber under such conditions as he may deem fit. In either case, he shall inform the applicant of the action taken

9 No manufacturer shall manufacture, process, sell or otherwise dispose of stocks of raw rubber held by him on the 1st April 1942, or shall sell or otherwise dispose of raw rubber purchased and in transit or awaiting delivery on that date except on the written authority of the Controller of Rubber Manufactures, Directorate General of Supply, New Delhi, to whom application in this respect should be made on Form C

9A *Restriction of manufacture from, or disposal of rubber imported after the 1st April, 1942*—No manufacturer shall manufacture, process, sell or otherwise dispose of stocks of rubber imported by him after the 1st April 1942 except on the written authority of the Controller of Rubber Manufactures, Directorate General of Supply, New Delhi, to whom application in this respect shall be made on Form D within seven days of the arrival of such imported stocks

10 On and after the 1st April 1942—

(a) no person shall sell or otherwise transfer to a manufacturer in the Indian market any rubber except through an approved estate or dealer, (ii) no approved estate or dealer shall sell or otherwise transfer to a manufacturer in the Indian market any rubber except under the authority of and in accordance with the conditions contained or incorporated in a permit granted by the Controller of Rubber Manufactures

11 If any dispute arises between an approved estate or dealer on the one hand and a manufacturer on the other concerning the supplies of rubber, the dispute shall be referred to the Committee which shall arbitrate between the parties and make such award thereon as it may think proper

12 The Central Government in the Supply Department shall publish from time to time in the Official Gazette list of manufacturers in India

13. No person shall cut out any rubber plant for the purpose of replanting or of planting other crops or for any other reason except under the authority of and in accordance with the conditions contained or incorporated in an order in writing issued by the Committee

14 Every approved estate or dealer shall notify to such officer as may be authorised by the Committee in writing in this behalf all places used by it or him for growing rubber or for storing the same or for preparing the same for sale, and shall give to such officer every facility for inspecting such places

New Careers Await You ! Read MECHANICAL INDUSTRIES, Re. 1/1.2 INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

(2) Any officer authorised by the Committee in writing in this behalf may enter upon and inspect any estate or premises in which he has reason to believe that rubber belonging to an approved estate or dealer is kept for sale or sold.

15 Where any permit is revoked, the person to whom it was granted shall forthwith return it to the authority which granted it

16. The Committee may delegate to sub-committees or executive officers appointed under clause 4 or such officer as it may authorise in writing in this behalf, such powers as seem fit for the proper working of this Order.

17 Any estate or dealer or manufacturer aggrieved by any order, decision or award of the Committee may appeal to the Central Government within thirty days from the date thereof and the Central Government may on such appeal cancel, modify or suspend any order, decision or award of the Committee

Any manufacturer aggrieved by any order to decision of the Controller of Rubber Manufactures may appeal to the Central Government within thirty days from the date thereof and the Central Government may on such appeal cancel, modify or suspend any order or decision of the Controller of Rubber Manufactures

The Central Government direct that no person shall buy or sell raw rubber of the grade and quality specified in the second column of the Table hereto annexed at any place specified in the corresponding entry of the third column of the said Table at a price different from that specified in the corresponding entry in the fourth column of the said Table.

Table.

Serial No	Grade and Quality of Raw Rubber.	Place	Price (F O. B. or F. O. R.).
1	RMA IX	Port of Cochin	Rs 71-8-0 per 100 lbs.
2	RMA 1	Ditto	Rs. 70-8-0 per 100 lbs.
3	RMA 2	Ditto	Rs 69-8-0 per 100 lbs.

INDIAN TEA CONTROL (AMENDMENT) ORDINANCE, 1942.

The Indian Tea Control (Amendment) Ordinance, 1942, published in the Gazette of India Extraordinary, dated the 1st September 1942, to amend the Indian Tea Control Act 1938, for the purposes hereinafter appearing

1 Short title and commencement—(1) This Ordinance may be called the Indian Tea Control (Amendment) Ordinance, 1942.

(2) It shall come into force at once

2 Amendment of section 17, Act VIII of 1938—(1) In section 17 of the Indian Tea Control Act, 1938 (VIII of 1938)—

(a) after sub-section (2), the following sub section shall be inserted, namely —

“(2A) A person to whom a special export licence has been issued in lieu of an export licence covering the export of tea in the financial year ending on the 31st day of March, 1942, may transfer the licence with all rights conferred thereby to a person or persons nominated by him, but a licence once so transferred shall not be further transferable”

(b) to sub-section (3) the following proviso shall be added, namely —

“Provided that a special export licence issued in lieu of an export licence covering the export of tea in the financial year ending on the 31st day of March, 1942, shall not cease to be valid on the 31st day of May of the year in which it was issued, but shall continue to be valid up to the 31st day of March, 1943”

(2) The amendments made by sub-section (1) shall be deemed to have taken effect on the 1st day of April, 1942

THE SUGAR CONTROL ORDER, 1942 : (REVISED).

The following Notification dated the 29th June 1942 has been issued by the Government of India in the Department of Commerce —

1 (1) This Order may be called the Sugar Control Order, 1942.

(2) It extends to the whole of British India.

(3) It shall come into force at once

2 In this Order, unless there is anything repugnant in the subject or context

(a) “Controller” means the person appointed as the Sugar Controller for India by the Central Government, and includes any person authorised by the said Controller to exercise all or any of the powers of the Controller under this Order.

(b) “dealer” means a person dealing in the purchase, sale or distribution of sugar.

(c) “ex-factory price” means the price of sugar, inclusive of excise duty, packed in accordance with the usual market practice, and loaded at the buyer's option, on buyer's carts or lorries, or into railway wagons at the railway station or siding generally used by the producer, and all incidental charges, including those for siding and forwarding, being on account of the ex-factory seller

(d) “producer” means a person carrying on the business of manufacturing sugar with the aid of power and using vacuum pans or evaporators

(e) “recognised dealer” means a dealer who has been recognised by the Controller for the purposes of this Order

3 No producer shall, after such date as the Controller may notify in this behalf, dispose of, or agree to dispose of, or, in pursuance of

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUTNESY & MORABBAS explains the process. Industry Book Dept., Calcutta

any agreement entered into on or before such date make delivery of, any sugar, except—

- (i) to or through a recognised dealer, or,
- (ii) to a person specially authorised by the Controller to acquire sugar on behalf of the Central Government or of a Provincial Government.

4 The Controller may, by general or special order, prohibit, or limit to such quantities as may be specified in the order, the manufacture by any producer or by producers generally of such types or grades of sugar or sugar products as the order may specify, and no producer to whom such order applies shall manufacture any sugar or sugar products in contravention thereof.

5 Every dealer shall comply with such directions regarding the sale or distribution of sugar as may be given to him by the Controller.

6 (1) The Controller may, from time to time, fix the prices at which any sugar made in India may be sold

(2) Where such prices have been fixed—

(a) the price at which any sugar may be sold for delivery otherwise than *ex-factory* shall be the price fixed under sub-clause (1) for sale *ex-factory* plus such charges in respect of transport to or in specified areas and other incidental charges as are approved by the Controller.

(b) no person shall sell or purchase or agree to sell or purchase any sugar at a price different from that fixed under the provisions of this clause

(c) no sugar shall be delivered or accepted in pursuance of an agreement entered into before such fixing of prices which provides for the payment of a price different from that fixed under the provisions of this clause unless the agreement is by consent of parties so revised as to substitute for the price originally agreed the price so fixed.

7 (1) The Controller may, from time to time,

(i) allot quotas for the requirements of any specified Province or other area, or of any specified market, and

(ii) issue directions to any producer to supply sugar to such areas or markets or such persons or organisations, in such quantities, of such types or grades, at such times and in such manner as may be specified by the Controller.

(2) Every producer shall, notwithstanding any existing agreement with any other person, give priority to, and comply with, any directions issued to him under sub-clause (1).

8 (1) No sugar in consignments of more than one bag shall, after such date as the Controller may notify in this behalf, be offered for transport by rail by a consignor or accepted by a Railway for transport except under a permit issued by the Controller in such form and subject to such conditions and in respect of such areas as he may from time to time prescribe,

Provided that this clause shall not apply to the transport by rail of sugar (a) by a bona fide traveller as part of his personal luggage, or (b) under and in accordance with Military Credit Notes, or (c) under and in accordance with a permit issued by a Provincial authority before the date of this notification

(2) A permit issued in pursuance of sub-clause (1) shall be returned by the consignor to the Controller on completion of despatch, or on expiry of the period of its validity, whichever is earlier, with the particulars of actual despatches in the prescribed form, and certified by the Station Masters concerned.

(3) For the purposes of this clause "sugar" means sugar manufactured by any process, including sugar made in vacuum pan factories

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUT-NESY & MORABBAS explains the process. Industry Book Dept., Calcutta

from cane or *gur* or palmyrah jaggery, as well as *khandsari* sugar and *Bura*, but excluding powdered jaggery and sugar candy (*misri*)

9 The Controller may, by notification in the official Gazette, make rules for carrying into effect the purposes and objects of this Order.

10 Notwithstanding the supersession of the Sugar Control Order, 1942, dated the 14th April, 1942, all notifications, orders and directions issued thereunder shall, so far as they are not inconsistent with this Order, be deemed to have been made hereunder.

DIRECTIONS TO RECOGNISED DEALERS

Recognised dealer's selling price and incidental charges When a recognised dealer sells sugar wholesale (that is, in units of not less than a bag which is usually of 2 maunds and 30 seers), he shall charge a price which shall comprise the items named below

- (i) The *ex-factory* price,
- (ii) The railway freight *actually paid* by him,
- (iii) The octroi and other local taxes, *actually paid* by him,
- (iv) The incidental charges (comprising expenditure on local cartage, godown charges, insurance, interest, brokerage, establishment and shortage in weight) *actually incurred* by him, subject to a maximum limit of 4 annas per maund, and
- (v) If the recognised dealer is operating as a wholesale stockist, the dealer's profit, subject to a maximum of one anna per maund

Provided that (a) no recognised dealer shall be entitled to any profit under item (v) if he has been paid any commission, brokerage, rebate or other form of remuneration by the seller, and (b) the limits prescribed under items (iv) and (v), namely, 4 annas and 1 anna, respectively, are not exceeded after taking into account all intervening transactions between the sale of sugar by the producer and its distribution to a retail dealer

Duties of recognised dealers—(i) The recognised dealer shall see that sugar is sold by him to persons previously established in sugar business and for bona fide trade purposes and not for purposes such as hoarding or speculation

(ii) He shall not withhold stocks from the market and shall assist the steady flow of sugar from the factory to the consumer, by distributing the stocks fairly and evenly among stockists in the various consuming markets

(iii) He shall not demand, directly or indirectly, a price other than the fixed control price

(iv) He shall take all possible measures to see that sugar sold by him is distributed at control prices whether in British India or in the Indian States

(v) He shall be responsible for the sugar sold by him conforming to such general or special directions as may be issued by the Government concerned or the Controller in regard to its transport or the area in which it is to be distributed

(vi) He shall bring to the notice of the Government concerned and the Sugar Controller cases where he has reason to believe that the Sugar Control Order is not observed by his suppliers or buyers

Records to be maintained and returns to be supplied—The recognised dealer shall maintain such records of purchase, sale, stocks and prices of sugar and shall submit such returns as may be prescribed by the Government concerned or the Controller. The records shall be open to inspection by persons authorised in this behalf by the Government concerned or the Controller

WAR RISKS (GOODS) INSURANCE AMENDMENT ORDINANCE, 1942.

The text of the above Ordinance is published in the Gazette of India Extraordinary, dated the 11th April 1942. The Ordinance further amends the War Risks (goods) Insurance Ordinance, 1940 and has been in operation since the date of its promulgation.

According to the Ordinance, the expression "war risks" in section 2 of the Ordinance has been extended to cover damage resulting from destructive action taken by or under orders of Government in order to deny facilities to the enemy.

The second amendment extends to cover on a compulsory basis to goods owned by firms carrying on business in British India which are situated in the State area inside the Cochin port limits and also the area inside the boundaries of the municipal committees of Ernakulam and Mattancherry. The original Ordinance extended only to British India.

Another proviso is that where the rate of premium is charged in respect of a quarter, power has been taken to charge the higher rate from persons who may have already taken out policies at the lower rate.

WAR RISKS (FATORIES) INSURANCE ORDINANCE, 1942.

This Ordinance promulgated on April 7, 1942 provides that any person who effects insurance under the Ordinance will be held covered with effect from 1st April, 1942. It has been effective in British India, Baluchistan and certain territories outside British India.

The main features of the Ordinance are —

It covers all damage to plant and machinery and also buildings. Buildings for the purpose of insurance include all buildings, residential or otherwise, situated within two miles of a factory and used for the purposes of the factory. Damage also includes that resulting from destructive measures taken by or under orders of Government with a view to denying facilities to the enemy.

The Ordinance applies to all factories situated in British India and coming under the Factories Act, as also premises deemed as factories within the definition of a factory in the Factories Act, 1939, 1940 and 1941, including even works in course of construction which, when completed, will become factories. The basis of valuation will be the actual value of factory buildings and factory plant and machinery on the date of application. The premium payable will be a single premium payable in instalments, and the cover provided in return is available upto 31st March, 1944. Government's liability to pay compensation, however, is limited to 80 per cent of the damage, the remaining 20 per cent or Rs 1,000, whichever is greater, requiring to be borne by the insured himself. The responsibility to insure is the owner's, but where the owner and the occupier are different, the occupier must obtain cover as the agent of such owner, if the latter does not insure.

The Central Government may, at its option, elect either to pay, within the limits of the liability assumed by the Central Government (i.e., 80 per cent of the value insured) and in such manner and by such instalments as the Central Government may think fit, the cost necessary to restore the property, as far as practicable, to the condition in which it existed before the occurrence of the damages or to

Learn the modern methods of Cotton Dyeing from COTTON DYEING & PRINTING. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

compensate, within the aforesaid limits, for the loss in value ascertained on the basis of values and prices ruling at the time at which the policy of insurance was taken out, or at which the loss occurred, whichever is less, suffered by the property as a result of the damage, after due allowance has been made for depreciation during the current period of insurance cover

The Government may prescribe different rates of premium in respect of (a) factories established after the inauguration of the scheme, (b) property insurable under this Ordinance which consists of restorations or reconstructions of property insurable under the Ordinance which consists of restorations or reconstructions of property appertaining to a factory, (c) property insurable under the Ordinance which consists of restorations or reconstructions of property insurable under the Ordinance which has, after the inauguration of the scheme, suffered damage or destruction arising from a war risk

Exemption from the provisions of Section 5 of the ordinance is granted to any premises which have at any time after 31st December, 1938 been a *factory* and which have been dismantled and to any premises including the precincts thereof which are in part a factory and in part used for the purposes of another trade or business, the number of workers ordinarily working on the factory part of the premises being less than one-fifth of the number of persons employed on the other part of the premises for the purposes of the other trade or business

INDUSTRIAL STATISTICS ACT, 1942.

The above Act has been enacted to facilitate the collection of statistics of certain kinds relating the industries. According to this Act the Provincial Government may direct that statistics should be collected relating to factories —(1) prices of commodities, (2) attendances, (3) living conditions including housing, water supply and sanitation, (4) indebtedness, (5) rents of dwelling houses, (6) wages and other earnings, (7) provident and other funds provided for labour; (8) benefits and amenities provided for labour, (9) hours of work, (10) employment and unemployment, (11) industrial and labour disputes. The Provincial Governments are also empowered to appoint an officer to be the statistics authority for the purposes of the collection of any statistics under this Act. Various penalties are prescribed for false statements or withholding statements by anybody approached for statistics under the provisions of the Act

PAPER CONTROL ORDER.

The Paper Control Order promulgated and enforced by the Govt of India by the middle of November, 1942, specifically imposes restrictions on the printing, making or publishing of any directory, posters, advertising circular, etc. The Order does not apply to publication of newspapers as defined in the Newspaper Control Order, 1942. Any new newspaper, news bulletin, magazine or periodical can not be published without the permission of the Govt of India obtained through the Paper Production Commissioner. The Order also prohibits the printing of picture post cards or greeting cards for purposes of retail selling, the publishing of any calendar containing a greater weight of paper than four ounces, the printing of gramophone or advertising show cards. The Order, however, does not prevent the distribution of circulars, trade catalogues, stocks, shares, insurance particulars, etc.

COMMERCIAL ASSOCIATIONS

CONNECTED WITH INDIAN TRADERS.

THERE are a number of commercial organisations such as the Chamber of Commerce, trade associations and the planters' associations to safeguard the interests of the commercial community and give expression to their grievances to the Government of India and the Provincial Governments as well. One of the most important functions they have to perform is to express their opinion on the various measures adopted by the Governments as are likely to wield considerable influence over the commercial, industrial and economic developments of the country. The Central and Provincial Governments also generally invite the views of the leading Chambers of Commerce and Trade Associations before adopting any measures of fundamental importance to the commercial public. The membership of the most prominent of these associations is mainly restricted to European merchants though open to Indians also, but a recent development in progress is the constitution of Indian Chambers of Commerce to focus the commercial sentiment from the Indian point of view. Chief among these are Indian Merchants' Chamber in Bombay, Bengal National Chamber of Commerce in Calcutta, South Indian Chamber of Commerce in Madras, etc., etc. The membership of most of these bodies is confined to the province or city where their head-quarters are situated, but they maintain close touch with similar organisations at other trade centres. The European Chambers of Commerce are mostly affiliated to the Associated Chambers of Commerce in India while the Indian Chambers of Commerce have established an association for themselves, which has gained considerable importance as Federation of Indian Chambers of Commerce. These Associations hold their sessions annually.

In view of the very important services these Chambers of Commerce render by voicing the feelings which lead to greater trade and industries, these enjoy special privileges at the hands of the Government. They have the privilege of electing representatives each to the Federal Assembly and to the Legislative Councils of their Local Governments. Besides a number of seats are allotted to labour associations in the Legislative Councils of the major Provinces. The Chambers are also represented in quasi Government institutions.

The Bengal and Bombay Chambers of Commerce have the privilege of electing a representative each to the Council of State and 6 and 2 representatives respectively to the Legislative Councils of the respective Presidencies. The Madras Indian Chamber and the Indian Merchants Chamber elect a representative, each, to the Legislative Assembly while the Millowners' Associations at Bombay and Ahmedabad and the Bengal Chamber of Commerce, the Marwari Association (Bengal) and the Bengal Mahajan Sabha enjoy the privilege in rotation of electing a representative in the Assembly.

Indian Merchants' Chamber, Lalji Naranji Memorial, Indian Merchants' Chamber Building, Back Bay Reclamation, Churchgate Street, Fort, Bombay—The Indian Merchants' Chamber, organised in Bombay in 1907, is meant to promote the objects of the Indian business community in matters of inland and foreign trade, shipping and transport, industry and manufacture, banking and insurance

The Chamber has a membership of over 750. About 40 Commercial and Trade Associations representing various trades such as rice, grain and seeds, iron, match, bullion, indigenous banking, insurance, cotton, etc., in the city and province of Bombay are affiliated to the Chamber

The Measurement Department of the Chamber undertakes to measure cargo meant for export as also cotton bales in jatha as required by the terms of contract made under the Rules of the East India Cotton Association, Ltd. With a view to encourage the spread of commercial education among Indians, who select business as their career, the Chamber has instituted a Commercial Examination Board to conduct under their auspices commercial examinations. About 50 Institutions are recognised by the Board to coach up students for these examinations. The Examinations are held once in a year, generally in the beginning of May.

Office-Bearers for 1942—President: Mr J. C. Setalvad, Vice-President. Seth Haridas Madhavdas. INDIAN INCOME TAX RATES

Indian Income Tax Act applies to all incomes, profits or gains from the following heads of incomes, provided the income accrues or arises or is received in British India, or is deemed to accrue or arise or to be received in British India —

(I) Salaries; (II) Interest on Securities, (III) Property; (IV) Business; (V) Professional earnings, (IV) Other sources

The aggregate amount of an assessee's income-tax chargeable under each of the heads (I) to (VI) shall be the taxable income of the assessee and tax thereon shall be levied at the rate specified below:—

Part I.

RATES OF INCOME-TAX.

A—In the case of every individual, Hindu undivided family, unregistered firm and other association of persons not being a case to which paragraph B of this Part applies —

(a) Where the total income does not exceed Rs 2,000—

	Rate
1 On the first Rs 750 of total income --	Nil.
2. On the next Rs 1,250 of total income --	Six pies in the rupee.
Provided that no tax shall be payable on	
(a) total income which does not exceed	
Rs. 1,500	

(b) Where the total income exceeds Rs 2,000—

	Rate.	Surcharge.
1. On the first Rs 1,500 of total income,	Nil	Nil.
2 On the next Rs. 3,500 of total income,	Nine pies in the rupee.	Six pies in the rupee.
3. On the next Rs. 5,000 of total income	One anna and three pies in the rupee.	Nine pies in the rupee
4 On the next Rs. 5,000 of total income.	Two annas in the rupee.	One anna and two pies in the rupee.
5 On the balance of total income,	Two annas and six pies in the rupee.	One anna and three pies in the rupee.

B—In the case of every company and local authority, and in every case in which under the provisions of the Indian Income-tax Act, 1922, income-tax is to be charged at the maximum rate—

	Rate.	Surcharge.
On the whole of total income,	Two annas and six pies in the rupee	One anna and three pies in the rupee

PART II.

Rates of Super-tax.

A—In the case of every individual Hindu undivided family, unregistered firm and other association of persons, not being a case to which paragraphs B and C of this Part apply—

There is lot of money in Confectionery making. Read **MANUFACTURE OF CONFECTIONERY.** Re. 1/12. Industry Book Dept., Calcutta.

	Rate.	Surcharge.
1. On the first Rs 25,000 of total income	Nil.	Nil.
2. On the next Rs 10,000 of total income	One anna in the rupee.	Six pies in the rupee.
3. On the next Rs 20,000 of total income	Two annas in the rupee.	One anna in the rupee.
4. On the next Rs 70,000 of total income.	Three annas in the rupee	One anna and six pies in the rupee
5. On the next Rs 75,000 of total income	Four annas in the rupee.	Two annas in the rupee
6. On the next Rs 1,50,000 of total income.	Five annas in the rupee.	Two annas and six pies in the rupee.
7. On the next Rs 1,50,000 of total income	Six annas in the rupee	Three annas in the rupee.
8. On the balance of total income.	Seven annas in the rupee.	Three annas and six pies in the rupee

B—In the case of every local authority—

	Rate	Surcharge
On the whole of total income.	One anna in the rupee.	Six pies in the rupee.

C—In the case of an association of persons being a co-operative society, other than the Sanikatta Saltowners' Society in the Bombay Presidency, for the time being registered under the Co-operative Societies Act, 1912, or under an Act of the Provincial Legislature governing the registration of Co-operative Societies—

	Rate.	Surcharge
1. On the first Rs. 25,000 of total income.	Nil	Nil
2. On the balance of total income.	One anna in the rupee	Six pies in the rupee.

D—In the case of every company—

	Rate
On the whole of total income.	One anna and six pies in the rupee.

EXCESS PROFITS TAX.

The excess profits tax imposed by section 4 of the Excess Profits Tax Act, 1940 (XV of 1940), shall, in respect of any chargeable accounting period beginning after the 31st day of March, 1942, be an amount equal to sixty-six and two-thirds per cent of the amount by which the profits of the business during that chargeable accounting period exceed the standard profits

Under a notification dated the 5th September 1942 of the Government of India in the Finance Department (Central Revenues) Excess Profits Double Taxation (India and Ceylon) Rules have been framed. The object of the Rules is to grant relief in cases where, in respect of any profit of any business excess profit tax has been paid under the Excess Profits Tax Act, 1940 (XV of 1940), and excess profits duty has been paid in Ceylon.

If you want to market Crops, learn preliminary process from PREPARING CROPS FOR THE MARKETS., Re. 1/12. Industry Book Dept., Cal.

PRESENT SCALE OF INCOME TAX.

The assessment of income tax on the basis of aforesaid rates for income tax and surcharge for incomes varying from Rs 1,501 to Rs 1 lakh is as follows:—

Income per annum in Rs.	Income Tax		Surcharge		Total Income Tax	
	Rs	As. P.	Rs	As. P.	Rs	As. P.
1,501	23	7 6	Nil		23	7 6
1,600	26	9 0	Nil		26	9 0
1,700	29	11 0	Nil		29	11 0

Prints, Engravings and Pictures (including photographs and picture post cards) on paper or cardboard—60 per cent ad valorem

TEXTILE MATERIALS.

Silk, raw (excluding silk waste and noils), and silk cocoons—30 per cent ad valorem, plus Re 1-½ anna per lb.

Silk waste and noils 30 per cent ad valorem.

Wool, raw, and wool-tops—Free.

Cotton, raw—One anna per lb.

Ram hemp—22½ per cent ad valorem.

Sisal and aloe fibre—36 per cent ad valorem Br C. 24 p c

Raw flax, jute and all other unmanufactured textile materials, not otherwise specified 30 per cent ad valorem.

Silk Yarn including thrown silk warps and yarn spun from silk waste or noils but excluding sewing thread—30 per cent ad valorem plus Re 1-½ anna per lb.

Silk sewing thread—30 per cent ad valorem.

Artificial silk yarn and thread—30 per cent ad valorem or 6 annas per lb whichever is higher.

Woollen yarn not otherwise specified—30 per cent ad valorem.

Woollen yarn for weaving and knitting wool—30 per cent ad valorem.

Cotton twist and yarn, and cotton sewing or darning thread—(1) of British manufacture 6 per cent ad valorem; (2) not of British manufacture 7½ per cent.

Twist and yarn of flax or jute 30 per cent. ad valorem.

Yarn for Belting 7½ per cent ad valorem

Fabrics, not otherwise specified, containing more than 90 per cent of silk, including such fabrics embroidered with artificial silk— (a) Pongee—60 per cent ad valorem plus Re 1-3 1/5 as per lb., (b) Fuji, Boseki and corded (excluding white cord) 60 per cent ad valorem plus Re 1-12½ per lb., (c) Other sorts—60 per cent. ad valorem plus Rs 2-6½ as per lb.

Fabrics, not otherwise specified, containing more than 90 per cent of artificial silk—(a) of British manufacture—36 per cent. ad valorem

Solve unemployment Problems? Read CAREERS FOR AGENTS & MIDDLEMEN. Industry Book Dept., Shambazar, Calcutta.

or 2½ annas per square yard, whichever is higher, (b) not of British manufacture 60 per cent ad valorem or 4 annas per square yard, whichever is higher

Woollen fabrics, not otherwise specified containing more than 90 per cent of wool, excluding felt and fabrics made of shoddy or waste wool—30 per cent ad valorem or Re 1-5½ per lb whichever is higher

Cotton fabrics not otherwise specified, containing more than 90 per cent of cotton—(a) Grey piecegoods (excluding bordered grey chadars, dhuties, saris and scarves)—(i) of British manufacture—18 per cent ad valorem or 3½ annas per lb, whichever is higher, (ii) not of British manufacture—60 per cent ad valorem or 6½ annas per lb, whichever is higher, (b) Printed piecegoods and printed fabrics, (i) of British manufacture—21 per cent ad valorem, (ii) not of British manufacture 60 per cent ad valorem, (c) Cotton piecegoods and fabrics not otherwise specified—(i) of British manufacture—18 per cent ad valorem, (ii) not of British manufacture—60 per cent ad valorem

Fabrics, not otherwise specified, containing more than 10 per cent and not more than 90 per cent silk—(a) containing more than 50 per cent of silk or artificial silk or of both—60 per cent ad valorem plus Rs 2½ per lb, (b) containing not more than 50 per cent of silk or artificial silk or of both—(i) containing more than 10 per cent artificial silk—60 per cent ad valorem or Re 1-13 per lb, whichever is higher, (ii) containing no artificial silk or not more than 10 per cent artificial silk—60 per cent ad valorem

Fabrics, not otherwise specified, containing not more than 10 per cent silk but more than 10 per cent and not more than 90 per cent artificial silk—(a) containing 50 per cent or more cotton—(i) of British manufacture—36 per cent ad valorem or 2½ annas per square yard, whichever is higher, (ii) not of British manufacture—60 per cent ad valorem or 3 4/5 annas per square yard, whichever is higher, (b) containing no cotton or containing less than 50 per cent cotton—(i) of British manufacture—36 per cent ad valorem or 3 annas per square yard, whichever is higher, (ii) not of British manufacture—60 per cent ad valorem or 4 4/5 annas per square yard, whichever is higher

Fabrics, not otherwise specified, containing not more than 10 per cent silk or 10 per cent artificial silk, but containing more than 10 per cent but not more than 90 per cent wool—30 per cent ad valorem

Fabrics, not otherwise specified, containing not more than 10 per cent silk or 10 per cent artificial silk or 10 per cent wool, but containing more than 50 per cent cotton and not more than 90 per cent cotton (a) of British manufacture—30 per cent ad valorem, (b) not of British manufacture—60 per cent ad valorem

Fabrics, not otherwise specified, containing not more than 10 per cent silk or 10 per cent artificial silk or 10 per cent wool or 50 per cent cotton—30 per cent ad valorem

Sateens including Italians of Sateen weave, velvets and velveteens and embroidered all-overs—(a) of British manufacture—21 per cent ad valorem, (b) not of British manufacture—42 per cent ad valorem

Fabrics containing gold and silver thread—60 per cent ad valorem

Ribbons—60 per cent ad valorem

Blankets and rugs (other than floor rugs) excluding blankets and rugs made wholly or mainly from artificial silk—30 per cent ad valorem

MANUFACTURE OF SOAP? Read "MANUFACTURE OF SOAP."
INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

Woollen carpets, floor rugs, shawls and other manufactures of wool, not otherwise specified, including felt—42 per cent ad valorem; U. K. 30 p c

Cotton, hair and canvas ply belting for machinery—7 4/5 per lb.

Oil cloth and floor cloth—30 per cent ad valorem.

Cordage, rope and twine of vegetable fibre other than jute and cotton—30 per cent ad valorem.

Coir fibre, coir yarn and coir mats—36 per cent ad valorem; Br. C: 24 per cent ad valorem

Mats and mattings—30 per cent ad valorem.

Socks and stockings made wholly or mainly from silk or artificial silk—60 per cent ad valorem.

Woollen hosiery and woollen knitted apparel, that is to say all hosiery, and knitted apparel containing not less than 15 per cent of wool by weight—30 per cent ad valorem or Re 1-5 3/5 per lb. whichever is higher

Cotton undervests, knitted or woven, and cotton socks or stockings (a) of a weight not exceeding 4 lbs per dozen—30 per cent ad valorem or 14 2/5 annas per lb whichever is higher, (b) of a weight exceeding 4 lbs per dozen—30 per cent ad valorem or 12 annas per lb. whichever is higher

Cotton knitted fabrics—60 per cent ad valorem or 14½ annas per lb. whichever is higher.

Apparel, hosiery, haberdashery, millinery and drapery, not otherwise specified—30 per cent ad valorem

FOOTWEAR, HATS, UMBRELLAS, ETC.

Boots and shoes 30 per cent ad valorem or 7½ annas per pair whichever is higher.

Uppers for boots and shoes unless entirely made of leather—30 per cent. ad valorem or 3 3/5 annas per pair, whichever is higher.

Hats, caps, bonnets hatter's ware, not otherwise specified—30 per cent ad valorem

Umbrellas—30 per cent ad valorem or 9 3/5 annas each, whichever is higher

STONE, CERAMIC & GLASSWARE.

Article made of stone or marble—30 per cent ad valorem

Asbestos manufactures, not otherwise specified—30 per cent ad valorem

Building and Engineering materials 30 per cent ad valorem

Earthenware pipes and sanitary ware—30 per cent ad valorem.

Tiles of earthenware and porcelain—30 per cent ad valorem or 2½ annas per square foot, whichever is higher.

Covered crucibles for glass-making—30 per cent ad valorem

Glass and Glassware not otherwise specified, and lacquered ware—30 per cent ad valorem

Globes for hurricane lanterns—30 per cent ad valorem or 5 4/5 annas per dozen, whichever is higher.

Other globes and chimneys having an external base diameter of over one inch—30 per cent ad valorem or 3 3/5 annas per dozen whichever is higher

Electric lighting bulbs—60 per cent ad valorem

Glass bangles, glass beads and false pearls—60 per cent ad valorem.

PRECIOUS STONES.

Precious Stones, unset and imported uncut, and Pearls, unset—Free

MANUFACTURE OF SOAP? Read "MANUFACTURE OF SOAP." INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

Precious Stones, unset and imported cut—30 per cent ad valorem.

Silver bullion and silver sheets and plates which have undergone no process of manufacture subsequent to rolling—3 3/5 annas per ounce

Gold bullion and gold sheets and plates which have undergone no process of manufacture subsequent to rolling—Free

Silver plate and silver manufactures, all sorts not otherwise specified—60 per cent ad valorem

Silver thread and wire and silver leaf including also imitation gold and silver thread and wire, lametta and metallic spangles and articles of like nature of whatever metal made—75 per cent ad valorem

Gold plate, gold leaf and gold manufactures, all sorts not otherwise specified—60 per cent ad valorem

Gold or gold-plated pen nibs—60 per cent ad valorem

Jewellery and Jewels—60 per cent ad valorem

METALS AND METALWARES

Iron or Steel, old—18 3/4 per cent ad valorem

Iron alloys, viz, ferro-manganese, ferro-silicon, ferro chrome, spiegeleisen and the like as commonly used for steel making—18 1/2 per cent ad valorem

Iron or steel angle, channel, tee, flat, beam, zed, trough and piling—(a) not fabricated of British manufacture—Rs 6 1/2 per ton of 12 per cent ad valorem, whichever is higher, not of British Manufacture—Rs 58 per ton, (b) Fabricated Rs 55 1/2 per ton both for British and non-British Manufactures

Iron or steel bar and rod—(i) of British manufacture—Rs 18 1/2 per ton or 12 per cent ad valorem whichever is higher, (ii) not of British manufacture—Rs 53 1/2 per ton or 24 per cent ad valorem whichever is higher

Iron, pig—18 1/2 per cent ad valorem

Cast iron pipes and tubes, also cast iron fittings therefor, that is to say, bends, boots, elbows, tees, sockets, flanges, plugs, valves, cocks and the like—(i) of British manufacture—12 per cent ad valorem, (ii) not of British manufacture—Rs 69 per ton

Cast iron plates—18 1/2 per cent ad valorem

Steel Ingots, Iron or steel blooms, billets and slabs, provided that no piece less than 1 1/2 inches square or thick shall be included—Rs. 4 1/2 per ton or 18 1/2 per cent ad valorem whichever is higher

Iron or steel structures, fabricated partially or wholly, not otherwise specified—Rs 55 1/2 per ton both for British and non-British manufactures,

Steel, tinplates and tinned sheets, including tin taggers, and cuttings of such plates, sheets or taggers—(i) of British manufacture—Rs 52 1/2 per ton, (ii) not of British manufacture—Rs 78 per ton

Iron or steel Anchors and Cables—18 1/2 per cent ad valorem

Iron or steel bolts and nuts, including hook-bolts and nuts for roofing but excluded fish bolts and nuts—(i) of British manufacture—Rs 7 1/2 per ton or 12 per cent ad valorem whichever is higher, (ii) not of British manufacture—Rs 44 7/10 per ton

Iron or Steel fish bolts and nuts—(i) of British manufacture—Rs 7 1/2 per ton or 12 per cent ad valorem whichever is higher, (ii) not of British manufacture—Rs 110 7/10 per ton

Iron or Steel expanded metal—18 1/2 per cent ad valorem

Iron or Steel hoops and strips—24 per cent ad valorem, U K., 12 per cent ad valorem

Up-to-date methods of production, preservation and marketing of fruits are given in ALL ABOUT FRUITS Rs. 2/8. Industry Book Dept, Cal.

Iron or Steel rivets—(1) of British manufacture—Rs. 7½ per ton or 12 per cent ad valorem, whichever is higher; (11) not of British manufacture—Rs 7½ per ton plus Rs 2-4 per cwt

Iron or Steel nails and washers, all sorts not otherwise specified—18½ per cent ad valorem

Iron or Steel pipes and tubes and fittings therefor, if riveted or otherwise built up of plates or sheets (1) of British manufacture—Rs 21½ per ton or 12 per cent ad valorem, whichever is higher (11) not of British manufacture—Rs 49½ per ton

Iron or Steel pipes and tubes, also fittings therefor, that is to say, bends, boots, elbows, tees, sockets, flanges, plugs, valves, cocks and the like, excluding pipes, tubes and fittings therefor otherwise specified 18½ per cent ad valorem.

Iron or Steel plates excluding cast iron plates; (a) not fabricated (1) of British manufacture—Rs 6½ per ton or 12 per cent ad valorem whichever is higher, (11) not of British manufacture—Rs 36½ per ton; (b) fabricated—Rs 55½ per ton.

Iron and Steel sheets, fabricated (1) not galvanized (1) of British manufacture—Rs 19½ per ton or 12 per cent ad valorem whichever is higher; (11) not of British manufacture—Rs 44½ per ton, (2) Galvanized (1) of British manufacture—Rs 19½ per ton or 12 per cent ad valorem, whichever is higher, (11) not of British manufacture Rs. 54½ per ton

Sleepers—Rs 6½ per ton

Spikes (other than Dogspikes) and the bars—(1) of British manufacture—Rs 18½ per ton or 12 per cent ad valorem whichever is higher; (2) not of British manufacture—Rs 53½ per ton Dogspikes (1) of British manufacture—Rs 7½ per ton plus 8½ annas per cwt, or 12 per cent ad valorem, whichever is higher, (11) not of British manufacture—Rs 7½ per ton plus Rs 3-8½ per cwt

Iron or Steel barbed or standard wire and wire rope—24 per cent ad valorem, U K; 12 per cent ad valorem

Iron or Steel wire, other than barbed, or standard wire, wire rope or wire netting, and iron or steel wire nails—(1) of British manufacture—Rs 37½ per ton; (11) not of British manufacture Rs 79½ per ton.

Enamelled ironware—(a) Signboards 30 per cent ad valorem or 6 3/10 annas per square foot, whichever is higher

Copper, wrought, and manufactures of copper, all sorts not otherwise specified—36 per cent ad valorem, U K 24 per cent ad valorem.

Copper Scrap—30 p c ad valorem

German Silver including nickel silver—30 per cent ad valorem.

Aluminium-circles sheets and other manufacture not otherwise specified—30 per cent ad valorem.

Lead wrought and Lead sheets for tea chests—30 per cent ad valorem

Zinc or spelter, wrought or manufactured, not otherwise specified—30 per cent ad valorem

Tin, Block—Rs 375 per ton

Brass, bronze and similar alloys, wrought, and manufactures thereof not otherwise specified—30 per cent ad valorem.

Hardware, ironmongery and tools, all sorts not otherwise specified including incandescent mantles but excluding machine tools and agricultural implements—30 per cent ad valorem

Cutlery all sorts, not otherwise specified—30 p c ad valorem

Buckets of tinned or galvanized iron and pruning-knives—30 per cent ad valorem

Metal furniture and cabinetware—30 per cent ad valorem

Printing type—One anna and six pies per lb.

Up-to-date methods of production, preservation and marketing of fruits are given in ALL ABOUT FRUITS, Rs. 2/8. Industry Book Dept, Cal.

Leads, brass rules, wooden and metal quoins, shooting sticks and galleys and metal furniture—3 per cent ad valorem

MACHINERY, APPARATUS & ELECTRICAL GOODS.

Textile machinery and apparatus—12 per cent ad valorem

Printing and Lithographic Materials—12 per cent ad valorem

Component parts of machinery—12 per cent ad valorem

Domestic Refrigerators—36 per cent ad valorem, U K, 24 per cent ad valorem

Machinery and component parts thereof, meaning machines or parts of machines to be worked by manual or animal labour, not otherwise specified and any machines which require for their operation less than one-quarter of one brake-horse power—30 per cent ad valorem

Water-lifts, sugar-mills, sugar centrifuges, sugar pug mills, oil presses and parts thereof (for manual and animal power)—Free

Agricultural Implements—Free

Dairy and Poultry Farming Appliances namely cream separators, etc—Free

Sewing and Knitting machines—36 per cent ad valorem, U. K, 24 per cent ad valorem

Electrical Instruments, apparatus, appliances—36 per cent ad valorem, U K, 24 per cent ad valorem

Electrical earthen ware and porcelain—30 per cent ad valorem

Rubber-insulated copper wire and cables—7½ per cent ad valorem.

SCIENTIFIC INSTRUMENTS, WATCHES & MUSICAL INSTRUMENTS.

Instruments, apparatus and appliances other than electrical, all sorts not otherwise specified including photographic—36 p c ad valorem, U K, 24 p c ad valorem

Scientific, philosophical and surgical, optical instruments, apparatus and appliances—30 p c ad valorem

Artificial Teeth—30 per cent ad valorem, B. C, 18 per cent ad valorem

Clocks and watches and parts thereof—60 per cent ad valorem

Musical Instruments and parts thereof, all sorts and records for talking machines—60 per cent ad valorem

TRANSPORT MATERIALS.

Coal tubs, tipping wagons and the like conveyances designed for use on light rail track, if adapted to be worked by manual or animal labour and if made mainly of iron or steel, and component parts thereof made of iron or steel—(i) of British manufacture—Rs 7½ per ton or 12 per cent ad valorem, whichever is higher; (ii) not of British manufacture—Rs 55 1/5 per ton, or 24 per cent ad valorem, whichever is higher

Railway materials for permanent-way and rolling-stock, namely, sleepers, other than iron and steel, and fastenings therefor, bearing plates, chairs, interlocking apparatus, brake-gear, shunting skids, couplings and springs, signals, turn-tables, weigh-bridges, carriages, wagons, traverses, rail removers, scooters, trollies trucks, also cranes, water cranes and water-tanks when imported by or under the orders of a railway administration—18½ per cent ad valorem

Motor cars including taxi cabs and articles (other than rubber tyres and tubes) adapted for use as parts and accessories thereof—45 per cent ad valorem U K, 36 p c ad valorem

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation. Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

Motor omnibuses, chassis of motor omnibuses, motor vans and motor lorries, and parts of mechanically propelled vehicles and accessories not otherwise specified, excluding rubber tyres and tubes, and such parts and accessories of motor vehicles included in this item as are also adapted for use as parts and accessories of motor cars—30 per cent ad valorem, U. K.; 27 per cent ad valorem.

Carriages and carts which are not mechanically propelled, not otherwise specified 30 per cent ad valorem

Cycles (other than motor cycles) and parts excluding rubber tyres and tubes—36 per cent ad valorem; U. K.; 24 p.c ad valorem

Aeroplanes, aeroplane parts, aeroplane engines, aeroplane engine parts and rubber tyres and tubes used exclusively for aeroplanes—3 per cent ad valorem

Ships and other vessels for inland and harbour navigation, including steamers, launches, boats and barges imported entire or in sections —18½ per cent ad valorem

Light ships—Free.

MISCELLANEOUS.

Brushes, all sorts—30 per cent ad valorem.

Toys, games, playing cards and requisites for games and sports, bird shot, toy cannons—60 p.c ad valorem

Buttons, metal—30 per cent ad valorem.

Smokers' requisites excluding tobacco and matches—60 per cent ad valorem

Specimens, of natural science, medals, antique coins—Free

All other articles not otherwise specified including articles imported by post 30 p.c ad valorem

EXPORT TARIFF.

Raw Jute:—(1) Cuttings Re 1-4 as per Bale of 400 lbs. (2) All other descriptions Rs 4-8 per Bale of 400 lbs

Jute Manufactures, when not in actual use as coverings, receptacles or bindings, for other goods—

(1) Sacking (cloth, bags, twist, yarn, rope and twine) Rs 20-0 per ton of 2,240 lbs. (2) Hessians and all other descriptions of jute manufactures not otherwise specified Rs 32 per ton of 2,240 lbs.

Rice.—Rice husked or unhusked, including rice flour but excluding rice bran and rice dust which are free—2½ as per md of 82 2/7 lbs

EXCISE DUTY.

Salt—Re 1-9 per md.

Khandari Sugar—As. 8 per cwt.

All other sugar except palmyra sugar—Rs 3 per cwt.

Kerosene oil—2 as 9½ pies per Imperial gallon.

Motor Spirit—15 annas per Imperial gallon.

Matches —(1) In boxes or booklets containing on an average 40 matches—Rs. 2 per gross, (2) Do. Containing more than 40 but less than 50 sticks—Rs 2-8 per gross, (3) Do Containing more than 50 but less than 60 matches—Rs. 3 per gross, (4) Do. containing more than 60 but less than 80—Rs 4 per gross, (5) In boxes containing on an average not more than 12 matches of the type known as "Bengal lights"—10 annas per gross of boxes, (6) All other matches—8 annas for every 1,440 matches or fraction thereof.

Steel, ingots—Rs 4 per ton.

Mechanical lighters—Rs 3 per lighter

Silver—3 as 7½ pies per oz.

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation. Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

AGRICULTURAL PRODUCE CESS ACT, 1940.

In exercise of the powers conferred by sub-section (2) of section 3 of the Agricultural Produce Cess Act, 1940 (XXVII of 1940), the Central Government is pleased to fix, with effect from the 1st July 1941, for the articles specified in column 2 of the Schedule hereto annexed, being the articles enumerated in the Schedule to the said Act, the tariff values specified in corresponding entry in column 3 thereof.—

INDIAN CUSTOMS AND CENTRAL EXCISE REVENUE.

The total Customs and Central Excise Revenues realised in the year 1941-42 was Rs 52,77 lakhs as compared with Rs 50,99 lakhs during the same period last year. Of this amount, import duties accounted for Rs 35,76 lakhs, export duties for Rs 3,55 lakhs, land customs and miscellaneous for Rs 64 lakhs and central excise duties for Rs 12,83 lakhs. Comparing the figures for the year ending March 1942, with those for the preceding year, there were increases under import duties on raw cotton, kerosene, tobacco, silver bullion, coin, sheets, plates and other manufactures, machinery, liquors, spices, batching fuel and lubricating oils, tin (block), wireless reception instruments and apparatus, electric lighting bulbs, and cinematograph films, and the export duties on raw jute, rice and other agricultural produce and the excise duties on sugar, matches and steel ingots. On the other hand import duties on cotton fabrics, artificial silk fabrics, motor spirit, artificial silk yarn and thread, betelnuts, sugar, iron and steel, motor vehicles, silk fabrics, cotton yarn and thread, metals other than iron and steel, raw silk, silk yarn and thread, pneumatic rubber tyres and tubes, railway plant and rolling stock, fabrics of artificial silk mixed with other materials, paper and stationery, and toys, games and sports goods and the export duty on manufactured jute and the excise duties on motor spirit and kerosene showed decreases.

Valuable directions for construction of aërials and receivers are explained in **RADIO RECEPTION IN THEORY & PRACTICE**, Price Rs. 2/8.

REVIEW OF TRADE & INDUSTRIES DURING 1942-43

ECONOMIC conditions in India during 1942-43 continued to be influenced by the broadening shadows of the global war which has now assumed tremendous dimensions. The trade restrictions regarding imports and exports combined with the commandeering of a large percentage of the country's industrial and agricultural products by the Government had a most distressing influence on trade. The paucity of railway transport facilities further accelerated the difficulties in the way of normal trade. The stocks of manufactured goods and raw commodities as well continued to run out in the face of increased demand and reached the lowest level recorded in the history of India with the consequence that the prices of commodities reached a peak value to the great dismay of the Indian people.

Money market during year under review continued to suffer from a plethora of funds. The money rates at the beginning of the year were quoted at as low as $\frac{1}{4}$ per cent, these however improved to 1 per cent during the middle of April in consequence of demand for funds resulting partly from migration of the population to up-country places but the rate slipped back to $\frac{1}{4}$ per cent by the end of April and remained unaltered at that level. Towards the close of the financial year 1942-43 slightly improved demand for money was in evidence. This is reflected in the rapid rise in the Scheduled Banks' advance. In spite of trading activity in the local share, cotton and commodity markets, which, under normal conditions, would have brought about some demand for funds, there is a complete absence of enquiry from these quarters. Inter-bank call money is quoted nominally at $\frac{1}{4}$ per cent per annum, while the rates for three to six months' deposits vary between $\frac{3}{4}$ and 1 per cent per annum.

The paucity of the trade demand for money induced an all round improvement in the prices of Government securities whilst added buoyancy was lent to securities market by the favourable turn of war for the United Nations. Thus in September the Central Government was enabled to raise the minimum prices fixed for their own and Provincial Governments' issue, prices of which closed comfortably above these new minimum. Government of India $3\frac{1}{2}$ per cent Rupee paper which was quoted at the beginning of July last at around Rs 91 improved by mid-September to Rs 94 at around which level the price remained until the end of March. The first defence loan was sold at the close of March at about Rs 103.

The rupee sterling exchange market was steady throughout the year and ranged round 1s 6d. Sterling purchases from 1st April 1942 to 31st January, 1943, amounted to £62,824,000. These amounted to £57,083,000 in 1940-41 and £73,319,000 in 1941-42.

In 1942-43 there was a wide fluctuations in the gold and silver market of India. Throughout the year internal demand for gold kept its prices over export parity, and, with the free flow of silver from

You like to prepare chocolate, lozenges, drops, etc. Read **MANUFACTURE OF CONFECTIONERY**. Industry-Book Dept, Shambazar, Cal.

outside greatly restricted, prices in this section were largely influenced by speculative buying. During the year under review there was no export of gold from India to foreign countries. While price of gold was Rs 57-12 per tola on 12th March, 1942, there was a definitely upward tendency in gold price rising to Rs 72 per tola on 8th Nov 1942. Though the price of gold came down to Rs 62-1 during the month of December, it has again reached the height of Rs 72 during the month of March, 1943. During the beginning of the year the silver market was featureless. But from Rs 71 per 100 tolas in January 1942, the price of silver rose to Rs 108 in December and in March, 1943, it has reached Rs 111 per 100 tolas.

The year under review saw the complete liquidation of India's sterling debts, due to the increasing sterling balances as a result of purchases made by His Majesty's Government either on its own account or on that of others. But there is absence of a corresponding rise in the rupee debts, for the Government of India has successfully employed other resources such as sales of silver and profits from currency.

The year is remarkable for considerable currency expansion. While in 1939, just on the eve of war, total notes in circulation in India were Rs 172.36 crores, the quantity has mounted upto the figure of Rs 646.50 crores on the 12th March, 1943.

The Central Government came twice on the market, firstly with a third Defence Loan, in the shape of a fresh issue at par of the 3 per cent Loan repayable in 1951/54, and, secondly with an offer at Rs 95 per cent of a further Rs 15 crores of the 3 per cent 1963/65 Loan. Four of the Provincial Governments successfully floated 3 per cent Loans repayable in 1955, for an aggregate amount of Rs 7½ crores, at issue prices ranging between Rs 97 per cent and Rs 98.8 per cent.

LEASE-LEND AID.

A special report on Lease-Lend Aid to India by the U S Office of war information states that the Lease-Lend programme for India includes improvements of Indian harbours and railway systems and increased shipments of machine tools and raw materials to enable expanded production on the spot of munitions and other supplies to save shipping from the United States and England. From its inception in March, 1941 to 1st January this year (1943), Lease-Lend aid to India has amounted to 295,501,494 dollars (Rs 100 crores) in value. Two thirds of the materials sent were actual war materials. The remaining third consisted mainly of machinery and tools. Increased quantities of American steel are going to India for the manufacture of armoured vehicles, artillery and ammunition. Lease-Lend supplies to India ranged from flash lights to locomotives. Under the Reciprocal Lease-Lend Agreement with Britain, the United States has also drawn upon British stores of ammunition and food in India, and American ships are repaired and obtain fuel and supplies in Indian Ports without payment, under Reciprocal Lease-Lend.

GRADY MISSION

One of the most outstanding events in the field of India's industrialisation plan, was the visit in the early summer of 1942 of the American Technical Mission, headed by Dr Henry Grady. The Mission made a rapid but intensive survey of India's war industries and submitted its comprehensive report to the United States' Government.

The U S Technical Mission's preliminary report says that, in India most of the engineering workshops engaged upon war production are historically and actually jobbing shops. A basic change in the production methods must be introduced. The Mission cannot advise upon the

Utilise your waste products by reading UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT, Shambazar, Calcutta

precise Government organisation most suitable to the solution of the problem. It can merely state the problem and leave the Government of India to find the most suitable solutions. Various possibilities have been suggested to the Mission:—

(a) A high-powered control independent of established Government agencies on American model,

(b) The separation of "Production" and "Supply" and the establishment of a new department for the former.

(c) The division of the Supply Department into two parts, one dealing with "Production" and the other with "Supply",

(d) The establishment of a War Cabinet with a strong secretariat to control war production in all its phases. The War Cabinet should consist of members responsible for Production, Transport and Communications, Defence and Finance. The last suggestion appeals to the Mission as being sound and feasible.

The war has imposed severe strains upon the railways, the ports and the telegraph and telephone systems. Immediate and systematic steps must be taken to deal with the resultant problems. With the approval of the Government of India the Mission has recommended to the United States Government the loan to India in an advisory capacity of an outstanding railway administrator, with two assistants who will be expert in operation and maintenance respectively.

The Mission specially recommends a further investigation into the possibility of producing power alcohol, further measures to extend the availability of electric power, and to rationalise the use of electric power, the expansion of the steel industry; the rationalisation of plants producing munitions, concentration in respect of aircraft and ships upon repairs rather than new construction, the manufacture in India of a general purpose, military radio set, measures to stimulate the production of aluminium; measures to conserve tin and rubber, adjustment in the arrangements for the treatment of timber, and the acceleration of the production of refined sulphur.

Besides these, the Mission has asked for the services of a number of technicians of the foreman and shop superintendent type to be employed by the Government of India in war plants for a period of one year and of two shop superintendents to be employed in the steel industry for a longer period. In addition, the Mission has asked the Government of the United States to secure, without expense to the Government of India, six industrial executives to act under the direction of the Government of India as advisers to war production plants. The Mission contemplates a continuing organisation in the United States until its task is completed, and hopes to have an adviser attached to the office of the Representative of the United States in India at New Delhi, who will work closely with the Government of India in co-ordinating the war production programme of India with that of the United States.

The Mission, further, suggests a substantial increase in the Indian Army and in the matter of equipment further intensification of production effort to meet the increasing needs.

INDUSTRIAL PRODUCTION.

On account of absence of accurate and up-to-date statistical data relating to industrial production, it is not possible to gauge exactly the trend of progress achieved in this sphere. But such data as are available go to show that industrial production, especially such for war purposes, has been more than maintained. Orders for engineering

Utilise your waste products by reading UTILISATION OF COMMON PRODUCTS. INDUSTRY-BOOK DEPT., Shambazar, Calcutta.

stores and those for chemicals placed by the Supply Department exceeded Rs 4 crores and 16½ crores respectively per month during the year. Steel production is 33½ per cent higher than at the beginning of the war. Besides these, the production of a large number of articles such as leather goods, drugs, tyres and plastics, has made a great headway. There are also the non-ferrous metal industry, munitions plants, silk, woolen, cotton industries, machine tool manufacture,—practically a large quantity of output of which has been harnessed to meet the defence needs.

The value of textiles purchased for the armed forces up to June 1942 amounted to Rs 120 crores (£90 millions). In 1942-43 it is expected to be nearly Rs 70 crores. The value of tents during the present year is Rs 12 crores (£3.75 millions). Output of clothing is now over 10,000,000 garments a month and during this year about 540,000,000 yards of cloth will be used for clothing manufacture. Before the war the Army was clothed by one factory, there are now 10 clothing factories linked with a large number of tailoring centres, employing 100,000 men in all. A parachute factory has also been opened for the production of parachute equipment.

The Government Hainess Saddlery Factory, which also produces web equipment paulins, and other canvas goods, has expanded its working staff from 2,000 to 15,000 men. The combined total output of the hainess and saddlery factory, the branch factories, and their contractors is valued at approximately Rs 20 crores per annum, and practically the whole of this is derived from indigenous sources.

The production of all tanneries capable of making leather to Government standards is being organised and controlled. Supplies of leather for the current year are expected to reach a figure seven times in excess of that of 1940-41.

Manufacture by Indian industrial concerns of heel and toe tips has been developed from nil to a capacity equal to meet the demands of 1942-43, amounting to 8½ millions each of heel and toe tips. Capacity for manufacture of further items, such as hobnails, is under investigation. Production of Army boots in India had been increased from 1½ million pairs in 1941 to a present output of over 4 million pairs.

Timber production has increased from 242,000 tons in 1940-41 to 396,000 tons in 1941-42 and is expected to reach a total of about 500,000 tons valued at about Rs 6,00,000 in 1942-43. Apart from its use in packing cases, ammunition boxes, railway sleepers, huts and telegraph poles, Indian timber is extensively used for the load carrying bodies of any vehicles. An even greater increase is evident in the woodware industries. The value of wooden articles produced for war purposes having increased from Rs 2,80,00,000 in 1941-42 is expected to reach about Rs 4,50,00,000 in 1942-43.

SMALL-SCALE INDUSTRIES

The small-scale industries of India have slowly but steadily come to occupy a prominent place in the war efforts of this country. In spite of inadequate equipment, they have been able to display an amazing versatility of skill and craftsmanship. Small-scale industries will be executing war orders to the value of Rs 10 crores for 1942-43, as against Rs 5 crores during 1941-42.

In recent time indigenous production of medical instruments for the Defence Services was small, and limited to a few simple instruments. Since the war the authorities have been faced both with the supply of large quantities of instruments as well as the development

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES CHUTNEYS & MORABBAS explains the process. Industry Book Dept, Cal.

of indigenous production of instruments which were previously imported. Not only has the indigenous industry practically kept pace with Defence Services demands, but it has enabled India to supply Russia with approximately 80,000 instruments of indigenous production. The approximate value of all instruments etc. inspected and accepted averages monthly from Rs 4 to Rs 5 lakhs.

A noteworthy feature in this connection is the introduction of co-operative method wherever local conditions are found suitable, so that the primary producer rather than the middleman is able to benefit. To mention three examples in the Punjab the volume of production through the co-operative effort is described as most gratifying and the manufacture of cutlery in this area has reached eloquent figures. In the North-West Frontier Province, large numbers of blankets, footwear and timber articles are produced for war supplies through the Provincial Co-operative Department. In the U.P., the co-operative scheme has diverted a large number of orders from other agencies to the small-scale industry and the same is true of other Provinces. The U.P. Government has placed Rs 12 lakhs at the disposal of the Registrar of Co-operative Societies as interest-free loan.

On the textile side, handloom weavers, accustomed to patterns of multi-coloured hue plying their shuttles according to age-long custom, now weave the utility 'dosuti' or double yarn used for making tents or bandage cloth, gauze cloth, muslin buntings, and various woollen fabrics. Further, thousands of camouflage nets made of hemp are being produced in villages and, in 1941-42, these orders amounted to Rs 182 lakhs. It is estimated that they will reach Rs. 5 crores mark this year. Like camouflage nets, pith hats are being manufactured in rural India on a large scale. Last year, their value amounted to Rs 43 lakhs.

Most canned foodstuffs still have to be imported but progress has been made with the production of jams and marmalade, golden syrup, canned tomatoes, and dried vegetables, the process for the last having been developed by an Indian research worker. The scarcity of tin-plate has necessitated the development of alternative types of food-stuffs. Tinned fruits and vegetables are being replaced by dehydrated material, thus saving considerable bulk and weight in transport. Dried fruit is being compressed and wrapped in wax paper, thus effecting an economy in packing material. To save space, dried vegetables are compressed in block form each individual briquette forming the ration of one man. The vitamin-rich dried amla has been incorporated into soft centred sweets and the objectionable flavour of this material entirely overcome. Development in the production of dried fish, dried meat and dried eggs is being carried out. To conserve shipping space, American tobacco used for cigarettes, is being reduced to one half. To facilitate supplies and distribution of condiments a mixture consisting of the required ingredients in the desired ratio is now being supplied.

Considerable success has been achieved in expanding industries connected with the manufacture of brushware, enamelware, crockery, cutlery, paper, cardboard products, glass and glass-ware. As part of their war effort, the various Provincial Governments have also established production, on the cottage industry basis, of a number of items such as ambulance stretchers, horn and bone buttons, hair combs, etc.

Although much has been done to encourage the output by small-scale industries, we feel that there is still vast scope in this direction. Considering the vastness of the country and the total number of villages, the potentialities of village industries are great and, if properly

Manufacture Pickles & Chutneys at Home **INDIAN PICKLES, CHUTNEYS & MORABBAS** explains the process. Industry Book Dept., Cal.

harnessed, as is being now done, they will prove to be of immense benefit to the poor villager not only during war-time but also during the post-war period

NEW INDUSTRIAL ENTERPRISES.

Details of the new industrial resources developed since the outbreak of war are not available. But there have been expansions in kind and quantity of many things being made in India now, which were not made at all before the war. Some of these things are military specialities, military lorry bodies, bodies for armoured fighting vehicles, minesweeping trawlers, new types of weapons and ammunition and various items of other equipments. The use of plastics has been developed, and the technique of die-casting has been improved. Machine tools are being made not only in larger quantities, but in better qualities. Improvements have also been effected in chemical and pharmaceutical industries. An air-craft factory has been set up, and several schemes for the repair and maintenance of air-craft are in hand. The first production of aluminium in India has taken shape. Capacity for the filature reeling silk is doubled, very considerable expansion of tyre production is in hand, rubber reclaim plants are established, new chemical plants are coming into production and further development is contemplated for basic chemicals and power alcohol.

LABOUR PROBLEM

A landmark in the history of Government's policy and attitude towards the labour problem in India, emerged out of the inauguration of the Tripartite Labour Conference "a miniature Geneva," initiated by the Government of India in 1942. One of the steps adopted as a result of the deliberation of this conference is to ensure food supplies at cheap rates to labourers in these hard times and the periodical increases in dearness allowances to set off the rise in their cost of living. Labour welfare is receiving prominent attention at the hands of the Labour Department advised by a Labour Welfare Adviser. Sickness Insurance legislation for the working-class people is on the tapis, while the benefits under Workmen's Compensation and War Injuries Relief Schemes have been liberalised and broadened.

INDO-CHINA TREATY

A most noteworthy feature of the year is the treaty concluded between His Majesty, in respect of the United Kingdom and India, and the President of the National Government of the Republic of China concerning the relinquishment of extra-territorial rights in China—and the regulation of related matters. The Treaty was signed at Chungking on January 11th, 1943.

PROTECTIVE MEASURES

As a step towards the cause of industrialisation, the Government have retained the continuation of protective duties on imports of iron and steel, sugar, silver, thread, wire, wood-pulp, paper, cotton and silk manufactures, glass, wheat, wheatflour, and brought into force Trade Marks Law, and, latterly, effected the appointment of three industrial Advisory Panels to be located in Bombay, Calcutta and Madras. These consist of representatives from trade and industry. The function of the Panels is to advise the Government on industrial expansion. The Government would place before these panels its possible requirements of future demands and the panels, in their turn, will be called upon to tender advice as to which of the existing plants can be erected and

HAND SPINNING & WEAVING. Contains Detailed Methods. As 8
-INDUSTRY BOOK DEPT., Shambazar, Calcutta

which firms are interested in taking up new projects. On receiving this information, the Government is to negotiate with the firms concerned. The industry concerned would be putting up the capital, while the Government would assist in the importation of plants from abroad, and as regards priorities and shipping, etc. Mr J N Lahiri, Dr John Mathai and Mr Davies are reported to have been appointed Chairmen for Calcutta, Bombay and Madras respectively.

FOOD PROBLEM.

In view of the fact that the problems connected with the production and distribution of food within the country have been growing in complexity and number from day to day, the Governor-General-in-Council formed a Department of Food by an announcement on 8th December, 1942. The new Department has since then been functioning and has taken over the administration of all measures of control over prices and supply and distribution of food-stuff, which were hitherto the concern of the Commerce Department. It also took over the procurement and purchase of army food requirements which were formerly dealt with in the Department of Supply. The functions previously performed by the Civil Supplies Commissioner (Rice and Miscellaneous) and Sugar Controller and the Wheat Commissioner have ceased to exist, and the Central Food Advisory Council, which had hitherto been attached to the Department of Education, Health and Lands, has also been transferred to the Department of Food.

Recently several posts of Regional Food Commissioners have been created for the better co-ordination and control of food supplies all over India, including the Indian States. The Regional Commissioners will operate in 5 or 6 regions for India. These Commissioners will each have to deal with a number of Provinces and States.

FOREIGN TRADE DURING APRIL TO DECEMBER, 1942

From April to December, 1942, (nine months), India's total exports stood at Rs 150.35 crores, and imports at Rs 82.79 crores as against Rs 188.84 crores and Rs 142.31 crores, respectively during the corresponding period of the previous year. The favourable balance of trade during these nine months amounted to Rs 67.56 crores as against Rs 46.53 crores for the corresponding period of 1941.

Imports

As regards imports of individual items, it will be seen that during these nine months, the value of imports of grain, pulse, etc., stood at 2.71 crores, and oilman stores as well as spices came down to Rs 92 lakhs and Rs 1.36 crores respectively. The imports of tobacco have amounted to 1.58 crores and that of mineral oils to Rs 23.77 crores. The imports of raw cotton have declined to Rs 11.17 crores from Rs 15.46 crores in 1941. The imports of raw wool, however, have expanded from Rs 60 lakhs in 1939 to Rs 253 lakhs in 1942. Besides these, the imports of wood and timber are valued at Rs 54 lakhs, drugs and medicines at Rs 5.73 crores, dyes and colours at Rs 5.92 crores, electrical goods at Rs 1.58 crores, machinery and mill work at Rs 13.58 crores, metals at Rs 3.40 crores and paper at Rs 2.5 crores. During these nine months the value of import of textile manufactures has amounted to only Rs 3.71 crores.

Exports

During the period under review the value of the exports of cotton manufactures from India aggregated to Rs 48.50 crores. Jute manu-

HAND SPINNING & WEAVING: Contains Detailed Methods. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

factures came next with Rs 42.11 crores as compared with Rs 40.39 crores during the corresponding period of the previous year. The exports of raw jutes were valued at Rs 10.43 crores while hides and skins, raw and tanned, aggregated to Rs 9.07 crores. The exports of grains and raw cotton recorded a value of Rs 8.23 crores and Rs 7.42 crores respectively. Exports of gums (resin and lac), and metallic ores, mostly consisting of manganese and mica, were higher at Rs 4.32 crores and Rs 2.56 crores. The exports of Indian spices and coal amounted to Rs 1.87 crores and 42 lakhs respectively.

EXPORT LICENSING

Some important modifications have recently been made by the Government of India, Department of Supply, regarding the procedure to obtain licences for the export of certain specified articles from this country.

According to the notification now issued by the Government, four different officers have been empowered to issue licences for export of goods, coming under the purview of the Supply Department, each having a specific number of items. Thus the Director-General of Supply, New Delhi, is assigned the power to issue licences regarding bitumen, all sorts of buttons, cement, chemical and chemical preparations, cork and cork manufactures, glass sheet, graphite, gums and resins, textiles, wood and timber, etc. The Director-General, Munitions Production, Calcutta, has the power to issue licences for the export of belting for machinery, electric goods and lamps, including gas lamps, etc., machinery and mill work, machine tools, metals and ores, and manufactured articles, made wholly or mainly of any specified metals or alloys, etc. Aircraft and parts and special aircraft materials are not to be exported without obtaining licences from the Director of Civil Aviation, New Delhi. Another officer who is given the power to issue licences in the Supply Department is the Director-General, Indian Medical Services, New Delhi. He grants licences in respect of drugs and medicines, any medicinal preparation containing any one or more of the specified drugs or medicines, sera, medical instruments, such as microscopes, surgical and veterinary instruments, etc.

IMPORT LICENSING

The open General Licences covering imports from certain Empire countries, Fighting French territories and certain other areas has been withdrawn from March 1, 1943. Any goods despatched on through consignment to India from those areas on or after that date must be covered by individual licences obtainable from the various licensing authorities. Imports from Ceylon will, however, remain unaffected by this decision.

CENTRAL BUDGET.

Introducing the Central Budget for 1943-44 in the Central Assembly on 27th February, 1943, Sir Jeremy Ransman, the Finance Member, disclosed a revenue deficit of Rs 94.66 crores for the current year and a prospective deficit on the basis of existing taxation, of Rs 60.28 crores next year.

The revised estimate of the Defence expenditure in the current year, on revenue account is placed at Rs 189.75 crores and in 1943-44 at Rs 182.81 crores. Defence capital expenditure in the current year is Rs 49.14 crores and next year Rs 16.85 crores. Capital expenditure is on account of aerodromes, industrial expansion, reciprocal aid, new

For constructional details of Radio Sets and reception read "Radio Reception in Theory & Practice." Rs. 2/8. Industry Book Dept., Cal.

construction for R.I.N. and telecommunications scheme His Majesty's Government, the Finance Member revealed, does not intend to pursue the proposal to modify the character of the present financial settlement.

REVISED ESTIMATES 1942-43.

Revenue is estimated to show an improvement of Rs 26 76 lakhs, while expenditure is expected to increase by Rs 86,35 lakhs, chiefly on account of Defence expenditure. Deficit in the current year is expected to increase from Rs 35,07 lakhs to Rs 94,66 lakhs. Mainly due to the war in the Pacific a shrinkage of Rs 4,35 lakhs in customs revenue is expected which is more than offset by Rs 14 crores improvement under taxes on income and Rs. 1½ crores under salt. Provincial share of divisible pool of income-tax will be approximately Rs 10 55 crores, excluding arrears.

Surplus profits of the Reserve Bank paid over to Government have amounted to Rs 3,24 lakhs, as compared with Rs 2,62 lakhs originally estimated. The Posts and Telegraphs Department is expected to add Rs 1,35 lakhs more in the current year, while Railway contribution to general revenues remains unaltered at Rs 20,13 lakhs.

The Details of revised estimate of Defence expenditure for 1942-43, amounting to Rs 189,75 lakhs, are as follows —

Revenue portion.

	Lakhs of Rs
(1) Basic normal budget	36,77
(2) Effect of rise in prices on (1)	8,61
(3) India's war measures	135,96
(4) Non-effective charges	8,41
	<hr/>
	Rs 189,75

Capital portion.

(1) Air Forces, aerodromes	18,37
(2) Capital outlay on industrial expansion	12,00
(3) Reciprocal aid—aerodromes	12,75
(4) New construction for the R.I.N.	4,72
(5) Capital outlay on telecommunications scheme	1,30
	<hr/>
	Rs. 49,14

It became clear in the current year that substantial increases in the three arms of the Defence Services beyond those envisaged in the last budget speech were called for to protect India against fresh dangers to which the course of war had exposed her. By the middle of the year recruits at the rate of about 70,000 per month were enlisted. For equipping additional troops India is obtaining her full share of the greatly increased production of the United Nations. The land forces in India during 1943-44 are expected to reach a stage of reasonable adequacy to meet all likely demands for the defence of India.

Financial Settlement with the U. K.

The existing financial settlement which has worked very well in an atmosphere of mutual cordiality and trust were concluded at a time when no major expansions in land, sea and air forces or our supply activities were in sight. Measures of expansion were then inaugurated and it soon became obvious that all expansions in the land forces in India must be considered as one joint war measure and that the cost thereof should be divided as follows:

(a) India should pay for the raising, training and equipping from Indian resources of all land forces raised in India, for their maintenance

For constructional details of Radio Sets and reception read "Radio Reception in Theory & Practice." Rs. 2/8. Industry Book Dept, Cal.

as long as they stayed in the country and were available for the local defence of India. When they left for overseas the cost to India of raising and training them and also of equipping them would be recovered from His Majesty's Government who would assume all further liability for them.

(b) All imported equipment and stores for such expansion measures of the land forces from whatever source (with a few exceptions) would be provided free by His Majesty's Government.

The allocation of the cost of expansion of the R.I.N. raised no special problem. As regards the Air Forces in India, the cost of major expansion, like that of the land forces, was a joint war measure. The incidence of expenditure on two kinds of activities called for special attention in this connection, viz., expansion of the Supply Department's activities and reciprocal Lease-Lend aid to American forces in India. Capital expenditure was being incurred by His Majesty's Government under the former, while a good deal of the industrial development taking place under the expansion schemes would be to the permanent advantage of India. It was to mutual interest of both parties that the allocation of capital expenditure on supply measures should be reviewed.

The Finance Member proceeded to England to discuss these and other major aspects of the financial settlement. While His Majesty's Government pressed for a revision, the Government of India's contention was that the present settlement should not be abandoned. Sir Jeremy Raisman announced that "the Government of India have been informed that His Majesty's Government do not intend to pursue the proposal to modify the character of the present, financial settlement. The settlement therefore stands."

As regards allocation of cost of Air Force expansion, India's liability will relate only to the amount of expenditure actually brought to account by India, viz., the capital outlay incurred in India on the provision of airfields and other ground and operational facilities and the recurring costs of the squadrons and connected services while employed in India. As regards supply measures it is proposed that India should provide one-half of the capital required and own all the assets already created or to be created.

Reciprocal Lease-Lend

In the matter of Reciprocal Lease-Lend aid to America, the Finance Member stated, the possibility of entering into a direct Mutual Aid Agreement with the United States of America is at present being considered. In the meantime Reciprocal Lease-Lend has been shown in the Defence estimates as a charge to Indian revenues. At the same time credit has been taken in the same estimates for all receipts from the sale of Lease-Lend supplies to the public, Provincial Governments, Railways and Government Departments run on commercial or quasi-commercial lines. Accurate assessment of the cost of Reciprocal aid to the United States of America forces in India is not possible, the total expenditure under this head has been shown as Rs. 16.70 crores in 1942-43 and Rs. 8.04 crores in 1943-44.

Civil Expenditure.

Neglecting certain accounting adjustments on account of premium on war risks insurance funds, civil expenditure in the current year has increased by Rs. 14½ crores. This is attributable in the main to causes connected with the war. An important aspect of this, is the grant of increased dearness allowances to Central Government employees, this is estimated to amount to Rs. 170 lakhs in a full year (excluding Posts

USEFUL PHRASES : A helpful companion to all As 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

and Telegraphs, Railways and Defence Services)' Measures connected with helping evacuees are expected to cost Rs 100 lakhs. The abnormal conditions created in the civil life of the country since August last have rendered it necessary to help the Provinces to strengthen their police forces at an estimated cost of Rs. 100 lakhs. The Supply Department has continued to expand. The value of contracts placed by its Purchase Branch from the outbreak of war up to 31st December, 1942 amounted to Rs 454.5 crores.

Total revenue estimates for 1943-44 amount to Rs 199.30 crores as compared with Rs 178.76 crores in the revised estimates for the current year. Customs are expected to yield Rs 30 crores as against Rs 31 crores in the current year. An increase of Rs 84 lakhs is expected under Central excise duties, chiefly on account of sugar. The yield under corporation tax and other taxes on income, including EPT is expected to be better by Rs 17 crores, taking into account the trend of recent collections. EPT alone is expected to yield Rs. 40 crores. Rs 27.10 crores are allowed as contribution from the Railway to the general revenues. The Provincial share of the divisible pool of income-tax is estimated to touch the record figure of Rs 12.10 crores.

Defence Expenditure

The budget estimates of Defence expenditure for 1943-44 amount to Rs. 182.81 crores under revenue and Rs. 16.85 crores under capital, details being as under:—

Revenue portion.

	Crores of Rs
(1) Basic normal budget	36.77
(2) Effect of rise in prices	10.62
(3) India's war measures	127.01
(4) Non-effective charges	8.41

- Rs 182.81

Capital portion.

(1) Air Force—Aerodromes	2.52
(2) Capital outlay on industrial expansion	4.00
(3) Reciprocal Aid—aerodromes	2.85
(4) New construction for RIN	3.28
(5) Capital outlay on telecommunications scheme	4.20

Rs 16.85

For the first time since the war began, the estimates envisage a decrease in the Defence budget, as compared with the revised, so far as expenditure charged to revenue is concerned. Referring to this phenomenon, the Finance Member stated: "Although it would be unsafe to conclude from this that India has now reached the peak of her own war expenditure, it is legitimate to hope that the stage of heavy addition is past."

Estimates for 1943-44.

Civil expenditure estimates for 1943-44 also show a reduction of Rs 7 crores as compared with the revised estimates for the current year. Of this, about Rs 4½ crores are accounted for by smaller receipts from the Factories War Risks Insurance Scheme which figure as expenditure on transfer to the relevant fund. A reduction of Rs 2½ crores is anticipated in civil defence expenditure. There is a slight increase under interest which is explained by increased interest charges payable on loans raised in 1942-43 and proposed to be raised in 1943-44.

USEFUL PHRASES : A helpful companion to all As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Financial Measures for Tackling Food Problem.

It is conjectured that the scale of purchases of food grains by the Food Department in 1943-44 will be Rs 75 crores. This will be financed by the Central Government in the first instance and later recovered from Provincial Governments on whose behalf purchases are made.

"The Government of India are determined to spare no effort to increase the production of essential food commodities and are anxious that at this stage no scheme which affords promise of making an early and substantial contribution to this end should be excluded from consideration on purely financial grounds," stated the Finance Member. "Pending a decision on the specific measures to be taken, we have provided in the budget a round sum of Rs 50 lakhs, but we would not limit our expenditure to that figure if further outlay were to offer a greatly enhanced prospect of achieving our object."

The Financial Position.

The financial position for the coming year can be summarised as follows —

	In crores of Rs
Civil estimates	76 78
Defence services	182 81
Total expenditure estimate	259 59
Total revenue at the existing level of sanction	199 30
Prospective deficit	60 29

Ways and Means

Dealing with the Ways and Means position, the Finance Member stated that total borrowings in the seven months July 1942 to January, 1943, averaged Rs 19 crores a month. Subscriptions to the Defence Loans from 1st February, 1942, to 31st January, 1943 amounted to Rs 34½ crores, raising the total proceeds to Rs 145 crores since the Defence Loans were first issued in June, 1940. In addition, there was a steady investment of new money in the rupee counterparts of the repatriated sterling loans. Total investments in Defence Loans, counterparts and certain provincial loans (raised to repay a part of debt due to the Centre) aggregated to Rs 93 crores over the twelve months and Rs 267½ crores since the beginning of the war.

Sterling Debt Repatriation

The necessary sterling required to repatriate the 2½ per cent and 3 per cent undated sterling loans was provided with ease by the Reserve Bank. No counterparts were created this time and the entire rupee finance was raised in the first instance by means of *ad hoc* Treasury Bills issued in favour of the Reserve Bank. Subsequently stray lots of the vested stocks as well as the market purchases of 3½ per cent stock were financed from balances. For the last and final stage of redeeming £58½ million of the 3½ per cent stock the rupee finance was again in the form of *ad hoc* Treasury Bills. "That some £300 million of sterling debt should have been repatriated since the outbreak of the war with so little disturbance to the money market," observed the Finance Member, "is a consummation for which the country may well feel gratified." The balance of sterling stock, not yet redeemed as falling beyond the scope of the vesting orders, amounted to £13 million.

After referring to the funding of the Railway Annuities by the payment of a lump sum of £30 million to His Majesty's Government, the vesting of railway debenture stocks of the face value of £20 million and

New Customers: How to Create—How to Hold—That wonderful book by K. M. Banerjee for developing your sales Rs. 2. Industry Book Dept.

the giving of one year's notice for the redemption of three other such stocks, the Finance Member observed "And thus India has completed the transition from a debtor to a creditor country and extinguished within the brief space of about three years accumulation over decades of its public indebtedness to the United Kingdom"

Of the Rs 400 crores raised so far for financing the various repatriation and funding operation, only Rs 160 crores may be regarded as being still in the form of Central Bank finance

Utilisation of Sterling Balances.

The future utilisation of sterling balances has engaged the continuous attention of the Government of India. With the virtual cessation of payments on interest account to external bond holders, which has resulted from the operation of the sterling debt repatriation schemes the only substantial liability still remaining on account of which sterling remittances would normally be necessary will be payments on account of sterling pensions, family pensions and provident funds. It is estimated that these charges in the period that lies ahead will be from £5 to 6 million a year. In this connection he revealed that the Government of India had accordingly under consideration a scheme for making advance provision for the requisite sterling remittance wherewith to meet future payments in respect of these liabilities on the lines of the arrangements recently made for sterling railway annuities. It is not contemplated, that the rights of any class of Government servants would be affected or that the liability to pensioners should be transferred from the Government of India.

Post-war Reconstruction Fund.

The Government of India are also considering a proposal that something in the nature of a Reconstruction Fund should be constituted to provide for the financing of a programme of post-war reconstruction, including the rehabilitation and re-equipment of industry. In the post-war period India will have heavy demands for imported machinery and plant to equip her greatly expanded industrial system and it will be necessary to proceed on some orderly programme of purchases from overseas. The existence of a Reconstruction Fund with a concerted programme of requirements would enable India to go ahead with post-war reconstruction with minimum delay.

Proposed Taxations.

The Budget speech of the Finance Member envisages an increase in Central surcharge on all incomes above Rs 5,000. Incomes from Rs 5,000 upto Rs 10,000 will have to pay a surcharge of 10 pias in the rupee instead of 9 pias as now, those from Rs 10,00 upto Rs 15,000 will have to pay 16 pias instead of 14 pias and those above Rs. 15,000 will have to pay 20 pias instead of 15 pias. The rate of Central surcharge on individual incomes will thus be the same as that of Excess Profits Tax or Corporation profits.

There will also be a uniform increase in scale of super tax on the slabs of income between Rs 25,000 and Rs 3 lakhs by half an anna in the rupee. Together with the surcharge, the incidence will amount to two annas in the rupee on the lowest slab and As 10½ on the top slab.

The Corporation tax is to be raised by half an anna, that is from 1½ annas to two annas in the rupee, but surcharge on Corporation tax as such has ceased.

Excess Profits Tax is continued with no change in the rate.

New Customers: How to Create-How to Hold—That wonderful book by K. M. Banerjee for developing your sales. Rs. 2. Industry Book Dept.

The indirect taxes proposed in the Budget include a continuation, for a further period of one year, of the levy of the emergency surcharge of 20 per cent on import duties, an Excise duty on all tobacco produced or manufactured in India, except that grown for the personal consumption of the grower or the members of his household, an Excise duty on vegetable product or Vanaspathi, and certain increase in postal and telephone rates. The last include an increase in the inland letter rate for each tola after the first from half an anna to one anna, an increase in the inland parcel rate for the first 40 tolas from As 4 to As 6, and an increase of 100 per cent in the existing surcharge on telephone rentals.

RAILWAY BUDGET.

In presenting the Railway Budget, Sir Edward Benthall, War Transport Member, in the Legislative Assembly on 15th February, 1943, forecast for 1942-43 a surplus of Rs 36.28 crores (Rs 8.20 crores more than the last year and Rs 8.33 crores more than the original estimate) and for 1943-44 a surplus of Rs 36.04 crores.

In 1942-43, total traffic receipts are expected to be Rs 149½ crores (Rs 144 crores from State-owned lines and Rs 5½ crores from worked lines), i.e., Rs 14 crores more than last year and Rs 19 crores more than the original estimate. Total working expenses, including Rs 12.58 crores for depreciation and Rs 2.67 crores for payment to worked lines, are Rs 86.52 crores, and exceed last year's expenses by Rs 7 crores. Of the expected surplus of Rs 36.28 crores, general revenues will receive the originally budgeted amount of Rs 20.13 crores, which is Rs 2.36 crores over and above the current and arrear contributions actually due from railways under the existing convention and the Railway Depreciation Fund will receive Rs 16.08 crores, the balance of Rs 7 lakhs going to Railway Reserve. The Depreciation Fund will also receive Rs 6.30 crores by transfer from the Railway Reserve and the railways' debt to the Depreciation Fund will thereby be wiped out. The balance in the fund will be Rs 82.19 crores. The balance in the railway reserve will be about Rs 56 lakhs.

No change in fares and freights is contemplated in 1943-44, and the budget estimate assumes traffic receipts of Rs 150 crores, Rs 75 lakhs more than the current year. Total working expenses, including depreciation and payment to worked lines, are estimated at Rs 88.14 crores, Rs 1.62 crores more than the current year. Of the surplus of Rs 36.04 crores, to which strategic lines contribute Rs 29 lakhs, Rs 27.10 crores will go to general revenues and Rs 8.94 crores to railway reserve. At the end of the year there will be a balance of Rs 84 crores in depreciation fund and Rs 9½ crores in railway reserve.

Against a works programme of about Rs 26½ crores including Rs 4½ crores for the balance of the purchase price of the Bengal and North Western and Rohilkund and Kumaon Railways, there is a provision of Rs 24 crores (Rs 13 crores from capital and Rs 11 crores from depreciation fund), more than half of which is for locomotives, and wagons.

By the end of the current year, the railways hope to pay off completely the debt both to general revenues and to the depreciation fund.

SEPARATION CONVENTION.

In the division of the next year's surplus two conflicting interests have to be considered, viz., the provision of adequate funds to cover

Up-to-date methods of production, preservation and marketing of fruits are given in ALL ABOUT FRUITS, Rs. 2/8. Industry Book Dept., Cal

post-war rehabilitation and to meet interest charges in periods of trade depression on the one hand, and the plight of the general taxpayer on the other. According to Sir Edward Benthall, in peace-time the Convention had brought the railway finances into a most perilous position from which they had been rescued for the present by the abnormal conditions of the world war. The Convention had equally failed in war-time since it gave inadequate relief to the general taxpayer and it had been necessary to introduce a moratorium from time to time in order to secure to general revenues an increased share of the surplus.

The Government has, therefore, decided, to abandon so much of the existing Separation Convention as provides for contribution and allocation of the surplus to general revenues and to distribute the surplus expected from commercial lines in 1943-44 between general revenues and railways in the proportion of 3 to 1. Till a new convention is adopted, the distribution of each year's surplus will be decided 'ad hoc' fresh settlement, were a reasonable mean between the claims of railways. A resolution seeking the approval of the Assembly to this arrangement will be moved later during the session. Sir Edward considered that these proposals, which were an initial step towards a fresh settlement, were a reasonable mean between the claims of railways and general finance. He said that, in the opinion of the Railway Department, from a financial point of view it would be thoroughly unsound to allocate such a large percentage of railway surplus to general revenues unless railways were relieved of the burden of a fixed annual contribution, regardless of whether a surplus is actually earned or not, and that the canons of sound railway finance dictated that, apart from contribution to the depreciation fund at least Rs 8 crores per annum should be set aside annually to railway reserve. The new proposals provided a flexible arrangement which, while relieving the railways of the necessity of making heavy provision out of surplus of prosperous times to meet future fixed contribution to general revenues, will enable them to make some substantial provision to meet post-war contingencies and at the same time make large contributions when most needed to general revenues for the benefit of the taxpayer.

WAGONS & LOCOMOTIVES.

Stating the position of wagons and locomotives during the year just closing the War Transport Member said "So far, we have placed orders for 9,973 broad-gauge wagons, of which we have received 265 and expect to receive about 6,207 by the end of 1943-44. Of meter-gauge wagons we have ordered 736, all of which we expect to get. Pressure has been maintained on Governments of United Kingdom and United States for supply of broad-gauge locomotives and although some of the outstanding orders on England have now been made for supply of 40 heavy goods engines from America deliveries of these are expected to commence in June, 1943. Indian railways are also to receive 12 metre-gauge heavy goods engines from England and 80 from America. It is hoped that 40 heavy goods engines for broad-gauge will be followed by 145 more goods engines, but the date, when these may be expected has yet to be settled. It has been requested that arrangements be made for supply of further 150 broad-gauge locomotives during 1944. The House will be interested to know that plans are already actively being prepared to set up a locomotive construction shop in India during the war, if physically possible, although this is unlikely owing to difficulty of securing plant and raw material, and if not, as a part of the immediate post-war reconstruction plan."

BANKING DEVELOPMENT IN INDIA

GROWTH of banking institutions is a close barometer of the economic prosperity of a country. Industry, commerce as well as agriculture can only develop with banking progress and proper mobilisation of the monetary sources of the country. But unfortunately the financial sources and facilities in India are woefully deficient considering the enormous need of circulating capital in our midst at present. The recently constituted Reserve Bank of India supplies a new orientation to the banking policy of India. The natural lack of banking habit among the people combined with the absence of mutual confidence, is directly responsible for the undeveloped nature of banking business in India. Banking is founded chiefly on confidence and unless every form of distrust is dispelled and conservative habits are destroyed no material development is possible.

The development of banking in India on European lines began only a century and a half ago. Though the progress is slow, it cannot be denied that India has made considerable stride in banking matters during the last 60 years, especially during the first quarter of the present century. The total number of offices of the Scheduled Banks and non-Scheduled Banks steadily increased and aggregated 2,171 at the end of 1941, distributed as follows —

	1939	1940	1941
Imperial Bank of India — — —	381	390	401
Exchange Banks — — —	99	101	99
Other Scheduled Banks — — —	798	860	954
Non scheduled Banks having capital & reserves of over Rs 1 lakh — —	477	572	717
TOTAL — — —	1,755	1,923	2,171

CLASSIFICATION OF BANKS IN INDIA.

The Indian banks fall under four categories (1) The Reserve Bank of India, which is the Central Bank of the country, (2) the Scheduled Banks and the Burma Scheduled Banks comprising (a) the Imperial Bank of India which is the largest joint stock bank in India, (b) the Exchange Banks whose head offices are located outside India or Burma, and (c) other Scheduled and Burma Scheduled Banks or Joint Stock Banks registered under the Indian Companies Act in British India and under similar laws relating to registration of companies in certain Indian States and Burma and included in the Second Schedule to the Reserve Bank Act or the Second Schedule to the India and Burma (Burma Monetary Arrangements) Order, (3) Non-Scheduled banks or India and Burma joint stock banks other than those included in the second schedule to the Act and the Order, and (4) the Co-operative Banks, in British India, Burma and in certain Indian States registered under the respective laws relating to co-operative societies in force in them.

RESERVE BANK OF INDIA.

At the head of the banking system in India ranks the Reserve Bank of India, the absence of which had been one of the weakest

Get ideas of profitable occupations from "Independent Careers for the Young" Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

features of India's economic development and organisation. It was constituted under the Reserve Bank of India Act. The Bank has a paid-up capital of Rs 5 crores and a reserve fund of Rs 5 crores. It has got both an issue and a banking department. It is responsible for the maintenance of the currency, for the investment of the currency reserves in rupees and sterling and for supplying the Secretary of State with sterling for his London requirement. It is the repository of Government balances and attracts large deposits from scheduled banks. The main functions of the bank are enumerated in the constitution of the Bank, popularly known as the Reserve Bank of India Act.

The Bank has the sole right to issue bank notes in British India. The issue of bank notes is conducted by the Bank in an Issue Department which is separated and kept wholly distinct from the Banking Department, and the assets of the Issue Department are not subject to any liability other than the liabilities of the Issue Department.

According to the agreement between the Secretary of State and the Reserve Bank, the former employs the bank as the sole banker in India of the Governor-General-in-Council, who deposits or causes to be deposited with the bank or allows the bank to receive and hold as banker the whole of his cash balances at any places at which for the time being the bank shall have an office. The bank shall make moneys at the said offices, branches and agencies available for transfer to such places and at such times as the Governor-General-in-Council may direct. No interest shall be payable to the Governor-General-in-Council on any of the moneys for the time being held by the bank.

IMPERIAL BANK OF INDIA.

The Imperial Bank of India was established in 1921 under the Imperial Bank of India Act of 1920 by amalgamation of the three Presidency Banks, the Banks of Bengal, Bombay and Madras. It is a commercial bank with private shareholders with an authorised capital of Rs 11½ crores of which half is paid up. It inherited from its three predecessors certain functions as banker's bank, which together with its increased responsibilities as Government bankers, accounted for some of the restrictions imposed on its business activities by its charter of 1920 and for the control exercised by the Government over the Bank. Due to the enactment of the Reserve Bank of India Act and the Imperial Bank Amendment Act of 1934, the Imperial Bank has been divested of its central banking functions and has been released from Government influence. The agreement between the Reserve Bank of India and the Imperial Bank of India came into force on April 1, 1935, and remains in force for the term of 15 years and thereafter until terminated after 5 years' notice on either side. The following are the provisions—The Bank is free to open branches anywhere outside India, including London. It has greater freedom in internal business and it can do foreign exchange business and open cash credits, receive deposits and borrow money outside India. It ceases to be banker to the Government but shall act as the sole agent of the Reserve Bank.

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs 3/8. Industry Book Dept., Shambazar, Cal.

in places where there is a branch of Imperial Bank, and no branches of the Banking Department of the Reserve Bank shall be opened at these places until expiry of 15 years

With the exception of functions relating to the management of the Public Debt Department, the Reserve Bank shall pay to the Imperial Banks as remuneration a sum which shall be, for the first ten years during which this agreement is in force, a commission calculated at one-sixteenth of one per cent on the first 250 crores and one-thirty-second of one per cent on the remainder of the total of the receipts and disbursements dealt with annually on account of Government by the Imperial Bank on behalf of the Reserve Bank

At the close of the said ten years the remuneration to be paid by the Reserve Bank to the Imperial Bank for the performance of these functions shall be revised and the remuneration for the ensuing five years shall be determined on the basis of the actual cost to the Imperial Bank, as ascertained by expert accounting investigation of performing the said functions. The remuneration so determined shall thereafter be subject to revision in like manner at the end of each period of five years so long as this agreement remains in force. The amount of the said remuneration shall be arrived at by discussion in advance between the Reserve Bank and the Imperial Bank, so that the new arrangements may come into force at the beginning of each such period

Capital, Reserves, Deposits, & Cash Balances

The table below summarises the capital, reserves, deposits and cash balances of the three Presidency Banks regarded as one Bank up to year 1920 and of the Imperial Bank of India from 1921 —

	Capital	Reserve	Public Deposits (in lakhs of rupees)	Private Deposits	Total Deposits	Cash Balances
1913	3,75	3,73	5,89	36,48	42,37	15,38
1919	3,75	3,58	7,72	68,21	76,04	23,63
1920	3,75	3,78	9,03	78,01	87,04	26,03
1921	5,62	4,14	6,80	65,78	72,58	13,60
1922	5,62	4,33	14,16	57,01	71,16	15,07
1923	5,62	4,55	8,57	74,20	82,76	15,01

1939	5,63	5,60	—	87,84	87,84	11,09
1940	5,63	5,62	—	96,03	96,03	24,83
1941	5,63	5,62	—	1,08,92	1,08,92	15,27
1942	5,63	5,70	—	1,59,44	1,59,44	20,96

The Balance Sheet of the Imperial Bank follows:—

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments, Rs. 3/8 Industry Book Dept, Calcutta.

	As at 31-12-1939	As at 31-12-1940	As at 31-12-1941	As at 31-12-1942
	(in lakhs of rupees)			
Capital	5,62 50	5,62 50	5,62 50	5,62 50
Reserve fund	5,55 00	5,60,00	5,62 50	5,62 50
Deposits	81,50 96	87,84 16	108,91,90	159,44,16
Advances	38,30 31	48,27 70	38,88 28	32,63 99
Fixed Asset	1,89 51	1,85 97	1,78 27	—
Investments	43,73 53	38,03 51	64,39 65	115,86 34
Cash	8,98 99	11,09 03	15,26 87	20,96 25

The most outstanding feature is the steep advance in the deposits of all kinds which at Rs 159,44 lakhs is the highest level ever recorded in the history of the Bank. Advances mark a sharp fall by Rs 61 crores due to the fact that following the usual seasonal lull, the demand for bank finance declined appreciably. Other features of the balance-sheet are a rise of Rs 5,70 crores in cash and a substantial rise of Rs 51,47 crores in investments, which, is Rs 95 lakhs more than the improvement in deposits of all kinds. The improvement in cash balances represents, in shape of increases under the heads "investments" is to be noted.

Another noteworthy feature of the balance sheet of this Bank is the Reserve Fund which, consistent with the leading position it occupies among banks in India, exceeds its large paid-up capital of Rs 5,62,50,000 and amounts to Rs 570,00 lakhs.

BANK RATE.

The bank rate of interest varied from 8 to 5 per cent. during 1929-30, 7 to 6 per cent. during 1930-31, 8 to 6 per cent. during 1931-32, and 7 to 3½ per cent. during 1932-33 but remained steady at 3½ per cent. from 16th February, 1932 upto 27th November 1935 since when the rate continues at 3 per cent. The Federal Reserve Bank of New York rate marked a drop from 1 per cent. to ½ per cent. since 29th October, 1942 while the Bank of England rate averaged 2.27 per cent. in 1939 and 2 per cent. in 1940.

Current Bank rates in other countries are given below for reference —

EXCHANGE BANKS.

The exchange banks are non-Indian with head-offices outside India. These are concerned mainly with tourist traffic while the principal business of the other banks is the financing of India's foreign trade. This work of financing India's foreign trade usually consists of two operations, viz (1) the financing of the movement of goods from Indian ports to foreign ports and vice versa, and (2) the financing of it from, or to, Indian ports to, or from, the distributing or collecting centres in the interior of India. Besides financing foreign trade, the exchange banks do every kind of banking business. They compete with the

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments. Rs. 3/8, Industry Book Dept., Calcutta.

Imperial Bank and the Indian joint-stock banks by receiving deposits both on current and savings bank account, receiving fixed deposits, purchasing bills in foreign currencies, making loans against shipping and other documents, and financing imports of bullion. They also play some part in the financing of the inland trade in several up-country centres. The piecegoods trade in Delhi and Amritsar, the leather trade in Cawnpur and the jute trade in Bengal are financed by them to a large extent. The terms for the deposits of these banks are, as a rule, higher than those of the Imperial Bank of India but lower than those of the Indian Joint-Stock banks. While the Imperial Bank of India does not allow interest on current accounts, the exchange banks generally allow 1 per cent on daily balances exceeding a minimum limit up to Rs 1 lakh. The exchange banks do not publish any statements relating to their Indian business separately. The table below gives such figures as are available —

Capital, Reserves, Deposits & Cash Balances.

	No of Banks	Capital & Reserves (million £)	Deposits in India (in lakhs of rupees)	Cash Balance in India
1913	12	38	31,04	—
1919	11	53	74,36	29,98
1920	15	90	74,81	25,18
1921	17	112	75,20	23,57
1922	18	112	73,38	16,18
1923	18	140	68,44	14,48
1924	18	130	70,63	16,00
1925	18	138	70,55	10,00
1926	18	148	71,54	10,80
1927	18	181	68,86	8,13
1928	18	188	71,14	8,05
1929	18	223	66,66	9,05
1930	18	194	68,11	7,71
1931	17	186	67,47	8,81
1932	18	174	73,07	9,60
1933	18	143	70,78	6,72
1934	17	142	71,40	7,68
1935	17	137	76,18	12,55
1936	19	128	75,04	10,35
1937	18	128	73,21	10,58
1938	18	131	67,20	6,44
1939	19	126	74,18	7,39
1940	20	127	86,33	16,53
1941	17	106	106,73	13,40

It will be observed that at the end of 1941 there were 17 exchange banks working in India and Burma as against 20 a year ago.

JOINT STOCK BANKS

An important system of banking consists of the Indian Joint Stock Banks.

All the Indian joint stock banks are registered under the Indian Companies Act. The main business of these banks is to attract deposits, current, fixed and savings, and to finance trade by giving short-term advances against easily realisable securities, opening cash credits, and discounting inland bills of exchange. They also finance the movement of produce from the village to the exporting ports and distribution of imports from the port of entry to the distributing centres. Advances

For practical methods of manufacturing boot polish, metal polish, etc. read **PROSPECTIVE INDUSTRIES** Re. 1/12. Industry Book Dept., Cal

are made against hypothecation of agricultural products such as grain and cotton, against security of piecegoods and stocks in trade. The business of these banks so far as the agriculturists are concerned is usually confined to the larger land holder, the planting community and others who possess tangible and marketable security. The smaller banks are generally loan offices which advance money to the professional and agricultural classes. One or two Indian joint stock banks undertake business in foreign exchange, but their turnover in this is small.

The first joint stock bank in India was started in 1770 but purely Indian joint stock bank did not come into existence until the year 1881. The early joint stock banks were all under European control and management but during the past twenty years many Indian joint stock banks have sprung into existence, assisted by the Swadeshi Movement of 1905 and by the high tide of economic revival which swept over the country during the post-war period. In 1905 there were only 9 Indian joint stock banks commanding a total deposit of about Rs 12 crores. To-day the number has risen to 151 and the deposits to about Rs 108½ crores.

Nevertheless the scope of expansion of Indian joint stock banking is immense. In consideration of the fact that there are 2,500 towns in India, there is use for more branches of existing banks as well as for new local banks. Again the distribution of banks at present seems to be uneven. Banking offices are fairly distributed in the Punjab, the U P and the three Presidencies but banking facilities were inadequate in other parts of India, especially Bihar and Orissa, C P. Assam and most of the Indian States.

The position of the Joint Stock Banks with capital of Rs 50,000 and over during the last few years is shown by the following table —

The joint stock banks have been divided into four classes A, B, C, and D, according to the amount of their capital and have further been divided into scheduled and non-scheduled banks.

The number of reporting Banks under class 'A' with their capital, reserves, deposits, etc., are shown in the following table

	No of Banks	Capital	Reserves	Deposits	Cash Balance	Loans & Advances
				(in lakhs of rupees)		
1900	9	82	46	8,07	1,19	—
1910	16	2,76	1,01	25,66	2,80	—
1920	25	8,37	2,55	71,15	16,31	—
1930	31	7,47	4,43	63,26	7,68	—
1935	38	8,17	5,02	84,44	19,12	42,21
1936	42	8,49	5,47	98,14	15,28	52,08
1937	39	7,25	5,53	100,27	16,82	55,07
1938	43	7,49	5,66	98,08	14,00	52,21
1939	51	8,26	5,31	100,73	16,72	57,86
1940	58	9,09	5,57	113,98	26,26	54,44
1941	63	10,13	6,06	137,61	25,69	68,95

Of them 16, namely, the Central Bank of India, the Allahabad Bank, the Bank of India (Bombay), the Punjab National Bank, the Bank of Baroda, the Indian Bank (Madras), the Bank of Mysore, the Punjab and Sind Bank, the Bank of Behar (Patna), the Bengal Central Bank, the Comilla Banking Corporation, the Comilla Union Bank, the Indian Overseas Bank (Madras), the Nath Bank (Cal), the Bank of Indore, and Union Bank of India (Bombay) had deposits of Rs 1 crore and over. The deposits of the first six exceeded Rs 5 crores in each case.

For practical methods of manufacturing boot polish, metal polish, etc. read PROSPECTIVE INDUSTRIES. Re 1/12, Industry Book Dept., Cal.

248 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Number of Banks under the category of Class 'B' was 125 in 1941 as against 122 in 1940 and 119 in 1938. Then aggregate paid-up capital was Rs 1,03 lakhs in 1941 as against 1 67 lakhs in 1940, 158 lakh in 1939, paid up reserves amounted to Rs 232 lakhs in 1939, Rs 244 lakhs in 1940 and Rs 256 lakhs in 1941. They attracted deposits of Rs 927 lakhs in 1939 and Rs 11,04 lakhs in 1940 and Rs 11,45 lakhs in 1941.

Number of Banks in class 'C' was 124 in 1941, 121 in 1940 and 112 in 1939 with total paid-up capital and reserves of Rs 77 lakhs in 1939, Rs 84 lakhs in 1940 and Rs 90 lakhs in 1941. They attracted deposits of Rs 298 lakhs, Rs 286 lakhs and Rs 393 lakhs in 1939, 1940 and 1941 respectively.

Number of Banks in class 'D' was 400 in 1939 with paid up capital of Rs 61 lakhs. Reserves of these Banks amounted to Rs 14½ lakhs. In 1941 the number of these banks was 332 with a fixed up capital of Rs 48 lakhs and reserves of Rs 12½ lakhs.

	No of Banks	Capital & Reserves (in lakhs of rupees)	Total Deposits	Cash Balances
1913	41	4,14	24,10	4,25
1919	47	8,38	61,28	12,71
1920	58	11,74	73,48	16,73
1921	65	13,40	80,16	16,10
1922	68	11,75	65,02	12,60
1923	69	10,85	47,69	1,98
1924	70	11,79	55,20	11,65
1925	74	11,78	57,91	10,78
1926	75	12,10	63,15	9,49
1927	77	12,30	64,30	8,22
1928	74	12,29	66,35	8,71
1929	73	12,69	66,30	9,50
1930	84	13,31	67,65	8,19
1931	84	13,36	66,19	8,16
1932	83	13,50	76,27	10,41
1933	84	13,64	76,42	11,71
1934	105	14,16	81,88	11,86
1935	105	14,70	89,89	19,97
1936	116	15,51	103,66	16,31
1937	151	15,01	108,66	18,13
1938	163	15,56	106,81	15,29
1939	682	17,42	115,62	19,00
1940	301	17,93	127,88	29,09
1941	312	19,65	153,04	29,34

Bills discounted and loans and advances allowed by the Indian Banks was Rs 80,43 lakhs in 1941 Rs 54,44 lakhs in 1940 and Rs 57,86 lakhs in 1939.

TOTAL PRIVATE DEPOSITS

A remarkable fact indicating the head of more banks in India is the steady growth of deposits in the existing banks. The total deposits in all banks in this country increased from Rs 210 crores in 1924 to Rs 217 crores in 1928 but received a setback in 1929 and dropped to Rs 212 crores.

Since then the deposits have been regularly on the increase as will be seen from the figures appended in the table. The deposits advanced very high in 1940, recording a rise of 70 crores over the

"Pharmaceutical Preparations" A guide to preparing patent medicines. A formula may earn for you a lot Re 1/12 Industry Book Dept, Cal.

deposits held in 1939, and reached a record value of Rs 421 crores in 1941

A comparative table showing the private deposits received by the Exchange Banks, Imperial Bank of India and Joint Stock Banks follows —

	Reserve Bank	Exchange Banks	Imperial Bank	Joint Stock Banks	Total
		(in lakhs of rupees)			
1913	--	31,04	36,49	24,10	91,36
1919	--	74,36	68,21	62,27	2,63,84
1920	--	74,80	78,02	73,48	2,26,30
1921	--	75,20	65,78	80,16	2,21,14
1922	--	73,38	57,01	65,02	1,95,41

1941	56,14	1,06,73	1,08,92	1,49,09	4,20,88

SCHEDULED BANKS IN 1940.

Banks which carry on the business of banking in British India and which (a) have paid-up capital and reserves of an aggregate value of not less than five lakhs of rupees and (b) are companies as defined in clause (2) of Section 2 of the Indian Companies Act, 1913, or corporations or companies incorporated by or under any law in force in any place outside British India are included in the second schedule to the Reserve Bank Act and are known thereafter as scheduled banks. Banks fulfilling similar conditions in Burma are included in the second schedule to the India and Burma (Burma Monetary Arrangements) Order and are known thereafter as Burma Scheduled Banks. At the end of the year 1941 there were 63 scheduled banks including 17 Exchange Banks

The following table compares the position of scheduled banks (including Burma Scheduled Banks) on 26th June, 1942, 27th June, 1941, 28th June 1940 and 30th June 1939

OTHER SCHEDULED & BURMA SCHEDULED BANKS

The total paid-up capital and reserves of other Scheduled and Burma Scheduled Bank amounted to Rs 13,60 crores at the end of 1941 as compared with Rs 12 67 crores at the end of 1939. The deposits of the banks also increased considerably during the period, the total rising from Rs 106 crores at the end of 1940 to Rs 129 crores at the end of 1941. The ratio of cash to deposits of these banks fell from 23.6 in 1940 to 18.8 in 1941. The ratio of investments to deposits rose to 45.4 in 1941 from 40.0 in 1940. Loans and advances also improved to Rs 62,76 crores in 1941 from Rs 48.95 crores in 1940.

NON-SCHEDULED BANKS.

These banks have been divided into four classes, (a) banks which have paid-up capital and reserves of Rs 5 lakhs or over but which have not so far been included in the second schedule under Section 42 (6) of the Reserve Bank Act, including a number of banks registered and working in Indian States and having no branches in British India and which are therefore ineligible for inclusion in the second schedule, (b) banks having paid-up capital and reserves between Rs 1 lakh and Rs 5 lakhs, (c) banks having paid-up capital and reserves between Rs 50,000 and Rs 1 lakh, and (d) banks having paid-up capital and reserves of less than Rs 50,000.

At the end of 1941, there were 19 banks having paid-up capital and reserves of Rs 5 lakhs or above, 125 banks with capital and reserves between Rs 1 lakh and Rs 5 lakhs, 124 banks with capital and reserves between Rs 1 lakh and Rs 50,000 and about 656 non-scheduled banks with paid-up capital and reserves below Rs 50,000. The total deposits of the non-scheduled banks having capital and reserves of Rs 50,000 or over amounted to Rs 32,57 lakhs at the end of 1941 as compared with Rs 29,66 lakhs at the end of 1940. The total number of their offices numbered 717 at the end of 1941 as compared with 572 at the end of 1940. As regards banks having paid-up capital and reserves below Rs 50,000, their balance sheets for the year 1941 are not yet available in several cases. The capital and reserves of the 332 banks whose balance sheets have been consolidated amounted at the end of 1940 to Rs 60 lakhs and deposits to Rs. 272 lakhs.

The following table compares the position of demand and time liabilities and cash balance of non-scheduled Banks as shown by their monthly returns as on last Friday of each year.

	No of banks submitting returns	Demand liabilities	Time liabilities (in lakhs of rupees)	Total demand and time liabilities	Cash reserve	Percentage of cash to demand and time liabilities
1938	626	383	11,59	15,42	105	6.8
1939	669	437	11,09	15,96	110	6.9
1940	604	526	11,48	16,74	130	7.8
1941	601	706	12,48	19,54	164	8.4

Learn the manufacturing processes of organic and inorganic acids and heavy chemicals from "Chemical Industries of India" Price Re. 1/12.

In the case of scheduled banks the ratio of cash to demand and time liabilities which stood at 8.05 at the end of 1938 rose to 10.19 in 1939 to 20.70 at the end of 1940 and 12.35 at the end of 1941. The decrease in cash ratio at the end of 1941 is to be attributed partly to the desire of bankers to keep their position liquid in view of war conditions and partly to the slackness of demand for trade finance during the latter half of 1940 as a result of war developments. The ratio of loans and advances to demand and time liabilities showed a decline from 58.8 per cent at the end of 1939 to 37.7 per cent at the end of 1940 but rose slightly to 38.19 in 1941.

The total demand and time liabilities of non-scheduled banks working in British India only rose during 1941 to 19.54 crores from Rs. 16.74 crores in 1940. The ratio of cash to demand and time liabilities also rose from 7.8 to 8.4 during 1940.

CASH RATIOS OF DIFFERENT CLASSES OF BANKS.

The percentage of cash to deposits varies widely not only from year to year but also from one class of banks to another, as will be seen from the following table —

		Per cent of cash to deposits	Per cent. of invest- ments to deposits	Per cent of advances to deposits
Scheduled Banks—				
Imperial Banks	1939	12.6	43.3	55
" "	1940	25.9	50.6	33.6
" "	1941	14.0	59.1	35.7
Exchange Banks	1939	10.0	—	—
" "	1940	19.3	—	—
Other Scheduled Banks	1939	17.2	38.9	56.1
" "	1940	23.6	40.0	46.1
" "	1941	18.8	45.4	48.6
Non-Scheduled Banks—				
'A' Class	1939	12.2	28.2	86.9
" "	1940	18.4	25.5	72.0
" "	1941	20.7	28.9	72.7
'B' Class	1939	17.4	14.1	88.9
" "	1940	20.6	15.4	90.6
" "	1941	24.9	16.5	78.6
'C' Class	1939	14.4	8.7	108.7
" "	1940	17.3	9.2	85.3

BANK FAILURES

The total number of banks which went into liquidation or otherwise ceased to work in 1941 amounted to 58 with a paid up capital of 7.36 lakhs as compared with 95 banks with a paid up capital of Rs. 10.99 lakhs in 1940.

CLEARING HOUSE RETURNS.

The total amount of cheques cleared through all the clearing houses during 1941 amounted to Rs. 26.83 crores as compared with Rs. 22.53 crores in 1940, Rs. 22.15 crores in 1939, while the total number of cheques cleared amounted to 1.82 lakhs in 1941 as compared with 1.69 lakhs in 1940, 1.57 lakhs in 1939.

Learn the manufacturing processes of organic and inorganic acids and heavy chemicals from "Chemical Industries of India" Price Re. 1/12.

CO-OPERATIVE BANKS.

Co-operative banks are established under the Co-operative Societies Acts. They consist of the provincial banks at the apex, the central banks and primary societies which are mostly affiliated to the central banks. Under the Acts and the rules of the Co-operative Department, the co-operative banks and societies are debarred, except with the general or special sanction of the Registrar, from lending to any one who is not a member of the institution. Most of the primary societies are agricultural and their main function is to supply credit to the agriculturist. The provincial banks assist the central banks by advancing funds for use as part of their working capital and also by the grant of ordinary and special cash credits to enable the provincial banks to work on a low level of till money. The provincial banks obtain their finance mainly from deposits from the public but central banks and primary societies also contribute to the resources of the provincial bank in the shape of share capital and deposits of their surplus funds. The provincial banks have also arrangements for cash on credits and overdrafts with the Imperial Bank.

The primary function of the central banks is to supply the working capital needed by their affiliated primary societies. They obtain their finance partly from the apex provincial bank and partly from the deposits by the public. The majority of shares in central banks are held by affiliated societies. The primary societies maintain a register of assets and liabilities of each individual member and a copy of this is kept by the Central Bank.

There are also non-agricultural societies both with limited and unlimited liability which cater to the needs of a great variety of persons including officers of Government, employees of industrial companies, contractors, small traders, fishermen, weavers, artisans and others.

The following table provides useful information regarding the position of the co-operative banks.

	Number	Capital & Reserves	Deposits	Loans Outstanding	Cash Balance
		(in lakhs of rupees)			
1919-20	31	78	3,60	—	11
1929-30	179	5,18	27,03	23,05	1,52
1930-31	199	5,91	30,24	24,55	1,55
1931-32	208	6,36	36,95	24,04	1,92
1932-33	220	7,13	37,16	23,50	3,58
1933-34	229	7,26	30,78	23,38	2,80
1934-35	236	8,03	41,13	24,34	3,06
1935-36	274	9,37	33,98	27,12	3,24
1936-37	297	10,23	35,24	28,46	3,75
1937-38	296	10,00	35,23	29,00	2,90
1938-39	304	10,69	38,78	32,79	3,09
1939-40	318	11,16	29,09	33,54	3,17
1940-41	321	11,15	38,18	31,93	3,82

Co-operative banks are also sub-divided into two classes, namely (A), those with a paid-up capital and reserves of Rs 5 lakhs and over, and (B) those between Rupees one lakh and Rs 5 lakhs. Statistics in respect of Burma banks have been included for the years 1938-39 and 1939-40. At the end of the co-operative year 1941, there were 42 banks in class 'A,' and 279 in class 'B'.

The following table shows the extent of progress made by co-operative banks of classes 'A' and 'B' during the last ten years —

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re 1/12, Industry Book Dept., Cal.

Year	No of Banks	Paid-up capital	Reserves & other funds	Total	Deposits & loans held	Loans out-standing	Cash balances
(in lakhs of rupees)							
"A" Banks —							
1930-31	27	1,59	97	2,56	12,75	10,57	88
1938-39	43	2,41	2,95	5,35	22,92	18,34	2,03
1939-40	41	2,43	3,05	5,48	22,94	18,91	1,90
1940-41	42	2,36	3,14	5,51	22,66	17,92	2,34
"B" Banks —							
1930-31	172	2,09	1,26	3,35	17,66	13,85	1,06
1938-39	261	2,50	2,85	5,35	15,86	14,45	1,06
1939-40	277	2,61	3,06	5,68	16,14	14,63	1,26
1940-41	279	2,42	3,22	5,64	15,52	14,01	1,49

The total number of all kinds of societies for all-India in 1940-41 stood at a new record high level of 142,512 as against 136,879 in 1939-40 and 122,196 in 1938-39. The number of members taking part in the movement was also higher at 6,400,359, as compared with 6,081,570 in the previous year and 5,374,112 in 1938-39. The paid-up capital of all banks increased from Rs 14 36 crores to Rs 14 66 crores and the reserves from Rs 17 93 crores to Rs 18 69 crores. There was a slight improvement in loans and deposits also from Rs 74 51 crores to Rs 75 98 crores. As a result of this all-round improvement, the total working capital showed a rise of Rs 2 23 crores to Rs 109 33 crores.

The total number of agricultural societies during 1940-41 was 123,723, as against 118 744 in the previous year with a membership and working capital of 4,341 000 and Rs 30,53 lakhs, as against 4,098,000 and Rs 30,51 lakhs, respectively, in 1939-40.

The total number of non-agricultural societies during the year 1940-41 was 17,442, as against 16,747 in the previous year, with a membership and working capital of 1,908,000 and Rs 28 53 lakhs, as against 1,855,000 and Rs 27,70 lakhs, respectively, in 1939-40.

LAND MORTGAGE BANK.

Land Mortgage banks have been started under the auspices of the co-operative movement in the Punjab, Madras, Bombay, Bengal and Assam but they are not sufficiently large in number or in size to meet fully the requirements of the Indian agriculturists for long terms credit, for the redemption of mortgages of land, for the clearance of debts and for land improvement.

The total number of land mortgage banks and societies during 1940-41 was 252 as against 243 in the previous year, with a membership and working capital of 105,280 and Rs 7,05 lakhs, as against 92,000 and Rs 6 27 lakhs, respectively in 1939-40.

The working capital of these banks are mostly derived by the issue of debentures mostly guaranteed by Government. Madras has the most well-developed organisation in this field after which come Bombay, the Central Provinces and Berar, and Mysore.

LOAN OFFICES.

Loan offices also operate along the lines of land mortgage banks and occupy an intermediate position between indigenous banks and modern joint stock banks. These grant loans against mortgage of land pledge or ornaments or personal security. They seldom finance trade and industry.

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re. 1/12. Industry Book Dept., Cal.

RECENT BUSINESS FIGURES

Comparative statement of the position of important Indian Banks with paid-up capital and reserves of rupees ten lakhs and over during 1941 is given below —

	No of Offices	Capital & Re- serves	Total Depo- sits	Bills Dis- counted	Loans & Over- drafts	Invest- ment in Govt Secu- rities, etc	Profit
(In lakhs of rupees)

INSURANCE IN INDIA

THOUGH the principles of insurance were tried and verified as early as in the seventeenth century in various forms, it was not before the nineteenth century that these met their first application in India.

But the progress though slow has been steady and the spade work done by insurance companies has awakened a class consciousness on the essential necessities of insurance and the manifold benefits it confers. The first period of every innovation is often very trying and it was so in the case of Indian insurance but with the dawning of the twentieth century the progress has been livelier as the gradual expansion of the companies clearly exhibits.

The Indian insurance companies that dominate the field now are conducted efficiently and their accumulated funds and solvent position fully justify Indian support more and more. Entering the field where powerful foreign companies had once enjoyed a practical monopoly, they proved their mettle by working their way to steady growth against vigorous competition and disadvantages. They have to this date to work against numerous obstacles, the chief amongst which is that imposed by foreign bankers who are very reluctant to accept the policies from Indian insurance companies in the matter of extending credits. They have still to secure the active support of the Indian business houses who will continue their transactions with foreign houses on the ground that they cannot give up their long standing connection. These disadvantages are only passing phases and with the gradual expansion of insurance business, for which scope in India is now unlimited by propaganda work, there is no doubt that Indian insurance companies will develop into a power in the land.

HISTORY OF INDIAN INSURANCE

The history of the growth of insurance in India makes interesting reading. Provision for widows, left destitute after the death of their husbands, met the first consideration. The oldest of the existing Indian companies which were established nearly a century ago in Madras and the United Provinces were thus meant for the benefit of widows. Of them the only one now existing is the Bombay Widows' Pension Fund established in 1876 which seems to have been the first widows' fund to admit Hindus.

Life assurance next attracted the attention. The first Indian Company to issue ordinary life assurance policies was The Madras Equitable. Being founded by Messrs Arbuthnot & Co, of Madras in the year 1829, this company worked successfully for many years and accumulated funds of about a quarter of a crore but went into liquidation shortly after the termination of the war owing to the heavy depreciation of its investment at that time and to the decrease in its income on account of its having stopped the issue of new policies a few years previously. By the disappearance of this old mutual company the Bombay Mutual, which was founded in 1871, is now the oldest Indian mutual life assurance company.

The Oriental of Bombay, which was founded in 1874 is the oldest Indian proprietary company transacting ordinary life assurance.

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**, Re. 1/12. Industry Book Dept, Calcutta.

business and has accumulated funds exceeding 23 crores. The next four oldest are the Hindu Mutual Life Assurance Ltd., the Indian Life of Karachi, Bharat of Lahore and the Empire of India of Bombay, which were established between 1891 and 1897. In Madras the oldest proprietary company is the United India which was established in 1906 and which had the advantage of following the lead of the Madras Equitable and other economically managed Southern Indian mutual concerns in much the same way as many of the companies in Western India profited by the excellent lead of the Oriental. In Bengal proprietary companies were first started in 1906 during the days of Swadeshi Movement. Several of the companies established in that Presidency at about that period succumbed to the temptation to pay too heavily for new business or adopted other unsound methods of conducting their affairs with the inevitable result that nearly half of them had to go into liquidation in a few years of their existence.

During the period of the Great War, there was only an addition of four Indian insurance companies, and in the post-war period from the year 1918 to 1924 there was a further addition of five Indian Life Assurance Companies. But from the year 1926 onwards there has been a steady increase of new life insurance companies with the result that whereas at the end of 1926 there were 51 Indian life assurance companies with a combined premium income of nearly Rs. 253 lakhs, there were as many as 217 companies in 1938, of which 182 were doing life insurance business with a combined premium income of over Rs. 228 lakhs. The number of companies however diminished considerably on passing of Indian Insurance Act. No progress of any substantial character has, however, been made in the case of other classes of insurance.

It is refreshing that the companies that survived profited by the hard won experiences of their less fortunate rivals that were forced to leave the field. They have considerably remodelled their institutions and there are now not a few Indian insurance companies which are as much efficiently and scientifically managed as the best European or Colonial ones.

INSURANCE BUSINESS IN INDIA.

The number of companies which come during 1940 under the provisions of the Indian Insurance Act, 1938 are 294. Of them 198 companies are constituted in India and 96 companies are constituted outside India.

Most of the Indian companies do life assurance business only. As many as 161 of the Indian companies carry on life assurance business and of the remaining 37 Indian companies, 18 carry on life business along with other insurance business and 19 carry on insurance business other than life. The companies are distributed all over India. Of the 198 Indian companies 72 are established in the Bombay Presidency, 48 in Bengal, 32 in Madras Presidency, 17 in the Punjab, 12 in Delhi, 7 in the United Provinces, 3 in the Central Provinces, 3 in Sind, 2 in Bihar, and 1 each in Assam and Ajmer Merwara.

The table showing the proportion of Indian and non-Indian companies follows —

	Indian Companies	Non-Indian Companies	Total
1928	97	148	245
1929	108	149	257
1930	130	147	277

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products" Re. 1/12. Industry Book Dept., Cal

		Indian Companies	Non-Indian Companies	Total
1931	--	136	146	282
1932	--	169	150	319
1933	---	194	147	341
1934	-	217	149	366
1935	---	234	147	381
1936	---	232	147	379
1937	---	219	149	360
1938	---	217	143	360
1939	--	197	98	295
1940	-	198	96	294

LIFE ASSURANCE BUSINESS

Life assurance companies, of course, have been established in this country for quite a long time. Following the world progress in the insurance business, the development of the life insurance companies during the last few years in India has been remarkable. The following table shows the new business effected by Indian companies since 1920 in each year and their total business in force at the end of the year.

		New Business Effectuated (Figures in lakhs of rupees)	Total Business In Force
1920	-	5.17	31.00
1921	-	5.47	34.00
1922	-	5.64	37.00
1923	-	5.85	39.00
1924	-	6.89	42.00
1925	---	8.15	47.00
1926	---	10.35	53.00
1927	---	12.77	60.00
1928	---	15.41	71.00
1929	---	17.29	82.00
1930	---	16.50	89.00
1931	---	17.76	98.00
1932	---	19.66	1,06.00
1933	---	24.83	1,19.00
1934	---	28.92	1,37.00
1935	---	32.82	1,52.00
1936	---	36.00	1,68.00
1937	---	39.00	1,84.00
1938	---	46.68	2,19.00
1939	---	45.96	2,32.42
1940	---	36.11	2,85.63

The above table will show that Indian insurance has made phenomenal progress during the last 20 years. At the end of 1920 the total business of the companies in India remaining in force amounted to only Rs 31.00 lakhs, of which new business written during that year was only Rs 5.17 lakhs. At the end of 1940 the total business remaining in force of the Indian companies amounted to no less than Rs. 286 crores of which Rs 36,11,00,000 represented new business written during the year.

The total new life assurance business effected in India excluding business on the dividing plan by the Indian and non-Indian companies in five years ending 1940 and that remaining in force at the end of those years are shown separately in the table —

Premium Income (in lakhs of rupees)	14,20	15,37	14,28	13,99

The total new sums insured by Indian life offices in 1940 amounted to Rs 35 23 00 000 as compared with Rs 45,76,00,000 in the previous year. The total business remaining in force at the end of the year was Rs 243,91,00,000, as compared with 232,42 00,000 at the end of the previous year. The total revenue income of the Indian life offices during the year amounted to Rs 14,67,00,000 as compared with Rs 14 83,00,000 in 1939.

The share of the British companies in respect of new sums assured is 2 05 crores, of the Dominion and Colonial companies 3 4 crores, of the single German company 1 95 crore and of the single Swiss Company 0 11 crore. The average sum assured under the new policies issued by Indian companies is Rs 1,473 and under those issued by non-Indian Companies Rs 3,716.

"Careers of Agents and Middlemen" A reliable guide on the functions scopes and qualification of Agents and Middlemen Price Re 1/4.

ANNUITY BUSINESS

A striking feature of the Indian companies is the almost negligible amount of business done by them under annuity contracts, while in the case of non-Indian companies annuity contracts constitute an appreciable portion of their total life assurance business. Even the small amount of annuity business the Indian companies were getting in the past is gradually decreasing. Evidently annuity contracts have not yet found favour with Indians in general.

The total new annuity business effected during the year 1939 was for the amount of 2½ lakhs per annum of which the share of Indian companies was 50,000 per annum. The total annuity business remaining in force at the end of that year was for the amount of 14.59 lakhs per annum, of which the amount payable by Indian companies was Rs 6½ lakhs per annum.

LIFE BUSINESS OUTSIDE INDIA BY INDIAN COMPANIES.

Some Indian life offices, it may be noted, have extended their operations outside India, chiefly in Burma, British East Africa, Ceylon, Federated Malay States, and Straits Settlements. The total new sums assured by these offices outside India during 1940 amounted to Rs 2,91,00,000 yielding a premium income of Rs 16,00,000, as compared with Rs 3,45,00,000 yielding a premium income of Rs 19,00,000 in the preceding year. The total sums insured remaining in force at the end of 1940 amounted to Rs 18,40,00,000 having a premium income of Rs 96,00,000 as compared with Rs 17,23,00,000 having a premium income of Rs 93,00,000 in the previous year.

FIRE, MARINE AND MISCELLANEOUS INSURANCE BUSINESS

The insurance business other than life was until 1919 left entirely to non-Indian companies but the advent of half a dozen Indian companies was responsible for diverting a small portion of this business to the latter. The number of Indian companies has since then increased to 18 but still the major part of the business lies in the hands of the non-Indian companies as will be amply exhibited by the following table —

	Fire	Premium Income Marine Miscellaneous (in lakhs of rupees)		Total

1940	1,46	130	85	3,61

It will be seen that the total net Indian premium under insurance business other than life assurance in 1940 was Rs 3,61,00,000. In this amount, the Indian companies' share was Rs 1,18,00,000 and of non-Indian companies Rs 2,43,00,000. The Indian companies received Rs 54,00,000 from fire, Rs 29,00,000 from marine and Rs 35,00,000 from miscellaneous insurance business while non-Indian companies received Rs 92,00,000 from fire, Rs 1,01,00,000 from marine, and Rs 50,00,000 from miscellaneous insurance business.

The Indian companies which transact a substantial amount of fire or marine business also operate outside India. These companies had a net premium income also of 93 lakhs of rupees in 1940 from business outside India as against Rs 85 lakhs in 1939 and 108 lakhs in 1938.

The following table compares the position of the Indian and non-Indian companies in life, fire, marine and miscellaneous insurance business.

	Indian Companies			Non-Indian Companies			Total

LIFE ASSURANCE FUND

There has been an increase in the amounts of the claims by death and by survivorship over the past several years. In 1929, the figures were by death, Rs 80,08,000 and by survivorship, Rs 83,11,000 whereas in 1939, the respective figures were Rs 1,96,00,000 and Rs 2,13,00,000.

New Customers: How to Create—How to Hold—That wonderful book by K. M. Banerjee for developing your sales. Rs. 2. Industry Book Dept.

The life assurance funds increased by Rs 6,00,00,000 and amounted to Rs 62,41,00,000 at the end of 1939. The rate of interest earned on the life funds during the year, after deductions of income-tax at source, was 4.37 per cent, as compared with 4.68 per cent in the previous year. The total expenses of management expressed as a percentage of the premium income during the year worked out to 28.9 per cent as compared with 33.2 per cent in the previous year.

INSURANCE COMPANIES' ASSETS

The bulk of investment of the Indian companies are in stock exchange securities which constitute about 70 per cent of the total assets.

The total assets in India of non-Indian companies amount to Rs 24.92 crores of which Rs 14.77 crores represents the Indian assets of the companies constituted in the United Kingdom and Rs 9.86 crores those of companies constituted in the Dominions and Colonies. The Indian assets of the American Companies amount to Rs 12 lakhs, those of the Continental Companies to Rs 8 lakhs, of the Japanese to Rs 6 lakhs and of the Japanese to Rs 3 lakhs. Out of this total amount of Rs 24.92 crores, Rs 21.1 crores represents Indian assets of companies which carry on life insurance business in India either solely or along with other insurance business.

INSURANCE BUSINESS ON THE DIVIDING PLAN.

Some Indian companies transact life assurance business on the dividing plan under which the sum assured is not fixed but depends on the division of a portion of each year's premium income amongst the claims arising in that year. Those companies which still transact this class of business are required by law to cease transacting by July 1, 1942. The societies registered under the Provident Insurance Societies Act, 1912 and which have in the past transacted mostly dividing insurance business, are already required by the Act to cease this business.

PROVIDENT INSURANCE SOCIETIES.

There were at the commencement of the Insurance Act, 1939, 505 societies registered under the Provident Insurance Societies Act, 1912, mostly transacting dividing insurance business. That type of business had to be stopped from 1st July, 1939 by most of the Societies, except in the case of a few which were allowed some time to reorganise their business on actuarial lines as provided by Section 69 of the Act.

Of the 505 societies existing at the commencement of the Insurance Act, 1938, 295 were established in Bengal, 34 in the Bombay Presidency, 57 in the Madras Presidency and 27 in Sind and the remaining Societies were scattered over the other provinces of India.

The essential difference between a life assurance company and a provident insurance society is that the company is subject to the Life Assurance Companies Act and not to the Provident Societies Act if, under assurances payable at death or on survival of any one life, it undertakes either to pay sums which in aggregate exceed Rs 500 or to receive premiums which in the aggregate exceed Rs 25 in any one year where the period for which premiums are payable is not limited, or which exceed Rs 250 altogether where such period is limited. If, as may happen in the case of a dividing society, the sum assured payable at death is not fixed but may in certain contingencies exceed Rs 500 the society is subject to Life Assurance Companies Act.

New Customers: How to Create—How to Hold—That wonderful book by E. M. Bancroft for developing your sales. Rs 2. Industry Book Dept.

PROVIDENT SOCIETIES.

According to Insurance Year Book, 1941, it appears that the reports of the Inspectors reveal a deplorable position of some of the Provident Societies and the unsatisfactory position of most. The cause of this may generally be attributed to the operation of unsound schemes which were not prepared on actuarial advice, coupled with improvident management which the premiums were never constructed to bear. It was also noticed that in many cases the management lacked even superficial knowledge not only of insurance matters but also of their most elementary legal obligations.

RECENT BUSINESS FIGURES

Andhra Insurance Co Ltd—Annual premium exceeds Rs 8 lakhs, Life funds amount to Rs 31,00,000 Invested funds exceed Rs 34,00,000

policies assuring a sum of 2,90,900 were issued. The premium income (less reinsurance) during the year amounted to Rs 1,12,634-14 and the total income to 1,28,890-5-5. The total expenses of management were Rs 43,047-7-10. The expenses were Rs 8,500 less than those in the last year. The Life Fund stood at Rs. 2,76,899-10-3 at the beginning of the year, and in the end it stands at Rs. 3,26,087-11-10 showing an increase of Rs 49,188-1-7. On 31st December, 1940, Rs 25,762 were payable by the Company in claims. Fresh claims amounting to Rs 8,447 arose during the year, for Rs 4,203 by death and for Rs 4,244 by maturity. Out of this combined liability of Rs 34,209, claims for Rs 19,303 were settled during the year, leaving claims outstanding at the end of the year at Rs 14,906. Investment in Government Securities now stands at Rs 2,03,766-3-4.

Swadeshi Bima Co. Ltd., Agra—During 1941, the Expense Ratio of total expenses to total income leaving appreciation comes to 22.25 % as against 33.2 % of the last year and 51.4 % of the year before last. Interest yield is 18.38 % due to profits but excluding profit in our Mills it comes to 6.6 %. Security Deposit with the Reserve Bank Rs 2½ lakhs. Life Fund has swelled from 6 Lakhs to 8,00,000/- and the total Assets are over Rs 15 Lakhs.

Tropical Insurance Company, Limited, Connaught Circus, New Delhi—Life Department. During 1941, 1,142 proposals for an assurance of Rs 21,37,000 were received. 906 proposals assuring a sum of Rs 16,67,375 resulted into Policies with an annual premium income of Rs 1,43,872. Life Fund increased from Rs 10,31,640 to Rs 12,54,173. Claims under Policies by Death and Maturity (including provisions for claims due or intimated) have been Rs. 57,639 and Rs 25,759 respectively. Fire Department. Gross Premium amounted to Rs 2,31,760 and after deduction and reinsurance, the net Fire Premium amounted to Rs 1,04,955. The losses (claims paid and outstanding) come to Rs 7,427 which comes to 7.07 % of the net premium income. Fire Fund stands at Rs 67,171 which is 64 % of the premium income. Marine Fund stands at Rs 24,345. Accident & Miscellaneous Insurance Business. The gross premium amounted to Rs 49,675 and after deduction and reinsurance, the net premium amounts to Rs 45,041. The losses (claims paid and outstanding) come to Rs 18,328 which is 40.7 % of the premium income. Accident Fund now stands at Rs 17,837-2-9 which is about 39.6 % of the premium income.

United India Life Assurance Co., Ltd.—During 1941, 7,167 proposals were received for assurances amounting to Rs 1,49,19,549. 5,859 new policies amounting to Rs 1,17,51,097 were issued. The total assurances in force on 31st. December, 1941, including bonus additions, amounted to 6,71,82,877 of which Rs 4,65,625 is re-assured. The Policyholders' Trust Fund at the end of the year 1941 stood at Rs 1,57,88,477 as against Rs 1,37,71,400 at the beginning of the year. The total revenue amounted to Rs 39,14,832 from premiums, interest, and other fees. There were 523 claims for 9,43,498 out of which 267 death claims amounted to Rs 4,80,945.

Western India Life Insurance Company, Ltd.—During 1941, 5,844 proposals were made for assuring sums amounting in the aggregate to Rs 80,03,795 and 5,155 proposals resulted in policies. The total new business effected amounted to Rs 68,73,149, the annual premium thereon being Rs 3,66,109 plus single premium of Rs 12,432. The Life Assurance Fund rose by Rs 16,81,933 to Rs 1,44,74,631. The investments as on 31st December, 1941, amounted to Rs 1,48,39,051 against the book value of Rs 1,33,31,919. The expense ratio was only 21.41 per cent as against 22.51 per cent for 1940.

COTTON MILL INDUSTRY

THE textile industry is the biggest manufacturing industry of India absorbing the largest Indian capital and is mostly worked under the management of Indians. From a small beginning the industry has expanded considerably against tremendous odds and severe foreign competition. In 1940 there were 390 mills equipped with 9,961,000 spindles and 198,574 looms giving employment to 459,509 men. The total paid-up capital of the industry on the 31st August, 1941, amounted to Rs 44,77 lakhs as compared with Rs 43,62 lakhs and Rs 42,81 lakhs on 31st August, 1940, and 1939. Besides, there are quite a large number of hand looms working in the Indian villages. It is estimated by experts that there are in India intermittently at work 50,000,000 spinning wheels and about 2,500,000 hand looms, the output of which is estimated at about 1,900 million yds of cloth.

GROWTH OF THE TEXTILE INDUSTRY.

The textile industry in India is of recent origin and is only a century old. The history of the cotton mill industry in India is one of slow growth in the infant stage which seems to have lasted for about half a century. The first cotton mill to start operation in India was the Bowreah Cotton Mills on the bank of the Hooghly river near Calcutta in 1817. It was conceived by the Englishmen and its successor is still in existence. In 1851 another mill was established by the English at Broach and in 1854 another was created at Bombay, with 20,000 spindles. The first Indian mill, however, was established in 1865 under the management of an enterprising Parsi gentleman named Mr Cowasji Mannabhoj Davar. Since that time the progress of the cotton mills has been very rapid. Reliable figures relating to this industry are wanting until 1866 in which 13 mills with 309,000 spindles and 3,400 looms were reported to have existed in the whole of India. The following table gives a comprehensive idea of the growth of the cotton mills in India since 1866 —

Year	No of Mills	Spindles	Looms
1866	13	309,000	3,400
1880	56	1,461,000	13,500
1899	156	4,046,100	36,600
1910	223	5,780,124	74,757
1920	253	6,763,000	119,000
1930	348	9,124,768	179,000
1931	340	9,500,000	186,000
1932	344	9,572,000	189,042
1933	352	9,613,000	194,988
1934	365	9,686,000	198,867
1935	379	9,857,000	200,062
1936	380	10,020,000	200,284
1937	370	9,731,000	197,810
1938	389	10,059,370	202,464
1939	388	10,005,785	200,076
1940	390	9,961,000	198,574

FOR NEAT PRINTING WRITE TO
INDUSTRY PRESS, SHAMBAZAR, CALCUTTA.

In the infant stage the cloth woven by the Indian mills was plain and coarse and made up usually of counts under 24's but the bulk of their production was not cloth yarn of the lower counts which was consumed in India or exported to the Far East, where India held practically a monopoly of supply. Early in this century, however, the mills began to realise that, unless they extended their weaving section, there was little profit in spinning owing to the competition of Japan in the Eastern markets and the establishment of cotton spinning and weaving factories in those centres. Consequently, most of the Indian mills increased their looms and adopted the policy of producing more cloth than yarn. This change is visible in the actual production of cloth which increased almost three-fold between the years 1900 and 1915. The Swaraj movement also lent an impetus to the industry by creating increased demand for cloth and piecegoods made in India.

The present war has, however, contributed greatly towards the expansion of the industry. In the previous war period of 1914-18 India was not called upon to supply cloth in appreciable quantities for the Army and there was no serious cloth shortage except towards the end of the war. But at the very commencement of the present war it was apparent that Britain was hardly in a position to meet the cloth requirements of herself and the Empire, and India had thus to meet the textile requirements of the Indian Army and practically the whole of British Empire and the neutral countries in the Middle East. The mills had to work double and in some cases treble shifts. It is noted that no fewer than 168 different items of cotton textile materials required for the Defence Services are now being obtained from the mill and handloom industries. These include 32 items of cotton piecegoods, 10 items of khaki materials, 19 items of canvas goods, 14 items of tentage and allied articles, 26 items of fabricated cotton articles, 17 items of cotton waste ropes, cordages and allied products, and 20 items of cotton knitted goods, tapes, etc. More than 30 new types of fabrics are being manufactured, including such items as cellular shirting, an-man's shirting, mazzu shirting, absorbent gauze, oil-dressed and anti-gas fabrics, cotton-rute union canvas, rubber hose, and rubberised double textile fabric.

MODERN DEVELOPMENT

Owing to the competition from artificial silk, the higher standard of living and the spread of civilisation, there has been an ever-increasing demand in the world for fabrics possessing better finish and appearance. This has often necessitated the spinning of textile materials, such as cotton, into finer counts. The same tendency has been in evidence in the Indian cotton mills. Statistics show that in 1926-27 these mills spun 515,000,000 lbs of yarn under 20's counts and only 39,000,000 lbs of yarns above 30's counts. Within the brief period of fifteen years in 1941-42 these figures stood at 950,000,000 lbs for yarns under 20's counts and 274,000,000 lbs for yarns above 30's counts. Thus whereas the production of yarn below 20's counts showed an increase of only 85 per cent. the production of yarn above 30's counts registered an increase of 600 per cent. This enormous increase in the relative proportion of the finer counts was made possible partly by the importations of foreign long staple growths, partly by the steady improvement in the quality of Indian cotton crop and partly by the adoption of such mechanical aids as better opening and cleaning, high draft system of spinning and the use of combing machines. Combing as an aid to improving the spinning quality of cotton has come more

FOR NEAT PRINTING WRITE TO
INDUSTRY PRESS, SHAMBAZAR, CALCUTTA.

and more into use in the Indian mills as is shown by the installation of an increasingly large number of combing machines. This switch-over in production from coarse to fine goods also necessitated technical adjustment of machine. Hence when Indian mills had to supply Government orders for cloth which are considerably coarser than the average cloth produced by mills, they were put to great difficulties.

CONSUMPTION OF COTTON.

The activity of the industry is reflected in the figure of cotton consumed. The consumption of raw cotton by the cotton mills in India during the year ending 31st August, 1942, amounted to 3,996,000 bales of 3½ cwt each. The consumption of Indian cotton in the Indian mills showed substantial improvement owing to less use of imported cotton. The consumption of cotton in the various provinces of India during the last five cotton years (from 1st September to 31st August) follows —

	1937-38	1938-39	1939-40	1940-41	1941-42
		(in 1,000 bales)			
Bombay Presidency	1,354	1,316	1,172	1,580	1,764
Bombay Island	783	750	634	982	1,058
Ahmedabad	346	346	305	341	415
Madras Presidency	418	481	507	526	591
United Provinces	288	356	349	381	427
C P & Berar	147	165	143	154	179
Bengal	92	91	111	135	117
Punjab & Delhi	95	133	165	172	176
Indian States	554	559	557	622	690
TOTAL	2,994	3,151	3,050	3,617	3,996

Tables relating to details of consumption of cotton by the important Indian States follow —

	1939-40	1940-41	1941-42
	(in 1,000 bales of 400 lbs)		
Hyderabad	68	73	84
Mysore	68	65	75
Baroda	66	92	91
Gwalior	87	96	94
Indore	120	139	149
Kathiawar States	44	50	61
Others & Pondicherry	103	108	137
TOTAL	557	622	690

The above table supplies a fair idea of the relative importance of the provinces as manufacturers of cotton goods. It will be seen that the consumption during 1941-42 has been a record one. Of this, 600,000 bales represented foreign cotton as against 663,000 bales in 1939-40.

SEAT OF THE INDUSTRY

Since the middle of last century Bombay on account of its excellent shipping and railway facilities and business enterprise has dominated the cotton industry. It has been for many years the real seat of the cotton industry in India and still produces the greater part of the cotton goods. But an important tendency of the present day is the migration of the Indian mill industry to other centres of India. As a result of this, cotton mills are being erected at Ahmedabad, Lahore, Delhi, Baroda, etc., where they are close to the sources of supply of

Do not hanker after service when you can be your own master. HOME INDUSTRIES explains, Re. 1/12 Industry Book Dept., Calcutta

the raw material and to the up-country consuming markets and are also protected against foreign competition by the long railway lead from the ports. As matters now stand Ahmedabad has come to occupy the second place so far as textile manufacture is concerned. Other centres in the Bombay Presidency include Sholapur, Surat, Broach and Jalgaon. The other mills are distributed over many provinces and towns. The most important among them are Madras, Madura and Coimbatore in the Madras Presidency, Nagpur in the Central Provinces, Cawnpore in the United Provinces and the vicinity of Calcutta. The number of mills in Bombay City and Island is 64, in Ahmedabad 75, in Bombay Presidency excluding Ahmedabad and Bombay City 62, in the United Provinces 26, in Bengal 33, in Madras Presidency 63, in Central India 16, in Central Provinces 8, in Berar 4, in the Punjab 7, Rajputana 7; and in Bihar 2. There has recently been a tendency for the industry to push into the smaller towns in the cotton growing tracts.

DISTRIBUTION OF SPINDLES & LOOMS.

The number of spindles and looms in operation during the year ending 31st August, 1941, as compared with those during two preceding years follows —

	Spindles			Looms

PRODUCTION OF PIECEGOODS.

Productions of cotton piecegoods are classified under two broad groups — Grey and bleached piecegoods and coloured pieces. These are again subdivided into a number of well-known types. The figures of production under each of these head produced in Indian mills including the Indian States for the few years are given below —

	Grey and Bleached		Coloured		Total	
	(figures in million)					
	lbs	Yds	lbs	Yds	lbs	Yds
1924-25	325	1,382	126	588	451	1,970
1925-26	339	1,414	117	540	456	1,954
1926-27	382	1,577	145	681	527	2,259

HAND-LOOM INDUSTRY

Though authoritative statistics are not available, the number of hand-looms appears to be not less than 2,500,000 and the number of persons wholly or partly dependent on the industry must be in the neighbourhood of ten millions, whereas the cotton weaving mills in India employ 459,000 men only. This industry is responsible for about 46 per cent of the total cloth produced in India and about 37 per cent of the total annual consumption of cloths.

Estimated production of handloom production during 1939-40 was 1810 million yds as against 1,920 million yds in 1938-39 and 1,490 million yards in 1937-38.

EXPORTS OF INDIAN COTTON GOODS.

Cotton twists and yarns and piecegoods as well were formerly exported in big quantities to Far Eastern markets where India held practically a monopoly of supply but the exports recorded gradual decreases due to loss of these markets.

Cotton Twist & Yarn.

Detailed figures of exports of cotton twists and yarns by counts are —

	1937-38	1938-39	1939-40	1940-41
		(in 1,000 lbs)		
Nos 1 to 20	31,923	27,628	27,450	46,608
Nos 21 to 40	5,820	7,639	6,976	23,504
Above No 40	676	809	409	1,251

TOTAL	40,124	37,960	36,943	77,723
Value of exports (in lakhs of Rs)	203	188	179	409

The exports of cotton yarns however have again marked a sharp rise in recent years. While in 1939-40 the exports were estimated at 37

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs. 3/-. Industry Book Dept., Calcutta.

276 INDUSTRY YEAR BOOK & DIRECTORY, 1943

million lbs these amounted to 78 million lbs. in 1940-41 registering a rise by about 100 per cent. During 1941-42 exports showed a sharp rise to 91 million lbs and were valued at Rs 738 lakhs

Piece-Goods.

The exports of piecegoods made in India had been falling off considerably, partly due to growing competition in the markets where India formerly sold her goods and partly due to the establishment of textile mills at those places to meet the local demand. A welcome improvement is in evidence since the outbreak of the present war. The following table shows the exports of grey, white and coloured goods —

	1935	1936	1937	1938	1939	1940
	-36	-37	-38	-39	-40	-41
	(in million yards)					
Grey	8.9	23.2	90.3	68.6	79.9	126
White	1.3	4.6	15.7	10.2	13.8	54
Coloured	61.1	73.8	135.2	98.2	128.0	210
TOTAL	71.2	101.7	241.3	177.0	221.4	390

Value of exports

(in lakhs of Rs)	2,03	2,63	6,50	4,79	6,11	10,64
------------------	------	------	------	------	------	-------

779 million yards of piecegoods were exported in 1941-42 and were valued at Rs 26,51 lakhs

It will be observed that concurrently with the increase in the cotton mill production exports of cotton piecegoods also improved in 1941-42 by 100 per cent in quantity over those of the preceding year. Bombay as usual had the bulk of the trade in 1940-41 and accounted for 78 per cent of the total exports while Madras has 118 per cent as compared with 66 per cent and 31 per cent, respectively in the preceding year.

Cotton Goods.

The total value of cotton yarns and manufactures exported from India during 1941-42 and previous years follow:—

	1935	1936	1937	1938	1939	1940

Value of imports (in lakhs of Rs)	11.70	10.27	9.65	8.08
--------------------------------------	-------	-------	------	------

During 1941-42, 181.5 million yds of piecegoods were imported and were valued at Rs 4.45 lakhs.

The improved situation during 1941-42 was mainly due to the war conditions in the West and in the East which opened new export outlets for Indian textiles and stabilized the older ones. With this the Indian textile industry secured, as it were, the entire monopoly for the duration of war to feed the home market as well as the adjoining markets which are referred to as the Eastern Group of Nations.

PROBLEM OF CLOTH IN INDIA.

The problem of cloth in India is a development from the inception of the present war. With the march of time the tempo of this problem has risen culminating in the present shortage of cloth and the resultant steep rise in prices of this commodity. Cloth supplies from U K to India have practically dried up and Japan is completely out of the picture. In this connection some statistical data giving the available supplies of, and demand for cloth in India in 1941-42, may be cited. On the supply side, the production of cloth in India was thus — by mills 4,493.6 million yards, by handloom 2,000.0 million yards and by imports 181.5 million yards. On the demand side, 864.6 million yards and 121.0 million yards were exported by sea and land respectively, and 1,000.0 million yards of cloth were taken over by the Supply Department of the Government of India. The total demand thus amounted to 1,985.6 yards leaving 4,689.5 yards available for consumption. But the estimated civilian consumption in 1941-42 stood at 6,000 million yards of cloth. It is very likely that large surplus stocks of cloth amounting to about 555 million yards upto 1938-39 must have lasted well into the fiscal year 1941-42, which did prevent the abnormal shortage of cloth on that year to some extent.

A closer examination of the position of cloth in the year 1942-43 reveals that the stocks of cloth must have deteriorated definitely for the following reasons — First, the increasing demand for cloth by the Supply Department, Secondly, the absence of any surplus stocks from

INVENTIONS OF TO-DAY makes your information up-to-date. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

previous years, and thirdly, the setback in production caused by strikes in important manufacturing centres. The position during 1942-43 can be estimated thus—On supply side the estimated production of cloth by mills will amount to 4,500 million yards and by handlooms 2,000 million yards, 50 million yards may be available from imports, thus making the total supply of cloth 6,550 yards in 1942-43. On the demand side the Supply Department is expected to require 1,200 million yards. Exports by sea and land will amount to 1,000 million yards and 150 million yards respectively. The estimated civil consumption remaining at 6,000 million yards, the shortage will stand at 1,800 million yards of cloth.

There are factors such as scarcity of transport facilities and a substantial hoarding demand for cloth which may aggravate the problem of cloth shortage in India. If the situation is not eased early, it is bound to have serious repercussions in the country causing considerable hardship to the people and might even impair the future prospects of the industry itself.

In order to find out a solution of this present impasse in cloth shortage the production of textiles both by mills and by the handloom weavers should be raised, switching over the production as far as it is technically possible of such categories of cloth as are used by the poor and the middle classes, from those commonly used by the richer class of people—specially because the requirements of the Supply Department are in many respects for those types of cloth which are commonly used by the masses. For this purpose it may be necessary (1) to reduce the number of picks, (2) to weave, wherever possible, to the fullest breadth permitted by the looms, (3) to eliminate manufacture of luxury goods and concentrate on the essential needs of the country, (4) to increase the efficiency of labour. The handloom weavers have been experiencing the difficulties in getting their requirements of yarn at reasonable price and as a result of this the handloom production of cloth is liable to suffer to some extent. The Government can make matters easy by securing the requirements of the handloom weavers direct from the mills by paying a reasonable price and distribute the yarns to the handloom weavers through Provincial Governments.

There are some other necessities which should be taken principally by the Government in co-operation with the cloth trade and also with the industry. The most important among these steps will be to put an embargo on exports of cloth which have met a phenomenal expansion lately or to reduce exports to the minimum level possible. Besides this, the Government should effect all possible economy in the consumption of cloth by the army by introducing substitutes such as made of jute and other fibres, should adopt suitable measures to control the price of cloth, resort to rationing of the same and stop black markets. The suggestions envisaged and formulated above, if followed, may to a large extent avert the present crisis of cloth in India.

JUTE MILL INDUSTRY

THE development of the jute industry in India dates back to the latter part of the eighteenth century. In India it has been in long use as its references in early literature would amply prove, but then the demand for the article did not justify its wide cultivation. With the intercourse of the East and the West and the development of international trade, there sprang up a natural demand for cheap wrapping or containing material to transport goods from one place to another and to ship them abroad.

The peculiar geographical and climatic position of Eastern Bengal and Assam have enabled them to command a virtual monopoly in jute production. No country, it is believed, can monopolise an article in a sense Bengal and Assam do in respect of jute. Ardent endeavours have been made in foreign lands in various parts of the tropics, notably in the Nile Valley, Nigeria, Sierra Leone and in many parts of Africa, in Java and French Indo-China, but Bengal and Assam have been the only provinces in which the cultivation of jute has been a commercial success.

IMPORTANCE OF THE JUTE INDUSTRY.

Jute and jute manufactures figure pre-eminently in the foreign trade of India, which annually amounts to several crores of rupees. Jute, both raw and manufactured, forms one of the chief commodities of export. Bengal is celebrated for its jute textile industry concentrated in the assembly of 95 large mills on the banks of the Hooghly. Besides, there are 3 mills in Bihar and Orissa, 4 in the Madras Presidency and 2 in the United Provinces. This extensive and valuable industry with an investment of 19.97 crores of rupees and £2.5 million sterling exclusive of the reserve funds which have accumulated to huge figures has been mainly built up by British commercial enterprise, though of late Indian industrialists, have come forward to stake a share. Of 104 jute mills in India, only a few are entirely owned and under the management of Indian companies, most important of which are the Birla, Hukumchand, Adamjee, Gagalbhai, Hanuman, Premchand and Juggilal Kamlapat. The rest are still managed mostly by famous Scottish concerns associated with the industry from the early days, there being only 3 mills under American management.

The jute textile industry employs about 3 lakh persons. The industry is practically confined to a single locality. Excluding four mills in the Madras Presidency, where a fibre differing from jute is grown three in Bihar, and two in the United Provinces, the jute mills lie in a small strip of country above and below Calcutta. It is usually on a much bigger scale than the cotton mill, the number of operatives employed in a single mill being three times as great as in the latter cases. The number of spindles in operation during 1936-37 was 1,300,000.

GROWTH OF THE JUTE MILL INDUSTRY.

Up to the middle of the last century the Bengal hand-loom jute industry possessed such vitality that the export of jute fabrics from

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business Rs. 2. Industry Book Dept., Shambazar, Calcutta.

Calcutta exceeded that of raw jute in quantity. Jute was then woven also on the power-looms of Dundee which imported the raw material from Calcutta. But in 1855, the first jute mill was started in India at Rishra and soon after jute mills sprang up rapidly in and around Calcutta.

The development of the jute mill industry has been rapid since the beginning of the present century. This can be explained on the basis of the growing international trade at this period. The primary industries such as wheat, grains, sugar, cotton, oil seeds, etc., all found themselves in a thriving condition and along with this there was a considerable expansion of the international trade in manufactured goods. This stimulated keen demand for jute bags and cloth. To cope with this demand, the capacity of the existing mills was not only strengthened by increasing the number of spindles and looms but also a number of new mills were started.

For many years Indian mills were content to restrict their activities to the manufacture of standard sizes of hessian cloth and standard makes of bags. In recent years more attention has been paid to what are known as specialties and Indian mills are now turning out canvas, linoleum hessian, webbing, felting, etc. A development resulting from the war is the production of a union canvas made of cotton warp and jute weft. Other experiments are in progress and the Indian Jute Mills Association a few years ago set up a Research Department where problems connected with manufacture such as rot-proofing, water-proofing, etc., are receiving the attention of experts. Some years ago the Government of India set up a body known as the Indian Central Jute Committee and it has also established a Laboratory for Technological Research in Calcutta as well as an Agricultural Research Centre at Dacca.

PRODUCTION.

The Chief products of the jute mills are Twist and yarn, Gunny cloth, Hessian cloth, Gunny bags, Hessian bags. A coarse kind of jute textile called jute canvas, rope, twines, etc., for cordage are also sometimes manufactured by these mills.

In spite of numerous vicissitudes and crises which occasionally retarded the steady progress of the jute industry, the production of jute goods during 1942, considered on the whole, was satisfactory and recorded an increase of 85,500 tons in comparison with 1941. The output of jute goods during the year under review was greater than either in 1941 or 1940. The production of such during 1942 aggregated 12.09 lakh tons, as compared with 11.13 lakhs tons in 1941 and 11.55 lakhs tons in 1940. It is estimated that the output of non-member mills (jute mills outside the orbit of the Indian Jute mills' Association) would amount to 60,000 to 70,000 tons per annum. In 1942, the highest production was recorded in the month of April, when such amounted to 1,07,200 tons, and the lowest on record was in October, when it touched 90,833 tons. The average monthly production for the last three years was 96,319, 92,792 and 1,00,756 tons respectively.

The production of jute goods manufactured on Government account discloses marked decline during December, 1942. As against 21,167 tons produced in November, the December output aggregated 16,732 tons only, indicating a recession of 4,435 tons. The production of jute goods on Government account in December was the lowest on record since April last, when such amounted to 15,117 tons. Almost all the items produced on Government account were lower in December.

HEALTH GUIDE will give you ideas that keep you fit. **As. 5.**
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

than in the preceding month, except scrim cloth which even increased slightly from 4,333 tons to 4,501 tons.

Mills continued to work sixty hours per week but, in May, there was a reduction to 54 hours per week with 10 per cent of the looms sealed. A gloomy future of export markets threatened the manufacturers of jute goods owing to the difficulties regarding the shipping position and the depredations of the Japanese in the Indian ocean. With the uncertain behaviour of the raw jute market, the jute manufactures market also met a set back during October, November and December as will be found from the following monthly figures of production of jute goods in India, compiled by the Monthly Survey of Business Conditions in India.

	1941 (in 1,000 tons)	1942 (in 1,000 tons)		1941 (in 1,000 tons)	1942 (in 1,000 tons)
January	79.9	105.3	July	115.3	102.8
February	90.3	100.0	August	95.7	99.4
March	75.6	88.5	September	95.6	101.9
April	100.7	107.2	October	105.7	90.8
May	93.8	98.0	November	113.7	101.7
June	88.4	95.7	December	115.7	98.5

The following table shows the exports of raw jute and jute products and the consumption of raw jute in India during the last five years —

	Exports of raw jute	Exports of sacking bags & cloth	Exports of hessian bags & cloth (in 1000 tons)	Consumption in India
1936-37	821	519	488	1,082
1937-38	747	523	478	1,194
1938-39	690	488	451	1,112
1939-40	570	511	546	1,288
1940-41	243	455	464	989

The above figures are for the jute season July-June.

It will be observed that while the exports of raw jute have been on a downward course, the consumption of raw jute in India has gone higher except in 1940-41 when this received a setback.

EXPORT FIGURES.

The figures for export and the values realised therefrom of the chief jute manufactures during the last few years will be interesting —

Quantity of Exports						
	1935-36	1936-37	1937-38	1938-39	1939-40	1940-41

Australia	310	412	365
U S A	8,413	7,645	8,719
Argentine Republic	2,909	2,169	2,100

WORLD CONSUMPTION OF JUTE IN 1941-42

It is estimated that the world consumption of jute in 1941-42 was 88 lakh bales, as against 79 lakh bales in the previous season or an increase of 11 per cent. The higher consumption in 1941-42 is attributed to the greater demand of jute from Government. The following gives the estimates of the world jute consumption for the last five seasons (July-June)—1937-38—112 5 lakh bales, 1938-39—110 3 lakh bales, 1939-40—112 8 lakh bales, 1940-41—79 0 lakh bales, 1941-42—87 9 lakh bales. The village consumption of jute is estimated at 6 lakh bales.

Total exports of raw jute for 1941-42 season amounted to 2 74 lakh tons as compared with 2 41 lakh tons during the previous season, while exports of jute manufactures in 1941-42 aggregated 8 17 lakh tons as against 8 21 lakh tons in 1940-41 season. In 1941-42, India must have required about 21 lakh bales of raw jute of which 11 lakh bales of jute were consumed for war purposes.

PRESENT POSITION OF JUTE.

An analytical review of the present slump in the jute market will point to the fact that the scarcity of freight has restricted the free flow of even an essential war material such as jute goods. The shipping shortage became more perceptible during the later half of 1942 and, with the closing of the Calcutta Port temporarily for normal shipping during that period, a considerable handicaps was placed on the transport of jute goods to the United States. As a result, the consumption of hessian goods in U S A steadily declined. During 1942, U S A consumed only 422 million yards of hessians as compared to 713 million yards in 1941. In fact, the total consumption of hessians in U S A in 1942 was the lowest on record during the last decade and a half—even in the year 1932—the worst depression year—476 million yards of hessians were consumed. But one redeeming feature is the remarkable increase in stocks afloat and with the safe arrival of these goods in U S A, there will be a higher consumption of hessians in the coming months.

AGRICULTURAL RESOURCES IN INDIA

EXTENSIVE fertile tracts watered by a net-work of rivers and canals render India traditionally an agricultural country. Her frame as a producer of enormous stores of raw materials spreads to far off countries. Over and above this India possesses practical monopoly of production so far as certain commodities are concerned.

JUTE

The jute fibre for which India holds the monopoly, is cultivated and produced almost entirely in the Ganges Brahmaputra delta. The fibre, which is obtained from the hibiscus and is known as Deccan hemp or Bimlipatam jute, is, for statistical purposes, included under the term jute, and is produced in the Madras Presidency. Jute is generally sown from March to May and harvested from July to September.

The area under cultivation of jute and the estimated yield follow —

	1937	1938	1939	1940	1941	1937	1938	1939	1940	1941
	(Area in 1,000 acres)					(Yield in 1,000 bales)				
Bengal	2,203	2,521	2,550	50,02	1,589	7,072	5,755	8,321	11,631	4,329

COTTON.

India is one of the biggest cotton producing countries of the world, being second only to the United States of America. A striking feature connected with the cotton crop of India is the rapidity with which its

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE,"** Rs. 3. Industry, Calcutta.

284 INDUSTRY YEAR BOOK & DIRECTORY, 1943

area has extended Since the beginning of this century the area under cotton has increased considerably as a result of the world's increasing demand for it There has been remarkable extension of area under cotton through irrigation in Northern India as well as in the Central Provinces and there appears to be the promise of a much greater increase in the production of Indian cotton of good quality in the extreme South of the Peninsula

Acreage and Yield.

Cotton is grown all over India. The area under cotton and yield during the last few years are shown under each province —

Cotton in Foreign Countries.—The estimates of the cotton crop of the United States of America for 1942 are 13,818,000 bales of 500 lbs each (equivalent to 17,272,000 bales of 400 lbs each) as compared with 11,061,000 bales (equivalent to 13,826,000 bales of 400 lbs each) in 1940

The area and production of cotton crop in Egypt for 1943, are placed at 703,000 acres and 861,000 bales of 400 lbs each, showing a decrease of 57 and 50 per cent respectively, as compared with the preceding season. In the Anglo-Egyptian Sudan, the yield of cotton during the season 1942-43 is estimated at 320,000 bales of 400 lbs each, which is 10 per cent above that of the preceding season. In Uganda the cotton crop of 1941-42 (picked during the period November 1941 to March 1942) is estimated at 364,000 bales of 400 lbs each, as against 325,000 bales in 1940-41.

RICE

Rice is the greatest economic crop of India, the principal seats of cultivation being Bengal, Bihar, Orissa and Madras. Rice is also grown in fairly large quantities in Central Provinces, Assam, Bombay and the United Provinces. It is also grown in the Indian States such as Hyderabad, Mysore, Coorg and Baroda. Rice crop is greatly influenced by the monsoon, the failure of it having much adverse effect on the

Guide to DYEING & CLEANING—A handbook for amateurs and professionals. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

output The output of Burma is however constant, the failure of rains being practically unknown there.

The total areas under rice and the yields for respective provinces are shown as under.—

Estimated area under rice in 1941-42 is 73,165,000 acres having an estimated yield of 25,567,000 tons

Rice crop is known as autumn crop winter crop or summer crop according as the crop is harvested in autumn, winter or summer

India is the largest producer of rice in the world The output in 1941-42 amounted to 25.6 million tons as compared with 12.8 million tons in Burma 8.5 million tons in Japan 2.0 million tons in Korea 1.1 million tons in Formosa 1.7 million tons in Siam and 1.2 million tons in U S A during the same period.

The chief foreign purchasers of rice are Ceylon, China, Straits Settlements, Germany, U K, Netherlands and Sumatra

WHEAT.

One-tenth of the world's supply of wheat is produced in India It is grown extensively in the Punjab and the United Provinces and on a smaller scale in C P, Bombay, Bihar and Orissa and North-West India Indian States also grow enormous quantities of wheat, the most important of them being Central Indian States, Gwalior State, Punjab State, Rajputana State, Hyderabad State, etc

Guide to DYEING & STAINING—A handbook for amateurs and professionals. As 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

288 INDUSTRY YEAR BOOK & DIRECTORY, 1943

The total area reported in 1941-42, is 33,979,000 acres, as against 34,849,000 acres last year. The total yield of the crop, which has already been harvested, is estimated at 10,070,000 tons as compared with 10,027,000 tons last year. The acreage and yield in the most important wheat-bearing regions are given below for reference —

	Average of preceding 5 years			Average of preceding 5 years		
	1940 -41	1941 -42		1940 -41	1941 -42

The area and yield of the 1942 wheat crop in the United States of America are estimated at 39,318,000 acres and 630,913,000 bushels (or 16,899,000 tons), as compared with 45,663,000 acres and 671,293,000 bushels (or 17,981,000 tons) in 1941. In Canada, the area under the wheat crop during the current season is estimated at 21,055,000 acres, as against 28,726,000 acres in 1940. In Australia, the estimates for the 1941-42 wheat crop are 12,654,000 acres and 162 million bushels (or 43 million tons), as against 12,454,000 acres and 827 million bushels (or 22 million tons) in the preceding season. The third estimate of yield of the wheat crop of Argentina for 1941-42 is placed at 6,002,000 tons, as compared with 8,021,000 tons in 1940-41.

OIL SEEDS.

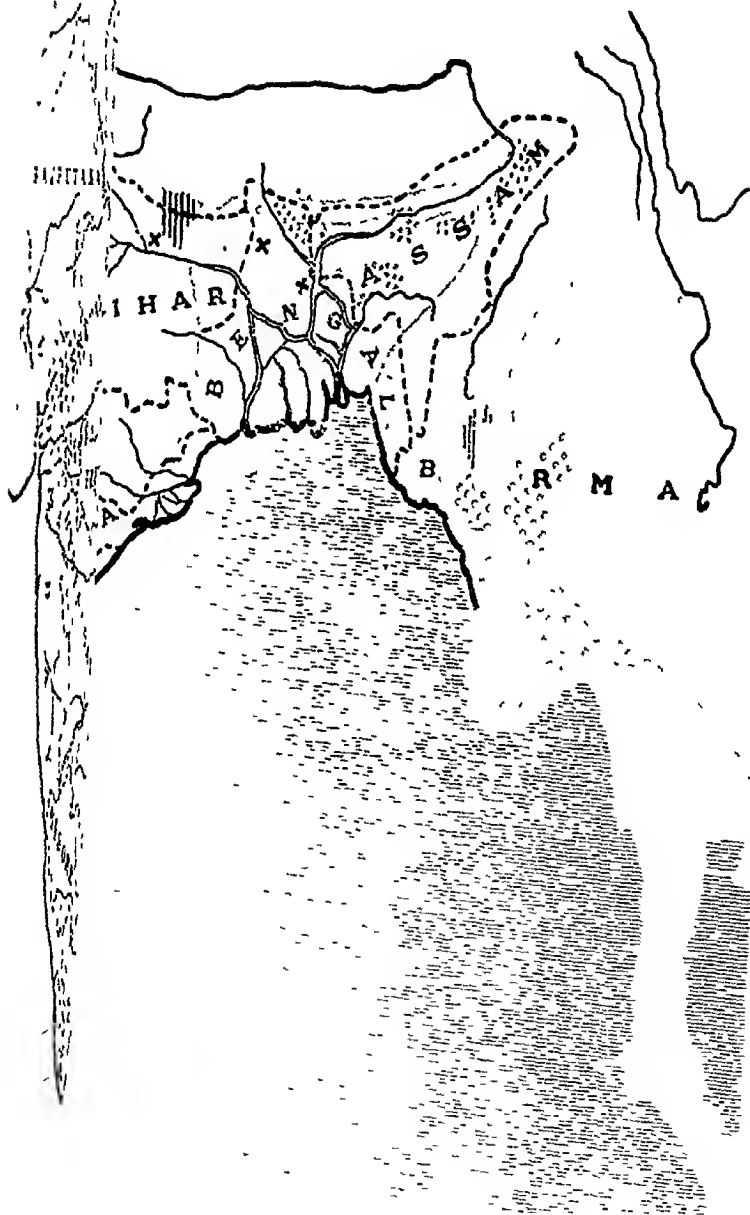

Indian production of oil seeds which comprise linseed, groundnut, cotton seed, castor, sesame, rape and mustard, mahua, copra, etc., on a conservative estimate exceeds 5 million tons annually. This, besides

AGRICULTURAL MAP OF INDIA

satisfying in full the local requirements for Indian industries and home consumption, leaves huge surplus for exports

The oil crushing industry is making considerable headway in the country but still there are enormous exports of seeds which are of much economic loss to the country in the shape of loss of oils and oil cakes possessing inestimable value as fertilisers and cattle food. The total exports of oilseeds consisting largely of groundnuts and linseed from British India declined by 17 per cent. in quantity and 16 per cent. in value and amounted to 703,000 tons valued at Rs. 9.99 lakhs in 1941-42 as compared with 849,000 tons valued at Rs. 11.94 lakhs in 1939-40. The exports further dwindled in 1941-42 due to the dislocation of the oilseed crushing industry of Europe.

The more important of the seeds are treated separately—

Castor Seed.

Castor seed is grown very widely all over the country. The principal provinces where the plant flourishes most are Hyderabad and Madras which cover between them 70 per cent. of the total area under cultivation. The crop is also raised in Central Provinces and Berar, Bihar and Orissa, United Provinces where it is grown as a mixed crop, Bombay, Mysore and Baroda. The seed is harvested from January to February and the late variety which is grown in September is harvested in March and April. The oil besides being used as a lubricant is now employed in the manufacture of Turkey-red oil required in the dyeing and printing of cotton goods, preservative of leather belting, and in leather industries.

The total area under castor seed during 1941-42 is reported to be 931,000 acres, as against 1,021,000 acres last year, or a decrease of 9 per cent. The total yield is estimated at 89,000 tons as against 105,000 tons last year, showing a decrease of 15 per cent.

Of the total crop, Madras was responsible for 18 per cent., Bombay 6.7 per cent., Bihar 2.3 per cent., Central Provinces & Berar 2.1 per cent., Orissa 1.5 per cent., Hyderabad 53.5 per cent., Mysore 7 per cent. and Baroda 6.9 per cent.

The area under the crop in various provinces follows.—

	Average of preceding 5 years			1940 -41	1941 -42	Average of preceding 5 years			1940 -41	1941 -42

1938-39	10,700		

GROUNDNUT.

The groundnut is the seed of the plant *Archis hypogola* of the natural order Leguminosae. The nuts owe their popularity to their nourishing dietary value and cheapness and are otherwise known as pea nuts, earth nuts, and monkey nuts. The groundnuts are now-a-days extensively cultivated all over the country and have assumed an economic importance of the first magnitude in some provinces. Groundnuts are gradually displacing other products as a raw material for the manufacture of margarine and edible oils. An improvement has been effected in the quality of groundnuts, exported from India, particularly as regards the reduction of fatty acid contents. Madras, Burma, Bombay and the State of Hyderabad comprise a little over 97 per cent. of the total area under groundnut in India. Considerable expansion is in view. In Madras, which carries over 50 per cent of the total reported acreage under the crop, varietal and cultural experiments are in progress on a special farm. The introduction of early varieties which do not require irrigation, has given groundnuts the position of being the most important kharif oil seed grown in the Bombay Presidency. Groundnuts have invaded the cotton tracts of the Central Province, where they are grown either in rotation with or in the place of cotton. The groundnut has become very popular on the poor soils of Chota Nagpur.

Groundnut is exported to a considerable scale and is one of India's valued cash crops. In 1940-41 the exports amounted to 339,000 tons, valued at Rs 4.06 lakhs as against 549,000 tons valued at Rs 7.19 lakhs in 1939-40, 835,103 tons valued at Rs 992½ lakhs in 1938-39 and 619,370 tons valued at Rs 893½ lakhs in 1937-38. Of the total exports in 1940-41, the United Kingdom took 214,000 tons, Netherlands 19,000 tons, and France 25,000 tons. These figures are exclusive of orders for cargo.

The chief ports of export are Madras and Bombay. Out of the total exports Madras was responsible for 83 per cent and Bombay for 17 per cent.

LINSEED.

Linseed is an important winter oil seed of India growing principally in the United Provinces, Bihar and Orissa and the Central Provinces.

Principles of construction of storage batteries and their care are dealt in **Manufacture of BATTERIES**. Re. 1/12. Industry Book Dept., Calcutta.

The other places where this oil seed is also cultivated are Bombay, Bengal, Punjab, Hyderabad and Kotah

It is the seed of the common flax or lint, botanically recognised as *Linum Usitatissimum*. This is a late crop, being sown from August to October and harvested from January to April

The season of sowing varies greatly for the two Presidencies and even for the districts of the same Presidency. Taking the general case, it appears that the crop is sown from May to August and is harvested from November to January. A summer variety is also grown in Madras forming 5 per cent of the total area under the crop. This variety is sown in February-March and harvested in July-August. It may be added that as a general rule Bombay crop comes in season in November and the Madras crop six weeks after on the average.

Linseed is grown outside India chiefly in U. S. A., Canada and Argentina. Linseed grown outside India is larger and plumper than that obtained in India but linseed of India yields the superior variety of oil.

The acreage and yield of linseed in the different provinces and States of India follow —

	Average of preceding 5 years	1940 -41	1941 -42	Average of preceding 5 years	1940 -41	1941 -42
	(Area in 1,000 acres)			(yield in 1,000 tons)

Bhopal	55	72	52	6	8	4
	3,722	3,619	3,340	437	434	361

Shipments of linseed from India were 318,000 tons in 1938-39, 219,000 tons in 1939-40, and 238,000 tons in 1940-41. The United Kingdom was the best customer and took 200,000 tons as against 172,000 tons in 1939-40. Of the total exports Bengal accounted for 39 per cent, Bombay 50 per cent, and Madras 11 per cent.

The oil obtained from the seeds, known as linseed oil, has met with extensive uses due to its drying properties in the manufacture of paints, printing ink, floor cloth, vulcanised rubber, oil varnish and soft soap.

Rape Seed and Mustard Seed.

Much confusion exists between the rape seed and mustard seed of commerce. Both of them belong to the genus *Brassica* but while rape seed denotes the species of *Brassica Capestris*, mustard seed denotes the species of *Brassica Juncea*.

The cultivation of rape seed is pre-eminently restricted to the northern part of India, there being, so to speak, only limited area under tillage in Southern India. The principal provinces where rape seed is grown are the United Provinces, Bengal, Punjab, Bihar and Orissa.

Principles of construction of storage batteries and their care are dealt in *Manufacture of BATTERIES*. Re 1/12. Industry Book Dept., Calcutta.

292 INDUSTRY YEAR BOOK & DIRECTORY, 1943

The crops are sown either in October or November and gathered in February and March and sometimes as early as January for the purpose of cattle fodder. The acreage under rape seed and yield are illustrated by the following figures —

	Average of			Average of		
	preceding 5 years	1940 -41	1941 -42	preceding 5 years	1940 -41	1941 -42

(c) 200 tons

(d) 500 tons

The total area under rape and mustard amounts to 6,208,000 acres, as compared with 6,218,000 acres last year. The total estimated yield is 1,109,000 tons, as against 1,103,000 tons last year or an increase of 6,000 tons.

The exports of rape and mustard seed during the three years ending 1940-41 amounted to 11,734 tons, 22,000 tons and 35,000 tons. The exports were valued at Rs 15½ lakhs in 1938-39, Rs 33 lakhs in 1939-40 and Rs 47 lakhs in 1940-41. Of the total quantity exported from India about 92 per cent is shipped from Karachi. During 1940-41, the United Kingdom took 23,000 tons or 66 per cent.

SESAMUM.

Sesamum is the seed of Sesamum Indicum, an annual herbaceous plant growing copiously in the tropical and sub-tropical parts. In India it is cultivated extensively all over the country and especially in Bombay, Burma, Madras and Central Provinces.

Sesamum is grown as a pure crop all over India and in certain localities such as U P as mixed crop. There are two crops, a rabi and a kharif one and various cultivated forms of the plant, some, specially suitable for growing in the kharif season, other as early as rabi crop. Two at least of these are easily recognised, one with white seed and the other with black. The latter is much the more common form and is reputed to yield a superior oil.

Area under crop and yield during the last few years follow —

TOTAL	4,221	4,097	4,097	428	433	415
	(a) 400 tons			(b) 300 tons		

A large portion of the seed is used for local consumption. Exports of sesamum were 10,126 tons in 1937-38, 7,650 tons in 1938-39, 3,502 tons in 1939-40, and 3,875 tons in 1940-41. The exports were valued at Rs 19½ lakhs in 1937-38, Rs 15 lakhs in 1938-39, Rs 7 lakhs each in 1939-40 and 1940-41.

TOBACCO.

Tobacco is one of the most valuable crops grown in India, about 39 per cent of the total quantity of tobacco produced in the world being grown in this country. The estimated area under tobacco in 1938-39 amounted to 13 million acres approximately. There has been a steady increase in area during the past quinquennium with a 30 per cent. increase on the pre-war average. The tobacco-growing provinces in India are named in order of their importance in acreage.—Madras (320,000), Bengal (316,000), Bombay (155,000), Bihar (104,000), United Provinces (98,000), Punjab (83,000), Hyderabad (58,000), Mysore (25,000), Assam (14,000), Central Provinces (11,000), Sind (5,000), etc., the figures within the brackets standing for the area under tillage during the period 1938-39.

TEA.

The chief tea growing provinces in India are Assam and Bengal which claim between themselves 80 per cent of tea output in India. Tea is also planted in the south in and around the Nilgiris. The number of plantations in the whole of India is above 6,300 with 833,000 acres under tea.

The total production of tea in India in the sessions ending 1941-42 follows —

	1936-37	1937-38	1938-39	1939-40	1940-41	1941-42
	(in million lbs)					
Northern India	331	359	378	375	385	417
of which Assam	223	242	261	253	260	—
Southern India	64	71	75	78	79	84
TOTAL	395	430	452	453	464	501

Methods of Imports and Exports are discussed in full in **TRADER'S MANUAL** Re 1/4. Industry Book Dept, Shambazar, Calcutta.

294 INDUSTRY YEAR BOOK & DIRECTORY, 1943

The output of tea during 1942-43 is estimated to reach a record figure of 555 million lbs of which the Northern gardens themselves might produce on a conservative estimate 470 million lbs

The total area under tea in India in the last few years follows —

	1936	1937	1938	1939	1940
			(in 1,000 acres)		
Assam	439	440	439	438	439
Rest of Northern India	234	232	232	232	232
Southern India	161	162	163	162	162
TOTAL	834	834	834	832	833

Exports fell in quantity from 359 million lbs in 1939-40 to 349 million lbs in 1940-41 or by 3 per cent, but the value increased from Rs 26,31 lakhs to Rs 27,75 lakhs or by 5 per cent. The total quantity exported in 1940-41 represented 75 per cent of the total production as compared with 79 per cent in the preceding year.

Of the total exports of 349 million lbs, the United Kingdom took 315 million lbs or 90 per cent. Shipments to Canada and the United States of America amounted to 14.5 million lbs and 9.3 million lbs.

The share of Calcutta in the total exports of tea in 1940-41 was 61 per cent and of Chittagong 24 per cent., the remainder being shipped mostly from Madras.

The average price per lb realised for tea sold with export rights improved to 13 as—6 p from 11 as—5 p in the preceding season while that for internal consumption declined from 4 as—4p to 4 as—1p.

In sympathy with the prevailing price movements in India at present, there has been a considerable rise in the prices of teas for internal consumption. During the present season and the last the demand for and the price of out market teas might be taken off the internal market for export and a new system has been easily introduced.

Under the block purchase system newly introduced India will not export during 1942-43 to the full extent of its available tea export quota, which is about 489 million lbs, but only its exportable surplus. According to a Press Note issued by the Central Government India will be allowed to export 421.5 million lbs, under the new scheme, both to the United Kingdom and out markets. This leaves a crop of 134 million lbs for internal consumption in the country which normally stands at 110 million lbs, but it is doubtful whether this will be enough in view of the increase which has been taking place in the Indian demand for tea.

COFFEE.

The number of coffee plantations in India in 1940-41 was 6,833, covering a total area of 334,727 acres, as against 6,796 plantations with an area of 338,845 acres reported in 1939-40. The area actually under coffee in these plantations in the year under review was 182,057 acres, as compared with 183,941 acres in the preceding year. New land planted with coffee during the year amounted to 3,326 acres, while the area under old cultivation abandoned was 5,216 acres. Of the total area under coffee during 1940-41, Mysore accounted for 52 per cent., Madras 26 per cent., Coorg 20 per cent. and Orissa, Travancore and Cochin together 2 per cent.

The total reported production of cured coffee during the year under review was 31,044,000 lbs, as compared with 34,821,717 lbs in the preceding year—the yield per acre of plucked area being 238 lbs (234 lbs) in Madras, 251 lbs (224 lbs) in Cochin, 140 lbs (214 lbs)

TRADE TERMS & ABBREVIATIONS : Unique collection alphabetically arranged. As, 6. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

in Coorg, 184 lbs (190 lbs) in Mysore, and 74 lbs (295 lbs) in Travancore. The figures for 1939-40 are shown in brackets.

The principal customers of Indian coffee were, in order of their importance in 1940-41, France, Iraq, Bahrain Islands, Arabia and Palestine. The exports during the coffee season (i.e., July to June) were only 52,324 cwts in 1940-41, as compared with 118,862 cwts in 1939-40.

Exports of coffee during 1940-41 suffered a heavy decline, mainly due to the spread of war in the European Continent. Even the U. K., which imported 73,789 cwts in 1938-39 and 46,224 cwts in 1939-40, curtailed its offtake only to a mere 2,719 cwts, presumably due to restrictions placed by it on the import of luxury goods. On account of the heavy decline in export, coffee control was ushered in during the year when the Government of India issued the coffee Market Expansion Ordinance which aimed at securing a fair price to the grower by regulating the internal and export markets for the industry.

RUBBER.

According to the Indian rubber statistics for 1940 recently issued by the Department of Commercial Intelligence and Statistics, the number of reporting plantations during the year under review was 14,624 covering an area of 223,353 acres as against 14,080 with an area of 220,178 (revised) acres in the preceding year.

The total production of raw rubber during the year is reported to be 35,530,399 lbs (Hevea 35,499,627 lbs, Ceara 2,840 lbs and Ficus elastica 27,932 lbs) as against 31,390,663 lbs. a year ago. The yield per acre of tapped area was 330 lbs in Cochin, 294 lbs in Travancore, 293 lbs in Madras, 254 lbs in Coorg, and 76 lbs in Mysore.

Exports of rubber by sea from India to foreign countries during 1940-41, amounted to 20.3 million lbs, as compared with 23.3 million lbs in the preceding year. Of this, the United Kingdom absorbed 67 per cent, the U. S. A. 15 per cent, and Ceylon 17 per cent.

The area of old cultivation abandoned during the year amounted to 157 acres, while the new extensions (including replanting in areas abandoned in previous years) are reported to have been 4,068 acres. The area actually under rubber in these estates amounted to 138,207 acres, showing an increase of 3,911 acres on the area (revised) reported in the previous year, and of this area 120,100 acres were tapped. Of the total area under cultivation, 16 per cent was in Travancore, 11 per cent in Madras, 10 per cent in Cochin, 2 per cent in Coorg and 1 per cent in Mysore.

The daily average number of persons employed in the plantations during 1940 was returned at 31,247 of which 21,889 were permanently employed and 9,358 temporarily employed, as compared with 32,947 (23,291 permanent and 9,656 temporary) in the preceding year.

COCONUT PLANTATIONS.

In India, the main coconut area is in the south Madras, Travancore and Mysore having the bulk of it. In certain coastal districts of Bombay, Orissa and Bengal the coconut is also important. The total area in India is about 1,388,000 acres.

INDIAN SUGAR INDUSTRY

THE remarkable development that has taken place in the sugar industry is too recent to have escaped anybody's notice. 20 years ago India imported large quantities of sugar from Java and the number of sugar factories operating in North India could have been counted on one's fingers' ends, but to-day there are over 161 sugar factories working in India. In season 1931-32 there were only 31 factories in operation producing 158,581 tons of sugar whereas in 1941-42 the number of factories rose to 150 and the production was estimated at 8 lakhs tons.

DEVELOPMENT OF THE INDUSTRY.

The customs tariff on sugar has contributed considerably to this result. In fact the effect of the protective duty has been nowhere more salutary than in the case of sugar industry. As a result of the recommendations made by the Indian Tariff Board, the Sugar Industry (Protection) Act of 1932 was passed in April, 1933. Thereby the industry was accorded protection for a period of seven years ending 31st March, 1938. It was also agreed upon to grant further protection for eight years if the industry still needed support and for this purpose a fresh enquiry was to be made before 1938. The rate of import duty on sugar of all classes was fixed at Rs 7-4 per cwt or Rs 5-5-3 per maund. In addition to this there was also a surcharge of Re 1-13 per cwt or Re 1-5-3 per md of imported sugar. The total protection thus came to Rs 9-1 per cwt or Rs 6-10-6 per maund. The sugar industry in India thus enjoyed protection to the unprecedented extent of approximately 200 per cent.

Consequent on the high degree of protection afforded to the industry, a great deal of public interest was concentrated since 1932 on the setting up of factories for the manufacture of sugar in different parts of India, notably in the United Provinces and Bihar. There was an immediate response from investors with an influx of capital into the domestic sugar industry. A moderate estimate of the capital invested in the 127 factories built since 1932 appears to exceed 15 crores and the total capital sunk in the industry including the pre-protection factories will be in the neighbourhood of 20 crores.

The newly established factories soon began work and the output of sugar went up immensely. While in 1932-33 the production of sugar was 290,000 tons, this rose to 1,242,000 tons in 1939-40. The imports in the meantime also went down. While these amounted to 893,404 tons in 1930-31, these declined to 35,679 tons in 1938-39. But before the industry could stand on its legs, it was burdened with an increasing rate of excise duty since April, 1934. This was fixed at 10 annas on Khandasari sugar and Re 1-5 per cwt on all other sugar except palm-yie sugar in 1934. In 1937 it was further enhanced to Rs 2/-. The excise duty on white sugar was further enhanced from Rs 2 to Rs 3 per cwt with effect from the 1st March, 1940. Simultaneously the rate of import duty was raised from Rs 8-12 to Rs 9-12 per cwt.

Start a New Industry ' Read MANUFACTURE OF RUBBER GOODS.
Price Re 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta

In consequence of the excise duty imposed, the putting up of new cane factories has almost come to a stop. The production of sugar by Gur refineries and Khandasaries has also shown a marked reduction.

The sugar industry in the United Provinces and Bihar passed through a major crisis in 1940. Burdened with a heavy accumulation of surplus stocks, and with demand reduced to a negligible amount, the plight of the industry was an unhappy one. The Provincial Governments, however, assumed a closer control over the production and marketing of sugar towards the end of 1940, and thus turned the tide in the industry's favour. The announcement of the Government's intention compulsorily to restrict production in season 1940-41, coupled with drastic reduction in selling rates by the Indian Sugar Syndicate, brought about a marked improvement in demand. As a result, sales of sugar (which had been practically nil for some months previously), were resumed by factories on a more or less normal scale.

TARIFF BOARD REPORT.

As originally contemplated a fresh Tariff Enquiry was made to investigate whether the protection granted should be continued after 31st March, 1938. The Tariff Board recommended continuance of protection at the existing rate of Rs 7-4-0 per cwt till the 31st of March, 1946. The Government, however, was unable to accept the Board's recommendation. It was decided that protection should be at the reduced rate of Rs 6-12-0 per cwt for the 2 years, e.g., 1st April 1939 to 31st March, 1941. The rate of protection for the remaining period would be determined after a further enquiry. The Board also recommended the convening of an all India Conference to work out a scheme for rationalizing the sugar industry, under some form of State control. But due to unsettled conditions as a result of the war it has been decided to postpone the holding of such a Conference for the present.

The Tariff Board stressed the need for finding improved outlets for the molasses produced by sugar factories in India. It recommended that permission should be accorded for the manufacture of power alcohol from molasses. The subject was investigated in detail by a Joint Power Alcohol Committee appointed by the Governments of the U.P. and Bihar. The Committee was to advise the two governments on the manufacture of Power Alcohol from molasses and on the use of petrol and power alcohol mixture as a motor fuel. The Committee found that Power Alcohol could be manufactured from molasses at a reasonable cost and that the mixture of power alcohol and petrol would be suitable for use in motor vehicles. The Committee recommended legislation to establish a power alcohol industry under Government control, and for the compulsory admixture with power alcohol of all petrol intended for use as fuel in motor vehicles. The Government of the U.P. accepted the recommendations of the Committee, and a bill to provide for the compulsory admixture of power alcohol with petrol has been passed by both the houses of legislature.

AREA UNDER SUGAR CANE.

India has now got the second largest area under cane cultivation as compared to any other country of the world. It is at present about 35 million acres, which is equal to one quarter of the total acreage of sugar cane of the world. The area sown was 4,598,000 acres in 1940-41 which is the peak year of production.

Out of total production of sugarcane seventy-six per cent. of the produce comes from a broad strip of the Indo-Gangetic plain, lying

Start a New Industry! Read MANUFACTURE OF RUBBER GOODS.
Price Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

298 INDUSTRY YEAR BOOK & DIRECTORY, 1943

alongside the Himalayas and stretching from Gudaspur (Punjab) on the west to Darbhanga (Bihar) on the East. The principal sugar area lies in the United Provinces as well as that portion of Bihar, lying north of the Ganges. Sugarcane is a crop that depends considerably on irrigation. Instead of thriving in the submontane southern peninsula of India, where irrigation is naturally difficult, the crop has found congenial soil in the north which presents a net work of irrigational works.

The following table shows the area under sugar cane in the principal sugar cane bearing tracts of India —

	1937-38	1938-39	1939-40	1940-41	1941-42
	(areas in 1,000 acres)				
U P	2,222	1,652	1,909	2,555	1,745

Orissa	34	32	33	35	32
Mysore	50	45	49	53	46
Hyderabad	30	29	36	45	41
TOTAL	3,869	3,130	3,641	4,598	3,466

Out of the total area under sugar cane in the United Provinces 2,893,000 acres are under improved crops. These improved varieties originally bred at Coimbatore have shown their unmistakable superiority over the indigenous types and their cultivation is rapidly increasing. This is a move in the right direction which is bound to increase the output of sugar in India.

OUTPUT OF GUR.

The total yield of gur or raw sugar from the sugarcane grown in India is given by the following table —

	1937-38	1938-39	1939-40	1940-41	1941-42
	(areas in 1,000 maunds)				
U P	3,194	1,454	2,176	2,878	1,542

duction of gur during 1941-42 is 3,957,000 maunds which shows a decrease of 32 per cent.

PROVINCIAL DISTRIBUTION OF FACTORIES.

150 cane factories, out of a total of 161 factories existing in India, worked during the season 1941-42 10 factories did not operate during the season and one has been excluded from this review since it is a small experimental plant for training students. Four new factories worked during the season, one each in the U. P., Madras, Kapurthala State (Punjab) and N W Frontier Province.

The following table shows the provincial distribution of factories working with cane during the last six seasons —

	1935	1936	1937	1938	1939	1940	1941
	-36	-37	-38	-39	-40	-41	-42

TOTAL	135	137	136	139	145	148	150

OUTPUT OF SUGAR FROM CANE.

The production of sugar direct from cane in modern factories in India during the season 1939-40 was the highest production ever attained by the cane sugar industry in India. It exceeds the previous record of 11.1 lakhs tons in 1936-37 by nearly 12 per cent and the productions in 1937-38 and 1938-39 by 33 per cent and 91 per cent respectively. The actual production of sugar direct from cane was 1,241,700 tons as against 650,800 tons in 1938-39, 930,700 tons in 1937-38 and 1,111,400 tons in 1936-37.

The production in the season 1940-41, however, had a serious setback and stood at 1,095,400 tons which marks a drop of 1,46,000 tons or nearly 12 per cent from the production in 1939-40. The production has fallen by 22.6 per cent in the United Provinces and Bihar. The output of sugar in the rest of India increased from 2.60 lakhs tons in 1939-40 to 3.36 lakhs tons in 1940-41. Provinces other than the United Provinces and Bihar have produced 3.36 lakhs tons in 1940-41 as against 2.60 lakhs tons in 1939-40, the increase in production amounting to almost 30 per cent.

The tables below show details of sugar production for factories in (a) the United Provinces, (b) Bihar; (c) Bombay, Madras, and the Punjab, (d) Bengal and Assam, Indian States and Burma; and (e) India as a whole

Recovery of sugar p c cane	9 29	9 45	9 70	9 69
Recovery of molasses p c cane	3 46	3 69	3 76	3 65

It will be observed from the above table that the quantities of cane crushed and sugar and molasses manufactured in India during 1941-42, were considerably lower than those in 1939-40 when production was the highest

The production of sugar refined from gu and of khandasari sugar amounted to 48,500 tons and 25,000 tons, respectively

The production of sugar directly from cane in India totalled 778,000 tons in the season 1941-42, as against 1,095,400 tons in 1940-41, and 1,241,700 tons in 1939-40 The production in 1941-42 is 29 per cent below the production of 1940-41, and 37 per cent below the production in 1939-40 The production was less than in either of the two previous seasons in all provinces except Bombay The causes of the short pro

If you want to market Crops, learn preliminary process from PREPARING CROPS FOR THE MARKETS Re. 1/12. Industry Book Dept, Cal

duction were a general failure of the cane crop all over the country and in the case of the United Provinces and Bihar the restriction of production by the Provincial Governments

The production of Sugar refined from gur and of Khandsari Sugar amounted to 48,500 tons and 125,000 tons respectively

QUALITY OF SUGAR PRODUCED.

Samples of sugar manufactured by central sugar factories and refineries during the season 1941-42 and received in the Bureau of Sugar Standards were as follows.---

Serial No	Commercial Designations	No of Samples received	Percentages of Samples in			
			1938-39	1939-40	1940-41	1941-42
1	Special Crystals	15	6 50	11.25	2.46	3 46
2	First Crystals	350	60 60	65 83	86 88	80 84
3	Second Crystals	34	20 35	12.08	6 56	7 85
4	Crushed Grades	34	12 99	10 84	4.10	7 85
TOTAL		433	100 00	100 00	100 00	100 00

There is an all-round increase in the number of samples received this year from the different parts of India. Whereas the increase compared with last year in the number of factories sending samples is only 14, the actual number of samples received this year (433) is very much larger being almost double that of last year (244).

The number of commercial designations in use in factories is very much larger than reported in previous reviews. This may be partly due to the very much larger number of samples received this year.

26 B was the most common quality amongst special crystals. The largest number of samples were of the quality D 26 and a majority of the First Crystals were in the range given by I S S No 25 to I S S No 27 in colour, and I S S No C to F in grain size.

The majority of last year's "First Crystals" were of Grade E 26. There is some improvement in the size of grain this year. It may also be noted that as many as 9 samples had colour corresponding to the highest colour standard No 28 which shows that there is an increasing tendency for manufacturing superior class of sugars in India.

The Second Crystals include samples ranging in colour from I S S No NB 23 to I S S No 19 and in grain size from I S S No A to G. The majority of the Second Crystals were of colour 23 and 22, and of grain size F and E.

The majority of samples received this year also had colour ranging between I S S Nos 25 and 26 and grain size ranging between I S S Nos D and E, but in matter of grain size the percentage of samples this year is higher for bolder grain sizes and some contained twins and conglomerates.

The tendency for producing a number of different grades is on the increase but a closer scrutiny would show that as in the previous year, the general tendency was to produce up to four grades at the maximum two and three grades being most common this year as against one and two grades last year.

A few samples of Indian-made refined and fancy sugars were also received. The grading according to I S S Numbers of 5 samples of refined sugar showed that their colour was equal to or above I S S No 28 and grain size mostly G. The following samples of Indian fancy sugars were also received.---

| 1 Castor Sugar | 4 Demeiara Sugar |
| 2 Cube Sugar | 5 Cone Sugar |
| 3 Iceing Sugar | 6 Coffee Crystal |

Manufacture of refined and fancy sugars in India marks a new feature in the sugar industry of this country and it is satisfactory to note that these compare favourable in quality with those of foreign brands

The salient features of the quality of sugar produced by Indian factories, have not altered materially, excepting for a slight improvement in the grain size. The season under review was a short one and factories had ample time for giving more attention to quality and efficiency. A more marked improvement was to be expected ordinarily under these circumstances. The Imperial Institute of Sugar Technology has been drawing the attention of manufacturers, for several years, to the importance of standardising their production and confining it to a small number of well-defined grades, as this would simplify price fixation, make sales easier and reduce the number of disputes about quality of sugar. Hardly any improvement is, however, noticeable in this direction so far. It is for consideration if such improvement can be accelerated by the adoption of some scheme of price fixation which would give no price advantage in respect of small differences in quality but provide substantial price differential between a limited number of quality groups only.

RECOVERY OF SUGAR.

An analysis of the average percentage recovery of sugar from cane factories in different provinces during the season 1941-42, shows that the highest recovery for the season was 12.45 per cent as against 11.16 per cent during the preceding season. The average extraction for the whole country was almost the same as that of the preceding year. The recovery in Bihar has increased by 0.49 per cent while the recovery in provinces other than United Provinces and Bihar slightly decreased.

The high recovery in Bihar is due to the extreme shortness of the season and the introduction of certain improved varieties of cane. In a very large number of cases, crushing was limited to the months of January and February when the cane available is in a fully ripe state.

A review of the average percentage recovery of sugar from cane during the last seven seasons is given below —

	Recovery of Sugar per cent (cane)						
	1935-36	1936-37	1937-38	1938-39	1939-40	1940-41	1941-42
United Provinces	9.60	9.65	9.18	9.14	9.37	9.87	9.87

WORKING DAYS AND CANE CRUSHING SEASON

The season 1941-42 was of normal duration. The majority commenced crushing towards the middle of December, 1941, and having finished their quotas, had to close down by the end of May, 1942. Crushing thus took place mainly during the months of January, February, March and April when cane was obtainable at the state of highest maturity. As a result many factories were able to obtain record recoveries, the average figure for the whole tract (United Provinces and Bihar), being as high as 11.22 per cent.

The average number of working days for the whole of India during the season is 85 as against 113 in 1941-42. The average number of working days in the Provinces other than the United Provinces and Bihar is 117 as against 114 in 1940-41.

The average number of working days in the United Provinces was 78 as against 100 in 1940-41, 133 in 1939-40 and 77 in 1938-39. That for Bihar was 54 days as against 100 days in 1940-41 and 136 in 1939-40.

The average quantity of cane crushed by factories declined considerably from 76,300 tons in 1940-41 to 53,500 tons during 1941-42. The average daily cane crushing capacity was 640 tons in 1941-42 as against 690 tons 1940-41, 710 tons in 1939-40, 630 tons in 1938-39 and 660 tons in 1937-38.

The maximum quantity of cane actually crushed for all India was 330,000 tons in 1941-42 as against 303,900 tons in 1940-41 and 296,600 tons in 1939-40.

PRODUCTION OF SUGAR REFINED FROM GUR.

14 factories refined gur during the calendar year 1941 as compared with 27 in 1932-33. Out of these 7 are pure refineries and 7 are cane sugar factories refining gur in the off-season. The table below shows the provincial distribution of factories refining gur —

Provinces	1939	1940	1941
United Provinces	2	4	6
Bihar	1	1	—
Bengal	—	—	1
Madras	6	5	6
Indian States	1	1	1
TOTAL	10	11	14

You like to prepare chocolate, lozenges, drops, etc. Read MANUFACTURE OF CONFECTIONERY. Industry Book Dept., Shambazar, Cal.

The total production of sugar refined from gur in India during the season 1941 amounted to 48,500 tons as against 29,600 tons in 1940, 14,200 tons in 1939, 16,600 tons in 1938, 19,500 tons in 1937 and 50,067 tons during the season 1936. The increase took place mainly in the United Provinces. Of the total increase of 18,900 tons 15,900 tons were in the United Provinces and 3,000 tons in the rest of India.

The output of gur sugar had been steadily on the decline since 1933, dropping to the lowest recorded figure of 14,200 tons in 1939. This movement now appears to have been arrested. Since then due to the shortage of sugar available for consumption, manufacture of sugar from this source showed remarkable increase, the production being 64 per cent higher than that of the previous year.

The tables below show the details of gur melted, sugar manufactured and molasses obtained in the United Provinces, Bihar & Madras and in the whole of India separately during four years ending 1941:—

United Provinces

	1938	1939	1940	1941
Gur melted (tons)	14,500	4,400	28,200	59,900
Sugar manufactured (tons)	8,900	2,600	16,000	31,900
Molasses obtained (tons)	4,800	1,500	10,200	24,700
Recovery of sugar per 100 tons gur (tons)	61.40	59.09	56.73	53.30
Recovery of molasses per 100 tons gur (tons)	33.10	34.08	36.17	41.20

Bengal, Madras and Indian States.

	1938	1939	1940	1941
Gur melted (tons)	12,200	18,900	22,600	27,400
Sugar manufactured (tons)	7,700	11,600	13,600	16,600
Molasses obtained (tons)	4,000	4,900	5,600	7,300
Recovery of sugar per 100 tons gur (tons)	63.10	61.37	60.17	60.60
Recovery of molasses per 100 tons gur (tons)	33.80	25.92	24.77	26.60

†Excludes output of Indian States

Total Production of Sugar and Molasses in India.

	1938	1939	1940	1941
Gur melted (tons)	26,700	23,300	50,800	87,300
Sugar manufactured (tons)	16,600	14,200	29,600	48,500
Molasses obtained (tons)	8,800	6,400	15,800	32,000
Recovery of sugar per 100 tons gur (tons)	62.17	60.94	58.26	55.60
Recovery of molasses per 100 tons gur (tons)	32.95	27.46	31.10	36.70

The table given below shows the production of sugar by refining gur during the last fourteen seasons —

Year	Tons	Year.	Tons.
1927-28	52,055	1934-35	39,103
1928-29	31,083	1935-36	50,067
1929-30	21,150	1936-37	19,500
1930-31	31,791	1937-38	16,600
1931-32	69,539	1938-39	14,200
1932-33	80,106	1939-40	29,600
1933-34	61,094	1940-41	48,500

RECOVERY OF SUGAR FROM GUR.

An analysis of the average recovery percentage of sugar from gur for factories in different Provinces during the season 1941 as compared with 1940 given below —

	1940	1941	1940	1941	1940	1941
	United Provinces		Other Provinces		All-India	
Maximum	58.97	55.50	63.50	66.20	63.50	66.20
Minimum	52.44	46.50	55.18	41.50	52.44	41.50
Average	56.73	53.30	60.17	60.60	58.28	55.60

The highest recovery recorded for the season was 66.20 per cent as against 63.50 per cent during the preceding year.

Recoveries of sugar from gur during the five seasons ending in 1941 follow —

	1937	1938	1939	1940	1941
United Provinces	61.26	61.40	59.09	56.73	53.30
All other Provinces	60.47	63.10	61.37	60.17	60.60
All India	60.94	62.17	60.94	58.26	55.60

The recovery per cent of sugar from gur thus records a decrease of 3.5 per cent in the United Provinces, and 2.7 per cent in India as a whole and a small increase of 0.47 per cent in the case of rest of India.

IMPORTS AND EXPORTS.

The imports of sugar during the year 1940-41 dropped sharply from 255,000 tons to 19,087 tons. The following figures explain the position. —

	1937-38	1938-39	1939-40	1940-41
		(in 1,000 lbs)		
16 D S & Above	14	33	252	19
Others	—	1	1	1
Molasses	—	2	2	—
TOTAL	14	36	255	20

Value of imports (in lakhs of Rs)	19	46	332	36
--------------------------------------	----	----	-----	----

The value of retained imports, that is, imports minus re-exports, in 1940-41 was the lowest, which indicates that very little imported sugar was consumed during the year under review. From Rs 45,47,410 in 1938-39, the value of retained sugar imports in 1939-40 rose to Rs 2,76,12,265, but, in the year 1940-41, this improvement received a serious setback, the value being no more than Rs 19,90,569. The actual decline in consumption of foreign sugar must have been greater than that suggested by the disparity noted above, for the declared value per unit of sugar in 1940-41 was considerably higher than in either 1939-40 or 1938-39.

Although India is still not among the countries which have been permitted an export quota under the International Sugar Agreement, exports in 1940-41 were fairly maintained. These amounted to 14,000 tons in 1940-41 as against 17,000 tons in 1939-40. Exports of sugar from India had fallen from a total value of Rs 24,17,620 in 1938-39 to Rs 7,95,718 in 1939-40. In 1940-41, however, they rose again in value to Rs 27,19,964.

CATTLE BREEDING & DAIRYING: A Handbook on keeping cows.
As. S. Industry Book Dept., Shambazar, Calcutta.

MINERAL RESOURCES OF INDIA

THE total value of ores, minerals, and metals produced in India during 1938 is estimated by the Geological Survey of India at about Rs. 34,13,95,000 or £25,477,000 (with the £ at Rs. 13.4) as against Rs. 30,49,43,000 or £22,928,000 (with the £ at Rs. 13.3) in 1937 representing an increase of nearly 12 per cent.

COAL

Coal tops the list as the most important mineral of India. As producer of coal in the British Commonwealth, India comes second to the United Kingdom and ranks ninth in the world. The output of coal in the various Provinces in British India during 1935 to 1939 follows —

	1935	1936	1937	1938	1939
	(in tons)				
Assam	218,830	201,693	242,560	267,364	284,541
Baluchistan	4,946	3,451	10,624	14,388	16,213
Bengal	6,682,752	6,667,841	6,527,820	7,745,372	7,591,495
Bihar	12,409,497	12,015,205	13,836,717	15,364,079	14,786,892
Central Provinces	1,526,690	1,507,982	1,504,519	1,658,626	1,742,831
Orissa	27,331	31,061	47,127	44,425	58,687
Punjab	144,423	156,849	166,632	184,028	194,080
TOTAL	21,014,649	20,583,982	22,336,729	25,278,282	24,674,247

The output in the principal coalfields was as follows —

Coalfield	1937	1938	1939
	Tons	Tons	Tons
Jharia	9,601,230	11,144,462	10,529,159
Raniganj	7,196,324	8,650,920	8,542,506
Bokaro	2,309,170	2,007,016	1,983,564
Giridih	674,794	636,371	695,874
Kaianpura	534,328	625,914	566,885
Pench Valley	1,234,238	1,369,208	1,415,562
Assam	243,650	267,300	274,528

The total production of coal in 1939 amounted to 27,768,761 tons, that is 574,145 tons or 2 per cent less than the production in 1938. The former figure is exclusive of about 694,000 tons estimated to have been taken out by the miners for their own use.

The total raising of coal in British India in the official year 1940-41 was the highest recorded at 25,815,000 tons. The railway collieries produced in 1941-42, 3,236,509 tons of coal.

GYPSUM.

Gypsum is the bedded variety of the mineral which in its crystalline form is known as selenite and when massive as alabaster. When calcined it is the wellknown "Plaster of Paris."

It is a mineral characteristic of arid conditions, deposited in lagoons and salt lakes, and in India is widely developed in immense quantities, in the cretaceous beds of Trichinopoly district, Madras, the Eocene of Baluchistan, Punjab, and the North-West Frontier Province.

For full process of manufacture of phenyle read DISINFECTANTS & ANTISEPTICS. Re. 1/12. Industry Book Dept., Calcutta.

and associated with the Salt Marl in the Salt Range; sub-recent deposits are those of Nagpur in Jodhpur and Jamsar in Bikaner.

The production of India has reached 70,000 tons, chiefly from Jhelum district, Punjab, Bikaner and Jodhpur States, and Trichinopoly district, Madras.

Gypsum is extensively used in cements and plasters, as paints and fillers, and as a "top-dressing" in agriculture.

ILMENITE, MONAZITE AND ZIRCON.

These minerals are found (with rutile, garnet, &c) in the beach sands of Travancore for about a hundred miles along the coast on each side of Cape Comorin, in the extreme south of India. They are recovered by washing and magnetic separation. In 1928 the output of ilmenite attained 252,220 tons and of zircon 1,450 tons and monazite 5,221 tons.

Ilmenite is the source of titanium, a valuable white paint and used in certain alloys, zircon yields zirconia, a high grade refractory, and also an alloy material, monazite is now a by-product in the much larger production of ilmenite, due to the discovery of uses for the Cerium in monazite, in such compounds as the spark-producing elements in pocket lighters, the tips of tracer bullets, and in searchlights and ultra-violet lamps. India is now the world's main source of these minerals.

KYANITE AND SILLIMANITE.

Kyanite and sillimanite (and andalusite) are silicates of alumina, all of which, when heated sufficiently highly change to "mullite."

Mullite is a valuable refractory material for the construction of furnaces, especially for glass manufacture and in electrical work.

Nearly all the Indian kyanite at present on the market is quarried at Lapsa Buru, Kharsawan State, Bihar, and the average production for the last three years (1936-37-38) has been approximately 27,000 tons.

Sillimanite-corundum deposits are known in Nongstoin State in Assam, and at Pipia in Rewa, but transport difficulties have been against production, there has also been a small output of sillimanite from Travancore.

MAGNESITE.

Magnesite production commenced in India in 1902, from the "Chalk hills" in the Salem district, Madras, where the quantity of the mineral is practically inexhaustible, it occurs in a network of veins over an area of 4½ square miles, standing up to a height of 140 feet in hillocks, from which it is quarried.

The Indian production is about 26,000 tons annually, of which roughly 2,500 tons is from Mysore and the remainder from Salem.

MANGANESE ORE.

The principal areas in which manganese ore is mined are the Balaghat, Nagpur and Bhandara districts in the Central Provinces, Sandur State and Vizagapatam in Madras, the Panch Mahals district in Bombay, Singhbhum district in Bihar and the adjoining States of Keonjhar and Bonai.

The ores are mixtures of psilomelane, braunite, and pyrolusite, and tend to form hills, so that quarrying is easily and cheaply carried out by gangs of unskilled labour. Many of the ore-bodies are of great size. The main disability under which the industry labours is the distance of the larger deposits from the nearest seaports.

For full process of manufacture of phenyle read **DISINFECTANTS & ANTISEPTICS**, Re. 1/12. Industry Book Dept., Calcutta.

IRON.

It is true that throughout the Peninsula, which is so largely occupied by ancient crystalline rocks, quartz-haematite and quartz-magnetite schists are very common, but most of these occurrences consist of quartz and iron-ore so closely interbanded that only a highly siliceous ore of low grade (up to 40 per cent iron) can be obtained, and magnetic concentration has not been successful, owing to the intimate intermixture of the quartz, magnetite and haematite.

For a number of years, however, haematite ore-bodies of great size and richness have been recognised in a belt running through the Singhbhum district of Bihar, the Eastern States, and Orissa, and constituting what is one of the most important groups of iron-ore deposits of the world.

It has been calculated that there are 3,600,000,000 tons of this high-class haematite available, forming the upper portions of great ridges, rising 1,500 feet or more above the plain, along which for many miles the ore can be cheaply quarried in benches, by gangs of unskilled labour, and loaded straight into trucks, little or no selection being necessary.

At, for instance, Tata's Naomundi Mine, the average day's run ore is 62 per cent iron and they can arrange consignments to the works of anything up to 69 per cent iron, the latter containing only 1 per cent of impurities, theoretically pure haematite containing 70 per cent of iron and 30 per cent of oxygen. Ore containing less than 60 per cent iron is not used by the two large producing companies; the Mysore Iron and Steel Works use 55 per cent to 64 per cent ore.

Since the beginning of the present century the annual production of iron-ore in India has risen from 65,000 tons of iron smelted. India is now the second largest producer of iron and steel in the Empire, excelled only by the United Kingdom. Her reserves of ore are about three-quarters of those of the United States and are of better quality, than the bulk of the American deposits. The ores are believed to have been originally banded haematitic quartzites the quartz of which has been leached and replaced to some extent by haematite. Typically they run about 64 per cent of iron sulphur is usually below 0.03 per cent, and phosphorus varies from 0.03 to 0.08 per cent. Titanium is low.

As these reserves are much larger than the available amount of coal suitable for making metallurgical coke, it would seem that India can, sooner or later, spare great quantities of ore for export.

In 1938 264,151 tons of ore were exported to Japan. In that year, the total exports of pig-iron from India were 525,254 tons of which 323,046 tons went to Japan, and 129,824 tons to the United Kingdom.

SEALTITE

This mineral, also known as soapstone, potstone, talc and agalmatolite, and in its powdered form as "French chalk" is one of the most variously used industrial minerals in multitudinous minor ways, from idols and slate-pencils to switchboards and chemical tanks and, powdered, from anti-adhesives, polishers and fillers to face-powders.

The annual production of India is reported as about 18,500 tons in 1938, the chief sources being Jaipur State Guntur district in Madras and Jubbulpore district in the Central Provinces but there are numerous other minor deposits and probably a good deal of it does not come into the statistics.

BENGAL SWEETS—a reliable guide for preparing Sandesh, Rasgulla, Mithai, Sops, etc. at home. Re. 1/12. Industry Book Dept., Calcutta.

MICA.

India is the world's leading producer of sheet mica, which is mined mainly in Hazaribagh and Gaya districts in Bihar and Nellore in Madras, and to a minor extent in other districts in Madras and in Tonk State and Ajmer-Merwara in Rajputana, about 80 per cent. coming from Bihar and most of the remainder from Nellore.

There was a rise in the declared production of mica to 123,169 cwts valued at Rs 42 lakhs in 1938 from 104,658 cwts valued at Rs 39½ lakhs in 1937. Waste products in mica mining are quartz and felspar, which are required for glass industry. These also are available in plenty and are of fine quality.

SULPHUR.

Large deposits of high-grade rock sulphur have been discovered at Kohn-Sultan in Baluchistan by the Geological Survey of India.

PETROLEUM.

The production of petroleum in India amounted to 87,082,371 gallons valued at Rs 165½ lakhs in 1938 as against 75,657,857 gallons valued at Rs 137 lakhs in 1937, the appreciable increase in 1938 being due to an increase of over 11 million gallons from Attock and a little from Digboi.

The amount of gasoline produced from natural gas during 1938 was 496,163 gallons in the Punjab.

GOLD.

There was a fall in the output of gold in 1938 as compared with the previous year, the respective productions for 1937 and 1938 being 331,748 2 ozs and 321,137 8 ozs.

Average number of persons employed in the Kolar Gold Field during 1938 was 24,031 of whom 15,528 worked underground.

COPPER.

Copper produced from the ore mined at Ghatsila in Bihar during 1938 amounted to 5,330 tons, of which 101 tons were sold as copper and the remainder used in the rolling mill to manufacture yellow metal sheets and circles, the whole of which was sold.

LIMESTONE.

Amongst the minerals for which accurate statistics are not available, limestone and "kankar" of which nearly 3½ million tons were quarried, would rank next to coal in importance, if weight of material won were the criterion. There has been an increased output of limestone in recent years which is due partly to its use as a flux in the iron and steel industry, and in the manufacture of cement.

GEMS.

In gem stones the production of diamonds, mostly from Panna State, rose slightly to 1,729 carats, valued at Rs 68,813 17 4 tons of beryl were produced in Ajmer and 120 tons of garnet in Travancore. These are however, not used as gem stones, the former is used as an ore of beryllium and the latter as an abrasive.

BAUXITE.

Bauxite or aluminium ore occurs in the Bihar plateau in the Balaghat District, in the vicinity of Katni and in the Mandla District. Large deposits of bauxite also occur in the Bombay Presidency particularly in the Belgaum District and in the Kolhapur State.

OTHER MINERALS.

Other minerals of which India produces varying quantities on a commercial scale are antimony, chromite, salt, saltpetre, soda, apatite, asbestos, barytes, and felspar, fuller's earth, graphite and ochre.

BENGAL SWEETS—a reliable guide for preparing Sandesh, Rashgolla, Mithai, Sops, etc. at home. Re. 1/12. Industry Book Dept., Calcutta.

IRON AND STEEL INDUSTRY

IRON and steel industry is now recognised as one of the biggest industries in India. It gives employment to about 25,000 persons and the capital invested in the industry is no less than Rs 27 crores.

Good deposits of iron ore exist in many parts of India, such as Singhbhum, Mayurbhanj, Gua, Mysore and to a small extent in Buima. The ore is of high quality. It compares favourably with the finest Lake Superior and Bibbaco ores and is considered to be better than the iron-stone mined in the United Kingdom. Various other metallic ores required in extracting iron from the iron ore are also available in abundance not far off the iron deposits. Manganese ore, for example, occurs in the Singhbhum district. Again dolomite and limestone are found within a short distance of the ore fields. As, however, deposits of coal necessary for working these sources of iron were seldom close at hand, they were neglected until quite recently. The output of iron ore in 1936 was 2,500,000 tons valued at Rs 40 lakhs.

It was the great genius of Sir J. N. Tata who saw possibilities of starting an iron and steel industry and actually gave shape and form to his ideas. Since the discovery of iron belt in 1905, the exports of pig iron were going considerably up. It was in 1907 that the Tata Iron and Steel Company was established to put a stoppage to the exports of iron ore. Pig-iron was first produced in December, 1911 and steel in 1913. In the second year of production July 1913 to June, 1914 the output of pig iron was 155,383 tons, and of finished steel 42,872 tons. During the war the demand for iron and steel increased and other companies came up to manufacture iron and steel.

For some years the production of iron ore in India had been steadily on the increase and India is now, in fact, the second largest producer in the British Empire, and yields place only to the United Kingdom. Her output is of course still dwarfed by the production in the United States (1, million tons in 1932) and France (27 million tons in 1932). The companies chiefly engaged in the extraction of iron and steel are Tata Iron and Steel Co., Ltd., (from Noamundi mines), Bengal Iron Co. Ltd., (from Pansira, Ajita, and Maclellan mines), Indian Iron and Steel Co. Ltd., (from Gua Mines), United Steel Corporation of Asia (from Keonjhar mines) and Mysore Iron Works. Of them the only company which manufactures steel is the Tata Iron and Steel Company. Besides these there are 144 indigenous furnaces at work in the Central Provinces.

The outbreak of war naturally increased the scramble for iron and steel. Efforts were made in almost all steel producing countries to increase production to the limit of productive capacity, the only difficulties which hindered the realisation of this aim was the shortage of iron ore and fuel. Owing partly to these difficulties and partly to large domestic requirements, the exports of iron and steel from the Continental producers were seriously curtailed. The only country which was able to take advantage of the stringency in the world market was the United States. In the United States, steel production showed a slight decline in the first quarter of the year under review, but was gradually stepped up during the rest of the year.

For practical methods of manufacturing boot polish, metal polish, etc. read PROSPECTIVE INDUSTRIES. Re. 1/12, Industry Book Dept., Cal

The Indian iron and steel industry also continued to be in a healthy state. Both the Tata Iron and Steel Company and the Indian Iron and Steel Company were fully booked with orders. The industry was placed in a very advantageous position owing to the reduction in imports during the last two years.

The engineering section of the industry received large orders from Government for different kinds of war equipment to be supplied to overseas customers. The expansion of munition production within the country as well as the stimulus given to industrial activity by war conditions also created a strong domestic demand for all products of the iron and steel industry.

PRODUCTION FIGURES.

The output of pig iron in India advanced from 1,567,000 tons in 1938-39 to 1,838,000 tons in 1939-40 or by 17 per cent and that of steel ingots from 977,000 tons to 1,070,000 tons or by 10 per cent. The production of finished steel, which excludes the production of some re-rolling mills using either imported or Tata's semis, also showed an increase from 726,000 tons to 804,000 tons.

STEEL PRODUCTION.

In so far as ordinary mild steel production is concerned the third year of war has been characterised by further increases in production in existing plant. Several extensions, which will result in a still greater output are nearing completion.

In addition, India has made very considerable strides in the production of special steels and ferroalloys, which have never previously been manufactured in this country. Production has commenced of several alloy steels required by the Royal Air Force, High carbon tool steel will soon be commercially produced in small quantities. These two latter types of steel have never before been made in India commercially.

Experiments have been carried out on the manufacture of ferro-tungsten made from Indian wolfram ore. It has been demonstrated that this can be effected and considerable ferro-alloy plant is on order. Special high frequency and forging hammers are also on order for making and working up the steel in the composition of which this tungsten plays such an important part.

Vanadium has been produced experimentally and the plant is under erection for extracting vanadium from Indian ore. This vanadium will take its part alongside tungsten in the composition of high speed steel. Titanium one of the components in modern stainless steels is also under consideration for extraction from Indian rutile.

Bullet-proof plate of a new composition has been successfully manufactured in large quantities. While it has the same first class bullet-resisting qualities as the old composition, there is a saving of some 50 per cent of the alloys previously used.

One great feature of this third year of war was the installation of plants for manufacturing more highly raw steel already made. Many other similar projects are under active consideration with a view to making India more independent of foreign imports. The production of aluminium in India will begin shortly on a scale which is expected ultimately to enable India to meet her requirements of this metal.

The manufacture of ferro-silicon, which is essential in the composition of all steels has been established, and at least half of India's requirements will ultimately be met from this source.

A new electric furnace is nearing completion. It is hoped that this will produce considerable quantities of ferro-chrome. Chromium takes a part in the composition of most of the alloy steels.

For practical methods of manufacturing boot polish, metal polish, etc. read **PROSPECTIVE INDUSTRIES**. Re. 1/12, Industry Book Dept., Cal.

Indian Stock Exchanges in 1942

IN the year 1942, Indian Stock Exchanges had to pass through a period of unprecedented difficulty. The internal political situation and the war in the Far East continued to cast a deteriorating influence over the business transactions in stock exchanges throughout the year.

The most outstanding feature ruling in India Stock Exchanges in 1942, was the increasing hold of the official controls exercised in determining the activities of the operators. When the devastating fall in prices of stocks and shares became rampant, the stock markets were brought under the sphere of economic control. This step stemmed the tide of sharp fall in stock and share prices in Calcutta and Bombay Stock Exchanges.

The period from 1st January to mid-April ushered in far-reaching war developments in the Far East and Burma occurring in quick succession in favour of Japanese supremacy, and gave rise to panic, confusion and a feeling of despair among the investors and the speculators alike. Many of the shares in Calcutta established their lowest record at this time as the operators were in a hurry to square up their books and quit the city for safer destinations. In Bombay Stock Exchange, prices continued to decline and the volume of business done was on a very small scale. Minimum prices were enforced in Bombay for all the shares, and, in Calcutta "floors" fixed towards the close of 1941, were revised in a downward direction. The introduction of minimum prices, which proved to be helpful in the initial stages, considerably affected the turnover, as buyers were not forthcoming to do business at this rate. The Government of India refused to fix minimum prices of shares officially as was done in the case of Government Loans. The agitation for removal of minimum prices of shares in Bombay deepened and the Bombay Stock Exchange authorities removed the minimum prices of shares from 27th March, 1942.

During mid-April to July, the market to some extent rallied to confidence and slow but steady improvement in Stock Exchange business was perceptible.

During August to mid-September, there was a tense atmosphere in the internal political condition of the country. The arrest of front rank Congress leaders in the earlier part of August, brought about an unfortunate situation. The Bombay Share market was closed for nearly three months. Over Calcutta Stock Exchange business disturbances within the country had but temporary effect and prices soon steadied.

Throughout the last quarter of the year under review, Bombay market practically remained closed. But there was much activity in the Calcutta Share market. Towards the close of November, the Bombay Stock Exchange resumed its normal transactions, and, since then, there had been a rapid improvement in the value of equities. Between Mid-November and Mid-December, great demand was noted for the shares of cement, cotton textiles, tea, sugar, and planting companies. It was during this time that the majority of the shares recovered their losses sustained in the first four months.

Price Movement of Commodities.

THE most baffling problem in the war time economic situation of India is undoubtedly the phenomenal rise in prices of all sorts of commodities. Whatever may be the cause, main or subsidiary, immediate or remote, the unassailable fact remains that there has been a shooting-up of prices and that on a surprising level. That the war is mainly responsible for the origin, growth and insistent manifestation of the steep rise in the wholesale and retail prices of commodities is a fact that cannot be denied. The ever-increasing spiral of prices has shaken the foundation of the economic structure of the country and even the most serious students of economics and the Government protagonists find it extremely hard to tackle this problem in a suitable manner.

But particularly pronounced is the rise of the price of foodstuffs and some of the essential commodities. It has caused untold misery to the poor wage-earners and the middle-class population and the very physical existence of the starving millions of the country has been threatened. The measures so far adopted by the Government to ward off the evil of rise in prices, however thoroughly and ingeniously executed, have failed to touch even the fringe of this problem.

The cost of living has doubled in every part of the country, both urban and rural, compared with the pre-war time. The index number for the wholesale prices of all commodities in Calcutta has moved from 100 in August, 1939, to 277 in November, 1942. The index number for cereals has risen from 83 to 227, that of pulses from 96 to 226 and of other food articles (besides tea and sugar) from 114 to 371. The position appears to be equally serious if examined from the point of view of the working-class people in and around Calcutta, which has moved from 100 (the pre-war base) to 184 towards the last week of November, 1942. The average price of 8 varieties of rice in Calcutta have recorded an increase of 300 per cent and the price of coal has gone up to 200 per cent.

Similar dizzy heights of prices are discernible in Bombay. While the cost of living index number for Bombay city stood at 105 in August, 1939, the same for the period ended 15th January, 1943 was placed at 203. The index number of fuel which was pegged at 99 in August, 1939, moved up sharply to 175 in December, 1942. The rise in the clothing group and miscellaneous articles was marked up from 98 in August, 1939, to 201 in December, 1942. In Bombay, Ahmedabad, Nagpur and Cawnpore the cost of living has more than doubled, average increments in the wages and salaries of persons having varied from 12½ p c to 33 p c in these centres.

Taking the average rise of prices of 23 articles on an All-India basis, it will be found that the index number of prices which was 100 in 1939 has gone up to 164 in September, 1942. But still there is ample ground to believe that the actual rise in price level is much higher than the index number which is based on the statistics of controlled prices.

Principles of construction of storage batteries and their care are dealt with in Manufacture of BATTERIES. Re. 1/12. Industry Book Dept., Cal

We make all these —
BUT WE CAN'T MAKE ENOUGH-NOW

Paper is the big problem of the day. Government need a lot of it for defence purposes. Little is left to us to supply our numerous customers who for years have called on us for the best in packing materials. Paper economy will help to win the war and the sooner it's won the sooner shall we be able to make all the P. P. C. lines for you which have given you so much satisfaction in the past.

POPULATION OF INDIA.

The total population of India is placed at 388,800,000, of which British India's share is 295,827,000 and that of Indian States 92,973,000. The All-India population at the 1931 census was 388.1 millions.

The 1931 census recorded an increase in the population of about 10½ per cent, while the 1941 census shows an increase of 15 per cent. The level of increase in British India is 15.2 per cent and in the States and Agencies 14.3 per cent.

"Careers of Agents and Middlemen" A reliable guide on the functions, scopes and qualifications of Agents and Middlemen. Price Re. 1/4.

MARKET PLACES OF BENGAL

THE Province of Bengal covers an area of 80,000 square miles and is inhabited by 60,314,000 people of whom Moslems number 3,30,00,000 which is an increase of 55,03,000 over 1931 figures and Hindus number 2,64,50,000, an increase of 48,80,000 over 1931 figures. Percentage of Moslem and Hindu population in 1941 is 54.73 and 43.8 respectively as against 54.87 and 43.08 in 1931.

The Province of Bengal is watered by a net-work of rivers including the Ganges and the Brahmaputra bringing down during inundation rich alluvial deposits of silt which greatly contributes to the fertility of the soil. Of the total area in Bengal 24.7 million acres are normally under cultivation, of which only 1.9 million acres are irrigated. Area of land lying fallow is 5.0 million acres and that of culturable waste 6.8 million acres. The Sunderbans extending along the margin of the Bay of Bengal together with the other forests occupy an area of 4.7 million acres.

Produce:—Rice is the staple crop of the Province and is grown on about 21 million acres, the other food grains under tillage are wheat, gram, barley, maize and pulses and cover about 2.0 million acres. Next in importance is the jute crop which thrives best in the Ganges-Brahmaputra delta. The area under this crop is over 1.1 million acres while the yield is about 43 lakhs of bales of 400 lbs. each. Oil seeds are cultivated over 1 million acres of which by far the most important crop is rape and mustard seed (753,000 acres). Among the other oil seeds mention may be made of linseed (155,000 acres), sesamum (174,000 acres), and groundnut (3,000 acres). Tea is planted over 201,000 acres. Other crops are sugarcane, tobacco, sugar yielding palms, condiments and spices. Among the fruits grown in the Province the most important are mango, plantain, pineapple, jack fruit, guava, custard apple and several varieties of figs and melons. Arecanut and coconut plantations are largely found in S. E. Bengal. Mangoes of Maldah have a good reputation. Vegetables are cultivated everywhere. The area under fodder crops is 115,000 acres.

The districts where the products of Bengal are most prolific are mentioned below. Rice—Backerganj, Dacca, Faridpur, Midnapur, Mymensingh, Rangpur, Dinajpur, Tipperah, Wheat—Malda, Murshidabad, Nadia, Rajshahi, Pabna, Barley—Murshidabad, Dacca, Malda, Faridpur, Mymensingh, Gram—Murshidabad, Nadia, Rajshahi, Linseed—Nadia, Murshidabad, Jessore, Sesamum—Mymensingh, Pabna, Dacca, Rape and Mustard—Mymensingh, Pabna, Rangpur, Rajshahi, Dacca, Bogra, Dinajpur, Jalpaiguri, Coconut—Khulna, Sugarcane—Faridpur, Dacca, Mymensingh, Rangpur, Dinajpur, Date palm—Hooghly, Jessore, Cotton—Chittagong Hill Tract. Jute—All districts, Tobacco—Rangpur, Jalpaiguri, Mymensingh, Fruits and Vegetables—Backerganj, Dacca, Mymensingh, Murshidabad, Fodder Crops—Mymensingh, Total area sown—About 25 million acres.

The following table summarises the areas under crops during the last five years —

"Careers of Agents and Middlemen" A reliable guide on the functions, Scopes and qualifications of Agents and Middlemen. Price Re. 1/4.

Major Industries.—Jute mills of Bengal have, so to speak, a mono poly business in jute products in India. There are in all 96 mills situated chiefly on either bank of the Hooghly. Demand for jute products has gone up since September, 1939 when war broke out. Capital invested in the industry is Rs 19.37 lakhs + £2.5 million + \$3.7 million. There are besides about 40 jute presses in Bengal.

Another big industry having immense possibilities in the province is the cotton mills. There are 33 mills in the province and about 20 mills are under construction. Number of spindles installed amounted in 1941 to 4,59,000 and that of looms to 10,600. Persons employed in the mills totalled 21,585. Mills of Bengal consumed during 1941-42 117,000 bales of cotton of 3½ cwt each. In 1941-42 Bengal spun 59 million lbs of twist and yarn and 194 million lbs of piecegoods as against 58 million lbs and 41.7 million yards in 1940-41.

Indian Iron and Steel Co. with which is associated with the Bengal Iron Works produced 668,106 tons of pig iron in 1939-40 of which 386,516 tons were produced at Hirapur and 281,590 tons at Kulti. The National Iron & Steel Co. Ltd. have their workshop at Belur where they manufacture iron and steel products such as rounds, square, flats, angle, joists, rails, bolts, nuts, rivets, etc. Railway wagons are made by Indian Standard Wagon Co. Ltd. at their factory at Santa near Asansol.

Iron and steel is melted at Hirapur, Kulti and has great possibilities. Paper is made in 4 mills at Titagarh, Kankinara, Ranigunge and Naihati, the last named mill producing paper pulp also. Three cardboard making factories are also in operation in Bengal.

About 16 factories employing a total of about 8,000 workers are engaged in making rubber soled shoes. Bicycle and motor tyres are also produced, and the Dunlop Rubber Company have established a large factory at Sahaganj, Hooghly and the Bata Shoe Factory at Batanagar where 5,368 operatives are at work.

Special mention should be made of the celluloid goods, incandescent mantles and electrical bulbs and fans which are being produced in huge quantities in the province. Matches, glass bottles, potteries, soap, toilet goods, chemicals, paints, hosiery goods, etc. are also manufactured in big quantities.

Manufacturing processes of paints, varnishes and sealing waxes are explained in Prospective Industries. Re. 1/12. Industry Book Dept., Cal.

Rice milling and oil pressing are the other big industries in Bengal. There are rice mills about 400 in number employing 18,000 hands. Oil mills generally press mustard oil.

In 1941-42 there were 9 sugar mills in operation which crushed 313,600 tons of cane, yielding 23,700 tons of sugar. Production in 1938-39 was only 9,700 tons.

In 1940-41, 532,000 tons of gur were produced. The average yearly production of gur in Bengal is 527,000 tons.

Tea industry flourishes most in the Darjeeling and Jalpaiguri Districts in the province. Production is about 115 million lbs in the province. Area under tea in 1939 was 211,768 acres distributed among 412 estates employing about 500,000 hands.

Among other major industries of the province may be mentioned. kerosene tinning and packing, general engineering, lead smelting and lead rolling mill, bakeries, saw mills, flour mills, musical and surgical instrument making. New industries in the making in Bengal include ampoules and glassware for medical purposes, screws and wire nails, iron rods, metalwares, optical instruments, plywood, tent making, etc. War industries have also received a great impetus.

Cottage Industries:—Hand-loom weaving is by far the most important and widespread cottage industry of the province of Bengal. From no district or centre is it absent, while in some centres such as Santipur in Nadia, Chowmohani in Noakhali, Sonamukhi and Vishnupur in Bankura, practically the whole population is absorbed in hand loom weaving but, almost always with some stake in the agricultural operations as a source of food supply.

Another striking and wide-spread home industry in Bengal is that of brass and bell-metal manufacture, for dietary purpose such as lotas, thalis, etc.

Sericulture is another important cottage industry in Bengal. Silk worm is reared in W Bengal and silk reeling is carried on, but the industry is suffering from competition from China, Japan, Italy and France and in general from artificial silk.

The handicrafts in the province include pottery, carpentry, leather manufacture, iron manufacture, shell ornaments, embroidery and lace-making, soft stone carving, horn-carving, lac-work, lace-making, toy-making, wood-engraving, ornamental glassware, clay modelling, metal inlaying, ivory carving, gold and silver work, etc., etc.

Cotton carpets are made at Nisbetganj in Rangpur, woollen blankets are woven at Jangipur, filigree gold and silver works of Dacca are famous, cutlery of Kanchannagar is noted. Conchshell bracelets are made at Dacca and umbrella making is carried on at Chittagong, mat making is practised in Midnapur and Rangpur.

Among other industries mention may be made of boat building, book-binding, electro-plating, fishing hooks, gilding, masonry work, button making, watch repairing, etc.

Gur is prepared from palm juice in the 24-Parganas, Howrah, Faridpur and Midnapur.

Minerals:—Coal is the chief mining industry. Raniganj fields in the Burdwan District yield about 30 per cent of the coal produced in India. It is situated within about 100 miles of Calcutta. Output of coal during 1939 amounted to 7,591,495 tons of which the major part was obtained from the Raniganj field.

Irrigation:—Total area irrigated in Bengal during 1940-41 was 1,798,000 acres of which area irrigated by Government canal is 242,000 acres, by private canals 263,000 acres, by tanks 817,000 acres, by wells 44,000 acres, by other sources 817,000 acres.

Manufacturing processes of paints, varnishes and sealing waxes are exploited in Prospective Industries. Re. 1/12. Industry Book Dept., Cal.

Budget Estimates for 1942-43—Revenue receipts are estimated at Rs 15,70 lakhs and the Revenue expenditure at Rs 16,75 lakhs. Schemes of civil defence involve expenditure of a little over Rs 4 crores of which Rs 1 crore and 25 lakhs was debitable to Provincial revenues, which largely accounts for the revenue deficits. Although receipts from the new taxation measures, Sales Tax, Raw Jute Sales Tax and Tax on Motor Spirit, will yield an increase of Rs 107 lakhs and receipts from income tax are expected to be Rs 26 lakhs higher, there will be heavy shrinkage in Jute Export Duty, which is expected to be only Rs 125 lakhs as against the average of Rs 227 lakhs of the last two years. No new taxation measure are foreshadowed in the budget.

Education in 1940-41—2,551,398 pupils including 268,272 girls were taught in 51,880 primary schools. There were 2,273 middle English schools, 1,451 high schools, 62 arts colleges, 3 law colleges, 3 medical colleges and 9 medical schools.

Railways There are about 3,500 miles of railways, about 3,500 miles of metalled roads and about 35,000 miles of unmetalled roads. There are about 2,000 miles of navigable rivers.

Transport—Besides railways, the chief transport agencies in Bengal are steamers and country boats. In big towns motor lorries are gradually ousting the indigenous cart for carrying goods.

SURVEY OF FOREIGN TRADE IN 1940-41.

Exports of private merchandise from Bengal during 1940 41 were valued at Rs 102 77 crores as against Rs 113 39 crores in 1939-40, showing a fall by Rs 11 crores. Considering the fact that the index number of import values (86) in 1940-41 was higher than that of 1939-40 (68), the reduction in the volume of trade must be considered as much more significant. Raw jute had one of the worst years on record, exports being lowest in quantity for over sixty years. Jute manufactures however were much in demand from foreign countries. Tea had the best year since 1927-28 and accounted for 22 per cent of the total exports. There was however a phenomenal increase in the exports of cotton goods, the value of which was nearly three times that of the previous year.

Imports during the year dropped from Rs 56 12 crores in 1939-40 to Rs 52 61 crores in 1940-41. Imports from the United States rose by 91 per cent and her share stood at Rs 18 per cent the highest on record. Imports from New Zealand rose from Rs 4½ lakhs to Rs 93 lakhs, while exports increased from Rs 70 lakhs to Rs 120 lakhs.

COASTING TRADE.

	5,72,52	5,30,15	4,15,60
TOTAL	14,62,77	14,32,62	11,79,69

Bombay.—The heavy decrease in imports was principally due to reduced supply of grey cotton piece-goods (Rs 187 lakhs) which fell by Rs 1 crore nearly. Imports of cotton twist and yarn (Rs 12 56 lakhs) declined by Rs 30 lakhs nearly and those of raw cotton further receded from Rs 11 69 lakhs to Rs 6 90 lakhs. Exports also received a set-back, the principal articles affected being coal (Rs 28 46 lakhs), gunny bags and cloth (Rs 27 32 lakhs) and tea (Rs 6 26 lakhs). A slight improvement was however noticed under rice (Rs 12 29 lakhs).

Madras.—Both imports and exports declined heavily, the chief articles of imports affected were cotton coloured printed goods (Rs 21 70 lakhs), spices (Rs 9 31 lakhs), coconut oil (Rs 7 86 lakhs) and raw cotton (Rs 5 68 lakhs). Imports of cotton twist and yarn (Rs 14 67 lakhs), new rubber (Rs 13 74 lakhs) and groundnut oil (Rs 11 17 lakhs), however improved. Under exports there was practically no demand for raw jute, manufactured tobacco, sugar, the total supply being worth a little over Rs 8 lakhs as against Rs 23 lakhs, in the previous year. Noticeable declines also occurred under iron and steel (Rs 6 58 lakhs), and paper and pasteboard (Rs 3 55 lakhs). Exports of coal (Rs 23 82 lakhs) remained fairly steady.

Sind.—The principal articles contributing to the increase in imports were wheat (Rs 37 45 lakhs), wheat flour (Rs 20 01 lakhs), rape seed (Rs 15 43 lakhs) and salt (Rs 15 02 lakhs). The supply of raw cotton (Rs 4 18 lakhs), however, declined appreciably. Exports fell under iron and steel (Rs 33 82 lakhs) and coal (Rs 8 37 lakhs) and there was practically no demand for sugar. Shipments of tea (Rs 2 20 lakhs), remained almost stable and those of gunny bags and cloth (Rs 33 46 lakhs) increased.

Orissa.—The principal imports were paddy (Rs. 7 87 lakhs) and rice (Rs 6 19 lakhs), the latter contributing to the increase in imports. Exports of betelnut decreased while those of gunny bags and sugar remained steady.

Indian Ports not British.—The increase in imports was mainly under salt (Rs 40 54 lakhs) and pepper (Rs 16 74 lakhs). Imports of Portland cement (Rs 7 73 lakhs), however, declined. The chief exports were coal (Rs 13 66 lakhs), tea (Rs 12 73 lakhs), iron and steel Rs 6 79 lakhs) and gunny bags (Rs 5 08 lakhs).

Bengal Ports.—Wood and timber (Rs 7 03 lakhs) and coal (Rs 1 72 lakhs) formed the bulk of internal trade.

Coasting trade of Bengal during 1940-41 suffered a sharp decline, due to shortage of shipping available for this purpose. In spite of this imports of Indian salt into Bengal exceeded those of foreign salt for the first time on record. Bengal is the largest producer of both parched rice and parched paddy. Altogether some 674,000 tons of rice or 8 per cent of the average crop of Bengal issued for conversion into various products. Moreover this figure represent about 50 per cent.

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8. Industry Book Dept., Shambazar, Cal.

of the total quantity of rice converted into parched products and beaten rice in India

CALCUTTA.

CALCUTTA, the capital and chief port of the Bengal Presidency, although no more the seat of Imperial Government since 1911, is decidedly the premier city in India and is only second to London in the British Empire. According to the census of 1941 the population of Calcutta is estimated at 21 lakhs. It stands on the left bank of the Ganges, a navigable river and only 86 miles away from the Bay of Bengal. A net work of canals and rivers is responsible for centralising the products, both manufactured and raw, from the rich plains washed by the Ganges and the Brahmaputra to Calcutta. The three main railway lines, viz., E I Ry, B N R and B & A Ry, terminate here. Its position as a port maintains its importance as a great importings and exporting city.

Industries—Leaving apart its great jute industries, standing on both banks of the Hooghly, which are the monopoly of Bengal in the World, Calcutta has earned for herself the fame as the Industrial capital of India. Factories for the manufacture of the various goods are springing up more in the suburbs than in the city. Number of factories in 1938 in Calcutta proper was 162, giving employment to 14,636 persons. Soap business has gone ahead and soaps of the best type are being manufactured. Chemicals and acids for the industrial and medicinal uses are manufactured. Cotton mills also are getting firm hold in the neighbourhood of Calcutta.

Flour, rice and oil mills also flourish in the outskirts of Calcutta, and Chetla and Ultadangi are famous for the rice husking, etc. Silk goods are manufactured in Ultadangi. Iron and engineering workshops are scattered all over the city. Pencils, pens, nibs, coils, matches, potteries and brushes of the very best type are also being manufactured. Tanneries have also gained in strength in recent years. Toilet goods, perfumes, boot polishes, hosiery and other articles of everyday necessity are being produced. Wire netting, biscuit and barley making, confectionery and condiment preserving, nail making, galvanising etc., have for the first time in India being taken up on an industrial scale. There has been a great development recently in the manufacture of galvanised wares, steel trunks, bolts, nuts, celluloid goods, horn articles, tin boxes, serums and vaccines, bricks and tile making, enamelled and porcelain wares, glassware, crown cork, cookers, etc. Manufacture of electric bulbs, rubber shoes, glass apparatus, sporting goods, cycle, etc., is also a new development in the Province. Quite a large number of saw mills and plywood factories are also now in operation. Other important industries carried on within the municipal limits on a commercial basis are manufacture of type foundry and casting of metals, manufacture of fireworks, cardboard boxes and envelopes, brass and copperware, umbrella sticks and polo sticks, sugar candy, hats, book-binding, tailoring, embroidery, laundry work and dyeing and cleaning, leather goods, repair of motor cars and carriages, watches and clocks etc., printing of cloths and cloth borders, manufacture of specially treated fabrics, tracing cloth and waterproof cloth, tobacco pressing and packing and biri manufacture, and manufacturing of ivory and conch-shell articles, weaving of gold threads, manufacture of candles, ink, wigs and theatrical requisites, musical instruments, radio accessories, etc.

Trade—The chief trade of Calcutta centres round jute, tea, rice and pulses, cotton goods, hides and skins, manganese ores, pig iron, coal, etc. Jute trade is the distinctive feature of Calcutta. Calcutta is

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments. Rs. 3/8. Industry Book Dept., Calcutta.

the great jute centre of the world and the foreign countries interested in jute make their purchases here. Country boats and river steamers bring down the raw jute from the fields of Eastern Bengal and unload the products here. The total presses and mills, some 150 in number, standing on either side of the Ganges are also extensive purchasers. They press the jute and manufacture jute cloths and bags, which find ready sale in the world's marts. Prosperity of Bengal in fact depends upon the price at which jute sells in the market.

Calcutta is a great distributing centre of imported goods to Bihar, the United Provinces, Orissa and the Central Provinces. There is considerable trade in hardware, culture machineries, engineering stores, building materials, leather articles, rubber goods, paper and pasteboards, stationery articles, etc. Articles manufactured in and around Calcutta also figure prominently in Calcutta's trade.

The tea trade is growing to greater and greater importance. Large quantities of tea are brought to the Calcutta markets from Darang, Lakhimpur, Sylhet, Darjeeling, etc., for distribution and shipment. The chief market is United Kingdom which absorbs about 35 per cent. of the whole exports. Of the other countries, the important are N. America, Asiatic Turkey, Australia, etc. Chittagong stands as a competitor of Calcutta so far as tea is concerned.

Calcutta consumes on an average over 500 maunds of fish daily, and the supply is inadequate. The supply of fish comes mainly via the B N, the E I and the B & A Railways to Howrah, Sealdah and Patipukur stations while small supplies come from such places as Basirhat, Diamond Harbour, Barurpur, the salt lake areas by lorries, motor boats and coolies. To Howrah station come daily about 150, maunds of fish including 100 maunds of sea fish from Puri, Chilka, etc., and Sealdah receives more than 200 maunds daily.

Calcutta is the pivot of the rice trade in Bengal. It is not only the exporting centre of Bengal (which even now annually exports 100,000 tons of rice) but also the chief consuming and distributing centre. Of 300 odd rice mills in Bengal, Calcutta alone has over 150 mills. More than 10,000,000 mds of paddy are required annually to keep these mills going.

Imports and Exports.—Major portions of the imports and exports in Bengal pass through Calcutta. During 1939-40 Calcutta handled 92 per cent. of the imports, i.e., Rs. 51.27 crores and 98 per cent. of the exports, i.e., Rs. 105.49 crores.

The following table gives the figures of foreign and coasting trade during the five years ending 1939-40 —

Foreign Trade:	1935-36	1936-37	1937-38	1938-39	1939-40
Imports	38.65	36.91	51.92	50.38	52.64
Exports	61.66	70.19	80.97	72.46	1,06.02
Coasting Trade:					
Imports	14.31	15.99	8.53	8.88	7.42
Exports	9.84	11.49	5.54	5.33	4.23

BACKERGANJ DISTRICT.

The district covers an area of 3,649 sq miles and has a population of 36,31,023 of which 1,504,020 are males and 1,431,096 are females.

The district is famous for balam rice and betelnuts which grow in abundance here. Balam rice is exported to Calcutta and other parts of the province. Coconuts and pulses mainly masur grow plentifully. Oysters are found in this district, which are also exported.

Cutlery, ramdaos, razors, nut-crackers, scissors and saws for cutting conch shells are made at BARAPAIKA and UZIRPUR. Brass and white metal nibs are also made at PATUAKHALI.

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments. Rs. 3/8. Industry Book Dept., Calcutta.

Sitalpati mats of fine quality are also made in the district. A rough kind of mat is made from "hogla," which is a char reed, and used by the poor as bedding. Hogla matting is a special product, of the Backerganj district and is made throughout the district, especially at JHALAKATI. It is exported to Calcutta and other places. It is also used in the making of bags for exporting dried fish.

Fine specimens of earthen ware with shining black and red polish, are made at UZIRPUR. Buttons, combs and bangles are also made from buffalo horns and are widely sold throughout Bengal. The chief centres of the horn work industry, are BARISAL, BHOLA, AMTALI, PATUAKHALI and GALACHIPA. Coconut oil is manufactured at BHOLA, AMANI and NALCHITI and there are oil mills at JHALAKATI, NALCHITI and BHOLA.

The chief centres of weaving are GABKHAN, KIRTIPASHA, UZIRPUR, JHALAKATI, NYIAMATI, SIDDAKATI, NALCHITI, BANORIPARA, BAISARI and MADHABPASHA.

BARISAL (population 35,716) the chief station of the district, is a great rice mart while PIROJPUR (population 10,959) is the second town of the district. Masuri pulse of this place is famous.

Other trade marts are JHALAKATI (population 6,496), NALCHITI (population 1,946), BHOLA (population 5,558), PATUAKHALI (population 6,434), DAULATKHAN and SAHEBGANJ. Transport of goods is carried on in boats as well as by steamers and railways.

Fairs.—Big fairs attended by thousands of people are held at Kalsuri, Kalaskati and Lakshmana near Backerganj, where cattle, goats, buffaloes and various agricultural products are exhibited and sold. Another is held at Sugandha in Barisal during Shivaratri and Pujah.

BANKURA DISTRICT.

The district has an area of 2,625 sq miles and is peopled by 1,256,125.

During 1941-42, area under rice was 587,400 acres, maize 2,767, acres, sugarcane 3,575 acres, wheat 5,290 acres, til 4,600 acres, pulses 15,840 acres.

Industrial products of Bankura include silk cloth, bell metal wares, embroidered silk saris, silk and tassar cloths, gold and silver ornaments, shell and lac bangles, iron implements and cutlery. There are several oil mills and rice mills. Coal is mined.

SHASPUR cutlery in Indas Thana pursued as a cottage industry has already earned a local popularity.

BANKURA—Brass and bell metal wares are made. Silk weaving is also practised. Mixed cloth of tassar is woven at Bankura. Coarse cotton cloth and cheap woollen blankets are also woven there. Bankura is also famous for its chaddars.

VISHNUPUR—The principal articles of trade are paddy, rice and molasses. The industries pursued are silk weaving, cotton weaving, bellmetal industry, conch shell industry and bead making.

The natural resources in Vishnupur Circle comprise the forests which supply fuel and timber. The chief crops are paddy and sugarcane. The exports are paddy and molasses and imports consist of pulses, spices, salt, clothes, stationeries, kerosine, coal etc.

SONAMUKHI—The industries pursued are (1) silk weaving (handloom) and (2) brass and bellmetal industry. Both are in a decayed state the former owing to importation of cheap Japanese, Javanese, American and British silk fabrics of equally good and even better standard, the latter owing to increasing use of aluminium and enamel.

For practical methods of manufacturing boot polish, metal polish, etc. read PROSPECTIVE INDUSTRIES. Re. 1/12. Industry Book Dept, Cal.

led steel utensils by local residents. Sonamukhi had formerly a flourishing trade in lac.

PATRASAYER—The industries pursued are (1) handloom cloth (2) brass and bellmetal industry and (3) conch shell bangles. The first has lost ground in favour of mill woven cloth, the second is yielding place to aluminium and enamelled utensils and the third cannot stand the ground against fold silver and glass bangles.

Logs of Sal and other forest wood are exported to Howrah and other places for firewood and other purposes from both SONAMUKHI and PATRASAYER.

Important centres of trade are . BANKURA (population 46,617), BISHNUPUR (population 24,961), and SONAMUKHI (population 14,667).

Fairs—There were three agricultural, industrial and health exhibitions in the district, viz, (1) Sonamukhi in the Vishnupur sub-division from 8th to 13th February, 1942, (2) at Onda in the Sadar Sub-division from 16th to 21st February 1942, (3) at Gogra in the Sadar Sub-division from 24th to 28th February 1942.

BIRBHOOM DISTRICT.

The district covers an area of 1,759 sq miles and has a population of 947,532 of which 472,682 are males and 474,850 females.

There are two stone quarries at Nalhati and Rajgan-Gopalpur. Collieries exist in PARSUNDI, SAGARBHANGA, HAJRATPUR. Fire-clay is obtained from a mine at BHADULIA.

The cottage industries include brass and bell metal work (at DUBRAJPUR and NALHATI), cutlery, silk and mulberry silk weaving. Silk weaving is practised at ROSWA, BISENUPUR, MARGRAM, PANCHGACHIA, BALIA, PALSIA and at other places in the RAMPURHAT sub-division. Tassar weaving of KALIPUR-KARIDHA is important. Coarse cotton cloth is woven at ALUNDA and the Sadar sub-division is well-known for its table cloths, bed sheets and screen cloths. Shell ornaments are made at KARIDHA. Lac work and lacquered toys of ILLAMBAZAR are well known; boots and shoes are made in TANTIPARA and SURUL.

There are 52 rice mills in the district e.g., at SAINTHIA, DUBRAJPUR, AHMEDPUR, BOLPUR, KIRNAHAR. Rice is exported on a large scale from rice mills at Rampurhat, Mollarpur, Nalhati and Munaroi.

DUBRAJPUR (population 10,000) is famous for its industry in bell-metal goods and cutlery. There are rice mills, oil mills and flour mills. Country sugar is manufactured at village Kankhutia near Dubrajpur. Annually about 2,00,000 mds of paddy and 1,00,000 mds of rice are imported to Dubrajpur Bazar for sale.

BOLPUR is a growing place with 19 rice mills and a big bi-weekly hat held on Sunday and Thursday. The Viswa-Bharati Institution established by the great poet Rabindra Nath Tagore is situated at Santiniketan near Bolpur. Sriniketan under the Viswa-Bharati is an institution for cottage industries, agriculture and dairy farming. The cottage industries are weaving, pottery, carpentry, shoe-making, etc.

SURI (population 10,908) is the head quarter station of the district, the local trade consisting of rice, grains, and pulses, atta, kerosene oil, and the jungle products. The morabba of SURI is famous.

RAMPURHAT SUB-DIVISION—There is one hat at SATPALSA in Moureswar PS. A very large quantity of vegetables is exported from this hat to distant places. It is the cheapest vegetable selling hat in this sub-division and is held every Tuesday. A small cattle hat is held every Tuesday in the outskirts of RAMPURHAT TOWN. There is an

For practical methods of manufacturing boot polish, metal polish, etc. read PROSPECTIVE INDUSTRIES. Re. 1/12. Industry Book Dept., Cal.

important market at LOHAPUR in Nalhati P S Rice is exported from there every year in large quantities Fowls are exported from CHATRA market in Muraroi P S every Wednesday

Other minor trade centres of the district are LABPUR, RAMPURHAT, KIRNAHAR, BELLIADANGA, NALHATI, etc., where rice is the chief article of export and piecegoods, salt, oils, potatoes and gur, the chief imports

Fairs—The Kenduli mela, where the great poet Joydeva of Gita Govinda fame was born, is held during January every year. Other important fairs are —Akaliapur, Nalhati, Troiyodoshi Mela, 13th day of moon of Aswin, 7 days, Kenduli, Beerbhum, January, (Religious) In MURAROI, Muraroi Bazar, Syam Sundar Mela, Magh, Jajgram, Kalipuja Mela, Kartik, Chatra, Gonesh Janani Mela, Falgun, Mitrapur, Sham Chand Mela, Magh In MOURESWAR, Moolarpui, Shiva-Choturdoshi Mela, Falgun; Muralidangal, Gosthastami Mela, 1st Magh, Birchandrapur, Gosthastami Mela, Kartik, Aiadhana Mela, Maghi Purnima, Rathajatra Mela, Ashar, Mohurapur, Choitra Sankranti Mela, Chaitra, Kaleswar, Shiva Chaturdoshi Mela Falgun, Ghatkuri, Dharmojoy Mela, Boisaki Purnima, Dheka, Brahmadoity Mela, 1st Magh Ulkunda, Fakirkhana Mela, 2nd Magh In RAMPURHAT Bhunkeshwari, Bhunkeshwari Mela, 1st Magh, Udoypur, Kalipuja Mela, Chaitra, Gopalpur, end of Magh, Chandra, Choitia, Margram, 11th Poush, Tarapur, Chaturdashi Mela, Aswin and Kartik, Sandhyajole, Falgun, Mahapara, Agradhayan, Goria, 5th Baisak, Sowasa, Falgun. In DUBRAJPUR—Mangaldihi, Hetampur—Sahapur Khoyrasole, Ranipahar, Parsundi and Barhra Patharchapri Mela (Religious) A large number of people attend the mela in the month of Chaitra during annual anniversary of late Data Mahbub Shah It is 6 miles off from the Suri town All sorts of articles of agriculture are brought for sale here

BOGRA DISTRICT.

The district covers an area of 1476 69 sq miles and has a population of 1,121,098 of which 574,900 are males and 546,198 females

Cotton and silk weaving from the only cottage industry of the district, the important centres of manufacture being SONALI, DASHTIKA, RAMNIGRAM, LAKHMIKOLE, MOHONPUR and SANTIGAON There are several factories which manufacture tassar and garad cloths of very good quality, raw silk being imported from Rajshahi and Murshidabad Among other industries may be mentioned gur, mats, clay pots, cabinetware, hand fan, etc., etc

A promising handloom industry for manufacturing jute bags, mats, cushions and durries is being run at ADAMDIGHI and at SUKHANPUKUR in this district

Jute, paddy, sugarcane, patal and potato are the chief agricultural products and exported in large quantities to other places The chief articles of trade are mustard, seed, rice, sona mung, arhar, mosuri, etc.

PANCHBIBI, JAMALGANJ and AKKELPUR are big centres where "Patal" is grown and exported in large quantities Potato is grown and exported in large quantities in villages, FULBARI, RAJAPUR and SAKARIA and betel leaf (pan) in GOKUL SHIBGANJ and BEHAR. Chillies are grown largely in GABTALI P S

The biggest 'mela' in the district is held at GOPINATHPUR annually during the Dol Purnima festival and lasts for about a month Cattle is largely sold in this fair besides other articles The 'PUNOT' mela in police station Khelal is held for 15 days in Magh or Falgun and cattle is also sold here

"Pharmaceutical Preparations" A guide to preparing patent medicines A formula may earn for you a lot Re 1/12 Industry Book Dept., Cal.

Fairs:—Principal cattle markets of the districts are Noongola, Baroduari, Mokamtola, Kahaloo, Gossainbari, Tarnihat, Chandanbaisa, Fulbari, Hatsherpur, Dhap, Rukindipur, Panchbibi, Santahar, Kalitalahat, Naruamala

Other fairs are —Mahasthan, P. S. Shibganj, last week of March, 8 days, Cow, Goat, Horse, Camel etc., Gangnagar P S Shibganj, 1st week of April, 8 days, Pakulla, P S Shariakandi Middle, of December 1 month, Balua, P S Shariakandi, 2nd week of January, 1 month, Boga, P S Shariakandi, Middle of February, 1 month

Goods from the interior are brought by carts, and during the rains, by boats External trade is carried on generally by rail

BURDWAN DISTRICT.

The district (2,697 sq miles) has a population of 1,575,699 The chief crop of the district is rice Grains and pulses and also oil seeds are grown The district contains rich deposits of coal

The cottage industries of the district are brass and bell-metal works of BONPAS, DAINHAT, PURBASTHALI, KALNA and MATIARI where large vessels and cooking utensils are made, KANCHANNAGAR is famous for its cutlery, the pottery industry thrives in the villages on the banks of the Bhagirathi, the clay of which is highly suitable, the belluti clay found near KALNA is used for glazing. BONPAS is famous for gold, silver and gilt ornaments, gun-metal and brass plates. There is a factory at BANSA for preparing tannin from myrobalan

Cloth is woven in the RANEEGANJ side of the district and also in the KALNA sub-division Silk weaving and mulberry rearing are carried on at MEMARI and RADHAKANTAPUR Tassar weaving is one of the chief industries of this district, specially round MANKAR. There are 52 rice mills in the district

Bengal Iron Co, have their factory at KULTI (population 11,574), while the Indian Iron and Steel Co, is situated at HIRAPUR now called BURNPUR (population 5,740), about 3 miles off Asansol. SAMDI has a big iron works

BURDWAN (population 39,613)—There are a number of rice mills and oil mills in the town There are many arathdars who are big merchants and dispose of imports from outside the district and province

RANEEGANJ (population 16,377), is 121 miles from Calcutta, well-known for its vast coal field The raisings of coal in the coal fields of Raneeganj are estimated at 7.6 million tons which is 30 p.c of the total output of India The major portion of the production of coal is exported to Calcutta by the E I Ry. Other raw produces such as paddy and sal prop are also exported from here. Raneeganj is a big market place for agricultural products such as rice, paddy and seeds

Coal tubs are mainly manufactured by the Raneeganj Motor and Engineering Works and paper is manufactured by the Bengal Paper Mills Ltd. There are several oil mills and rice mills, consuming local products In its vicinity are the famous pottery work of Burn & Co, the products being in demand in and outside Bengal The brass and bell-metal wares are also famous Oil and oil-cakes are also imported here in large quantities

ASANSOL (population 31,286) is one of the chief centres of coal industry It is a growing centre of trade There are about a dozen boot and shoe-making factories at Asansol preparing high class boots and shoes by hand

KALNA (population 9,567)—There are many rice mills in this town Grain trade is brisk from Falgun to Baisakh.

"Pharmaceutical Preparations" A guide to preparing patent medicines. A formula may earn for you a lot. Re. 1/12, Industry Book Dept., Cal.

KATWA (population, 7,772)—There are two or three rice mills here Grains and seeds are obtainable

The hats of **BALAGARH** and **SOMRA** are important markets

Fairs—Important fairs are held at —Kalichar, P S Mongolkote, Cattle every sunday, Nutanhat, P S Mongolkote, Cattle, every Monday, Pachandi, P S Ketugram, Cattle, every Thursday, Dadhia, P S Ketugram, Industrial and miscellaneous, 3 days from the day of Makar Saptami, Udhanpur, P S Ketugram, 3 days from the day of Poush Sankranti

CHITTAGONG DISTRICT.

The district covers an area of 2,570 sq miles and has a population of 1,797,038 of which 872,888 are males and 924,150 are females

Existence of oil is proved by the Seepage that is found in many parts of the Sitakund range Coal in very small quantities is also to be found in this range not far from Sitakund

Chittagong produces very good water-melons, pine-apples, liches, guava, pomelo and limes Plantains thrive and many excellent varieties are grown The chief produce of the district includes rice, tobacco, chilli, betel leaf, sugarcane, sunn hemp, tea etc, etc Tea is grown over 6,254 acres in 21 plantations, 2,058,797 lbs of black tea was produced during 1939

The district of Chittagong contains three ports, viz, **CHITTAGONG** (population 53,156), **COX'S BAZAR** (population 5,018) and **NILLA** **COX'S BAZAR** carries on coasting trade with customs ports while **NILLA** is merely a port for the shipment of rice The sea-borne trade of the district is thus confined to Chittagong on the Karnafuli river This port (pop 36,000) is now a major port

Foreign Trade of Chittagong—The following statement shows the value of the sea-borne trade of the Port of Chittagong for 1939 40 and previous years.—

	1936-37	1937-38	1938-39	1939-40
Imports			(in 1,000 rupees)

The United Kingdom and Burma were responsible for 64 and 31 per cent of the total trade respectively. Machinery, tea chests, iron and steel, manures and chemicals from the United Kingdom and rice, kerosene and wood and timber from Burma constituted the bulk of imports. Tea, raw jute, paraffin wax, raw cotton to the United Kingdom and tobacco, spices, seeds, oils and provisions to Burma formed the bulk of exports. Imports of salt from Aden greatly increased but those of betelnuts from the Straits Settlements declined, shipments of raw jute to France and of raw cotton to the United States and St. Domingo were also noteworthy.

Coasting Trade.—Coasting trade was shared mainly between Madras (Rs 9 66 lakhs) and Okha (Rs 7 78 lakhs, mostly cement) excluding the internal trade (Rs 5 67 lakhs). Figures for the four years ending 1939-40 follow

	1936-37	1937-38	1938-39	1939-40
		(in 1,000 rupees)		
Imports	1,85,27	41,98	21,84	22,90
Exports	84,12	32,10	9,72	3,31
	2,69,39	74,08	31,56	26,21

Cotton weaving is carried on to a considerable extent. The chief centres are SATBARIA, GASBERIA, DOLGHAT, PATTIYA, KATA-KHALI, NOAPARA, MADARSHA, FATEYABAD, HATHAZARI, MAHMUDBAZAR, DHEMSHA, SATKANIA, MIRSHARAI, TETAIYA, JANARDANPUR, BAMANTALA, MAHAJANHAT, RANGUNIA, COX'S BAZAR, RAMU, CHAKARIA, CHANDRACHONA, ZORWARGUNJ and RANGAMATI. Centres of silk weaving are at COX'S BAZAR, RAMU, MAHISHKHALI, CHAKARIA and RANGAMATI. Silk lungis are made on a large scale. Among the minor industries may be mentioned jute pressing, brazier's work, iron smithy, carpentry, jute and hemp cords making, fishing net making, etc. Cottage industries include bamboo-ware, mats, sola garlands, copperware, hand paper making, satfood, clay cooking vessels, etc. Boats of different sizes are constructed in Chittagong. Ship-building is an ancient industry of the district and there are carpenters expert in ship-building at GOASHAIL-DANGA. There are pearl fisheries at Cox's Bazar.

A cotton mill has been started in Chittagong. Salt is manufactured. There are 4 cotton ginning and pressing factories and 1 match factory in Chittagong.

Raw materials for paper pulp, such as Ekra grass, bamboos and reeds, etc., are available in large quantities. Bamboo handles for umbrellas are available.

Fairs:—1, Chittagong Agricultural Industrial and Health Exhibition at Chittagong town, held in the month of March. 2. Cox's Bazar Agricultural, Industrial and Health Exhibition at Cox's Bazar town, held in the month of February.

Learn the manufacturing processes of organic and inorganic acids and heavy chemicals from "Chemical Industries of India." Price Re. 1/12.

CHITTAGONG HILL TRACTS.

The area of the district is 5,413 square miles. Languages spoken are Chakma, Mughli or Arakanese, Tripura, Lushai, Khumi, and Bengali. Headquarters of the district is at Rangamati.

The District contains only a number of tea gardens, area covered being 157 acres with a total production of 45,227 lbs of black tea in 1939.

Practically speaking there is no industry in the whole of the district. Only manufacture of blankets, bamboo baskets and wooden pots is carried on cottage industry line. Major portion of the district is covered by forests abounding in teak, deodar and bamboos for umbrella handles. Cotton is also grown in some places.

DACCA DISTRICT.

The area covered by the district is 2,713 sq miles, the population being 3,423,577 of which 1,743,517 are males and 1,689,060 females.

The chief crops are rice, jute, pulses, mustard and other oil seeds, til, betel leaves, plantains (those of MUNSHIGANJ are famous) and sugarcane. In 1941, 142,280 acres were under jute. Cultivation is being gradually extended to the Madhupur jungle situated on the border of the district.

Cloth weaving is the biggest industry in the district. Of late four cotton mills have been started. DACCA, TARABO, SIDDIGANJ, NAWAPARA, KACHPUR, ABDULLAPUR, DHAMRAI are centres of hand-loom industries. Kasida cloth is made at SHANORA, BILLISWAR, MATIMAL, DAGAR, etc. Cap embroidery of local Mussalmans is famous. Dacca is the principal centre for making bangles and buttons. AMLIGOLA and NABABGANJ are famous for horn carving. Mother-of-pearl buttons is an important cottage industry of the district, the chief place of business being NANGALBAND. The principal villages where shell buttons are manufactured are situated within a short distance from each other in the Narayanganj subdivision. Bell-metal wares for domestic use are made at BRAHMANGAON, DHANKUNIA, LOHAJANG, FIRINGIBAZAR, ABDULLAPUR, SHOLAGHUR and DHAMRAI. Boat building is a lucrative occupation in the district and boat-makers are to be found in almost every village. About 8,000 people are engaged in the pottery industry.

The export and import trade of the district pass through NARAYANGANJ. The chief imports are piece-goods, salt, kerosene oil, wines, shoes, umbrellas from Calcutta, lime and coal from Assam, timber from Chittagong and Assam, rice is imported in large quantities from Backerganj. The chief exports are jute (about 4 lakhs of tons, of which $\frac{2}{5}$ ths come from Mymensingh, $\frac{1}{4}$ th from Tipperah, $\frac{1}{5}$ th from Dacca), hides, pulses, betel leaves, oil-seeds, pottery.

DACCA (population 138,518)—It is the second city in Bengal, and is the seat of a University. It is a thriving industrial town. Shell bangles and gold and silver jewellery of Dacca are famous. House boats are made by local carpenters. Toilet soaps and washing soaps are manufactured. Horn and mother of pearl buttons, steel boxes and trunks, brass and bell metal articles are made. Matches are manufactured here.

NARAYANGANJ (population 34,149)—Is the centre of jute trade in Eastern Bengal. It imports lime, honey and oranges from Sylhet, timber from Rangpur, tobacco from Purneah district, cotton comes here from Comilla, Chittagong and Hill Tipperah, hides and skins come from Mymensingh, kerosene oil, teak wood, ivory, black pepper, oil-cakes, etc., come from the interior villages, these things being also

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re. 1/12. Industry Book Dept., Cal.

brought from Bihar. Rice comes from Backerganj and articles of foreign manufacture come from Calcutta direct, country-made sugar is brought from Bihar and Jessore. Goods are carried by rail and steamers and sometimes by boat. Other marts are JAGIRHAT, BAIDYAR-BAZAR, NARSINGDI, MIRKADIM, LOHAJANG.

Fairs:—Religious assemblies are held at Dhamrai, Nangalband (during March) near Sonargaon and at Lohajang

DARJEELING DISTRICT.

The area of the district is 1 274 sq miles and the population 319,979. Languages spoken are Nepali, Bhutia, Lepcha, Bengali and Hindi. The district is situated at an elevation of 7,500 ft.

The district contains a good number of tea gardens. Cinchona is also cultivated here. The forest products include tun and sal. Chiretta, madder and aconite are collected by local people. The mineral products are coal, iron, copper, etc., which are but very little worked.

Tea is grown over about 62,541 acres of land and has a good flavour. There are 137 tea plantations in the district. Black tea produced in 1939 was 22.1 million lbs and green tea 1.3 millions lbs.

Coarse woollen stockings and comforters, satianjis, saris are woven. Saris, chaddars and alwans are made at SILIGURI. There are breweries at SONADA. Manufacture of blankets, kukris, bamboo-baskets and wooden pots is carried on cottage industry lines. Demand for these articles is local.

The chief exports to Calcutta are tea, jute and gunny bags and the imports are piecegoods, kerosene oil and salt. Rice comes from Dinajpur and coal and coke from Burdwan.

Imports from Nepal are food grains, piecegoods, manufactured wool, hides, sheep, goats, cattle and poultry and exports to that place are European goods, cotton twist, salt, kerosene oil, tobacco and food grains. The same is the nature of trade with Sikkim. Bhutan trade passes through Jalpaiguri district.

DARJEELING (population 19,903)—It is the summer seat of the Bengal Government. KALIMPONG (population 8,776) is an important centre of wool and carpet weaving and lac making. Other important towns are KURSEONG (population 7,451) and SILIGURI (population 6,667).

Fair:—One Agricultural and Industrial fair was held in January 1942 at Bijanbari.

DINAJPUR DISTRICT.

The area comprised in the district is 3,946 sq miles with a population of 1,755,019 of which 923,800 are males and 831,218 females.

The chief crop in the district is rice which is cultivated almost everywhere. In fact rice is under cultivation on about 1 million of acres. Dinajpur is also famous for jute (69,420 acres in 1941). Sugarcane is being grown on an increasingly large scale in the district.

There are several establishments for weaving jute mattresses as a home industry. Silk endi is manufactured on a small scale in villages KHALAKHALI, RUHIA and BARSHALUPARA. Raw endi is available in small quantity. There are 39 factories in the district.

Cotton weaving is also carried on in many places, the main centres of production being DEBIRBAZAR, JAUNIA, SHABAZPUR, CHIRIBANDAR, RANISANKALI, KHANSHAMA, KESARBARI, RANIRBANDAR, CHURAMON and BHOROTE. Mosquito curtain cloth is manufactured at ITAHAR.

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re. 1/12. Industry Book Dept., Cal.

LAHIRIHAT, BOCHAGANJ, GORIA, KHANSAMA, RAIGANJ DHANKOL and PATIRAJ are centres of trade

Good chura is available here Mats are woven here with a variety of sticks of a certain kind of grass Fine specimens of pottery are also made Gur is made at BIRGANJ and PIRGANJ. There is one sugar mill at SETABGANJ

Tanning is an important industry, tanned hides being sent to Calcutta Cartwheels are made from timber brought from Siliguri and Duars Axes, iron cart bands, ploughs and iron utensils are made at PATNITOLA, KOTALI, PORSHA and RAIGANJ

Fairs—Famous melas are held at Nekmurd and Alewakhowa where live-stock and agricultural implements are brought for sale Others include Nekmurd, P S Ranishankoil, 13th April, 15 days, Allowakhwa, P S Alawari, 31st October, 15 days, Kantanagar, P S Kaharol, 31st October, 15 days, Haripur, P S Haripur, 1st March, 15 days, Sibganj, P S Thakurgaon, 15th March, 14 days, Dhemdheml, P S Birganj, 18th October, 15 days, Patiram, P O Balurghat, 26th January, 15 days, Dhaldighi, P S Gangarampur, 8th February, 22 days; Chintamon, P S Phulbari, 25th April, 1 month, Kukramoni, P S Kaliaganj, 14th April, one month, Bindole, P S Raiganj, 1st November, 15 days, Kadihat, P S Ranishankoil, 3rd October, 14 days; Ghoraghat Jalalpur, P S Ghoraghat, 15th January, one month, Lahirdighi, P S Bahadangi, 3rd October, 15 days, Jinpir, P S Birganj, 3rd December 7 days, Kaliakamura, P S Kushmundi, 15th March, one month, Phulpur, P O Chirribandar, 14th April, 7 days, Jayganj, P S Khansama, 15th March, 15 days, Hili, middle of January one month

FARIDPUR DISTRICT.

The district comprises an area of 2,347 sq miles and is peopled by 2,362,315 of whom 1,206,348 are males and 1,155,867 females

Faridpur is eminently a rice-growing tract Jute is also cultivated in the district, 128,040 acres being under the crop during 1941 Other agricultural crops include grains and pulses, rape and mustard, condiments and fruits and vegetables Cultivation of sugar-cane, tobacco and groundnut is making headway

Bell metal and copper utensils are not manufactured at all in this district Brass utensils are however made from imported brass sheets at and near PALONG the chief centre being NARIA, BILASHKAN, DASARATA, KATALBARI and BAGHIA Boat-loads of clay toys and earthenwares are taken to Backerganj during the paddy harvesting season and bartered for paddy

Sitalpati mats of fine quality are also made from motia grass Checks, chintz and better class dputies and saries are made at RAJBARI The weavers of DEORA produce excellent cloths, especially saries which are sold in large quantities at the nearest markets Iron implements are made all over the district Gur is made at PANGSA and RAJBARI

GOALUNDO is the chief market in this district and is situated on the junction of the Padma and the Jamuna, about 155 miles away from Calcutta It is the terminus of the railway on this line It is a mart through which enormous trade passes Other centres of trade in the district are FARIDPUR (population 15,516), PANGSA BELGACHI, RAJBARI (population 7,104), PATURIA and KHAN KHANAPUR, MADARIPUR is a centre of jute trade The chief articles of trade are fishes (Hilsa of this place is famous), water-melon (also famous).

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS, Re. 1/12. Industry Book Dept., Calcutta.

HOOGHLY DISTRICT

The HOOGHLY district (4,232 sq miles) runs along the western bank of the river Hooghly. The E. I R line runs through it. The population is 13,74,919.

Potato, vegetables, plantain and pulses grow abundantly in the district. Palms are plentiful.

Cottage industries of this district comprises carpentry at CHANDERNAGORE, for Calcutta markets, brass and bell metal work at BALLY, MAHESH, SERAMPORE, BANSBERIA and KAMARPARA. Uranis and pagrees are made and exported to U P and the Punjab. Tassar-weaving is practised in cottages at HARIPAL, KAIKALA, RAJBALHAT and BEGUMPUR, SERAMPORE and FARASDANGA are important centres of cotton weaving. Paper making is practised (hand made) at MOHUAD, GOSSAINMALPARA, NEALA, BALLIDEWANGANJ by "Kagazis" (Mahomedans) but the industry is on the wane. "Chicken Works" industry is found within the area under HARIPAL and TARAKESWAR thanas. The industry for manufacturing burnt bricks and thatching tiles are also found in fairly flourishing conditions in areas under UTTARPARA and eastern portion of CHANDITOLA thanas. This industry is also found within BALARAMBATI UNION of SINGUR thana. Cotton tape is made within NABABPUR-KUMIRMORA Union, Rope at CHATRA and KUMIRMORA, horngoods at MAKHLA, palm-leaf hand fans at SINGUR and gold-polishing work at KRISHNORAMPUR.

There are 60 factories in the district giving employment to 59,318 persons. Of them 29 are rice mills, 16 jute mills and 6 cotton mills.

MAGRA—The chief articles of trade here are rice and paddy, potatoes, oil-cakes, jute, kalai, etc. A good sand business with Calcutta is carried on, as also business in castor-cakes which are stocked in Ashar and sold away in Bhadra when the potato season sets in.

CHAMPADANGA—This is a big market and remarkable for paddy, rice, jute, potatoes, oil cakes and vegetables produces. The market is held twice a week on Wednesday and Saturday.

SERAMPORE (population 39,056)—There are several cotton weaving and spinning mills, where dhuties and saries are manufactured and are extensively used all over Bengal. The most important of them are the Bengal Luxmi Cotton Mills, Rampooria Cotton Mills and Bangeswari Cotton Mills. A few other cotton mills are also under construction. There are paper works in the locality. Business also centres round betel-leaf.

SHEORAFULLY (Baidyabati) has a very flourishing hat, held twice a week on Saturdays and Tuesdays.

BAIDYABATI (population 18,486)—It is one of the biggest marts in Bengal. Potatoes in large quantities are sold there wholesale. Bananas, pumpkins and other vegetables also come to the hat in huge quantities. Plantains of this place are sent to different parts of Northern India, this mart is the chief source of vegetables supply for Calcutta. Castor cakes are sold here in considerable quantities.

CHANDERNAGORE (French Settlement) Cotton cloths manufactured locally are much appreciated for nicety and durability and are known throughout Bengal as Farasdanga dhuties and saries. This place is also noted for the manufacture of unpolished chairs which are sent down to Calcutta daily. Business in plantain and coconut goes on extensively throughout the year.

Other industrial and commercial towns are: BANSBERIA (population 14,221), RISHRA-KONNAGAR (population 26,363), CHAMP-

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS, Re. 1/12, Industry Book Dept., Calcutta.

DANI (population 25,363), UTTARPARA (population 9,350), KOTRUNG (population 7,160), BHADRESHAR (population 22,992), CHINSURAH (population 32,534) and TARAKESWAR

Fairs:—Important fairs in the district are —Serampore, Khetra Saha's Industrial Exhibition, March 1 month, Mahesh, Rathajatra, July, Tarakeshwar, Sivratri, March and Chaitra Sankranti Mela, April 2 days, Dihiberaria, Arambagh, Ranjit Ray's Dighi Mela, on Baruni days, Khanakul, Chanteswari Mela, Rangtakhali, Arambagh, Rash Mela, Agrahayan 5 days, Bali, Goghat, Rash Mela, Agrahayan, 5 days, Krishnanagore, Khanakul, Rash Mela, Agrahayan, 5 days, Arambagh, Olaihibi Mela, Chaitra, 3 days, Basudebpur, Arambagh, Rash Mela Agrahayan, 5 days, Dhulepur, Goghat, Kalasana Mela, Pous Sankranti day and following 2 days, Jarur, Khanakul, Bagabati Mela, 1st Baisakh, Batanal Arambagh, Hooghly, Rath Mela, July, Nandanpur, Khanakul, Rash Mela, November, Kokanda, Goghat, Kokand Mela, Baiuni day, Ghoshpur, Khanakul, Sri Panchami Mela, February, Raghubati, Goghat, Chaitra Sankranti Mela, Goghat, Kadamrasul Mela, 11th, 12th and 13th Falgun, Pandua in Sadar Sub division from the 1st of Magh for a month

HOWRAH DISTRICT.

The district (530 sq miles) is inhabited by 1,090,379 souls, being the smallest district in the Presidency

Chief crops in the district include rice and grains. Fruits and vegetables grow plentifully in the district. Jute is grown on a limited scale.

Cotton weaving in this district with Serampore pattern of looms is practised. The chief centres of weaving are ANDUL and ULUBERIA. ANDUL is famous for dhotis of fine quality. Paper making by "Kagzis" is practised to a small extent at MAINAN. The tape and newar weaving industry is confined to a few villages of the district.

Furniture making of venesta wood, glass factory, padlock industry, weaving and cottage industries flourish in this district.

HOWRAH (population 224,873), the head quarter town, is situated on the opposite side of Calcutta and is connected by a pontoon bridge with it. It is the important terminus of the two great Railways traversing Northern, Southern and Central India. The E I Railway carries the agricultural products of Bihar and the United Provinces, the richest agricultural province of India and also serves the coal districts of Bengal and Bihar. The Bengal-Nagpur Railway penetrates into the interior of C P and carries merchandise of foreign trade for that province. Another important branch of the Railway runs as far as Waltair and serves Orissa and a part of the Madras Presidency.

The goods sheds of the Howrah Station are extensive and have a place set apart to serve as a grain market of Calcutta, nay of the whole of Northern India. Here in this market can be found brokers who are busy transacting business in grains that have been consigned to them in wagons from towns in U P, Bihar and the Punjab.

The chief articles of trade consist of mustard oil, wheat, linseed, gram, peas, castor seed, poppy seed, etc. which are sold in the market. All grains and seeds except rice and paddy are sent to Howrah Station, and rice and paddy are consigned to RAMKRISHNAPUR and marketed there. Communication with this place is also easy, goods being brought by rail-steamer and country boats. The mills of Calcutta and Howrah make their purchases here.

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re. 1/12. Industry Book Dept., Cal.

There are several jute mills, engineering workshops, brick fields and flour mills on the banks of the Ganges and these mills engage a large number of men. Besides there is a big mechanical workshops of the E. I. Rly at LILLOAH, not very far off from Howrah. There are several industrial concerns also.

There are three hats in Howrah town called the "Mongla Hats" the one at Ramkrishnapur was the original Howrah Hat where cloths made out of handlooms and ready made coats and shirts are sold, extensive business in molasses is carried on here. The second hat is called Mimam hat on the Telkalghat Road and the third one is on the Dobson Road, where ready made coats and shirts are sold.

SALKIA—It is one of the most important industrial towns in the district and being in the neighbourhood of Calcutta it is growing in importance. There are a number of cotton mills and jute presses in the town. A number of engineering workshops exist, while aluminium wares, ropes, etc., are made on a large scale.

SANTRAGACHI—There is a railway workshop of the Bengal-Nagpur Railway at this place. There is a glass factory also. The place is famous for OL commonly known as Elephant's foot.

BALLY (population 30,347). It is an industrial town with a few jute mill along the Ganges.

ULUBERIA—The Sub-divisional town has little commercial importance though it stands on the river Hooghly. The population of the sub-division is mainly agricultural and the staple crop is paddy. Betei leaves are also grown in large quantities and the Calcutta markets get their main supply of this article of luxury from this sub-division. Coconuts grow in abundance and are sometimes exported from the Uluberia Circle. The local earthen pots which are very good in quality and the Hogla-grass mats, made in abundance are sent to Calcutta markets in large quantities. The river sides of the sub-division have grown in importance on account of the existence of several jute mills, cotton mills and rice mills. The rice mills in the Shampur area, about 20 in number, import paddy from the Sundarbans and Balasore and export rice to Rangoon and other places. Small cottage industries such as making fine woollen shawls in village Jadurberia, making combs from buffalo horns in villages Thaha and Deulgram, making fine clay models in village Krishnabati, cannot flourish for want of support. Roofing tiles are made in abundance in this sub-division also.

JALPAIGURI DISTRICT.

The district (2,884 sq miles) has a population of 983,170.

The produce of the district includes paddy, cabbage, potato, tobacco and betelnut. Tobacco of the district is gaining in importance. Timber grows abundantly. There are 189 tea estates, 132,159 acres being under tea. In 1940 black tea produced in the district amounted to 86,521,355 lbs and green tea 3,256,593 lbs.

The most important cottage industry is cotton weaving which is carried on mostly at PAHARPUR, TITALYA, KRISTNAGAR, MEERGHAR, BALLIRPARA and JHOLIA. Gunny cloth and coarse silk endi are woven throughout this district. Tea is the chief industry of the district.

The district has a fair trade with Bhutan in piece-goods and silk, which are exported, timber and oranges are also imported from Bhutan. Rice is imported from Dinajpur; other imports are piece-goods, machinery, corrugated iron, tea garden requisites. Centres of trade are JALPAIGURI, TITALYA, RAJNAGAR, SALDAYA, DEBI.

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products," Re. 1/12. Industry Book Dept., Cal.

GANJ, BARUA, JORPOKRI, MAINAGURI, ALIPUR, BUXA The district is well served by roads and railways

Fairs—Fairs are held at Jalpes, Mainaguri, Sivaiairi, 1 month, Banskata, Patgram, Baruni Snan, 15 days, Boalmari, Boda, during Baruni Snan, 15 days.

JESSORE DISTRICT

The district of Jessore has an area of 2,909 sq miles and a population of 1,671,251 Clumps of bamboos, groves of arecas and other fruit trees are common in the district

Mat making industry is well organised There are colonies of garesies (blanket weavers) from Arrah who weave blankets of coarse quality

KOTCHANDPUR, JESSORE, MADHYAKUL, KESHABPUR and RAJARHAT are the main centres of cloth weaving Date-palm sugar and gur industry are of local importance and the output is estimated at about 25,000 maunds Date sugar and gur are made on a large scale however at KOTCHANDPUR Baskets are also made Combs of buffalo horns and celluloid articles are also made

JESSORE (population 11,356) is the seat of celluloid comb industry, there being three factories working at present

KOTCHANDPUR (population 6,115) is the largest trade market in the district MAHESPUR (population 3,321) is the next town of some importance to trade NALDANGA, CHAUGACHA, MAGURA, KESHABPUR, JHENIDAH, CHANDKHALI, KHAJURA are the other trade centres

The district is served by the Bengal & Assam Railway The road from Calcutta to Jessore is important and the rivers are all navigable to some extent

Fairs—Important fairs are held at kalia, Narail, Maich, Rupganj, Tuesday and Saturdays in Baisakh, Ganganandapur, Bongaon, December, Harishpur, Bongaon, January, Garapota, Bongaon, April, Gobra-pur, Bongaon, April, Boyra, Bongaon, May, Matigage, Bongaon, June, Gopalnagar, Bongaon, May, Charaigachi Gaighata, Agrahayan; Moraldanga, Gaighata, Pous, Jaleswar, Pous and Chaitra, Ichapur, Gaighata, Chaitra, Duma, Gaighata, Baisakh, Natima, Moheshpur, Jaista, Tengarpur, Moheshpur, Jaista, Khalishpur, Moheshpur, Falgoon, Moheshpur Municipality, Bongaon, Sravan, Benapole, Sarsha, Jessore, Magh, Subarnakhali, Sarsha Falgoon

KHULNA DISTRICT.

The district of Khulna (4,730 sq miles), has a population of 19,43,555 Average annual rainfall is about 67"

Betel leaf, pulses, oil seeds, rice, etc are grown There are orchards and garden lands

Considerable quantity of fish is sent to Calcutta Firewood, shells, honey, bees-wax, golpata, canes, reeds are the forest products exported, besides sundri timber Coarse matting is exported

The chief cottage industry of this district is cutlery It is scattered all over the thanas KALIGANJ and SHAMNAGORE and daos, scissors, nut-crackers, sacrificial knives, etc, are the chief products Cotton cloth is manufactured at PHULTALA, BARDAL, MORRELGANJ, ELAIPUR, BAGERHAT, MANGURIA and DUMRIA BAGERHAT has recently become famous for coatings, shirtings, woollen wrappers, etc. Molasses and sugar of different varieties, are made in GAZIRHAT

The earthen pots and jars of KALIGANJ and black earthen jars (used for storing oils and grains) are exported in large quantities

"Careers of Agents and Middlemen" A reliable guide on the functions scopes and qualification of Agents and Middlemen Price Re. 1/4-

The chief trade centres are KHULNA (population 19,120), DAULATPUR, FULTALA, ALAIPUR, KAPILMUNI, CHAKNAGAR, CHALNA, KUTARHAT, etc. in the Khulna sub-division: MANSA, BAGERHAT, FAKIRHAT, MORHELGANJ, etc. in the Bagerhat sub-division, SATKHIRA (population 11,241), NAWABANKI, DEBHATTA, CHANDURIA, TALA, BASANTPUR in the Satkhira sub-division. Trade is carried on in permanent markets and hats.

MALDAH DISTRICT.

The MALDAH district has an area of 1,809 sq miles and a population of 1,053,764

The district possesses magnificent mango groves and gardens. Mangoes of Maldah are considered best in Bengal both in size and in quality, the chief trade centre being ENGLISH BAZAR whence mangoes are carried to Calcutta and other places by boats and by rail

Mulberry silkworm rearing both for seed-cocoons and commercial cocoons purpose as also silk reeling are the most important industry of the district and are conducted on both a small and a large scale. The dried cocoons are procured from Hats and also from rearers direct. The silk is mostly disposed of to merchants of Berhampore (Gangjam) Trichinopoly, Salem, Triplicane, Masulipatam, Travancore, Secunderabad, Belgaum, Surat, Sujanagar (Gurudaspur), Mabarakpur, (Azimgarh), Bijnor, Amritsar, Anantapur (M & S M Rly), North Arcot, Bangalore, Tanjore, Bhandara, Akyab, Kayts (Ceylon), Chittagong, Bankura, Benares and other places. The silk of superior quality is now in great demand for preparing parachute as such the industry is playing an important part in war efforts

Matka weaving industry is carried on in GOYESHPUR and JYOT (English bazar thana), NARATTAMPUR, MOHANBAG, SIONAGAR and DEWANJAGAR (Sibganj thana). Pure silk weaving is carried on in SIBGANJ thana. Mahajans collect the goods and dispose of them to merchants of Rajshahi, English Bazar and Calcutta.

Brass and bell-metal articles are made at ENGLISH BAZAR, KALIGRAM, KANSHARIPARA, (NAWABGANJ) SANKARBATTI, CHAR JOT PRATAP, MAJPARA, BILPARAND, AJAIPUR, Lotas, known as Saidullapur lotas, cups and spoons of bell-metal of SANKARBATTI and thalis (bell-metal) of different shapes and sizes of KANSHARIPARA are famous.

Cloth is woven at KHARBA, MANIHANDA and GOBINDAPUR in Kharba Thana, KALAIACHUCK and HARINAGAR, LAHARPUR, SATRAJITPUR and JAHANGIRPUR in Shibganj Thana, katari cloth, a fine coloured fabric made out of a combination of silk and cotton, is woven at SHAHAPUR, BALA, and NAGESWARPUR in English Bazar Thana. This is exported to foreign countries through Bombay.

Hides are tanned and shoes are made at HYDERPUR village (English Bazar).

Important rice and paddy centres are ROHONPUR AIHO and BALIA NAWABGANJ, GAZOLE, MIHA and DEBIPUR.

AMINGANJHAT—Chief articles of trade are mulberry silk, cocoon, wound and raw silk. Transactions sometimes rise up to Rs 1,00,000 in a single market day. It is reached by carts.

Other trade centres are ENGLISH BAZAR (population 16,907) and NAWABGANJ (population 15,326).

Fair:—A fair is held at Iho from Jan 18 to Feb 3. A big mela is held at Mathurapur in Manickchak P. S., called Sivaratri Mela, visited by about 30,000 men and women of the adjacent areas. People attach much importance to this fair.

"Careers of Agents and Middlemen" A reliable guide on the functions, scopes and qualification of Agents and Middlemen. Price Re. 1/4.

MIDNAPUR DISTRICT.

The district (population 27,98,948) has an area of 5,145 sq miles

The cottage industries comprise carpentry at GHATAL, brass and bell-metal work at CHANDRAKONA, RAMJIBANPUR, KHARAR and GHATAL (highly organised) KHARAR is famous for thalis and gharas Mats are made from locally produced grass in the SABONG and PONSURA THANAS (with about 1,000 workers) The industry is a flourishing one There are large exports of pottery works from the Ghatal sub-division Silk and mulberry weaving are carried on at GHATAL, NIMTALA, BIRSINGHA and DESHPUR Tassar and cotton weaving are carried on at GHATAL (important centre), RADHANAGAR and RAMJIBANPUR, coloured saries are woven at CHANDRAKONA and blankets are woven by a colony of garesies.

There are 57 rice mills in the district

The principal marts are KHARAGPUR (population 58,134) which is a big railway town having a big railway workshop of B. N. Ry CHANDRAKONA (population 6,016) is famous for brass metal utensils, ghee (both cow and buffalo), butter, curdled milk and milk, CONTAL, TAMLUK (population 9,095) (on the Rupnarain) and RAMJIBANPUR (population 6,320)

Fairs—Important fairs are—In TAMLUK, Mahisadal, Rath, 7 days, Reapara, Sivaratri, 7 days, Bamunara, Akshaya Tritia, Raghunathbari, Rath, 3 days, Bahisbere, Rath, 7 days, Tamluk, Paush Sankranti and Chaitra Sankranti, Moya (Garsafat), Rash, 3 days, Gajina, Moyna, Bhadra Sankranti, 7 days, Shyam Sundarpur, Panskura, Last Saturday in Chaitra In SABANG, Dangra, Baisak, Mahigram, Charak Sankranti, Khawkhand Raghunathpore, Tulshi Charan Mela, 1st day of Magh, Kolanda, Basu Jat Mela, 2nd & 3rd Magh, Shitalda, Shiva Chaturdashi Day, Kerarbar, last day in Chaitra, Tilantapara, last day of Chaitra, Perua, last day of Chaitra In GARBETA—Raghunathbari and Kantapal, Bagri Krishnagar Dole Mela 4 days; Kantore, Chaitra Sankranti, 3 days, Pingbani, Chaitra Sankranti, Balarampur, Mir Bagan Mela, "Muharram" Festival, Sarenga, Sarenga Mela, 3rd March, In DEBRA—Chandpur, Kedar Bhur Bhari Mela, 12 days from Pous Sankranti, Marotala Satyapur, Satyapur Mela, last day of Baisak In DANTON—Sarasankya, Pous Sankranti, Nahanjara, last day of Pous In KHARAGPUR—Madpur, Gajan Mela, last day of Baisak, Barbanshi Ghalagharay, during "Kali-Puja Festival" and Gajan in Chaitra and Baisak In SALBANI—Megha Khan alias Ramnagar, Saraswati Mela Vegetables, dry fishes, pottery etc, Karnagarh, Mohamaya Mela, Pous Sankranti, vegetables, dry fishes, pottery, etc, Karnagarh, Jhareswar Jat, 30th and 31st Chaitra In KESHAPUR—Neradeul, Kameshwar Jat Eight days from Pous Sankranti, Dalhara, Bateswar Mela, Chaitra Sankranti; Bakrabad, Narayangarh, Midnapur, Chaitra Sankranti Mela, Enayetpur, Thana Midnapur, Hati Dhara Burir Jat Day after Pous Sankranti.

MURSHIDABAD DISTRICT.

The district of MURSHIDABAD comprises an area of 2,091 sq miles and is inhabited by 1,370,677 people

Brass and bell-metal works of KHAGRA, BERHAMPUR, KANDI and JANGIPUR, are famous Small figures of goods are also moulded here Nut-crackers, locks and nails are made at DHULIAN and steel trunks, safes, etc, are made at JIAGANJ, BHAGAWANGOLA and at SIMULIA in BHARATPUR police-station

Pottery of superior quality are made at KANTHALIA and BOLTULI GORA BAZAR and ISLAMPUR are important centres of silk reeling and weaving There are several filatures in this district Mul-

New Customers: How to Create—How to Hold—That wonderful book by K. M. Banerjee for developing your sales. Rs. 2. Industry Book Dept.

berry silk weaving is practised at KHAGRA, BALUCHAR, MIRZAPUR, etc. Soap is made at LALBAGH.

Ivory-carving is carried on in this district. The best carvers of India are found in MURSHIDABAD (population 9,483), KHAGRA and MATHRA being the important centres. Coarse blankets are woven in JANGIPUR. The district (Jangipur and Sadar sub-division area) is an important centre of lac turnery. Paper making by hand is also practised at KRISTOPUR and SHIRAMPUR in S D Jangipur.

BERHAMPUR (population 27,403)—The chief industry of the place is silk weaving. The local merchants have business connection with Madras, Bombay and Calcutta firms and through them with foreign countries also. There is a cocoon breeding farm under the Horticultural Department with a weaving institute attached to it. Mangoes are plentiful during summer.

JIAGANJ (population 10,998)—The chief market of the district is JIAGANJ where various grains, pulses and seeds known as Deshwal goods and free from admixture are obtainable. Balaposh and steel trunks are the articles of trade of this place.

Other important marts are KANDI (population 12,616) with many workshops for bell-metal industry, and DHULIAN (population 9,767).

Fairs:—Religious fairs are held at Kandi while those at Kalitola held in "Pous" and Rudradeva are famous. Other fairs are, —Bishnupur Kalitola, December, Khagra, (January), Lalgola, Lalbagh, Rathjatra, Kiriteswari, P. S Nabagram, every Tuesday in Pous; Panchthupi, January and February.

MYMENSINGH DISTRICT.

MYMENSINGH with an area of 6,332 sq miles is the most thickly populated district in Bengal, being peopled by 5,129,664 persons.

Rice is the staple crop. Roughly one-fourth of Bengal jute crop is raised in this district between BHAIKAB BAZAR and GAFARGAON. During 1941, 300,500 acres of land were under jute in the district.

Cotton weaving is practised on a large scale. Cloth (endi) is woven at SANDHIKONA (NETROKONA). Fine sitalpati mats are woven. Bell-metal wares are made at KAGMARI (Tangail). The bell-metal industry at ISLAMPUR (Jamalpur), has practically died out as an industry. This is now confined to very few families. Cutlery of KARGON and BAJITPUR are famous. Cane boxes, molasses and mustard oil are also produced. The so-called Dacca cheese is made at ITNA and biscuits and loaf making are done in KISHOREGANJ sub-division. Pearl finishing is done on the Meghna and the local jewellers purchase the pearls, fix the price and export them to Calcutta. Canework of CHAR ISWARDI is in great demand in the Mymensingh town. Fine specimens of pottery are made. KISHOREGANJ, BAJITPUR produce embroidered and high class saris. Dayamayee Joyanti Sugar Mills has been started at KISHOREGANJ. TANGAIL saris are famous and are extensively sold throughout Bengal. These compete with finer qualities of Farasdanga, Santipur and Howrah. Finer dhuties are made at PATHRAIL, KAGMARI in BAJITPUR. Paper toys are made at BOWAKHOLA.

Hemp strings and ropes are largely manufactured at BHAIKAB and the neighbouring char lands. Dragging ropes (goon for boats) are made in the Meghna side and in Kishoreganj sub-division. High quality chairs, bedsteads, fancy articles of wood, e.g. spectacles cases, clock-brackets, teapots, etc. hookah tubes are made at BAJITPUR. There are match factories using local timber.

Chief exports are jute (to Calcutta) being baled at Serajganj and Narayanganj, mustard, fish and hides and skin.

New Customers: How to Create—How to Hold—That wonderful book by K. M. Banerjee for developing your sales. Rs. 2 Industry Book Dept.

Important centres of trade are MYMENSINGH (population 30,480) SHERPUR (population 19,547), JAMALPUR (23,077), TANGAIL, (16,082), NETROKONA (population 10,980), KISHOREGANJ (population 15,437), BAJTIPUR (11,650), SUBARNAKHALI (jute), BHAIRAB BAZAR (miscellaneous business centre), DUTTS BAZAR (jute), KATHIADI (sugar and jute), KARIMGANJ (jute), NILGANJ (fish, jute), GOURIPUR (rice and jute), SARISHABARI (biggest market for jute), NIKLIDAMPARA (jute) TARAGANJ BAZAR, P S Nalitabari is one of the important centres of the District for export of paddy and also Garo cotton

Fair:—A cattle fair is held at Jamalpur during January

NADIA DISTRICT.

The district of NADIA (3,404 sq miles, population 1,532,418) takes its name from Nabadwip

Orchards and market gardens occupy about 100,000 acres and produce good mangoes and potatoes which are consumed in Calcutta.

The chief industries of the district are cotton weaving, pottery, basket-making, brass, copper and bell-metal work, gur making, etc SANTIPUR is famous for fine saries and dhuties KUSHTIA is also of growing importance and has a cotton mill It is also famous for chaddar and metal utensils The pottery industry is carried on, on a large scale, in RANAGHAT, MEHERPUR, KRISHNAGAR, SANTIPUR etc The earthenware models of KRISHNAGAR, RANAGHAT and SANTIPUR have a reputation of their own They find a market even in European countries Tin box making is now progressing at KRISHNAGAR Blankets are made at GOARI, MAJDIA, MAHESHGANJ, SHIKARPUR and also at KRISHNAGAR, MEHERPUR, and SWARUPGANJ, and the products are disposed of locally and abroad

KALIGANJ and DEBAGRAM of Sadar Sub-division and Palashipara of Meherpur Sub-division are famous for hat making industry BALIADANGA, P S Karumpur and Chulkhali, P S Tehatta are famous for conchshell cutting industry

A big industry has taken its rise at Darsana e.g., Sugar Mill of Messrs Carew and Co Ltd, in the Chuadanga Sub-division Manufacture of sugar is conducted on a large scale at this Sugar Mill Manufacture of spirit also is being carried on at the Distillery of Messrs Carew and Co There is a factory for making sugar cane crushing machine of Messrs Renwick & Co, at Kushtia There are also two hosiery manufacturing concerns, one at KUSHTIA and other at BARADI

A pucca tarmacadamised trunk road now joins this district with Calcutta

A large sugar mill has been built at PLASSEY There is also a factory for making sugar cane crushing machines which deserves mention

Important trading centres are KRISHNAGAR (population 24,284), NABADWIP (population 18,861), SWARUPGANJ, RANAGHAT (population 11,395), HAT-BOALIA, CHUADANGA, KUSHTIA (population 9,405), KUMARKHALI and KHOKSA MEHERPUR is an industrial centre for cloth, gur, hides, etc

Fair:—Kuliarpot mela in December for three days is held under the auspices of Calcutta Pinjarapole Society at Kanchrapara in which a big cattle show is a prominent feature Tehatta mela at Tehatta continues for a month in December from Pous Sankranti Baidya Nath tala Mela is held for a fortnight in February every year from Shib chaturdashi There is big cattle market at Munshiganj.

Numerous fairs during religious festivals are held at Nabadwip (Feb and Nov), at Santipur (in Nov), at Kulia (in Jan) and at

The Sphere of Tea. An exposition of the Cultivation, Manufacture and Trade of Tea in India. Rs. 3. Industry Book Dept, Shambazar, Calcutta.

Ghospara (in March). A fair is held at Ballavpur in the 2nd week of January. Big industrial and agricultural fairs are—(1) Barodole Mela at Krishnagar Rajbati compound in April, duration 15 days (2) Jugal Kishore Mela at Arahatta in the months of May and June, 1 month.

NOAKHALI DISTRICT.

The NOAKHALI district (1,591 sq miles) contains a tract of main land together with a large number of islands (Sandwip and Hatia) in the mouth of the Meghna. The population is 1,706,652.

Chief centres of cotton weaving are FENI, CHHAGALNAIYA, PARASURAM, BEGUMGANJ, FATEHPUR, LAKHIPUR and CHANDRAGANJ. Coarse and fine yarns locally spun are available in the markets of FENI, CHHAGALNAIYA, PARASURAM and SONAGAZI and are exported outside the district. Check, chintzes, dhuties are woven, mosquito-nets are made at CHAUMUHANI. Sitalpatis, Chiknis and chatais are made at MATABI, FAZIPUR, PARASURAM and CHHAGALNAIYA both for export and local use. Other industries are cutlery, scissors, knives, etc., at DATTAPARA (with horn handles).

Elaborately carved bedsteads are made at SWARUPUR and GOPALPUR. Punnal Oil is extracted from Punnal fruit growing in the island of SANDWIP in MADANHAT and MAITTBHANGA, BHUAIHAT, HATIYA and CHOWDHURI'S HAT, and is exported to Dacca, Chittagong and Hatiya Island for soap making. Coconut in this district being fairly large, coir-making industry has great possibilities, particularly in Sandwip, Lakhimpur and Hatiya, abounding in coconuts. There are two soap factories in South Hatiya and three in Sandwip. Sufficient quantities of hides are available in the chars. Rugs are made of Cawnporé and local wool, ordinary, blankets and prayer seats made of pure local wool have already won a reputation.

Bamboo mat making industry is carried on at FAZIPUR, MOTAVI, SARISADI and PARASHURAM etc. and are exported to Calcutta and Kuthia etc., in large numbers. Umbrella making industry has been started recently in FENI town.

Coconut, betel and betel leaves are grown in plenty and are exported to Chittagong, Chandpur, Bhairab, Mymensingh, Narayanganj, Dacca, Pabna, Rajshahi and other places by means of boat.

Cotton weaving is one of the industries of the Island Circle. Women folk make mats from the leaves of a plant called Hugla Pata extensively.

Towels, sujnis, ordinary saris, table cloth and coarse chaddars are prepared in Sadar Circle and exported to Comilla and Chandpur.

Important centres of trade are NOAKHALI (population 13,063), FENI (population 10,875) and CHAUMUHANI.

Noakhali is one of the largest rice producing districts and about a quarter of a million tons is exported every year from this district.

Fair:—One industrial and agricultural exhibition is held in winter every year in the Feni town. Two small fairs are held in two places of Feni sub-division only for a day or two. One fair is held on the 1st and 2nd of March at Chandpur (Feni P. S.) One fair held at Basura (P. S. Parashuram) on the 2nd of Baishakh every year in the compound of an old temple.

PABNA DISTRICT

The district of PABNA (1,818 sq. miles) has a population of 14,445,479.

Plots near the homesteads are grown with vegetables and melons, Jute was grown over 72,155 acre in 1941.

The Sphere of Tea: An exposition of the Cultivation, Manufacture and Trade of Tea in India. Rs. 3. Industry Book Dept., Shambazar, Calcutta.

Cotton weaving is the most important of all cottage industries in this district. Roughly stated, yarn both grey and coloured to the value of Rs 50 lakhs is consumed yearly in the district. There are six jute presses in the district. Great centres of trade for locally made cloths are EKADANTA, MATHURA, SUJANAGAR, DEMRA, AJGACHA, DELMARHAT, SHAHJADPUR, KOIJURI, etc., etc.

CHOTADHUL, DOGACHI, GANGARAMPUR, SADULLAPUR, TARBERIA, NISCHINTAPUR are noted for sails, dhutis and good loongies. Gamchas of Pabna are widely in demand.

Pottery, brass and bell-metal articles, and shell bracelets are made at CHATMOHAR.

Mats of grass and reed and cane work are made in MAJJPURA. Sitalpati mats are woven in the Serajganj subdivision. Dyeing is carried on locally for borders of saris and dhutis in this district. Paper made locally is used in the Serajganj subdivision but the industry is declining. There are nine factories at PABNA (population 21,904) where stockings, genzies, etc., are manufactured. Of them Silpa Sanjibani deserves special mention.

SERAJGANJ (population 32,467). Enormous quantities of jute are brought here by carts or by steamers and are baled and pressed and then sent down to Calcutta. Considerable trade occurs in grains, seeds and pulses.

Important trade centres are PABNA, SERAJGANJ, BERA (jute press) ULLAPARA, DHAPARI and PANGASI.

Fairs.—Lahiry Mohanpur, Ullapara, Middle of Shrawan, 1 month. Angaru, Ullapara, every Saturday in the month of Baisak, Bhuiyagathi, Raiganj, Asthami Mela, Basanti Astami day, Pabna, January (Industrial and Agricultural). Chack Kani, Guudaspur. In April, 15, 20 days, Arankola, Saia, October 1 month. Cattle, Debottar, Atghoria, 1 month. Cows only, Kashinathpuri, Santhia, Thursdays, Cattle, Santhia river side, Baruni Mela 1 month. Karanja, Santhia, First Week of May, 15 days, Cattle, Ullapara, Delwarganj Mela, 1st Poush, 4 months.

RAJSHAHI DISTRICT

The district comprises an area of 2505 sq miles and is peopled by 15,71,453 persons.

Chief crops are rice and jute, the latter grown over 70,670 acres. Betel leaf and mulberry are grown plentifully.

Brass and bell-metal wares are made at KALAM in the Natore sub-division, while brass, bell-metal and bhaian utensils are made at BUDHPARA. Bell-metal thalis (plates) and cups, bhaian tumblers and brass pitchers, big pots (handis) and pans, etc. of different shapes and sizes are made.

Matka chaddars, dhutis, and sails with red silk borders are made with yarns from Malda. Blankets are made in KESHABPUR-VERIPARA (village) from sheep's wool imported from Bhagalpur, Calcutta and other places. Woollen blankets are also manufactured on a small scale at RAJSHAHI TOWN from the country sheep wool.

Cotton weaving is carried on in many of the small villages. Tanning and shoemaking is done at SHIPAI PARA (Sadar Sub-division) and LALPUR (Natore sub-division). Other industries of the district include the making of steel trunks, suitcases, boxes, etc., from raw materials imported from Calcutta, cane and bamboo work, tile making and making of earthenware pots, plates, etc., and gun making all over the district. There is a big sugar mill, known as North Bengal Sugar Mill, at Gopalpur on B & A Ry.

CLERK'S MANUAL—A comprehensive manual for the guidance of Clerks. Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

Catechu is manufactured at CHARGHAT and its neighbourhood. Gur made from date juice is also exported in large quantities from November to March from Charchat P. S. and Lalpur P. S. Mats and earthen pots and Raniganj imitation tiles are prepared in Naogaon Sub-Division.

Principal marts are SULTANGANJ, GODAGARI, RAMPUR-BOALIA, and CHARGHAT on the Padma, CHANGDUPAIL and GURUDASPUR on the Baral, KALIGANJ on Chalan Bil, PROSADPUR on the Atrai. NAOGAON on the Jamuna. DURALHATI, NATORE, etc., LAKSHMANHATI is a centre where sugar crushing mills and pans are given on hire.

RAJSHAHI, (population 40,779)—It is the head-quarters of the district. Ice factory, match factory and sugar mills have been started.

SANTAHAR, DIGHAPATIA, DUBALHATI, PUTHIA, RAMPUR-BOALIA, GODAGARI (on the Padma), BHABANIGANJ and MATAJIHAT are also good centres of trade.

MATAJIHAT is one of the biggest hats about 12 miles from Akkel-pur Railway station or Hill Station where a large amount of inland trade in rice, grains, seeds, cattle is done.

Fairs.—Famous melas held in the district are KHETUR in October, MONDOR in the month of April, and CHANCHKOIR under Gurudaspur P. S. in Natore S. D. at the time of Chat Sankranti for a month. These are largely attended, and many articles of trade are sold, including livestock and agricultural implements. Other fairs in the district are—In SADAR Sub-division—Puthia Bazar, Rathajatra, 15 days, Rostumpur, July to August, 20 days, Puthiamari, December, 1 month, Gopalpur, Kaloo Pir Sahib's Darga, in April, 7 days, Khetur, October, November, 6 days; Sultanganj, February, 3 days, Bagha, 10 days from the Id Festival, Narayanpur, February, 1 month, Munshipur, June-July, 15 days, Rathajatra festival, Taherpur, in Ashar, 8 days, Rathajatra festival, Bhabaniganj, in Magh; 8 days, Dhenkutala, in Baisak, 1 day, Dhanura, in Kartik, 1 day, Kali Pujah; Kamergaon, in Aswin, 1 day, Durga Pujah; Kalganj, Middle of July, 15 days, Nahatta, end of November, 3 days; Arani, in July, 3 days, Madaripur, Muharam day, 1 day, Ansa, in Chaitra, 3 or 4 days. In NAOGAON Sub-Division—Dubalhati, in Chaitra, 3 or 4 days, Dubalhati, in Ashar, 10 days, during Rathajatra; Bahhar, during Rathajatra, 10 days, Salgachi, in Aswin, 1 day, Durga Puja, Muradpur, in Kartik 1 day, Kartik Puja, Kajjal, in Sravan for one month, Durgapur, during Muharram, 3 days, Jamgaon, during Poush Sankranti, 3 days, Trimohani, in Chaitra, 3 days, called Baruni mela; Buridah, during Rathajatra, 10 days, Fatehpur, in Bhadra, 3 days, Thakur Manda, in Chaitra, 10 days, Ram Nabami. In NATOR Sub-division—Lalor, in May, 7 or 8 days, Kalam, 1st Part of June, 5 days, Raigaon, Ahas Matajhat, in Poush, 2 months, Cattle, Shawali, in June, 10 or 15 days, Kalganj, in February, 10 to 15 days, Pakuria, in February, 4 or 5 days, Budpara, in Kartik, 1 month,—Nazipur, in June, 6 or 7 days, Halsha, in June, 6 or 7 days. Others, Ramkeli, Rajshahi, (Religious), Mahadebpur, 15 days, Rathajatra.

RANGPUR DISTRICT.

The district of Rangpur covers an area of 3,286 sq. miles, and is inhabited by 2,595,287 persons, shishu, mango, areca palm, jack, bamboo, plantain, bakul, nageswar, etc. are abundant.

One-tenth of Bengal jute is produced in Rangpur. Tobacco thrives best on the sandy bank of the Tista river and has a good reputation in the outside markets. There is a tobacco experimental farm at BURIRHAT.

CLERK'S MANUAL—A comprehensive manual for the guidance of Clerks. Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

The chief industry of the district includes brass and bell-metal work at GOMNATI in the Nilphamari sub-division. Durries and gunny (made of jute and cotton) are also woven near DIMLA. Ivory carving is practised at PANGA in Lalmonirhat. Satrancha weaving industry is carried on at NESBATGANJ. Cigar making industry is in its infancy here. The produces are far from satisfactory. Shoes are made in Rangpur town from leather got from Calcutta.

There are jute presses at DOMAR, and SAIDPUR (a railway centre). The centres of jute trade are DOMAR, DARWANI, SAIDPUR and RANGPUR town. Tobacco is sent to Burma by the Arakanese. Rice comes from the neighbouring districts, coal is brought from Burdwan. Endi cloth is woven in small quantities at KARIPUR, SUNDARGANJ and BELKA in Gaibandha sub-division, and cotton cloth, also on a very limited scale, is made at PATILAPUR and KHAMAR-KISHORPUR (Kurigram) and DIMLA in Nilphamari sub-division.

DOMAR—It is the centre of tobacco cultivation in the Rangpur district. Merchants from Calcutta and U. P. come here to purchase tobacco.

Important centres of trade are RANGPUR (population 20,749), SAIDPUR (population 16,519), KURIGRAM (population 8,542), GAIBANDHA (population 8,479) and FULBARI.

Fairs.—Chief fairs are—Madati, 2 miles from Bhotmari Ry Stn, Madati Baisaki Mela, 1st Baisak, one month, Anantaram, 2 miles from Pirgacha Ry Stn, Rathajatra, 1 month, Anantaram, 2 miles from Pirgacha Ry Stn, Rathajatra, 1 month, Thakurbari in Mithapukur P. S., Kalsidheshwari Mela, 15th Aswin, one month, Gangachara, very close to Gangachara P. S., Rash Purnima day, one month, Badarganj, 1st Poush, one month, Bara Khata, very close to Bara Khata Ry Stn, Poush, one month. In SADAR S. D.—Laldighi, 15th Poush, one month, Bhotmari Stn, Madan Mohan Dev Mela, 5th Magh, one month, Bhendabari, 5th Magh, one month, Kholahati, Barani Snan Day, one week, Ekbarpur, Maharganj Mela, 15th Magh, 15 days, Deuty Maghi Mela, 15th Magh, one month, Bairati, 10th Falgoon, one month, Sikerhat, Chaitra, one month, Gaddimari, 25th Chaitra, one month. In GAIBANDHA S. D.—Bamandanga, Jagadhatri Puja Day, one month, Sundarganj, Ganesh Janani Mela, 1st Agrahayan, one month, Madhupur, 1st Agrahayan, one month, Belka, 1st December, one month, Kalibari, 15th November, one month, Fulchari, Gopinath Deb Mela, 1st Poush, one month, Birat, in Chaitra, one month. In KURIGRAM S. D.—Burrhat Bidheshwari Mela, 31st Aswin, 2 weeks, Hybatkha, Hybatkha Mela, Shyama Puja day, 2 weeks, Diadanga, 16th November, one month, Shibbari, 8th March, one month, Noon Khawa, Astami Snan Day, one month. In NILPHAMARI S. D.—Barabhita, 15th Agrahayan, one month, Panga, 1st Magh, one month, Darwani, 5th Falgoon, one month, Tatulia, Barani Snan Day, one week.

TIPPERAH DISTRICT.

The district (2,624 sq miles), has population of 1,600,764.

Area under tea in the district in 1939 was 125 acres producing 24,371 lbs of black tea. Jute covered an area of 127,260 acres in 1941.

COMILLA is famous for its checks and chintz for making shirts and coats and weavers of BRAHMANBERIA and BITGHAR make good patterns. The chief centres of cotton weaving are TANTIPARA, MAJIKARA, RUPASDI and JENODPUR and BURDAIR (in Brahmanberia) and DHANTI, PIHAR, DISHABAND, BAGMARA, BUDHAR, JASHPARA, MAINAMATI, GUNJAR, KALIKAPUR, GUNABATI and

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8. Industry Book Dept, Shambazar, Cal.

JORKARAN (in Sadar S. D.). There are 18 jute presses in the district.

The chief centres of the jute weaving industry are RAMMOHAN (Sadar), HOMNABAD, SHIBNAGAR, RAJMANGALPUR, MIRPUR, DHARAMNAGAR and SHIBPUR.

Hooka making industry of Tipperah is famous. The shells are obtained from Dacca, Backerganj and Noakhali. Nalchias are made from wood obtained in Hill Tipperah forests. The chief markets for these articles are Dacca. Mymensingh, Jalpaiguri, Brahmanberia and Assam. The chief centres for articles of bamboo, cane and sola are KALIKAPUR and BURICHANG.

The chief centres for brass articles are BRAHMANBERIA, RAMCHANDRAPUR, MAJPARA, BETGARH, MOGRA, BADURGAH and PANDBAN-KHANBAZAR and brassware such as kalsis, ghatis, degchis, etc. are made out of imported rolled sheets and exported to the neighbouring districts. The chief centres for tanning and leather goods are COMILLA, CHANDPUR, CHANDINA and BRAHMANBERIA. The pottery industry has its centres at HARIPUR, BUDHANTI and BRAHMANBERIA. At BRAHMANBERIA there is also a tile factory. Bell-metal utensils, basket, cane-work and sital-pati are made.

Dry-fish is an important industry of the district. A kind of fish oil is also made from livers of fish. The Sadar and Brahmanberia sub-divisions are centres for iron and steel articles. High class cutlery and ramdaos, khargas, fish-knives, spades, etc. are manufactured by blacksmiths of MEDDA and RAMCHANDRAPUR. Iron safes on a small scale, are made at PURAN BAZAR, CHANDIPUR, and buckets and trunks at MOGNITOOLI, MONHARPATTI and KANDIRPAR in Comilla. On a small scale also, umbrella-making is carried on at BRAHMANBERIA and COMILLA with imported cloth and sticks. Soap factories exist at SALINGANJ BAZAR and SREEGHAR BAZAR in Brahmanberia Sub-division. There is also a nib-making factory at COMILLA.

HAJIPUR (population 16,938) on the river Dakatia with the Chandpur Sub-division is an important trading centre and assembling and distributing market for exporting betelnut, chillies, jute and importing rice, paddy and tobacco leaves. The Bhagyalakshmi Cotton Mills and a number of Jute Companies operate here as purchasers and exporters of jute. Its good communication facilities, particularly with the trade centres like Raipur, Sonapur of Noakhali district invest it with sufficient interest as a trade centre.

Important trade centres are CHANDPUR (population 16,838) with big trade in jute and tea, COMILLA (population 31,365) famous for its exports of well-polished hukkah, belun, kharam, sticks, bell-metal utensils, etc., and cotton of Hill Tipperah, FANDAUK, a centre of raw hide trade, BRAHMANBERIA (population 26,662), and RAMCHANDRAPUR (bell-metal and cotton weaving industries). Jute trade centres in Brahmanberia S. D. are CHANDURA, FANDAUK, BHOLACHANG, MAJHIARA and BANCHARAMPUR. Cattle markets are located at SREEGHAR BAZAR.

Fairs:—Panchpukuria, Kashba, Mehar Kalibari, Bholachang in Brahmanberia S. D. An industrial, health and cattle show is held at Pattan (R. S. Brahmanbaria) in winter.

24-PARGANAS.

The district of 24 Parganas (2,536 sq miles) has a population of 2,714, 878.

Important centres of trade are BUDGE-BUDGE (population 24,183) BARANAGAR (pop. 37,050); KAMARHATI (population

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8. Industry Book Dept., Shambazar, Cal.

30,334), TITAGARH (pop 49,584); GARULIA (pop 14,033), PANIHATI (pop. 11,699), NAIHATI (pop 30,903), HALI SAHAR (pop 16,770), BHATPARA (pop 84,975), KANCHRAPARA (pop 15,005), BASIRHAT (pop 21,287) BARRACKPORE (pop. 30,600 and CANTT. 10,982), and BADURIA (pop 15,005).

There are 539 factories in the district, mostly situated in the neighbourhood of Calcutta Famous jute factories are situated at BELGHARIA, AGARPARA, SODEPUR, ISHAPUR, KANKI-NARA, etc, which are now thickly populated Among other works, silk filature and mill, tanneries, bone mills, saw mills and tea chest factories, spinning and weaving, jute presses, rope and ply-wood factories, iron foundries, glass factories, brick, tile and fire brick factories, oil mills, soap and candle factories, lac and cutch factories, chemical and drug works, biscuit factories, rice mills, etc may be mentioned According to the Annual Report of the Administration of Factories in Bengal during 1938, of the 539 factories in operation, 533 were perennial and 6 seasonal The factories include 8 cotton mills, 12 hosiery mills, 56 jute mills, 5 silk mills, 23 jute presses, 2 iron smelting factories, 60 engineering companies, 9 kerosene tinning firms, 2 ship building companies, 7 electrical engineering workshops, 4 bakeries, 5 ice and aerated water factories, 11 chemical factories, 13 match factories, 9 soap factories, 2 paper mills, 5 paint factories, 5 lac factories, 7 bone mills, 11 saw mills, 1 gramophone record making company and 15 rubber shoe factories Persons employed in the factories are 233,544

The chief centres of hand-loom weaving are PUNNA-BADURIA and BARASET Mosquito curtains are woven at BARASET and napkin, checked cloth for mosquito curtains and quilts are made in EKBALPORE The embroidery industry is carried on in BARASET and HALISAHAR Ropes are made from sunn-hemp and jute at BHABANIPORE in Barrackpore and sold locally TILJALA, near MOLLAHAT in Tollygunge, SHAHAPUR, DURGAPUR, GOPALPUR and TANGRA Leather suit-cases and attache cases are made in NORTH DUM-DUM in Barrackpore Matches, glass, gramophone records, aluminium wares, etc are manufactured in SOUTH DUM-DUM and the articles are disposed of in Calcutta The famous brass locks of NATAGORE have suffered from foreign competition The industry also is dyeing out in SENLI UNION and NIMTA (Barrackpore) Padlocks are also made at DENLA, KHAMARPARA, BARANAGORE and DUTTAPUKUR (Baraset) and the products are sold locally and in Calcutta Basket making, as a part time industry continues in NARA-YANPUR and BALLY (Barrackpore) and the products have a local demand Brass utensils are made in DIAMOND HARBOUR Sub division and there is one ice factory at HASANABAD

DUM DUM—A growing industrial town in the District The place is noted for the Aerodrome where foreign mails are received There are iron workshops, aluminium factory, gramophone factory, cardboard making factory, match making factories, rope factories, glass and tent factories in the town One company has shown commendable enter prise by making various medicines from venom extracted from snakes

BATANAGAR—A new industrial town named after Thomas Bata of Messrs Bata & Co, who have established a shoe factory here 12,000 employees produce 189,000 pair of shoes weekly

Fairs:—Important fairs in the district are —Saugor, Saugor Islands, Poush Sankranti, Bikanda, Agricultural and Industrial Exhibition, at the end of February, Sodepur, 24 Parganas, December, Agricultural

INDUSTRY PRESS, SHAMBAZAR, CALCUTTA.

MARKET PLACES OF THE BOMBAY PRESIDENCY

THE Bombay Presidency includes a long and narrow strip along the West Coast of India containing the provinces of Konkan, Khandesh, Poona and Satara. The area of the Presidency is nearly 77,221 square miles and is inhabited by 20,858,000 persons.

Soil and Climate:—The Presidency embraces a wide diversity of soil and climate, and is divided into two parts namely Guzrat and the Deccan, by the Rann of Cutch and the Gulf of Cambay. Guzrat, aptly called "the Garden Land of India" stands first in richness of soil and density of population and is watered by many rivers, notably among them being the Narbada and the Tapti. The remaining portion of the province is divided into high and low level tracts by the ruggedness of the W. Ghats, which run parallel to the W. Coast for many hundreds of miles.

Crops and Produce:—The chief crops of the Presidency are wheat, cotton, ragi, jowar, bajra, spices, sugar, sesamum and rice, 39 million acres of land was under cultivation of cotton during 1940-41 as against 37 million acres in 1938-39 and 39 million acres in 1937-38. Rice covered 20 million acres, wheat 18 million acres, barley 15,000 acres, jowar 82 million acres, bajra 41 million acres, maize 186,000 acres, gram 595,036 acres, groundnut 1,580,000 acres, sesamum 162,000 acres, linseed 112,777 acres, castor 41,000 acres, sugarcane 117,000 acres, tobacco 174,000 acres, ragi or marua 640,000 acres, fruits and vegetables 205,000 acres and condiments 241,000 acres, fodder crop 23 million acres, coconut 8,000 acres, other food grains 2,839,000 acres, Fish manure and pondrontee are the chief manures. The crops are generally raised by rotation.

Area under crops during 1940-41 in the Presidency was over 29 million acres while area lying fallow is 5 million acres, culturable waste 932,000 acres, area not available for cultivation 57 million acres and forest 83 million acres. The districts where the produces are most prolific are Rice—Thana, Ratnagiri, Larkana, Kolaba; Wheat—Bijapur, Dharwar, Satara, Cambu—Nasik, Ahmednagar, Bijapur, Poona, Ragi—Ratnagiri, Nasik, Kaira; Maize—Panch Mahals, Gram—Nasik, Panch Mahals, Satara, Poona; Pulses—Nasik, Satara, Ahmednagar, Belgaum, Dharwar, East Khandesh, Linseed—Bijapur, Ahmednagar, Sesamum—Ahmednagar, Ahmedabad, Groundnut—East Khandesh, Satara, Sholapur, West Khandesh; Coconuts—Ratnagiri, Kanara, Castor—West Khandesh; Condiments, Spices—Dharwar, Satara, Belgaum, Cotton—Dharwar; East Khandesh, West Khandesh, Broach, Belgaum, Ahmedabad, Dyes and Tannin Materials—Ahmednagar, Sholapur, Poona, Tobacco—Kaira, Belgaum, Satara, Fodder Crops—Satara, Sholapur; Fruits and Vegetables, Poona.

A comparative statement of crops during the last 5 years follows:

Cattle—Ponies of Bombay are hardy and celebrated. Cattle breeds of Gir, Kathiawar and Gujrat are noted and the breed is generally good.

Fisheries—Sea-fisheries are famous and give employment to many. Fishes for food and manure are also obtainable in the rivers and tanks.

Forests—Area under forests in the Bombay Presidency is 12,998 sq miles which is about 17 per cent of the total area of the province, but of the above area only 9,891 square miles are forest proper, 2,929 square miles are pasture reserves and 178 square miles are fuel and fodder reserves. The forests on the Ghats yield teak, sandalwood and other timbers. Acacia, catechu, ebony, etc., grow in abundance while coconut palms, palmyras, betelnut palms, date palms occur plentifully. Various fruit trees, e.g., mango, jack tree and bel, myrobalans, mahua, karani, etc., are found in the province.

Minerals—Building stone and salt are the principal minerals. Porbandar and Dharangadhra contain best stone. Gold and gold dust were formerly found in Dharwar. Agates are found in the Deccan and Gujrat. Manganese is mined to the extent of about 60,000 tons annually.

Handicrafts.—Every district carries on hand-loom weaving in spite of competition from machine-made varieties. Saris and turbans are the main varieties. There are about 2 lakhs of weavers in Poona, Nasik, Dharwar, Belgaum and Sholapur districts. Dyeing is carried on in Gujrat, Kathiawar and in the Maratha districts. Silk is also woven in Surat, Ahmedabad, Yeola, Nasik and Thana districts. Country blankets come from the Deccan and Karnatic. Preparation and production of sunn hemp are carried on. There are many goldsmiths. Spearheads of AHMEDABAD and knives of AMOD are celebrated, glass making, lac industry, ivory and tortoise shell work are done at Bombay and in Gujrat. Wood carving is done at AHMEDABAD, SURAT and KANARA. Sugar and gur are made wherever cane is grown. Real gold thread industry is carried on in SURAT, BOMBAY, AHMEDABAD, POONA and YEOLA. Salt is made at KHAGODA and UDU and is known as Baragara salt. Other important art-crafts of this Presidency are—Carpet weaving, calico printing, embroidery, kinkhab, pottery, jewellery, stone work, brass and copper, metal work, etc. carried on at places like BOMBAY, AHMEDABAD, SURAT, BROACH, POONA, NASIK, YEOLA, GOKAK, TATTA, HALA, BURAK, KASHMORE, KHANOT, SAWANTWADI, HONAVAR and KUMPTA.

Do not hanker after service when you can be your own master HOME INDUSTRIES explains, Re 1/12. Industry Book Dept., Calcutta.

Major Industries:—Cotton industry is the principal industry of the Bombay Presidency. It is an old-established industry, carried on mainly under Indian management with Indian capital. The most important centre of production is Bombay city and Island. The second centre of the industry is Ahmedabad. The other centres include Sholapur, Surat, Broach and Jalgaon. There are altogether 201 cotton mills in the Presidency fitted with 57·2 lakhs of spindles and 1·3 lakhs of looms. During 1941-42, 776 million lbs. of twist yarn was spun and 2,696 million yds of goods were woven. Silk and wool are also manufactured in Bombay. Production of woollen goods in 1937-38 amounted to 15 million lbs. In 1939-40 hosiery goods weighing 1,657,000 lbs were produced in the Presidency.

There are match factories situated in the neighbourhood of SANTA CRUZ, GHODBUNDER, KURLA and THANA. Cigarette manufacture has made considerable headway in the Presidency. Among other new types of factories may be mentioned refining and smelting of non-ferrous alloys, bakelite materials, electric fans, razor blades, slates, pins and needles, dry cells, fire works, brushes, soap, glass, chemicals, casein, pottery, handmade paper, paints, tallow substitute, carbon paper, clips, etc. There are a number of factories for tanning hides and skins. The possibility of producing aluminium in Bombay, and of aluminium containers for the preservation of fruits, and especially for the preservation of fish and similar commodities are under investigation. There are a large number of film producers in the Presidency.

During 1941-42, 10 sugar mills were in operation, which are estimated to produce 84,800 tons of sugar.

Irrigation.—Of the total area of 28,171 million acres sown in the Presidency, 245,000 acres are irrigated by Government canals, 67,000 acres by private canals, 112,000 acres by tanks, 694,000 acres by wells and 20,000 acres by other sources, total area irrigated amounting to 11,38,000 acres. Chief irrigation works in the Presidency are Ghar Canal, Desert Canal (247 miles), Fuleh Canal (413 miles), Pinyari Canal (386 miles), Western Nara and Pritchard Canal, the total mileage being 4,031 miles.

Trade:—The articles of internal trade are cotton, grain, metals and cotton goods. The distribution of articles of trade is generally made through fairs held in connection with pilgrimages and in temporary and weekly bazars. Rice, coconut, salt, cotton, timber and piece-goods are the main articles in coasting trade. Raw cotton, grain, pulses, seeds, hides and opium are the chief exports. The imports are piece-goods, metals, machinery, sugar, oil, silk and woollen goods.

Fish Industry.—The fish landed in the Bombay Presidency is in striking disproportion to its vast area and to the need of a very large section of the population with whom it forms a regular item of diet. The fish landed averages 50,000 tons only worth Rs. 80 lakhs. Bombay Presidency's small catch of fish largely accounts for the poor per capita consumption of the potential fish-eating population, which constitutes about 70 pc of the entire population. The per capita consumption in the Bombay Presidency amounts to about 7 lbs, whereas in Britain amounts to 43·6 lbs and in Japan to nearly 110 lbs.

Scope For New Industries.—There is scope for the starting of the following industries in the Province, brass and copper piping, lead pipe and sheets, small electric motors upto 10 h p, small hand-tools, manufacture of combs, manufacture of fountain pens, emery and sand-paper manufacture, charcoal briquetting, manufacture of veneers and plywood and pencil manufacture. Construction of a cigarette factory with the latest machinery is under progress.

Do not hanker after service when you can be your own master. HOME INDUSTRIES explains, Re. 1/12. Industry Book Dept., Calcutta.

Assembly—Total seats 175, Upper House—Total seats 30

Transport—The chief railways serving the province are G.I.P., B.B. & C.I. and Southern Marhatta. There are several small tramway systems. The British India line of steamers ply between Karachi, Persian Gulf and Mangalore and the British India Steam Company serves the ports between Mangalore and Bombay generally. The length of railway lines in the Presidency is about 5,500 miles.

All the important towns and cities are connected by motor bus service with the interior villages for carrying passengers. The motor lorries carry a good amount of goods now-a-days in big cities.

FOREIGN TRADE OF THE PROVINCE OF BOMBAY.

The figures of foreign trade of the Bombay Presidency excluding Sind follow —

Imports:	1935-36	1936-37	1937-38	1938-39	1939-40

BOMBAY CITY.

BOMBAY, situated on an island in a bay, lies at the base of the Western Ghats. It is the second city in the Indian Empire and owes its wealth, size and importance to its magnificent harbour and its position as the nearest Indian port to Europe except Karachi. Bombay is connected by railway with every part of India. It is not only a great port but a great industrial centre also. It is about 1,400 miles away from Calcutta and about 800 miles from Madras.

As regards overseas trade, Bombay is connected by regular passenger and cargo services with Europe, Australia, East and South Africa, China, Japan and America and is also an important link in the transhipment trade between these countries and the sea-ports of Arabia and Mesopotamia. The trans-oceanic trade of Bombay has a valuable complement in the numerous steamer and sailing services plying along the Western coast. Bombay is the headquarters of these coasting services and of others which make a periodical round of the coastal ports between Bombay, Calcutta and Rangoon. Bombay is also the centre for the important pilgrim traffic between India and the Hedjaz— from 15 to 20 ships annually sail from Bombay with pilgrims during the season.

Bombay is a city which combines the textile specialisation of Manchester (without its imposing array of diverse modern industry) with the commercial and shipping characteristics of Liverpool. There are no less than 64 cotton mills in the Bombay City and Island, these are equipped with 27,90 lakhs of spindles and 65 lakhs of looms which produced in 1941-42 997 million yds of grey and bleached piece-goods and 309 million yds of coloured goods.

The Port of Bombay, which is a major port, is now under the direct supervision of the Government of India.

SUBORDINATE PORTS OF THE BOMBAY PRESIDENCY

The trade of the subordinate ports with foreign countries is comparatively insignificant, and is carried on in country craft mainly via Bombay. The total value of the trade rose from Rs 44 lakhs to Rs 45 lakhs, imports from Rs 34.1 lakhs to Rs 34.85 lakhs and exports from Rs 9.9 lakhs to Rs 10.75 lakhs. The main articles of imports were rice (Rs 33 lakhs), and cashewnuts (Rs 1.63 lakhs) while chief exports were cotton raw (Rs 6.57 lakhs) and cashew kernels (Rs 3.71 lakhs). Exports of oils, chiefly cashew nut oils to the United States of America were valued at Rs 24,332 as against Rs 1,555 last year.

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs 3/-. Industry Book Dept., Calcutta.

MARKET PLACES OF THE BOMBAY PRESIDY. 387

Total value of the coasting trade of the subordinate ports decreased from Rs 5.92 crores to Rs 5.43 crores. Imports fell from 2.91 crores to Rs 2.80 crores but exports by Rs 38 lakhs to Rs 2.63 crores. About 50 p.c. of the total trade of the subordinate ports is with the chief port Bombay.

The principal articles exported from the four principal ranges are spices (betelnuts), dried fruits, and wood from Kanara, salt, rice, bricks and myrobalans from Kolaba, rice, sal wood and bricks from Thana; and cotton raw, cotton seed, pulse, ghee, and wood from Surat.

The following summarise the foreign and coasting trade of the subordinate ports of the province of Bombay during the last five years

	1935-36	1936-37	1937-38	1938-39	1939-40
Foreign Trade			(in 1,000 rupees)		
Imports	3.47	4.96	8.75	3.41	34.85
Exports	52.16	14.93	20.58	9.90	10.75

Other Taluks	41.01	39.50	32.62
Total	573.80	592.12	542.96

The principal commodities figuring the coastal trade during 1939-40 under imports and exports are—

Imports (in Rs 1,000)—Coconuts (7.80), pulses (6.04), paddy (8.29), rice (5.67), wheat flour (5.10), iron and steel (3.98), kerosene (17.72), coconut oil (6.82), ghee (3.64), salt (9.51), sugar 16 D S (41.36), tea (5.04), cotton piecegoods, grey (3.25), do., coloured printed or dyed (6.75), gunny bags (4.97), other articles (1.44), total (2,79.51)

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs. 3/-. Industry Book Dept., Calcutta.

Exports (in Rs 1,000)—Bricks and tiles (8,64), fresh fruits (8,92), fruits dried (8,46), pulse (8,93), paddy (17,94), rice (15,83), salt (36,62), cotton seed (10,30), groundnut (3,78), betelnuts (17,37), molasses (8,95), cotton raw (37,73), teak wood (9,38), other articles (70,59), total (2,63,44)

AHMEDABAD DISTRICT.

The AHMEDABAD district covers an area of 3,819 sq miles and has a population of 923,431

The principal industry of the district is the spinning and weaving of cotton yarn. Ahmedabad city is at present second only to Bombay as a centre of the manufacture of cotton yarn and cloth. There are 76 cotton mills, commanding 18,98,530 spindles and 46,278 looms and employing 73,887 operatives.

Dyeworks, metal factories, match factory, oil mills represent the industries of the district. The important centres of trade are AHMEDABAD (323,388), VIRAMGAM (18,965), DHOLKA (13,743), DHANDHUKA (9,076), MADASA, (8,819), PRANTIJ (6,467), SANAND (7,319), and MANDAL (5,373). AHMEDABAD is a market for Bengal and Ahmedabad silk and the products are exported to Kathiawar, Rajputana, Central India, Nagpur and certain other places.

The manufactures include copper and brassware, shoes, blankets, etc. Manufacture of silk and brocaded goods is also an important industry. Locally produced silk goods find market in different parts of India. The manufacture of gold and silver thread supports a considerable number of people. Tin and electroplating are also carried on to some extent. Many families are engaged as handloom weavers working up cotton cloth. Black-wood carving is another important industry. The common pottery of this place is also decidedly superior. The manufacture of shoes and leather-work gives employment to a large number of people.

Fairs—In DASKROI TALUK (including City Mahal)—Ahmedabad Swaminarayan Temple, Sud 9th of Chaitra, one day, Sud 11th to 15th Kartik, 5 days, Sarkhej, one day, Shahpur, Ahmedabad, 2 days. Shah Alam Roza, near Dani Limba, 2 days, Vastral, Vad 8th Shriavan, one day, Vatwa, Sud 8th Bhadrpad, one day, Pirana, Sud 8th Bhadrpad, one day, and Sud 1st Asvin, one day; Jetalpur, Sud 15th Bhadrpad, one day, Isanpur, Sud 14th Asvin, one day. Ghodasai, Sud 14th Asvin one day. In DHOLKA TALUK—Vautha, Kartaki, Sud 11th to 15th Bhadrpad, 3 days, Bhimnath, 15th Sud Shriavan, one day, 13th Vad Maha, one day, 14th Vad Shravan to Sud 2nd Bhadrpad, 4 days, Tagdi, Sud 9th Kartik, one day, Dholera, Sud 11th Bhadrpad, one day. In GOGHO TALUK—Kharakdi, 3 days. In VIRAMGAM TALUK—Kadwasan, 14th Vad Maha, one day, Bhoiml, Sud 15th Kartik one day, Detroj, Sud 10th Maha one day and Sud 15th Chaitra, one day, Hansalpur, Saraspur, each Monday of Shravan, one day; Gadia, Vad 14th Maha, one day. In PRANTIJ TALUK—Ghadl, 2 days.

AHMEDNAGAR DISTRICT

The AHMEDNAGAR district (area 6,586 sq miles, population, 987,949) has an average annual rainfall of 24 in.

Staple crops are jowar, wheat and gram, which are grown on the banks of the Godavari and the Bhima. Vari and ragi are grown in the Akola taluks. Tur, math, kulith and cotton are grown in the eastern portion. Safflower, sesamum and linseed are also grown besides sugarcane, tobacco, betel leaf and vegetables to a small extent.

INVENTIONS OF TO-DAY makes your information up-to-date. As 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

MARKET PLACES OF THE BOMBAY PRESIDY. 389

There are about 1,000 sq miles of the reserve forest which yield excellent teaks used as rafters and poles Banjan, jambul, behra, am and karvand trees are also available Limestone is abundantly obtained.

The industries of the district constitute weaving of saris and turbans, copper and brass pots, paper making and carpet making

AHMEDNAGAR CITY—It is the head quarter town and has a population of 41,890 and contains a cantonment with a population of 15,639. There is a carpet factory and a weaving institute The industries of the town are sari-weaving and making of copper and brass vessels

Other centres of trade are **SANGAMNER**, (15,355), **KOPARGAON** (7,128), **PATHARDI** (6,335), **SHRIGONDA** (6,331), and **BELAPUR** (5,482)

BELGAUM DISTRICT.

BELGAUM district has a population of 1,078,561 Its area is about 4,649 sq miles

Grains, pulses, oil-seeds, cotton are cultivated Ginger is grown in garden lands, chiefly for domestic consumption.

BELGAUM, the Sadar station, is a municipality and has a population of more than 40,000 The town has a booming trade Trade in silk and cloth (cotton) is also considerable It exports agricultural products, rice, jaggery, tobacco and cotton in large quantities and imports cloth, silk, salt and grain. Next to agriculture, handloom weaving constitutes the principal industry of the district.

GOKAK (10,000)—There is one cotton mill near Gokak Falls. The town is a centre for the manufacture of toys.

KHANAPUR—Bamboos, banians, tamarinds and mangoes abound in the surrounding forests. The articles of trade are dried fish, dates, con, coconuts (from the port of Vengurla), all sorts of grains, sugar and molasses.

GHODGERI—Glass bangles are made locally on a large scale, the annual production being about 72 lakhs of pairs.

HONGAL—(10,000)—Coarse cotton cloth is woven here and sold in the neighbouring market; or, are exported via Belgaum to Konkan. The place is noted for superior bullocks which are brought for sale in the markets

KONGUALI—The town has a big trade in rice with Belgaum and other places of Kolhapur. Saris and waist cloth and blankets are woven

MANOLI—It is a centre for printing cotton cloths, and was once famous for dyeing industry

MURGOD—It is also a good market for cotton and grains It has also a cottage industry of printing cotton cloth.

NANDGARH—It is also an important trade centre It imports arecanuts, coconuts, coconut oil and dates from Goa.

NIPANI (population 12,000). Crowded weekly markets are held here on Thursdays where about 2,000 to 3,000 cattle are offered for sale Beedi tobacco is prepared on a large scale here It is the biggest tobacco market in the Bombay Presidency about 37 million lbs. of tobacco being sold there per annum The tobacco is usually despatched in gunny covers containing about 252 lbs each to Calcutta, Central Provinces, Madras and Coast markets

SADALGI—Coarse cotton cloths, worsted blankets and womens' saris are woven here Molasses and sugar making by the indigenous process are the chief industries Grains and pulses are imported.

INVENTIONS OF TO-DAY makes your information up-to-date. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

SANKHESWAR—Traffic is carried on in cotton, dry coconuts, dates, spices and curry stuffs. Cotton-ginning and pressing is the chief industry.

YAMAKANMARDI (population 5,000)—There are more than 300 hand looms for making saris, blankets etc.

Fairs: A fair is held at Saundatti-Yellamma during full moon of April-May and again in November-December. Many fancy articles and idols are sold in these melas. More than 1 lakh of pilgrims assemble here. An annual fair is held at Kodchi at the tomb of a Mahomedan Fakir, another at Murgad in March 6 days duration.

BIJAPUR DISTRICT.

The district has an area of about 5,707 sq miles and a population of 975,987. It speaks Kanarese.

Crops grown in the district include jowar, cotton, bajra, wheat, rice, rale kang or the Indian millet. Pulses, e.g., tur, gram, kulth, mung, math are also grown. Castor seed, linseed, safflower and sesamum are also grown here.

Cotton and silk cloth are the chief manufactures of the district where weaving is a most popular industry.

Chief imports into this district are piece-goods and rice from Sholapur, coconuts and salt are brought from the coasts, betelnuts and spices are brought from Kanara and molasses are imported from Belgaum.

Chief exports comprise of cotton yarn, cotton cloth, copper wares, coarse woollen blankets, cattle and coast produce.

AMINGAD—It has a large cattle market and is a trade centre for rice and coconuts brought from the sea coast.

BAGALKOT—The town manufactures silk and cotton goods and there are many cotton ginning and pressing factories.

BIJAPUR (population 48,968)—The town has a large grain and cattle trade. There are several cotton ginning and pressing factories. The town is a centre of cotton trade in the Deccan.

GULEDGAD has a good trade in the agricultural products besides cotton, its chief article of trade. Cotton and silk cloths are manufactured here and sent to Sholapur, Poona, Konkan and Bombay. There are several valuable quarries whence stone is dug up.

ILKAL is a centre of weaving and dyeing industries. It exports silk and cotton manufactures and agricultural produce (grains, pulses, wheat, etc). Cotton cloth and saris are sent to Sholapur, Poona, Belgaum and the Nizam's Dominions.

TALIKOT has an industry in superior carpets.

Fairs—A yearly fair at Ilkal on the full moon day of Poush (January). An annual fair is held at Talikot during March-April in which many fancy things are sold.

BROACH DISTRICT.

The district of BROACH has an area of 1,543 sq miles, and a population of 334,001 and the language spoken here is Gujarati.

The chief exports are cotton and cotton seeds. The chief imports are grains, sugar, iron and jaggery.

BROACH (41,341) is one of the oldest sea ports of Western India. The exports consist of grain, pulses, cotton, mohua flowers, tiles and fire wood, and imports of fruits, stone for building purposes. There are five cotton spinning and weaving mills at Broach. There is considerable coastal traffic, the total coastal trade being valued at Rs 69,77,000 during 1939-40.

PALEJ TOWN (3,193)—It has got 5 ginning and pressing factories and is a centre of cotton trade. Main exports are cotton (ginned) and cotton seeds.

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business. Rs 2. Industry Book Dept, Shambazar, Calcutta.

ANKLESWAR (population 12,000).—The chief article of trade of this place is cotton. There are also several ginning and pressing factories. Trade in raffers is also considerable. Bamboos are also imported.

WAGRA TOWN. There is one ginning factory here.

JAMBUSAR (11,734). There are nine ginning factories.

Other trade centres in Jambusar Taluk are KAVI, SAROD, TANKARI and KORA.

PANCH MAHALS Sub-divisions, surface, its area is 1,006 sq miles with a population of 4,54,393. Chief crops of this sub-division are maize, groundnut, paddy, cotton, bajri, sesame, tur etc. There are manganese mines in SHIVRAJPUR and BAMANKUVA in HALOL MAHAL. Good and silver mines in 3,356 acres and 23 gunthas of land in VAYDI-BUJRAG and BAMROLI KHURD villages are recently leased for 30 years. Timiu leaves now-a-days are the main exports. Chief industries are husking of groundnuts and extracting oil from groundnut seeds. There is also a glass factory at SANTROAD in Godhai Taluka. The chief exports are grain, mohua, timber, oil-seed and forest produce. The imports are (from Guziat) salt, tobacco, coconuts, hardware, cloths and timber (from Barava and Binjahi).

DOHAD is a granary. Other centres of trade are GODHRA (35,110), HALOL (5,394), KALOL (6,700), JHALOD (3,521) AMOD (6,600), and VAGRA.

B B & C I Railway crosses the district which has good roads, connecting it with Guziat.

DHARWAR DISTRICT.

The district of DHARWAR has an area of about 4,604 sq miles and a population of 11,29,000. It speaks Kanarese.

Some 20 or 25 years ago, a gold mine was operating in this area and worked successfully for some time. The place is still rich in gold. Medical herbs are gathered from the hill sides.

Agricultural crops include potato, groundnut and soyabean. Cotton grown here is of the best quality and vies with those of Surat and Bioach in quality, it is both indigenous and exotic. Sugarcane and chillies are also extensively cultivated.

Silk cloth, fine cotton carpets and household utensils and ornaments are manufactured at NAVALGUND, glass bangles are made at DHARWAR. There are one up-to-date cotton mill and several ginning and pressing factories and one oil-mill in this district.

The district imports European goods, chillies, coconuts, molasses and betelnuts from Kanara and Mysore districts. The chief exports of the districts are cotton and cotton manufactures, grains, bangles and carpets. Besides this local trade in jowar and other agricultural products is also considerable.

The important trade centres of the district are HUBLI and DHARWAR in the west, NAVALGUND in the north, GADAG in the east and RANIBENNUR in the south.

ANNIGERI (population about 9,000) has a considerable trade in grains and cotton. It has a large weekly market, where agricultural products, foreign manufactured goods and oil are sold. There are 4 ginning factories. An annual fair is held in October and November.

BANKAPUR (population about 7,000).—A weekly market is held here every Tuesday where coarse cloth, blankets, oils and metal vessels are sold in large quantities. There is a big cattle breeding farm.

BYADGI (population about 6,000).—A weekly market is held here on Saturdays where rice, molasses, groceries and chillies are generally sold.

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business. Rs. 2. Industry Book Dept., Shambazar, Calcutta.

DHARWAR town The exports include cotton, timber and grains and pulses. Rice is also exported. Metals are imported and vessels made of them are sold in and outside the district. There is no important manufacturing industry except the jail industries of carpet, cloth and cane articles.

GADAG (population 33,000) —It is a flourishing town. It has an important trade in raw cotton and silk fabrics. This is the main cotton mart of the district. There is one cotton mill here. A very big cattle fair is held every year in the beginning of June at SHIRHATI where thousands of excellent hulls from far distant places come for sale. The fair lasts for 10 days.

HAVERI (population 9,000) —It has a considerable trade in cotton, cardamoms and other spices. Melas are frequent. A cattle fair is held at Hosritte in the beginning of February, each year.

HUBLI CITY—This is the biggest town in the district. It has a population of about 69,000. It is a centre of cotton trade not only in this district but also in the whole of Southern Mahratta country. There are 2 cotton mills and several cotton ginning and pressing factories in the town. Trade is conducted in raw cotton, cotton and silk fabrics, copper vessels, grain, salt and other commodities.

HEBSUR—Country carpets are produced on a large scale.

NAREGAL—Grains, pulses, spices and wheat are sold.

NARGUND—Merchants from Dharwar and South Kanara, come here and purchase rice, sugar, spices and other agricultural products. It is one of the biggest cotton centres of the district. There are 9 ginning and pressing factories. An annual fair is held on the full moon day of Aswin in honour of God Venkateshwai.

NAVALGUND is noted for the production of excellent cotton carpets. Cattle of a superior breed and appearance is the special feature of the place.

RANNIBENNUR is a thriving town. It has a considerable trade in raw cotton and the place is noted for the excellence of cotton and silk fabric. The surrounding country has many sheep. A big cattle fair is held every year in the month of October.

YAMNUR is a small village having an annual fair.

EAST KHANDESH DISTRICT.

The EAST KHANDESH district lies in the Central Division of the Bombay Province and the population in 1941 was 13,29,613. The soil is extraordinarily fertile, especially in the plain near the Tapi River.

The Satpura ranges abound in excellent bamboos, grass and timber. The district grows cotton and groundnut in large quantities also jowar, bajra, wheat, sesamum, tur, etc.

There are 5 cotton spinning and weaving mills, about 120 cotton gins and 45 oil mills. Minor industries are carried on at the following 10 places —

Ice at BHUSAWAL, JALGAON, FAIZPUR, Iron implements at PACHORA, Matches at CHALISGAON, Hand-loom weaving at ERANDOL, PAROLA, NASIRABAD, FAIZPUR, CHOPDA, PIMPARALA TALUKA JALGAON, Cotton carpets at KASODA and PALDHI, TALUKA ERANDOL, Dyeing at FAIZPUR, TALUKA YAWAL, Hosiery at BHUSAWAL and JALGAON, Tannery at BHUSAWAL, Paper at ERANDOL. Glass bangles at NASIRABAD and EDLABAD.

The principal trade centres are JALGAON and AMALNER.

JALGAON (population 48,596) It is a town of growing importance and is the centre of trade for the District.

HEALTH GUIDE will give you ideas that keep you fit. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

AMALNER (population 34,694) It is a centre of local trade in grain and cotton, and has a large cotton weaving mill to which it owes most of its importance.

A modern factory, known as the "Bharat Vanaspati Products Ltd. Pachora" is already started at PACHORA for production of finished vegetable oils

The chief exports of the district are cotton and groundnuts (or groundnut oil) Linseed and sesamum are also exported in small quantities

Fairs.—Agricultural exhibitions are now-a-days held in different parts of the district by the Taluka development associations at the village fairs and sometimes at the time of Taluka Jamabandi.

The only big fair in the District is held at Amalner in May every year in honour of Sakharani Bhova There are also fairly big fairs held at Shengoda Taluka Jamner and Mahej Taluka Pachora

There is an important weekly cattle market at JAMTHI on the borders of Berar

KAIRA DISTRICT.

KAIRA has an area of about 1,695 sq miles and its population is 7,39,490

The chief crops are bajra, kodra, rice, jowar and wheat; cotton is also grown. Finest tobacco in India is grown here in NADIAD, BOR SAD and ANAND taluks The district is noted for its clarified butter or ghee which is exported largely The traffic is by rail and road

There are metal quarries at SEVALIA, which supply metal in large quantities to various bodies Cotton is now grown over a large area of the Taluka

Hand spinning for Nadiad and Ahmedabad mills is carried on Soap and glass are manufactured at KAPADWANJ. Glass bangles are made on a large scale in KAPADWANJ, ANAND and CHIKHODRA are the chief centres of tobacco preparation Snuff from ANAND and Bidia from ANAND and CHIKHODRA are exported on a large scale.

NADIAD TOWN, is a big market for tobacco, ghee, cotton, leather and sugar There is one spinning mill The chief exports from the town are cotton prints, grain, tobacco, butter, oil and mohua flowers; the imports are grocery, piece-goods, molasses and dyestuffs

MEHMEDABAD is a town with a population of 3,648 souls The chief export is ghee

KAPADWANJ—Ground-nut oil is pressed in the local oil mills and exported thence

ANAND—There is Polson's Dairy at Anand which is a great cream and butter producing concern

THASRA—Washing soap is prepared Oils are exported all over India

KANARA DISTRICT.

KANARA (3945 sq miles) has a population of 4,17,835. The district stretches for about 76 miles along the coast of the Arabian sea

The principal crops are rice, ragi, pulses (mung and urid) sugarcane, coconut, arecanut, cardamom, pepper, betel-leaf etc The district is not self-supporting in food-stuffs There are some manganese quarries in SUPA PETHA and HALIYAL TALUKA.

The chief importance of the district lies in its forest produce. There are large timber depots at KODIBAG in KARWAR TALUKA and HATTIKERI in ANKOLA TALUKA along the coast and timber is exported by sea The small ports in this district are KARWAR.

HEALTH GUIDE will give you ideas that keep you fit. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

KUMTA, TADRI, HONAVAR and GHATKAL. The ports send away timber, coconut, spices and fish. The chief imports are rice, piece-goods, metals, tea and sugar.

KARWAR. Once an important seat of commerce, KARWAR is the only safe harbour between Bombay and Cochin. It lies some 50 miles south-east of Goa and 203 miles south-east of Bombay and is the Sadar station of the district. Many European civil and military officers visit the place for a holiday, in addition to many tourists.

GOKARN. An annual fair is held here during the Maha Shivratri festival. The place is the seat of Shiva (Mahabaleshwar) and has been mentioned in the Ramayana and Mahabharata. Hindus from all over India visit it for pilgrimage.

SANIKATTA. Salt to the extent of 1 lakh maunds is manufactured every year by the Salt Owners Society from sea water.

SIDDAPUR. The world famous Jog (Gersoppa) Falls lies at a distance of 12 miles from this town. Accommodation is available for tourists in the British Bungalow and Mysore Bungalow situated on both sides of the river.

SIRSI. It is an export centre for cardamom, pepper and betel nut. The M & S M Railway Feeder Motor Service has recently been facilitating its trade with Hubli, Haveri, etc. Sandalwood is a valuable article of export. It brings a large income to the Forest Department.

BANVASI. It is a village to the south-east of Sursi at a distance of 15 miles on the bank of the Vardha river. The Banvasi temple dedicated to Shiva (Madhukeshwara) is known for the architecture on the stone building. It is a historical place.

HALIYAL. There is a large timber depot at Alnavar Railway Station in Dhavur Districts 7 miles from here.

ULVI. An annual fair is held here in February, where many pilgrims assemble. ULVI is an important pilgrimage centre for the Lingayat community. It is 30 miles from Supa and 46 miles from Londa, a M & S M Railway station.

CASTLE-ROCK. It is an important British Indian land customs station. The Goa frontier lies only 3 miles away.

KOLABA DISTRICT

The district of KOLABA occupies some 2,131 sq. miles in area in the southern division of Bombay and contains a population of 6,68,922.

Rice is cultivated here widely. Val, urid, tur, mung and pulses are grown here. Sesamum and niger seed are the chief oil seeds. Sunn hemp, betel leaf and pine-apple are also largely grown and these have a good trade within and outside the district. The chief manufacture of the district is distillation of wine and spirits from rice and mohua.

ALIBAG (population 6,526) —It is the headquarters of the district and only 19 miles south of Bombay. The town is practically covered with a forest of coconut trees. There are many mango gardens, the town has a loading trade in mangoes and coconut.

KARANJA.—Rice is the chief crop. Liquor from mohua, and salt are produced here in abundance and are chiefly exported in large quantities. Fishing is a great industry, fishes are sent to Bombay chiefly. The salt works of the place present a curious sight to the observer. It is a port of some importance handling good coasting trade though it does hardly any foreign trade. The principal imports at this port are cotton manufactures, gunny bags, petroleum, kerosene, flour, coconuts, sesamum oil, coconut-kernel, and pulses. The chief exports are paddy, fodder, bran and pollard, cleaned rice, salt, etc.

For experimented formulas for damp proofing matches consult SAFETY MATCHES AND THEIR MANUFACTURE." Rs 3. Industry, Calcutta.

Coastal trade during 1940-41 valued at Rs 31,00,000 as against Rs 33,98,000 in 1939-40

MAHAD TOWN (population 8,150).—It imports salted and fresh fishes from Malabar, Goa and Konkani coasts Onions, garlic, potatoes, sugar and myrobalans are also exported

MATHERAN (population 2,774) —Owing to its healthy climate during summer, people flock to this place from Bombay and adjoining districts

PANVEL TOWN (population 10,960) —It imports grains, fishes, liquors, gunny bags, mohua flower, coconuts, and timber, and exports grains, ghee, firewood from the adjoining jungles Lubricating oils for wheels and axles as also oil-seeds are also exported Cart-wheel making is the chief local industry Bricks are also made here.

PENTOWN (population 7,817) —Both the imports and exports amount to about Rs 4 lakhs separately

ROHATOWN (population 6,015) is a great rice market for supplying the whole demand of Bombay town

URAN (population 5,794) —Exports and imports amount to about Rs 32 lakhs The seaborne trade however is coastal The principal imports are gunny bags, coloured piece-goods, rice, sesamum oil, manufactured goods, kerosene oil, and sugar The chief exports are salt, bricks, tiles and paddy.

REYDANDA—It is an important port with considerable coasting traffic It imports piece-goods, sesamum oil, chillies, sugar, pulses, flour, petroleum, copra, gunny bags, etc Exports fish, coconuts, paddy, cleaned rice, copper wrought, betelnuts, teak wood and timber, firewood Coastal trade was valued at Rs 14 lakhs during 1940-41 as against Rs 20 lakhs in 1939-40

The chief exports of the district are rice, salt, firewood, grass, timber, vegetables, fruit and dried fish Imports consist of Malabar teak, brass pots, dates, grains, piece-goods oil, butter, garlic, potatoes, turmeric, sugar and molasses Foreign trade is insignificant

KHANDERI and **KUDA** are the other important places in the district

Fair.—An annual fair is held at **CHAUL** (population 6,888) and many people assemble there to make their purchases

NASIK DISTRICT

The area of the district is 5,850 sq miles and population 1,015,521. Average annual rainfall is about 29" at Nasik town and 133" at Igatpuri.

The chief crops grown are the bajra, wheat (southern Taluks), jowar, rice, nagli, kulith, gram and tur Linseed and Khuvasin (niger seed) are largely cultivated Cotton is grown in **MALEGAON**, **KALYAN**, **YEOLA**, **NANDGAON**, **BAGLAN** and some parts of **CHANDOR** and **SINNAR** Tobacco is grown at **DINDORI**, **NIPHAD**, **SINNAR**, part of **CHANDOR** and **NANDGAON**

The district is famous for its grapes which are sent to Bombay daily in large quantity during hot season every year.

Good building stone is found, cotton and silk goods are woven chiefly at **YEOLA** and sent to Bombay, Poona, Satara and Sholapur. Silk industry is important, the centre of the industry being at **MALEGAON** There are 2 beedi manufacturing factories at **SINNAR** and the beedis are sent to Bera, East and West Khandesh. Cotton cloth is produced at **SINNAR** and **VENCHUR**

The chief articles of export are grains, oil-seeds, molasses, cotton goods, silk goods, sunn hemp, copper, brass and silver ware There is a prominent market at **LASALGAON** where large quantities of wheat

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE.** Rs. 3. Industry, Calcutta.

are brought by merchants. The garden products, onions, garlic and betel leaves are also largely exported.

There is betel leaf cultivation in the Nasik district. There are 800 gardens at VADNER, 125 at VADALIBHOI, 165 at DHODAMBE, not far from Chandor on the Bombay-Agra Road. The annual exports of betel leaves are valued at Rs 3,000 to Nasik, Rs 30,000 to Bombay, Rs 20,000 to Berar and Rs 2,000 to Dhulia.

NASIK (population 48,793). Copper, brass and silver vessels are manufactured and sent to Bombay, Poona, etc.

CHANDOR TALUK—There are 3 important industries, namely, betel leaf industry, preparing dining plates with leaves of palas trees and weaving. Betel leaf industry is carried on in the centres referred to above. Dining plates are made at VADNER, 1000 people being engaged in the line. These are exported to Nasik and Dhulia. More than 300 looms are at work in CHANDOR. The output is sold at LOSALGAON, MANMAD and MALEGAON.

Weekly markets are held at every town and large villages. The chief centres of local trade are IGATPURI (9,627), NASIK, LASALGAON, NANDGAON (9,540), MANMAD (12,263), and YEOLA (16,751) and PIMPALGAON, CHANDOR, MALEGAON (32,462), and SINNAR (10,773), situated on G I P Rly, and B B & C I Rlys.

Fairs.—Important fairs are Bhanwad, Paush Shud 15, 7 days, Khedgaon, Magh Shud 15, 1 day, Vani, Chaitra Shud 15, 15 days, Shindwad, Chaitra Shud 15, 2 days, Jopul, Nasik, Chaitra Shud 15, 1 day, Lakhamapur, Nasik, Margashirsha Shud 15, 1 day, Ambegaon, Nasik, Chaitra Shud 15, 1 day, Awankhed, Nasik, Chaitra Shud 15, 2 days, Krishnagaon, Nasik, Margashirsha Vadya, 4, 1 day, Chandepuri, Malegaon, Poush 15, 6 days, Chandor, Poush Shudha 1, 3 days, Vadner, Chaitra Shud 14, Chandor, Chaitra Shud 15, Shri Matohi fair at Naitale, Poush Purnima day, 15 days, Trimbak, Paush Vad, 11.

POONA DISTRICT

The POONA district has an area of 5,349 sq miles and has a population of 12,33,528.

Chief crops are bajra, jowar, rice, niger seeds, groundnuts, safflower, wheat, tur, math, kulith, mung, sugarcane, etc. Fruits and vegetables include grapes, figs, papayas, guavas, oranges, etc.

The chief industry is silk, coarse cotton and blanket weaving. Toys, pugris, small clay figures, baskets, furs, etc., are also manufactured. The cotton and silk embroidered pugries of POONA have a wide reputation. Brass and silver-work of POONA are also well-known and have a good name.

There are one cotton spinning and weaving mill, paper mills, flour mills and a brewery. KIRKEE (population 16,302) has an arms and ammunition factory.

The exports are raw sugar, grains, cloths, vegetables, fruits, brassware and silk cloth. The imports are rice, wheat, salt, copper and brass sheets. Markets, fairs and village shops in tahsils are the centres of trade.

POONA (population 250,187)—Vegetables form an important market-garden crop near Poona, as also do grapes, figs, papayas, guavas, oranges, and other favourite fruits. Among special crops, the grape vine is occasionally grown in the vast garden land in the neighbourhood of the city.

Other centres of trade are BARMATI (14,170), INDAPUR (7,045), JUNNER (8,421) and LONAVALA (10,694).

Get a copy of COTTON DYEING & PRINTING and try it yourself
Re 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The district has a good supply of metalled road (1,135 miles and railway—(G I P and S M) and has connections by road with Nasik, Ahmednagar, Sholapur, Belgaum, Satara and Kolaba Districts

RATNAGIRI DISTRICT

The RATNAGIRI district (4,000 sq miles) has a population of 13,01,694

Neither wheat nor cotton is grown in the district. The agricultural crops reaped include rice, kulith, and pulses. Alphonso mangoes of various grades are grown and are much prized all over India. Niger seeds, chillies, sunn hemp, coconuts and arecanuts are the other crops.

Graft mangoes are exported to Bombay from all the Taluks and Pethas except the Taluka of Khed, Chiplun and Sangameshwar, the chief exporting ports being Vengurla, Malwan, Achra, Deogad, Vijayadurg, Jaitapur, Pawas, Ratnagiri, Jaigad, Dabhol, Harnai, and Bankot. Mango slices for pickles also exported. The trade of Alphonso mangoes with up-ghat countries is small.

Other exports comprise of betelnuts, myrobalans, sugarcane, kokamsal (sunn hemp), catechu, salted fish, coconuts.

Cashewnut baking and shelling industry is carried on in MALWAN and VENGURLA. Raw cashewnuts are imported from Africa for making in addition to those purchased locally.

There were 772 handlooms working in the district during the year 1938 and total output of cloth was Rs 1,26,000.

At SHIRODA in Vengurla Peta there are Government salt pans and salt is manufactured.

Fishing is carried on in almost all the coast villages. Fish is exported to Bombay only from Deogad and Malwan Taluks. In almost all ports there are fish-curing vards and fish is salted there.

CHIPLUN (population 13,056)—The trade of the place is also considerable. Value of exports from the place averages about Rs 15 lakhs and value of imports averages about Rs 17 lakhs.

DAPOLI—It is another centre though small and has a good trade in agricultural crops.

HARNAI—The trade of the port is small but fishing is brisk here during season.

JAIGARH is another port of smaller importance. It exports about Rs 5 lakhs worth of molasses and firewood and imports about Rs 7 lakhs worth of rice and salt.

KHED VILLAGE—A good cart-road connects it with the port of Harnai and a brisk trade passes along that road.

MALVAN TOWN (population 29,817)—Iron ore of a very good quality is obtainable in the neighbourhood of the town. Figures of foreign imports and exports follow—

	1933-34	1934-35	1935-36	1936-37	1937-38
			(in 1,000 rupees)		
Imports	1.55	2.21	8.70	7.07	9.14
Exports	5.51	5.17	9.97	4.11	7.18

The chief imports of Indian produce and manufactures consist of dried fruits and vegetables, gram, pulse, paddy, cleaned rice, petroleum oil, coconut tea, coloured, printed or dyed piecegoods, etc. Chief foreign stuff imported were sugar, dried fruits, kerosene oil. The exports are dry salted fish, coconuts, fruits and vegetables, fresh fruits and vegetables, dried, raw hemp, gunny bags, and manufactured goods. Coastal trade during 1939-40 was valued at Rs 32,97,000.

MASURA (population 9,000) is one of the chief marts of Western India for agricultural products and coconuts.

Get a copy of COTTON DYEING & PRINTING and try it yourself.
Re 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

398, INDUSTRY YEAR BOOK & DIRECTORY, 1943

RAJAPUR (population 4,214) —Value of export and import of the place averages Rs 2 lakhs each. There are hot springs which are frequented by rheumatic patients. Fairs are held here twice a year and are visited by numerous people who make many purchases for their own use.

RATNAGIRI TOWN (population 23,906) —It is the head-quarter station of the district. It stands facing the sea. It has a fishery on the sea coast where sardines are trapped during January and February. It imports salt, timber, catechu and grains and exports chiefly fuel, fish and bamboos from the adjoining forests and jungles. Value of coastal imports and exports during 1939-40.

SANGAMESHWAR TOWN has a good trade in grains, piece-goods, salt and fish, which are mostly exported.

VENGURLA TOWN (population 20,153) It is a prospering and rising port and serves the adjoining country. The principal imports consists of Fresh vegetables, dried fruits and vegetables, gram, pulses, rice, wheat, kerosene, coconut oil, piecegoods, etc. Exports of the port mainly consist of Myrobalans, coconuts, dried fruits and vegetables, coconut oil, cotton seed, sugar, tobacco (unmanufactured) and manufactures of wood. Value of coastal imports and exports during 1939-40 was Rs 28 lakhs.

Figures of foreign trade follow —

	1933-34	1934-35	1935-36	1936-37	1937-38
			(in 1,000 rupees)		
Imports	45	83	71	1,21	4,08
Exports	1,64	1,25	1,00	2,48	52

VIJAYADURG —The imports to the place average about Rs 2 lakhs and exports average about Rs 7 lakhs. There is a good local industry. The carpenters of the place make very decent ornaments from Bison horns, which are largely imported here.

BANKOT is an important port in the district. Coastal trade during 1939-40 was valued at Rs 26,14,000.

JAITAPUR, a port has a fairly considerable trade. Coastal trade were valued at Rs 21 lakhs during 1939-40.

Fair.—A mela is held at Sanswesar Town during January and February, where many people assemble and make their purchases.

SATARA DISTRICT

The SATARA district possesses an area of (5,033) sq miles and is peopled by 13,27,249 persons. Population of KARAD TALUK 166,214, that of TASGAON TALUK 1,10,609 and that of WALWA TALUK 1,47,615.

The crops grown are jowar, bajra, rice, wheat, mung and maths, sugar-cane and groundnuts in the Krishna Valley, chillies, cotton potatoes, straw berries and tobacco are also cultivated. Tobacco is an important crop in SATARA.

Jambul, gela and pesha are the trees, mango, jack fruit and guava are grown for their fruits. Patches of bamboo sometimes occur. There is also a cinchona plantation here. Iron ore is found, manganese ore and lime stone also occur.

Blankets are also woven. Satara brass dishes are famous. The chief exports are grain and oil seeds, blankets, coarse cotton cloth, chillies, gur and raw cotton. The imports are cotton piecegoods, salt and hardware. Trade is carried on with Poona and Belgaum by rail-road. Weekly and bi-weekly markets are held at important villages and towns as MHASVAD, BELAVDI. The trade centres are at WAI,

Thick Type Insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

SATARA, KARAD, TASGAON (population 11,587) and ISLAMPUR (population 12,358) S M Rly traverses the district

Fairs:—Important fairs are—Khanapur, Tasgaon, 15th Pous, Cattle, Audumber, Tasgaon, Datta, Jayanti Mela, 5th Magh, Cattle and agricultural, Mhasa, Murbad Taluk, Poush Sudh Pournima, Cattle Fair, (50,000 cattle), Shinganapur, Man Taluk, 15th Chaitra, Cattle and agricultural produce, Batlis-Shirala, Walwa Taluka, Gorakhanath Mela, Brass, copper and metal pots, Islampur, Sambhoo Appa Mela, 15th Kartik, 4 days, Agricultural products and cattle

SHOLAPUR DISTRICT.

The SHOLAPUR district is 5,441 sq miles in area and its population is 1,014,784

The chief crops grown are jowar, bajra, wheat, tur, gram, math, kulith, oilseeds, chillies, cotton and sunn-hemp

6 cotton mills have been opened at SHOLAPUR and are in a prosperous condition. There are 3 in BARSII which is connected with G I P Ry, by a light railway. There are about 300 handloom factories in SHOLAPUR

There are sugar factories at AKLUJ and BORGAON (Malsiras Taluk). Spinning, weaving and dyeing are the chief industries. Silk saris and dhuties of SHOLAPUR are famous. Blankets are also woven. Cotton mills and ginning and pressing factories are situated in the district. Oil presses and saltpetre manufactories also exist.

The trade of the district is rapidly increasing. Trade in wool and woollen wears in NAREPUTA and villages around deserve mention. The chief exports are cotton, oil, oilseeds, ghee, turmeric, and cotton cloth. The imports are salt, piece-goods, yarn, gunny bags, ironware, etc. Trade is carried on in markets, fairs and village shops.

SHOLAPUR CITY (population 203,525). Cotton mills continue to thrive. 24 per cent of the total population of Sholapur are employed in textile industries. No other single industry in Sholapur employs over a thousand persons except industries of dress and toilet.

The centres of internal trade are BARSII, SHOLAPUR CITY and PANDHARPUR besides VAIRAG, MADHA, MOHAL, KARMALA, AKLUJ, NATEPUTA and SANGOLA.

The G I P Rly crosses the district and meets the Madras Railways at Raichur. Besides there are 567 miles of metalled and unmetalled road in Sholapur district.

Fairs:—Two big fairs of the God Vithoba are held at Pandharpur in the month of Ashadha and Kartika every year according to the Hindoo Calendar. Cattle shows are held at the time of the Kartiki Fair at Pandharpur where horses and ponies are brought for sale.

SURAT DISTRICT.

The SURAT district has an area of 1,662 sq miles and a population of 881,058.

The crops grown include rice and jowar (staple), cotton, kodan, tui, wheat, bajra, castor seed (extensively cultivated in the South) and sugarcane.

The exports are grain, cotton, pulses, mowhra flowers, timber and bamboos. The imports are tobacco, cotton-seed, iron, coconuts, and foreign goods. The trade is carried on by railway and by the ships through SURAT.

SURAT CITY (population 171,443). Of late the sea-borne trade of Surat has declined while the export trade is markedly decreasing. The principal articles of export are agricultural produce and cotton. The land-borne trade, however, has increased considerably in recent years.

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

This is due to opening up of railway communications with the surrounding countries. The imports are valued at Rs 15 lakhs and exports at Rs 5 lakhs annually on the average.

The following gives details of foreign trade —

	1933-34	1934-35	1935-36	1936-37	1937-38
			(in 1,000 rupees)		
Imports	—	3	4	3	1.11
Exports	26,80	25,67	—	2	—

SURAT is the centre of gold and silver thread making industry in the Bombay Presidency. It is famous for its brocades (worked with gold and silver flowers) on silk, coarse and coloured cotton goods are woven, targets are made of rhinoceros hides, weaving of silk, and cotton goods forms the chief industry. One cotton mill is situated here which produces fine fabrics.

Centres of trade are SURAT, BULSAR (population 20,195), and RANDER (population 14,512).

THANA DISTRICT.

The THANA district comprises an area of 3,573 square miles. The population is 8,42,136. Annual rainfall 70". The chief crops are rice, ragi, cereals, oilseeds, pulses and sunn hemp, gram or val. It has large trade in forage with Bombay. Vegetables and fruits are sent from gardens and orchards. Fishery in the sea is important and productive. The district is a source of fresh fish to the Bombay city. Forest products are timber, fuels, (firewood, charcoal), bamboos, karvi, ain and other barks, and several leaves.

There are many salt works. Making of salt is an important industry of the district besides agriculture.

THANA (population 21,816), is the head-quarter Station. Other trade centres are BASSEIN (12,689), BHIVANDI (15,619), and KALYAN (26,291). BELAPUR is a port of some importance. Foreign imports at this port during 1937-38 amounted to Rs 36,507 and exports to Rs 3,012.

The principal exports of the district are rice, salt, wood, lime and dried fish. The imports are cotton cloth, gram, tobacco, coconuts, and molasses.

The district is crossed by the B B and C I Ry., in the north and in the eastern and western directions by G I P Rly.

WEST KHANDESH DISTRICT

The district of West Khandesh in the Central Division of the Bombay Presidency covers an area of 5,320 sq miles. Population of the district is 77,794. Languages spoken are Marathi, Bhili and Gujarati.

Exports from West Khandesh constitute cotton, food grains, oil seeds, butter, indigo, wax and honey, while the imports are salt, spices, metals, piece-goods, yarn and sugar. Traffic is rail-borne.

DHULIA (population 59,939) — The head-quarters of West Khandesh, is a railway station on a branch of the G I P Railway which joins the main line at Chahsa. There is a cotton mill here and one at GADAG.

The chief trading towns in KHANDESH besides DHULIA and JALGAON are BHUSAVAL (27,989), DHARANGAON (18,542), NASIRABAD (14,753), CHOPDA (18,434), CHALISGAON (16,808), ERANDOL (12,382), NANDURBAR (16,919), YAWAL (12,751), PAROLA (12,277), RAVAR (9,489), PACHORA (9,082), SHIRPUR (10,938).

Remodel your business methods with the ideas given in K M Banerjee's **BUSINESS EFFICIENCY**. Rs 2. Industry Book Dept., Calcutta.

MARKET PLACES OF THE MADRAS PRESIDENCY

THE Madras Presidency includes the western coastal plain south of Bombay, central tableland south of the Kistna and the eastern coastal plain south of Orissa. The Presidency including the states in it has an area of about 142,000 square miles and a population of 49,343,000. A portion of the Presidency, viz, less than half of the Vizagapatam district and two-thirds of the Ganjam district is amalgamated with the new province of Orissa, created since April 1, 1936

Soil, for the most part, in the Madras Presidency is not fertile excepting the deltas and the river margins, black cotton soil being the most characteristic feature of the Presidency. The country is generally divided into dry, i.e., non-irrigated and wet, i.e., irrigated lands. Tillage is also superficial owing to comparative roughness and hardness of the soil and the implements used are simple. The climate is free from extremes and the rainfall is generally plentiful.

Live-stock:—The chief breeds of cattle are Nellore and Mysore. Buffaloes are also met with in Bellary, Nilgiris and Vizagapatam. Sheep are numerous but are uncared for, so are pigs, and poultry, and the products of stock, e.g., manure (dung), milk, wool, hair, hides and skins, meat and bones form an immense addition to the income of the agriculturists. Cattle fairs and weekly markets in the South are special features of the Southern Madras. Sea fishery and tank fishery also employ a large number of people. 51.41 lakhs of pounds of wool were produced in this Presidency. It was exported to United Kingdom, America and other places within India like Bombay, United Provinces, Mysore and Sind.

Crops—The most important crops are rice, groundnut and millets. Rice is produced on the deltas and along the coastal strip while the millets and pulses in the dry districts. Total areas under principal crops are —

	1936-37	1937-38	1938-39	1939-40	1940-41
			(Figures in 1,000 acres)		
Rice	9,890	10,141	9,844	10,467	10,744
Groundnut	3,495	4,658	3,771	3,618	3,922
Cotton	2,461	2,512	1,950	2,222	2,413
Sesamum	512	546	876	602	786
Tobacco	280	280	280	320	311
Castor seed	264	247	268	266	267
Sugarcane	122	98	98	138	162
Bajra	2,768	2,572	2,718	2,717	2,559
Jowar	5,121	4,599	4,914	4,190	4,668
Maize	81	72	64	64	68
Gram	83	52	51	51	60

During 1940-41, 598,000 acres were under cocount, 8,000 acres under spices and 1,752,000 acres under ragi.

In addition to above tea, coffee and cinchona are grown on the lower slopes of the hills, spices and condiments in the extreme south,

Remodel your business methods with the ideas given in K. M. Banerjee's BUSINESS EFFICIENCY. Rs. 2. Industry Book Dept., Calcutta.

and coconut along the coast. Rubber trees are reared on the Nilgiris. Indigo (55,000 acres) is grown and Madras is now the biggest producer of that crop, contributing about 75 % of the whole yield. Tea is grown over about 79,000 acres. Vegetables of all kinds are cultivated annually. About 72 % of the people are engaged in agriculture including cattle breeders, labourers, etc. The lands are irrigated by canals, receiving water from dams on the hills.

Total area sown in the Presidency is 37,539,000 acres. The districts where the various crops grown most are: Rice—Tanjore, Malabar, Chingleput, Cholam—Bellary, Kurnool, Coimbatore, Nellore, Cambu—Coimbatore, Trichinopoly, Vizagapatam, Guntur, Ragi—Vizagapatam, Salem, Coimbatore, Maize—Guntur, Giam—Kurnool, Pulses—Anantapur, Bellary, Kurnool, Vizagapatam, Sesamum—East Godavari, Salem, Trichinopoly, Groundnut—S. Arcot, Kurnool, Guntur, Bellary, Anantapur, Coconut—East Godavari, Malabar, S. Kanara, Tanjore, Condiments and Spices—Guntur, Malabar, Vizagapatam, Cotton—Bellary, Tinnevely, Coimbatore, Ramnad, Indigo—Nellore, South Arcot, Tea—Coimbatore, Malabar, Nilgiris, Tobacco—Guntur, Coimbatore, Vizagapatam. Fruits and vegetables—Malabar, Vizagapatam, Ramnad.

Coffee—The area under coffee in the Madras Presidency amounted to 57,000 acres in 1940-41 as against 45,332 acres in 1939-40. The estimated average annual production in the Presidency is about 10.6 million lbs. as against 11.6 million tons in 1933-39 for the whole of India. The exports are high during January to June and the trade is slack during the rest of the period. The average annual rail-borne export is about 400 tons of which nearly two-thirds are to Mysore.

Forests clad with teak, ebony and sandalwood are situated in the west and south of the Presidency. There are also forests in the E. Ghats and teak plantations of Nilambur in Malabar. These forests are all protected.

Minerals—Manganese, salt, saltpetre and building materials, i.e., clay, granite, laterite, limestone, and stone are the chief minerals found. Coal of inferior quality is also found. Iron is abundant in the Salem district but is not worked on a large scale due to the absence of abundant coal supplies. Mica is obtained in large quantities in the district of Nellore and the Nilgiris while deposits of manganese occur at Bellary, Vizagapatam and Cuddapah. Magnesite is mined at Salem. Gold in river beds and the gold fields of Mysore are scattered in N. Arcot, Grahite, corundum and diamonds are also met with.

Industries—Weaving of silk and cotton is an important industry being generally exported to the colonies where Indian labour immigrate. Coloured lungis and saris are made both for internal consumption and export. Block printing on cotton cloth is a side industry. Tanjore, Madura, Kuttalam, Karnal, Kampti, Adoni, Aini, Tuni, Cocanada, Pidupuram, Pithapuram, Salem, Coimbatore and the centres where saris of good quality are made and have not yet been ousted by foreign manufactures except by artificial silk which is gaining ground. These are in good demand as also the muslins of Chicacole and Aini. Madura supplies Bengal with fine cloths and there is a dyeing factory at Madura. Woollen carpets are made at Ellore, Muslipatam, Ayyampatam. Ornamental brass and bronze work were formerly made. Tanjore is the centre of metal work, and silver, brass and copper wares are made here. Vellore, Ganjam, Madura, Kurumbalur, Travancore and Vizagapatam are also centres of metal work. The latter also produces ivory and Vizagapatam is famous for fine ivory work. Lacquered ware of Kurnool is the finest in India. Trichinopoly makes models of

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners. As. 5. Industry Book Dept., Shambazar, Calcutta.

temples, and earthenwares are made everywhere Mats of Tinnevely and Palghat are famous Cheroots and cigars are manufactured in Trichinopoly and Dindigul Cotton presses exist in cotton areas

There are 63 cotton mills with 14,52,000 spindles and 6,900 looms, employing 52,749 persons daily on the average, and 3 jute mills with 805 looms and 18,944 spindles, 8 hosiery mills and 6 silk mills Approximate quantity of cotton consumed in the cotton mills, during the year ended 31st August, 1942, was about 591,000 bales of 3½ cwts

During 1941-42 cotton mills in the Madras Presidency Spun 204 million yds of yarn as against 193 million yds in 1940-41 and wove 109 million yards as against 98.6 million yards in 1941-42

Factories.—There are 470 rice mills, 64 bricks and tiles factories, 10 saw mills, 11 bone mills 72 match factories, 1 paper mill, 6 leather and shoe factories 4 bakeries, 8 rope works, 2 iron smelting and steel rolling mills, 11 oil mills, 7 kerosene tinning and packing factories, 16 coach building works, 75 tea factories, 338 cotton ginning and pressing factories There is a Government cinchona plantation and factory

Sugar Factories.—During 1940-41, 11 factories worked with cane in the Madras Presidency as against 10 in the preceding season Amount of sugar produced during the season amounted to 44,100 tons as against 31,308 tons in the preceding year The total yield of gum from sugarcane in the Presidency amounted to 4,85,000 tons as against 4,09,000 tons in 1939-40

Fisheries.—Recent investigations have enabled the Fisheries Department to locate six new chank beds in Pulk Bay The researches revealed the occurrence, of hilsa fisheries at sea regularly in the months in which they disappear from the rivers

Trade.—About 10 per cent of the maritime trade is shared by Madras. Tuticorin, Calcutt, Mangalore Cocanada, Tellicherry, Negapatam, Cochin, Cuddalore, Dhanuskodi, Mangalore and Vizagapatam are the other ports There is internal trade with Mysore and the Nizam's Dominions

New Registrations.—During 1939-40, the number of limited companies registered in the Province came up to 167 These had an authorised capital of Rs 3,42 lakhs, 167 companies went into liquidation during the year

Irrigation.—During 1940-41, area under irrigation was 9,221,000 acres of which 3,923,000 acres were irrigated by Government canals, 3,395,000 acres by tank and 1,448,000 acres by well

Transport.—The South Indian Railway and M S Railway cover about 4,000 miles There are about 22,000 miles of metalled roads and about 10,000 miles of unmetalled roads in the province Mileage of roads in the Madras Presidency is nearly 45 per cent of the total mileage in India The construction of some important major bridges over the Godavari, Kistna, Tungabhadra and Pannai rivers and several minor bridges, calculated to be in the neighbourhood of Rs 5 crores, is under project

FOREIGN TRADE.

The following table shows the value of the sea-borne trade of the Madras Presidency during the last 5 years.—

	1935-36	1936-37	1937-38	1938-39	1939-40
	(in lakhs of rupees)				
Imports, Merchandise	15,71	15,27	28,85	24,61	27,51
Exports "	26,80	36,14	38,13	35,48	38,91
Re-exports "	11	11	19	17	—

Imports.—The total imports of private merchandise (excluding treasure and trade with Burma) in 1939-40 amounted to Rs 16.78 crores

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners. As 5. Industry Book Dept., Shambazar, Calcutta.

404 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Imports of machinery and mill work which for a long time scored the first rank gave place to grain, pulse and flour, the import of which group of commodities rose sharply from Rs 14 96 lakhs to Rs 2,23 24 lakhs. Diminished imports were noticeable in machinery and millwork (—Rs 1,00 99 lakhs), metals and ores (—Rs 27 46 lakhs), instruments and apparatus (—Rs 13 19 lakhs), paper and pasteboard (—Rs 3 30 lakhs), hardware (—Rs 7 68 lakhs), tobacco (—Rs 5 47 lakhs), glass ware (—Rs 6 13 lakhs) and silk raw and manufactured (—Rs 3 72 lakhs). Cotton manufactures, liquors and stationery showed no appreciable decline. These decreases were offset in the main by increased imports of grains (+Rs 208 28 lakhs) and sugar (+Rs 54 22 lakhs) and among others by enhanced imports of oils (+Rs 18 09 lakhs), cotton twist and yarn (+Rs 7 27 lakhs), dyeing and tanning substances (+Rs 7 87 lakhs), manures (+Rs 4 73 lakhs), chemicals (+Rs 22 96 lakhs), drugs and medicines (+Rs 9 14 lakhs), spices (+Rs 2 22 lakhs), and art silk (+Rs 15 00 lakhs).

Exports—The total export of Indian merchandise from this province to foreign countries excluding Burma increased from Rs 33 06 crores to Rs 35 77 crores reaching the 1937-38 level of Rs 35 65 crores. Madras leather which experienced a shortage of demand abroad last year (especially in the United Kingdom) reached its peak for the last five years. The exports of leather were nearly half as much against as in the previous year (Rs 4,79 73 lakhs in 1938-39 against Rs 7,03 85 lakhs in 1939-40). All the chief articles of export, except seeds, unmanufactured tobacco and oilcakes, gained improvement in the world-market under the complex conditions of a period of war-preparation followed by the outbreak of war itself. The decline in the demand for seeds was due to a shrinkage in the intake of groundnuts abroad to the extent of Rs 2,95 95 lakhs. The comparatively smaller increases in the export of castor seeds (+Rs 29 18 lakhs) and linseed (+Rs 22 52 lakhs) could not retrieve the abnormal fall under groundnuts. The shortage of demand for unmanufactured tobacco in the United Kingdom to the extent of Rs 88 78 lakhs offset partially by an increase in China's demand to the extent of Rs 54 68 lakhs accounts mainly for the diminished exports of tobacco from Rs 1,74 93 lakhs to Rs 1,43 09 lakhs. Increased exports were noticed appreciably in tea (+Rs 48 68 lakhs), fruits and vegetables (+Rs 7 65 lakhs), cotton manufactures (+Rs 57 24 lakhs), raw cotton (+Rs 51 21 lakhs), coal manufactures (+Rs 34 34 lakhs), raw rubber (+Rs 22 64 lakhs), metals and ores (+Rs 33 88 lakhs), spices (+Rs 8 87 lakhs), hides and skins (+Rs 22 58 lakhs) and oils (+Rs 18 00 lakhs).

The distribution of trade among the several ports of the province continued as in previous years for the major ports of Madras, Cochin, Tuticorin and Calicut, Madras as usual leading with Cochin as the second. The shares of smaller ports showed violent changes. Dhanushkodi registered an increase over Cocanada, Mangalore, Masulipatam and Vizagapatam, while the last mentioned, with her increased exports of manganese ore ranked above Masulipatam, which had diminished exports of groundnut seeds. The relative importance of the other ports was maintained.

Coasting Trade in Madras Presidency.—A summary of the coasting trade done in the Presidency of Madras during last four years follows —

	1936 37	1937-38 (in lakhs of rupees)	1938-39	1939 40
Imports	9,52	10,84	9,50	8,87
Exports	6,44	7,87	7,98	7,32

Those after business will get novel business tips from **START A BUSINESS. As 5 INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

MADRAS CITY.

The city of MADRAS has a population of 777,000 and is the third city in India in point of population and commercial importance. It is the seat of a University. It has a harbour and is the chief port of the Presidency. Its trade has been affected by competition with Cochin and the French port of Pondicherry and Karikal.

Madras is connected by rail with the west coast and with Ceylon on the south. Two main railway lines emerge from the town and penetrate into the interior. The broad gauge Madras and South Mahatma Railways bring in and carry away the articles of merchandise into the interior. There are also lines running to Bombay via the Hyderabad State and to Calcutta along the East Coast.

There are three modern cotton mills and several oil mills, hides and skins are also treated here before being sent away by steamers to foreign countries. Manufacture of cotton piecegoods is advancing apace.

The chief manufactured articles exported from Madras may be said to be hides and skins and leather, in which Madras occupies the foremost place in India. The hides and skins exported are chiefly what are known in the market as "half tans," which are largely in demand for pucca leather goods like boots and shoes, leather bags, etc.

Another article that is manufactured and exported is raw sugar (otherwise known as *guri* or *jaggery*) which is wanted by the manufacturers in the United Kingdom.

The following are the chief industries of Madras—Aluminium industry, brick and tile-making, cement works, coffee curing, coir making, cotton dyeing, glass, jute, leather, manures, metals and precious stones, mines and minerals, oil and oil seeds, paper, pottery, rice, silk, soap, sugar, sulphuric acid, tobacco, wood and timber and wool. Matches and glue (from tannery fleshings) are also manufactured. The handicrafts are—Weaving, embroidery and lace-making, gold and silver thread, essential oil, palm sugar, carpentry, carpet weaving, wood carving, boat building and blanket making.

The value of the total trade of the Port of Madras on private account, representing 38 per cent of the aggregate trade of the Madras Presidency in 1939-40 as against 39.87 per cent. in the previous year and amounted in that year to Rs. 2,859 lakhs or a decrease of Rs. 394 lakhs, as compared with the previous year. Imports accounted for Rs. 1,395 lakhs and exports Rs. 1,464 lakhs.

ANANTAPUR DISTRICT.

About 6,722 sq. miles in area, the district of ANANTAPUR has a population of 1,172,000. Languages spoken are Telugu and Kanarese. Average rainfall is 22.06".

Rice, cholam, cumbu, kolla and ragi are the principal cereals cultivated in the district, and castor, cotton and groundnut stand foremost among industrial crops.

Village industries are rare. A rough kind of blanket is woven in most of the taluks but those of BELAGUPPA, TENAGAL and KARI-GANAPALLI of Kalyandrug taluk are superior. PAMIDI produces parti-coloured fabrics, and bangles are manufactured in many places of the district.

In BYADAGIRA of Madakasira taluk, CHILAMATUR of Hindupur taluk, long narrow pieces of gunny bag like things are woven with hemp fibre and these when stitched together can be used as spreads on floors or as screens. Cotton and silk cloth and saris are made in TADPATRI, YADIKI and PEDDAPAPPUR of Tadpatri taluk.

Those after business will get novel business tips from **START A BUSINESS. As 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

406 INDUSTRY YEAR BOOK & DIRECTORY, 1943

In URAVAKONDA of Gooty taluk, there is a thriving weaving industry, cotton saris of a cheap variety are manufactured and there are about 2,000 looms in the place

In GOOTY, HINDUPUR and DHARMAVARAM taluks, there are several ground-nut decorticating factories There are 3 ground-nut decorticating factories in BELAGUPPA in Kalyandrug taluk In PAMIDI of Gooty taluk, at HINDUPUR and ANANTAPUR town, there are oil mills

GODDUMARRI, a village in Tadpatri taluk, on the bank of the Chitavati, contains extensive fruit bearing gardens rears a good variety of oranges called 'cheena,' guava and pomegranate fruits on a large scale

MUCHUKOTA in Tadpatri taluk with its range of hills running from north to south, contains good mining facilities for extracting barytes Barytes is available in KRISTIPADU village in Gooty taluk

In and around VAJRAKARUR in Gooty taluk, pieces of raw diamonds are picked up on the surface soil especially immediately after rains Raw diamonds of value ranging from Rs 5,000 to Rs 25,000 are occasionally picked up at Konganapatu village of the same taluk

TADPATRI has a flourishing trade in cotton and groundnut Ghee is exported on a large scale from this place There are 5 cotton ginning, groundnut decorticating factories, two cotton press factories and one oil expeller in the town The industry of spinning and weaving of cotton cloths is on the increase

KADIRI—There are nearly a dozen groundnut decorticating factories in the town

ANANTAPUR is the head-quarters of the district It has a population of 15,099

DHARMAVARAM—The town has a rising weaving industry and manufactures both cotton and silk cloths specially saris for women and has a good daily market The place is noted for gingelly oil

HINDUPUR—The town has a large and increasing trade in jaggery, piece-goods and gram There are 7 groundnut decorticating factories in the town

GUNTAKAL has a population of 15,620

Fairs —Mekkappalli, Sree Sangameswara Cattle fair at Kothacheruvu Vaisakha Pournavami 9 days, Penukonda, Syed Sha Baba Fakrodeen's Urs fair, 10th days of Jamadal Akhri, (Mohammadan Month), 5 days, Lalgudy, S I, Vaikuntha Ekadasi day (December), Agricultural and Industrial, 15 days, Samayapuram, Bojjajapuram, Cattle fair, Penukonda, Sree Subramanya Swami Parasha at Peddamanuthur, Magha Suddha Sashti, 6 days, Tenagal, Kalyandrug Taluk, cattle fair Magh Bahula Panchimi, 8 days

ARCOT (NORTH) DISTRICT.

The district of NORTH ARCOT having an area of 4,954 sq miles has got a population of 2,580,000 Languages spoken are Tamil and Telugu Climate is dry and varied Average rainfall is 38"

Crops raised are rice, ragi and cambu Vagai, cholan, sugarcane, gingelly and groundnut, are also grown, the products being chiefly exported The trees are red sanders which are chiefly used for making a costly red dye Teak, black-wood, sandal-wood are the other forest products, good granite is met with

Cotton weaving, spinning and dyeing and silk cloth making at ARNI (17,446) constitute the chief industries Woollen carpets of a coarser quality are woven in Jauls There are brass works also At

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS. Re 1/12. Industry Book Dept, Shambazar, Calcutta.

RANIPET leather from tanneries is very widely sold. chemical manures are also manufactured and mangoes and oranges, for which this district is famous, and grapes, which grow abundantly, in TIRUPATTUR (18,299), are exported in large quantities. Betel-leaves are another important article of export. Other exports to the surrounding districts are rice, groundnut, hides, skins and horns, jaggery, tamarind, stone, and piece-goods to the surrounding districts. The imports here are piece-goods, yarn, twist, salt, chillies, tobacco, unwrought brass, and iron. The skin trade centre is at GUDIYATTAM.

The important marts are —

VELLORE (population 57,265)—Industries —Brasswares. Beedi and cigar manufacture, tanning hides, carpet manufacture and cotton cloth weaving. Exports —Beedi, cigars, brass vessels, bamboos, jaggery and tanned skins. Imports —Raw hides and skin, timber.

ARNI—Industries Weaving, spinning, dyeing, silk cloth weaving, mat manufacture and tanning hides. Exports Mats.

TIRUPATHOOR—Industries —Beedi manufacture, tanning hides and mat manufacture, baskets and mat making out of bamboos. Exports. —Dholl, jaggery, tamarind, groundnut, leather. Import —Rice.

GUDIYATTAM—Industries —Beedi manufacture, weaving, tanning hides, manufacture of manure, teakwood furniture and poultry farming at Katpadi. Mat making industry is carried on in Melalathur and Gudunagaram. Palmyra-jaggery is manufactured in Eachambat and Mittalam villages and sugar is prepared from palmyra jaggery in Mailpatti village. Exports Tanned skins, coconut, paddy, groundnut, jaggery, mangoes and Sathur oranges, eggs, etc. Imports —Raw hides, foodstuffs.

WALLAGAH—Industries —Weaving, spinning, dyeing, beedi manufacture, tanning hides, making jars and carpet weaving. Exports —Paddy, groundnut, carpet, tanned leather, jars, manure, spirit. Imports —Raw hides, bones, avaiam bark.

ARKONAM—Industries —Weaving. Exports —Paddy, groundnut. Imports —Articles of foodstuff, black gram and red gram.

CHEYYAR—Industries —Weaving, mat manufacture. Exports —Paddy groundnut and cloths including saies.

WANDIWASH—Industries —Weaving, mat manufacture. Exports —Mats. Imports Sundry articles referred for domestic consumption.

TIRU VENNAMALAI (population 27,769)—Exports —Groundnuts. Annual cattle fair is held during Karthikai festival in November.

POLUR—Industries —Weaving, mat manufacture, extracting oil from country mills, blanket weaving, basket making, and carving of stone images. Exports —Groundnut, gingelly, ragi. Imports —Cloth, grains and groceries.

CHENGAM—Industries —Blanket making out of sheep wool. Exports —Padoz chilhes groundnut, tobacco and bamboo. Imports —Cotton goods, cotton yarn.

The Madras-Calcutta trunk road runs from east to west along the Pallar touching all important towns situated on the river, WANDIWASH and CHEYYAR taluks have no railway communication.

ARCOT (SOUTH) DISTRICT

SOUTH ARCOT is an open undulating plain with one range of hills, and has a population of 26,10,291 within an area of about 4,000 sq miles. The rainfall averages 46". Tamil is the language spoken here.

Paddy, cambu, and varagu are the important food crops, and the principal industrial crops are groundnut, oil seeds indigo and sugarcane, PANRUTI, VALAVANUR, ULUNDURPET, TIRUKOILUR,

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS. Re. 1/12. Industry Book Dept, Shambazar, Calcutta.

VRIDHACHALAM and CUDDALORE are chief centres of groundnut traffic. Condiments and spices, fruits and vegetables are also cultivated. Tobacco of superior quality is cultivated at SHIVAPURI in Chidambaram.

There are distilleries at NELLIKUPPAM and the trade of the district centres round CUDDALORE. Cotton fabrics are manufactured here. It is besides a maritime district and the chief trade centres or ports are CUDDALORE and PORTO NOVO of which the former has a great name and constitutes the headquarters of the district.

There are 530 miles of metalled road and an equal number of miles of unmetalled road, and the opening up of the Villupuram-Trichinopoly Railway has increased the importance of VILLUPURAM (population 20,127) as a railway junction.

CUDDALORE is an important port, exporting groundnut, oilseeds, and cotton piecegoods, ghee, turmeric, grains, earthenwares, etc. Exports of groundnut during 1938-39 were valued at Rs 147 lakhs. The following table shows the nature of foreign trade done at the port.—

	1938-39	1939-40	1940-41	1941-42
		(in lakhs of rupees)		
Imports	17.4	32.5	19.4	16.7
Exports	144.6	147.4	57.9	63.8

Principal imports (foreign) into this port are betel-nuts, sugar, and exports consisted chiefly of groundnuts and lungis and saies. The coasting trade consists chiefly of—Imports: coal, pulse flour, gunny bags, and timber; Exports: gins and groundnut.

Coasting trade amounted to Rs 183 lakhs in 1938-39 as against Rs 198 lakhs in 1937-38.

CUDDALORE, CHIDAMBARAM and VILLUPURAM are municipalities with a population of 60,634, 24,891 and 19,775, respectively.

PORTO NOVO is a port with a population of 13,762. The foreign trade during 1937-38 was valued at Rs 57 lakhs. During 1936-37 the value of foreign trade amounted to Rs 5,14,000. Foreign imports during 1937-38 were valued at Rs 3,34,000 and exports at Rs 2,36,000. Coasting trade during 1938-39 amounted to Rs 13,000.

Cattle fairs are held at two places in this district. One is being held at Melmalayanur, Gingee Taluk in the month of February and another at Mallam, Tindivanam taluk in the month of March. At both the fairs cattle are brought from different parts for public sale.

BELLARY DISTRICT

The BELLARY district occupies an area of 6,136 sq miles and has a population of 10,51,469. The annual rainfall averages about 24". Languages spoken in the district are Kanarese, Telugu and Hindustani.

Chollam and korra constitute the main food crops. Pulses are also grown as a mixed crop. Cotton and groundnut are the only industrial crops of this district. Sugarcane is grown mainly at HOSPET and is very paying.

Cotton and silk weaving are important industries throughout the district. The centres of silk weaving are KAMPLI, HAMPASAGARAM, ROYADRUG, etc. ADONI manufactures coloured cotton rugs which have a considerable sale. Woollen blankets are woven at KUDLIGI and HARPANAHALLI. There are many cotton ginning factories in the district. Manganese is mined greatly in the district. There are about 5 mines.

BELLARY (population 47,573) is the headquarters of the district, and is a cotton centre. There is a small distillery in the town besides

OPPORTUNITY BOOKS from INDUSTRY PRESS Write for recent Catalogue. **INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

two steam presses and a cotton mill (spinning). Bellary is well known for its wool. The woollen industry there could not in the past thrive because of the exports of large quantities of wool from the area to inland and foreign stations.

ADONI (population 35,425) —It is a chief centre of cotton trade. Cotton carpets and mats are also made here and a good trade exists in these articles. There are two tanneries at **KOSEGI**.

HOSPET (population 26,013) —It has a long street which is very important. There is a tannery. Chief trade of the place consists in jaggery (coarse sugar).

There is a sugar factory (The India Sugars and Refinery) and a weaving mill (Gopalkrishna Weaving mills centre) for the manufacture of saris, **HASUPI** which is a very important place of pilgrimage is at a distance of 12 miles from Hospet R. S.

ROYADRUG (population 16,040) —It has several broad, regular streets, and many narrow and irregular lanes. There is a tannery, and a good trade exists in silk fabrics and banugulu manufacture.

YEMMIGANUR (population 12,683) —The chief industry of the place is cloth weaving, mixed silk weaving of cotton saris for women and it has a good trade in those articles.

The chief trade of Bellary is with Bombay, Hyderabad and Mysore. From Bombay it imports rice, turmeric, chillies, metal and metalwork, and exports to Bombay cereals, silk fabrics, cotton carpets, blankets, and jaggery, cattle, rice, timber and coconut are received from Mysore, and blankets, oilseeds and cotton stuffs are sent there. Hyderabad receives from here cholam, jaggery, cotton and silk fabrics and sends out raw cotton chiefly.

Fairs—A cattle fair is held every year in February or March at Kunuvatti of the Harapanahalli Taluk bordering the Bombay Presidency. A large number of cattle from Mysore, Nellore and Dhawai was brought for sale.

CHINGLEPUT DISTRICT.

The district comprises an area of 3,071 sq miles and a population of 18,22,000. The roads in the district are well laid out. The average rainfall is 45".

Chief crops are rice, great millet, spiked millet, ragi, raiaagu or arika, pulses, sesamum, groundnut, coconut condiments and spices, (indigo), betel vines, fruits and vegetables.

CHINGLEPUT (population 14,358) —The office of Revenue Divisional Officer and the Sub-Collector, and the Courts of the District and Sessions Judge, Sub-judge and District Munsiff are all in this town.

CONJEEVERAM (population 54,258) —The town is famous for cotton and silk weaving and its weaving population comes to 25 per cent of the whole population. Umbrellas for temples are manufactured and sold all over Southern India. It is an important trading centre exporting large quantities of cloth and paddy.

POONAMALLEE (population 20,340) —It is a military station noted for flowers.

SEMBIYAM is a town with a population of 33,127.

SAIDAPET (population 33,637) —Imports to this town consist of cotton piece-goods, hardware and coal, and exports (in small quantity) of rice and groundnut. There are a number of tanneries.

TIRUVOTTIYUR (population 10,732) —Rice is largely grown here.

UTTARAMERUR —A weekly market is held here, where rice, grains, foreign goods and cattle are sold.

OPPORTUNITY BOOKS from **INDUSTRY PRESS**. Write for recent Catalogue. **INDUSTRY BOOK DEPT.**, Shambazar, Calcutta.

TIRUVALLUR (population 10,650) —Red handkerchiefs and cloths for Mahomedans are manufactured in the Satiyavedu division and sent to Bangalore

WALAJABAD —This town is noted for tannery It exports rice and paddy A weekly market is held here

SRIPERUMBUDUR —This is noted for a Vaishnavite temple It has a big lake

CHITTOOR DISTRICT.

The district of CHITTOOR has a population 14,47,103 and an area of 5,901 square miles Languages spoken are Telugu and Tamil

There are several bell-metal factories at KALAHASTI Brassware of TIRUPATI are well-known Indigo cultivation is decreasing in KARVETNAGAR

CHITTOOR is the head quarters of the district Other important places of the district are TIRUPATI, MADANAPALLI, KALAHASTI, and PUNGANUR PAKALA and RENIGUNTA are important railway junctions

COIMBATORE DISTRICT

The district has an area of 7,782 sq miles and a population of 28,09,000 The average annual rainfall is 25 inches

The crops grown are cholam, cambu, pulses, ragi, rice, cotton, sugarcane, tobacco, mulberry for silk works Tea and coffee are widely cultivated There are 12 coffee estates yielding 1,582,665 lbs of cured coffee and 34 tea estates yielding 15.2 million lbs of tea

This district has real forests, sandal and cutch forming a continuous belt Myrobalans are obtainable, soapnuts, honey, wax are also found here Cotton and silk weaving, making of carpets, which are sold locally are the chief industries, they are also sent to Madras, Bangalore and Mysore, Trichinopoly, etc, and are made at BHARAIN There are several cotton ginning and pressing factories and eight spinning and weaving mills, tile factories, as well as several works for preparing coffee Silk industry is carried on in KOLLEGAL (population 13,849) There are tanneries and rice mills in this district and there is a good trade in hides and skins

The chief exports are cereals, pulses, chillies, turmeric, spices, cotton, oilseeds, tobacco, ghee, sandal wood, plantain, jaggery, brass and copper vessels, cattle and leather, and the chief imports are rice, salt, fish, piece-goods, yarn, metals, metal wares and coconut oil (from Malabar)

The internal trade is conducted in numerous weekly markets, the most important centres of which are POLLACHI (population 22,112), TIRUPPUR (18,059), DHARAPURAM (18,218), UDUMALPET and COIMBATORE, ERODE is one of the important centres of the trade in Southern India and a big railway junction on the South Indian Railway The population of COIMBATORE is 95,198 and that of ERODE is 33,672 With nearly 188,000 looms, and an industrial school for cabinet making, the district of Coimbatore is a place of some trade

The chief mineral product of Coimbatore is saltpetre There are 14 saltpetre refineries in the district Toys of good workmanship representing fruits, penholders, jais, paper-weights, etc, are made and sold locally

CUDDAPAH DISTRICT

The CUDDAPAH district has an area of 5,918 sq miles and a population of 10,56,982 Languages spoken here are Telugu and Hindustani

Utilise your waste products by reading UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT., Shambazar, Calcutta

MARKET PLACES OF THE MADRAS PRESY. 411

The principal produce is raw cotton. The next include foodgrain (cholam) and egg, Cuddapah slabs, minor forest produce, turmeric and in recent years, groundnuts. Locally grown turmeric finds a wide market in the provinces including northern and western India. Ground-nut generally finds its way to Madras or Pondicherry. Local melons are sent, among other places, to Hyderabad, Bombay, Calcutta, Madras, etc. A large quantity of barytes is raised. Asbestos is found in small quantities.

MADHAVARAM in Siddharattam taluk is also noted for its fine lace-bordered cloths. Reed-mats are manufactured in PULLAMPET of Rajampet taluk. China clay is also worked in HASTAVARAM village and PATUR Panchayet Forest area (both in Rajampet taluk). In SETTIGUNTA (Rajampet Taluk) wooden dolls are made.

There is a Fruit Research Station established by the Government at ANANTHARAJUPET (Rajampet Taluk) and oranges (locally called "Kodu Cheeni") are a special product of KODUR and its adjoining villages (of Rajampet taluk).

The chief items of imports are domestic requisites such as salt, kerosene oil, sugar, spice, rice, etc. Foreign piece-goods and yarn are largely imported.

The three principal trade centres in this district are in order of their importance, PRODDATUR, CUDDAPAH and RAJAMPET. Other important towns are JAMMALAMADAGU, BADVEL, VEMPALLI, KAMALAPURAM and ROYACHETI.

CUDDAPAH (population 23,256) —It is not of much importance except that it is the head-quarters of the district. It is very hot.

JAMMALAMADAGU (population 9,639) —It is a busy centre of trade. It exports cotton, the chief product of the country. Cloth is manufactured here on handlooms. Carpets made here are sent to the Central Provinces and the Bombay Presidency and find a ready sale.

PRODDATUR (population 126,951) —There are two cotton pressing factories here. Brass, bell-metal and copper vessels are manufactured at VONIPENTA.

PULLAMPET is reputed for its fine lace-bordered cloths.

Fairs:—Cattle fairs are held at Chinnamandem, Madithad and Kamalur.

EAST GODAVARI DISTRICT.

The East GODAVARI district has an area of 5,678 sq miles and a population of 20,78,090. Average rainfall 40.26". Telugu, Hindustani and Yerikala are the languages spoken.

Paddy is the principal crop and cholam is the other cereal most extensively grown in the delta taluks. Other important crops are turmeric, sugarcane, betel, garlic, onions, plantains, arecanut, gingelly, castor and tobacco.

RAZOLE and AMALAPURAM are noted for coconut, arecanut and plantain gardens, and tobacco in RAZOLE, RAMCHANDRAPURAM, RAJAHMUNDRY and AMALAPURAM (15,213), and sugarcane in RAMCHANDRAPURAM, COCANADA, and PEDDAPURAM (population 17,338) are important among the industrial crops of the district, while, excepting the PITHAPURAM TALUK, gingelly has an extensive cultivation all throughout the district.

COCANADA (population 65,952) —The town is connected with the main line of the Railway by a branch line off SAMALKOTA and is a sea port. The town and port is the most important centre in the Coromandel Coast. It is the chief port in the Madras Presidency for the export of rice, the receiving centres being Colombo, Mauritius, Coromandel and Malabar.

Utilise your waste products by reading UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

412 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Principal exports include raw cotton, groundnuts, rice and paddy (to Ceylon and Mauritius), the imports to the port are kerosene oil (from U S A), and metals (from U K) 105,138 tons of groundnut valued at Rs 130½ lakhs were exported during 1938-39 Figures of foreign trade follow —

	1939-40	1940-41
Imports	Rs 94,53,566	Rs 68,56,264
Exports	Rs 1,37,77,888	Rs 2,67,54,232
Figures of coastal trade follow —		
Imports	Rs 10,27,751	Rs 3,93,054
Exports	Rs 10,10,325	Rs 4,85,267

PEDDAPURAM (population 13,000) —The place possesses a good weekly market in which all the agricultural products of the surrounding country are offered for sale

PITHAPURAM (16,151) —There is a weekly market for selling the products of the neighbouring lands An important feature of the market is that cattle are sold here The bell-metal ware industry of the town is encouraging

RAJAHMUNDY (population 63,526) —Rajahmundry is the second important town of the district The articles manufactured here include aluminium articles, sandal and other woodwork There is a paper mill here The trade of the place is prosperous and includes agricultural crops besides those already mentioned

SAMALKOTA (population 18,001) —There is a sugar refinery and distillery in the town There is also a Government Experimental Agricultural Farm here

GUNTUR DISTRICT.

The district of GUNTUR has a population of 22,77,000 and an area of 5,735 sq miles Languages spoken are Telugu and Hindustani

The staple food crops are cholam, variga and cambu, but paddy is the main crop Of the industrial crops, cotton, tobacco and castor are important The tobacco grown in this district is one of the best of its varieties, tobacco is exported to various parts in this country and also to foreign countries

Ground-nut is grown in all the taluks of the district except in the deltaic areas and exported for industrial purposes

Duggirala in Tenali Taluk is the centre of business for turmeric which is grown mostly in the Taluk and also collected from other districts

There is a jute mill, about 40 rice mills and one oil mill in the district besides five pressing and ginning factories

GUNTUR (population 65,179) is a big town **TENALI** (34,580) is the chief centre of trade in paddy and **BAPATEA** is noted for its palmyra and spice plantations Tobacco factories of the district are growing in importance

CHIRALA (population 18,853) —Cotton weaving is a prosperous craft in the town proper It is one of the big marketing centres for tobacco

MANGALAGIRI (population 16,911) —It is a centre of weaving industry Cement is manufactured here The stones procured in abundance in Narsaraopet and Palnad Taluks is used in the manufacture of cement Thousands of Hindus flock in the temple of Narasingha during the annual fair held during the fullmoon of March

ONGOLE (16,672) —It is a town of some importance The surrounding country is rich in alumina The trade of the place is chiefly in agricultural produce, hides and skins, etc

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re 1/ 12 INDUSTRY BOOK DEPT., Shambazar, Calcutta.

NARASARAOPET (15,403) —It is noted for its manufacture of iron camp-furniture which are manufactured here on a large scale. Fur blankets are manufactured in **DRONADULA**, a village in **NARASARAOPET**. It is the centre for chillies and cotton traffic.

PONNUR has a population of 11,101 and **VETAPALEM** (10,288) is another trade centre.

KANARA SOUTH.

The **SOUTH KANARA** District has an area of 4021 sq miles and a population of 15,25,600. Languages spoken are Kanarese, Telugu, Malayalam, Konkani, Marathi, Hindustani and Tulu.

Rice is cultivated on a large scale in the District. Jeera rice is a good and fine quality of white rice. Other cereals grown are urid, horsegram, beans, green gram and gingelly. 317 acres of land is under coffee.

Jaggery industry is progressing especially at **KULUR**, **ULLAL**, **KASARAGOD** and other places where sugarcane is largely grown.

Coconut grows abundantly in the District, especially at **KASARAGOD**, **MANJANADY**, **ULLAL** and **MALPE**. The oil extracted in the rainy season is rather dirty whereas that prepared in hot season is quite transparent.

Alcanuts of betel nuts, red and white, are largely grown in the villages. Cashewnuts are largely grown on the hills along with the fuel trees. The collection of nuts is done in March and April. The fried nuts are sent to foreign countries and used for preparing macaroons etc. Chillies are largely grown at **HAREKAL** and in every village especially before the rainy season sets in. They are also grown in the Ghauts and are lower in price than village grown chillies which are very hot. Coffee is largely grown on the Ghauts. The best variety being "peaberry", Ginger, groundnuts, etc., are grown in several places. Cardamoms, pepper, lampatri are grown in the Ghauts.

Kaolin is obtained deep in the hills at **MANNAGUDDE** and **JEDIGUDDE** at **Mangalore**. Excellent laterite is dug at **PADAVU** for building construction.

The chief industries of the District are fish curing, tile and brick factories and pottery, coffee curing, weaving, coin making, soap making and Teriacotta ware.

Tobacco is largely grown on the sandy plains near the coast line especially at **KUMBLA**, **KASARAGOD**, **HOSDRUG**, **MOGRAL** and **BEKAL**. South Kanara is well-known for the manufacture of beedies.

Tiles are manufactured at **JEPPU**, **KUDROLI** on the bank of the **Netravati** river at **MANGALORE**. There are two or more iron works, one at **JEPPU** and another at **HAMPANKATTE**. There are also about 50 bakeries. Fishing industries go on all the year round and there are a few fish oil and guano factories. Fishes are dried, salted and exported to local areas for consumption during the rainy season. Oils are also extracted and guano is manufactured and is sent to the Ghauts for improving the soils. Brassware and potteries are manufactured at **MANGALORE**. **UPPINANGADY** in **Puttur T. R.** is the centre of pottery trade. Rattan manufacturing industries are carried on at **PUTTUR**. Mangalore acid-proof jars are manufactured near **COONDAPOOR** and are widely in demand. Rope is made at **MANJANADY**, **ULLAL**, and **MALPE**.

MANGALORE (population 66,756) is a town of some importance and the chief port in the district, handling both foreign and coasting trade. Mangalore's coasting trade consists chiefly of imports of coffee, fish, fruits and vegetables, copra and lungs, and exports of fish manures, raw rubber, cardamoms and pepper. From 1939 onward a

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/ 12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

coffee curing yard has been started at Chickmagalur and consequently the coffee trade in Mangalore will be lessened. Exports during 1938-39 were coffee (Rs 53 lakhs) cashewnuts (Rs 40 lakhs) and cardamom (Rs 8 lakhs). An Industrial Museum has been recently opened in the buildings of the Felix Pail Bazar in Mangalore Town.

Coasting trade at Mangalore during 1938-39 was valued at Rs 1.58 lakhs as against Rs 1.57 lakhs in 1937-38. Foreign trade during 1938-39 was valued at Rs 1.32 lakhs.

COONDAPOOR—This is another port of some importance. Imports of foreign produce include sugar, glassware, china-ware, chemicals, biscuits, peppermints, barley, liquors, stationery etc.

The other sea ports are **BAINDUR**, **KASARAGOD**, **HANGAR KATTA**, **MALPE** and **MULKI**. Of these **KASARAGOD** and **MALPE** handle good coasting trade.

DHARMASTALA in Puttur Taluk is a famous place of pilgrimage during Kaithigai Festival of Thousand Lights. Another famous place of pilgrimage is **SUBRAMANIA** during Shasti festival when there is a tank at IRDE whose water is always tepid. It is stated to have considerable medicinal properties.

UDIPI in Udipi Taluk is also an important place of worship for the Madhwaseet of Brahmmins. The Gumatas at Kaikal and Venooi and the Bastis at Karkal and Mudabidi attract a large number of visitors and these are holy places for the Jains.

Fairs—A cattle fair at Sitanadi in Karkal Taluk is held annually for a week a few days after the close of the Subrahmanya fair.

KISTNA DISTRICT

The **KISTNA** district has a population of 1,446,000. Rainfall averages 37".

The district produces rich crops of rice which is cultivated over 5.7 million acres. Jowar is cultivated over 2 million acres. Groundnut is cultivated widely, the area under tillage being 1 million acres. Condiments and spices are grown in the district on a fairly large scale. Cereals and pulses grow over about 1 million acres.

The district has one jute-mill, one sugar factory and about 120 rice mills. The only industry of any importance is weaving. Toy-making is carried on at **KONDAPALLI**, and tanning is done in **BEZWADA** and **ELLORE**. Lace-making is a cottage industry in **NARASAPUR** (only 6 miles from the sea) and **MASULIPATAM**.

BEZWADA (60,427) is a rising municipality and was for some time the seat of the Andhra University.

MASULIPATAM (population 56,928). It is a seaport of some importance having both foreign and coasting trade. Among foreign exports in 1938-39 (Rs 246 lakhs) the principal articles were groundnut (130,230 tons valued at Rs 206½ lakhs), paddy and rice.

Coasting trade during 1938-39 was valued at Rs 4,58,000 as against Rs 8,58,000 in 1937-38.

Printed cloth however is manufactured but the old palampores are no more to be seen. It has got a tanning factory. The trade which is small includes agricultural crops, hides and skins and cotton, besides grains, pulses and groundnut.

PALAKOLU (population 14,000)—It is the chief mart of the Western Delta. The trade consists chiefly of fruits, grain, yarn etc.

KURNOOL DISTRICT.

The district of **KURNOOL** has a population of 11,44,000 in an area of 7,581 sq miles and Telugu and Hindustani are the languages mainly spoken. The district has an average rainfall of 26.01 inches.

Prepare ghee, butter, caseln, condensed milk, etc. at home MILK & MILK PRODUCTS explains the way Re. 1/12. Industry Book Dept, Calcutta.

The main food crops of the district are cholam, cambu, paddy, koria and varagu or arika. Cotton, groundnut, castor and tobacco are the important industrial crops. A growingly favourite crop is the groundnut. Chillies form an important crop under the Kurnool-Cuddapah canal and sugarcane is confined to a small area.

Area under crops in the district in 1939-40 —Rice, 80,250 acres, Wheat, 1,417 acres, Cholam 5,67,715 acres, Cumbu 60,105 acres, Ragi 25,014 acres, Maize 340 acres, Varagu or Arika 94,819 acres, Koria 4,64,441 acres, Shama 636 acres, and other cereals 12,256 acres, Pulses (gram) 1,15,904 acres, Castor seed 29,878 acres, Groundnut 4,05,185 acres, total oil seeds 4,39,21 acres, Condiments and spices 33,992 acres, Sugar 526 acres, Cotton 2,17,120 acres, other fibres 2,517 acres, Indigo 2,142 acres, Tobacco 7,629 acres, other drugs and narcotics 6,965 acres, total 21,44,158 acres.

The northern half of the district has a brisk trade in grains which are mostly grown there. Barytes is found abundantly in the district. Steatite and ochres are also met with here and there. Iron ore and slate are also found in some parts.

KURNOOL —Cotton carpets of a superior quality are manufactured here and exported to other places. Good melons are grown in the bed of the river Tungabhadra during the summer months and exported to other places in the Presidency and Hyderabad. The town has two cotton presses and several gins which consume the products of the surrounding country. The industries of the place include cotton cloths of a coarser kind. It is the head-quarters of the district.

GUDUR —This place is 12 miles from Kurnool and it is connected by motor-bus service. Silk cloths are manufactured by weavers here.

NANDYAL —It is a centre of grain, groundnut and cotton trade. The town is noted for its lacquer work in which there is a great trade. It is a municipality with considerable trade.

MAHANADI —It is about 10 miles away from Nandyal and is situated in the midst of forests. There is a very picturesque temple which attracts many people from different parts on Mahasivarathri day. There is a perennial spring of crystal clear mineral water flowing throughout the year from within the temple.

PANYAM —It is noted for all varieties of fruits, seeds and seedlings which are exported to the different parts of the Madras Presidency. Flooring slabs are quarried and exported.

KADAMALAKALVA —There are Government fish breeding ponds here at a place known as Piema.

SREESAILAM —People in thousands gather from all parts of India at the time of the Sivaratna festival. People from the Mysore Province and the Bombay Presidency visit the place in thousands every Telugu New Year's day.

SANGAMESWARAM —This is an important place of pilgrimage at the time of Sivaratna festival and it is 14 miles from Nandikotkur, the Taluk headquarters.

CUMBUM —Cotton carpet weaving is done here to a small extent and slate industry has been recently started.

DIGUVAMETTA —This is a Railway Station in the thick of the forest. European and Indian gentlemen visit the place during summer for shooting game.

UPPER & LOWER AHOBILAM —These two are very important places of pilgrimage where thousands of people gather at the time of the festival which generally takes place in the end of March every year.

Prepare ghee, butter, casein, condensed milk, etc. at home **MILK & MILK PRODUCTS** explains the way. Re. 1/12. Industry Book Dept., Calcutta.

BRAHMAGUNDAM—There is a famous temple and a water spring and hundreds of pilgrims gather there for the Mahasivarathri festival.

MARKAPUR—Many pilgrims visit the place from the east and north. It is known for slate industry.

Other important places are (1) **BETAMCHERLA** noted for the export of slabs used for flooring and roofing of houses, (2) **VELDURTHI** noted for its cotton and groundnut trade, (3) **DHRONACHELLAM** where there is a tannery and tanned skins are exported in large quantities from here, (4) **MADDIKERA** a trading centre for cotton, groundnut and grain, (5) **PATTIKONDA** is the headquarters of the taluk.

Fairs—Chief fairs and festivals are Gorantla, 27 miles from Kurnool, March or April, a cattle fair is held during the car festival, Mahanadi, 10 miles from Nandyal Taluk Headquarters, Mahasivarathri, February, a cattle show is held by the Agricultural Department and valuable prizes are distributed for the best exhibits, Tartool, 4 miles from Nandikothur Taluk Headquarters, April, Sreeangaswami festival, a large trade is done in timber for house construction and agricultural implements, this being an annual market place for coarse blankets made of wool locally in some villages of the Nandikothur Taluk; Markapur Taluk, Headquarters, March and April, Chennakesavaswami festival, a cattle show is arranged annually.

MADURA DISTRICT.

The district with an area of 4783.26 sq miles is peopled by 2,444,000 persons. The annual average rainfall is about 46.61".

The chief crops grown are varagu, cholam, ragi and cumbu, horsegram, paddy, cotton, gingelly and castor seed. Area under crops in 1939-40: Rice 2,98,446 acres, wheat 1,100 acres, jowar 3,70,942 acres, bajra 43,654 acres, maize 54,695 acres, other grains and pulses 2,600,059 acres, sesamum 29,528 acres, castor seed 1,987 acres, groundnut 10,051 acres, coconut 8,297 acres, condiments and spices 21,473 acres, sugarcane 2,318 acres, sugarcane bearing palm 1,439 acres, cotton 1,61,279 acres, tea 796 acres, coffee 12,659 acres, tobacco 8,764 acres, fruits and vegetables 33,938 acres.

Fruit trees and vegetables are largely cultivated in **DINDIGUL** and **KODAIKANAL** (a sanatorium and the chief hill station). The chief products of commercial importance on the hills are plantains, cardamoms, garlic and coffee. **DINDIGUL** (population 43,617) is famous for its tobacco which is grown at **PALNI** (18,899) and **PERIYAKULAM** (23,004). There are 5 tea estates and 469 coffee estates, in the district, estimated output of coffee during 1938 was 728,987 lbs. Cigars and bell-metal wares are also manufactured.

Jaggery is made from palmyra juice in many villages. In **MELLUR TALUK** the laterite beds are remarkably rich in iron, and salt is manufactured at certain stations. People here carry on manufacture of fine and decent cloth on an enormous scale. The most important art of the district is silk weaving. Dyeing from vegetables is also resorted to. There are 4 weaving and spinning mills and several lock factories. Artificial silk is woven to some extent.

MADURA CITY (2,39,167) is the commercial centre. There are 4 cotton mills and a large number of weaving establishments which are in a prosperous condition. Copper and brass vessels are also manufactured. Fine wooden toys are made here. The exports are cotton and silk fabrics (and fine cotton sails) besides rice, sheep and cattle, tobacco, spices, cardamoms, and the chief imports are salt and timber (from Burma). There is a large traffic in fire-wood.

HAND SPINNING & WEAVING: Contains Detailed Methods. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

MARKET PLACES OF THE MADRAS PRESY. 417

There is a Railway station on the MADURA—Bodinaickanur railway line and a big weekly market is held there on every Sunday. All kinds of food grains will be available for sale therein.

BODINAYAKKAMER is a municipality with a population of 27,036.

Fairs:—A large cattle fair and agricultural exhibition is held at Tallakulam, 5 miles off Madura during the Chistrai festival, (15th April to 10th May, 1939), another big fair is held at Tadi combu, 6 miles off Dindigul during Mathalambu festival (22 to 25th Oct 1939). Cattle fairs in Nilakottai taluk are Nilakottai, near Ry St Kodai Road, 13th March—20th March and 14th May to 21st May, Anthoor 10 April Sembatti, 5th May. Other fairs are held at Virapandi 10th to 20th May and Athi combai and Lakkayancottai, latter half of June.

MALABAR DISTRICT

The MALABAR district has an area of 5,795 sq miles and is inhabited by 39,31,000 people. The annual average rainfall is 120".

Oil trade is the important industry and coconut oil, fish oil, guano, copra, fish guano, poonac are largely exported. Manufacture of coir yarn, rope and matting is also a great and expanding industry of the district. Cotton spinning and weaving is practised, there being 3 cotton mills in the district. Malabar teak is extensively used.

The crops valuable to the district are coconut, arecanut, pepper, ginger, plantain, etc. Arrowroot and tapioca are also grown. There are several tea, rubber and coffee estates. In 1938, 12,9000 acres were under tea in 50 tea estates and the production was 70 million lbs. Output of coffee in the district during 1938 was 1,287,485 lbs.

Fish canning is a growing industry. A factory has been started at BEYPORE for canning sardines, mackerel, sea, prawns and other varieties of fish.

COCHIN (population 22,818) is one of the most important ports between Bombay and Colombo. Madras and Tuticorin alone commanding a greater trade than Cochin in the Presidency. The port owes its importance to its natural position which has further been developed to suit the local conditions. Coasting trade during 1938-39 amounted to Rs 3,12 lakhs as against Rs 4,22 lakhs in 1937-38. Imports from Burma Rs 2,95 lakhs. Exports Rs 25 lakhs.

Imports and exports together in 1938-39—Rs 10,03 lakhs.

Coconut oil forms the principal articles of export. Oil brought here from the neighbouring districts is exported to the United Kingdom and the Continent. Rangoon also figured as a good purchaser. Coir, rubber, cashew kernels and mattings are shipped in very large quantities. The hill produces are nux vomica, pepper, etc.

Imports consist of cement, chemicals, drugs, earthenware and porcelain, fruits and vegetables, hardware, metal and ores, kerosene oil, paper and pasteboard, raw rubber, soap, stationery, sugar, tea chests, textiles, and vehicles, exports consist of coir, lemongrass oil, oil cake, raw rubber, ginger, pepper, tea, raw cotton, carpets and rugs and sandal wood.

PALGHAT (population 49,064) is a big city in the district.

TELLICHERRY (population 30,349) is situated on the seacoast about 15 miles away from Cannanore. From a commercial point of view the town occupies the foremost place in North Malabar and there are several European firms here. It is a great centre of coffee. The trade of the port consists chiefly in pepper and coffee from the estates in Mysore and Coorg, other exports being copra, sandalwood and tea. The port is also open during the monsoon owing to its advantageous position and the construction of sea wall of laterite with

HAND SPINNING & WEAVING: Contains Detailed Methods. As. 5.

	(in lakhs of rupees)				
Imports	68.1	55.2	37.8	11.5	353
Exports	160	177	229	223	—

CANNANORE (population 34,236) is a seaport and is famous for coating pieces. The total value of its coasting trade amounted in 1938-39 to Rs 56½ lakhs.

Figures of foreign trade follow —

	1934-35	1935-36	1936-37	1937-38	1938-39
	(in lakhs of rupees)				
Imports	4.03	1.75	45	15.64	19½
Exports	64	4	75	23	—

PONNANI (16,210) and **BADAGARA** are ports of some importance. The foreign trade of **BADAGARA** in 1938-39 was valued at Rs 12,46,000 and the coasting trade at Rs 52,54,000.

Fairs—An annual cattle fair is held at Kizhloor in Kulumbranad Taluk about 3 miles from the Payyoli Ry Station, generally during the first fortnight of December under the supervision of the Veterinary Department.

NELLORE DISTRICT.

The **NELLORE** district has got a total area of 7949 sq miles with a population of 1,617,000. The prevailing mother tongue is Telugu. Rainfall averages 35.32" annually.

Mica mining and the export of the varieties manufactured there form the chief industrial attraction in the district. The mines are spread over the taluks of **GUDUR**, **RAPUR** and **ATMAKUR**. Among them 'Shah,' 'Thellabodu,' 'Kalichedu' and 'D' mines are the best yielding. **GUDUR** is the exporting centre. Copper and iron ores were discovered in some parts of the district, but were not worked for. China clay of a medium grade is mined on a small scale in **PRABHAGIRI-PATNAM**. Ochre occurs at **SOMARAJUPALLI** of Kandukur taluk and dull garnet and kyanite with a high iron content exist in and around **SYDAPURAM**. Kyanite also occurs in large quantities in Chundi Estate of Kandukur Taluk. The back water swamp areas in Salurpet

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils." Re. 1/12. Industry Book Dept., 22, R. G.-Kar Road, Cal.

Taluk adjoining the Chingleput District yield very large quantities of lime shell which find an easy market in Madras. Steatite is regularly quarried near SYDAPURAM and utensils are manufactured for export to the Northern Circars. Slate formation also exist in the N. W. corner of the district adjoining Kurnool district.

Razors and the tape (rough cotton) are made in KANIGIRI, and wooden spoons and earthen ware in UDAYAGIRI. Fine lace cloth is also manufactured at VENKATAGIRI.

Large quantities of milled rice from KOVUR and NELLORE are exported to places all over the Presidency. Betels from VINJAMOOR and PODILI are also regularly exported to Hyderabad and Nagpur. Salt is manufactured in four centres TADA, KRISHNARATAM, ISKAPALLI and WOOLLAPALEM all being Government factories. Large quantities of Casuarina are exported to Madras by the Buckingham Canal as fuelwood from the coastal villages of Gudur taluk and Sutturpet Taluk. KULLUR and KALUVOY, about 45 miles west of Nellore, are famous for their business in corals.

Good species of cattle are found in Kandukur and Kavyali taluks where trade in cattle is carried on as a profession among some of the rich village families.

NELLORE (population 56,300) The town is situated on the southern bank of river Pennar, on the G. N. T. Road, 108 miles from Madras.

Fairs:—There is only one Agricultural Exhibition at Ranganayakulapet, Nellore, which is generally held in March every year during the festival of Sri Ranganayakulaswamy Vairi.

NILGIRI DISTRICT.

The NILGIRI district has an area of 982 sq miles and a population of 2,10,000. The indigenous tribes have their own dialects, but Kanarese, Tamil and Malayalam are in common use.

Tea and coffee are grown in the district. Cinchona is grown on the hill sides. 38,434 acres were under plantation of tea in 1938, yielding 15,583,245 lbs. of tea. 17,883 lbs were under coffee yielding 46 million lbs in 1939.

OOTACAMUND (population 29,989) —This is the chief town of the Nilgiris district and the summer headquarters of the Madras Government. The lands of these slopes are generally cultivated as garden land. There is a Government cinchona plantation here. The hills abound in woods of eucalyptus, acacia, cypress and pine.

COONOOR (population 18,781) Elevation 5,000 ft.—It is an ideal health resort. The soil is particularly good for roses.

KOTAGIRI (Elevation 6,000 ft.) The station is chiefly occupied by planters and produces tea, coffee and oranges of superior quality in abundance. There is big game to the east of Kotagiri.

WELLINGTON (Elevation 5,500 ft.)—This is the Convalescent Depot for the British troops in Madras. The Govt. of India Cordite Factory at Aruvankadu adjoins the Wellington Cantonment.

GUDALUR TALUK —There are many flourishing tea estate in this taluk and a large area of forest in which game abounds. Though the gold is known to exist it has not yet been discovered in workable quantities.

PONDICHERRY.

PONDICHERRY is the headquarters of the French Possessions in India and is situated about 150 miles south of Madras. It is the centre for exporting groundnuts and has three up-to-date cotton mills equipped with 72,944 spindles and 1740 looms, all the products being exported to

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils." Re: 1/12. Industry Book Dept., 22, R. G. Kar Road, Cal.

the French Possessions There is a bonemill factory and all the different mineral oil companies have their storage tanks here

The chief exports are shelled groundnut, textile manufactures, rice, onion, mangoes, provisions, living animals, earthenware, betelnuts, and bone-meal manure The principal articles of import are raw cotton, cotton manufactures, sugar, metals and ores, betelnut, paper, flour, coffee, cement, and other building materials, wines and spirits by sea and coal by land Gunnies, and petroleum form the other imports by land The imported spirits are free from any duty and the town has therefore an increasing trade in oils, spirits and wines

RAMNAD DISTRICT.

The RAMNAD district has an area of 4,838 sq miles and a population of 19,76,000 Rainfall averages 31" annually

Of the industrial crops paddy occupies a comparatively small area but groundnut and raw cotton are produced here to a very considerable extent mainly for export The season for these products commences from April and continues as far as December

Area under crops in 1938-39 —Rice 328,746 acres, Jowar 81,880 acres, Bajra 158,554 acres, Marua 86,769 acres, other grains and pulses 11,940 acres, sesamum 33,222 acres, castor-seed 669 acres, groundnut 59,563 acres, coconuts 8,689 acres, Total oil seeds 102,181 acres, condiments and spices 28,789 acres, other sugar bearing palms 3,423 acres, cotton 197,574 acres, tobacco 2,017 acres, fodder crops 49,008 acres, fruits and vegetables 12,927 acres

The chief industries of the district are pressing, ginning and weaving of cotton, and PARAMAKUDI (16,113), ARUPPUKOTTAI (population 33,848), RAMNAD are places important for the weaving industry and the sale of cloths In these places ordinary dhoties and saiees both of silk and cotton are woven Paramakudi and Ramnad saiees are very famous and are known in other districts as "Madura Cloth" At ARUPPUKOTTAI there is not a house without a loom At this place a special kind of sarī is manufactured with the mixture of cotton and silk or art-silk These goods have been sent on a very enormous scale to Colombo, and other places through Madras, Tuticorin and Dhanuskodi Extracting oil from groundnut is largely carried on and silk weaving is practised at PARAMAKUDI and EMMANESWARAM Dyeing of fabrics is carried on extensively Brass and bronze vessels are manufactured at PUDUVAYAL and coil at SINGAMPUNERI in Tirupattur taluk Tiles are manufactured at PUDUPATI in Srivilliputtur after the Mangalore pattern There are oil and cotton mills An up-to date cotton spinning mill has been opened at Rasapalayam

Tobacco and oil cakes are also exported from here to foreign ports Negapatam, Tuticorin, Madras and Pondicherry are the chief ports through which these goods are sent Almost the whole groundnut crop and tobacco produced in these parts are exported through Negapatam and Madras only

Machineries, metals, cotton manufactures and other multifarious necessities and luxuries come here from Japan and China, England, America and Austria Plenty of arecanuts come to the markets from Java through Colombo and Dhanuskodi

KEELAKADU is famous for gingelly seed PARAMAKUDI, SRIVILLUTHUR, VIRIDUNAGAR (population 33,081), are also other places of importance for this seed Generally the local produce is reserved wholly for local consumption and the additional supply is obtained from other parts But the gingelly seed of KEELAKADU is

New Careers Await You ! Read MECHANICAL INDUSTRIES, Re 1/12 INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

used by almost all the country mills of RAMNAD TOWN (population 16,817).

The local merchants obtain ghee from Trichinopoly, Salem and Coimbatore districts. Tirumangalam ghee is also coming to the market in tins.

Groundnut oil is very greatly used by almost all classes of men in these parts. VIRIDUNAGAR, ARUPPUKOTTAI, and SATTUR are some of the places which supply groundnut for extracting groundnut oil. This oil is often mixed with the gingelly oil and sold as gingelly oil at a cheap rate. Coconut oil is generally not very much used by the people here but greater part is consumed by the people of Tinnevely district.

The chief ports are PAMBAN, KILAKARAI, TONDI, DEVIPATTANAM, DHANUSHKODI. The total value of the foreign trade claimed at DHANUSHKODI port in 1938-39 was Rs 209½ lakhs. Exports consist chiefly of turmeric, fish, fruits and vegetables, rice, leather, bones, brass manufactures, oil cakes, tea, piece-goods, carpets and rugs and cigarettes, while the chief imports are coffee, fresh fruits and vegetables, apparel, hardware, raw hides, raw skins, betelnuts, sugar, cotton goods, and gunny bags. There is almost no coasting trade.

Imports at TONDI during 1937-38 amounted to Rs. 5,48,000.

TIRUPATTUR (10,644), DEVAKOTTAI and KARAIKUDI (21,672), are the centres of trade and VIRUDUNAGAR, SIVAKASI (20,393), and SATTUR (15,212) are the chief centres of cotton trade. SIVAGANGA has a population of 11,383, RAMESWARAM is a place of pilgrimage.

Cattle fairs:—(1) Kanniseri cattle fair, Sattur Taluk—about 3 miles from Tulukkapatti Railway station, held in the months of May-June each year, (11) Kalayal Koll—Sivaganga Taluk Temple Festival held during May-June when a cattle fair is held.

SALEM DISTRICT.

The SALEM district occupies an area of 7,259 sq miles and is inhabited by 28,71,000 persons. Average annual rainfall amounts to 35". Crops raised are ragi, and cholam, cambu. Rice, plantain, sugarcane, arecanut and coconut are also grown. Groundnut is the industrial crop. Coffee and rubber (at the Shevaroy Hills), indigo and mulberry are also grown. Teak, blackwood, acha, satinwood, tamarind trees (at the foot of hills) are found here. There are iron and chrome ore in KANJAMALAI, magnesite ore near Chalk hills, and mica ores near Edapadi, at HOHANICKAL on the Kaveri in Dharampuri taluk and in KALLIMPALAI hills near Namakkal, of which the latter is being worked to supply electricity to Trichinopoly. 8,901 acres were under coffee in 1938 yielding 3,386,153 lbs of cured coffee.

Among other minerals mention may be made of gold, iron, salt-petre, corundum, rubies and crystalline limestones.

The chief industry is weaving (pure silk and good white-cloth in every village and at Salem city), carpets and coarse blankets are woven by shepherds in several places in the district. Sugar and jaggery are manufactured in some parts and brass and copper vessels are manufactured at RASIPUR. There are pot-stone quarries in the TIRUCHENGODE Taluk.

The exports are rice, wheat, castor seed, castor oil, ghee, cloth, betel leaves, plantains, arecanuts, tamarinds, mangoes, coffee and cattle, the chief imports are pepper, tobacco, yarn, groundnuts, etc.

Sheep, poultry, pigs, and cross-bred cattle are reared at HOSUR.

SALEM City (population 102,179) It is a large weaving centre with over 30,000 looms, is famous for its cloths which are used all over the Presidency.

New Careers Await You ! Read MECHANICAL INDUSTRIES, Re. 1/12 INDUSTRY BOOK DEPT, 22, R. G. Kar Road, Shambazar, Calcutta.

422 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Important centres in the district (besides Salem City) are DHARAMPURI (14,815), RASIPUR (14,438), SENDAMANGALAM, KRISHNAGIRI, ATUR and TIRUCHENGODE.

TANJORE DISTRICT.

The TANJORE District is thickly populated, having a population of 2,564,591 in an area of 3,742 sq miles. The climate of the district is healthy. The average annual rainfall is about 44". Language Tamil.

Metal work and weaving of various kinds are the chief industries. Silk and cotton are woven in TANJORE, AYYAMPET, KUMBAKONAM and KORANAD. The artisans of Madura make brass, copper and silver ware, bell-metal (at PISANATTUR), pith models and toys. Metalwares are manufactured in KUMBAKONAM and MANNARGUDI, and jewellery, pith toys, lace work and embroidery at TANJORE. There is a salt factory at AGASTHIAMPALLI.

The chief exports (inland) are rice, betel-leaf, groundnut, oil, metal vessels and cloths and imports are gingelly and cotton seed (Mysore), kerosene oil, tamarind and timber. Ghee, chillies, pulses, lamp oil are the other imports from neighbouring districts.

Paddy, betel leaves, coconuts and plantains grow in abundance in the Kumbakonam taluk, of them coconuts and plantains are exported to adjacent districts.

In Anikaram Chattram rattan articles and mats are manufactured. Mats are woven in the villages near Muthupet. Fine paper models of dogs and other animals, soldiers, famous personages, etc., to life size are done at Kollitirumalam Ambal Post, 2 miles east by Punthottam Railway Station in Nannilam Taluk.

The lace and ordinary handwoven dhuties from Thugill, a village attached to the Kumbakonam Taluk is unsurpassed for their fine texture, i.e. of more than 100 counts.

TANJORE (68,683), is the headquarters of the district. There is a big temple at Tanjore which is sacred to the Hindus. Eye glasses are shaded out of vallam pebbles. Jewellery work on copper and brass plates is being done.

NEGAPATAM (52,906) is the principal seaport of the district, carrying a large trade with Ceylon, the Straits Settlements and Burma. It exports cotton piecegoods, livestock, ghee, cigar, tobacco and skins. Exports of groundnuts during 1938-39 amounted to 43,348 tons and were valued at Rs 57½ lakhs. Imports through Negapatam are arecanuts, timber, cotton piecegoods and gunny bags. The imports consist chiefly of apparel, cigarettes, furniture, gums, betelnuts, cotton goods.

Table below illustrates the sea borne trade done at the port —

	1934-35	1935-36	1936-37	1937-38	1938-29
	(in lakhs of rupees)				
Foreign Trade	75	75	1,30	1,57	1,37
Coasting Trade	32	33	40	27	27
Total Trade	1,07	1,08	1,70	1,84	1,64

MAYAVARAM (population 32,665). The Thula festival held in the months of October and November every year attracts a large number of pilgrims. The once famous industry of saree-weaving has dwindled almost to nothing on account of outside competition.

KUMBAKONAM—It is noted for its temples. Silk sarees, lace cloths, brass wares, jewellery, etc. are growing in importance. Manufacture of lead vessels is another rare industry in this town. A confectionery factory has been lately established in the town.

The dyeing industry at Darasaram, a suburb of the Kumbakonam Town, is also noteworthy.

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUT-NESY & MORABBAS explains the process. Industry Book Dept., Calcutta

Mahamaham festival, coming once in 12 years in March attracts more than 2 lakhs of pilgrims and is the venue of an exhibition of industrial products and handicrafts

PAPANSAM Taluk—The important industries in the Taluk are mat and silk weaving in AYYAMPET and AMMAPET Towns. The chief exports by land are betel leaf, rice, groundnut, mats, and silk cloths

VEDARANYAM is famous for its temple and is a sacred place of pilgrimage for the Hindus. It adjoins Point Calimere

MUTHUPET UNION town (population 7,799)—A fishing centre. There is a big lagoon near this place surrounded on all sides by shrub jungle

MANNARGUDI (22,764) and TIRUVALUR (23,246) are centres of trade, TRANQUEBAR, ADIRAMPATNAM (10,893), TIRUMULAVASOL, AMMARATNAM are seaports. ADIRAMPATNAM has considerable foreign and coasting trade. Figures for its foreign trade in 1937-38 were imports Rs 32,000 and exports Rs 7,83,000. Imports at Tranquebar during 1937-38 were valued at Rs 71,000

Fair:—A big cattle fair is held at NEERATHANALLUR, 6 miles north of Kumbakonam, in February every year.

TINNEVELLY DISTRICT.

The Tinnevely district is well-clothed with forest, having an estimated area of 504 sq miles of Ghaut forest. Its area is 4,325 sq. miles, population 22,46,000 and language, Tamil. Average annual rainfall is 27."

The chief crops grown are cholam, cambu, paddy, cotton, samai, gingelly, palmyra palm (collection of its leaves constituting the means of livelihood of many people of the district). Both tea and coffee are cultivated in the district, the yield during 1938, being 58,128 lbs and 18,529 lbs respectively

The chief industries of the district are pressing, ginning, spinning and weaving of cotton and manufacture of jaggery. Cotton goods are manufactured in the mills at TUTICORIN, KOILPATTI (population 10,589) and PAPANASAM, VIRAVANALLUR (population 17,682) and KALLIDAI-KURCHI (117,074) are also important weaving centres in the district. Brass and bell-metal industries thrive at MANNARKOVILI and VAGAIKULAM. There are a large number of cotton ginning and pressing factories. Mats of Koil grass of fine texture are manufactured in AMBASAMUDRAM taluk, the finest mats being those manufactured at PATTAMADAI. Extraction of fibre, manufacture of mats and baskets from palmyra leaves, fish curing, sugar refining, metal work and salt making are other minor industries of the district. Pearl and chank fisheries in the Gulf of Mannar are undertaken by Government. Population of AMBASAMUDRAM is 15,602

The chief exports from TINNEVELLY are cotton, jaggery, chillies, tobacco, palmyra fibre, salt, dry salted fish and cattle and the imports are cotton twist and yarn, piece-goods and kerosene oil.

The three important seaports in the district are TUTICORIN, KULASEKHARAPATNAM and KAYALPATAM. Road traffic is considerable. Weekly markets are held for collection and distribution of articles of trade. The district is connected with the Travancore State by the South Indian Railway

TINNEVELLY (the head-quarters) has a population of 57,073. Jaggery and sugar trade here is considerable. Some timber trade exists (from Shencottah in Travancore)

PALLAMKOTAH (population 56,990) is a big town

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUT-NESY & MORABBAS explains the process. Industry Book Dept., Calcutta

424 INDUSTRY YEAR BOOK & DIRECTORY, 1943

TUTICORIN (60,935) is one of the largest ports in the Presidency. Cotton, palmyra fibre and sunn hemp, etc are available. There is a cotton mill here.

Principal articles of export are raw cotton, live animals, coffee, cotton piece-goods, drugs and medicines, oil-cake, rice, hides and skins, spices, and tea. Raw cotton makes up nearly half the total value of the export trade of the port which conducts about three-fourths of the trade of the Presidency in this article. Cattle and goats are exported to Ceylon while cotton is sent to many parts of Europe and Asia. Tuticorin has the largest export of chillies in the Presidency, while it comes next to Cochin in value of its export trade in tea. A large quantity of rice is annually sent to Ceylon. The chief items of import are rice, grains, cotton twist and yarn and piece goods, petroleum, machinery, hardware, and cutlery, arecanuts and timber.

Figure of foreign trade follow.—

	1934-35	1935-36	1936-37 (in lakhs of rupees)	1937-38	1938-39
Imports	1.12	.97	.92	2.14	1.63
Exports	2.80	2.10	2.66	3.31	2.51

Figures of coasting trade transacted at the port of Tuticorin during the last five years follow —

	1934-35	1935-36	1936-37 (in lakhs of rupees)	1937-38	1938-39
Imports	3.51	4.02	3.07	2.49	1.50
Exports	1.84	2.37	1.90	2.19	2.02

KULASEKHARAPATNAM (population 11,114) —The port handles considerable foreign trade. Its coasting traffic consists chiefly in imports from other Madras ports and exports to them. In 1938-39 the total foreign trade of this port amounted to Rs 86,000, imports claiming Rs 16,000 and exports Rs 70,000.

BHANA-TIRTHAM is another place of pilgrimage. There is a grand waterfall at the foot of the Western Ghats and 12 miles from Ambasamudram.

Other important centres of trade are —**TENKASI** (27,338), **KADAYANALLUR** (23,819), **PULIYANGUDI** (21,137), **SURANDAI** (15,728), **TIRUCHENDUR** (15,328).

TRICHINOPOLY DISTRICT.

The **TRICHINOPOLY** district is dry and rather healthy. Average rainfall is 38". The area of the district is 4,319 sq miles, population 2,195,000, and language Tamil.

Chief crops are rice, jowar, bajra, marua, grains and pulses, sesamum, groundnut, condiments and spices. Cotton grows abundantly in the district.

The chief minerals are gypsum and phosphatic nodules.

Weaving is the chief village industry and there are 10,000 looms in the district. Cigars are manufactured in the town of **TRICHINOPOLY**. Cotton and silk cloth are woven. Cement manufacture is a new industry in the district.

ARIYALUR, **PERAMBALUR** and **TURAIYUR** are important trade centres. Other important places in the district are **LALGUDI** where brass and copper idols are made, **KULITHALI**, **UDAYARPALAIYAM**, **SRIRANGAM** (26,672), famous for its Vishnu Temple.

The chief exports are paddy, cotton, groundnuts, plantains, coconuts, betel leaf, etc., silk and cotton turbans, fine and coarse cotton fabrics, carpets, blankets, bangles, shoes, tanned skins, castor oil, oil cake, saltpetre, stone, cigars, soap, buffaloes, sheep and goats. The

Learn the modern methods of Cotton Dyeing from **COTTON DYEING & PRINTING**. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

most important of the imports are good cloths of silk and cotton both for male and female wear, carpets, household vessels and utensils. raw hides, bangles, glassware, raw tobacco and ploughing cattle

DALMIAPURAM—The town has been named after Seth Ram Krishna Dalmia, under whose guidance a cement factory has been opened here

TRICHINOPOLY (population 159,500) constitutes the third largest city in Madras. It is a centre of considerable trade. It is the centre of cigar-making industry. There are a large number of cigar factories here. The raw material is obtained from the town of Dindigul in the district of Madura and some parts of the Salem district. For wrappers, the manufacturers obtain leaves from Java and Sumatra.

The district is well served by railways. The distance to Madras has been shortened by 50 miles by the Villupuram-Trichinopoly line.

Fairs:—Panguni Uthirai Festival at Chettikolam, held in March and April; car festival at Siruvachur in May and June, at Karur during Purattasi. The last named fair attracts a large number of pilgrims. Pilgrims flock every year to the Subramanya Temple at Chettikolam on a small hill for the Panguni Uthirai festival held in March and April, and Srirachur where to the sacred temple of Madura Kalliammanu pilgrims similarly congregate every year in May and June during the Car festival. Kaliyaperumal festival is held at Kallankurichi 3 miles each of Ariyalur in the month of April, and attracts thousands of pilgrims.

VIZAGAPATAM DISTRICT.

The district of VIZAGAPATAM lies on the western shore of the Bay of Bengal over an area of 4,568 sq miles and has a population of 38,46,000 who speak Telugu. Average rainfall is 40"

All the principal food crops are transplanted in this district and except in PALKONDA, double crops of paddy are rare, the wet fields being utilised after the removal of the paddy for growing green gram or a variety of garden crops and vegetables. Numerous varieties of paddy, differing from taluk to taluk, are grown. Coffee is grown on a small scale, output during 1933 being 4,670 lbs.

The art industries of the place are insignificant. Ornamental articles of ivory tortoise shell and horn are made. Golconda contains the largest number of looms and handmills. Tanning of hides and skins is carried on in several tanneries round VIZAGAPATAM. Manganese industry is carried on by the Vizianagram Mining Co., at NELLIMARLA, GAJAPATINAGARAM and CHIPUMPALLI.

VIZAGAPATAM (57,303), the head-quarters of the district, is a flourishing seaport. It has recently been declared a major port to meet the demands of the Central Provinces. The chief exports to Vizagapatam include manganese, groundnuts, myrobalans, hides and skins. Exports of groundnuts during 1933-40 were valued at Rs 11.90 lakhs. There is considerable trade in cooly rice with Burma during the seasons of plantation and harvesting. The chief imports are cotton twist and yarn and piece-goods, iron, timber, etc. But the place receives its imports mainly through Madras and Calcutta. There is a sugar factory here. It has both foreign and coasting trade. Chief import is sugar. Myrobalan, manganese ore, groundnut, Niger seed and jute are the chief exports. During 1933-40 the exports of manganese ore were valued at Rs 65 lakhs as against Rs 62 lakhs in the previous year. Exports of oil cakes during 1933-40 were valued at Rs 10 lakhs. The nature of foreign trade transacted at this port will appear from the following table—

Learn the modern methods of Cotton Dyeing from COTTON DYEING & PRINTING. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

	1934-35	1935-36	1936-37	1937-38	1938-39
			(in 1,000 rupees)		
Imports	18,11	16,48	26,30	29,88	26,68
Exports	67,31	1,23,32	1,45,02	2,50,82	1,14,10

The aggregate value of the coasting trade done at Vizagapatam amounted to Rs 40 lakhs during 1939-40 as against Rs 40 lakhs in 1938-39.

ANAKAPALLI (23,376) —It is a municipality on the M S M Rly, line. It is a growing centre of trade in agricultural produce. It is noted for manufacture of jaggery. The lands are generally fertile and are commanded by Sarada River canals. The main crops grown are sugarcane, gingelly and horsegram. The main products exported are jaggery, gingelly, groundnut oil, horsegram and mangoes. The main imports are rice and oil. There are two rice mills, 3 oil mills and 1 sugar factory. A cattle fair is held on every Saturday at TUMPALA and on every Monday at THALLAPALEM.

PARVATIPUR (population 17,434) —The place is a centre of trade with the hill and low countries. Hill products, e.g., tamarind, ginger, mustard, turmeric and adda leaves are the chief exports. The imports are salt and rice. Bell-metal works are a speciality of this place.

BOBBILI —Cattle fairs are held at PEDARAMAPURAM, BALJI PETA and VUTTARAVILLI villages of this taluk. There are two sugar factories, one at BOBBILI and the other at SITANAGARAM. There are no places in this taluk, where agricultural and industrial fairs are held. Big shandies are held at BALJIPETA, PEDARAMPURAM and VUTTARAVILLI on every Friday, Saturday and Wednesday, respectively. The principal exports of this taluk are groundnut, tamarind, jute and hides and the imports are rice and oil seeds from Jeypore and rice and pulses from Raipur.

LINGAMPETA —This is also known as Lingampath. This lies between Golugonda and Krishnadevipeta. An annual fair is held on Telugu New Year's Day. Brass and brass vessels and cloths are sold.

BALIGHATTAM —A religious place for Hindus. There is a Siva's temple on a hill near the village. Every year an annual fair is held on Mahasivarathri which attracts a large congregation. Brass, bronze vessels and all fancy goods are sold.

BIMLIPATAM —It is a small port. It is well known for jute of an inferior quality and the name stands for one of its trade varieties. It is probably hemp (sunu), and wrongly called jute. The chief exports from the place are Niger seeds, groundnut, jute and myrobalans. Exports of groundnut during 1938-39 were valued at Rs 24 lakhs and during 1939-40 were valued at Rs 18 lakhs. The principal imports are jute from Chittagong and Mangalore tiles from west coast. There are two jute and gunny bag factories managed and established by the Europeans. Though small, the port has both foreign and coastal trade of some importance. Foreign exports during 1939-40 were valued at Rs 22 lakhs as against 37½ lakhs in 1938-39 and Rs 37 lakhs in 1937-38.

Coastal trade done at the port is not fair owing to War conditions. This was valued at Rs 5½ lakhs during 1938-39 as against Rs 9 lakhs in 1937-38 and for 1939-40 the coastal trade is valued at Rs 4,000 only.

There are no important agricultural, industrial and cattle fairs worth mentioning in this taluk.

VIZIANAGRAM Natural resources—nil. Crops Paddy, Ragl, groundnut and jute. Important exports of this place are groundnut,

DISINFECTANTS & ANTISEPTICS gives full details of preparing all sorts of insecticides & medicated cottons. Re. 1/12 Industry, Calcutta.

oil, jute bags and jute and skins A cattle fair is held from 8 A M to 3 P M on every Sunday

PALAKONDA (population 17,434) —Paddy, sugarcane, groundnut, and jute are cultivated on a large scale. A cattle fair is held at Ungai-ada on Wednesday from 9 A M to 5 P M

YELLAMANCHILI —There are no important industries in this taluk except lacquer work at Etikoppaka Cattle fairs are held on every Thursday at Yellamanchili, on every Wednesday at Nakkapalli, on every Monday at Rayavaram and on every Friday at Atchutapuram

SRUNGAVARAPUKOTA —Alamanda village is situated 3 miles away from Alamanda Railway Station on the B N Rly It is one of the largest mango fruit exporting centres in the district, where several varieties of mango fruit are available during the season for wholesale trade There are two cattle fairs one at Alamanda and the other at Kothavalasa, which are held on every Monday and Tuesday, respectively

NARASAPATNAM (population 14,005), is a centre of trade with the hills to the north

SIMHACHALAM is a famous place of pilgrimage during the Kalyanam festival in April and Chandana Yatra in June It is only 10 miles from Vizagapatam

PUNYAGIRI is another sacred place of pilgrimage during the Shivaratri festival

WEST GODAVARY DISTRICT.

The district of WEST GODAVARY lies to the west of Godavari East district The language spoken is Telugu Population 13,79,000

Chief crops in the district are rice and pulses Other crops include jowar, grains and pulses, sesamum Fruits and vegetables, condiments and spices are grown on a large scale Coconut, condiments and spices like betel, arecanut, turmeric, etc are grown on a quite considerable extent According to the latest information available coconuts are grown over 9,632 acres Condiments and spices are grown over an extensive area of 13,612 acres

The chief exports from the district are rice and paddy Spices are also sent out of the district

The district claims of flourishing cloth weaving and lace making industry But the biggest industry in the district is rice milling, there being about 100 rice mills Bricks and tiles are manufactured to some extent There is also a jute press at ELLORE Brass vessels are made at PALACOLE, which is also a good trade centre

PENUGONDA has a population of 15,619

ELLORE (population 57,342) —The grain trade of the place is noteworthy Cheap carpets of foreign design are made here and it has a good trade in them Finer qualities of carpets are also obtainable if previously advised There is a jute mill in the town The place is connected by canal with the Godavari and Krishna rivers and attracts a good deal of trade

MARKET PLACES OF BIHAR

THE province of Bihar comprises Bihar proper and Chotanagpur which differ widely in their physical features. The total area of the province is about 83,000 square miles and its population according to 1941 Census is 36,340,000 divided as follows. Bihar 28,824,000 and Chota Nagpur 7,516,000.

Bihar extends from the foot of the Himalayas to the bank of the Ganges and is separated from Orissa by the crystalline plateau of Chotanagpur. It is an alluvial plane watered by the Ganges and its tributaries Sone, Gondak, Gogra, and Kusi. It suffers from extreme temperatures. The only marsh is in Champaran, covering an area of about 140 sq miles. Trees are plentiful in the northern parts.

Chotanagpur is bounded by the Rajmahal Hills in the east and comprises an upland tract of hills and plateaus, covered with forests, the area of which is 1,759,100 acres. The forests are practically all of the deciduous type with Sal as the dominant species. Other common species of economic importance comprise *petiocalpus*, *anogeissus latifolia*, *bursera serrata*, *adina cordifolia*, *acacia catechu*, *dendrocalamus strictus*, *bambusa arundinacea* and others too numerous to specify. Teak is indigenous in one or two areas in the south-eastern part of the Plateau. It is a tangled mass of rock and forest. The sub-province is watered by the Damodar, the Kassar and the Subarnarekha.

Forests —The forests of Bihar under Government control are about 3,700 square miles in extent under a conservator and his staff.

Crops —Total area cultivated in this province is about 30 million acres of which rice claims 10 million acres, wheat 1,096,000 acres, castor seed 33,000 acres, barley, 1,298,000 acres, jowar or cholam, 74,000 acres, bajra or cambu, 59,000 acres, maize, 1,407,000 acres, sugarcane 5,08,000 acres, sesamum 118,000 acres, gram 1,444,000 acres, linseed, 535,000 acres, rape and mustard 487,000 acres, jute 282,000 acres, cotton 40,000 acres, tobacco 108,000 acres, condiments 62,000 acres, fruits and vegetables 363,000 acres, ragi 546,000 acres, other food grains 398,000 acres.

Rice is grown wherever rainfall is abundant, i.e. in N Bihar and in the valleys of Chotanagpur. In the hill sides millets and pulses are raised. In W Bihar the practice of growing several crops in the same field together is still carried on, e.g. gram, wheat, sesamum and linseed are grown together in the same field at the same time.

Maize is grown in Bihar and Chotanagpur, wheat, barley, gram, marua, jowar, bajra, are also grown. Cereals and pulses receive more attention than others. Peas, kalai, kulthi, khesari, arahai, gondli, kodan, urid are the cereals grown. Tea is grown in the Ranchi and Hazaribagh districts. Among other crops special mention should be made of tobacco which is of great economical value to Bihar. Lac is found all over Chotanagpur, Santhal Parganas, etc. Indigo cultivation is dying out gradually.

Jute is grown in Northern Bihar. Chillies of N Bihar and tobacco of the Monghyr district are celebrated. Oilseeds are largely cultivated.

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/12. Industry Book Dept., Shambazar, Calcutta

specially til, castor and sarguja Poppy is grown in W Bihar and Chotanagpur

Sugarcane is largely cultivated in N Bihar and a large number of sugar factories (about 31) have grown up here The sabai grass of Santal Parganas and Ranchi are sought after by paper mill owners A remarkable feature has been the increase in sugarcane cultivation and expansion of the total sugar industry in the province Sugarcane valued at about Rs 18½ lakhs is now grown in the area irrigated by the canals Several sugar factories have recently been established, that at Dehri on Sone being the largest in India

Fruits and vegetables of various kind grow in the province These include mangoes, litchies, cauliflower, cabbage, radish, potato, etc. Mangoes of Darbhanga and lichees of Muzaffarpur are famous Cauliflowers of Bihar have good reputation

The following table shows the area of the chief crops under cultivation during the last five years —

	Average of preceding 5 years	1937-38	1938-39	1939-40	1940-41
Rice	10,026	9,949	9,515	9,580	9,211
Wheat	1,216	1,142	1,129	1,093	1,096
Linseed	550	587	576	560	535
Rape and mustard	533	538	498	505	437
Sugarcane	447	300	375	441	508
Jute	445	315	265	282	282
Sesamum	126	115	114	114	118
Tobacco	140	140	142	104	108
Cotton	32	31	43	42	40
Castor seed	42	33	34	34	33

The districts where the crops grow abundantly are given below
 Rice—Bhagalpur, Muzaffarpur, Ranchi, Wheat—Shahabad, Monghyr, Muzaffarpur, Gaya, Barley—Champaran, Muzaffarpur, Saran, Jowar—Patna, Bajra—Santal Parganas, Ragi—Darbhanga, Bhagalpur, Maize—Muzaffarpur, Monghyr, Saran, Gram—Shahabad, Gaya, Patna, Monghyr, Cereals and pulses—Shahabad, Gaya, Monghyr, Linseed—Shahabad, Champaran Sesamum—Palamau, Rape and mustard—Purnea, Bhagalpur, Darbhanga, Sugarcane—Saran, Muzaffarpur, Cotton—Ranchi, Saran, Jute—Purnea, Tobacco—Muzaffarpur, Purnea, Darbhanga, Fruits and vegetables—Saran, Muzaffarpur

Son Canal—Over 1½ million acres, of which over 1 million are cultivable and 870,000 irrigable, are irrigated by this system During the last five years, nearly 600,000 acres a year have been irrigated Rice is the principal crop, occupying 4/5th of the entire area irrigated by the Son canals

Irrigation—Total area irrigated in 1940-41 amounted to 5,243,000 acres of which area irrigated by Government canals is 730,000 acres, by private canals 916,000 acres, by tank 1,410,000 acres, by well 555,000 acres and by other sources 1,632,000 acres There is provision for irrigation in the Shahabad and Gaya districts

Cattle:—Patna, Sitamarhi, Bachaur, Bhagalpur are the breeds of cattle A large number of cattle and horse fairs are held in the province, noted amongst them being those at SONEPUR and SITAMARHI

Minerals.—The province is very rich in minerals, specially the Chotanagpur Division Coal is the chief mining article, Dhanbad, Bokaro, Giridih, and the Jharia field being the most important.

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re 1/12. Industry Book Dept., Shambazar, Calcutta.

There is also a large coal supply in the district of Palamau. It is also distributed in the following areas, viz., Ramgarh, Karampara North Valley, Chope, Itkohori, Amremga, Hutar, Daltonganj, Rajmahal Hills, Sahajori and Kundit. During 1939 Bihar was responsible for 14,787,661 tons of coal which represents about 60 per cent of the total production of coal in India. Gold-bearing sands are met with in the river beds of the Subarnaekha, Hazaribagh and surroundings supply the world's demand of mica. Mica is also quarried in the Gaya district. The centre of the industry is however at Giridih and the products are sent down to Calcutta. North Bihar is the chief source of saltpetre which is obtained on a large scale in Patna Division and Monghyr. Salt is quarried at Monghyr and ballast in the Rajmahal hills. Abundant limestone is available at Monghyr and also in the districts of Palamau, Singhbhum, Gangpur, and Santhal Parganas. Singhbhum has extensive iron deposits which are worked at Jamshedpur by Tata Iron and Steel Works. In fact the Singhbhum mines produce nearly the whole of the iron ore in India. Granite occurs in Gaya and Hazaribagh and soapstone is found at Manbhum. Copper and lead ores are also found. Manganese is mined to some extent. Deposits of slate, steatite, fireclay, china clay, sandstone and apatite occur in various parts of the province. Singhbhum and the neighbouring State of Kharasawan are the principal sources of kyanite in India. Singhbhum also produces small quantities of gold.

Minerals in Chotanagpur.—Gold and silver have been found to exist in the plateau within Dhalbhum sub-division of the Singhbhum district and in the Patkhlm area of Manbhum district. Copper, tin and lead can be found all over the plateau. Iron occurs in huge quantities and manganese is found to exist in the Gangpur State, Keonjhar and in Singhbhum district. Nickel is found associated with the copper-belt of Singhbhum and also in the gold ores of Manbhum. Chromium, molybdenum, tungsten and uranium are also to be found here. The other useful minerals are (1) Building stones, (2) Brick and tile clays, (3) Cement, (4) Limestone, (5) Slate.

The plateau contains rich deposits of refractories, ceramic and glass making materials, e.g., pottery earth and clays, china-clays, felspar, quartz, fire clays, silica bricks, magnesite, sillimanite, kyanite, graphite, etc. Ninety-six per cent of the output of sillimanite and kyanite is now obtained from Kharisan and Seraikella State. They are also found in Manbhum. There are rich deposits of bauxite and mica. Singhbhum contains a rich deposit of asbestos also. It is estimated that in the Chota Nagpur Plateau the reserves of iron ore amount to many hundred—possibly to thousands of millions of tons.

The copper fields in Singhbhum offer immense possibilities. Bauxite is found all over the plateau. From the Lohaidaga area bauxite is being carried and being exported to Scotland. In the production of manganese it holds the 3rd position next to Central Provinces and Madras—India supplying practically 50 per cent of the world's manganese requirement. The chromite is mainly found in the districts of Singhbhum and Manbhum. Tin has been found in the district of Hazaribagh, although no attempt has been made so far to work the ores.

Handloom Industry.—Net import of cotton yarn, consumed by the handloom weavers of the province was over 30 million pounds. There was remarkable improvement in the texture of woven fabrics and the variety of patterns produced. One great defect of the hand-woven fabric is the lack of finish.

Industries.—Cloth weaving is the chief home industry. Tassar silk is woven in Bhagalpur. Cotton carpets and also woollen carpets

"Safety Matches & Their Manufacture" explains every aspect of the Industry. Rs. 3/-. Industry Book Dept., Shambazar, Calcutta.

are woven at OBRA in the Gaya district. Silver and gold work of KHARAGPUR in Monghyr are famous. Iron workers of those place are also noted. Stone carving is done at GAYA, glassware at PATNA and bracelets of coarse glass are made at BHAGALPUR. Carpenters of Bihar are skilled workmen. Potteries are made in the Bhagalpur and Manbhum districts. Oil mills flourish greatly in the districts of Santal Parganas and Bhagalpur. Rice milling is also practised on a large scale, there being 65 mills in the province.

Major Industries—The biggest single industry in Bihar is the iron and steel industry at Jamshedpur, having a total production of 1,140,000 tons of pig iron and 1,018,000 tons of steel in 1939-40. Ferro-manganese was produced to the extent of about 10,000 tons.

Number of sugar factories working with cane in Bihar amounted to 31 during the season 1941-42 and the quantity of cane crushed approximated 1,133,600 tons as against 2,494,300 tons in 1940-41, and the quantity of sugar produced approximated 1,173,000 tons in 1941-42, against 245,100 tons in the preceding season. Percentage of sugar recovery in the province was 10.35 showing an increase of 0.49 per cent over that of the preceding season. Output of gur was 374,000 tons in 1941-42 as against 93,500 tons in 1940-41. Power alcohol is distilled in some of the most up-to-date factories.

There are 3 jute mills in Bihar with 18,080 spindles and 859 looms. Paid up capital invested in the industry in Rs 39 lakhs. Jute mills have lately been founded at KATIHAR and DARBHANGA. There are only two cotton mills in the province, these being equipped with 269 looms. One paper mill has been started recently.

Another big industry of recent origin in the province is cement manufacture at DALMIANAGAR where cement of good quality is produced. Factories have been established side by side for the manufacture of paper, sugar and chemicals. A factory has recently been started at PHULWARI SHAREEF for the manufacture of cycles and cycle parts.

Factories—In 1939 there were 394 factories in Bihar, the most important of them being iron and steel factories at Jamshedpur, lac factories, sugar mills, oil mills, match factories, cement and lime factories, rice mills, pottery works, etc. The largest number however was that of rice factories.

Industrial Possibilities—Bihar is well placed for starting glass, pottery and ceramic industries. The raw materials for these industries are found in plenty in the province. Bihar has got also chances for starting chemical industries including manufacture of sulphuric acid from the waste sulphur dioxide gas. Paper industry is also very important for the province, as Bihar abounds in the raw materials like "sabal" grass and bamboo. Possibilities for starting match, paint, soap, chemical, leather and similar industries seem to be bright.

Assembly—Total seats 152, Upper House—Total Seats 30.

New flotations—During 1939-40, 22 companies were registered with an authorised capital of Rs 57½ lakhs.

Transport—The E I Rly., B N Rly., G & T Rly., B B Rly., etc., are the chief railways. There are about 4,000 miles of railways in the province besides 4,000 miles of metalled roads and about 26,000 miles of unmetalled roads. There are more than 500 miles of navigable canals.

BHAGALPUR DISTRICT.

BHAGALPUR District contains a population of 2,234,632 who speak Hindi in an area of about 4,226 sq miles. Average rainfall is 43".

"Safety Matches & Their Manufacture" explains every aspect of the Industry. Rs: 3/- Industry Book Dept., Shambazar, Calcutta.

Acreage under crops for 1940-41—Rice 607,500 acres, wheat 58,600 acres, barley 48,150 acres, jowar 3,000 acres, marua 89,392 acres, maize, 43,534 acres, gram 78,118 acres. Other food grains including pulses 142,702 acres, arhar 16,700 acres, linseed 64,269 acres, rape and mustard 68,305 acres, castor 7,294 acres, other oil seeds 8,203 acres, sugarcane 17,300 acres, jute 8,082 acres, tobacco 5,299 acres, fruits and vegetables including root-crops 23,495 acres.

Several minerals are found in the district such as sulphurate of antimony, copper, which exists in the southern hills in various forms and iron ore which is very largely distributed but is not worked owing to the difficulties of procuring sufficient fuel and a good flux.

Tassar silk, bafta cloth, ghee, iron and brass utensils and lac bracelets are the chief industries. Gut from BANKA is sent to Bengal, coarse coloured glass is made at BHAGALPUR. Several kinds of coarse cloth are made, and cotton weaving and the manufacture of saltpetre are carried on to a limited extent.

The chief imports are coal, coke, salt, cotton, piecegoods, gunny bags, gram, pulses, silk (raw) and tobacco, and the chief exports are rice, mustard seed, wheat, gram and pulses, tassal cloth, bangles, etc. Imports come by rail or by steamer.

Trade is chiefly with Nepal and East Bengal. The important centres of trade are SULTANGANJ, BHAGALPUR, COLGONG, PIR-PAINTY, BELHAR, AMARPUR, BARAHAT, JEYPORE and BANKA in the south and MADHIPURA, KISHUNGANJ, MURLIGANJ, BANGAON, PRATAPGANJ, BIHPUR, SUPAUL and NIRMALI BAJAR in the north.

BHAGALPUR (population 83,847) —Situated on the right bank of the Ganges, Bhagalpur is a great commercial centre. Its Central Jail is famous for the manufacture of curtains, carpets, and blankets. The local weight is 101 tolas a seer but in the case of certain commodities 80 tolas are common. The articles of trade include wheat, jute, (in small quantities), ghee, molasses, jaggery, pulses, rice, paddy, potatoes, tobacco, sugar, millet, oat, etc. which are largely imported here from the interior by carts and outside the province by rail and are consumed here or exported. The local products are blankets of a coarser quality, tassal, garad, bafta, and khesa cloth. Cauliflowers, fishes, vegetables, mangoes, honey, etc. are available here. There are several oil mills and flour mills, which consume the products of the districts. Oil and oil cakes are generally exported to important places on the loop line.

CHAMPANAGAR—Mangoes, tassal silk, and ghee are abundantly available here. Honey is also sold and can be had from the Santhals on week days during summer.

SULTANGANJ—This is a flourishing mart whence produce from the surrounding neighbourhood is carried by boats on the river Ganges to Calcutta and other important trade centres. Potatoes are largely cropped and are sent down to Calcutta by the end of October by railway. Fishes, mangoes and cauliflowers are also obtainable here during season at a cheap price and business in these is brisk during season time. Tassar, bafta and silk cloths are obtainable here in large quantities which go chiefly to Bhagalpur and Monghyr and are then sold to big buyers. Connection with the interior is by carts for goods and by motor bns to passengers. It is only 15 miles from Bhagalpur town.

NOWGACHIA.—It is an important and busy grain mart. Among the commercial products and commodities Maghi and Purbi mustard seeds are the most important. Other articles of trade are grams, kali, kalai, maize, chillies, aihar, masuri, khesari, linseed, castorseed and

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re. 1/12. Industry Book Dept., Cal.

ghee

COLGONG—The country round produces rich crops of grams, seeds, pulses, paddy, jaggery, oil cake, rice, potato, onion, turmeric, etc which are brought here by carts in large quantities from the interior and are exported from this place. The potato trade of the place during October with Calcutta is worthy of notice. The business of the place is brisk during season. Fish is also sent away during winter in enormous quantities.

Other important commercial centres where wheat, grains, oil seeds, pulses are largely obtainable, are **PIRPAINTI**, **BANKA**, **MADHIPURA**, **THANA**, **BIHPUR**, etc.

Weekly cattle hats are Colgong, Baluachak Hatia, Goradih Hat, Banka, Barahat, Amarpur Bharko, Rajoun, Nawada, Belhar, Saheb-ganj—every Sunday and Tuesday in a week.

Fairs:—Cattle marts and Fairs in the District are—Sultanganj, Maghi-Purnamasi, Febuary every year, Bihpur, Bhadi Purnamasi, Marwa Mahadeo temple mela, August or September every year, Dasahra mela at Bhamarpur, Tetri, Naugachia, Kharik—September or October, every year, Shobrat Mangan Shah Dargaha at Milki—December or January, every year, Sadar—Moharlam Mela—February or March, Supaul—Kabilas fair, Pous Purnamasi, Banka-Bounsai fair—January every year, Colgong—Magh Purnamasi mela at Tintanga and Bateshai—February every year, Madhipura—Singheshwarthan—14th day of Falgun and the few-days preceding and following it every year.

CHAMPARAN DISTRICT.

CHAMPARAN occupies an area of 3,383 sq miles in the Tirhoot division and contains a population of 23,98,245. Rainfall averages about 56".

The chief crops grown are rice, barley, maize, wheat, pulses and indigo. Oilseed, thatching grass and sugarcane are also grown. There is abundant pasture in **BAGAHA** and **SHIKARPUR**. Catechu is obtained from the forests of **BETTIAH**. Large cattle fairs are held annually at **MADHUBAN** and **BETTIAH**.

Indigo has died out entirely from this district and sugar industry has become the most prominent industry of the district. There are sugar factories at **CHAKIA**, **MOTIHARI**, **SUGAULI**, **NAJHOWLIA**, **CHANPATIA**, **NARKATIAGANJ**, **HARINAGAR**, **BAGAHA** and **LAURIA**. There are rice mills at **ADAPUR**, **GHORASAHAN**, **RAXAUL**, **BHELAI**, **SIKTA**, **CHAURADAND** and **NARKATIAGANJ**. There is only one button making factory at **MEHSI** in the district.

Mangoes are sent to all parts of India from Bettiah and during the season a large export of lichees is carried out at **MEHSI**. Semal wood is exported from **GOBINDGANJ** and **KESSARIA GHATS** to Monghyr. There is also a large trade in bamboos at these ghats. A large quantity of timber is exported from **BAGAHA**.

Coarse cotton cloth is woven. Weaving of blankets and rugs, and pottery making are the other industries. Rice milling is done. Durries, carpets and buttons of all kinds are made at **MEHSI**. There are also rice mills at **CHAKIA**. There are button making factories at **NARBATIA**.

The exports from this district are oilseeds, tobacco, grain and sugar, imports are piecegoods, grain, chemicals, hardware, and machinery. The trade is chiefly with Calcutta. The main trade route to Nepal lies in the Champaran district and traffic is registered on the frontier at **RAXAUL**.

MOTIHARI (population 20,368) —It is the headquarter station of the district. Khari salt and saltpetre are obtainable here and are

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re. 1/12, Industry Book Dept., Cal.

sold to Calcutta and up-country merchants. There are several sugar factories here. Tobacco of Motihari is famous and is sent to as far as Burma for cheroot and in cigar industry. Net-making is also an industry. Oil pressing and durri weaving are among important industries of this place. The town has a large trade in ghee and molasses with Calcutta and other centres of Bengal, Bihar and Orissa.

BETTIAH (population 30,358) —Bettiah is by far the most important centre of trade in the district in grains, oil seeds, tobacco, and sugarcane. It has a booming trade in these articles. Sabai grass and timber are exported. Of the various productions, jaggery and molasses are largely exported. Ghee is brought here in considerable quantities and is of good quality.

The important marts are **GOBINDGANJ**, **SANGRAMPUR**, **MANPUR** and **BAGAHA**. The trade centres are **BETTIAH**, **MOTIHARI**, **CHAINPATIA**, **SUGAULI**, **BARACHAKIA**, **RAMGARWA**, **KESARIYA** and **MADHUBAN**.

Fairs:—Agricultural and Cattle fairs are—Kessaria Mela, Mehshi Dasahara Mela, Rajpore Dasahara Mela, Madhuban Dasahara Mela, Bakhri Dasahara Mela, Bettiah Dasahara Mela, Chanpatia Kartick Purnima Mela, Gobindganj Kartick Purnima Mela. Industrial fairs are Rajwalia, Kartick Purnima Mela, Tribeni Mela, Areraj Basant Panchami and Shivaratri Melas.

DARBHANGA DISTRICT.

The district covers an area of about 3,348 sq miles. The average annual rainfall is about 50". Hindi, Maithili and Urdu are the languages spoken. Its population is 34,64,256.

The main articles of agricultural produce include rice, wheat, barley, maize, gram, khesari, arhar, kodan, mung, oats, sugarcane yarns and janera. Potatoes, etc are also cultivated. A considerable area is also under oil-seeds (linseed), tobacco, sugarcane, all of which are profitable crops. Cultivation of indigo is limited.

The industries of the district include coarse cloth weaving and mat-making. Blankets, carpets, etc are manufactured at Ryam (near Jhanjharpur) by B N Mulik Industrial School. Kokti cloth, woven from a kind of locally grown cotton is much prized in the district and has a good sale. Brass and bellmetal utensils are made at JHANJHARPUR. The sugar industry in the MADHUBANI and SAMASTIPUR sub divisions is very important. There are several rice mills, oil mills, flour mills and sugar factories. There is a jute mill at MUKTAPUR. There is a tobacco factory at DALSINGSARAI. VIRJINIA tobacco is now grown here.

The principal exports are rice, pulses, linseed, mustard seed, salt-petre, tobacco, hides, ghee, timber (from Nepal frontier) refined sugar and fish. Ghee is largely sent to Calcutta where it has a very good market. Seeds, pulses and grams are sent to Calcutta and other food crops to Saran and Muzaffarpur. Food grains imported come mainly from Nepal and Bhagalpur, coal and coke come from Bengal and Bihar, coal mines, salt and piecegoods come from Calcutta.

The important marts in the district are DARBHANGA, SAMASTIPUR, MADHUBANI, RUSERA, PUSA, KAMTAUL, DALSINGSERAI, NARAHIA (for the grain traffic of Nepal), JHANJHARPUR, JAINAGAR and SUPAUL. The trade is carried by rail, a network of lines passing through the district.

SAMASTIPUR (population 13,483) —There are good mango and lichee gardens, the products are very good and are generally exported. Graftings of these trees are also available here. Ghee of SAMASTIPUR

Better & Bigger Business through "Mercantile & Mail Order Letters & Methods" from Industry Book Dept., Shambazar, Calcutta.

has a good name in the Calcutta bazar and is exported in large quantities. There is a factory for producing sugar from canes and also from imported molasses.

RUSERA —Trade in agricultural products is considerable here. Local oil and oil-cakes are of good quality. Sweet and large fishes are available in the Gandak river and are exported in winter.

DARBHANGA (population 70,667) —**LAHERIASARAI** is the Sadar Station. Articles of trade brought here for sale are wax, honey, mangoes, lchees and mango parchments (Amsatta). Resins of pines, guggul, Indian madder, etc., are obtainable in large quantities and are exported.

The traders and people from Nepal bring down timbers, hides and skins, cattle, sheep, buffaloes, goats, lentil, mustard seed, blankets, wax, etc., for sale here and in exchange they take into Nepal piece-goods, salt, kerosene oil, spices, brass utensils, hardwares, etc.

SAKRI —Hides and skins, tobacco, garlic, potatoes, maize, turmeric, etc., are largely exported from here. It is chiefly famous for ghee, molasses and jaggery.

JAINAGAR —There are 15 rice mills here. It is the chief centre of supply of rice and oil seeds. Timber trade is also carried on an extensive scale where timber comes from Nepal frontier.

SUPAUL —An important agriculture mart for eastern portion of Sadar Subdivision. A cattle mart is also held here every week.

PUSA —There is an agricultural institute of Government with various branches of agricultural research. Mangoes and lchees are exported.

MADHUBANI (population 20,272) is a trade mart.

Fairs:—Important Cattle and Agricultural fairs are—Khaira Mela, Pusa Road Stn, February; Narghohi Mela, Ujharpur, October, Jatmalpur, Hayaghat Stn, January, Muktapur, March, Birsingpur, Muktapur Stn, March. In P. S. **SASARAM** —Tarachandi, Chaitra Ramnavami, Bhaluni, Bikramganj, Chaitra Ramnavami, Babhani, Kargahar, Falgun, Sivaratri, Karakat, Bikramganj, Cattle Fair, Just after Sivaratri, Kargahar, Falgun Sivaratri, Dehri, Kichari Mela, Middle of January, Nasriganj, Middle of January, Chenari, Gupta Dham, Falgun, Sivaratri, Basant Panchami. Industrial fairs are Sailanath, Jainagor, Oct., Rajnagar, Oct.

GAYA DISTRICT.

The district of **GAYA** has an area of 4,714 square miles and a population of 27,85,503. Languages spoken are Bihari and Hindustani. Average rainfall is about 44.77".

The industries are lac, sugar, tassar, cotton, brass utensils, stoneware, gold and silver ornaments, blankets, rugs and carpets. **MANPUR**, **KADIRGANJ**, **DAUDNAGAR**, etc., are the centres of those industries and they have a large trade with Calcutta. Padlocks and brasswares are made at **AURANGABAD**. Sugar industry thrives at **JAHANABAD**. Indigenous methods of sugar making are followed in the villages around **GAYA** and **WORSELEYGANJ**. Mica is found in the district.

The principal exports are food-grains, mahua, saltpetre, mica, lac, blankets, carpets, stone, brass, hides, tobacco and betel leaves. The main imports are coke, piecegoods, shawls, kerosene oil, tea, timber, tobacco, manufactured articles, etc.

The chief centres of trade are **GAYA**, **TIKARI**, **GURUA**, **RANIGANJ** and **IMANGANJ**, **RAJAVLI** and **AKBARPUR**, (in Nawadah), **JAHANABAD** and **ARAWAL**, **DAUDNAGAR**, **DEO**, **MAHARAJGANJ**, **TARWA**, **KHIRIAWAN**, **RAFTGANJ** and **JAMBHOR**.

Better & Bigger Business through "Mercantile & Mail Order Letters & Methods" from Industry Book Dept., Shambazar, Calcutta.

GAYA (population 1,06,594) —It is the chief town of the district. All sorts of grains and seeds are obtainable here for export. Hukkah tobacco of Gaya is a well-known trade name and has got a wide market all over India. It exports large quantities of high quality molasses and chakigur to U P and Bengal. Potatoes and cauliflowers are available in abundance besides oil cakes, red-pepper, stone wares, plates, blankets, etc. A variety of articles carved out of the black stone of Gaya are exported to different parts of the country and blankets can be obtained at convenient rates and in large number.

NAWADAH —Motia cloth and tassar cloth are woven here. The articles of trade include all sorts of grains and seeds, molasses, chakigur, jaggery, sugar, castor seed, potatoes, onions, flax and flax twines, oil cakes, etc. Jaggery of NAWADAH has earned a reputation for itself.

WORSLEYGANJ —All sorts of grains and seeds are imported to this town from the surrounding country. Good rice is also obtainable here and the local bansmati sun-dried rice is famous. Jaggery is obtainable in considerable quantities. Large quantities of sugar are exported from here to the United Provinces. Jaggery is exported to Burdwan, Bankura, Hooghly, Midnapur, Birbhum, Santhal Parganas and Singhbhum. Imports into the town include flax, flax-twine, lin seed, mustard seed, castor seed, etc.

Fairs:—During the Pitripaksha Mela held at Gaya many Hindus from all over India assemble at the famous shrine of Gaya and perform their duties to their ancestors.

HAZARIBAGH DISTRICT.

HAZARIBAGH is a district in the Chota Nagpur Division, covering an area of about 7,000 sq miles. Its population is 1,515,997.

Fruits and vegetables are grown on a large scale. Lac cocoons occur widely.

The district is rich in mica and other minerals. Tin has been found in the district. Coal is mined at BAKARO, GIRIDIH and KARANPURA. Output in the district in 1939 was 3,309,409 tons.

Exports of Hazaribagh include copper, catechu, lac, cocoons, bones, hides, poppy-seed, timber, etc., and it imports hardware, brassware, piecegoods, machinery, machine stores, kerosene oil, grams, sugar, oilmen's stores and provision etc.

HAZARIBAGH (population 20,977) —It is reached by a motor bus service from the Hazaribagh Road Station on the Grand Chord line of the E I Ry. It is noted for its mica mines, quartz and felspar, forming the bulk of the legmatite, and other mineral products. There are also several flourishing lac factories. All these articles are sent down to Calcutta. On hot-days, seti-mustard seed, myrobalans, honey, wax, mohua flower, oils and seeds, resin, cotton, are obtainable in large quantities.

GIRIDIH (population 21,122) —It is an important centre of trade. There are many mica producing works near-by and also in the town. The chief articles of trade are rice, paddy, mohua seed and oil, janera, myrobalan, gur and mustard seed. It has also extensive coal fields. The output of coal during 1939 was 695,879 tons.

Agricultural Industrial and Cattle Fairs—Kunda (P S Partapur); Kolahu (P S Huntgunj), Champaran (P S Champaran), Chatra (P S Chatra).

MANBHUM DISTRICT.

The MANBHUM district contains a population of 1,199,154 has an area of 4,147 sq miles and the languages spoken include Bengali, Santhali, and Hindi.

COMMON FAULTS & ERRORS: A guide to writers and speakers in English. As. 5. Industry Book Dept., Shambazar, Calcutta.

The district is rich in mineral products, specially in coal. The JHARIA coalfield extends over an area of nearly 180 sq miles. 11,322,271 tons of coal are raised in the district. Gold washings are found. Iron ore and copper ore are not uncommon. It has forests also.

Shellac, tassar-silk weaving, coarse cotton cloth weaving, brass utensils making, ornaments making, rope, cutlery and gum making form the diverse industries of the district. Soapstone found in the CHANDIL thana is made into cups, images, dolls, etc.

The chief exports are coal and coke, shellac, cutlery, gums, silk cloth, etc., are also exported. The imports are salt, rice, gram, pulses, kerosene oil, cotton twist and piece-goods, molasses, sugar, tobacco, jaggery, tamarind, ghee, machinery, etc.

The trade centres are PURULIA, JHALDA, RAGHUNATHPUR, ICHAGARIH, GOBINDAPUR, NIRSA, etc.

JHARIA—It is one of the greatest coal producing tracts in Bihar. The coal is exported to Calcutta for shipment and internal distribution. A power hosiery and knitting mill has recently commenced operation here. During 1939 the coal output in Jharia was 10.5 million tons as against 11.1 million tons in 1938.

PURULIA (population 25,974)—The chief articles of trade of this place are lentil, wax, lac, honey, resin, myrobalans, stick of buffalo horns, etc.

RAJAGRAM—The place is famous for silk cloths, cocoons, lac, etc., which are exported to Bhagalpur, Murshidabad, Memari, etc.

CHANDIL—The chief imports are paddy, rice, lentil, mohua, honey, wax, cocoons, sal wood, castor seed, lac, small bamboo, etc. Regulation Lathis obtained from the jungles are exported to the police stations of Bengal and Bihar. Wood for axle of carts can be had here at a convenient price. Babul wood of the neighbouring forests are generally utilised for the purpose. There are several lac factories here.

JHALDA—The place is famous for lac which is largely exported to Calcutta. Sabai grass is exported from this place in large quantities, a kind of rope is also made from it. There are coal mines but they are not very important. There is also a small mica industry, the products being sent down to Calcutta. Jhalda too sends out regulation lathis to various parts of India. Principal imports are paddy and shellac. Other articles of trade are mahua, ganja, dhuna (rosin), cocoons, myrobalans, lentil, wax, etc. Large quantities of coarse cotton cloths, long cloths, napkins, etc., are woven on handlooms.

DHANBAD (population 16,356)—Situated in the coal district, it is a great coal centre exporting large quantities of coal to Calcutta and other industrial towns. It is a growing town of considerable interest to traders.

Fair:—A fair is organised by E. I. Ry. in February, at DHAIRA.

MONGHYR DISTRICT.

The MONGHYR district has an area of 3,931.71 sq miles and a population of 2,278,154. Languages spoken are Hindi and Urdu.

It produces rich crops of rice, maize, wheat, gram, barley, and tobacco. The minerals obtainable here are silver, mica, iron ores and slate.

The chief industries are fire arms and sword making, cotton weaving, dyeing, coarse blankets, boat making, soap boiling, sticks and jewellery from ivory and bone, basket weaving and gur making. The East Indian Railways Works at JAMALPUR, a growing town, is the largest manufacturing workshop in India where all the constituent

COMMON FAULTS & ERRORS: A guide to writers and speakers in English. As. 5. Industry Book Dept., Shambazar, Calcutta.

parts of a locomotive can be manufactured. The population there is 30,346. Sugar is made by indigenous process.

The chief articles of exports are gram, pulses, linseed, wheat, mustard, chillies, tobacco leaf, ghee.

MONGHYR (population 52,863) —List of exports comprises gram and pulses, wheat, peas and linseed, mustard seed, masuri, blanket, sticks, fishes, and cauliflowers, bajra and maize, mangoes, catechu, onions, stones, slates, tiles, dishes, cups, rice (Kharagpur), matki ghee, etc. There are oil mills and flour mills. It is also a centre for cigarette making from local tobacco leaf and has a large factory for the purpose. There are factories for the manufacture of perfumed articles and hosiery. It is famous for the manufacture of guns and pistols of good quality. Cargo boats of large capacities can be hired cheap.

KHARAGPUR —Besides rice, oil seeds, grain, jaggery, chillies, etc., are largely produced.

JHAJHA —The gur of the locality is of very fine quality and attracts many Bengal merchants here who purchase it from the surrounding villages through brokers, as the article is not actually brought into the market for sale. Country cigarettes called biris are made here. The usual articles for sale are sunn or hemp, mohua and mohua seed and oil, castor oil, mustard seed, ghee, linseed, etc. There are mica mines near the town.

LAKHISERAI —It has a mustard oil mill. Gram, grains and pulses and oil seeds are imported here in abundance. Besides these, ghee, sugar, pulses, oil cakes, onions, garlies, potatoes, tobacco and chillies are obtainable in large quantities in the markets. It has grown into a big centre of trade.

KHAGARIA —Considerable quantities of grains and seeds, chillies, turmeric, amuseed and cauliflower, are obtainable here. Ghee of this place is famous for its high quality and is exported to Calcutta and other places. Fish provides a most profitable business here, being exported in large quantities to Calcutta and other places in Bengal.

BEGUSARAI —All kinds of seeds and grains, oil cakes, etc., are brought here from the interior and exported chiefly to Bengal. Ghee obtained here is of the best quality and chillies are imported here in large quantities, generally on market days.

BAKRI BAZAR can supply thousands and thousands of maunds of chillies in season time. It is 12 miles away from Begusarai.

PARIHARA —The ghee of the place has a large sale in Calcutta. It is 8 miles from Lakmonia Station, which is reached from Monghyr Ghaut Station, and 2 miles from the famous Bakri market.

JAMUI —Many Bengali merchants come here to buy gur which is of good quality. Business is also carried on in mahua (seed and oil), linseed, ghee and sal leaves.

Other centres of trade are **GOGRI BARHAIYA**, **SHEIKPUR**, **BARI ARPUR**, **BARBIGHA** and **SIKANDRA**.

MUZAFFARPUR DISTRICT.

The **MUZAFFARPUR** district has an area of 3,036 sq miles and a population of 2,904,182 who speak mostly Hindi and Urdu. The average rainfall amounts to about 48".

Chief crops are rice, wheat, barley, ragi, maize, gram, cereals and pulses, linseed, rape seed, sugarcane, tobacco, fruits and vegetables. Other crops are sugarcane, poppy, and thatching grass. Garlic, onion, chillies, turmeric, are also cultivated. Cauliflowers are reared. There are big gardens where mangoes and lichees are grown.

For constructional details of Radio Sets and reception read "Radio Reception in Theory & Practice." Rs. 2/8. Industry Book Dept., Cal.

The important industries are coarse cloth making, carpet making, pottery, mat, cart wheel, palanquins, cutlery, indigo and sugar refining. There are several sugar and indigo factories Tobacco and saltpetre are also important manufactures

The chief exports are indigo, sugar, oil-seeds, saltpetre, hides, ghee, opium, tobacco, fruits and vegetables The imports are salt, cotton-goods, hardware, coal and coke, kerosene oil, maize, millets, rice and food grains, motor cars and accessories, timber, etc

The chief trade centres are MUZAFFARPUR, HAZIPUR, LAL-GONG, SITAMARHI, SURSAND, SAHIBGANJ, BELA etc

MUZAFFARPUR (population 42,812) —It is the chief industrial town of North Bihar There are several iron works, sugar factories, orchards and ice and oil mills Cartloads of timber, hides of cattle, sheep, buffaloes, goats, blankets, lentil, wax, honey, and salt-petre are brought down for sale from the Nepal-Teraí by the Nepalesé on market days The town enjoys a very considerable trade in exporting agricultural produce, and saltpetre

The town manufactures coarse cloth and towels, blankets are available here at a cheap rate There are still several indigo factories. Goods of agricultural produce are brought from the interior by carts and are exported by rail to other parts of Bihar and Bengal Wooden palanquins and cart-wheels are made here in large number and sent out to different parts of the country The lichees and mangoes of Muzaffarpur are famous, exports being mainly to Calcutta, Darjeeling and the up-country Sugar is exported on a large scale to Bengal, U P, and C P, while treacle (for the preparation of tobacco) is exported to Bishnupur, Gaya, Monghyr, Patna, Bhagalpur, Benares and other places

BAIRAGNIA —Though a small place, it is a trade centre of considerable and growing importance It is a large grain and oil-seeds depot Dealers of the plains and the hills of Nepal come here

SITAMARHI—Besides all sorts of grains and seeds, ghee, sugar, red-pepper, etc, are available here in large quantities Bheh gur and jaggery have a reputation in the market, and a kind of soft ghee is available here in considerable quantities Oil-seeds, hides, sacred thread and pottery are made There are several saltpetre factories sending saltpetre down to Calcutta. There are a rice mill, a jute mill and a mustard oil mill Linseed, mustard seed and castor seed, brought here from the neighbouring countries are exported to Calcutta and Bombay

HAJIPUR (population 19,209) is famous for unrefined sugar which is largely used by people of Bengal (high castes) Chutneys of fruits of this place are also famous and are sent to places in Bengal, Bihar, and U P There are several sugar factories and the unrefined sugar is largely exported to East Bengal, Calcutta, Benares, United Provinces, and C P by rail and also by steamers HAJIPUR is interested largely in trading in the agricultural products produced in surrounding villages, consisting of cotton, pulses, rice, grain, copper and brass vessels, linseed, tobacco, saltpetre, fruit and vegetables Plantains and mangoes are available in large quantities There are a few distilleries

Four branches of the B & N. W Rly pass through the district. Transportation is by railways and boats and also by carts, for which there are good roads penetrating the interior.

For constructional details of Radio Sets and reception read "Radio Reception in Theory & Practice." Rs. 2/8. Industry Book Dept., Cal.

PALAMAU DISTRICT.

The PALAMAU district in the Chota Nagpur division is 4,916 square miles in area and contains a population of 819,037. Average rainfall about 50"

The district is for the most part hilly broken country covered with jungle in which the close set bamboo is prominent while the steeper slopes are covered with denser forest mixed with climbers, Sal, aram, Bia, and other timbers abound in the south. In the valleys the trees of Paris, Khair and Mahua are remarkable.

The characteristic formation of Palamau, a gneiss of the varied constitution, is in some parts associated with enormous thickness of crystalline limestone. There are outcrops of Bijapur slates, shales, gneiss and sandstones. The next formation is Gondwana. There are then coal-fields, known as the Auranga, Hutar, and Daltonganj coalfields. The western extremity of the large Karanpura coalfield is in this district. Iron ores occur as hematite and limonite associated with shades of the coal measure. Laterite, graphite, copper are also found but remain unworked and undeveloped. The coal is of poorer quality and still unworked, owing to rights in minerals being still undecided. Limestone is extracted on extensive scale. Coal is imported in large quantities.

Ghee, tassar silk, lac and coarse cotton making are the main industries. The chief exports are—Hides, lac, ghee, oilseeds, bamboos, timber, catechu, fire-clay, birn leaves, shellac, konjhi gum (Gond), bones, bai grass, hay and sugarcane.

The import consists of piecegoods, salt, brass ware, sugar, kerosene, oil and rice. Ghee, mustard seed and hides are brought from Surguja State. The trade in the interior of the district is carried on by pack-animals except in the neighbourhood of the railway station.

DALTONGANJ—It is an important centre of trade in the district.

GARHWA—Mustard seed and ghee are imported from Surguja for sale on Saturdays. The climate of this place is very good and articles of everyday use are comparatively cheap.

Other trade centres in the district are **HARIHARGANJ**, **HUSSAIBABAD**, **PATHRA**, **LATEHAR** and **CHANDWA**.

Big cattle markets are **PATHRA** near Daltonganj, **Garhwa** and **Arhasi**.

Fairs—Cattle fairs are held at **HURLONG**, **CHAKLA** and **LATEHAR**, all in Latchar Subdivision. These last for a week and are held on 30th Pous, 15th Magh and 13th Faigun, respectively.

PATNA DISTRICT.

The PATNA district extends over an area of 2,114 sq miles and has a population of 1,844,397 souls. Average rainfall 50". Hindi, Urdu and Bibari are the languages spoken.

Chief crops are rice, wheat, jowar, barley, maize, gram, cereals and pulses, linseed, rape and mustard, condiments and spices, sugarcane, potatoes, cauliflowers, mangoes, chillies, etc., are cultivated.

The industries are carpet weaving, brocade, embroidery, pottery, glassware, toys, fireworks, lac ornaments, gold and silver ware and saf, glassware, boots and shoes and cabinet ware. Carpets are made at **SULTANGANJ** and **DINAPUR**. There are some iron foundries also besides sugar, lozenges, toffees, chocolate drops etc. are manufactured at **BIHTA** by South Bihar Sugar Mills Ltd. Chaki gur is made. Hides are available in plenty.

The imports are rice, paddy, salt, coal, kerosene oil, piece-goods and gunny bags. The principal exports from the district are wheat, linseed, pulses, mustard seed, hides, sugar, tobacco and opium.

Drink & Sell Syrup. MANUFACTURE OF SYRUP Explains the process. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Traffic is carried on both by railway and steamers; country boats are used to carry on trade with the Nepal Terai. Other important markets are DINAPUR, BARH, MOKAMEH, ISLAMPUR, FUTWA and HILSA.

BARH —The imports into this market include all sorts of grain and seed besides tobacco, potatoes, onions, garlic, chillies, good rice (bansmati sun-dried), oil cakes (ghani expressed), etc. Tobacco and chillies come chiefly from Darbhanga and big merchants from East Bengal come here to purchase chillies only. The place is well known for the manufacture of Jasmine oil.

PATNA (population 159,690) —Patna City is the seat of the Government of Bihar. It is an important junction on the main line and is the largest city in Bihar. It is the chief centre for grain, pulses, and salt. Government offices are mostly situated at BANKIPUR. Among the most noteworthy industries carried on in the city mention should be made of oil and flour milling, cotton weaving, carpet making, glass manufacture, gold and silver embroidery, stone cutting, lapidary art, wood-carving, jewellery, etc. Other smaller industries are shoe-making, utensils, iron workshop, durri weaving, etc. There are quite a large number of mills and factories in the town. It possesses normally a river frontage of 5 to 6 miles and its central position near the junction of three great rivers, viz, the Ganges, the Gondak and the Sone, where the traffic of the United Provinces meets that of Bengal, gives it great natural advantage as a distributing centre. Goods coming up by rail from Calcutta are here taken over by country boats, bullock carts, etc., and distributed throughout the neighbouring tracts, which in turn send their produce to be railed or shipped to Calcutta, Nepal and elsewhere.

DINAPUR (population 24,221) —Dinapur town is a cantonment and about 3 miles from Patna. Dinapur is famous for its butter, potatoes, and khari masur. Potatoes are exported to Burdwan, Memari, Bolepur, Pandua, Mogra, Gushkara, Chinsurah, Tarakeswar, Sheoraphuli and Calcutta in Bengal. They are also exported to Dacca, Chandpur, Narayanganj, Comilla, Noakhali, Pabna, Bogra and other places in Eastern Bengal. Cauliflowers are also similarly exported from here. Business in crude gur (chaki-gur) is also profitable. The local jaggery has a fine colour and finds a good market in eastern and western parts of the country. The Mango business begins from the month of Jaistha and different varieties of mangoes such as Langra, Bombay, Malda, etc. are largely exported. The khari masur is exported in large quantities to Eastern Bengal. Good shoes and boots are manufactured, and exported to different parts of the country. Various kinds of table cloths, napkins, towels are made.

DIGHAGHAT —The place is chiefly noted for potatoes, cabbages, onions and mangoes, etc. though various sorts of grains and seeds are also imported here.

BIHAR (population 46,904) —The bazar is a most important mart where jute, jaggery, chaki-gur, molasses, country sugar, ghee, blankets, oil-cake, mustard seed and other grams and seeds are available in large quantities. It is also an important place of art manufacture. Soap, tassar cloth, hookkah pipes, fine dhuties and various kinds of check chitiz and brass utensils are available. Considerable quantities of flax are exported to Bhadreswar, Mogra, Sheoraphuli, Burdwan, Calcutta and other places in Lower Bengal. Large quantities of potato seed are also available here and potato is exported from here to Asansol, Ranganj, Burdwan, Samthia, Bolepur, Memari, Chandernagore, Calcutta and other places in Lower Bengal. Coarse cloths are woven and largely exported to the markets in the colliery districts and to Patna.

Drink & Sell Syrup. MANUFACTURE OF SYRUP Explains the process. **INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

where it is coloured red and sold as "Patnai Kherua." The napkins of this place are famous and are exported to Calcutta. Fine cloths are also manufactured in large quantities and exported to Patna, Monghyr, Bhagalpur and other places. Various sorts of cloth are produced in the Government weaving factory here. Many cooly-contractors export blankets from this place.

MOKAMEH—It is famous for big-sized grains and seeds of exceptional quality which are imported there in large quantities, but these seeds are mixed with particles of dust. Grams and other seeds and grains, chillies, pulses, tobacco, onions, potatoes, oilcake, garlies etc are also available in the bazar in large quantities.

Means of transport are steamer, rail and boats

PURNEA DISTRICT

The PURNEA district is in the Bhagalpur Division and contains a population of 2,399,417 in an area of 4,998 sq miles. Hindi is the language spoken except in the Kishanganj Sub-division where it is an admixture of Hindi, Bengali and Nepalese. Average rainfall is 62.28".

The chief crops are rice, maize, tobacco, pulses, oilseeds (mustard), jute etc. Tea is also grown in the north-eastern part of the district. Patanis (rough coloured cloth), mats, cart wheels, gunny bags, alloy spoons are made in the Kishanganj Sub-division. The chief exports are rice, gram, jute, oil-seeds and tobacco. Imports are food grains, sugar, salt, piece-goods, kerosene oil, gunny bags and coal. The chief trade centres are FORBESGANJ, RANIGANJ, KASBA, PURNEA, KATIHAIR, BARSOI, BANMANKHI, KISHANGANJ, ISLAMPUR, THAKURGANJ and BIBIGANJ. The district is famous for its jute production, tobacco and mustard seed.

PURNEA (population 19,099) Merchants from Nepal bring their local goods by carts to the market of Purnea and get piece goods and other foreign articles in exchange, e.g. cloth, salt and kerosene oil. Honey is also obtainable. Hides and bones are exported to Calcutta.

KATIHAIR (population 26,459) on the junction of the B & A and B & N W Railways is an important trade centre. Fine jute and flour and oil mills operate in this town.

Fairs—A big fair (Khagra Fair) is held at Kishanganj (Purnea) during December-January. It is a big cattle mart where agricultural products and foreign articles are exhibited for sale. The next fair is Gulabagh 4½ miles from the town of Purnea, which is held in November-December. The other melas are Islampur, October-November, Daspara—February, Bibiganj—December in the Kishanganj Sub-division and Dharamyanj—January in the Araria Sub-division.

RANCHI DISTRICT

The RANCHI district has a population of 1,681,253 in an area of 7,102 sq miles. Hindi, Moodari, Uraon, and Kharia are the languages spoken. Bengali is also spoken in the eastern part of the district, and Panch Pargania in a large portion of Khunti Sub-division and also in Silli P. S.

Chief crops are Rice, ragi, maize, cereals and pulses, rape and mustard, sesamum, cotton, tea, fruits and vegetables. Tea is also cultivated and manufactured here.

Lac is common all over the district. The lac produced on the kusum tree fetches the best prices, two crops being produced a year in the hot weather and again in the cold weather. Shellac making is the chief industry of the district. Gold (in small quantities), mica and

Manufacture of Tobacco, Snuff, Zarda, etc., Read, INDIAN TOBACCO & ITS PREPARATIONS. Re. 1/12. Industry Book Dept., Calcutta.

coal are the chief minerals obtainable here Coal (566,885 tons in 1938) is mined near KARANPURA The district is rich in bauxite

The district has a large cement factory at KHELARI

RANCHI town is the summer capital of the Province of Bihar Papaya, cabbage, peas, beans, potatoes, jhinga, brinjal, pumpkin, etc., are extensively grown about the town and are heavy in weight Red pepper and products of the Junar Hills are sold in the market Kusum flower plants yielding good lac are seen here Many kinds of grasses suitable for the production of paper are obtainable here in abundance Sankha til is obtainable here in large quantities Local ghee is pure, good and cheap

Chief exports from Ranchi are grains and pulses, hides and skins, lac, stick, oilseeds, tea (in small quantities), timber, bones, myrobalans, etc

There are about 150 miles of good metalled roads The bulk of the trade from the interior is carried by goods trucks

SANTHAL PARGANAS

The SANTHAL PARGANAS occupies an area of 5,459 square miles and has a population of 2,246,230 persons, by the census of 1941. Santali, Hindi and Bengali, Malto or Pahari are the languages in common use The average annual rainfall is about 52"

The crops grown are rice, maize, wheat, jowar, marua, bajra, kodo, barley, gram, mustard seed, cotton, sugarcane, til (oilseed), sabai, brinjals and other vegetables, etc The chief forest products are sal and mahua. Besides these stone is quarried on a considerable scale along the Loop Line of the East Indian Railway in RAJMAHAL and PAKAUR Sub-divisions

One laterite quarry and two soap stone quarries are being worked in the Rajmahal Sub-division on a small scale China clay has been worked since 1892 at MANGAL HAT in Rajmahal Sub-division There is also a quantity of China clay at KARANPUR in the Dumka Damini-koh Government Estates Coal and iron ore also occur A portion of the Raniganj coal area falls under this district, the total output being 17,090 tons The coal extracted is inferior in quality and is generally fit only for burning bricks and lime About 3,20,156 tons of stones chiefly igneous rocks are quarried in this district

Mattocks, picks, plough, hooks, knives, shoes etc are manufactured, tanning baskets, bamboo mats, chiks or screens are also made, ghee, oil, gur, lac (shellac) are prepared

The chief imports are gunny bags, linseed, mustard seed, tobacco, raw cotton, sugar, refined and unrefined molasses, European, Bombay and Japanese piece goods, salt, kerosene oil, coal and coke The chief exports are food grains including paddy, maize, sabai grass, road metal, hides and raw fibres The trade in hides is chiefly carried on in the headquarters and Pakaur Sub-divisions where regular hide godowns are kept by Mohammedan merchants The chief centres of trade are SAHIBGANJ, MADHUPUR, DEOGHAR, PAKAUR, KARMA-TAUR and DUMKA and the big traders are mostly Marwaris The principal mart is SAHIBGANJ (E I Ry Loop) from where about 350,000 maunds of Sabai grass are sent to the paper mills There are rice mills at MADHUPUR and DEOGHAR, oil mills at PAKAUR, SAHIBGANJ and four mills at MADHUPUR and DUMKA

DEOGHAR —Big size arhar known as Maghi arhar is available here in large quantities Rice and paddy, jute, mustard seed, castor seed, ghee, til, myrobalans, linseed, mahua (seed and flower both) and other articles from the rich valleys around are brought for sale.

Manufacture of Tobacco, Snuff, Zarda, etc, Read, INDIAN TOBACCO & ITS PREPARATIONS. Re 1/12. Industry Book Dept., Calcutta.

It has got several flower gardens whence roses are daily sent down to Calcutta. Ghee and curdled milk as also chirah (pressed rice) are obtainable here in abundance and are of good quality.

MADHUPUR—It is a health resort some 190 miles from Calcutta. Food grains and raw materials, tamarind, mustard seed, e.g., are available in sufficient quantities. **MADHUPUR** exports large quantities of mahua flowers and seeds and myrobalans to Howrah.

KARMATAUR—It is a big rice mart with a number of rice mills. It is also an important trading centre of the district. It is also a health resort.

PAKAUR—It is an important trading centre. Export business is carried on with Calcutta and other places in Bengal, and the exports chiefly consist of rice, paddy, gram, peas, castor seed, dal, chillies, onions, potatoes, turmeric, linseed, oil-cake, jaggery, ghee, etc. On 'hat' days the Santals come with myrobalans, wax, honey, cocoons, bamboo, lentil, mahua-seed, anantamni (Hemedesmi) etc. which can be conveniently purchased in exchange of provisions. A profitable business here is the extraction of stone ballast from the quarries of which there are several in the place. Stone ballast for metalling roads is exported to municipalities, railways, and district boards. Of the several lac factories that once flourished here, only one now exists viz, Pakur Lac Factory. There is a big cattle market, held every week on Thursday at Hiranpur.

DUMKA—It is one of the principal trading centres of the district. The local bat is held twice a week. An agricultural and industrial exhibition and cattle fair what is commonly known as "Hija Mela" is held here once a year in February.

SAHEBGANJ—It is the largest business town in the district. It has a population of 16,000, several oil mills and a flour mill exists here. From here sabal-grass is despatched to paper mills.

Fairs—A considerable amount of trade is carried on at the fairs held from time to time in different parts of the district. The principal fairs are—In **DUMKA** S D—Rautwar Mela, Last day of Chait, 8 days, Nunhi Mela, Last day of Pous, 8 days, Baskinath, Sivaratri day in Falgun, 3 days, Dumka or Hija Mela, February, 7 days. In **DEOGHAR** S D—Deoghar, Bhadra-Purnima, September, 4 days, Sri Panchami, February, 4 days, Sivaratri March, 5 days, Burha-Sweni, December, 3 days. In **GODDA** S D—Basantrai, Chait Sonkranti, 15 days, Dhamsai, Sivaratri in February, 7 days, Chapri, Sivaratri in February, 3 days. In **JAMTARA** S D—Jamtara, Rasjatra, (November), 10 days; Karamdaha, Last day of Pous, 10 days. In **PAKAUR** S D—Pakaur, Rathjatra, (June or July), 1 day, and Kalpuja, (October or November), 1 day. In **RAJMAHAL** S D—Gateswar Mela in Kherwa, Bungalow Bnrhat, Sivaratri in Falgun, 4 days, Matigharna, Bungalow-Moharajpur, Sivaratri in Falgun, 4 days.

SARAN DISTRICT.

The **SARAN** district extends over an area of 2,683 sq miles. Its population is 2,486,568. Language spoken is Hindi. Average annual rainfall is about 45.76".

The chief crops raised are rice, barley, maize, khesari, pulses, linseed, mustard seed, sugarcane, opium (premier district).

Coarse cloth is woven. Brassware of **SIWAN** is famous as also pottery of the place. Saltpetres is made. Several sugar factories are situated in the district. Shellac and indigo are also manufactured. Imports of food grains largely exceed exports. Rice milling is done.

USEFUL PHRASES: A helpful companion to all As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The principal imports are rice, other food grains (from Muzapuri, Darbhanga, Bhagalpur), cotton piecegoods, salt, kerosene oil, coal and coke. The exports are opium, sugar, indigo, saltpetre, shellac, molasses, linseed, mustard seed, gram, pulses and other food grains. Traffic is carried by railway.

CHAPRA (population 47,448) is one of the important marts in the district. Gram, wheat, linseed, mustard-seed, jaggery, molasses, tobacco, chillies, potatoes, onions, sugar, turmeric, poppyseed, arhar, oilcake, castor oil, khari salt, maize, garlic, butter, blankets, hides, etc. are brought here in abundance for sale. Saltpetre, khari salt, ghee, castor oil cake, potatoes, sugar and arhar dal of Chapra are well known. Saltpetre is exported to Calcutta. The local handicrafts consist of weaving of coarse cotton cloth (exported to Patna and the colliery district), and blankets (which are produced in abundance and exported to Calcutta and other places).

HATHWA—White sugar is manufactured here by a factory belonging to the Dalmia group.

The other principal marts are **REVELGANJ**, **SIWAN**, **MAHARAJGANJ**, **MIRGANJ**, **DIGWARA**, **SONEPUR** (where the famous cattle and horse and elephant fair is held during November) and **MORHOWRAH** and **PANCHRUKHI**. The district is fairly well supplied with railway and good roads.

Fairs:—Kartik Ashnan mela (Harihar Chetra) at Sonapore, 11 days, 30th Kartik (November) is the bathing day, mela begins one week before. 400,000 souls visit every year. Large number of cattle, horses, elephants are sold.

Shivaratri mela at Silhauri P. S. Marhowrah, Ry. St. Marhowrah, 13th Falgun (March) one week and 13th Baisak (April) 20,000 people flock in from great distances to worship mahadeo (Siva) and to sell and buy cattle and miscellaneous goods.

Ram Nawmi Mela at Dumarsan P. S. Masrakh Ry. St. Masrakh, 24th Chait (April) 2 days, 25,000 people assemble. Horses, buffaloes and bullocks are sold in large numbers.

Kartik Ashnan Mela at Godna, P. S. & Ry. St. Revelganj, 30th Kartik (November) bathing day, 4 days. 33,000 people mostly women attend the fair, next to Sonapur fair, it is the largest cattle fair in this district.

In **Gopalganj S. D.**—Thawe, March and April, Manjha, October, Hathwa, Dasara festival, Bederjuni, October and March, Barapatti, October and March.

Baniapur Mela—11 miles north of Khairah Rly. station in the Saran district. Starts from the 9th day of Agahan lasts for 15 to 20 days. Horses, buffaloes, bullocks and cows are sold in large number. About 40,000 people assemble. It is also an important cattle fair in the district.

SHAHABAD DISTRICT.

The **SHAHABAD** district in the Patna Division has an area of 4,353 sq. miles and a population of 2,336,642. Hindi, Urdu and Bhojpuri are the languages of the district. Average rainfall is about 45".

The chief crops are rice, maize or moka, marua, jowar, bajra, cereals and pulses, wheat, barley, oats, gram and linseed, poppy and sugarcane.

There are three sugar mills in the district, viz., at **BIKRAMGANJ**, **BUXAR** and **DEHRI**. Sugarcane pressing machines made of iron are made at **BEHEA**. Carpets, bed sheets and pottery are made at **SASARAM**. Blankets are made at **NASRIGANJ**. Carpet weaving is carried

USEFUL PHRASES · A helpful companion to all As. 5.

INDUSTRY BOOK DEPT., Shambazar, Calcutta.

on at BHABUA There is an oil mill at NASRIGANJ Big industries recently started comprise manufacture of cement, paper, sugar and chemicals, at DALMIANAGAR.

Blankets and cotton cloth are also woven Boat-making, stone cutting, flour grinding and sugar refining are the other industries there Carpet weaving is carried on at BHABUA

The imports are piece-goods, kerosene oil, coal, coke etc The exports are wheat, gram, pulse, oil seeds, raw sugar and gur

The chief trade centres are ARRAH (population 48,922), BEHEA, DUMRAON, BUXAR, CHAUSA, and DEHRI Arrah is the district head quarters and the largest town in the district

DALMIANAGAR is a growing industrial town, named after Seth Ram Krishna Dalmia Cement, paper, sugar, chemical, (bleaching powder and caustic soda) are manufactured here by the Rohtas Industries Ltd., which run 4 factories in the town The cement factory turns out 5,00 tons of cement per day The paper mill with a daily production of 20 tons of paper manufactures paper of all grades including manilla, kraft, Duplex, etc The sugar factory is capable of turning out 21,000 tons of sugar every season Head office of Dalmia Cement Ltd is also situated here

Fairs —Cattle fairs are held at Bhaluni, P S Bikramganj in Sasaram Sub-division in the month of Chait or about Chait Naumi day (April) where bullocks, cows and buffaloes are sold and at Barahpur in Buxar Sub-division for a week on or about Falgun Shivaratri (March), and Baisakh Shivaratri (May)

SINGHBHUM DISTRICT.

The SINGHBHUM district in the Chota Nagpur Division occupies an area of 3,879 sq miles and contains a population of 9,29,302 Hindusthani and Ho languages are the principal languages of the district The average rainfall is about 54" More than 1,200 sq miles are under Government reserved forest

The chief crops in the district are rice, oilseeds including rape, mustard, sarguja, maize, marua, millets and cotton

The district is very rich in minerals Extensive deposits of iron ore occur in the district and are mostly treated by Tata Iron and Steel Works at TATANAGAR and by the Indian Iron and Steel Company at Kulthi and copper ores are treated by the Indian Copper Corporations at MAUBHANDAR near Ghatsila, B N Ry Copper ores exist here, gold is found, limestone and kankar are also found here

The chief exports are sal, paddy and rice, oilseeds, stick-lac, iron, tassar, silk-cocoons, hides, sabai grass, chromite, manganese, white clay, red and yellow ochres, soapstone and limestone The chief imports are salt, cotton yarn, piecegoods, tobacco, brass utensils, sugar, coal, kerosene oil and coke Trade is gradually increasing, and timber in increasing quantities is sent away from the district.

CHAIBASSA —The adjoining country produces paddy, rice, silk, lac, tassar, wax, honey, mustard and castor seeds, stone utensils etc It is noted for timber and rice, and rice from this place is exported to all the coal fields Sal-timbers are largely obtainable here and are purchased by merchants, from Calcutta and other places

RAIGARH —Myrobalan, sal, wood, wax, til, dhuna seti, kajla mustard seeds, etc, are the chief articles of trade here Forests exist in the neighbourhood and various forest products are available here besides sal timber business in which is a highly profitable one Kat-til can be had here in plenty

To increase your Cash Business Read THE RETAIL TRADE. Re. 1/4. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

TATANAGAR (population, 1,10,000 approximately) —It is one of the most important industrial towns of India and is the seat of the iron industry in India. The Iron and Steel Works of Messrs Tata Iron and Steel Co., are situated here. The output of the principal products during the financial year 1939-40 was as follows—Coke 972,000 tons, Pig iron 1,140,000 tons, Steel Ingots 1,018,000 tons, Saleable Steel 7,77,000 tons.

The Company runs several markets and is responsible for the entire water supply, sewerage and sewage disposal, roads conservancy and all other services of a municipal nature. It has also provided 16 primary schools, 6 Middle English Schools and 2 High Schools—one for boys and the other for girls. The Company also has a large Main Hospital and six dispensaries.

The Tata Company had a large expansion programme in hand which contemplated erection of a hoop and strip plant, a tube-making plant and a plant for making wheel tyres and axles and all components of locomotives except boiler tubes. It is also understood that the Company will shortly be manufacturing steel by an entirely new process, developed in Jamshedpur itself. This would enable India to produce acid steel entirely out of Indian materials.

Other subsidiary companies at Jamshedpur are (1) The Tinplate Co., of India Ltd (2) The Indian Cable Company, (3) The Indian Steel and Wire Products, (4) The Tatanagar Foundry Company, (5) The Tatanagar Chemical Company (which has lately been taken over by the Steel Company), (6) The Indian Hume Pipe Company and (7) The Jamshedpur Engineering and Machine making Company.

Another important company operating in Tatanagar is the Indian Copper Corporation Ltd with a capital of £225,000/- with operations confined to the Musabani area. The company has erected Power Plant, Concentration Mill and Smelter on the north side of the Subarnarekha near Ghatsila. The Company has installed a Rolling Mill for the production of yellow metal sheet and circles in India.

Faultless and Distinctive Printing

The standard and solidarity of a business house is often judged by the general "get-up" and quality of its printed matter. Good printed matter is an advertisement of untold value, the best business-getter and the cheapest representative.

Faultless and distinctive printing will enhance the reputation of any firm, no matter whether it is an old established one or not. Good Printing gives clients more confidence.

You will have everything that is good printing in our shop. Our estimator, designer, artist and block-maker will be at your service whenever demanded. Our rates are always competitive.

INDUSTRY PRESS,
Shambazar, Calcutta.

MARKET PLACES OF THE UNITED PROVINCES

THE United Provinces of Agra and Oudh has an area of about 110,000 square miles and a population of 55,021,000 including that of States.

The greater portion of the Provinces is a level plain. The Gangetic alluvium is still carried down from the Himalayas and deposited on the banks of the river as silt. In the hilly tracts stone and other minerals are found.

The Upper Ganges Canal, the Lower Ganges Canal and the Sarda Canal system help the irrigation of the province. Formerly goods were transported over the Ganges but the opening of railways and roads have largely altered the state of things and has given great impetus to the agricultural classes.

Rainfall:—Vegetation is on the whole uniform, differences being due to variations in rainfall and temperature. In the East the rainfall is heaviest, the average being 50", in the West the average is about 30" and in the Himalayan tracts as high a figure as 110" is recorded at Mussorie, and Dehra Dun gets about 120". Storms and cyclones are rare in the province.

Soil:—There are three varieties of soils in the Provinces—the valley of the Himalayas, the main alluvium and the Central Indian alluvium. In the Himalayas, cultivation is carried on small patches where ground is level. System of cultivation is determined by conditions of the soil and rainfall.

Crops.—Wheat, barley, pulses, rice, millets and maize are the staple crops according to the nature of the soil. Irrigation is the main source of water for cultivation. Gram, jowar and bajra are also largely grown. Peas, masuri, khesari, arhar, pulses and among oil seeds, til, mustard, linseed and castor are cultivated and are classed as dry crops. The United Provinces produces more sugar than any other province and ranks second only to the Punjab as a wheat growing area. Cotton occupies about 4 per cent of the cultivated area and constitutes the main fibre crop. Sugarcane is an important crop, indigo cultivation is declining. The cultivated fruits are mango, mohua, berry, pomegranate, peach, custard apple, guava, jack fruit, tamarind, pineapple, plantain, shaddock and several varieties of figs, melon, lime, orange and citron. Vegetables are everywhere cultivated in garden plots. The agricultural implements are simple and the size of the plough and other implements depends upon the pulling capacity of the local cattle. Chief crops in the Province are—

	Average of preceding 5 years	1936	1937	-1938	1939	1940

Words ABOUT PROUD MEN

The man who takes pride in his paints or varnishes—he will not treat it with cheap linseed oils to save theoretical annas. The man who takes pride in the product he makes—he will not cheapen it for theoretically greater profit.

The users of **DOG BRAND** and the makers of **DOG BRAND** are of one mind. They do not desire **DOG BRAND** to be anything except what it is—a superb achievement in quality. It is created exclusive from the costliest (linseed) money can buy, that Genuine (Double Boiled) Oil is so regal in character that it is unmatched by any other linseed oil in the world.

It is because of its superb quality that **SWAIKA'S DOG BRAND LINSEED OILS** are being used by Government of India (Indian Stores Dept.), Indian Railways, Municipalities, Military, etc., and all over the world.

Telephone Cal. 6171 (2 lines)

Following crops were cultivated during the year 1940-41—Bajra 2,435,000 acres, jowar 2,224,000 acres, groundnut 159,000 acres, spices 144,000 acres, bailey 385,000 acres, maize 212,000 acres, grams 5,106,000 acres

The districts where the crops are fairly abundant are as follows
Rice—Gorakhpur, Basti, Gonda, Bahraich, Allahabad, Azamgarh, Fyzabad, Kheri, Wheat—Gorakhpur, Meerut, Gonda, Moradabad, Azamgarh, Allahabad, Basti, Cawnpur, Jaunpur, Partabgarh, Jowar—Jhansi, Cawnpur, Banda, Bajra—Agra, Banda, Maize—Bahraich, Banda, Giam—Banda, Hamirpur, Meerut, Allahabad, Pulses—Gorakhpur, Azamgarh, Ballia, Fyzabad, Ghazipur, Mirzapur, Sitapur, Lunseed—Gonda, Sesame—Hamirpur, Jhansi, Rape and Mustard—Bahraich; Sugarcane—Gorakhpur, Meerut, Muzaffarnagar, Cotton—Meerut, Poppy—Budaun, Fyzabad, Ghazipur

Sarda Canal Scheme.—With all its branches, minor channels, and distributaries the total length of the Sarda canal system is about 4,260 miles commanding about 7 million acres of cultivable area. The canal traverses the Pilibhit, Shahjahanpur, Kheri, Sitapur, Hardoi and Unao districts. Apart from protection against famine which the canal affords to the millions of people whose livelihood depends upon its waters, this waterway has given great impetus to the launching of a sugar industry in the province

Irrigation.—Total irrigated area in the province is 11,958,937 acres of which 38,64,191 acres are irrigated by Government canals, 44,911 acres by private canals, 58,222 acres by tanks, 5,554,059 acres by wells and 2,539,560 acres by other sources

Timber.—Semul and gutti logs for match making and other purposes are met with in Hildwari, Ramnagar, Terai and Bhabar Estates. After meeting the full requirements of the match factories in the Provinces it will be possible to supply a considerable quantity of these timbers to the match factories outside it

Cattle.—Good breeds of cattle are found in Bundelkhand and in the submontane tract of the north. Sheep and goats abound in the Provinces and cattle fairs are held in many places; and those at Batesar (Agra), Kosi (Muttra), Gola (Khetri), Fakirpur (Bahraich), Mokkanpur (Cawnpore), Nauchandi and Garhmukteswar (Meerut) are famous

Ghee.—In the western districts of United Provinces such as Etawah, Mainpuri, Agra, Aligarh, Meerut, the production of ghee is of such importance that ghee merchants of Cawnpur, Calcutta and Rangoon have opened branches there to ensure a regular and sufficient supply of ghee. Flourishing mandis have sprung up at KHURJA, CHANDAUSI, HATHRAS, ALIGARH, SHIKOHABAD, ETAWAH, AURIYA, and BHARATHANA and there is almost a ghee belt stretching from Meerut to Cawnpore. About 40,000 maunds of ghee are annually sent out of the Etawah market alone

Minerals.—U P is not rich in minerals. Peat is found in Upper Doab and coal in the Southern Mirzapur, iron and copper ores are found in Garhwal and Kumaon districts. Limestone and gypsum are found in the Dehra Dun district and stone in Mirzapur.

Cottage Industries.—Cotton ginning, weaving and spinning is a home industry at AZAMGARH, FYZABAD, ALIGARH, ETAWAH, SAHARANPUR and MUZAFFARNAGAR. Attempts are being made to push on the manufacture of fancy borders for saris which have a very large demand in the Provinces. MEERUT is a chief centre of the weaving industry. BENARES and JHANSI are centres of silk weaving industry and MAU in Fyzabad is a centre of artificial silk weaving. SHAHJAHANPUR spun silk industry is progressing. There is a small local

DOMESTIC RECIPES. As 5. Industry Book Dept, Shambazar, Cal.
Lots of useful formulae for home application are included in
Y. B. 29.

trade in blankets in every district and woollen cloths and ropes, coarse blankets of goat's hair are made in the Himalayan districts and at MIRZAPUR. Cotton carpets and durries are made in every jail, those of ALIGARH BAREILLY and AGRA being notable. MIRZAPUR and AGRA are centres of woollen carpet weaving, other centres being JHANSI, MORADABAD and CAWNPORE. Rugs, prayer mats, horse cloths, saddles, etc. are also made. Power spinning and weaving is progressing. Hosiery is another rapidly progressing industry and several power hosiery plants have been installed at Cawnpore and Meerut. Dyeing and printing are established industries. There are many goldsmiths in the towns and villages. Blacksmiths make and repair agricultural implements everywhere in the province. Tatpatti woven of sunn fibre is made in the districts of Shahjahanpore, Partabgarh, Bareilly, Fatehpore, Bijnor, Azamgarh, Basti, Sultanpore and Barabanki. Basket weaving from munj, jhan, and jhankar are practised at ALLAHABAD, PILIBHIT, HARDOI and MORADABAD. Brass and copperware are made in PARTABGARH, GONDA, KHERI, MUZAFFARNAGAR, etc. Marble work with stone is done at AGRA, wood carving is practised at SAHARANPUR, NAGINA and MAINPURI, and BAREILLY. Wood-carving work is done at SAHARANPUR and MUZAFFARNAGAR and silver, ivory, bider, chikon, clay and printing industries obtain at LUCKNOW. Wooden toys of BENARES, LUCKNOW, etc., are well-known in the Indian market. Experiments are in progress at Wood Technical Institute, Bareilly to make better finished toys.

Major Industries:—Mill industries are textile making, tanning, sugar factories, soap making, leather goods, match and cigarette making, paper making and shellac factories. Matches are made at BAREILLY. Locks and padlocks are made at ALIGARH. MORADABAD and BENARES, are centres of metal utensil making. Pottery is made everywhere, specially in CHUNAR, ALIGARH, AZAMGARH, LUCKNOW, etc. Glass factories exist at ALLAHABAD, ALIGARH, MAINPURI, ETAWAH and FIROZABAD. There are 3 jute mills in the province, equipped with 15,424 spindles and 734 looms.

Sugar Factories:—The United Provinces own the largest number of sugar-mills in India and has 52.2 per cent of the area under sugar cane in India. During 1939-40, 70 factories were at work producing 659,500 tons of sugar as against 320,300 tons in 1938-39. Over and above this 1,454,000 tons of gur was produced in 1938-39 in the province.

Factories:—In the United Provinces there are 34 glass factories, 20 oil mills, 2 paper mills, 2 silk mills, 3 woollen mills, 42 engineering companies, 11 flour mills, 6 hosiery factories, etc.

Cotton Spinning:—Twenty-seven factories worked during 1939-40. The number of spindles was 743,702. The quantity of cotton consumed was 13½ million cwt. The bulk of the production was as usual of counts from 11's to 20's. But the production of counts from 11's to 30's is also steadily increasing.

Industrial Possibilities:—With protection granted to the wool industry there is room for development of more woollen mills in the province. The paper industry can make remarkable strides with the proper utilisation of sabai grass which is found in abundant quantities in the forests of U. P. Progress can be made both with regard to manufacture of glass blown wares and sheets. Production of luxury goods, e.g., Farrukhabad prints, Mirzapur carpets and Moradabad brass-wares can be increased. There is also scope for caustic soda, soda ash,

CATTLE BREEDING & DAIRYING: A Handbook on keeping cows.
As. 5. Industry Book Dept., Shambazar, Calcutta.

required in the glass industry Viscose silk industry can be developed from cotton lint and other cellulose substances Abundant supply of maize can be industrialised for starch industry Paint and varnish industries (from linseed), lubricants (from castor seeds), ghee and gelatine (from hide fleshings and power alcohol from molasses) deserve attention

Trade—The chief trade centres are CAWNPORE, ALLAHABAD, MIRZAPUR, BENARES, LUCKNOW, MEERUT, ALIGARH (KOIL), MUTTRA, AGRA, FURRAKKABAD, CHANDAUSI, BAREILLY, SAHARANPUR, PILLIBHIT, HATHRAS, SHAHJAHANPUR The chief articles of trade are raw cotton, cotton goods, grains, oilseeds, hides and skins, brass and copperwares made at MIRZAPUR, BENARES and LUCKNOW The imports are raw materials and materials ready for consumption Calcutta, Bombay and the Punjab participate in the trade of the Provinces

Transport and Communication.—The E I Rly, G I P. Rly, B B & C I Rly, R & K Rly and B N W Rly traverse the Provinces making a network of railways The total lines open in the Provinces are about 4,000 miles There are about 8,000 miles of metalled roads and more than 27,000 miles of unmetalled roads

Almost all the big towns have a good number of lorries and motor buses, for carrying passengers, within the towns as well as for taking passengers into the interior from towns and wayside stations

AGRA DISTRICT.

The district of AGRA is 7,405 square miles in area and contains a population of 1,048,316 The languages spoken are Braja Bhasha and Urdu (in the City) The average rainfall is 26"

The staple food crops of the district are bajra, gram, jowar, wheat, barley and cotton Cattle are generally imported from the Punjab and Central India There are stone quarries at Tantpuri, a village in tehsil Kheragarh

AGRA (population 229,764), the capital of the district is an important centre of arts and manufactures, specially of marble toys, plates, beautifully inlaid with precious stones The city is famous for its shoe industry. Good carpets and blankets are manufactured in cottages (handlooms) and factories The production of carpets is the most important outturn of the Agra Central Jail Satranjies, carpets, soft stone articles, brass and bellmetal utensils, cotton and woollen cloths are famous and are available in abundance There are several oil mills and cotton weaving and spinning factories Glass is manufactured on a large scale Embroidery works of pure lace are done artistically Soapstone and looking-glass frames are available here; small round boxes are also made and sold to different provinces and towns Articles made of stones are sold in abundance It is a centre of better quality hides and skins which are generally obtainable from the slaughter houses situated here Guts and casings are also available at this place It is a great mart for mustard seed, wheat, rye, masur dal, linseed, gram, etc Being situated on the border of Rajputana it has become an important collecting centre of grain, oilseeds, cotton and ghee from the States of Rajputana. The States of Rajputana and Central India receive in their turn cotton goods, metals, sugar, salt, tobacco, etc through Agra. Goods are despatched and received by rail.

In DAYALBAG, there are technical school, dairy and agricultural farms, women's college, etc Scientific instruments, electrical goods, jewellery, electroplated goods etc, are made There are two tanneries, a leather goods factory, a textile mill and a hosiery factory.

CATTLE BREEDING & DAIRYING: A Handbook on keeping cows.
As. 5. Industry Book Dept., Shambazar, Calcutta.

FIROZABAD (population more than 40,000) —The place is famous for glass bangles. The industry is stated to have made great headway; and ruby, red amber and granite block, glass bangles are now common. There are also fifty factories producing glass. Firozabad factories are now equipped with the Japanese type of furnaces and a few are taking to the manufacture of bangles by machinery.

Fairs—Chief fairs are Mau, Sitla Fair, every Monday in the month of Asarh, 4 days, Sikandra, Kailash Fair, 3rd Monday in the month of Sawan, 1 day, Itaura, Deviji's Fair, from Chait Sudi 7 to 9, 3 days, Agra Cantt Ry Station, Kamalkhan Fair, on Thursday in the end of Kanagat, 1 day, Jamna Kinara and Ram Bagh Teraki Fair, 3rd Thursday of the month of Bhadore, 1 day, Fatehpur Sikri, Urs fair of Sh Salim Chisti from 26th Ramjan, Bateshwar fair, last week of Kartik, Camels and horses come here from different corners of U P and the Punjab, Bah, Baldeoji fair, Chaitra Panchmi Badi to Dasmu, Jirkhu in Tahsil Esmadpura, Ram Navami fair, Chait Sudi Navami, Jagnair in Tahsil Kheragarh, Gival Baba fair, Bhadon Purnamashi, Ada in Tahsil Kheragarh, Bhadon Badi Amaswas to Satain, Birthula, Tahsil Kheragarh Bhadon Badi Ashtami and Naumi, Sufipura in Tahsil Ferozabad, Sheikh Sufi Sahab fair, 21st Sufar, Harnair Nawada Khera, Tahsil Fatiabad, Bhadon Sudi Ekadashi, Sahadshahr Chak 1, Kasons fair, Chait Sudi Padwa.

ALIGARH DISTRICT.

The ALIGARH district occupies an area of 1,952 sq miles and contains a population of 1,171,745 who speak Hindi and Urdu.

Sugarcane is grown in plenty. The principal crops of the district are wheat, barley, jowar, gram, maize, and arahar. Cotton is the most important of the other crops grown.

Acacia, neem and mango trees abound in the district, but, all the same timber has to be imported for building purposes. Horse-breeding has become very popular at Aligarh, and Government maintains a number of stallions here. Kankar for road making and saltpetre and glass are available.

The district is the centre of cotton weaving, rug and carpet making, lock factories, cotton spinning and ginning works and dairy farms. Glass is manufactured at SASNI and HATHRAS JUNC, brass utensils are made. Sugar factories exist at BIRPURA and GABHANA. Glass bangles, beads, etc are manufactured at AKRABAD (13 miles from Aligarh). Glass bangles for curtains and buttons are manufactured at PURDINAGAR (2 miles from S Rao).

The district exports grains and cotton, oilseeds, country goods, glass and saltpetre and imports sugar, rice, piecegoods, spices, metals and timber. Brass utensils are made at HATHRAS and ATRAULI. The district is famous for lock. Buckets, spades, khurpas, cauldrons are also manufactured.

ALIGARH—It is the seat of Muslim University where Muslims and non-muslims are educated and is famous for its manufacture of locks, brasswares, daries, bangles and other glass wares. There is a big Swedish dairy farm for the manufacture of butter and cheese. There are other butter factories in the city, turning out butter in large quantity. There is also a big agricultural farm supervised by the Government in village Kalai and the one in Aligarh has been made over to the Aligarh University for training of the students by the Government.

HATHRAS—Hathras is second only to Cawnpore as an important centre of trade in U P. Trade connections are generally with Cawn-

Improve your kitchen garden from hints given in **GARDENING BITS**.
Price As. 5. Industry Book Dept., Shambazar, Calcutta.

pore, Bombay, Calcutta, and Delhi. Very good quality ghee and pure mustard oil are obtainable here in large quantity and are also exported. A ghee grading station under the name of Bharat Ghee Grading Station has recently been opened. The oil seeds from this place are sent to different districts of Western Bengal and are also pressed, and oil is also extracted here in the mills. Arhar pulse is prepared in large quantity and is exported. There are also several spinning, weaving, and ginning factories. There is also one tin factory, which prepares canisters, and these are exported outside the district. This place is also famous for desi knives.

HATHRAS TAHSIL—At **MURSAN** situated within this tahsil a cattle fair takes place on every Tuesday, where many cattle from far and near are brought for sale. Another cattle market in the Tahsil is held in **SASNI** on every Sunday.

KHAIR TAHSIL—This is a purely agricultural tahsil. Sugarcane is grown in plenty. The principal crops of the tahsil are wheat, barley, jowar, bajra, gram, maize and arhar, cotton is the most important of the other crops grown. There is a ginning factory at **Gabhan**. There is a cattle market at **KHAIR** which is held every Tuesday. A cattle fair is held at **GABHANA** near Grand Trunk Road at about 1½ miles from **Somna Ry St** twice a year. Saltpetre is found in some villages in the vicinity of the **Jumna**.

ANDOLI—Moonthas are prepared and sold. It is about 5 miles from **Rati ka Nagla Station**.

NAI NAGLA AHAR—Here moonthas are prepared and sold. It is about 5 miles from **S Rao**.

Fairs:—A District Fair takes place annually in **Aligarh**, which is called by the name of "The Government Horse Show and District Fair, **Aligarh**." This fair is run by a managing committee presided over by the district magistrate of **Aligarh**. One **Danji Fair** also takes place on **Bhadon Sudhi Chhat** every year, when many people come here from outside the Tahsil. An art and industrial exhibition is held at **Hathras** in November and December. A fair is held in **Barhad** on **Bhadon Sudhi Chhat** to **Puranmashi** each year and a large number of donkeys and ponies are sold in it. It is about 4 miles from **Rati Ka Nagla, B B & C I Ry St**. A fair is held in **Hasayan** for 9th to 12th day of **Bhadra Sudi** in which agricultural implements are sold. It is about 4 miles from **Ratika Nagla Station, Sikandra Rao, Bhadra, 15 days, and Jaith, 15 days**. Other fairs are—**Kazimabad** near **Atrauli Road Station, Deo Chhat Fair, Bhadon Sudi 6, Bijah near Atrauli Road Station, Shiv Ratri Mela, Phagun Badi 14**.

ALLAHABAD DISTRICT.

The **ALLAHABAD** district stretches over an area of 3,852 square miles and is inhabited by Hindi and Urdu speaking population of 1,491,913. Annual rainfall is about 38".

The district is a good rice land and sugar-cane is grown besides the ordinary food crops and oil seeds. Cattle are kept and good ghee is available. The crops raised are rice, bajra, jowar, gram, barley, wheat, pea, oil seeds and sugar-cane, on the **Jumna** side cotton is grown in **Doab** and **Tahsil Meja**, hemp is also cultivated.

Bamboo baskets locally made are in good demand. Brass utensils are made at **SARAI AKIL** and **PHULPUR**. Stone is quarried from **Kaimur Range** in **Pargana Bara** and **Khairagarh** and is taken to surrounding district. Fine quality of khaddar is woven in **MAU-AIMA, Tahsil Soran**.

There are several oil mills, flour mills and workshops in **ALLAHABAD**. Glass-ware is made at **NAINI**, near **Allahabad**. The

Improve your kitchen garden from hints given in **GARDENING BITS**. Price As. 5. Industry Book Dept., **Shambazar, Calcutta**.

sugar mill at JHUSI produces sugar in large quantities. The Allahabad Glass Works manufacture, electric shades, coloured sheet glass and aerated water bottles. Recently a factory has been started for the manufacture of essential oils, aromatic chemicals and synthetic perfumes.

The principal exports are gram, cotton, oil seeds, sugar, ghee, etc., and the chief imports are metals, salt and piecegoods.

ALLAHABAD (population 183,194) —This town is the capital of the Provinces, but politically important is now being gradually shifted to Lucknow where most of the offices of the Government have been transferred. Grains and seeds are exported from this place.

DARANAGAR The articles of trade of this place consist of grains, wheat, castor seed, linseed, rape seed, seti-mustard, arhar, masur, khesari, ghee, etc., which are largely imported here from the surrounding villages. The linseed of this place is very good and is obtainable in abundance.

NAINI—It is situated on the right bank of the Jumna and is connected with Allahabad by a bridge. There is a sugar mill also.

SIRSA—Is a big grain trading centre in the district and is on the main E I Railway line. There are also many smaller markets in the interior.

Fair:—An important fair is held every 12th year at Allahabad and is known as Kumbh Mela.

ALMORA DISTRICT.

The ALMORA district extends over an area of 5,500 sq miles in the Kumaon division and has a population of 687,905 souls. Hindi is the language spoken here. Average rainfall is 80".

Staple food crops are maize and rice in autumn, and wheat and barley in spring. Minor vegetables, millet and maize are also cultivated. The hills also produce turmeric, ginger, chillies and potatoes. There are wide areas under reserved forests.

Copper is mined here by indigenous methods. There are also several tea plantations. Blankets, woollen cloths and shoes are made for local use. Breweries work at RANIKHET. Blanket making is progressing in ALMORA where 5,000 hand spindles are now working. Manufacture of copper, brass and iron utensils is carried on at several places in the district. Wooden jars, bowls and cups of the district are popular. Collected honey is a commodity of sale. Boxes from reeds and bamboo are made in DANPUR, etc. Wool is available in plenty.

The district exports chillies, ginger, turmeric, tea and forest produce in increasing quantities, and imports grain, cloth, sugar and salt. There is a good trade in borax, salt and wool with Tibet, merchants from that place bring these articles and take manufactured goods in exchange.

The centres of trade are ALMORA (a health resort), CHAMPAWAT, PITHORAGARH and RANIKHET.

There is an extensive bus traffic between Bijnath, Almora, Ranikhet, and Kathgodam, which has a considerable trade and is a distributing centre for the products of the plains and of imported goods.

Fairs:—Chief fairs in this district are the Jaul Jibi mela in Tahsil, Pithoragarh which is held about the middle of November. At this fair the Bhutias sell the articles brought from Tibet. It is also a market for copper vessels, ponies, pitaras and blankets, etc. The Uttaraini fair is held at Bageswar about the middle of January. The articles sold are practically the same as at Jaul Jibi. The third important fair

Catechu Making is quite paying. Read **MANUFACTURE OF CATECHU**.

Price Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

is at Thal, Tahsil Pithoragarh, about the beginning of April The articles sold are practically the same as at Jaul Jibi and Bageswar

AZAMGARH DISTRICT

The AZAMGARH district lies in the Gorakhpur division with an area of 2,147 sq miles and a population of 1,571,577. The local dialect is called Bhojpuri. Average rainfall is about 41"

The main crops grown are rice, barley, peas, kodan, wheat, arhar, gram, maize and marua Sugarcane, however, is the valuable crop of the district, besides indigo and poppy which are also grown The district produces about 65,000 mds of sunn fibre

Sugar refining and weaving of cotton cloth are the chief industries MABARAKPUR, MAU and KAPAGANJ are the chief centres of weaving industry The pottery of NIZAMABAD is very famous and is despatched to other towns and cities Tatti weaving is practised on a wide scale, the goods being sent to Calcutta or Cawnpore

The main imports are grain, piecegoods, yarn cotton, silk, tobacco, salt, metals, hardware and drugs The exports are sugar, cloth, oil-seeds, indigo, saltpetre, etc

AZAMGARH town (population 18,046), is situated on the railway line on the loop of the Tons The goods are carried by railways chiefly, there being only a very small boat traffic

Fairs:—A list of agricultural industrial and cattle fairs held in the district are —In PHUSPUR Tahsil Govind Saheb Fair at Amda between the border of Azamgarh and Fyzabad about the middle of December each year where camels and horses are sold in large number, in MOHAMMAD Tahsil, Deolas fair at Deokali Deolas during Kartik Sudi Chhatha each year where horses, cows and buffaloes are sold in LALGANJ Tahsil, cattle fair at Chauri in Aghan each year

BAHRAICH DISTRICT.

The BAHRAICH district lies in the Fyzabad division covering an area of 2,654 sq miles and has a population of 1,240,569. Hindi and Urdu are the languages spoken here Rainfall averages 46".

The crops grown are wheat, rice and maize, gram, bailey, peas, masur, poppy, oil seeds, etc

Coarse cotton cloth is woven here for local use Felt making, small rugs and blanket making are the other industries besides wood carving Bellmetal wares of this district are famous

The chief exports are grain, forest product and oil seeds, while the imports consist of metals, piecegoods, salt and sugar Timber is floated down the river, the chief markets being BAHRAICH, NAUPARA PAYAGPUR.

BAHRAICH (population 60,665 urban) is a trade centre with increasing traffic with Nepal Grain, oil seeds and spices come here from Nepal and piecegoods, metal, salt, tobacco enter Nepal through the Railway Station of NEPALGANJ

Fairs.—Important fairs are —In TAHSIL BAHRAICH, Jaisinghapur, July, Asarh Purnamashi, Sita Dohar, November, Kartik Purnima, Bahadurpur ghat, Nov, Kartik Purnima, Mela Dargah Syed Salar Masud Ghazi, Bahraich, May 1st Sunday of each Jeth, for 10 days

In TAHSIL QAISARGANJ Ram Leela Dasehra Qaisarganj, Oct Kunwar Sudi Astimi for 10 days; Barnapur, Kunwar Purnamashi, for 3 days, Ghoor at Ghoharipur, Asarh Sudi Purnima for 15 days

In TAHSIL NANPARA Guptnath, Kuar Sudi Purnamashi, Takia Shah Suja, Kuar Sudi Purnamashi, 3 days, Baba Munda Shah,

BALLIA DISTRICT

The BALLIA district has an area of 1,218 sq miles and a population of 1,062,837 Hindi is the language of the district. The average rainfall is about 42"

The chief crops on the alluvial plain consist of kodan, rice, barley, peas, gram, maize, arhar, masui and wheat Sugar cane is a valuable crop

Sugar is refined by the indigenous process and coarse cotton cloth is woven Palanquins are made here Gagra, stands for teapots and Angethis from imported sheet iron are made in the BALLIA town and neighbouring villages Ornamental brass wares are manufactured in village TURTIPTAR and imported to other districts Scented oils, attar, rose and kewara water are manufactured at SIKANDARPUR about 10 miles from BALLIA town and exported chiefly to Calcutta by steamer Ornamental work in thread on cotton flannel for manufacturing horse and elephant trappings and palanquin purdahs are made in villages BAIRIA and TEKADEORI etc and in DADARI and SONEPUR fairs

The main imports are ghee, salt, oilseeds, small gram, wheat, salt-petre, sodium carbonate, sugai, masui pulse, scented oils and rose and keora water

The exports are rice, spices, salt and metals Boat traffic over the Ganges and the Gogra is still prevalent

BALLIA (population 23,559) is a station of B N W Railway

Fairs:—Shankarpur, Ram Naumi, Chait Sudi Naumi, Iron, brass and earthenwares, Sonadih, Ram Naumi, Chait Sudi Naumi, Iron, brass and earthenwares, Unchera, Ram Naumi, Chait Sudi Naumi, Iron, brass and wooden boxes, Manior, Nauka Brahmi Mela, Chait Sudi Naumi, Iron, brass and cattle fair, and Ektiya, Baisakh Sudi 3, Iron, brass and earthenwares and cloths, Pachewa, "Pachewa Ke Mela" Baisakh Sudi 9, Cattle are sold here; Maniar, Nauk Brahm, Kuar Sudi 10, Iron, brasswares and cattle, Ballia, Dadri Fair, Kartik Sudi Purnima, Cattle and horse market, Iron, brass, earthenwares, cloths, blankets, steel, wooden boxes, carpets, stationery and other articles, Ram Ganj, Shudist Baba Mela, Agahan Sudi 5, Cattle and horse market, Dekuh, Sheoratri, Fagun Badī 13, Iron, brass and earthenwares, Asega Sheoratri, Fagun Badī 13, Iron, brass and earthenwares, Karon, Sheoratri, Fagun Badī 13, Iron, brass and earthenwares, Lakhneshar Dih, Sheoratri, Fagun Badī 13, Iron, brass and earthenwares

BANDA DISTRICT.

The BANDA district covers an area over 2,800 sq miles It is inhabited by a population of 722,956 (provisional figure), who speak Urdu and a Hindustani dialect The average rainfall is about 40"

A very fine breed of cattle known as Kenwariya is found in the district This breed is very popular for light draught on the road and for cultivation

Chief crops are jowar, wheat, pulses rice and sesamum Barley, bajra, cotton are also cultivated

Learn all sorts of office works by reading CLERK'S MANUAL Re. 1/4.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The industries consist of coarse cotton weaving, cotton prints, cooking vessels and rough carpets

The main exports are gram, wheat, millet, in favourable years, besides cotton, tendu leaves for making biris are also exported from the Manikpur forest area. The imports are rice, sugar, salt, tobacco, metals, etc

BANDA town (provisional figure of population 26,570) is the headquarters of both the tahsil and the district of the same name and stands on the Manikpur Banda Section of the G I P Rly. It is a municipality and contains many temples and mosques

KARWI, a tahsil and a Railway Station on the G I P line, lies on the bank of the river Poisan. Miscellaneous trades and professions are pursued here

CHITRAKUT, place of pilgrimage for Hindus, is only 3 miles off from Karwi. Conveyances are easily available

Other centres of trade are RAJAPUR and ATARRA

The G I P line from Jhansi and Jubbulpore branch line serve the district well

BARABANKI DISTRICT.

The BARABANKI district occupies an area of 1,760 sq miles and is inhabited by a Hindustani-speaking population numbering 1,163,290. Average rainfall is about 40"

The products of the district are rice, wheat, gram, which are largely grown. Pulses, kodan, millets, barley, peas, masur, and maize are also cultivated

The industries are cotton and rug weaving at NAWABGANJ, ZAIDPUR BURHWAL and FATEHPUR. Local cotton prints are famous. There is a sugar mill at BAHARAMGHAT. Furniture and cooking utensils are made. Wooden sandals of various qualities are made here. Hewett Weaving School, Nawabganj and local Jolahas of ZAIDPUR town carry out cotton weaving work. Carpet and rug weaving is done by Jolahas at Tahsil Fatehpur. There is a Leather Working School at Rudauli where leather goods are made. Mason Industrial Co-operative Federation, at Bara Banki, deals in goods prepared by Indian Industries

The district exports grain, raw sugar, hides and cloth. The main imports are piecegoods and yarn, metals, hardware and sugar by rail. Timber passes through BAHARAMGHAT

The important commercial centre of the district is NAWABGANJ. The district is well served by a loopline of the E I R and the B & N W R which pass through it

The main Agricultural, Industrial and Cattle fair held in the District is Dewa Fair and Exhibition. It is held at Dewa town, 8 miles from Barabanki, at Bera Banki—Fatehpur pucca road. This fair is held in Kartik every year which corresponds to October. This fair lasts for seven days of which the main day is KARTWA CHAULH (4th day of Kartik)

BAREILLY DISTRICT

The BAREILLY district has an area of over 1,164 sq miles, and a population of 1,072,379, who speak Hindustani. Average rainfall is 44"

The agricultural products available in the local market are chiefly wheat and rice. Other cultivated crops are gram, bajra, maize, sugarcane, poppy, oil seeds, cotton and sunn hemp

Learn all sorts of office works by reading CLERK'S MANUAL. Re 1/4.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The main industry of the district is the refining of sugar by indigenous methods. Refined sugar is generally exported to the Indian States like Jaipur, Jodhpur and Udaipur which still give preference to Indian sugar over foreign sugar on religious grounds. Among the other industries are manufacture of khaddar, furniture, durries, pileless carpet, etc. Khaddar is not manufactured in the town, but is brought from a neighbouring village called FATEHGANJ.

Furniture worth lakhs of rupees is supplied to the whole of the province as well as to the Punjab. The chief woods employed in furniture are shisham, tun and kodan, the last one being most used in building materials. Bareilly-made durries are sent even to such durri manufacturing towns as Agra, Cawnpore and Ambala. They are cheap and durable. Match factory and catechu factory have been lately started in the district.

IZATNAGAR—A workshop of the Railway department of the R & K. Ry works is located here. The main items of export consist of gram, pulse, sugar, hides, hemp and oilseeds. The imports are generally salt, piecegoods, metals, stone and lime.

FATEHGANJ—Khaddar is exported to Ambala, Ludhiana, Hoshiarpur and even to Amritsar. The cloth is cheap and durable.

BAREILLY City (population 144,031), the administrative headquarters of the district is noted for its furniture made both of bamboo and ordinary timber from the forests of Kumaun and Pilibhit. Katha and catechu are manufactured here on a large scale. A match factory is also in operation.

Leather articles including boots and shoes are generally imported from Agra and Cawnpore, though slippers are imported from Calcutta. Agra durries are imported, but durries of inferior quality are also imported from Ludhiana. Foreign piece-goods are imported from Delhi, Cawnpore and Farrukhabad markets. Swadeshi piece-goods are generally imported direct from the mills of Bombay, Nagpur and Beawar.

CHETTURBUCKGANJ contains flour mills, rice mills and oil mills. A big factory is situated at a distance of three miles from Bareilly for the purpose of manufacturing bobbins for the textile industry. One important industry, having possibilities of development, is that of calico-printing. Manufacture of rosin and turpentine is conducted on a large scale in this town.

AONLA, is one of the most leading business towns in the district with a considerable traffic especially in grain. It is connected with Budaun by a metalled road.

BASTI DISTRICT.

The BASTI district is 2,752 sq miles in area and its population is 2,078,024. Language spoken is Hindi of the Bhojpuri dialect. The average rainfall is about 48".

Chief crops are rice, pulses, wheat and barley, about 1½ million acres being under these crops. Gram, sugarcane and maize are also grown and on a fairly big scale.

Wheat and poppy are best grown in the lighter loams of the Rapti, and the Gora Doab grows rice, barley, kodan, peas, masur, gram and arhar. The district is exceptionally poor in industrial pursuits, sugar refining on a small scale being the only industry.

Agricultural implements, coarse cotton cloth, utensils, etc., for local use are also made here. Chintz is made on a small scale at **BAHA-DURPUR** and **NAGAR**.

The trade of the district is mainly in agricultural produce. The main exports from the district are rice, sugar, saltpetre, oilseeds.

THE RETAIL TRADE—an exposition of Methods that build up Retail Trade. Price Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

and hides. The imports are cloth, metals, salt, cotton and tobacco. The through trade with Nepal is also of importance. Iron, drugs, spices, ghee, fibres, and rice come from Nepal and raw sugar, salt, hardware, tobacco, coconuts, cotton yarn and cloth are sent to Nepal. USKA and MEHUDAWAL are chief marts in the north and carry on trade with Nepal, and the commerce of the south is partly over the Gora and also by railway to a large extent. The trade connections are generally with Cawnpore and Calcutta.

BASTI has a small trade. It is the headquarters of the district and lies on the B & N W Rly on the Gorakhpur-Fyzabad Road.

BENARES DISTRICT.

BENARES occupies an area of 1,008 sq miles and is inhabited by a population of 1,016,378. Urdu and Hindi are the languages of the district. The average annual rainfall is about 40".

Weaving of coarse cotton cloth is the most important industry in the district. Wooden lacquered toys are made. Oil seeds are the most important article of export. Stone and fuel are sent from Mirzapur by the river.

BENARES (population 702,325) is one of the biggest towns of India. It is the place of pilgrimage of the Hindus of the whole of India. It is also an important commercial centre in the United Provinces. The place is noted for brass work, silk cloth and jewellery. It is the seat of the famous Benares Hindu University.

The important articles of trade are gram, wheat, castor seed, linseed, mustard seed, oil cake, sugar, arhar, ghee, besides mung, potato, vegetables and dried fruits, blankets, blanket-sheets, many sorts of silk cloth, chaddars and curios, utensils, beads of rudrakha, toys of wood, earthen and brassware, surti, zarda, tobacco, snuff, hubble bubble, country made attar and essential oils, marble utensils, images of gods and goddesses, jewellery carved out of stones, etc., are largely available here. There are several oil mills of which the castor-oil mills produce good cakes, business in which is brisk at the beginning of the season.

Vegetables and fishes are very cheap here. The vegetables include potatoes, cauliflower, lemon, guava (of big size), orange, pear, apple, grape, pomegranate, mangoes, lichees, etc.

CHANDAULI TAHSIL occupies an area of 510 sq miles and is inhabited by a population 3,14,053. Sugar-cane pressing machines are manufactured at ALINAGAR. Rice is the only important article of export. The imports are salt, piecegoods and metal. Stone is generally carried down from Mirzapur by the river. MUGHAISARAI (population 7,588) is the only biggest habitation in this Tahsil. The important article of trade are rice, gram, wheat and linseed. Mangoes and lemons are important fruits locally produced.

Fairs.—Important cattle fairs of Chandauli Tahsil are Paura, Pargana, Barhwal, Basaikh Sudi Teras; Sarai Jagdish, Pargana Maghwar, Chait, Sudi Naumi. A cattle fair is held at Rohaman Parao near Balapur R S, in the Benares Tahsil, during Aghanbadi for 15 days.

BIJNOR DISTRICT.

The BIJNOR district occupies an area of 1,867 sq miles. Its population is 835,469 who generally speak Hindustani. The annual average rainfall is about 45".

The principal crops grown in the district are rice, wheat, barley, bajra, grain, sugarcane, cotton and oil seeds.

Raw and refined sugar making is the chief industry and these are exported, coarse cotton cloth and finer varieties are woven. Carved

THE RETAIL TRADE—an exposition of Methods that build up Retail Trade. Price Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

ebony, and ropes are made at NAGINA and iron work at DHAMPUR. There are a number of glass factories at NAGINA. Manufacture of pocket-knives, papier mache and Brahmanical threads are other industries of the district. A kind of mat is woven in village, MOHAMMADPUR DEOMAL, which is a village industry.

Chief exports are sugar, forest produce, rape, and papier mache. Gram and grains, salt, piece-goods and metals are imported.

BIJNOR TOWN (population 23,520) is situated on a undulating ground not far off the Ganges. The trade consists chiefly of sugar and pocket knives and Brahmanical threads (which enjoy local reputation). There has been established one sugar mill i.e., (Seth Shiva Prasad Banarsi Das Sugar Mill, Bijnor). Sugar and molasses are exported to other districts from this place.

NAJIBABAD (population 28,473) —Brassware, coarse cotton cloth, blankets, Indian shoes, and smoking hookahs constitute the chief industries of the town. It exports bamboo, sugarcane, sugar shira, potatoes, gur and some hill produce. The imports consist chiefly of wheat, wax, honey, resin, gram and piecegoods.

KIRATPUR is a centre of trade with large dealings in gur, shira, rose, gulkund, iron lock and padlocks.

NAGINA (population 25,427) —The local industry consists of ebony combs and pen-stands, wooden and ebony walking sticks, cash boxes, glass bottles, cotton cloth, upholstery, ebony caskets, dressing tables and shoe making. Ebony carving industry of Nagina is at least two centuries old. The goods are marketed at Delhi, Allahabad and Simla.

DHAMPUR —There is good trade in gur, sugar and mung.

BALWALI (in Bijnor tahsil) —Glass manufacture is conducted here.

In CHANDPUR town rough khaddar is prepared by handloom by Julahas and exported to Delhi. Raw sugar is also prepared and is exported to other districts.

HALDWAR —Wooden work is carried on in this town. Fancy articles of wood such as toys, inkstand and many other articles are prepared here.

Fairs:—During the month of Bhadon Ram Naumi fair is held at Bedar Baknatpur, Pargana Nagina 4 miles from Bundki Station (E. I. Ry.) in which mules are sold. A fair is held in September at Haldwar.

In DARANAGAR village situated on the banks of the Ganges Kartaki Ganges fair is held annually in November with a good gathering. In the month of August a fair called "Chhari" is held where a large number of people, mostly chamars above five thousand gather every year.

In MANDAWAR town a fair is held in November at Rooli and Bala wali on the bank of the Ganges.

BUDAUN DISTRICT.

The district of BUDAUN occupies an area of 2,010 square miles. It is inhabited by a population of 1,010,180 who speak Urdu and Hindi. The average rainfall is about 36".

The chief crops are wheat and jowar, barley, bajra, maize, gram and rice are also grown. Sugarcane is the profitable crops. Groundnut cultivation is expanding. About four hundred electric tube wells have been constructed for irrigation purposes.

Sugar refinery is the chief industry, cotton weaving, carpentry, brasswork are also done. BILSI was once a famous mart. The exports are grain and sugar and the imports are cloth, salt and metals.

Full particulars about making and recharging batteries are available in **MANUFACTURE OF BATTERIES**. Re. 1/12. Industry Book Dept., Cal.

BUDAUN (population 45,455) —Budaun town with a municipality is a very important business centre. Situated on the railway line it has some advantages over other neighbouring towns. Papier mache penboxes made here have made a name in the market.

UJHANI is an important grain and cotton market exporting tobacco, pulses, bailey, cotton and cotton seed, linseed, castor seed, and rape seed. A cotton mill is in operation here.

SAHASWAN (population 17,644) is a trade centre in the district.

Fair:—The kakora fair held in November, attracts about 3 lacs of people and is the most important fair in this side.

In village Kunwan Danda Qasimpur cattle fair is held during the months of Aghan (December) and Jaith (May). The fair lasts for a week. Bullocks, cows and buffaloes are sold there. The gathering of cattle is approximately 10,000 every season. The fair is held in the 2nd week of both Aghan and Jaith.

BULANDSHAHR DISTRICT.

The BULANDSHAHR district has an area of 1,914 square miles and a population of 1,136,885. Hindustani is the language spoken. The annual average rainfall is about 26" but 40" is not uncommon.

The chief food crops grown are wheat, gram, maize, barley, jowar and bajra. Cotton and sugarcane are profitable crops in the district.

There are several factories where crude saltpetre is produced. There are several cotton ginning and pressing factories. Calico printing of JAHANGIRABAD muslin of SHIKANDRABAD, pottery of KHURJA, the rugs of JEVAR and wood carving of BULANDSHAHR and SHIKARPUR are important industries of the district. Cotton cloth is woven and glass of a coarser variety is also produced.

Grain and cotton are the main exports and about 40,000 tons or more of cotton are sent away. The imports are metals, piecegoods and salt.

SIKANDRABAD TEHSIL (population 2,47,885)—There is one cotton ginning factory at SIKANDRABAD and one iron factory at DANKAUR Railway Station, where sugar cane crushers, sugar centrifugal machine and grinding mills etc., are manufactured. SIKANDRABAD proper is famous for muslin and turbans and no other important industry is carried out in this tehsil and also there are no possibilities of the same for the present. Desi shoe making business is also carried out. Grain, cotton and gur are the main exports, about 1,34,000 mds gur, 92,000 mds grain and 24,700 mds cotton were exported from this tehsil during 1937-38.

The following are the market places with weekly hats — JUGHANA, DADRI, JARCHA, GORUPUR, JHAJHAR, BILASPUR, DANKAUR, SIKANDRABAD, SURAJPUR and BIDPURA. In all these markets generally the articles of daily use, i.e., grain, gur, vegetables, bisakhana articles, leather and desi shoes, etc., are sold. There is a ghee union named "The Central Co-operative Ghee Union, Limited," at DADRI.

ANUPSHAHR is known for cotton, indigo, sugarcane and sugar, and the latter commodity is exported in considerable quantities to Cawnpore and Bulandshahr. It is a depot for the import of timber and bamboos down the Ganges.

DEBAI, 26 miles from Aligarh, is a market for cotton and wheat, and there are ginning and pressing factories in the town. Local trade is carried on with numerous small towns where markets are held once or twice a week. It is the largest centre of trade in bamboos and timber.

Full particulars about making and recharging batteries are available in **MANUFACTURE OF BATTERIES**, Re. 1/12. Industry Book Dept., Cal.

KHURJA (population 31,279) —The chief articles of trade are gram, wheat, linseed, mustard, kalai, masuri, arhar, castor seed, janera. Of these, mustard and ghee are of excellent quality and are in large demand in Calcutta and elsewhere. They are obtainable here in large quantities. Cumin seed and ajawan are imported here by carts and sent away by rail. The articles are generally sent to Patna, Bhagalpur, and Monghyr. Ghee is an important article of trade here. The locally made potteries are much appreciated and have lately found favour even in Canada. Khurja is a big centre for bamboos and timber.

JEWAR is famous for carpets and durries. Other important trade centres are **BULANDSHAHR** (population 24,989) and **SIKANDRABAD** (population 18,974).

The Grand Trunk Road from Calcutta to Delhi passes through the district which is served by a network of railway lines (E. I. Ry.).

Fairs —In **ANUPSHAHR TAHSIL** —Kartik Ashnan fair is held at **ANUPSHAHR** and **RAJGHAT** in the third week of November. (Kartik Puranmashi). A religious fair is held at **KARANBAS** called **Dashera Jaith** in June. In **SIKANDRABAD TAHSIL** —Sikandrabad, Holi, March, Ram Naumi, April, Barahi, April, Tiji, August, Raksha Bandhan, August, Baldeo Chat, August, Ram Lila, October, Barahi, October. In **MOHANA** —Budha Babu, February, May and September, In **Gangol** Baldeo Bhat, August, In **Vair Badshahpur**, Budha Babu, February and May, In **Kakor**, Barahi, April and October. In **Surpehra**, Budha Babu, February and May, In **Bahabas**, Budha Babu, February and May, In **Dujana**, Telhandi, March, in **Kot**, Budha Babu, February and May, In **Dankaur**, Janamastmi, September, Holi March, Raksha Bandhab, August, Mohanam, March, In **Bilaspur** —Budha Babu, February and May, In **Jhajpur**, Budha Babu, May, In **Kasua**, Dasehra Jeth, June, In **Ghat Aurangpur**, Dashera Jetha, June, and **Kartik Ashnan** November, In **Surajpur**, Barahi, April. In **PARGANA KHURJA** —Khurja, Ram Lila, Kunwar Badi Ikashi to **Puran Mashi**, and **Sil Satam**, Chit Badi Satam, Achhegakhurd, Budha Babu, Magh Bisakh, **Kamalpur Haisar** and **Mirpur**, Budha Babu, Sudi Dough. In **P. PAHASUE**, Ramhla Kunwar Badi Ikashi to **Puran Mashi**, and **Budha Babu**, Magh Baisakh, Sudi Dough. In **P. JEWAR** —Rampur, Kadki Ashnan, Katak Sudi **Puran Mashi** and **Dasarea**, Gacith Sudi **Dashmi**, **Jahangirpur**, Budha Babu, Dough Sudi, Baisakh and Magh **Jewar Baldevchat**, **Bhadon Sudi Bhat**, and **Urs Shakar Baras** on **Shaharat**, **Rahupura**, **Dasara**, **Kunwar Sudi Dashmi**. District Exhibition fair is held every year in **Bulandshahr** in February.

CAWNPORE DISTRICT.

The **CAWNPORE** district stretches across an area of 23,70 sq miles and is inhabited by a population of 1,212,253 who speak Urdu and Hindi. The annual average rainfall is about 34".

CAWNPORE (population 243,757) —It is a junction between **E I R**, **B B & C I**, **B & N W** and **G I P**. Railways and has become the great collecting and distributing centre for the north of India. Cloth comes from the **Doab** and **Bundelkhand** intended for **Oudh**, and elsewhere, cotton from **Calcutta** and **Oudh**, wheat and other grains from **Calcutta**, iron from **Calcutta** and **Central India** for **Oudh** and the **Doab**, salt from **Calcutta** and **Rajputana** for **Oudh** and **Bundelkhand**, sugar from **Benares**, **Bihaar** and **Oudh** for **Bundelkhand** and the **Punjab**; and pulseseeds from **Calcutta** and **Bengal**. **Cawnpore** has thus become the great centre of exchange for **Northern India**. **CAWNPORE** city is the most important manufacturing centre in **U P**. Cotton pressing and ginning are important industries here. These are situated in the great

Principles of construction of storage batteries and their care are dealt in Manufacture of BATTERIES. Re. 1/12. Industry Book Dept., Calcutta.

cotton centre of Couperganj. Other factories in Cawnpore include sugar mills, where rum is also manufactured, jute mills, flour mills, brush and tin box making works, iron foundries, tape weaving, cabinet-ware and chemical works. There are many cotton mills and oil mills, the products of which are distributed throughout the different parts of India. Tanning and manufacture of leather is an important industry here. Cawnpore is the centre of sugar trade of the interior. There are also many workshops. There is a Government Harness and Saddlery Factory and the Army Boot and Equipment Factory. Tent making is a very important industry in Cawnpore and is carried on by many manufacturers as well as by the large concerns. Woollen fabrics of all description are produced in the woollen mills. The wool for them is obtained mainly from the Punjab and Tibet, while a certain amount is imported from Australia.

The agricultural products obtainable here include arhar, masuri, khesari, pulses. Blankets, hides and skins and leather goods from the leather factories are famous. Refined sugar, cotton seed, jowar, castor, ghee, oil, til, mung, kalai and oil-cakes are sufficiently available and are exported in large quantities. Oil is sent to Bengal and oil cakes go to the Punjab. Kalai and mung are of good quality. The pulses are split on a large scale and made into dals which are sent to Bengal. There are large factories which send their products to England. Bristles are also obtainable in large quantities and constitute a profitable business with little experience. The major portion of these bristles are sent to Europe but several factories produce brushes. Hides and skins are available in large quantities.

KOCH.—It is a centre of trade for soft ghee which can be had here in enormous quantities. Grains and seeds are also obtainable here but is not a lucrative business. The climate of the place is good.

DEHRA DUN DISTRICT.

The DEHRA DUN district occupies an area of 1,202 sq miles and contains a population of 266,244. Hindustani and Pahari are the languages spoken. The average rainfall varies. Dehra-Dun 90", Rاجpur 120", Mussoorie 95", Chakratata 86".

The district is covered with forest. Reserve forests cover an area of 420 sq miles. The timber available are sal, haldu, amla, bahera, sain and jamun, bamboos are not rare, acacia catechu and shisham are seen. Sabal grass for paper making is also available in plenty. Tea is grown extensively in this district.

Lead and sulphur mines are found on the Tous river and in the limestone below Mussoorie. Lime and gypsum are found.

Cotton-weaving is carried on for local consumption. There is a sugar factory at DOIWALA.

The chief exports are bamboos, timbers, lime, charcoal, rice and tea and imports are hardware, cotton cloth, blankets, salt, sugar, grain, tobacco and spices. The hill products are rice, ginger, turmeric, red-pepper, honey, wax, lac, gum, resin, etc. all of which are available sufficiently. DEHRA DUN exports large quantities of fruits.

DEHRA DUN (population 57,183) is the head quarters of the forest department of the Government of India. The Government Forest College is situated here.

MUSSOORIE (population 5,935) is an important hill station and sanatorium in the Dehra Dun district. It is an important educational centre for European and Anglo-Indian boys, containing some 15 schools for both boys and girls.

DEHRA, LANDOUR and MUSSOORIE are famous health resorts and are of growing importance to traders.

Principles of construction of storage batteries and their care are dealt in Manufacture of BATTERIES. Re. 1/12. Industry Book Dept., Calcutta.

There are following metalled roads—Dehra Dun to Saharanpur, Dehra Dun to Chakrata, Dehra Dun to Mussoorie, Dehra Dun to Hardwar, Hardwar to Rikhiwesh, Chakrata to Sahnanpur, Kalso to Harharpur, etc

Fairs—Important cattle fairs are—Bhaniawala, Nalapani, Nagai Religious fair at Gang Bhewa and Dehra-Dun

ETAH DISTRICT

The ETAH district occupies an area of 1,718 sq miles and its population is 987,003 Urdu and Hindi are the languages of the district The average annual rainfall is about 30"

Trees and groves are scarce, but reeds are found in plenty in the Terai and used for thatching and rope making Munj grows abundantly in the Ganges Khadiars of Kasganj and Aliganj tahsils of the district

The chief industries of the district are cotton-weaving, sugar refining, and preparation of saltpetre and sulphate of soda There is a sugar factory named Neoh Sugar Factory, at MANPUR NAGARIA in tahsil Kasganj

The chief exports are wheat, cotton, barley, pulses, millet, sugar, saltpetre, etc The main imports are piecegoods, metals, salt, which are carried by railway but a great deal of trade passes by road to the adjoining districts

The chief trading centres are KASGANJ (population 28,465), JALESAR (population 12,142), SORON (population 12,886) noted as a place of pilgrimage, and GAYDUNDWARA (population 8,519)

ETAH town (population 15,147) is a trade centre and is reached via Aligarh, Kasganj, Shikohabad

ALIGANJ is a big centre for collecting grains, seeds, cotton and gur, which it sends to THANA-DARYAGANJ station on Cawnpore-Achmra Railway about 9 miles away

Fairs—Maragshri fair at Saron in Kasganj held in December, Retashah fair at Qadirganj held in December

ETAWAH DISTRICT.

The ETAWAH district extends over an area of 1,061 sq miles and is inhabited by a population of 746,005 who speak Hindi in general and Urdu in rare

The acreage under main crops in 1940-41 is as below—Rice 30,076, wheat 68,941, wheat and gram 50,598, wheat and barley 10,437, juar and juar arhar 54,929, bajra and bajra arhar 159,010, maize 57,778, oilseeds 3,972, sugarcane 16,736, cotton and cotton arhar 4,946, fruits and vegetables 2,059

Cotton cloth is woven in many of the villages, JASWANTNAGAR is famous for cloth There is considerable trade in ghee which comes generally from the adjoining villages of Gwalior State and Agra District and is sent to Calcutta, Agra and other important centres The imports are mainly piecegoods, metals, drugs, spices and kerosene oil

ETAWAH (population 46,948)—It is a commercial centre Its importance is waning on account of the appearance of a good market at BHARTHUA 13 miles east of it, just on the E I R. main line The articles of trade consist of grains, wheat, linseed and mustard seed, kalan, ghee, oil cakes, masur, urhar, castor seed, etc, are obtainable in large quantities The seeds and grains of this place have little admixture and ghee of this place is very good Goods are imported from the interior by carts and are sent away by rail Ghee Grading Stations have been opened for scientifically testing ghee Electric Power is available in the town. Horn frame industry and jute and hand woven cloth industry have been developed of late A

Methods of Imports and Exports are discussed in full in TRADER'S MANUAL, Re 1/4. Industry Book Dept., Shambazar, Calcutta.

technical school has been opened at Manikpur which is very close to Etawah

BHARTHUA—It has sprung up recently from the remnants of Etawah, Aheipuri and Lakhua Towns. It is now a big commercial centre for grains. Wheat, gram, ghee, oils and arhar are the chief exports. It has a High School and an oil mill. Goods are brought here by carts from the interior and sent away by rail.

AURAIYA—This place is well known for the soft ghee, adulteration has decreased on account of its scientific testing but vegetable ghee has developed at all the places in the district and its adulteration is being done all through out. The grain mandi has developed. Grains from the interior as far as Jalaun district by carts pour in large quantities. Exports in gram, oilseed, wheat and ghee are done and sent away by rail from Phaphund station 12½ miles off it. Thus Dibiapur village on the Phaphund station has developed. It has a cotton pressing mill and a Rasayansala which supplies medicine for the district and outside.

Fairs.—Important cattle fairs in the district are Etawah, Exhibition Fair Nov., Achelda, December and January, Doba, Dec.; Ajitmal, June; Bhikpur, Dec.

FARRUKHABAD DISTRICT.

The FARRUKHABAD district has an area of 1,719 sq miles and a population of 877,392. Hindi and Urdu are the languages. The average rainfall amounts to about 34".

Principal crops are wheat, barley, jowar, baira, maize, gram, pulses, cotton, tobacco, fruits and vegetables. Potatoes are also grown.

The district is celebrated for cloth printing which has great demand among the European. Gold lace, brass and copper vessels are also made here. Tents are made at the central jail. There are several flour mills.

The chief exports are tobacco, potato, fruit, bhang, saltpetre, cotton prints, scent, brass and copper vessels, and the imports are grain, piecegoods, salt, timber and metals. It has considerable trade with Central India and Rajputana.

FARRUKHABAD (population 56,503) has a large trade in potato, tobacco and mango. Domestic brass and copper utensils are made extensively.

KANAUI (population 20,360) —There are several flower gardens and the place is noted for its rose water, otto, rue, scented oils, pickles, chutneys and jellies. The place is also noted for calico printed cloths with nice colours. These things are exported to different parts of India. The place is healthy.

Fairs.—Important cattle fairs in the district are. Singhirampur Jeth Sudr 10th, 5 days and Kartik Sudr, 5 days, Dhai Ghat, Jeth Sudr 10th and Kartik Sudr 15th one week each (both horse and cattle), Kampl Jeth Sudr 10th, 3 days and Kartik Sudr 15th, 3 days, Ahrawa Raja Rampur Magh Sudr 5th, 8 days, Rasulpur, middle of January, 15 days (both horses and cattle), Tirwa, Baisakh Sudr 3rd, 1 day.

FATEHPUR DISTRICT.

The FATEHPUR district has an area of 1,585 sq miles and a population of 688,789. Urdu and Hindi are languages. Average rainfall amounts to about 34".

The crops grown are rice, wheat, barley, jowar, gram, pulses. An important religious fair takes place at SHIVARAJPUR on the Ganges.

The district is celebrated for ornamental whips made at FATEHPUR (population 18,947) and for artistic bed covers, curtains and

Methods of Imports and Exports are discussed in full in **TRADER'S MANUAL**, Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

awnings of JAFRAGANJ Playing cards are made at KHAJUHA. Manufacture of tat patties is carried on in villages round BINDKI

EINDI is the commercial centre of the district, the exports being grain, cotton, hides, and ghee and the imports consisting of piecegoods, metal, salt and oils. Markets are held weekly in many villages including KISHANPUR (Ekdala). Trade is generally carried by rail but road traffic with the surrounding districts also exists.

Fair.—An important fair held in the district is —Sheorajpur, Khajuhia S D, Kartiki Fair, November 7 to 13

FYZABAD DISTRICT.

The FYZABAD district occupies an area of 1,689 sq miles and contains a population of 1,319,425 who speak Hindi and Urdu. The average rainfall is about 42".

The crops grown are rice, wheat, barley, gram, pulses and sugar.

Cotton weaving is the chief industry. TANDA (population 26,128), AKBARPUR and JALALPUR are the noted places for muslins. Dyeing and printing are also carried on.

The chief exports are rice, sugar, grain, cloth, oilseeds, hides, tobacco and the imports are piecegoods, metal, salt and kerosene oil. GOSAINGANJ and AKBARPUR are the important trade centres.

FYZABAD town, the Sadar Station, is an important centre for sugar refining and has a considerable trade in both agricultural products and imported goods.

AJODHYA is a place of pilgrimage during Ram Navami, Kartiki Purnamashi and Sawan Jhula. Population of Fyzabad and Ajodhya (Municipality) is 55,215.

SOHWAL is a railway station on E I Ry about 10 miles west from Fyzabad. The Gogra Pumping Scheme has its origin here and the canal begins from this place. Electricity is also generated here and sent to Fyzabad City.

Traffic is carried both by rail and by boats along the Gogra. The district is served by the loop line of the E I Rly (O R Rly Section) which passes through the district.

Fair.—Gobind Saheb (Ahrauli) 10th to 15th of the first fortnight of Agha, Deorakot, Ramlila, Kunwarbadi, Raipur, Ry Sin Salarpur, Bhadon Shudi 14th day, Jalaluddin Nagar, Bilaighat R S Kartiki Purnamashi, Chait Ram Navami and Baisakh Amavas, Dhemma Ghat, Sohawal R S Kartik Purnamashi and Chait Ram Navami, Sihar, Baragaon R S, Agha Shudi 5th day, Bhadarsa, Bharathkund R S, and of March.

List of cattle fairs and hats —Hats (held from June to October only)—In AKBARPUR Tahsil—Jalalpur, (Tuesday and Saturday), Paikauli, (Sunday and Wednesday), Shahzadpur, (Sunday and Thursday), TANDA Tahsil—Indapur, (Monday and Tuesday), Deoria, (Saturday and Wednesday), In BIKAPUR Tahsil—Chaura Bazar, (Tuesday and Saturday), Barun Bazar, (Tuesday and Friday), Khalilganj Bazar (Tuesday and Friday), In FYZABAD Tahsil—Mohammadpur (Sunday and Wednesday), Suchittaganj, (Monday and Thursday), Goshainganj (Wednesday and Saturday), Bhadarsa, (Monday and Friday), Jalalabad (Tuesday and Friday), Purabazar (Sunday and Wednesday), Tasinpur (Tuesday and Friday).

GARHWAL DISTRICT

The GARHWAL district occupies an area of 5,612 sq miles and contains a population of 6,02,102, who speak Garhwali. Average rainfall is about 50" in the centre of the district, but it rises to about

TRADE TERMS & ABBREVIATIONS : Unique collection alphabetically arranged. As. 6. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

80" on the skirts of the district near the plains, and to 100" immediately below the snowy Himalayas. The cultivated areas are scattered in tracts of forest and waste land.

The crops grown are manduwa, jhangora, wheat, barley, millets, sesamum, peas, pulses, pepper, ginger, turmeric and mustard.

Copper and iron ores are worked at present, and minerals such as lead, arsenic, graphite, sulphur have been found. A little gold is washed from streams in the Bhabar. Hemp is woven into rope and cloth. Leather goods, mats, baskets, bowls of wood and glass bangles are also made here for local use. Copper utensils are made at SRINAGAR. Kukris and daggers are also made. These things are all of poor quality, and none are made commercially.

There is some trade with Tibet, though it is less important than it was formerly. Salt, wool, sheep and goats, ponies and borax are imported in return for grain and cloth which are taken up to Tibet. Silajit, musk and other minor forest produce are exported from the higher regions. The fringe of the district nearest the plains is almost entirely reserved forest, and there are large exports of timber, mostly of sal and shisham. Chir sleepers are floated down the rivers by the Forest Department from the higher areas, but much valuable timber cannot be exported owing to the absence of modern communications.

Only road suitable for wheeled traffic is the Provincial metal road to Lansdowne, an important Cantonment. In the interior of the district merchandise is carried by mules or by coolies. In the higher parts loads are taken over to Tibet on Jobas (half yak and half cow).

Motor road has been completed up to 35 miles from "Kotowara" to a place called "Satpuli." There is another project to construct a cart road from Shrinagar to Rudra Prayag.

GHAZIPUR DISTRICT.

The GHAZIPUR district has an area of 1,302 sq miles and a population of 824,971. Hindi and Urdu are spoken here. The district is well wooded. Average rainfall is about 40.34".

Chief crops are rice, barley, jowar, bajra, gram, wheat, peas, etc. Sugar is refined and coarse cotton cloth is woven for local use.

The main articles of export are sugar, oilseeds, hides, perfumes, opium and grain, the chief imports are piecegoods, yarn, cotton, salt, spices and metals. The traffic is mainly rail-borne and river traffic has decreased considerably. The trading centres are SAIDPUR, ZAMANIA, YUSUPPUR, MOHAMMADABAD, NANDGANJ, KARANDA and GHAZIPUR but the direction of trade is fast shifting its ground.

GHAZIPUR (population 27,498) prepares opium for export and has a Government factory and depot. Ghazipur is noted for its rose gardens and rose water industry.

Fairs.—Important fairs and exhibitions are—Chochakpur, Kartik sudi 11 to 15, Ram Lila, Ghazipur, Kuar Sudi 4 to 10, Ghazimian, 1st Sunday of Jaith, Dhanushyag, Suhwal, Aghan Sudi 5, Tahsil Mohammadabad, Ram Naumi (Karimuddinpur) Chait Sudi 9, Tirmohani (Nagwa alias Hanuman Chankia), Bhadri Sudi 12. Cattle fair (Unchanri) in April for 15 days.

GONDA DISTRICT

The GONDA district has an area of 2,875 sq miles and a population of 1,576,003 who mostly speak Hindi and Urdu. The district is well wooded. The forests contain sal, asua, dhan, khair, mango, mohua, shishu, etc. The annual average rainfall is about 45".

TRADE TERMS & ABBREVIATIONS : Unique collection alphabetically arranged. As. 6. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

468 INDUSTRY YEAR BOOK & DIRECTORY, 1943

Chief crops are Rice, wheat, barley, maize, gram, pulses including peas, masuri and sugarcane

Coarse cloth is woven for local use Small ornamental pottery is made at UTRAULA Cane and basket weaving is an important industry of the district The exports consist of rice, peas, maize, timber and fuel The imports consist of piecegoods, salt, metals and refined sugar

NAWABGANJ and COLONELGANJ are the most important trade centres UTRAULA and TULSIPUR are also big markets The transport is mostly done by railways but small traffic is also carried over the Rapti and Gogra There is also a small trade with Nepal

GONDA (population 17,450) —Situated on the O & T Rly, main line, it is 136 miles from Gorakhpur and 75 miles from Lucknow A branch line from Gonda goes as far as the border of Nepal There are several oil mills and 4 sugar making factories the products of which are sent to different parts of the country and especially to Calcutta The chief manufacture is sugar Brass and copper utensils, are also made here The town has a considerable trade in agricultural products

BALARAMPUR (population 19,311) is another trade centre in the district

GORAKHPUR DISTRICT.

The GORAKHPUR district has an area of 4,528 sq miles and a population of 3,567,561 who speak Hindi and Bhojpuri dialect. The average annual rainfall is about 45"

Mango, mahua, fig, shusham, jack-fruit, black-berry and guava are the principal trees Chief crops are —rice, wheat, barley, maize, gram, pulses, condiments and spices, sugarcane, fodder, tobacco, fruits and vegetables, poppy and Indigo

Agricultural crops are the main items of export, these are rice, barley, wheat, and sugar Timber and oilseeds are sent to Calcutta. The chief imports are salt, metal, kerosene oil, all from Calcutta

Chief among the industries may be mentioned gur making There are a large number of khandsari sugar factories

The trade with Nepal consists of imports of considerable quantities of rice, ghee and spices The trade is carried on at the numerous small towns and markets, BAHRAJ being the most important of them But most of its trade is carried on with Cawnpore, Calcutta, Rajputana, Central India and Eastern Bengal

GORAKHPUR (population with cantonment 75,644) —It is the headquarters of the district Grains and seeds are imported here by rail from Chapra and the surrounding countries There are a large number of sugar factories Split pulses are made from aihar, masur, gram and khesari, and these are sent down to different parts of the country and largely to Calcutta Timber is brought here from the Nepal border and there are several timber godowns There are several saw mills, cabinet making factories and also tanneries Other industries include cloths of mixed cotton and wool

Roads are good and convenient and the O & T Rly. passes through the district Traffic is carried mainly by rail

HAMIRPUR DISTRICT.

The HAMIRPUR district comprises an area of 2,439 sq miles and contains a population of 502,639 Bundelkhandi, a dialect of Hindi, is spoken Average rainfall is about 36"

The crops grown are gram, jowar, wheat, sesame, arhar, kodan, bajra, and barley A little sugarcane is also grown The water supply of the district is defective though it is chiefly an agricultural district

Start a New Industry ! Read MANUFACTURE OF RUBBER GOODS.
Price Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Coarse cloth is woven Silverware is produced The chief characteristic of the district, however, is that it has no central market.

The exports are wheat, jowar, bajra, gram, cotton, ghee and pan (to Calcutta), oilseeds and cloth The imports are sugar, tobacco and spices, salt, rice, piece-goods and metals Trade of the northern portion is mainly carried on by road with Cawnpore and that of the southern portion is chiefly by rail

A cattle market is held twice a week at SUMERPUR.

HARDOI DISTRICT

The HARDOI District comprises an area of 2,317 sq miles and a total population of 1,127,626 Hindi and Urdu are the languages spoken Sadar station is Hardoi

The chief crops are wheat, barley, rice, jowar, maize, bajra, sugarcane, gram, pulses, mangoes, and vegetables SHAHABAD and SANDILA are famous for their graft mangoes There is one important cattle fair which is held twice a year in Tahsil Bilgram at SAMARIA in which cattle are sold in large numbers It is held for 15 days each in Pus and Baisakh months GHAUSGANJ cattle fair is another big fair held in Tahsil Sandila.

Cotton cloth is woven mainly for local use, Curtains and table cloth of SANDILA have become famous Blankets, rope-sacking, strings, etc are made at MALLAWAN Carpentry thrives at SANDI, MALLAWAN and BILGRAM

The chief exports consist of raw sugar, tobacco, hides, cattle, salt-petre, gur, wheat, gram, barley and sarson, the imports are salt, metals, piecegoods, refined sugar and cotton Its trade is chiefly with Bombay, Calcutta, Allahabad, Delhi and Meerut and in gur with Bunderkhand SHAHABAD and MADHOGANJ are two very good gur mandies in the district

The abolition of the branch line of the E I Rly from Balamau to Sandi from 1—9—41 is another change which is of marked importance. Since the discontinuance of this Railway system, south western portion of the district is not now served by a Railway line

The District is well served by E I Rly. Trade is both rail and road borne

JALAUN DISTRICT.

The JALAUN district comprises an area of 1,549 sq miles with a population of 426,022 who speak Hindi and Urdu The rainfall is about 32". Acacia and catechu are the most common timber in the district, which is but sparsely wooded.

The chief crops are wheat, gram, jowar, bajra, linseed.

Cotton dyeing and printing is carried on.

There is cotton gin and press at AIT. The chief exports are grain, oilseeds, cotton, ghee and the bark of babul (for tanning material) which is available in large quantities Imports consist chiefly of piecegoods, hardware, and metals Its trade is mostly with the southern and the western parts of India

The trade centres are KUNCH (population 15,150) KALPI, JALAUN, RAMPURA and MADHOGARH The traffic is both rail and road borne

JAUNPUR DISTRICT

The JAUNPUR district has an area of 1,550 sq miles and a population of 13,86,995 who speak Hindustani and Hindi The average rainfall is about 30.36" on the average

Start a New Industry! Read MANUFACTURE OF RUBBER GOODS.
Price Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The chief crops grown are barley, rice, peas, masur, maize (very famous), gram, wheat, arhar, millets, sugar-cane, hemp and oil seeds. Local Kharbuzas are as good as Lucknow ones. Local guavas are also very famous.

Sugar making is the important industry of the district. Coarse cloth for local use are woven and scented oils of good quality are manufactured in abundance.

The chief articles of export are sugar, food grains, scented oils and scents, oil seeds and carpets. The chief imports are salt, piece-goods, metals and spices. Rugs for military use are manufactured in Tahsil Jaunpur.

JAUNPUR CITY (Population 44,964). The city is surrounded by flower gardens and is noted for the manufacture of perfumes from roses, jasmine, screw-pine and the root of Khaskhas. Otto, rose-water and scented oils are exported. The commercial articles such as tora mustard, poppy-seeds, ghee are obtainable here in abundance and are largely exported by rail to Calcutta and other places in Bengal, Bihar and Orissa. The chief exports from this district go to Calcutta. Now-a-days cigar cases are not made here.

KERAKAT, a railway station on the O & T. Railway and is 18 miles from Jaunpur, produces rice and sugar.

MACHHALISHAHAR exports wheat, oil-seeds, sugar and imports woollen cloth, cotton cloth and other merchandise.

SHAHGANJ is a junction station on O & T. Railway and E I Railway and 145 miles from Lucknow. It is a trade centre of sugar and cotton. There is a big sugar Ratana Mill at **SHAHGANJ**.

ZAFARABAD is a town and a junction station on E. I. Railway 3 miles east of Jaunpur. A new Railway line named L. S. Z. Railway has lately been opened from here to Lucknow.

MARIAHUN (12 miles south of Jaunpur) is noted for carpet industry which is exported to Bhadohi in the Benares State.

MONGARA BADSHAHPUR is a town and railway station on the main line of E I Railway. Besides being a chief trade centre, soap for washing clothes is manufactured in abundance and is mainly exported to Nepal State. The district on the whole is well supplied with roads and railways.

No agricultural, industrial and cattle fairs are held in this district.

JHANSI DISTRICT.

The **JHANSI** district occupies an area of about 3,600 sq miles and is inhabited by a population of 7,73,853 whose languages are Urdu and Hindi. The average annual rainfall is about 32".

The chief crops grown are jowar, kodan, small millets, gram, wheat, barley, rice, and oil-seeds mainly sesamum. Coarse cotton cloth (known as kherua) is still woven here and ornamental works are done at **ERICH**. Small woollen rugs and good quality silk cloth are woven at **JHANSI**.

JHANSI and **MADURA** are noted for brass work and **Jhansi** has a big railway workshop. The chief articles of export are oilseeds, ghee and betel, all of which are sent in big quantities and are valuable. Gram, forest products and road metal are also exported. The imports are sugar, kerosene oil, salt and grain. The chief centres are **JHANSI**, **MAURANIPUR**, **LALITPUR** and **CHIRGAON**. There is also a good local trade with the Indian States on the border.

There is lot of money in Confectionery making. Read **MANUFACTURE OF CONFECTIONERY**. Re. 1/12. Industry Book Dept., Calcutta.

MARKET PLACES OF UNITED PROVINCES 471

JHANSI (population 1,03,324) is 799 miles by rail from Calcutta and 702 miles from Bombay. It is an important place of collection and distribution of agricultural products in the district. All sorts of grains and seeds, cotton, ghee, blankets, rope, etc are available here in plenty. *Satranjees* and *galchas* of this place are famous. These things are manufactured on a large scale in factories and are generally exported to different parts of U P, Bihar and Bengal by rail.

Fairs are held at —Deviji, Dekohi, Deviji, Patha, Nag Panchami, Garathakalan, Vishwamitra, Godha, Kedarnath, Haibatpura, Anand or Sreenath, Maiori, Dura Devi, Erich, Miran Shah, Erich, Baidnath Mahadeo Jiu, Bhumi, Ramlila, Erich, Deviji, Erich, Gosain, Suta; Piron Ka Mela, Talbehat

KHERI DISTRICT.

The **KHERI** district comprises an area of 2,976 sq miles and a population of 944,479 who speak Hindustani and Pahari. Rainfall is about 40" per year.

Wheat and sugarcane are the chief agricultural products, rice, maize, gram, pulses, barley, rapeseed are also grown. *Sabai* grass used in paper making is available in abundance in the south Khari forests.

Area under crops during 1939-40 —Wheat 184,638 acres, barley 45,265 acres, gram 109,562 acres, rape and mustard 19,511 acres, til 1,432 acres, groundnut 35,664 acres, castor 5 acres, linseed 1,422 acres, tobacco 1,459 acres, pulses 16,098 acres, rice 243,392 acres, maize 78,897 acres, sugarcane 135,500 acres, cultivated area 631,920 acres.

The *Khairigarh* and *Parehar* breeds of bullocks are well known.

GOLA is a flourishing town on the R & K Railway where the *Hindusthan Sugar Mills Ltd.* is situated. The cultivation of sugarcane has increased considerably.

Manufactures consist of weaving and cotton printing. Manufacture of domestic utensils is carried on at **OEL** and **KAIMAHRA**. It is one of the important centres of cattle breeding in U P. There is one sugar factory at village **KHAMARIA**.

The principal exports are grain, sugar, turmeric, tobacco, hides, syrup, forest products, cattle and ghee. The imports are piece-goods, metals and salt. The principal trading centres are **LAKHIMPUR**, **MOHAMDI** and **GOLA**.

The chief town, the administrative headquarters and sadar station is at **LAKHIMPUR** (population 17,497) which is a Railway Station on the R & K Railway and lies on the right bank of the river **Ul**.

Fair.—Only one cattle fair takes place at *Maigal Gunj* under the management of *Khan Sahab Syed Kazim Husain* of *Aurangabad* once. One cattle fair takes place at *Gola Gokarnnath* at the time of *Shivaratri* Fair, at *Gola*, another at the time of *Chaiti* fair at *Gola*.

Only one cattle fair takes place at *Lakhimpur proper* on the occasion of the *Ram Lila* in the third and fourth week of *Kunar* each year.

LUCKNOW DISTRICT.

The **LUCKNOW** district comprises an area of 967 sq miles and a population of 949,728 speaking Hindi and Urdu. Annual rainfall is 36".

The chief crops are rice, wheat, pulses, gram, barley, jowar, and *bajra*.

LUCKNOW (population 387,177) —It is the largest city in the United Provinces and the fourth largest in British India. Cotton fabrics of all grades are manufactured. The place is also celebrated for embroidery with gold and silver thread. Cotton dyeing and printing is still a flourishing industry. The silver works enjoy good reputation.

There is lot of money in Confectionery making. Read **MANUFACTURE OF CONFECTIONERY**. Re. 1/12. Industry Book Dept., Calcutta.

while damaskeening of silver on other metals has been revived. The brass and copper wares and domestic utensils of all kinds are produced. Ivory carving is carried on to some extent but wood carving is much more important. Fancy ivory broaches and powder boxes made at Lucknow have been appreciated in Europe and America. The local potters produce various kinds of artwares, some of which are distinctly good, while the clay modellers of LUCKNOW are preeminent in the whole of India. Among the minor products are tobacco, shoes and perfumes. Hosiery making is now carried on.

There are a number of factories and workshops, railways and iron foundries, waterworks, electricity and ice making factories. The imports are grain, piecegoods, metals and hardware, sugar and salt. The chief exports are the goods of local industry as cotton fabrics, gold lace, silver and gold works, ivory and wood carving, chikan, kamdani, pottery, tobacco, and perfumes.

LUCKNOW is the only important trade centre in the district. It enjoys unique advantages in regard to communication, whether by rail, road or river. A considerable portion of the great export trade in wheat and grains from the northern districts on its way to Cawnpore passes through Lucknow. Similarly the greater part of Cawnpore's export trade is transmitted through this city. The only paper mill in the United Provinces which dates back to the last century is at Lucknow.

Traffic is carried by railways (E I Rly, O & T and R & K Rly) which practically traverse the district which is also well supplied with metalled roads.

MAINPURI DISTRICT.

The MAINPURI district occupies an area of 1,197 sq miles and is inhabited by a population of 749,633 speaking Hindi and Urdu.

The district contains extensive groves of mango and shisham. Chief crops are—Wheat, barley, jowar, bajra, maize, pulses, gram.

Wood carving and making of glass bangles are the chief industries. Inlaid work is done by cutting narrow grooves, on the designs. Into these grooves brass ribbon is set in edgewise and polished. The designs are old. Cotton ginning and spinning and indigo making are the chief factory industries.

The chief exports are wheat, oilseeds, hides and skins, and cotton. The important imports are salt, metals, piecegoods, sugar, tobacco and rice.

SHIKOHABAD —It stands on the main line of the E I Rly. Potatoes, gur, ghee and cotton are available here in sufficient quantities and are exported by rail.

MAINPURI town (population 14,928) contains a fort.

A branch line of the E I Rly crosses the district and carries the major portion of the traffic.

MEERUT DISTRICT.

The MEERUT district comprises an area of 2,379 sq miles and a population of 1,601,918 speaking Hindustani. The average rainfall is about 30".

The district produces rich crops of wheat, gram, maize, jowar, cotton and sugarcane.

The chief industries of the district are tanning, cloth weaving, blankets, cutlery, jewellery, cloth, glass bangles and furniture making. There are several cotton presses, soap factories, rice, indigo, flour and oil mills. Gur is made on a large scale. Sugar forms a large part of the industrial life of the district which claims 7 sugar mills. Heavy brass and copper vessels and hukkas of galvanized sheets are made at

If you want to market Crops, learn preliminary process from PREPARING CROPS FOR THE MARKETS. Re. 1/12. Industry Book Dept., Cal.

HAPUR Hardwares are also made at **KISHANPUR** and **BAOLI** and also in **BAGHPAT** tahsil Band musical instruments and hosiery are made in Meerut tahsil where a cardboard factory has been recently started The Central Distillery and Chemical Works at **KANKER KHERA** produce rectified spirits

The chief exports are wheat, sugar, gni, oilseeds, cotton, etc., and the important imports are metals, cotton cloth, building materials, timber and bamboo, ghee, drugs, and spices

SARDHANA TAHSIL—Khaddar, blankets and confections are made in the tahsil There are two sugar factories in the tahsil, one at **DAURALA** and another at **SAKOTI** A cattle market is held every Tuesday one mile from Sardhana proper.

MEERUT (population 136,709)—It is the biggest commercial centre in the district The local products are wheat, gram, linseed, mustard seed, castor seed, masur, khesari and chaki gur, cotton, etc All these are exported from this place by rail, of these wheat, chaki gur and cotton are exported in large quantities Scissors, soap, and caps are manufactured It is an important centre for khaddar and hosiery goods made from handspun yarn

MAWANA TAHSIL—Cattle fairs are annually held in villages Phitkari, Nilaha and Hostinapore, the last being attended by the Jain community and has religious significance

GHAZIABAD Tahsil—Weaving and dyeing of khaddar cloth industry in **PELAKHUA** has greatly increased this year Export of cloth, printed covers of lihalis, quilts, table and bed cloth has greatly increased. Very fine cloth and printed material is now manufactured at **PELAKHUA** A cattle fair is held at **SAPRAWAT** every Wednesday

GHAZIABAD (population 27,071)—It is a big and very important Railway Junction of E I & N W Rlys, some 12 miles from Delhi. It is also a big grain market, grain is stored in khattis Wheat, cotton and cane are the main crops Chief imports are general merchandise, wheat, cotton, bajra, gram, and groundnut Chief exports are wheat, gni, sarson, sugai, vegetable-ghee, saison oil, and khaddar cloth There is a vegetable-ghee and oil mill viz, Vanaspathi Mills just outside the town on the G T Road

PILKHUWA is an important town in Ghaziabad sub-division It is a big centre of khaddar-cloth trade, and the work of cloth printing is of a very high standard and is carried on a large scale and exported in mass quantity to various parts of India It is a Rly. Station on Delhi-Moradabad line

BEGAMABAD is also a railway station on Delhi-Meerut line Here Modi Sugar Mills stand, manufacturing cotogem, soap, and sugar.

MORADNAGAR, a railway station, has a sugai mill

BAGHPAT TAHSIL—It is a wheat and sugai producing area. Agarwal Mandi at village Tatari just close to Baghpat Road Railway Station is a big coin exporting Mandi, where wheat and the like food stuff is available in all seasons The other town **BARAUT** is also flourishing day by day on account of trade specially in wheat and gur. Village **RATAUL** also lies in this tahsil which is famous for the produce of grafted mangoes Numerous varieties of good mangoes are found

HAPUR TAHSIL—Heavy brass and copper vessels are made, which is prominent export Cattle mart in the Tahsil are Seroani (Fridays only) and Thala (Thursdays only)

Fairs—On the occasion of Kartic Purnima (full-moon day in the month of Kartic) a fair is held on the banks of the Ganges at **GHORHUKTESHWAR**, a place in Hapur Tahsil at a distance of near 30 miles from Meerut **NAUCHANDI** fair is held in Meerut, at the end of

If you want to market Crops, learn preliminary process from **PREPARING CROPS FOR THE MARKETS**. Re. 1/12. Industry Book Dept., Cal.

March or beginning of April every year. It is one of the biggest fairs in Northern India and lasts for 7 to 10 days. Agricultural and industrial exhibitions and horse show are special features of the fair.

MIRZAPUR DISTRICT.

The MIRZAPUR district comprises an area of 5,213 sq. miles and a population of 9,01,435. Hindi and Urdu are the languages spoken. The average rainfall amounts to about 42".

Chief crops are Rice, barley, wheat, jowar, bajra, gram, pulses, linseed, sesamum. Other crops are maize, sugarcane and poppy.

Deposits of coal are found while stone is quarried in the district. Building stone, iron ore, mica and iron pyrite are found here sparsely distributed. Coal quarries are not worked because of poor communications.

The chief industry of the district is carpet weaving. Shellac is also manufactured extensively in MIRZAPUR Town and metal utensils are also made. A Government Stone Mahal Department regulates the quarrying of stones and MIRZAPUR is one of the important exporting centres for building stones. A tassar silk industry exists in AHRAURA. In CHUNAR there is a cottage pottery industry, which is undergoing rapid improvement. In AHRAURA the lacquer toy industry is also similarly improving its designs. The chief exports are carpets, shellac, stone, brass and iron utensils, ghee and oil seeds. The imports are brass, iron, copper, salt, grains and cotton piecegoods. The shellac and carpet exports are a record for the Province.

MIRZAPUR (population 70,926) —It is one of the important towns of the U. P. as an industrial centre. The chief industries are the manufacture and export of valuable carpets, which are famous all over the world. Large and small sized carpets are extensively exported to Europe. It is also one of the main shellac exporting centres of the Province and has a good metal utensil industry. Mirzapur building stone is famous and sils, bell-chakhtis and other household articles are exported to Bengal and Bihar.

AHRAURA —Tassar and silk are also woven.

The district has a large trade in gur with the districts of C. P. Local trade is carried on by cart and pack bullocks. The E. I. Rly. passes through it and carries large amount of traffic.

MORADABAD DISTRICT.

The MORADABAD district stretches over an area of 2,289 sq. miles and is inhabited by a population of 1,284,108 souls who speak Urdu and Hindi. The average rainfall is 39".

Chief crops are Rice, wheat, barley, bajra, jowar, maize, gram, pulses, sugarcane, cotton.

The chief industries are sugar refining, cotton cloth weaving and woollen carpet making, brassware, silvered ware of various description (generally utensils) and pottery. There are cotton ginning and pressing factories at CHANDAUSI. Glass is manufactured at BAHJOI. The Bahjoi Glass Factory has installed plant for the making of sheet glass.

MORADABAD (population 110,562) —It is noted for its plain, enamelled and ornamental brasswares.

CHANDAUSI (population 26,768) —It is situated on the E. I. Rly. and is about 803 miles away from Howrah. The wheat of CHANDAUSI is in active demand in Calcutta. Ghee, chaki gur, mau-mustard and wheat are obtainable here in large quantities. The oil content of the mustard seed of this place is about 15 seers to the maund. It is a chief centre of trade in this part and contains the Railway Training

You like to prepare chocolate, lozenges, drops, etc. Read MANUFACTURE OF CONFECTIONERY. Industry Book Dept., Shambhazar, Cal.

School Goods are exported from this place generally by rail to Calcutta and Delhi

Other trade centres are AMROHA (population 44,948) and SAMBHAL (population 44,300).

E I Rly passes through the district which possesses a good many metalled roads

Fairs are —Sambhal, Dasehra (Ramhila), Dhaja (3rd day of Holi), Pheri (4th and 5th day of Dewali), Religious, Bahjoi, Dasera, Religious, Sechavli, Dhaja (3rd day of Holi), Religious, Sadat Bari, Sambhal, Sheoratri, Rajpur, Sambhal, Sheo Ratri

MUTTRA DISTRICT.

The MUTTRA district has an area of 1,453 sq miles and a population, of 668,074. Hindustani and Braja Bhasa are the languages spoken Rainfall averages 26"

Muttra district has jungles where acacia, neem and ber trees are fairly common The chief crops are jowar, gram, wheat, bajra, cotton, sugarcane, tobacco and vegetables Cultivation in the district is aided by irrigation from canals, wells and tanks

The chief industries are calico printing, stone carving, silver models of animals, etc There are several cotton gins and presses and indigo factories

The chief exports are grain, cotton, and the imports are salt, sugar, metals, oil seeds and piecegoods

MUTTRA City (population 64,029) —It contains some Hindu temples It is the Sadar station of the district.

BRINDABAN (population 17,148) —It is a place of the great pilgrimage A large number of pilgrims assemble every year on the occasion of the Doljatra and Jhulan

E I Ry. passes through the district which is connected by road (metalled) with Delhi, Brindaban, Agra, etc B B & C I. Rly and G I P Rly also through the district

MUZAFFARNAGAR DISTRICT.

The district of MUZAFFARNAGAR comprises an area of 2,666 sq miles and a population of 894,662, speaking Urdu and Hindi. Average rainfall is about 34" a year

The chief exports are wheat, raw sugar, rice and oilseeds

Woollen goods, blankets, camel-wool blankets, pillow and coating cloth are made here Cotton weaving is the most popular industry of the district Calico printing and ornamental curtains are also made. Indigo manufacture was another important industry, but is now dull

The chief crops are wheat, gram, pulses, maize, rice, barley, bajra, sugarcane, cotton and fodder crops The wheat of MUZAFFARNAGAR is highly prized in European markets and commands a fair price. Cultivation is helped by irrigation from canals and wells.

MUZAFFARNAGAR (population 35,347) —The prosperity of the town is largely due to its export trade in wheat and sugar, and the manufacture of country blankets An exhibition is annually held here.

KAIRANA (population 19,589) is another trade mart

The traffic is carried by E I and N W. Rlys which pass through it Local trade is confined to weekly markets

NAINITAL DISTRICT.

The NAINITAL district has an area of 2,677 sq miles and a population of 277,286 Language spoken is Hindi. Average annual rainfall varies from 46" to 77".

In the valleys good crops of rice and wheat are obtained. Rape and mustard, pulse, barley, marua, gram, potatoes, tea and spices are

You like to prepare chocolate, lozenges, drops, etc. Read MANUFACTURE OF CONFECTIONERY. Industry Book Dept., Shambazar, Cal.

also grown. The potatoes of NAINITAL, are in huge demand from all parts of the country. Oil seeds, sugar and cotton are produced to a very small extent. Fruits particularly apples and pears grow in KUMAUN. The forest products are sal, shisham, haldu, khair, chir, oak, etc. Building stone, iron, copper, gold, gypsum, sulphur and alum are the minerals obtainable in very small quantities. There is a sugar factory at KASHIPUR, and match and paper (cardboard) factories at HALDWAN. Good quality cotton cloth is woven at JASHPUR.

The imports to the district are piecegoods, salt, corrugated iron sheets and metals, the chief exports are potatoes, chillies, ginger, forest products, rapeseed, etc. The chief marts besides NAINITAL are HALDWANI, RAMNAGAR, CHORAGALLIA, KALADHUNGI, JASHPUR, KASHIPUR, etc.

NAINITAL TAHSIL—There are however big fruit orchards particularly of apples in PATTIES, RAMGARH, PURBI AGAR and MALLIKUTOLI of this tahsil from where fruits are exported in large quantities to different parts of India. A fruit growers' association has also been formed to facilitate the grading and marketing of fruits with its headquarters at BHOWALI. Potatoes and chillies which are extensively grown in the hill tracts are exported. Spinning and weaving is practised.

TAHSIL KASHIPUR—KASHIPUR also produces good quality Garha cloth both plain and locally dyed and printed. The Chaiti fair early in April is held here. It attracts about 50,000 people on the principal day (9th of Chaitra Sukla Paksh).

TAHSIL HALDWANI—Potatoes, chillies, ginger, resin, apples and other hill fruits are exported from HALDWANI to the plains besides the forest produce. Wheat, piecegoods, salt, oil, hardware and other articles pass through this town from the plains to the hills. There is an oil mill here. There is a match factory besides a number of furniture shops. Cultivation of sugar cane has increased considerably.

TARAI TAHSILS—Extensive sugar-cane cultivation is carried on and sugar is manufactured.

Rohilkhand and Kumaon Rlys run from Bareilly to Kathgodam. There is a good system of metalled roads. Considerable traffic passes through the district between the plains and the interior of the Himalayas.

Fairs are—Tarai and Bhabar Govt Estate Exhibition, Haldwani, Cattle, Poultry, Agricultural and Handicraft Exhibits, Ranibagh, Near Kathgodam, Maker Sankranti, (January), Bathing Fair, Kichha—Ataria, near Ruddarpur in the month of Chait, Khatima—Nanakmata, 1 week during Devali festival, Khatima—Mela Ghat, 3 days, Kartik Puranmashi.

PARTABGARH DISTRICT.

The district of PARTABGARH comprises an area of 1,458 sq miles and a population of 906,233. Languages spoken are Urdu and Hindi. The district is a richly wooded fertile plain and the average annual rainfall is about 38".

Excepting a small portion near the Ganges, the district is fertile, the chief crops being rice, barley, gram, pulses, wheat, jowar, bajra, arhar, peas, masur, sunn-hemp and sugarcane.

Coarse cotton cloth and woollen blankets are woven and mulberries are reared at some places.

The exports are grains, oil seeds, opium, sunn-hemp, hides, etc., and imports are piecegoods, metals, hardware, sugar, etc. BELA the

Want to Prosper in Business Read HOW TO DO BUSINESS. Re 1/4.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Sadar Station, is the chief mart. There are however small markets along the railway, BELA is a junction on the E I Rly.

The district is well provided with railways and roads.

PILIBHIT DISTRICT.

The PILIBHIT district comprises an area of 1,201 sq miles and a population of 448,438. Languages spoken are Urdu and Hindi. Average rainfall is 54.57". Forests rich in sal trees cover a considerable area of the district in the north and the east.

Area under crops in 1938-39 —Rice 230,198 acres, wheat 103,529 acres, barley 4,834 acres, jowar, 1,484 acres, bajra, 6,825 acres, gram 74,572 acres, pulses 26,217 acres, oilseeds 1,604 acres, sugarcane 42,081 acres, hemp 6,804 acres, fodder 17,804 acres, fruits and vegetables 5,166 acres, maize 778 acres. Cattle are bred.

Sugar refining is the important industry. Wood carving is also done, besides cart making and boat building. Catechu is prepared in the north, and cotton cloth is woven for local supply.

The exports are wheat, sugar and rice. Rice from Nepal passes through the district which has a big trade in borax, pepper and ginger.

PILIBHIT town (population 36,892) —The trade is chiefly concerned with agricultural products, such as gur and rice. It is famous for carved wood work also.

NEORIA is an important centre for rice market—a place lying on the way from Pilibhit to Nepal.

BISALPUR is an important market for gur and grains on the R & K Rly line. Silk is woven. Wheat, rice, sugar, sunn-hemp are the exports. Piecegoods, hardware and metals make up the imports. It is an important depot for the products of Nepal and the Himalayas. Carts and bedsteads are largely made and exported. It is the chief source of supply of sabai grass. Recently "gur" making industry from "Molasses" and "Galawat" has come to stay on a sufficiently large scale.

PURANPUR—This tahsil is the chief producing place for "Pine-apples" and famous for "Pomar" bullocks, which are found in Villages KALI NAGAR, MADHO TANDA and PURANPUR KHAS and in the adjoining parts. They are much demanded by the eastern districts. There is good trade in baub, sal timber, fish, catechu, honey, cane (baint) and tantar which are exported from PURANPUR.

The district is well served by roads and railways, Lucknow Sitapur-Bareilly branch running through it and connecting it with the great mart of Tanakpur at the foot of the Kumaon Hills.

RAE BARELLI DISTRICT.

The RAE BARELLI district comprises an area of 1,749 sq miles and a population of 106,532 who speak Urdu and Hindi. Average rainfall amounts to about 40".

Chief crops are rice, wheat, barley, jowar, bajra, gram, pulses, aihar, kodan and millets. Pasture land is scarce.

Coarse cotton cloth is woven at JAIS and at RAE BARELLI the finer varieties of it. SALON manufactures coarse cloth which is locally consumed.

The chief exports are grains, rice, seeds, hides, bones, gram, millet, oilseeds, tobacco and raw sugar, and imports are piecegoods, metals, salt, sugai, and spices.

RAE BARELLI town (population 21,004) —It is the chief commercial centre of the district. It produces coarse and fine cloths and sends away finer cloths.

Want to Prosper in Business. Read HOW TO DO BUSINESS. Re 1/4. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Other trade centres are LALGANJ, BAINTI and MAHARAJGANJ. Trade is generally with Kalakarkar in Partabgarh

E I Rly traverses the district

Fair:—An agricultural and industrial fair is held at DALMAU during Kartik Fair.

SAHARANPUR DISTRICT.

The SAHARANPUR district occupies an area of 2,133 sq miles and is inhabited by a Hindustani speaking population of 1,043,920. The average rainfall is about 37."

The district is famous for its luxuriant tropical forest trees and plants on the Siwalik slopes, besides the usual products of the plains which the district shares in common with other places in the Provinces. Wheat, rice, gram, sugarcane are grown extensively. The district is also famous for the excellent fruits of European varieties that are its special production.

Cotton weaving, wood carving, dyeing and printing of cloth, glass blowing, cotton ginning and pressing are the industries.

Trade has been greatly developed by railways. The exports are wheat and oil seeds in large quantities and the imports are salt, metals, piecegoods, etc.

ROORKI (population 13,944) is noted for its Engineering College.

HARDWAR (population 33,287)—It is a favourite resort of Hindu pilgrims and has a very healthy and temperate climate. The famous Kumbha Mela is held here every 12th year.

SAHARANPUR TOWN (population 78,655)—Wood carving is the important industry. There is a cigarette and tobacco factory. There are also a straw-board factory and a paper factory in operation. The city has a big stud-farm where imported horses are trained and acclimatised. The Botanical Gardens here are an important centre for the distribution of plants. An exhibition is annually held towards the end of February or in the beginning of March.

DEOBAND (population 22,126) is an important trade mart and is well known for the Arabic school which attracts scholars of other countries even. There is a sugar factory close to the railway station.

N W Rly traverses the district with the Hardwar and Dehra Dun Railway branches and there is a light railway from Shahdara to Saharanpur. Metalled roads are sufficient.

SHAHJAHANPUR DISTRICT.

The SHAHJAHANPUR district comprises an area of 1,744 sq miles with a population of 906,131. People mostly speak Urdu. Mango, bamboo, babul, sal, shisham and tun are common. The average annual rainfall is 37."

The character of the soil being varied, the condition of agriculture is rather complex. The chief crops grown are wheat, rice, gram, bajra, poppy and sugarcane.

The chief manufacturing industries of the district are sugar and rum which are made at ROSA. Mattings of baib grass are exported. Cotton cloth is woven for local use.

The exports are gram, sugar (famous), oil seeds (from TILHAR), baib grass mattings, chintz, coarse cotton and brass vessels. The chief imports are foreign goods, metals and salt. Forest products are floated down the river from Pilibhit.

The chief trade centres are TILHAR (population 18,372) and SHAHJAHANPUR but markets are held in many places in the district.

SHAHJAHANPUR Town has a population of 79,316. There is cantonment also. Sugar and rum are the chief articles of trade and

Organise your business with hints from "Theory & Practice of Commerce and Business Organisation." Rs. 4/8. Industry Book Dept., Calcutta.

commerce Hosiery factories are doing well There are Govt. Agricultural Farms and an Army Clothing Factory

E I Rly traverses the district and carries almost all its traffic

SITAPUR DISTRICT.

The SITAPUR district has an area of 2,253 sq miles and a population of 1,167,139 who speak Hindi and Urdu Average rainfall is 39".

Mangoes, jack-fruit, shisham and tun, besides local fruit trees, are fairly abundant The sandy soil produces bajra and barley, maize, sugarcane and wheat are grown in richer soil

The exports are grain, gram, oilseeds and raw sugar The imports are piecegoods, yarn, metals and salt Opening of railways has lent a great impetus to trade

SITAPUR (population with cantonment 27,820), is the chief trading centre Several good bazars exist along Lucknow Bareilly Metre-gauge Rly

BISWAN is a Railway Station on the O & T Rly and its paper industry and tobacco have a reputation in the market

SIDHAULI, on the metre-gauge line from Bareilly-Lucknow Section, is an important grain market in the district

Fairs —Important fairs are held at NIMKHAR and KHAIRABAD.

SULTANPUR DISTRICT.

The SULTANPUR district extends over an area of 1,707 sq miles and is inhabited by a Urdu speaking population of 1,051,284 The average rainfall is about 44"

The crops grown are rice, wheat, jowar, gram, cereals and pulses, barley, peas, masur, which are largely grown, besides sugarcane, fodder and fruits and vegetables

Coarse cotton cloth is woven Metal vessels of BANDHA are famous

The chief item of export is grain and gur. The imports are salt, cotton, piecegoods and metals Trade is carried mainly by rails. RAIPUR, GAURIGANJ, SULTANPUR and BAZAR SUKUL are the important trade centres Cattle are sold in the markets of RANIGANJ and SHUKAL BAZAR

SULTANPUR—Grain and gur are the chief commodities of export. A separate bazar for cattle is held on market days It is connected by railway lines running from Fyzabad to Allahabad

ALIGANJ (3 furlongs south of the Maniari R S) —The market is held every Thursday and is specially famous for cattle

DHAMMOUR (10 miles south of Sultanpur) —The bazar is held on Tuesday and Saturday It is famous for food grains.

GUPTAGANJ BAZAR—A large number of cattle is sold on hat days

MOSAFIRKHANA TAHSIL—The chief items of import are rice, sugar, salt, wheat, cotton and metals, those of export are rice, wheat, gram, mustard, goats and sheep, betel leaves, eggs and skin

SAHEBGANJ, RANIGANJ and SHUKUL BAZAR are chief centres of trade Due to the new L S Z Ry NIHALGARH is also becoming a trade centre

KADIPUR TAHSIL—The important trade centres are. DHEMA, famous for gur mandi, BIJITHUA RAJAPUR, cattle market every Tuesday, BISHUNGANJ, near Koeripur Ry St on Lucknow Jaunpur line, chief market for sugar, BARUA, famous for Badhi on the bank of the Gomti

BISHESWARGANJ—It is a growing business place It exports mainly flax carpets (pattis), demand for which is daily increasing

Organise your business with hints from "Theory & Practice of Commerce and Business Organisation." Rs. 4/8. Industry Book Dept., Calcutta.

The main line of the E. I. Rly., O. R. Ry. section and a branch from Fyzabad to Allahabad, besides a loop line from Benares, serve well its purposes of transport and communication.

Fairs:—Two big fairs are held in the Mosafrikhana tahsil, one of Datakarimshah at Isauli and the other of Nandmahar at Nindiyawan, but they are real industrial and cattle fairs.

UNAO DISTRICT.

The district of UNAO comprises an area of 1,788 sq miles and a population of 9,59,542 souls whose languages are Urdu and Hindi. The average annual rainfall is about 1383".

The chief crops grown are rice, barley, wheat, gojari, jowar, bajra, maize, gram, pulses and arhar, sugarcane, groundnut and cotton.

Chief manufacture is making of brass and copper utensils at BHAWANTNAGAR, NAWALGANJ, MORADABAD. Cotton cloth is made for local use and calico printing is also practised. Salt, saltpetre were formerly made but have since declined. Among the new industries in the district may be mentioned, two leather factories at SHEIKHPURA, one weaving establishment at GANGAGHAT, one sugar mill and distillery at SHEIKHPURA, and one bone mill at MAGARWARA.

The exports are grain, sugar, ghee, metals, brass and copper utensils, but the trade is not considerable. Imports consist chiefly of piecegoods, salt, metal, spices and kerosene oil. Both rail and road traffic exist here.

UNAO (population 20,107), is the most important town in the district. It is a municipality and stands on the E. I. Rly. broad and metre gauge lines on the road from Cawnpore to Lucknow.

SAFIPUR TAHSIL (area 260,147 acres and population 219,552) — Besides the usual crops of the district, the tahsil grows potatoes, cotton and sugarcane. Manufactures are insignificant. Newar is made on a large scale. Exports of this tahsil are gram, cotton, gur, ghee, utensils, while the imports consist of cloth, salt, metal, spices and kerosene oil. Important centres of trade in the tahsil are SAFIPUR (population 6,920) and BANGARMAN (population 5,921).

HASANGANJ TAHSIL (area 2,79,248 acres, population 439,409) The chief natural resource is kankar. Chief industries are brassware at NAWALGANJ and MAHARAJGANJ; iron wares at RASULABAD and NAWABGANJ, lac at NEOTANI and AJGAON, scissors and knives at HAIDERABAD and AJGAON. Fruit culture, particularly of graft mangoes and guavas, is getting very popular but export is difficult and therefore less profitable for want of pakka roads, and railways. Guavas and mangoes are sent to Cawnpore.

Fairs:—In HASANGANJ Taluk—Durga-Kusehri religious Fair, Nawabganj, Chait, 3 days, wooden doors and bullock carts, iron work, chilhes, dhania, onion, steel trunks and wooden boxes. Raipur Garhi Cattle Fair, from the Jeth Sudi Duadashi, 8 days. Sarai Malik Adam Cattle Fair, held twice (in Baisakh and Kuar) a year. In UNAO TAHSIL—Agricultural and industrial fairs are held at Unao, in Kunwar Cattle fairs are held at Hilgi on Jaith Sudi Devi, at Bhamsai Nonbasta on Aghani sudi Aikadashi, at Siroli on Shivaratri in the month of Falgun. In PURWA Tahsil—Takiya cattle fair held in December. In SAFIPUR Tahsil—Cattle fairs at Bargadahi on Amavas of Jeth, Susuman 5 miles from Safipur; Ferozepore Kalan, 2 miles from Methi Tekur, Phagunsudi Purnamashi, Gauria Kalan, 8 miles from Bangarmao, from Pus sudi Dwij, 15 days.

The district is well served by railway—a branch of the E. I. Rly., O. & T. Rly. running through the district.

"Sketches of Indian Industries" discusses industrial situations and industrial ideals. Vol. I & II. Re. 1/4 each. Industry Book Dept., Calcutta.

MARKET PLACES OF THE PUNJAB

THE Punjab is literally a 'land of five rivers.' It is encircled and watered by the Jhelum, the Chenab, the Ravi, the Beas and the Sutlej, and has an area of 100,000 square miles

The Punjab Census figures for 1941 record an increase of 15·8 per cent over the total population of 1931. The total population is now 28,419,000 of which the Muslims are 1,57,88,000, Hindus 73,83,000 and Sikhs 37,82,000. The Muslims now form 56·84 per cent of the total population as compared to 55·4 per cent at the time of the 1931 Census. The Hindus, now form 26·6 per cent of the total population as against 32 per cent recorded in 1931. The Sikhs now form 13·42 per cent of the total population as against 12·9 in 1931. The principal languages are Hindi, Gurmukhi, Pahari, etc.

Climate.—The climate of the Province is extreme, very chilly and cold during winter and very hot during the summer months when as a rule the nights are pleasant. But, on the whole, it is healthy and invigorating. In the summer, the temperature rises to 115°F or even 121°F and in the winter snowfalls are often recorded in some parts. Rainfall averages about 15" to 20"

Soil.—The soil is sandy loam but is aided by a network of irrigation canals for raising wheat and cotton. Manuring is practised near villages, and sugarcane, maize, wheat, tobacco and vegetables are as a rule always manured. Millet and gram are neglected. Dung of animals forms the chief manure, the animals being often folded together for the sake of their manures. Of the total area in the Punjab 28,170,000 acres were under cultivation during the year 1940-41 of which 16,898,000 acres were irrigated. Area of land lying fallow is 3,068,000 acres, forests 1,975,000 acres, culturable waste 13,986,000 acres.

Crops.—The Punjab is essentially an agricultural province and wheat is its most important crop. In fact, the Punjab is the greatest wheat bearing tract in India, being about one-third of its total cultivated area under this crop. Tobacco, mustard, sugarcane, etc., are largely grown. Cotton of improved types are also cultivated on a very large scale (3,347,000 acres). Among other principal crops grown in the Punjab mention may be made of gram and barley, which are grown for sale. Millets of different varieties are also cultivated. Rice is grown in the Kangra Valley. Oilseeds occupy a large acreage of the land. The chief crops during the last five years were —

	1936-37	1937-38	1938-39	1939-40	1940-41
			(in 1,000 acres)		
Wheat	9,300	9,945	9,526	9,566	9,884
Cotton	3,691	3,986	3,652	3,347	3,304
Rape and mustard	982	740	650	1,075	1,335
Sugar cane	554	510	352	414	549
Sesamum	100	95	92	80	74
Linseed	31	30	30	32	33
Tobacco	78	78	78	78	61

Condiments (61,000 acres), fruits and vegetables (328,000 acres), sunn (42,000 acres), poppy and tobacco (78,000 acres), are raised and

"Sketches of Indian Industries" discusses industrial situations and industrial ideals. Vol. I & II. Re. 1/4 each. Industry Book Dept., Calcutta.

tea (9,505 acres) is grown in the Kangra Valley. Area under indigo is small, potatoes, mangoes, fruits and other vegetables and drugs are grown on the hill slopes and valleys for purposes of sale and export.

Following crops were cultivated during the year 1940-41: Jawar 879,000 acres, bajra 3,863,000 acres, barley 799,000 acres, ragi 288,000 acres, maize 31,000 acres, groundnut 37,000 acres.

Total area under crops in the Punjab is about 30 million acres. The districts where the crops are raised on a big scale are

Rice—Gujranwala, Sheikhupura, Kangra, Wheat—Ferozepur, Multan, Lyallpur, Shahpur, Attock, Gujrat, Montgomery, Sialkot, Barley—Gurgaon, Hissar, Jowar—Rohtak, Deia Ghazi Khan, Hissar, Bajra—Hissar, Rohtak, Gurgaon, Maize—Kangra, Hoshiarpur, Gram—Hissar, Ferozepur, Rohtak, Mianwali, Karnal, Linseed—Kangra, Sesamum—Gurdaspur, Kangra, Multan, Rape and Mustard—Montgomery, Multan, Lahore, Sheikhupura, Condiments and spices—Karnal, Sugarcane—Lyallpur, Gurdaspur, Cotton—Lyallpur, Montgomery, Multan, Tea—Kangra, Tobacco—Jullunder, Jhang, Fodder crops—Ferozepur, Montgomery, Hissar, Fruits and Vegetables—Hoshiarpur, Amritsar, Lahore.

Irrigation:—Total area irrigated in the Punjab during 1940-41 was 16,898,000 acres of which area irrigated by Government canal is 11,565,000 acres, by private canals 475,000 acres, by tanks 47,000 acres by wells 4,682,000 acres, by other sources 130,000 acres.

Cattle:—Montgomery, Harina, Malwa breed of cattle, are noted Hissar, Delhi, Rohtak, Gurgaon are the centres of cattle breeding. Buffaloes are valuable assets in the Province. Sheep are abundant, camels are found. The principal cattle fairs are those of Amritsar, Jahazgarh (Rohtak), Kulu, Shah, (Sialkot) and Hissar. Large profits are made from dairy trade.

Timber:—Sal timber is found in Ambala and Sirmoor State. The forests are all conserved.

Minerals:—The Punjab possesses extensive mineral resources, but sufficient enterprise is rather wanting in this direction. Coal is now worked in the district of Jhelum, Mianwali and Shahpur. The output of coal during 1939 in the province was 194,000 tons. Petroleum is raised in Attock, Khaur and Rawalpindi. The annual production is about 6 million gallons. Salt mixed with gypsum, is obtained from the Northern Salt Range in large quantities and worked at Khewra and Nurpur. It is a Government monopoly and the annual output averages about 450,000 tons. Rock salt also occurs in the Salt Range. Small quantities of iron are found in Kangra, copper is met with in Kulu, and slate is found in the Mandi State. Saltpetre, carbonate of soda, sal ammoniac are found plentifully in Shahdara, Mianwali, and other places. About thirty-five per cent of the saltpetre from British India is produced in the Punjab. Gold and other precious stones are available in small quantities.

Cottage Industries.—Cotton spinning and weaving is the domestic industry. More than three lakhs of weavers are engaged in this profession. The important weaving centres are Delhi, Ludhiana, Multan, etc. Rugs and carpets of cotton are made at Lahore, Ambala, Multan and Amritsar; cotton printing by wooden blocks is done at Kot Kamala, Sultanpur and Lahore. The handloom weaving industry is by far the most important cottage industry in the province and shows definite signs of recovery. The Ludhiana weavers of silk and artificial silk have adapted themselves to the market conditions by undertaking the production of woollen goods from August to October and are thus able to keep themselves busy throughout the year. The cheap mosquito net has furnished an undoubted incentive to handloom.

INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

weavers of the province Ginning of cotton is done on an organised scale all over the cotton producing areas Blankets, felts, and rugs from sheep's wool are made at Dera Ghazi Khan, Bhera and Hissar. Hissar district is, by the way, one of the largest markets in India of the trade in raw wool And one of the biggest markets in India of indigenous wool is at Fazilka in the Punjab, the other being Beawar in Rajputana A very considerable quantity of good quality wool is imported into the Punjab via Afghanistan, the chief collecting centres being Shikarpur, Amritsar, and Multan Wool from Tibet and Kashmir, and pashmina which comes through Kashmir, are worked and embroidered at AMRITSAR Sericulture is another cottage industry of some importance in the sub-montane district of the Punjab bordering on Jammu and Kashmir But the amount of raw silk produced is only a fraction of the total output of British India Silk comes mainly from China and is woven at Amritsar, Lahore, Patiala, Batala, Montgomery and Bahawalpur Iron smelting is carried on in Kangra on a small scale and the cutlery of Bhera and Gujranwala is famous Glazed pottery is made at Multan, and glass bangles, etc are manufactured at Kurnool, Kangra, Hoshiarpur and Lahore Wood carving is done at Lahore Ivory carving is done at Amritsar, Patiala, and other places There are several breweries A certain amount of crude borax enters the Punjab from Lodakh and is refined at Lahore and Sultanpur

Major Industries—Chief among the major industries may be mentioned textile industry, hosiery knitting, woollen goods manufacture, match making, sporting goods manufacture, carpet weaving, etc. Glass, chemicals, soaps, resins, cement, etc are developing rapidly. There are 8 cotton mills equipped with 111,980 spindles and 2,581 looms During the year 1941-42 21 million lbs of yarn were spun and 69 million lbs fabrics woven

The most notable advance of recent years is that the hosiery industry at LUDHIANA has been able to increase its output due to the tariff duty on imported hosiery goods Ludhiana has become a great hosiery centre and is able to offer employment to about 6,000 workers. The hosiery factories at LAHORE and AMRITSAR also do quite well

The sugar industry in the province is not much developed, there being only 3 sugar mills producing about 1,1700 tons during 1937-38 and 7,500 tons in 1938-39 Two match factories in the province did not fare well due to competition from foreign companies in India

The manufacture of cutlery and surgical instruments, in view of the development that are taking place at Sialkot, Wazirabad and Nizamabad, affords signs of fair promise The sports goods industry which is mainly centred at Sialkot, had a good year Factories manufacturing electric fans increased their production and improved the quality of their goods A starch factory has recently been started at ABDULLAPUR

Factories—In 1938 there were 887 factories in operation, employing 72,268 hands Of the factories 400 are seasonal There were 50 hosiery mills, 5 silk mills, 6 woollen mills, 38 rice mills, and aerated water factories, 2 match factories, 1 paper pulp mill, 16 oil mills, 42 engineering works, 2 petroleum refineries and 371 cotton ginning presses

Trade—Export of wheat is the main source of wealth of the Province Other principal exports are Indian piecegoods, cotton twist and yarn, drugs, turmeric and other dyes and tans, oil cake, oil-seeds, mineral and vegetable oils, fresh fruit and vegetables, bran and crushed fodder, gram, pulse, wheat, flour, hides and skins and leather, saltpetre, timber, wool (raw and manufactured), unrefined sugar,

POPULAR HANDBOOKS As. 5 each Write to:—
INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

tobacco, salt, etc The imports are cotton piecegoods, twist, yarn, dyes, tans, gunny bags, cloth, liquors and even wheat and grains in times of scarcity, besides chemicals, drugs, medicines, hemp and other fibres, metals and machinery, rice, coconut oil, coal and coke, copra, mineral oils, paper, pasteboard, ghee, dried fruits and nuts, spices, tea, manufactured tobacco, provisions, refined sugar, etc Export trade is mainly with Karachi in wheat, raw cotton, oilseeds, hides and raw wool The imports through Karachi are piecegoods (both woollen and cotton), sugar, metals, railway plants, silk, tea, tobacco, etc Trade with Kashmir is chiefly in rice, grain, ghee, timber, oil seeds, wool, silk, hides and skins and fruits from Kashmir The exports to that place are piecegoods, wheat, tea, metals, sugar, salt, tobacco, charas, borax and ponies The exports to Kabul through the Passes are cotton, metals, leather, piecegoods and sugar, the imports from Kabul are fruits, ghee, raw wool, etc, etc

The principal commercial centres in the Province are LAHORE, JULLUNDER, LUDHIANA, MULTAN, SIALKOT and AMRITSAR Commercial activity in the Punjab appears to have noticeably developed within recent years The Punjab has considerable trans-frontier trade It plies a good trade with Northern and Eastern Afghanistan and Kashmir and through them with Central Asia and Turkistan

Transport and Communication.—Almost all the towns are now connected with the interior by a system of motor buses, which generally carry passengers, but motor lorries are also used now-a-days for carrying goods in some cities and stations on the railway line.

The Punjab, which is strictly speaking, an entirely inland country having its five rivers practically unnavigable during the greater part of the year, has got to have all its trade movements by railway and road And it is well provided with railways and roads Karachi in Sind, the natural harbour of the Punjab, is directly connected with the Province by the N W Rly The Southern Punjab Railway and other branches of the N W Rly traverse the Province and link almost all the important towns for easy means of communication and transport. The B B & C I Rly crosses the south-east border of the Province There are about 7,000 miles of railways open in the Province, besides about 4,000 miles of metalled roads including the Grand Trunk Road leading to Calcutta There are about 25,000 miles of unmetalled road and about 200 miles of navigable canals

AMBALA DISTRICT.

The AMBALA district comprises an area of 2,627 sq miles and a population of 742,902 whose languages are Hindustani and Punjabi. Rainfall averages about 28" The autumn harvest is more important than the spring one The chief important crops are wheat and gram, other crops are barley, maize, rice, pulses, millet, cotton, etc

Chief crops are rice, wheat, jowar, maize, gram, other grains and pulses, linseed, sesamum, rape and mustard, other oil seeds, sugarcane, cotton, fodder crops, and fruits and vegetables

The district produces excellent cotton carpets There are ginning and pressing factories besides big flour mills and a factory of scientific apparatus.

AMBALA CITY (population 35,193) is a big grain and castor market and imports gram and cotton from Phulkian States and Ludhiana. It imports cotton cloth and iron from the south and also woollen and silk goods The chief exports are carpets, ginger, turmeric and potatoes There is a big glass factory here which is doing well. The aluminium factory however has lately stopped working

Solve unemployment Problems? Read CAREERS FOR AGENTS & MIDDLEMEN. Industry Book Dept., Shambazar, Calcutta.

RUPER is another mart for commerce with considerable trade in grain, sugar and indigo. Salt and iron are exchanged as well as ginger, turmeric, potatoes and country-made cloth.

JAGADHRI (population 13,638) has a good trade in minerals and metals and is also a centre of borax trade. Copper and iron are imported. A big paper mill has lately been started here. It is capable of producing paper to the value of 50 lakhs of rupees. It is 31 miles from Ambala Cantonment.

KASAULI.—It is a sanatorium and a hill station 8 miles from Dharampur Rly. Station on the Kalka-Simla Railway frequented both by Europeans and Indians.

SOHANA.—Cooking utensils and glass bangles are made here.

AMRITSAR DISTRICT.

The AMRITSAR district has an area of 1,574 sq miles and a population of 1,413,876. Languages spoken are Gurmukhi, Punjabi and Urdu. The average rainfall is about 26".

Chief crops are wheat, rice, bajra, maize, gram, rape and mustard, sugarcane, cotton, fodder crops and fruits and vegetables.

Raw wool of fine quality is available here in large quantities for internal trade and export.

AMRITSAR (population 389,581) —It is the most flourishing city in the Punjab and is famous for its carpets and shawls of pasham (fine wool of Tibetan goat) which have a ready sale all over the world. Cotton spinning and ginning workshops are the other industries. The articles of import are grains, pulses, sugar, oil, salt, tobacco, raw cotton, piecegoods, threads, shawls, wool, wood, silk, coarse cloth, blankets, metals, hardware, glass and dye stuffs, many of these imports however are re-exported. The exports are wheat, shawls, carpets, cotton goods, brass vessels, jewellery, etc. Dry salted goat skins technically known as Amritsars are exported from this place.

Among the new industries of the town may be mentioned the manufacture of textiles, acids and chemicals, aluminium wares, soap, hosiery, oil, leather, glass, iron foundries, etc.

It stands on the main line of the N W Rly and is 33 miles from Lahore, 400 miles from Agra and 1,143 miles from Calcutta. Besides Dharamsalas, there are decent hotels in the town and in the civil lines. Conveyances are available in the town which is electrified.

Fairs:—Two large fairs are held at AMRITSAR—one, the Baisakh, during April, and the other, the Diwah, during November. There is also a large trade in these fairs with merchants of distant lands like Bokhara, Kabul and Kashmir, mainly centering round the carpet industry. An important cattle fair is held along with an annual horse fair.

ATTOCK DISTRICT.

The ATTOCK district (area 4,178 sq miles, population 583,960) has an average rainfall of about 17".

The chief produces of the district are wheat, bajra, gram, other grains and pulses. Fodder crops, cotton and sugarcane are also grown. The district is noted for horse breeding.

Countrymade cloth, iron vessels, locks, stirrups, saddles, shoes and soap are manufactured in the villages. The only substantial industry is the manufacture of snuff which is carried at HAZRO. This apart, the district has very little trade.

CAMBELPUR, Sadar Station, is a small cantonment and municipality 528 miles from Delhi.

WAH —It is a growing centre of trade with a big cement works where cement, cement tiles and allied products are made.

Solve unemployment Problems? Read CAREERS FOR AGENTS & MIDDLEMEN. Industry Book Dept., Shambazar, Calcutta.

KHAUR—Mineral oil (petroleum) is extracted at this place by the Attock Oil Company and finds wide market in the Punjab and elsewhere. It is not situated on Railway. It is however connected by a metalled road with Rawalpindi.

HAZRO—An important town in the district. Much tobacco is grown in the neighbourhood and this is converted into snuff here. The industry is a flourishing one.

TALLAGANG is a small town in the centre of the tract in which the locally celebrated Dhami cattle are bred. It is not very accessible and is best reached from Rawalpindi via Chakwal.

Fairs:—There is only one important fair in the district. This is the Tallagang cattle fair held in March each year.

DERA GHAZI-KHAN DISTRICT.

The DERA GHAZI KHAN district (area 5,428 sq miles, population 491,044, languages, Multani or Jatki and Baluchi) has an annual rainfall averaging 22"

Chief crops are wheat, rice, gram, grains and pulses, cotton, rape and mustard, etc.

The industries of the district consist of weaving of woollen fabrics, blankets, carpets and saddle bags, silk is woven at DERA GHAZI KHAN and ivory bangles are made. There is also a cotton ginning and spinning mill in the district. Blankets, felt, rugs from sheep's wool are made at DERA GHAZI KHAN, which is the Sadar Station of the district. Toys and wooden furniture are made in JAMPUR, fine woollen carpets in ROJHAN, and leather shoes in TAUNSA.

The exports to Karachi down the Indus are wheat, millet, cotton, hides and mustard seed. Medicinal herbs, dates, vegetables are exported to Loralai Cantonment. Raw wool also figures amongst exports. Wheat and millet are imported from higher up the Indus. Other imports are salt, pulses, sugar, leather, iron and piecegoods from Multan.

A brisk trade is carried on in dried fruits, herbs and minerals which are available at cheap prices, suitable specially for Calcutta and Bombay traders.

Fresh fruits are imported from Quetta and other hill stations on camels by Pathan caravans in water and there is a mandi of dried fruits such as almond, pistachio, chalthoza, raisins, green and black. The surplus fruit is transported to Multan on the Indus Bridge on camels.

The chief trade centres are DERA GHAZI KHAN (population 23,468) and MITHARKOT.

The India-Khorasan trade is carried on mainly through Dera Ghazi Khan. The district has no railways.

There is a lorry service from Dera Ghazi Khan to Pishin and Quetta, Baluchistan via Barkhan and Loralai Cantonment. All the route by land is inhabited by Mohamedan hilly tribes, e.g., Legari, Khetran, Khosa Baluchies, mostly illiterate who maintain themselves on their hilly productions. Panir, majeth saji and several minerals are found near YARU on estate of Khosa Sardar. The hilly streams during rains cause damage to the fields near Makwal Kalan.

Fairs:—Cattle fairs are held at Tanusa, Jan 1 day, Rojhen, Jan. 1 day, Fazilpur, March, 1 day. A fair is held at Lalgarh in Jan. 1 day.

FEROZEPUR DISTRICT.

The FEROZEPUR district covers an area of 4,064 square miles, and has a population of 1,156,732. Languages are Punjabi and Hindustani. The average rainfall is about 15 inches.

MANUFACTURE OF SOAP? Read "MANUFACTURE OF SOAP." INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

The main crops grown are wheat and gram, barley, millets, rice, maize and moth are also cultivated. Raw wool of the place is considered good.

Industries comprise of weaving and carpentry, which supply the need of agricultural occupation.

Typical plants of the uplands are—Shusham, Kikar, Lemons, Mangoes, Bui-Khip, Tuma, Latia, Chuhri, Sarotia, Bel and Jawann.

The chief exports are agricultural produce and wool. A large quantity of wheat, barley, grams are exported from the different markets. The principal imports are salt, coal and gunny bags, kerosene oil, cotton piecegoods, and cotton seeds.

The industries are purely local, coarse cloth and blankets are woven, carts of FEROREPORE are famous, mats and lacquered-ware are also made.

FEROREPORE (population 64,634), the Sadar station, is a seat of thriving commerce. It is a large and prosperous grain market.

MOGA (population 17,581), 34 miles from Ferozepore, is one of the leading markets for grain in the district. It exports principally wheat, gram, barley, ghee and maize, while its main items of import are sugar, piecegoods, cotton seed and arms and ammunition.

ABOHAR (population 14,035) only 45 miles from Bhatinda is a big market for wool, gram, tobacco, saji, oil seeds and vegetables.

FAZILKA (population 18,463) the leading wool market in India, exporting a very large quantity of Bikaner wool to Liverpool via Karachi. Wheat, ghee, grain, tobacco, chillies and hemp are also exported from here. Sugar, piecegoods and iron are its chief imports.

MUKTSAR (population 14,839) is a sacred place of Sikhs where at the annual fair on Makar Sankranti Day about 50,000 people congregate from all parts of the Punjab. It is one of the important markets for grain specially wheat and gram. It exports a large quantity of ghee, vegetable oil and gur.

GIDDERBAHA (population 3,626), only about 15 miles from Bhatinda, is an important market for wool, grain, tobacco, saji and oil seeds.

Other centres of trade are BIRA and NATHANA.

Fairs.—Cattle Fairs are held at ABOHAR, Abohar Municipal and Cattle Fair, Feb, 7 days, ZIRA, Zira Municipal and Cattle Fair, Oct, 11 days, MUKTSAR, Horse and Cattle Fair, Jan, 9 days, District Board Cattle Fairs—Dharamkot, May, 7 days, MOGA, June—July, BADHNI, Aug, 8 days, ABOHAR, Aug, 8 days, MOGA, August, 10 days, TALWANDI BHAI, Sept, 8 days, MUKTSAR Sept, 6 days, GIDDERBAHA, Sept, 7 days, TALWANDI BHAI, May, 7 days and Oct, 6 days, DHARAMKOT, Nov, 8 days, ABOHAR, Sept—Oct, 9 days, Dec, 7 days, MALOUT, Jan, 8 days, MOGA, Feb, 8 days, GIDDERBAHA, Feb, 7 days, BAGHA Purnana, March, 7 days, ZIRA, March, 9 days; FEROREPUR, Nov, 8 days.

GUJRANWALA DISTRICT.

The GUJRANWALA district covers an area of 2,907 sq miles and has a population of 736,138. Languages are Hindustani and Punjabi. The average annual rainfall varies from 23" to 27".

Chief crops are rice, wheat, bajra, gram, rape and mustard, sugar-cane, cotton, fodder crops.

Gypsum is found at NURPUR.

Silk and cotton cloth are woven and there are several steam mills and factories. Oil milling is done, SANGLA, HAFIZABAD and GUJRANWALA are the centres of mill industry. A large and growing

MANUFACTURE OF SOAP? Read "MANUFACTURE OF SOAP." INDUSTRY BOOK DEPT, 22, R. G. Kar Road, Shambazar, Calcutta.

trade is being carried on in wheat, grains, cotton, oil, oilseeds, brass vessels, and ghee

Principal items of export are iron safes, brass vessels, gram, linseed, aluminiumware and wheat. The imports consist chiefly of piece-goods, paper, cloth, country soap, sugar, wines and general merchandise

HAFIZABAD (population 14,431) —It is an important gram, cotton, and rice market 30 miles from Gujranwala (by road) and 100 miles from Lahore. It exports large quantities of rice, gram, wheat, cotton, sugar, etc and imports cotton and woollen goods, sugar, spices, coal and general merchandise.

WAZIRABAD (population 20,707) a centre of considerable trade in the district, lies at a distance of 20 miles from Gujranwala. The chief industry of Wazirabad is cutlery and Malacca sticks. The trade of the town is timber from Kashmir which arrives via the Chenab

GUJRAT DISTRICT.

The GUJRAT district (area 1,973 sq. miles, population 922,427, language Punjabi) is hilly to a certain extent. Rainfall averages 25"

Chief crops are wheat, bajra, grains and pulses, rape and mustard, cotton and fodder crops. The average holding is very small and there is great need of intensive cultivation

Furniture of GUJRAT is of good quality. Damascening of iron and brass for ornamental work, cotton cloth weaving and hemp sack making form the industries of the district. Cloth weaving, inferior wool and pasham are woven at JALALPUR. Soap making, boot and shoe making are also done

The district exports, in considerable quantities, wheat, millet, oil seeds, oil, ghee, wool, cotton and hides by rail generally. The district imports piecegoods, iron, salt, sugar, rice, wool, brass vessels, spices, dyes, etc

GUJRAT is the Sadar Station and the only place of commercial importance

MANDI BABEDDIN (population 26,511) is also an important trade centre, and is a distributing centre of raw iron, foreign goods, etc to the villages. Trade in dried fruit from Kashmir is also pursued

Other trade centres are JALALPUR JATTAN (12,507) and KUN-JAH (population 7,152).

Fairs.—Chief fairs are —Gujrat Horse Show and Cattle fair, Phalia Tahsil Cattle fair at Chak No 40; One day cattle show at Chak Manju Ajwala, Kahlan Husspur, Jaurakarua, Pindi Badaddin and Sherewala

GURDASPUR DISTRICT.

The GURDASPUR district (area 1,822 sq miles, population 970,898, language, Punjabi) is intercepted by numerous hill streams, besides the Ravi and the Beas. The annual rainfall averages about 80"

The soil is rich and fertile specially, the Doab and the river beds

Chief crops are wheat, rice, maize, gram, other grains and pulses, sugarcane, cotton and fodder crops

PATHANKOTE tahsil is abundantly wooded and contains many mango groves and bamboos, hand weaving of wool is also practised. Wool used generally comes from Tibet. Coarse blankets and soap are made at BATALA. Harness and leather goods are made at DINA-NAGAR. Iron, sugar and ivory bangles are also made in the district. Sugar refining is widely practised. There is distillery at SUJANPUR

The chief exports are grains, sugar, oil seeds, cotton and woollen stuff. The main imports are rum (from Sujanpur), gram from Ludhi-

Up-to-date methods of production, preservation and marketing of fruits are given in ALL ABOUT FRUITS, Rs 2/8. Industry Book Dept., Cal.

ana and Ferozepur), ghee (from Kashmir), cotton (from Ruper), iron and piecegoods (from Delhi and Amritsar)

GURDASPUR (population 12,226) is an important market for gram, wheat, gur, sugarcane, raw sugar, vegetables, potatoes, oil, rice and pulses. Lungis, susi, belts, and silk cloth are made here. It is the chief trade centre in the district.

DALHOUSIE, a hill station and a sanatorium in Pathankote, is 7,687 feet above sea level.

BAHLOH is another hill station in the district.

Traffic is mainly carried by rail, but road traffic to Sialkot and Jammu also exists.

Fairs:—District Board Cattle fairs are Shahgarh Tehsil, Shakar-garh, June, Gurdaspur, September, Batela, October.

GURGAON DISTRICT.

The GURGAON district (area 2,223 sq miles; population 851,458; languages, Urdu, Hindi and Mewati) is situated on the outlying hills of the tableland of Rajputana. The rainfall averages 22.06".

The chief crops are barley, wheat, millets, bajra, gram, pulses, cotton, sugarcane, etc. Hariana cattle are bred in the district.

The industries comprise weaving of coarse cotton cloth. Muslim is woven at REWARI but brass manufacture of REWARI is the chief industry. Shoes are made at JHARSA. There are several ginning and pressing factories.

The chief exports are sugar, grains, piecegoods, hardware, besides cereals and pulse in which the district has a large trade. The imports are salt (from Sambhar Lake), iron, etc.

GURGAON, the Sadar Station, is 20 miles from Delhi on the B. B. & C. I. Ry. Its principal items of trade are ghee, gram and cotton.

REWARI (population 30,673), the chief centre of trade in the district, is a station on the B. B. & C. I. Ry. It has a large export trade in wheat, gram, mung, pulse, sugarcane, barley, metalware and brassware. Merchants deal with Northern India and Rajputana.

BALABAGH, a station on G. I. P. Ry., 22 miles from Delhi and 930 miles from Bombay, possesses a mandi for grain, bajra, gram, barley and cotton.

PALWAL (population 13,606) also on the G. I. P. Ry. (Agra and Delhi Br.), is a depot for the cotton of the surrounding country.

HODAL exports ghee, cotton, gram and wheat.

Other trade centres are NUH, FIROZPUR-JHIRKA, HATTIN, NAGINA, PUNOHANA, HANSANPUR and FURRUKHANAGAR (for Sultanpuri salt). The traffic is mainly rail-borne.

HISSAR DISTRICT.

The HISSAR district (area over 5,000 sq miles, population 899,479, languages, Urdu, Punjabi and Bagri) is situated on the border of Rajputana. The rainfall is about 16" on the average. Cattle of Hissar are reliable and the wool of this place takes the foremost place among Indian wool.

The crops raised are gram, barley, wheat, spiked millet, great millet, pulses, sugarcane and cotton, where the land is irrigated, maize, rice etc. are also grown to a small extent. Coarse cotton cloth is woven. There are ginning and pressing factories. Hansi is the industrial centre besides BHIWANI and NARNAUND. Brass and metal works are situated at BHIWANI, which is noted for its carved doors and carpentry work. The centres of trade are BHIWANI, HANSI, HISSAR, BUDHLADA and SIRSA.

Up-to-date methods of production, preservation and marketing of fruits are given in ALL ABOUT FRUITS, Rs 2/8. Industry Book Dept., Cal.

Piecegoods and hardware are the imports. The exports include wheat, flour, ghee, gram, barley and cattle. Trade is mainly rail-borne with Rajputana.

HISSAR (population 25,343) is a junction on the Bhatinda Rewari Section of the B B & C I Rly and the terminal of the N. W Rly (Ludhiana-Dhuri-Jakhal Section and terminal of the Bikaner State Rly). It is the Sadar Station and is famous for good cattle. Buffaloes are exported from here to as far as Bombay. It has a large trade in cotton and red-pepper. There are cotton ginning and pressing factories. The place is an important centre for export of grain, fruit, raw sugar, and vegetables to Rajputana. Ghee from the surrounding villages is collected here for export to Delhi and other places in the Province.

SIRSA (population 16,855) —This place is situated on the B B & C I Rly near the Ghaggar. The surrounding country in case of sufficient rain produces valuable agricultural crops of grains and seeds, which are exported in large quantities. Ghee is available and is largely exported. Other products of the place include gram, maize, wheat, linseed, mustard seed, cotton, oil cake, sugarcane, etc. Goods are transported by rail and motor to Delhi generally.

BHIWANI (population 35,866), 38 miles from Hissar, is famous for its half yearly cattle show fair which continues for 15 days. It exports wheat, gram, barley, and gur, by rail and imports cloth, sugar, spices and general merchandise by motor.

Other centres of trade are **HANSI** (population 20,421), **FATEHABAD** (population 2,497), **TOHANA** (population 7,519), and **DABWALI** (population 1,619).

Fairs.—Important fairs are held at Hissar, cattle fair, Feb-March and September, Shival, Sivaratri, Hansi, cattle fair, 11 to 18 March and Sept 25 to Oct 4, Kirmara, Sivaratri fair, Kagdana, Ramdeo fair, Jan 30, Sirsa, cattle fair, Feb 14 to 22 and Aug 20 to 29, Kurangawali, Ramdeo fair, Jan 29, Fatehabad, Cattle fair, Aug 12 to 18 and Feb 18 to 24, Dhamana, Mata fair, 8 days in March, Bhiwani, cattle fair, March 19 to 26 and Oct 18 to 27, Bhodia Bishnoiyan, Ramdeo fair, Jan 30, Juglan, Sivaratri, Hissar, Dusehra, Oct 22, etc.

HOSHIARPUR DISTRICT.

The **HOSHIARPUR** district occupies an area of 2,180 sq miles and has a population of 1,032,187. Languages are Urdu and Punjabi.

Chief crops are wheat, maize, gram, rice, other grains and pulses, sugarcane, cotton, fodder crops, fruits and vegetables. Mangoes grow abundantly and are largely exported to Lahore, Amritsar and other places.

Weaving of cotton fabrics, coloured turbans and cloths, is the principal industry in the district. Weaving of artificial silk fabrics of different designs has lately developed to a considerable extent throughout the district and more particularly in the suburbs of Hoshiarpur. Ivory or bone and copper inlaid work is done at HOSHIARPUR, lacquered wooden work and silver work, glass bangles, shoes of Sambhar (deer), cups and glass of coloured glass are made at DASUYA. Brass vessels are made at BAHADURPUR and BASI GHULAM HUSSAIN. Fruit preservation is carried on at HOSHIARPUR and GARHDIWALA. The preserves of oranges, carrot, karaila, bamboo and mangoes, etc are prepared at GARHDIWALA.

The exports are rice, gram, barley, sugar, hemp, safflower, fibres, tobacco, indigo, cotton, lac and wheat. Sugar is refined in large towns and exported to Amritsar. The imports are cotton cloth from Delhi.

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation. Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

and Amritsar, millet and other crops come from the south of the Sutlej and cattle come from Amritsar

HOSHIARPUR (population 26,730), the headquarters of the district, is famous for the production of articles of wood inlaid with ivory, for brasswares and glass bangles. The principal trade of the town consists of exports of grain, sugar, rice, and tobacco

Fairs:—Sirsa, 10 days, Sawan shudi 6th to Sawan sudhi 15th; Fatehabad, 7 days, Bhadon badī 1st to Bhadon badī 7th, Hissar, 15 days, Bhadon shudi 10th to Asauj badī 9th, Hansi, 10 days, Asauj badī 10th to Asauj shudi 4th; Bhiwani, 10 days, Asauj shudi 5th to Asauj shudi 14th, Sirsa, 8 days, Phagon badī 12th to Phagon shudi 4th; Fatehabad, 7 days, Phagon badī 5th to Phagon badī 11th; Hissar, 15 days, Phagon shudi 5th to Chet badī 4th, Hansi, 8 days, Chet badī 5th to Chet badī 12th, Bhiwani, 8 days, Chet badī 13th to Chet shudi 5th

JHANG DISTRICT.

The JHANG district (area 3,387 sq miles, population 821,631, language, Punjabi) is very dry and the rainfall averages about 9".

Chief crops are wheat, cotton, grains and seeds, pulses, etc

Wood carving and carpentry of CHINIOT (population 34,437) are famous. Sandals and locks of good quality are made at JHANG-MAGHIANA. Cotton weaving is practised. Preparation of cotton for the market is an industry and the district has several flour mills and iron foundries

The chief article exported are wheat, cotton, wool, ghee, oil seeds, hide and other agricultural products. The imports are iron, timber and piecegoods. There are not sufficient metalled roads in the district and the traffic is carried mainly by rail (N W Rly) and to some extent by lorries

JHANG-MAGHIANA (population 50,051) is the district headquarters and has a considerable trade in gram and country cloth. Leather, soap, locks and other brass work are manufactured here

JHELM DISTRICT.

The Salt Range of the Punjab passes through the JHELM district (area 3,900 sq miles, population, 541,076, language, Punjabi). The greater part of it consists of sandstone. The average rainfall is 21"

Chief crops are wheat, bajra, gram, grains and pulses, rape and mustard, fodder crops. Output of coal in 1939 was 68,998 tons

Boat building is carried on at JHELM. Brass vessels are made on a small scale at PIND DADAN KHAN. Silk lungis are also prepared, though not in great quantity as before. Ivory combs are made at JHELM, and desi soap at CHAKWAL. Woollen cloth is made at JABAIRPUR in Chakwal Tahsil and exported therefrom. Water mills are used for grinding

CHAKWAL (population 15,593) is a trade centre whence silk cloths and Dhudial blankets are exported.

JHELM (population 23,499) is an important timber depot, being the headquarter of the forest officer of Jhelum. The article of trade are stone, ivory combs and khes. Dhudial blankets and legs of charpans are made and exported from here

PIND DADAN KHAN is now no longer a trade centre owing to salination which has ruined the town. Desi soap is the only item of manufacture now a days

KHEWRA has recently expanded a good deal. Common salt from the Salt Mines, Khewra, is the most important item of export. Seth Ram Awtar Brij Lal and Seth Ram Rachhpal Brijhi Chand are the

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation. Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

prominent salt traders of the place Recently Dalmia Cement Ltd. have installed a cement factory at DANDOT near Khewra with a capacity of manufacturing 250 tons of cement in a day, and Dalmia cement is now the second important item of export. Other important exports are coal from Dandot Collieries, lime stone, gypsum and agricultural products Imports chiefly consist of piecegoods, iron, sugar, cotton and paper

The Alkali & Chemical Corporation of India Ltd have under construction a huge factory at KHEWRA for the preparation of soda ash, which will shortly be another very important item of export

There are roads and traffic is carried on by lorries.

Fairs:—(i) A big Mohammadan fair is held at Choa Saidan Shah in Pind Dadan Khan Tahsil on the last Thursday and Friday of Chet falling in the second week of April every year, and people from all parts of the district and adjoining districts come to attend the fair and pay homage to the tomb of Bawa Saidan Shah (ii) A very largely attended Hindu fair is held every year at Katas Raj in Pind Dadan Khan Tahsil on the first day of Baisakh corresponding to about the 13th April Katas Raj is a place of great religious and historical importance to the Hindus and is one of the biggest places of Hindu pilgrimage in India It is about 12 miles from Railway Station Khewra and a couple of miles beyond Choa Saidan Shah (iii) Choa fair is held in the second week of April to pay homage to the tomb of Bawa Saidan Shah, a Muslim priest (iv) Patas fair takes place on the first of Baikash where pilgrims from all parts of India visit in large number (v) Chakwal cattle fair is held in the first week of April where agricultural and industrial exhibitions are held (vi) Padshahan cattle fair is held in the middle of June

The main line of the N W Rly, between Peshawar and Delhi passes through Jhelum town which is 185 miles from Peshawar, 103 miles from Lahore and 77 miles from Rawalpindi

JULLUNDUR DISTRICT.

The JULLUNDUR district (area 1,131 sq miles, population 943,721, language, Punjabi) forms the Southern part of the Beas Jullundur Doab

Chief crops are wheat, maize, gram, other grains and pulses, cotton, and fodder crops

A good deal of cotton weaving is carried on in the district. Silk is woven at JULLUNDUR TOWN Hookah tubes and iron jars are manufactured at NAKODAR The district is reputed for carpentry work and brass vessels There are flour mills, iron and brass foundries and gins and presses Trade is mainly in agricultural produce

Grains are imported from Ludhiana, Ferozepur and the States for export to the hills Sugar and molasses are manufactured and exported The district sends out considerable quantities of silk, gold lace, carpentry work, buckets, mangoes, wheat, gram, etc, etc all over the Punjab, the U P, and Central India.

JULLUNDUR TOWN, (population 89,030) a Station on the N W. Rly, is the district headquarters The town, manufactures gold lace (gota), steel trunks and buckets There are flour mills and iron and brass foundries Silk is woven and cabinetware is turned out. It is an important military station.

Other centres of trade are NAWASHAHR, PHILLOUR and NAKODAR

Traffic is rail borne and the district is exceptionally well provided with roads

Valuable directions for construction of aerials and receivers are explained in RADIO RECEPTION IN THEORY & PRACTICE. Price Rs. 2/8.

KANGRA DISTRICT.

The KANGRA district (area 9,976 sq miles, population, 899,062, languages Gadi, Punjabi, Urdu, Lahauli, and Bhoti) has an average rainfall of over 70"

Iron smelting is carried on in KANGRA on a small scale as iron ores are found in the district Copper is also met with at KULU

Chief crops are wheat, barley, maize, rice, gram, other grains and pulses and potatoes The climate of Kulu is suitable for growing all sorts of European fruits and vegetables The district has a large trade in pears and apples

Tea making is the important industry During 1941, 273,092 lbs of black tea and 2,669,261 lbs of green tea were produced in the district Cotton cloth is woven and baskets and blankets are made at KANGRA, KULU, LAHUL and SPITI Glass bangles are also made in the district

The chief exports consist of rice, tea, potatoes, spices, indigo, skins, piecegoods, blankets, pashmina wool, ghee, honey and beeswax, and the imports are raw silk and wool, charas, and general merchandise

The chief centres of trade for Kangra in the plains are at Hoshiarpur, Jullundur, Amritsar and Pathankot Considerable foreign trade exists with Ladakh and Yarkand through SULTANPUR in Kulu The exports to those places are cotton piecegoods, indigo, skins, metals, silk, sugar, and tea, and the imports from those places are ponies, borax, charas, raw silk and wool

Internal trade centres are KANGRA, PALAMPUR, SUJANPUR, TIRA, HAMIRPUR, JAWALA, MAKHI and NURPUR Traffic is cart-borne Sadar Station is DHARAMSALA

Fair.—A religious fair is held at Jawala Mukhi and Kangra during the Dusserah season and at Kulu in October Agricultural, industrial and cattle fairs are held at Bhawarua (Tahsil Palampur), Narihana (Tahsil Debra) in May and at Nagrota (Tahsil Kangra) in March

KARNAL DISTRICT.

The KARNAL district (area 2,396 sq miles; population, 852,613, language, Hindustani) is watered by the Jumna canal Kankar is abundantly found in the district

Chief crops are gram, wheat, rice, jowar, bajra, maize, other grains and pulses, rape and mustard and sugarcane, and cotton, fodder crops Haryana breeds of cattle are met with

KARNAL is famous for cotton Durries, Khesh (Bed Sheet) and other such articles There is one ginning factory and vegetable Oil Refining Work There are two large Agricultural Imperial Research Institute and Govt Dairy Farm There is also a Girls' Normal High School besides other training institutions

In PANIPAT there are oil mill, ginning factory, blanket and wool spinning arrangement also brass utensils and other articles are made

The exports are wheat, cotton, gram, fine rice, ghee, brass vessels, glass, sal ammoniac and saltpetre The imports are salt, oil seeds, iron and piecegoods

KARNAL (26,610), the district headquarters, exports grains and other raw products to Ambala, Delhi, Hissar and adjoining places Raw sugar is sent out further north Blankets, saddlery goods, harness and other leather goods form the chief industries of the town It does an extensive export trade in these articles

PANIPAT (population 32,915) is another trade mart. Other trade marts are KATHAL (population 19,418), THANESAR and GUHLA

Valuable directions for construction of aërials and receivers are explained in **RADIO RECEPTION IN THEORY & PRACTICE.** Price Rs. 2/8.

N W Railway and the Grand Trunk Road run through the district. The Delhi and Hansi branches of the Jumna Canal are also navigable to a certain extent.

LAHORE DISTRICT.

The LAHORE district (area 3,648 sq miles, population 1,378,570 languages, Urdu and Punjabi) has an average rainfall of 23"

The district produces rich crops of wheat, gram, barley, cotton maize, rice and millets.

Cotton weaving, vegetable oil crushing, ivory bangle making leather and furniture making and printing on cloth are the industries. There are several gins and presses and there is a big railway workshop (N W. Ry.) The chief exports from the district are wheat, cotton, oil seeds and cotton seeds in large quantities. The important imports are piecegoods, brass and copper vessels, salt, sugar, oil engine, machinery parts, motor cars, etc.

KASUR —Leather goods and cotton carpets are manufactured here. It is only next to Lahore in importance. It is the centre of local trade and exports cotton and grain.

JALLO —There is a resin manufacturing factory situated at this place. Good resin is made here.

LAHORE —Lahore, the capital of the Punjab with a population of 429,747, stands on the river Ravi. Its nearness to Karachi drifts much of its trade to that port. It is the chief trading centre for the agricultural produce of the district. Wheat and other produces are transported from here to Karachi for export. Leather trade here is an important one and a large quantity of saddlery and shoes is turned out annually. Rugs and carpets are woven on a large scale. Cotton fabrics are largely made. Cotton weaving, spinning, ginning and pressing are carried on to some extent. Factories of modern types for the manufacture of soap, chemicals, hosiery, etc., are developing. There are tanneries, glass works, flour mills, sugar works, tobacco works, oil mills, ice factories and saw mills.

SHAHDARA —It is a centre of cotton weaving and printing industry. Refining of saltpetre is conducted on a large scale and several factories are engaged in manufacturing it from efflorescent earth. There is also a match factory here.

LUDHIANA DISTRICT.

The LUDHIANA district (area, 1,375 sq miles, population 672,494, language, Punjabi), has an average rainfall of 30"

The chief crops are wheat, gram, barley, rape seed, maize, pulses, millet and sugarcane.

Shawl weaving, cotton stuff, ivory billiard ball making, sugar refining, oil pressing, etc., are the main industries. There are several cotton gins and presses and flour mills.

The chief exports are wheat, maize, jowar, oats, barley, vegetable oil, rape seed, millets, pulses, woollen and cotton goods. The principal imports are piecegoods, cotton yarn, sugar, iron, salt, barley, brass and copper vessels.

LUDHIANA (population 68,586) is the centre of hosiery and woollen underwear manufacture. There are ice and dairy factories. It is an important grain market and all kinds of grains, viz., wheat, millet, etc., are brought for sale and exported to neighbouring towns. Ludhiana supplies turbans to almost all the Indian Regiments.

KHANNA (26 miles from Ludhiana) is an important market for salt, cotton and rice.

For detailed methods of construction of radio sets consult RADIO RECEPTION IN THEORY & PRACTICE. Rs. 2/8. Industry Book Dept.

JAGRAON, (population 68,586), 24 miles from Ludhiana, has a good grain market known as ANDERSONGUNJ. It exports brassware, copperware, woollen blankets, rice, gram, wheat, tobacco, pulses, barley, etc.

SAMRALA is also a centre of trade.

The traffic is carried by rail and boats. N W Rly traverses the district which is well supplied with metalled roads.

LYALLPUR DISTRICT.

The LYALLPUR district with a population of 13,96,305, covers an area of 3,514 square miles. Average annual rainfall is about 12 inches.

The district can justly claim to be the agricultural centre of the Province. Wheat, cotton, sugar-cane, toria and gram are grown in abundance and are exported to other places in the Province and beyond.

There are 8 mandis in the district, namely, LYALLPUR, CHAK JHUMA, JARANWALA, TANDLIANWALA, GOJRA, TOBA TEK SINGH, PIR MAHAL and KAMALIA which send along the agricultural produce of the countryside by rail and lorry.

LYALLPUR (population 69,930) the district headquarter is a flourishing industrial town and probably the biggest wheat exporting centre in the Province. It has an agricultural college which not only imparts knowledge on agriculture, but has also well equipped research laboratories. Apart from a considerable number of cotton ginning factories a number of other sorts of factories operate here. These include cotton mills, flour mills, vegetable ghee mills etc. The town is situated at a distance of 87 miles from Lahore and is connected with it both by rail and a metalled road.

TOBA TEK SINGH (population 6,066) is an important grain market. Wheat (in large quantities) and cotton are exported from here. It is the headquarter of a Sub-Divisional Officer (Civil).

GOJRA (population 12,964) is the second big market in the district. It exports wheat, cotton and toria. It is also an important eye treatment centre where patients gather from far and off for treatment.

JARANWALA (population 9,833) is a good grain market and is responsible for exporting wheat, cotton, and toria to other places.

KAMALIA (population 14,295) is a grain market. The town is known for its loom spun goods and printing on cloth.

Fairs.—Cattle fairs are held in all the mandis in the district almost every month. The biggest of them is the Cattle Fair held at Lyallpur in autumn and spring every year which last for a week. Agricultural and industrial exhibitions are also held on this occasion.

MIANWALI DISTRICT.

The MIANWALI district (area 5,368 sq miles, population 3,73,402. Elevation, 655 ft) is crossed by the Indus. The district has an average rainfall of about 12" only.

The district produces rich crops of wheat, barley, gram, bajra, pulses and jowar.

Rock-salt, alum, rock-oil, petroleum and coal are also available. The chief industries are the making of iron vessels and instruments, and cotton check weaving and basket making. Saltpetre is made from efflorescent earth on a large scale in the district at ROKHRI, KAL-BAGH and other places. 117,374 tons of coal was mined in 1939.

The chief exports are salt, alum, iron vessels, baskets, wheat, cotton, barley, rapeseed, oil seeds, wool and hides. The important imports are iron, cotton piecegoods, thread, silk, sugar, rice, potatoes, timber, and wines.

For detailed methods of construction of radio sets, consult **RADIO RECEPTION IN THEORY & PRACTICE**, Rs. 2/8. Industry Book Dept.

MIANWALI (population 15,412), the district headquarters, is a flourishing town with some trade BHAKKAR, a station on the N. W. Rly., is famous for its mangoes, dates and timber. Wheat, gram, dates, beans, wool, oilcakes, rapeseed, tobacco and vegetable oil are exported in considerable quantities.

Other important trade centres are KALABAGH and KALLURKOT.

N. W. Rly. passes through the district and traffic is carried both by rail and by boat.

MONTGOMERY DISTRICT.

The MONTGOMERY district (area, 5,574 sq. miles, population, 999,772, language, Punjabi), is a perfect plain. The average rainfall amounts to about 10" only.

Chief crops are wheat, gram, bajra, maize, other grains and pulses, rape and mustard, cotton, fodder crops. Saltpetre is also found. Montgomery breed of cattle is famous. The Haveli Project irrigates about 128,000 acres of land.

The chief industries of the district are making of legs of bedsteads, boxes, toys, spinning wheels, cotton prints, cotton and woollen carpets, brass vessels, silk, etc. It has ginning and pressing factories. Refining of saltpetre is an important industry at ORAKA. There is an oil mill at ARAFWALA.

The chief articles of export are wheat, cotton, oil seeds, wool, hides and ghee. The imports are millets, rice, sugar, cloth, hardware, wines, stationery, machinery, machinery stores, etc.

MONTGOMERY (26,164) is an important centre of trade, specially for cotton.

OKARA (population 10,712), is the centre for cotton trade in the district. It has several ginning and pressing factories. The place is also known for its saltpetre.

CHICKAWATNI is an important market for cotton as also vegetable oil, linseed, toria, etc. It is 103 miles from Lahore, and 626 miles from Karachi.

Other trade centre is PAKPATTAN (population 11,311).

The entire import and export trade of the district is carried by N. W. Rly. which passes through it.

Fairs:—Malka Haus, Malka, March, Sheikh Mohd. Fazal Fair, Sheikh Fazal, July, Baba Farid fair, Pakpattan, February; Mohd. Panah fair, Kumm, April, Hazrat Daod Bandgi fair, Sher Garh, March, Nanaksar fair, Harappa, March, Pir Mohd. Ali fair, Ghulam Qadar in Pakpattan Tahsil, April.

MULTAN DISTRICT.

The MULTAN district (area of 5,610 sq. miles, population, 14,84,333, languages, Multani and Urdu) is situated on the northern border of the Rajputana desert. The average rainfall does not exceed 8".

Chief crops are wheat, jowar, bajra, gram and pulses, rice, rape and mustard, sugarcane, cotton, fodder crops. Sugar, maize, tobacco and indigo are grown in small quantities. Multan breed of cattle are prized all over India for their milk-yielding capacity. Wool is obtainable in abundance.

The chief exports are wheat, cotton, indigo, bones, dates, vegetables, oil, soap, wool, hides and carbonate of soda. Multan also sends out huge quantities of dates and pomegranates. The imports are rice, oil seeds, oil, sugar, ghee, tin, iron and piecegoods.

MULTAN (population 1,42,768) is connected by rail with Lahore and Karachi and by the Ravi, the Jhelum, and the Chenab with the whole of the Central Punjab. Large quantities of raw produce are

Prepare famous confections of Bengal with hints from BENGAL SWEETS. Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

shipped by country boats from Sher Shah, the port of Multan, to Karachi. It collects cotton, wheat, oil seeds, sugar and indigo from the surrounding country for export to the south, it receives fruits, drugs, raw silk and spices from Kandahar traders and passes them on to the East. The Afghan traders take back indigo, European piecegoods and country-made cloth, sugar and shoes. Foreign merchandise is generally distributed through Multan to the western districts.

The chief local manufactures are silk and cotton weaving and carpet making, decent country shoes are also made in large quantities for exportation. The glazed pottery and enamel work of Multan, although not industries on a large scale, have a high reputation. The manufacture of tin boxes and soap are growing important industries. Surgical instruments and hospital requisites of Multan have already established a reputation in the market.

KHANEWAL (population 17,036), a station on the N. W. Rly. has a big grain market near the Rly. Station.

N. W. Rly. passes through the district and carries the entire trade.

MUZAFFARGARH DISTRICT.

The MUZAFFARGARH district has an area of 1,339 sq. miles and is peopled by 600,000 persons. Language is Multani. The average annual rainfall is about 7" only.

Wheat, gram, rice, sugar, indigo, pulses, rape, mustard, cotton, lotus, are grown. The district is noted for its extensive production of excellent dates, mangoes and pomegranates. Sheep are reared for wool production.

There are several cotton-ginning and rice-husking factories scattered over the district. Good ivory work is done at LEIAH while a Power House is now producing electricity at the District headquarters (Muzaffargarh) 20 miles from Multan. Mat and basket-weaving, cotton-spinning and weaving are cottage industries.

MUZAFFARGARH is the district headquarters. It is only 9 miles from Sher Shah and 19 miles from Multan.

The chief exports are wheat, sugar, cotton, indigo, ghee, dates and mangoes. The important imports are piecegoods, metals, salt and lime.

N. W. Rly. pass through the district and traffic is carried both by rail and by river.

RAWALPINDI DISTRICT.

The RAWALPINDI district (area, 2,051 sq. miles; population, 634,357, languages, Punjabi and Pothwari) is one of the frontier districts of the Punjab. The average annual rainfall is 42".

Chief crops are wheat, jowar, bajra, maize, grains and pulses. Some inferior quality rice is grown in the Murree Hills where potato has proved a great success.

Oil springs exist in the district. Cotton is woven everywhere. Silk embroidered phulkaris are famous. Railway workshop of the N. W. Rly. is situated at RAWALPINDI. There are also gas works and breweries, tent factories and iron foundries. The district produces a fair quantity of raw wool. Leather is tanned and embossed in RAWALPINDI Town.

Trade is carried on in necessities of Murree and Rawalpindi and the through traffic for Kashmir passes through Rawalpindi. The exports are grains and oil seeds, hides and raw wool, Kashmiri woollen goods and fruits. The imports are piecegoods, rice, hardware, tea and salt, motor cars, cycles, sugar, coal, fruits (from Murree and Kashmir), ghee, etc. Timber comes from Kashmir.

RAWALPINDI TOWN (population 181,169)—It is the chief town and district headquarters and is one of the largest military stations in

Prepare famous confections of Bengal with hints from BENGAL SWEETS. Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

498 INDUSTRY YEAR BOOK & DIRECTORY, 1943

India A horse show is held here annually in the first week of March at Horse Show Ground, Murree Road

GUJARKHAN is a market for pulses, tobacco and ghee

KAHUTA is known for its export of Indian herbs, promegranate seeds walnuts etc

N W Rly crosses the district. Metalled roads are the Grand Trunk Road and the Kasbmr Road.

ROHTAK DISTRICT.

The ROHTAK district (area 2,247 square miles, population 956 389 language Hindustani and Brijbhasha) has an average rainfall of about 19.68"

Area under crops in acres for 1940-41—Wheat, (1,42,837), barley (2,08,81), jowar (1,40,626) bajra (4,73,330) gram (95,886), sugar-cane (32,137) other cereals (9,628), oil seeds (304), condiments and spices (7,202) fibres (50,364), tobacco (920), fodder crops (1,75,046), total 12,27,405 acres

The pottery of JHAJJAR and the saddlery of KALANAUR and fine muslin turbans of Rohtak town are the chief industries Woollen blankets are woven somewhere in the district There are several cotton gins and presses Cloth weaving is carried on for local consumption only

The chief exports are grains and cereals

ROHTAK town (population 48,148) is an important trade centre in the Punjab Muslin turbans interwoven with gold and silver thread and a form of muslin known as Tanzeb are produced It is a big grain market

BERI (population 15,000) is an important industrial centre where sandalwood goods are made Fancy ivory sticks and handloom cloths are also made

Among other centres of trade mention may be made of SONEPAT (an important grain market), GOHANA, BAHADURGARH, SAMPLA (grain and cotton markets)

The district is traversed by the Southern Punjab Railway, Riwari Bhatinda and Malwa Rajputana Railway and Rohtak Gohana Panipat Railway and is well provided with good roads

Fairs.—Cattle fairs are held in the Autumn and Spring under the control of the District Board at Jahazgarh Bahadurgarh and Koshi in JHAJJAR TAHSIL at Mehm in GOHANA TAHSIL and Kharanhi in the ROHTAK TAHSIL The Donkey fair at Beri is held half-yearly by the Municipal Committee, Beri

SHAHPUR DISTRICT.

The SHAHPUR district occupies an area 4,799 sq miles and a population of 821,490 Language is Punjabi Average annual rainfall is about 15" near the Salt Range

Chief crops are wheat, gram, cotton, fodder crops, bajra, rape and mustard etc The forest produces acacia arabica and shisham Salt is found and bored in the Salt Range.

Coal is found in the district, the output being 7,708 tons in 1939

Cotton cloth is woven and exported Felt rugs are made at KHUSAB and BHERA Blankets, felts, etc are also made at the latter place Stones are used in making handles for knives, razors, etc Wood work of BHERA and lacquered work of SAHIWAL are also famous Crude saltpetre is also manufactured

SHAHPUR town (population 10,000) is not important commercially

SARGODHA (population 26,761) is the Sadar Station and an important centre of trade for wheat, cotton, pulses, rape seed, ghee, guni,

BENGAL SWEETS—a reliable guide for preparing Sandesh, Rasgulla, Mithai, Sops, etc. at home. Re. 1/12. Industry Book Dept., Calcutta.

sugar, gram, and wheat flour The chief imports are piecegoods, metals, sugar and rice

N W Rly. crosses the district with a short branch to Bhera and another from Dhak to Katha Sargodha and Khushab, and Sargodha and Lyallpur are also jointed by a railway line The district has good metalled roads

Fairs—Sargodha, Cattle and Horse Show Fair, April, 6 days, and Dushehra, October, 1 day, Chak 127 S B, Gurusar, January, 3 days, Chak 127 S B, and Bisakhi, April, 2 days, Chak 78 N B, Bisakhi, April, 1 day, Dharema, Mela Habib Sultan, December, 2 days, Chak 45 S B, Bisakhi, April, 1 day, Chak 55/35 S B Mela Mohd Shah, June, 2 days, Chak 101 N B, Bisakhi, April, 1 day, Chak 109 N B, Naugazah, June, 2 days, Kirana Hill Station, Kirana, March, 3 days; Chak 31 S B, Mela Sain Karam Elahi, July, 1 day, Chak 38 N B, Mela Qasim Ali Shah, July, 1 day, Khushab, Hafiz Diwan Sahib, 2 days, and Sd Kuruf Shah and Marufshah, April, 1 day, Girod, Bisakhi Dyal Bhawan, April, 1 day, Shah Jamali, April, 1 day, and Dushehra, October, 1 day, Narsingh Pohar, April 1 day, Shahpur City, Shah Shamas Fair, April 4 days, Khamb Nau, Mela Sakandar, February, 1 day, Thakhat Hazara, Shah Shahamdi Mela, April, 3 days, Miani, Bisakhi, April, 1 day, Sheikhpur, Qatwalla All Sundays of Chet, 4 days, Turtipur, Ahdham Sultan, July, 1 day; Bhalwal Old Abadi, Sheikh Suleman, June, 4 days, Khushab, Cattle Sheep & Goat Fair, March, 2 days, Nabi Shah Khurd, Shah Shahabal, July, 3 days, Faruka, Mohib Shah, August, 2 days, Sahiwal, Lal Shrin, July, 2 days, Shahpur Sadar, Cattle Fair, 24 25 & 26 every month, 3 days, Bhalwal, Cattle Fair, 11, 12 & 13 every month, 3 days

SHEIKHUPURA DISTRICT.

The SHEIKHUPURA district (area 2,313 sq miles, population 836,140) is mainly agricultural Rainfall is moderate

Chief crops are wheat, cotton, rice, oil seeds, grams, fodder crops, etc

SHEIKHUPURA (population 22,272) a railway junction station on North Western Railway, 26 miles from Lahore, has got a market whence wheat, cotton, rice, and toria are exported

At NANKANA SAHIB a big Sikh fair is annually held on Kartik Purnamashi (Full moon day in the month of Kartik). Trade here consists of ghee, gur, rice, wheat, gram, cotton (Indian and American) and other raw produce

CHUHARKANA MANDI is a market for rice, gur, gram, ghee and rape seed

SANGLA HILL, 68 miles from Wazirabad and 62 miles from Lahore, is an important market for wheat, cotton, gram, barley, raw sugar, rapeseed, til, ghee, and gur It exports wheat, gram, linseed vegetable oil, cotton, gur, etc Imports consist mainly of agricultural implements, hardware, piecegoods, woollen goods, etc

SHAHDARA, 5 miles from Lahore, exports matches, suji, flour, mangoes and country cloth and imports coal, woollen goods, general merchandise, etc

Other trade centres are MUSIDKE, 18 miles from Lahore, market for rice, NARANG 30 miles from Lahore, market for rice; DHABAN SINGH, 44 miles from Lahore, market for wheat and cotton; WARBARTAN 46 miles from Lahore, market for wheat, cotton, gram, sugar, oilseeds; BUCHEKI, 50 miles from Lahore, market for wheat and cotton

BENGAL SWEETS—a reliable guide for preparing Sandesh, Rashgolla, Mithai, Sops, etc. at home. Re. 1/12. Industry Book Dept., Calcutta.

500 INDUSTRY YEAR BOOK & DIRECTORY, 1943

North Western Railway and the Public Works Department Arterial roads from Lahore to Lyallpur and from Lahore to Sargodha traverse the district and are its chief means of transport

SIALKOT DISTRICT.

The SIALKOT district (area 1,958 sq miles, population, 1,190,139, language, Punjabi) is intersected by the Ravi, the Degh and the Chenab. The average annual rainfall is about 35"

Chief crops are wheat, barley, bajra, maize, gram, other grains and pulses, sugarcane, cotton, and fodder crops

Tents, boxes and surgical instruments are made. Cotton ginning is carried on. Beddings, shatranjies (durries), asans, etc., are manufactured in the district. Printed cotton stuff and cotton weaving are carried on at PASUR and shawls of pasham at KOILA. SHOBA SINGH Sporting goods are made at SIALKOT.

The chief imports in the district are grains, rice, tobacco, ghee, timber and tea, besides cantonment necessities. The chief exports are rice, sugar, pepper, cotton cloth and brass vessels. The district is well supplied with roads.

The town of SIALKOT (population 109,973) is a flourishing trade centre and an entrepot for agricultural products. Cricket, tennis and hockey bats, sticks and sporting accessories, tents, surgical and musical instruments, etc. are made here in large quantities. These industries have gained a firm footing and are in a fairly prosperous condition. The present supply of raw materials which consist mainly of mulberry wood, comes from the Chhanga Manga Forests. There are several flour mills.

Cattle Fairs at Sialkot (Tehsil Sialkot) Korek (Tehsil Daska) and Thro (Tehsil Pasur)

SIMLA DISTRICT

The SIMLA district (area 81 sq. miles, population 36,786; languages, Urdu, Hindi, Pahari and Tibetan), is 7,220 ft above sea-level. Average annual rainfall is about 42"

Cultivation is sparse. Area under cultivation during 1939-40 was 14,466 acres. Potatoes, hemp, turmeric and ginger are largely cultivated and exported to Ambala and Kalka.

The district has considerable trade with Chinese Tibet at Wangtu near Kotgarh. But the trade is generally with Rampur and Bashahr. The imports are wool, borax and salt and exports are cotton piece-goods, sugar, iron and woollen goods.

Shawls and coarse blankets are made at SHUBATHU, which is a small hill cantonment and sanatorium, 23 miles from Simla.

SIMLA (population 18,252) is the summer capital of the Government of India. It is a favourite hill station. The chief exports are beer and spirits from the breweries and distilleries and apples, potatoes and ginger. It is also an entrepot of trade with Tibetan China. Trade in Simla is brisk during March-April to October when high Government officials, princes and distinguished visitors assemble there. Traders in fancy goods and goods of everyday use come here at this time.

KALKA—It is situated on the Kalka-Simla Railway. Bamboos of this place make good lathis. Ginger of very good quality and potatoes are exported in large quantities.

There are 3 cantonments in the district, viz Subath, Dagshai and Jutugh.

BENGAL SWEETS supplies directions for the preparations of all varieties of sweetmeats of Bengal. Re. 1/12. Industry Book Dept., Calcutta.

DELHI

DELHI DIVISION (area 577 sq miles, population 9,17,000) is now under the administration of a Chief Commissioner Urdu, Hindi and Punjabi are the languages spoken here. The principal crops of the division are sugarcane, wheat, barley and cotton. All sorts of raw goods, grains, spices, seeds, medicinal herbs, silk cotton manufactures, and flour, oil and biscuits are available in large quantities. Among other local products of artistic value are velvet, kinkhab, salma, chumki and suchna, ornamental works are also largely obtainable from the place. Metal utensils, good tobacco, surti, kumam, various kinds of toys, country made rose water, floral oils, pickles, boots, leather goods, shoes, costly bedsheets and satranjies, carpets and gargaras are available here. Ivory carving and gold and silver wire embroideries are excellent. Leather wares, dried fruits and all sorts of any goods are also available here.

Irrigation:—Total area irrigated in Delhi during 1940-41 was 76,000 acres of which area irrigated by Government canal is 31,000 acres, by wells 34,000 acres and by tanks 2,000 acres.

DELHI (population 917,000) city takes the first place as a commercial town in Northern India, rivalling Cawnpore and Amritsar and ranking next only to the seaports of Calcutta, Madras, Bombay and Karachi. It is a great distributing centre and its field of operation extends on all sides to a wide circumference. There is through communication with the different radial parts. Indeed, Delhi is the junction of all the large railways in Upper India, and her central position and the excellent facilities of communication ensure for her an important commercial position which is evidenced not only by the large business done in importing and distributing commodities wholesale, but in the number of industrial establishments which have sprung up in and around the City. Arrivals and despatches of large volumes of coal, cotton and cotton yarn, cotton piecegoods, gram and pulses, gunny bags, petrol, tea, etc are made through this important commercial centre. There are 6 cotton mills with a total 109,556 spindles, 2,878 looms and an average of 5,092 hands working daily and they are doing well. During 1941-42 local cotton mills spun 38 million lbs of yarn and 85 million yds of woven goods. All sorts of modern industries are also making headway here. Delhi is moreover, the exchange, financing and clearing house of the Punjab and of a large part of Upper India and Rajputana. There are two associations to look after the economic and financial interests of the merchants, viz the Punjab Chamber of Commerce and the Delhi Hindustani Mercantile Association.

Piecegoods, woollen and silk goods, etc are imported in vast quantities from England, France and U S A. There are several European firms and Indian commission agents who receive orders from the dealers and arrange for shipments from foreign countries. The dealers occupying the cloth markets or Katras are chiefly Marwaris. The commission agents, who are locally known as Aratiyas, send out goods to merchants in the Punjab, United Provinces and Rajputana, especially to the centres at Amritsar, Cawnpore and Ajmer.

BENGAL SWEETS supplies directions for the preparations of all varieties of sweetmeats of Bengal. Re. 1/12. Industry Book Dept., Calcutta.

502 INDUSTRY YEAR BOOK & DIRECTORY, 1943

The items included in shops for retail sale of Besat Khana are bangles, cigarettes, crockery, felt caps, hats, hosiery, laces, lamps, lanterns, oilman's stores, provisions, shoes, soaps, stationery, trunks, toys, and other fancy goods. The wholesale trade in the miscellaneous articles is mostly in the hands of Punjabi Mahomedans and SADAR BAZAR is the place of their business.

Groceries which include dried fruits, turmeric, spices, beans, almonds, palms, coconuts, betelnut, etc are received from Kabul, Baluchistan, Bombay, Singapore, Madras, etc. The wholesale merchants have their shops in KHARI BAOLI.

There are several iron foundries in Delhi which supply various articles to mufossil, specially sugarcane crushers and pans. Several dairy farms of this district have an India-wide market.

There were 41 factories in the province in 1937. These included 6 cotton mills, 5 hosiery mills, 8 engineering works, 2 cement and pottery works, 1 chemical factory, 1 paint works.

Business in gold lace, gota and embroidery, etc is carried on in Dariba. It is a great pity that the genuine gold laces have been mostly replaced by cheap imitation goods imported from abroad.

Grain business is confined to a place where facilities in the shape of railway sidings and goods yards are given. Wheat comes from the local canal tracts and is mostly exported again. The same remark applies with regard to barley. The rice is obtained for local consumption only from places like Nawabganj, Amritsar, Multan, Pilibhit, etc. Mustard, grown locally, is exported to Calcutta and Bombay, but linseed, which is brought from the United Provinces is not re-exported. Wheat, barley, gram, pulses and like grains are imported from the neighbouring districts of the Punjab and the United Provinces and passed on to Bombay and Karachi.

Hardware such as corrugated iron sheets, girders, fittings, and metal goods such as brass and copper sheets are imported from Bombay and Karachi. The chief hardware market is CHAORI BAZAR.

Brass and copper utensils are either made locally or imported from noted places like Moradabad. Hides are obtained from all over the Punjab and are exported to Cawnpore or abroad. Bullion is imported from Bombay. A quantity of the silver and gold is re-exported to smaller markets. Timber is imported from Nepal, Kashmir, and the Simla Hills, stone slabs are imported from Agra and Bharatpur. There is considerable trade in jewellery, precious stones, shawls, embroidery, gold and silver wares, ivory work curios etc.

Among the less important articles of commerce are ghee, sugar, tobacco, country-made shoes, turbans and pickles and preserves.

The scarcity of water supply in New Delhi has been overcome by Government efforts. Delhi has also a University of its own. Primary education is compulsory within the municipal area.

DELHI is about 900 miles from Calcutta and about the same distance from Bombay. It is the biggest Railway junction in India and is served by almost all the principal State owned Railways of India e.g. N W Rly, E I Railway, G I P and B B and C I Railway. It is connected to even the remotest part of the country by means of these railway lines. Also a Light Railway owned by Messrs Martin & Co, runs through the district. Delhi has an Electric Tramway too which traverses the city and serves an area of about 6 miles. Regular bus services connect the city with such ancient places as Panipat, Muttra, Aligarh, Rohtak, Ghaziabad, Meerut, etc.

PRACTICAL METAL CASTING—A comprehensive treatise on the art of founding with practical details. Rs. 2/8, Industry Book Dept., Calcutta.

MARKET PLACES OF THE CENTRAL PROVINCES

THE Central Provinces is situated, as its name signifies, in the central part of India and comprises, with Berar, an area of 130,000 square miles and is inhabited by a population of 16,822,000. A large part of the provinces, over 28 million acres, falls under the jurisdiction of the Native States, the chief of which are the Chhattisgarh States comprising Raigarh, Saktigarh, etc.

Of the total area in the Central Provinces 24,546,000 acres were under cultivation in 1940-41. The area of land lying fallow is 3,730,000 acres, forest 15,839,000 acres, culturable waste 4,881,000 acres.

Soil:—The soil of the district is black cotton, loam and alluvium, suitable for the cultivation of cotton, rice and food grains. The average rainfall is about 50"

Climate—The climate is free from extremes and the rainfall is everywhere good. A large area is still covered with forests and jungles. The mountain slopes are clothed with valuable timber including teak, sal, etc. Lac is collected in the forests. Myrobalans are available in abundance in the forests and the Jubbulpur varieties are in great demand in India and abroad. Silk cocoons are also obtained.

Crops.—By far the most important crop grown in the Provinces is cotton of the Oomrah variety. The area under cotton cultivation during 1938-39 was 3.7 million acres which yielded 549,000 tons of cotton as against 698,000 tons during 1937-38. Berar is eminently suited for the cultivation of cotton, the chief cotton station in Berar Division being Akola, Akot, Amraoti, Ellichpur, Karanja, Khamgaon, etc. The chief stations of cotton cultivation in the Central Provinces excluding Berar are Arvi, Warud, Dhamangaon, Pandar-Kawda, Hinganghat, Nagpur, Wardha, Warora, Wun, Yeotmal, Katol, Saoner, etc. Average staple of the cotton is 5/8" to 6/8".

Among other crops grown in the Central Provinces and Berar during 1940-41 in the Provinces were rice (5.9 million acres), wheat (3.3 million acres), jowar (4,533,000 acres), gram (11,52,000 acres) other grains and pulses (5,417,000 acres), oil seeds (1,914,000 acres), etc. The Province has the largest area in India under the linseed crop (1,218,000 acres). Til seed also figures prominently (477,000 acres). Cultivation of groundnut has gone up to 280,000 acres. Other areas are bajra (110,000 acres), maize (152,000 acres), rape and mustard (66,000 acres), castor seed (29,000 acres), sugarcane (33,000 acres), condiments (131,000 acres), etc., are also raised. The total area under cultivation in C P and Berar was 27.5 million acres. Oranges and mangoes grow abundantly in the province and are exported to Calcutta and other markets. Nagpur oranges have got a firm hold on the Calcutta market.

From an agricultural point of view the Central Provinces and Berar may be divided into four tracts. The first is the wheat tract of the Nerbada valley; the next, Berar and the Nagpur tract, where cotton is staple, and the people are both industrially and agriculturally, more advanced than elsewhere. The third has for its distinctive crop

PRACTICAL METAL CASTING—A comprehensive treatise on the art of founding with practical details. Rs 2/8. Industry Book Dept., Calcutta.

rice, which is grown mainly in the Wainganga valley and in the great plain of Chhatisgarh. The fourth comprises the upland districts, the centre of the province, where cultivation is in a comparatively backward state but the country is covered in many places with useful forests and contain valuable minerals. Although by far the larger portion of the locally produced cotton is exported, enough is worked up locally to give a decidedly industrial bent to the population of such towns as Nagpur, Akola and Burhanpur, and the export and manufacture of cotton have built up a wealthy class of traders and industrialists, who have placed this tract in point of resources very far ahead of any other part of the province, however fertile the soil.

Minerals:—The most important mineral mined in the province is manganese ore which occurs most in the districts of Balaghat, Nagpur and Bhandara, where increased activity is reported. This is consumed by the iron and steel factories for the manufacture of ferro-manganese. Manganese ore is exported by rail to Calcutta, Bombay, Vizagapatam and Tatanagar, Vizagapatam taking the major part of the despatch. The ore is exported out of India but lately the exports have been affected by competition from Russia. Iron is found in the Chanda and Drug districts. Iron ores also occur in the Raipur and Jubbulpore districts. The most striking occurrence in Drug is the ridge which includes the Dhalli and Rajhara hills, the latter being estimated to contain 2½ million tons of iron carrying about 67.5 per cent of iron. The smelting of iron and the production of workable metal from the crude ore are carried on in some parts of the Central Provinces as a sort of home industry. In the neighbourhood of every well-known mine there can be found families of smelters. Coal is obtained in the vicinity of Warora. The outturn of coal during 1939 in C P was 1,742,831 tons, of which Pench Valley was responsible for 14 million tons. Copper ore, also occurs in the province, but is only spasmodically worked. Bauxite is found in the Balaghat district and in the vicinity of Katni in the Jubbulpore district. Some good deposits occur in the Seoni and Mandla Districts. The ore contains a very high percentage of aluminium and is exported to Europe and Japan at cheap rates. Output of chief minerals in 1938 follows: Manganese ore 646,465 tons, lime stone and kankar 551,978 tons, bauxite 4,634 tons, steatite 2,189 tons, iron ore 611 tons.

Industries.—The principal industries of the province centre round cotton production. Among other industries may be mentioned lime and cement factories, rice mills, oil presses, glass factories, and saw mills. Coarse textiles, brasswares, etc., are turned out on a cottage industry basis. Cloth is woven in three qualities—coarse, medium and fine. Other notable industries are silk bordered, gold and silver lace weaving, tassar industry, pottery, brick and the tile making and leather industry, oil milling, wool industry, dyeing and calico printing, blankets, sheep rearing, brass and copperware, tassar and mulberry silk production; mat and baskets, hosiery, cotton rope and tape making, toy, smithy and carpentry.

Among modern industries special mention should be made of cotton ginning, manufacture of cotton goods, etc. Cement industry is progressing rapidly and there are a number of cement factories at Mekgaon, Katni, Kymore and Jubbulpore. Lime and pottery industries are in a flourishing condition. A small pottery factory has been established at Nagpur. There are three match factories and two glass factories. Other industries include ice and aerated factories, oil mills, saw mills, mining, breweries, flour mills, rice mills, paint work, etc. There

Modern foundry shop practice is described in **PRACTICAL METAL CASTING**. Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

MARKET PLACES OF CENTRAL PROVINCES 505

are 7 cotton mills in the Central Provinces and 4 in Berar. There are 3,00,270 spindles and 5,294 looms in the Central Provinces, and 69,048 spindles and 1,443 looms in Berar. During 1941-42 cotton mills spun 64 million lbs of twist and yarn and 95 million yards of woven goods. Druggets and floor carpets are woven from the local woollen yarn in a variety of designs which are appreciated by people.

Factories—There are about 860 registered factories in the province. Of them, 549 are seasonal. These factories include 479 cotton ginning and pressing factories, 56 rice mills, 46 oil mills, 5 saw mills and 3 match factories. The districts where pressing is done most are Nagpur, Wardha, Nimar, Akola, Amraoti, Yeotmal. Besides, there is a number of railway workshops and ordnance factories.

Trade—The trade of the province consists of exports of cotton, rice and food grains, etc. Considerable quantities of forest products, viz, lac, myrobalans, timber (sal, teak, saj, etc), hides and skins, gum, etc, are also exported. Mohua flower and birn leaves are available in great abundance and are exported. Mangoes, oranges (from Nagpur), and plantains are exported. The imports are coal, coke, piecegoods, salt, etc.

Irrigation—Total area irrigated during 1940-41 was 1,787,000 acres of which area irrigated by Government canals is 15,47,000 acres, by wells 1,65,000 acres, by other sources 75,000 acres.

Railway and River Borne Trade—Imports—Coal, cotton, yarn, piecegoods, fruits dried, glass, wheat flour, gunny bags and cloth, iron and steel, kerosene, vegetable oils, salt, sugar, gur and timber. Exports—Cement, coal, raw cotton, myrobalans, rice, wheat, hemp, manganese, lac and shellac, oil cakes, cotton seed, linseed.

Transport & Communication—The province is well served by a network of railways, the chief being the B N Ry and the G I P. Ry. The traffic is both rail and road-borne.

AKOLA DISTRICT.

The AKOLA district covers an area of 4,090 sq miles and has a population of 876,362. Average rainfall is about 35". Languages are Marathi and Urdu.

The staple food crop grown is jowar (607,000 acres); cotton (819,000 acres) is also grown on a large scale. Other crops are rice, pulses, gram, and oilseeds. Groundnut is grown over 36,000 acres and wheat over 93,000 acres. Berar cattle are obtainable at BALAPUR. There is a reserved forest in the Balaghat area, the products of which are khair, amla and teak. Stone is mined.

Cotton carpets are woven at AKOT and BALAPUR. There are several cotton ginning and pressing factories and 2 cotton mills. Preparation of cotton for the market is the only industry.

The imports are grain and pulses, coal and coke, salt and sugar. AKOLA, the headquarter town, has a population of 47,632 and is one of the principal centres of cotton trade. The market is situated at TAJNAPETH. Raw cotton is sent to Bombay by rail from AKOLA.

AKOT town (population 18,693). The tract surrounding, is interspersed with garden lands and mango groves. There is a big mart for cotton which is sent to AKOLA. Good cotton carpets are woven there.

MURTIZAPUR (population 11,541) on the G I P. Ry, is another big market for grain and cotton.

Other trade centres are TALAGAON, BALAPUR, KARANJA (16,615) and BASIM (14,409).

Modern foundry shop practice is described in PRACTICAL METAL CASTING. Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

AMRAOTI DISTRICT.

The AMRAOTI district (area 4,704 sq. miles, population, 941,975) is usually 800 ft above sea level. Rainfall average 30" annually

Chief crops are jowar (staple), wheat, gram, groundnut and cotton. Oilseeds and pulses are also grown.

The silk industry at KOLHAPUR has considerably dwindled. Cloth weaving and yarn making are carried on at BADNERA. Preparation of cotton for ginning and pressing factories is the chief industry of the district. Khaddar and carpets of ELLICHPUR have a good reputation in the market. DHAMANGAON is a most important cotton and grain market.

The district exports raw cotton, oil seeds, grains and pulses to Bombay and Calcutta. Imports are grains and pulses from U. P., coal and coke from Bengal and C. P., salt and sugar from Bombay.

Formerly the greater part of the cotton of Berar was taken on bullocks to Mirzapur and thence conveyed in boats to Calcutta. Now however the greater part goes to Bombay.

Ginning and pressing of cotton claims the first rank in the industries of the district. Besides, there are oil presses, linseed oil being most commonly produced. The most important cottage industries are the clearing of cotton, the making of seed oils of various kinds. Hand-weaving is done in cotton, silk and wool or in combination.

AMRAOTI—Amraoti the headquarter, has a population of 61,987. It is now the principal cotton mart in Berar, and is connected with the Nagpur branch of the G. I. P. Rly. Cotton is by far the most important item of commerce and is sent by rail to Bombay and Calcutta.

Other exports worthy of mention are oil seeds, grain and pulses. Raw cotton includes of course ginned and pressed cotton, and covers 75 per cent of the total value of exports.

The list of imports chiefly comprises articles of food and clothing, the chief items being grains and pulses, coal and coke, salt and sugar.

Oil seeds, grains and pulses are exported to Bombay and the Central Provinces. Grains and pulses are imported chiefly from the United Provinces and Bengal, salt from Bombay, sugar, chiefly from Bombay but also from Bengal and the United Provinces.

The Nagpur Branch of the G. I. P. Rly. is the chief means of communication. The town of Amraoti is connected with Badnera Junction by a State Railway six miles long.

ELLICHPUR (population 31,486)—Cotton carpets are woven. Considerable quantity of forest products including boswellia, adina, etc. are brought here from MELGHAT for sale in the weekly markets. Sandstones for fine carving are available.

Cotton and silk fabrics are woven and dyed at ANJANGAON (population 11,597) in Daryapur taluk. The largest industry however is the preparation of cotton for the market and there are several ginning and pressing factories. The chief imports are grain and pulse, salt, sugar, etc. The main exports are cotton, grains, pulses, oil seeds and forest products. These articles are first sent to Amraoti or Badnera whence they are despatched by rail to Bombay.

DARYAPUR having connection with Murtizapur is another trade centre of the district.

The district contains a network of good roads.

BALAGHAT DISTRICT.

The area of the BALAGHAT district is 3,572 sq. miles. Its population is 634,350. The population of Balaghat town is 11,482. The dia-

Modern Methods of extracting, refining and bleaching of oils are explained in "Vegetable Oil Industry," Re. 1/12, Industry Book Dept., Cal.

MARKET PLACES OF CENTRAL PROVINCES 507

lects spoken are Powari, Lodhi (mixture of Marathi and eastern Hindu), Gondi, Marathi and Hindi. Vegetables are scanty.

Crops grown are rice, kodon, kutki, wheat, urid, linseed and tur, rice covering about two-thirds of the net cropped area. The agricultural area is generally protected by the Government and private irrigation works. Castor and tobacco crops are grown on the SONE banks.

The district is one of the chief centres for the supply of manganese ore. Most of the largest mines are owned by the C P Manganese Ore Company. The ore is brought to the railway at BALAGHAT and TIRODI. Lac which was once a profitable source of income from village forests is now neglected due to the low prices.

There is hardly any industry worth the name, but weaving of coarse cloth at WARASEONI and LALBARRA still continues and that of newar (tape) at KIRANPUR.

The chief articles of exports are rice, pulses, urid, tobacco, teak and sal sleepers, bamboos, hides, horns, myrobalans, lac, gum, etc., etc. Tendu leaves for making bidis are collected in many of the villages. The imports are salt, gur, sugar, jowar, wheat, gram, arhar, brass vessels, etc., etc.

The trade centres are at WARASEONI, LALBARRA, KATANGI, BALAGHAT, LANJI, LAMTA, BAIHAR, MOHGAON and DAMOH only. BALAGHAT, WARASEONI and KATANGI have extra-district importance.

BALAGHAT CITY (11,482) has a certain amount of trade.

Fairs.—There are no agricultural, industrial, and cattle fairs held in the district but weekly cattle markets are held at 10 places.

BETUL DISTRICT.

The BETUL district (area 3,891 sq miles, population 406,252; languages, Marathi, Hindi, Gondi and Korku) has an average annual rainfall of 46".

The crops grown here are kodon and kutki, wheat, jowar, oil seeds, til, jagni and rice.

Coal is mined at SHAHPUR, the output in 1939 being 7,708 tons. Excellent marbles occur in the district.

Coarse cotton cloth of inferior quality is woven; brasswares are made at AMLA, RAMLI, JAWAL, KHEDA but brass vessels are imported from Hosangabad and Chhindwara.

The principal grains exported are wheat and oil seeds, gram, turia, and cotton. Jowar is imported from Berar. Gur is exported to Berar and Nerbada Valley. The exports of forest products are timber, mohua, myrobalan, chiranj, and gulli (the oil of mohua oil seeds). Tikhari oil, gum and lac are also exported. Timber is available. The imports are yarn (from Nagpur), cotton piecegoods, kerosene oil, hardware, gold and silver, salt, groceries and spices. Betel leaves and turmeric come from Berar. Purchase and collection of grains are done by telis who carry them on bullock carts. There are numerous weekly markets here, where retail transaction takes place. A weekly cattle market is held at the BETUL BAZAR which has a population of 5,378 and is practically an isolated tract. Cattle markets are also held at BIROOL (Multai Tahsil).

Fairs.—A religious fair is held annually at Multai, Bhopali and Malajpuri near Chicholi, where household articles and furniture are made.

BHANDARA DISTRICT.

The BHANDARA district (area, 3,623 sq miles, population 824,496, languages, Marathi and Hindi) has an annual rainfall of 55".

Modern Methods of extracting, refining and bleaching of oils are explained in "Vegetable Oil Industry," Re. 1/12, Industry Book Dept., Cal.

Chief crops are rice, wheat, jowar, linseed. Area under cultivation. Rice 1,172,000, wheat 89,000, maize 20,000, gram 37,000, pulses 647,000, linseed 117,000. Ginger, oranges and plantain are grown in the villages of JAM and ANDHARGAON and are sent to Nagpur. Manganese ores are worked near TUMSAR. Building stones and road metal are also found in the district. Pot-stones and steatitic scists are also found in the district.

Weaving of silk bordered cloth is carried on at BHANDARA (PAUNI, MOHARI and ANDHARGAON). Fine cloths made at PAUNI are famous and compete in markets. Eri silk comes from Nagpur and Assam. Brass and brass vessels are made at BHANDARA, stone jars at KANERI and cart wheels at TUMSAR. Soft grass matting, bamboo basket and matting are also made.

Rice is sent to Bombay, Nagpur and Berar, wheat, gram, pulses and urid and oil seeds are also exported which are taken by cart from PAUNI to Nagpur. Teak and acacia timber and bamboos, mohua, myrobalans, hides and lac, are exported in large quantities. Manganese ores are also exported. The imports consist of piecegoods (from Bombay and Nagpur), kerosene oil, salt, sugar, gur (from U. P. or Bombay), jowar and arhar.

The chief centres of trade are GONDIA (14,957), TUMSAR (10,061), TIRORA, AMGAON and PAUNI (12,525). There are grain markets at GONDIA, TUMSAR and BHANDARA.

BHANDARA (population 16,733) is an important station on the B. N. Rly. The town is famous for brass making.

BILASPUR DISTRICT.

The BILASPUR district (area, 7,618 sq. miles, population, 15,50,122; languages, Hindi, Oriya, and Chhatisgarhia, an Eastern Hindi dialect) contains dense forests with elevated plateaus along the north of the district. The average annual rainfall is about 52".

The chief crops are rice, kodan, wheat, linseed and pulses.

The tassar silk of BILASPUR is best in C. P., cotton cloths with borders of tassar are also woven. Tassar goods are produced at CHAMPA, BAMHNIDIH, and CHANDRAPUR. Bell-metal vessels are made at RATNAPUR and CHAMPA. Catechu is prepared and the people themselves dye their own cloths. Lac industry flourishes at CHAMPA, KOTA and PENDRA. Beedies are made at CHAMPA and BILASPUR. Iron ore, clay and lime stone are met with. There is a limestone quarry at AKALTARA. There are 18 rice mills in the district, at BARADUAR, NAILA, JANJGIR, AKALTARA, BANAHIL, FAGURAM and CHAMPA. There are 3 oil mills, at BARADUAR, at NAILA and at CHAMPA.

The chief exports are rice to Bombay and Berar and Northern India. Wheat, til, linseed and mustard are also exported. Sal and bifasal (sleepers) are sent to Calcutta, lac is sent to Mirzapur. Other exports are logs, sesamum, poles and hides, the most important of which are those at BAMHNIDIH, BILASPUR, GAINARI, BALODA, TAKHATPUR and CHAMPA. Gram and ghee are imported from northern districts, salt from Ganjam, and tobacco from Bengal and Madras for local consumption. Piecegoods, sugar, salt, etc., are also imported.

BILASPUR, the headquarter town, has a population of 31,374. It is a station on the B. N. Rly., 776 miles from Bombay and 445 miles from Calcutta. It is the headquarters of the coolie recruiting agency for Assam in C. P. The weaving of tassar silk and cotton cloth are the only industries of the town.

"Careers of Agents and Middlemen" A reliable guide on the functions, Scopes and qualifications of Agents and Middlemen, Price Re. 1/4.

BHATAPARA and AKALTARA are the other collecting centres in the district

Cattle markets are held at BAMENIDIH and KOTMI Cattle from distant parts of the province, are brought for sale While the former is about 11 miles from Champa and 3 miles from Paraghat Railway Station (B N Ry), the latter is 6 miles from Akaltara

Fairs.—Annual fairs are held at Kadamal, Pittapuram and Sheorinarain where there is good sale of grains and domestic utensils of bronze and brass.

BULDANA DISTRICT.

BULDANA district has an area of 3,772 sq miles with a population of 766,584 Annual rainfall averages 34.58".

The staple food grain is jowar. Cotton is the most profitable crop and is widely cultivated, wheat, bajra, gram, and oil seeds (269,694 acres) are also grown Groundnut is grown over 76,293 acres The principal trees are sal, ber, khair, chir and teak

Cotton cloth and blankets which have a large local sale are woven but the principal industry is the preparation of cotton for the market and there are several ginning factories and cotton presses

The principal exports are raw cotton, oil seeds, grains and pulses and the chief imports are grains, pulses, coal, coke, sugar and salt The main trade is with Bombay The important centres of local trade are the little Pargana villages where weekly markets are held

The headquarter town of BULDANA contains a population of 7,504 and is not important industrially or commercially KHAMGAON (population 23,462), a station on the G I P Ry, is a big cotton market Cattle are sold here JALGAON has a population of 10,463 and is a cattle mart Other markets are SHEGAON (14,669) and NANDURA (11,212), MALKAPUR (17,565) and CHIKHLI (1,041). G I P. Ry, and the Godavari Valley Railway take part in carrying goods

Fairs.—At Pimpalgaon Devi, in Malkapur taluk, 15 miles, South-West of Malkapur, January, at Dhanora, in Jalgaon taluk, 5 miles West of Jalgaon and 18 miles North of Nandura, February and March, at Sonala, in Jalgaon taluk, 15 miles East of Jalgaon and 22 miles North of Shegaon, November, at Deolgaon Raja, in Chikhli taluk, 49 miles South of Buldana on Jalna Road, October and November, at Mayamba, at Mohoj in Chikhli taluk, 17 miles South-West of Buldana, February, at Mola, in Mehkar taluk, 8 miles North-East of Mehkar, September

CHANDA DISTRICT.

The CHANDA district (area 9,217 sq miles, population 8,75,440 languages—Marathi, Telugu, Gondi, Hindi, Urdu, Marwari, Madia, Gujrathi and Koshti) is thickly wooded The forest products are teak (plentiful), sal, bija sal, roha, kodan, haldi, semul, mahuwa, dhura, tendu, garal and palas The annual rainfall averages about 51".

The crops grown are wheat (67,182 acres); jowar (2,90,866 acres); linseed (71,921 acres), pulses (1,25,275 acres), rice 3,37,109 acres) in the Central and eastern parts, cotton (55,880 acres), gram (15,538) acres, sesamum (48,378 acres), is also grown and condiments and spices are grown over (16,546 acres)

There are 5 coal mines, one at BALLARPUR, one at GHUGUS, 2 at CHANDA (The Mahakali coal Mine and the Hindustan Lalpeth colliery) and one at MAJRI Output of coal in these mines in 1941 was 2,36,105 tons Iron ore occurs plentifully in the district. There are also white and yellow ochre mines White clay is used in manufacturing potteries Sand stones are available in ISAPUR Iron is at

"Careers of Agents and Middlemen" A reliable guide on the functions, Scopes and qualifications of Agents and Middlemen, Price Re. 1/4.

present worked by country methods in small quantities at 2 places in PALASGARH and GEWARDHA zamindaris. Building stones are found in stone quarries at many places. Tassar silk worm is propagated. Silk cloth for daily use is manufactured at several places. Weaving of cotton cloth with silk border is done on a large scale at CHANDA, CHIMUR, NAWARGAON, ARMORI and NERI.

Brass and copper vessels are made at CHANDA and NERI and glass bangles at BHADRAVATI and GARCHIROLI. Good lacquered ware is made at POMBHURNA. There are 5 cotton presses, 9 ginning factories, 1 saw mill, 1 match factory, 5 oil mills, 1 rice mill, 1 pottery works and 1 electric power house in this district.

The exports are by rail and include all seeds, timber, hides, horns, cotton and pulses, linseed, til, castor and mustard and fire wood. Rice is carried by carts. Poha (parched rice) is also exported in large quantity from the Shankarpur tract of the Warora tahsil towards Nagpur by carts. Other exports are cotton, teak and wood in increasing quantity from ALLAPALLI and bamboos, gum, myrobalans, lac, grass, charcoal and mohuwa flower to Waidha and Berar. The imports are salt, sugar, potatoes, thread, piecegoods, metal and kerosene oil.

CHANDA town (population 35,738) is the biggest town and trading centre in the district. WARORA town (population 9,547) the second important trading centre of the district is the station where bulk of the products from Yeotmal district in Berar reaches the railway.

Weekly cattle markets are held at CHANDA, RAJGARH, MADHERI, JAMBULGATA, WARORA, GANGALWADI, NAWARGAON, SINDEWAHI, KURKHEDA, ARMORI, GARCHIROLI and CHARGAON.

The district is served by the Waidha-Chanda extension of the G I P Ry and Nagpur-Chanda narrow gauge section of the B N Ry.

Fairs:—List of important annual fairs all religious in character as follows—Ghodajatra-Chimur, February, approximate attendance 10,000, Mahasheoratra-Markhanda (on the bank of Wainganga river) March, attendance about 15,000, Mahakali-Chanda, April, attendance about 4,000, Wardha (on the bank of Wardha river), November, attendance about 6,000.

CHHINDWARA DISTRICT.

The CHHINDWARA district contains an area of 7,794 sq miles and a population of 967,004 persons, languages, Hindi, Gondi, Marathi and Urdu. The annual rainfall is about 43".

There are extensive Government and Jagiri forests containing timber such as teak, sal, shisham and anjan besides ordinary wood, e.g. bija, tinsa, satkata, salhe, so also bamboos. Gum is extracted from salhe and kullu trees. Fruit trees commonly found are Mahua, Tendu, Achar, Mango, Tamarind and Harra. Lumbering is an important industry, large quantities of props being required for the coal mines in the district. Main centres of timber trade are BHIMALGONDI, RAMAKONA and KURAI. Charcoal is also prepared and exported to Bombay from NAYAGAON and other places.

The principal crops with their areas in acres are wheat (379,184), juar (345,138), cotton (46,761), gram (114,526), pulses (98,567), maize (37,213), kodo-kutki (253,478), oilseeds (221,360) such as til, jagni, linseed, etc and rice (151,641). The district is also noted for production of vegetables and oranges on a large scale.

The district is famous for coalfields around PARASIA, JUNNORDEO, HIRDAGARH, in the valley of the Pench River. The amount of coal extracted for the year 1939 was 1,387,847 tons. Manganese is found at KATCHHIDHANA and GOWARI WADHONA, gold washings

Manufacturing processes of paints, varnishes and sealing wax explained in Prospective Industries, Ré. 1/12: Industry Book Dept., Cal.

MARKET PLACES OF CENTRAL PROVINCES 511

in PACHDHAR and BAWANTHERI rivers, chalk and hard stones at CHHAPARA and lime stones at NAYEGAON and SARNA Cotton weaving is carried on at LODHIKHEDA, PANDHURNA, MOHGAON, CHHINDWARA, SEONI, BARGHAT and CHHAPARA Weaving of coarse blankets is carried on at PARADSINGA, BERDI, LODHIKHEDA and ROHNA Cude tanning and shoemaking is carried on at SARNA CHHINDWARA, LODHIKHEDA and PANDHURNA Rope is made from hemp near CHHINDWARA Brasswares are made at LODHIKHEDA, CHHINDWARA Basket making, oil crushing, gurmaking, butter and ghee making are also carried on in scattered places

The important Weekly Markets are held at Bhaironganj, Barghat (rice), Gangerus Ghansoie Chaurai, Chand, Chhindwara Chandameta, Jamai (in mining area), Umrana, Rama-kona (grain), Lodhikheda and Pandhurna

The principal exports are wheat, cotton, rice, oilseeds, sunn hemp, potatoes, green vegetables (to Nagpur) and oranges, other articles of trade being timber, hides, horns and minor forest produce such as harra and chirong The chief imports are salt, sugar and manufactured goods generally

The chief towns in the district are —

CHHINDWARA (population 17,080), the head quarters of the district and the exporting centre for vegetables

SEONI (population 16,081), PANDHURNA (population 11,570) are the collecting centres for cotton and oranges

At BORGAON a cart (Chhakra) race is arranged by the local malguzaia every year in the month of January and 1,000 to 1,500 pair of bullocks are brought for competition

Fairs.—The famous annual fairs are held at RAMAKONA and PANDHURNA on the 6th day after "Holi" and the second day after "Pola" festivals respectively The former lasts for 3 days and the latter for a day 10,000 to 15,000 people assemble at these places Karirat on the Kulbehra river and MAHADEO (near Pachmarhi) on the border of Chhindwara and Hoshangabad districts are religious fairs which are held on Kartik Purnima and Sheoratri festivals respectively The Mahadeo fair attracts a big gathering of 30,000 to 40,000 people Mundara and Kothighat religious fairs in the Seoni sub division, which are held in Kartik for 15 days each, are also of some importance

DRUG DISTRICT.

DRUG (area 3,807 sq miles, population 9,28,351) consists of a long strip of land running from north to south The average annual rainfall is 48" Iron ore is available in plenty Potstone is also found

The principal crops are rice (804,513 acres), total oil seeds 178,422 acres), condiments and spices (21,036 acres), and pulses 926,371, acres) Fruits and vegetables are grown over 15,750 acres.

DRUG TOWN (population 16,766) —The bell-metal industry is famous Cotton cloth is woven here for local use The town has a good trade in betel-leaves It is situated on the main line of the B N. Rly, and contains the ruins of the mud fort which is of great antiquity.

The district is served by railways and has a network of roads

HOSANGABAD DISTRICT

THE HOSANGABAD district (area 4,922 sq miles, population 8,23,230, language, Hindi) has an average rainfall of 50". The chief articles of forest produce obtained from extensive Government forests are teak, timber, bamboos, charcoal and sabai grass There are Govt.

Manufacturing processes of paints, varnishes and sealing wax explained in Prospective Industries. Re. 1/12. Industry Book Dept, Cal.

timber depots at TAKU, TIMARNI and KHIRKIYA stations on the G I P Rly. at which monthly auction sales of teak timber are sold.

The chief crops grown are wheat, grains and pulses, gram, sesamum, kodan and kutki. The betel vines of SOHAGPUR (population 8,595) have good reputation. Cattle are imported here from the Indian States. Cloth weaving by handlooms is practised at SOBHAPUR and NAHARKOLA for local use. There is tassar silk weaving and dyeing industry at SOBHAPUR. Nut-crackers (ornamental) and bamboo walking-sticks are made and exported from HOSANGABAD town. There are also cotton ginning and pressing factories.

The chief exports are wheat, til, linseed and cotton, teak timber (to Bombay Presidency, Central and Northern India), charcoal (to Bombay and Poona), ghee (considerably exported), honey (from Pachmarhi), charwal (from Itarsi), building stone and brass vessels (from Handia), and mohua (to Khandwa). The imports are salt (from Sambar and Ahmedabad), sugar (from Mirzapur), gur (from Betul and Berar), tobacco (from Muzaffarpur), rice (from Chhattisgarh). The chief weekly markets are at ITARSI (population 15,322), BABAI, HANDIA, SOBHAPUR, and BANKHERI.

HARDA (15,130) 48 miles from Itarsi Junction on the G I P Rly, is a market for grain and cotton. SOHAGPUR, a station on the Itarsi-Jubbulpore branch (G I P), is a good market for jungle produce and has a sericulture house. The chief timber markets are at SOHAGPUR, ITARSI, TAKU, BANAPURA, TIMARNI, RAHATGAON, HARDA and KHIRKIYA. The traffic is rail and road borne.

HOSANGABAD Town (population 13,297) is situated in a picturesque position on the Nerbada. Brass utensil and bamboo walking sticks are made. Excellent building stones are available from a quarry in the vicinity of the town.

PIPARIA is an important trade centre and provides market for grains exported from Bhopal State by the Sandighat. About 200 carts come to the market daily into the market. There are 3 dal factories and 2 oil mills. Weekly markets are held on every Sunday and Tuesday.

NARSINGHPUR (population 12,896)—The chief crops grown here are wheat, gram, til, rice, jowar, cotton, kodan, linseed, etc. There is a coal mine at MOHPANI.

GADARWARA (population 10,446) is an important centre of hand-weaving and dyeing and a big grain market. There are some 'dal' mills also. Brirs are also manufactured. CHICHELI has an industry of brassware. There is also a ginning factory at GADARWARA. BABAI has a timber and charcoal depot.

ITARSI TOWN (population 15,320) is an important railway junction and is fast growing. It has a big oil mill.

The chief exports are wheat, oil seeds, gram, ghee (to Calcutta), hides and bones (to Bombay). The imports are rice, sugar, kerosene oil, cotton cloth and gur.

The very important railway junction of Itarsi is situated in the district; and from it there are direct communications with Bombay, Calcutta, Delhi and Madras. P. W. D. metalled roads are not adequate. The forest tracts are however well provided with unmetalled roads constructed by the Forest Department.

Fairs are held at BARMHAN, BAREHTA and SANKAL.

JUBBULPORE DISTRICT.

The JUBBULPORE district (area 3,918 sq miles; population 756,346, languages, Hindi and Urdu) has plenty of mango, bel, tama-

Get ideas of profitable occupations from "Independent Careers for the Young." Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

round, guava, mohua and other fruit-bearing trees. The timbers of the forests are teak, sal, haldu, tendu, or ebony and bamboos. Peaches, pineapples, excellent potatoes and vegetables are also grown. The average annual rainfall is about 60".

The crops are wheat, rice, gram, sesamum, jowar, oil seeds, etc. Betel vine gardens also exist in a number of places near JUBBULPORE CITY and BILHERI. Fruits and vegetables have a good local demand.

Iron ores occur and are worked to a small extent at JOHLI and SIHORA. Manganese ores occur at GOSALPUR, SIHORA, KHITOLA. Copper ores also exist and the limestone deposits at MURWARA are worked. Bauxite and red ochre are available. Excellent ornamental marbles are found in the Marble Rocks. Steatite is also available.

Cotton weaving is carried on at GARHA and MAJHOLI (coloured series). Cement factories have been started at KATNI, KYMORE, MEHGAON, and JUBBULPORE. Glass, lime and potteries and fire bricks are made at JUBBULPORE and PANAGAR. KATANGI produces glass vessels. There are gins and presses and a weaving mill besides the gun carriage factory and arsenal. Wire-netting, thick bedding cloth, weaving of cloth for pillows and mattress cases, net money bags and carpets are some of the jail industries of the district and find a ready market. Bidi industry is now well established.

The principal exports are wheat and oil seeds, hemp (to Calcutta and Bombay). Ghee and forest products are sent from Jubbulpore in large quantities (to Seoni and Mandla). Hides, horns and dried beef are largely exported. The chief imports are salt (from Sambhar), sugar, guni, vegetable oils, cotton cloth, dyes, glass bangles, etc. Weekly markets are held at PANAGAR, BARELA, SHAHPURA, PATAN, BILHERI, KATANGI, SILONDI, UMARIA.

KATNI is an important trade centre for ghee, wheat, bronze utensils, Indian shoes, and red stone. It is the centre of cement industry. Bauxite is available near about. Lime stone suitable for lime burning is met with.

SIHORA ROAD (on the railway line from Jubbulpore to Katni), has a population of over 6,000. It is a municipality but levies no terminal taxes.

JUBBULPORE (population 97,468), the chief town and administrative headquarters, lies on the junction of G. I. P. and B. N. Ry. lines. It is 616 miles from Bombay and 784 miles from Calcutta.

Fairs.—Religious fairs are held at different sacred places on the Narbada. BHERAGHAT and KUMBHI are important.

MANDLA DISTRICT

The MANDLA district (area, 5117 sq. miles, population 445,766, languages Hindi and Gond) has an average rainfall of about 62".

Chief crops are wheat, pulses, rice, kodan, kutki, gram, maize, etc. Bell-metal vessels and lac bangles are made.

The chief exports are wheat, rice, oilseeds, sunn-hemp, ghee, lac, gum and harra. There is sufficient pasture ground available throughout the district.

The imports are salt, sugar, kerosene oil, pulses, arhar, spices, vessels of brass and glass and silk and cotton cloth. The chief trade centres are PINDRAI, NAINPUR, BAMHNI and internal trade is carried on in weekly village markets by carts and pack ponies and bullocks. MANDLA (population 12,214) is also a centre of trade.

B. N. Ry. passes through the district.

Get ideas of profitable occupations from "Independent Careers for the Young," Re. 1/12, Industry Book Dept., Shambazar, Calcutta.

Fair—A fair is held at HIRDENAGAR in the month of Falgun for a month which is also a chief cattle market

NAGPUR DISTRICT.

The NAGPUR district (area 3,834 sq miles population 1,061,924, language Marathi) has an annual rainfall of 36". The forests on the Satpura hills produce sag, achar, tendu (on heavy soils) and satin wood. Mango, mohua, tamarind and date-palms are common in the open country

Principal crops grown are jowar, others are wheat, pulses and linseed. Cotton cultivation (156,710 acres) is gradually decreasing. Condiments and spices are grown over 14,646 acres. Cattle are imported as there is scarcely any grazing ground.

Deposits of manganese occur in several localities (in Ramtek Tahsil). The lameca occurring in Nagpur constitutes an excellent regstone

The district is noted for its orange gardens and for the cotton and silk fabrics. There are also two small glass factories and a match factory. Weaving of cotton cloth is the home industry at NAGPUR and UMRER, gold and silver thread comes from Burhanpur. Silk comes from Bengal and China and tassar from Chhattisgarh. A small pottery factory has been recently established.

The chief exports are raw cotton, cotton seed, linseed, oranges, wild plum and betel-leaf. The imports to Nagpur district are rice, timber and bamboos (chanda sewi, etc.), cotton and grain, vegetables, sea-salt, sugar, gur, kerosene oil, woollen and iron goods.

KAMPTEE (population 22,246) is the largest weekly market. KAMPTEE CANTONMENT population 4,733 is situated to the west of Kamptee town. Other leading markets are GAORI and KELOD (for grain and timber), MOWAR (grain).

NAGPUR (population 3,03,483). NAGPUR is the capital town of the Central Provinces and Berar and leading industrial and commercial town in Central India. Its trade is chiefly confined with Bombay. It is situated at the junction of two important railways, namely the Great Indian Peninsula and the Bengal Nagpur Railways. It owes this influential position chiefly to its cotton trade.

The chief items of commerce relate to timber and firewood, kerosene oil, imported piecegoods, leather goods, food stuff, tobacco, aerated waters and ice. There are oil mills near the railway station. Passing mention may be made of printing presses, ice factory, etc. A number of cotton mills have been started in the town.

The chief imports to the place from the interior are lac, honey, cotton, myrobalans, dhuna, hill-sticks, orange, wax, etc. These articles are exported to Calcutta, Bombay, Madras and the up-country towns. Railway slippers made from the C. P. timbers, seti-mustard seed, mohua and its seeds, and sesamum are exported in large quantity from this place. Goods are generally exported by rail.

Other centres of trade are KHAPA (9375), MOWAR (5432), KATOL (1,21,00), 36 miles from NAGPUR by road, and SAONER (8527), UMRER (19,364), 33 miles from NAGPUR, exports silk bordered dhotis to KHANDESH and Nizam's dominions.

Fairs—The following are religious fairs. In NAGPUR tahsil: Digdoh, Chaitrapurnima, 5 days, Koradi, Chaitra purnima to Wadya 5th, Vehad, Chaitra Shudha 10, 11 and 12, Degna (pinjari), Chaitra 1 day, fag Wadya 5, Mahurzari, Chaitra 5 and 9, 2 days, Asalwade, Sheoratri, 1 day, Riddhara, Margashirsha, S, 14, 1 day, Chargaon Mahashivratri, 2 days, Nand (near Kinhi), Ramnavami, 1 day, Kinhi, Badrapad S, 1

A large fair is held at RAMTEK (population 8,934) in November and other religious fairs are held at AMBORA, KONDHALLI, ADASA and DHAPEWADA in other tahsils of the district

Cattle fairs are—Shull, Sankrant, January, Bahmni, Sankrant—January, Bahmni, Sankrant—January, Bhojapuri, Sankrant, January 1 day

NIMAR DISTRICT.

The NIMAR district (area 4,227 sq miles, population 5,13,243, languages, Hindi and Marathi) has an average rainfall of about 32". The local language of Nimar District is Nimari which has no written script The headquarters of the district are situated at Khandwa

The chief crops grown are cotton, jowar, pulses, wheat, ganja, betel vine, pomegranates (at NIMAR). Working and transport of raw cotton is the chief industry, besides, there are coarse cotton weaving and ginning and pressing factories at KHANDWA, LALBAGH, BURHANPUR, NIMARKANDI, JAHAR and PANDHANA Timber is sold at SULGAON, and HARSUD

The chief exports are raw cotton, seed, til, jowar, sunn-hemp, timber, bamboos, flowers (mohua flowers), and groundnuts The imports are salt, gur, tobacco, kerosene oil, building and paving stones, etc, etc

KHANDWA, (population 37,725), the Sadar Station, is situated on the G I P Rly, 1,256 miles from Calcutta A Jain temple has been erected at a cost of Rs 75,000 There is a good metalled road between Khandwa and Madhata At MOGHAT, 4 miles from Khandwa Town, there are water works supplying water to the Town

BURHANPUR (population 54,072) is a great commercial centre for grain and cotton and manufactures The town is 647 miles from Delhi and 45 miles from Nimar There is also an oil mill The export of silk cloth has ceased from Burhanpur, but cottage weaving industry with looms driven by electric power has taken its place Textile and weaving mills called "The Burhanpur Tapti Mills" have also been established at Burhanpur. The city is supplied with pure water partly by a historical system of water-works, colloquially known as "Khuni-bhander," exhibiting considerable skill in construction The Railway Station is 3 miles from the Town, connected with a metalled road About 14 miles from Burhanpur there is the fort of Asirgarh on the Khandwa-Burhanpur road

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8. Industry Book Dept., Shambazar, Cal.

G I P and Rajputana-Malwa Rlys cross the district which is also provided with good roads.

Fairs.—In KHANDWA Tahsil Nahalmadi, Sangmeshwar Fair in honour of Lord Shankar, March, Kapuria, December, Boikheda, Data Sahab Mela, March, Ambapat, March, Mandhata in honour of God Onkareshwar, Mahasheshiatra (Nov), and Tipui, Purnima (March), 1 and 3 days, respectively, Cattle, Ramer, April; Pabasi, April In BURHANPUR TAHSIL—Sukta, April, 3 days, Shahapur, November, day following Dewali, Ichhapui, April, Lokhandia, April, Dhar, December. In HARSUD TAHSIL—Singajee, middle of October, 10 days, Cattle fair, Malgaon, December, 10 days, Cattle fair In MUNDI.—Both weekly market and cattle market are held every Thursday Timber is offered for sale in these markets

RAIPUR DISTRICT

The RAIPUR district (area 11,885 sq miles, population 1,526,803, language, Chhatisgarhia) has an average rainfall of 55" Teak occurs here, sal, karia, bijasal, babul, mohua and grass are also abundant

The chief crops are rice, pulses, linseed, kodan, urid, mung, math, gram, sesamum, of which linseed is the most important in the province Fruits and vegetables are grown over 20,000 acres There is much difficulty in transporting forest products, though teak, sal and bamboos are abundantly found

Raipur sand stones are used for buildings

Tassar silk is woven as also coarse cotton cloth; ornaments and vessels of bell-metal are made at DRUG, DHAMTA, NAWAPARA and RAIPUR Glass bangles are made at SHINGA, NEORA and KURRA. Iron ore is found and smelted Cotton gins and presses exist

Exports are rice, wheat, til and linseed oil cake, teak, sal, bijasal, lac, mohua and myrobalan The imports are salt, sugar, guai, (Bastar), cotton thread and cloth, metals, brass vessels and hardware

A large weekly cattle market is situated at BALODA Bazar near SHIMOGA Other centres of trade are BARONDA, BAREKEL, UTAI, RANITERAI, GANDAI, ARJUNDAH, DRUG, KURUD, DHAMTARI, NEORA, BHATAPARA, etc

RAIPUR (population 45,390) is a great railway junction (branch DHAMTARI with a population 11,050 and RAJIM) Brass making, lacquering wood, cloth weaving and mat-making are the industries Oil mill and cotton ginning factories are situated here There is a small museum

B N Rly. passes through the district.

SAUGOR DISTRICT

The SAUGOR district (area 6,671 sq miles, population 9,39,068, language, Hindi) has an average rainfall of about 48". Teak is available on hill sides

The chief crops are wheat, gram, jowar, sesamum, kodan, cotton, rice, etc Betel-vine gardens are found at SAUGOR, BALEH, SAHAJ-PUR, JAI-SINAGAR, DAHOM, HINDORIA

Weaving and dyeing (at SAUGOR, REHLI, ANANTPURA, DEORI, GOURJHAMAR, GARHAKOTA), brass working (at DEORI, KHURAI and MALTHONE), iron work (at RAHATGARH), gold and silver works, glass works, bell-metal, etc are the chief industries

The exports are grains, til and linseed, forest products, betel leaves, skins and horns of antelopes The imports are cotton piece-goods, kerosene oil, metals, hardware, groceries, spices, country cloths, sugar, tobacco, salt, etc

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments. Rs. 3/8. Industry Book Dept., Calcutta.

MARKET PLACES OF CENTRAL PROVINCES 517

SAUGOR (population 63,933 including the cantonment)—Trade of the district is concentrated at this place. **SAUGOR** and **SAHAPUR** are the important trade centres in the district.

BINA JUNCTION, on the G I P Rly, main line, is a big grain market, and wheat and gur are the chief exports from **KHURAI**, a railway station on the Bina-Katni, section of the G I P Rly.

DAMOH (population 26,799), the crops raised here are wheat, grain, linseed, rice and kodan. Jowar and til are also cultivated to a very small extent. Teak and sal are the chief timbers in the reserved forests. There are sufficient grazing grounds, and fodder grass is sold. Iron ore has been found near the Panna State border and building stone is also available.

Country cloth is woven at **DAMOH** and the chief centres of the industry are at **BANSA**, **RANEH KALAN**, **DAMOH**, **HINDORIA**, **BANSA-TAR-KHEDA**, **SITANAGAR**, **ANANTPURA** and **HATTA** (saris). Dyeing by indigenous process is also carried on. Household vessels are made at **DAMOH** and **HINDORIA**. Paper is made by hand at **PANCHAMNAGAR**.

The particular exports of **DAMOH** are wheat and oil seeds. It sends teak and bamboo to Northern India as also lac. Ghee is largely available and has a good trade with Calcutta. The principal imports are piecegoods (from Bombay), kerosene oil, gur (N India), sugar, tobacco, copper vessels, etc.

Other places of trade are **KHURAI** (8,509), **DEORI** (6,917) and **ETAWAH** (8,984) and **SAHAPUR**.

The district is well served by the G I P Railway.

Fairs.—Only cattle fair is held annually about the months of February and March at Garbakata in Rehli Tahsil of the district.

WARDHA DISTRICT.

The **WARDHA** District (area 2,428 sq miles, population 516,106; languages Marathi and Hindi), lies at the foot of the Satpura Hills adjoining Berar.

The crops raised are cotton (3,00,724), juar (3,71,041), wheat (1,13,295), oil-seeds (58,104), sugarcane; turmeric grows at **WAIGAON** (Hinganghat Tahsil), there are numerous orange gardens and banana plantations in Arvi Tahsil. Betel leaves grow at Arvi, Jalgaon and Ashti.

There are two weaving and spinning mills at **HINGANGHAT** and one at **PULGAON**. There are numerous ginning and pressing factories in the district. A tannery has been started by the Go-Sewa Charnmalaya at **NALWADI** about a mile from Wardha town on the Wardha Nagpur road. Bone manure is also manufactured there. The All India Village Industries Association has started paper manufacture. At numerous centres hand-woven khadi is made of hand-spun yarn. **NALWADI** and **KHARANGNA** are important centres of Khadi manufacture. A dyeing factory has also been started at Wardha.

Chief exports are cotton, cotton seed, linseed and its oil, groundnuts (to foreign markets), cloth and yarn (from Hinganghat and Pulgaon), teak, plantains, oranges and chillies. The chief imports are cotton piecegoods, kerosene oil, salt, silk cloth, hard-ware, wheat and rice.

HINGANGHAT (22,601) an important industrial centre. Cotton and cloth are the chief exports.

WARDHA (19,571) head quarters of the district, an important cotton market, numerous ginning and pressing factories. The town has come into great prominence lately as the head-quarters of Mahatma Gandhi, and of various All India movements in-

COMPLETE TAILORING—A guide to cutting and tailoring of Gents', Ladies' and Children's garments Rs. 3/8. Industry Book Dept, Calcutta.

518 INDUSTRY YEAR BOOK & DIRECTORY, 1943

spired by him The All India Village Industries Association is located here and is carrying on research in village industries such as Paddy-husking, Flour-grinding, Palm gur and Sugar making Oil-pressing, Bee-keeping, Paper-making and Soapmaking out of indigenous saji matti The Goseva Charnalaya, an institute for improved methods of tanning on a cottage basis of hides of non-slaughtered animals is located here Profitable use of various parts of the carcass, as well as leather work are carried on and taught.

Another important trade centre is DEOLI (6,209).

PULGAON (7,845) has an important cotton market The C. P. Light Railway connects it with Arvi

ARVI (16,293) has several ginning factories and an important cotton market It is connected by first class roads with Wardha, Amraoti and Nagpur It has a good gravitation reservoir It is connected with Pulgaon by road and railway It has a cattle market also

Cattle markets are held at WARDHA, DEOLI, SELU in the Wardha Tahsil and HINGANGHAT and SAMUDRAPUR in the Hinganghat Tahsil

Fairs: Fairs at Ghorad, Dhaga, Sonagaon Abaji, Girad and Kapsi are important

The G. I. P. Rly runs through the centre of the district A branch line runs from Wardha to Warora, which is 686 miles from Calcutta via Midnapur and Nagpur.

YEOTMAL DISTRICT.

The YEOTMAL district (area 5,219 sq miles Population 8,87,788) has an average rainfall amounting to about 50".

The chief crops grown are jowar, cotton, and various pulses The forest products are timbers, fuel and fodder Pasture land covers about 1289½ sq miles

Coal is mined here to a small extent, the output in 1941 being 34,139 as against 34,981 tons in 1940 Limestone is found in WUN taluq.

Ginning and pressing of cotton, weaving of khadi, saris and turbans and cotton printing are the industries of the district

The exports are raw cotton, oil seeds, cereals, pulses etc The chief imports are cereals and pulses, salt and sugar which come mainly from the neighbouring districts and Bombay. Goods are carried by the C. P. Rly via Murtizapur G. I. P. Rly. which is reached by YEOTMAL Dhamangaon Road YEOTMAL is the chief centre of cotton trade and the general trade of the district WUN, DARWHA and DIGRAS are also trade centres in the district which contain cattle markets. Weekly markets are held in the paragana towns

YEOTMAL (population 26,571) the district headquarter is a Municipality and contains several ginning and pressing factories. The town is connected through Dhamangaon with a metalled road 29 miles away on the G. I. P. Rly and also with the C. P. Rly. via Murtizapur G. I. P. Junction Yeotmal, Darwaha, Digras and Pusad towns were connected by C. P. Rly line till 1940 but the line from Darwaha to Pusad has since been removed and the traffic is done by motor

Trade centres are WUN (12,228), PUSAD (11,367), DIGRAS (10,707), PANDHARKAODA (8,387).

Fairs:—List of fairs held in the YEOTMAL district —Khatashwar fair, Jodmoha, Kartik Sudhi 15, Datta fair, Dattapur, Margashirsh Sudhi 15; Wun fair, Wun, Magh Sudhi 15 to Falgun Sudhi 15, Ramtirth fair, Ramtirth, Magh This fair is held about 2 weeks, Dhanoda fair, Dhanoda, Falgun Vadya 5, Kharabi fair, Kharabi, Magh Vadya 14, Wanegaon fair, Wanegaon, Chaitra Sudhi 15 Five more fairs are held at ANJI, JAGJAI, WAI, PIMPALKHUTI and TADSAWALI villages

For practical methods of manufacturing boot polish, metal polish, etc. read PROSPECTIVE INDUSTRIES. Re. 1/12, Industry Book Dept., Cal.

MARKET PLACES OF ASSAM

THE Province of Assam can be topographically divided into three natural divisions; the Surma Valley, the Brahmaputra Valley and the intervening range of hills. The Surma Valley is a flat plain about 125 miles long and 60 miles broad and is shut on both the sides by ranges. The Valley of the Brahmaputra is an alluvial plain about 500 miles long and 50 miles broad. The total land consists of the Jaintia, Khasi and Garo Hills, stretching from east to west and of the Lushai Hills in the south. The Province has an area of 26,000 sq miles and a population of 10,205,000.

Climate.—The climate of Assam is cold and extremely humid. But the temperature is never extreme. Average annual rainfall is abundant but varies from place to place according to height. Sylhet 57", Silchar 124", Cherrapunji 500", Goalpara and Lakhimpur 115" and at other places it is about 80" on the average, but as low as 68" is not uncommon. Storms occur during the spring months and the Province is often subject to earthquakes.

Soil.—The soil of Assam in general can be taken as a loose sandy loam with a thin layer of humus at the top. Humus is the black substance formed from decayed organic matters, leaves and branches. The presence of humus in a loose soil imparts fertility to it and supports a luxuriant vegetation. The composition of the soil in the slopes of the hills varies in its abundance of ferruginous and calcareous sand stones,—the latter being more marked in area near Cherrapunjee. The plains of the Brahmaputra Valley consist of fertile alluvium and the soil is similar to that of the Indus or the Gangetic plains of the Punjab and Bengal. Of the total area in Assam 6,789,000 acres were under cultivation during the year 1940-41 of which 965,000 acres were irrigated. Area of land lying fallow is 2,134,000 acres, forest 4,305,000 acres, culturable waste 4,577,000 acres.

Natural Resources.—In the Surma Valley, rivers rise from the Naga hills and flow south through Manipur. Slender palms, feathery bamboos, and broad-leaved plantains are seen everywhere in the villages. Throughout its length the Brahmaputra Valley is enclosed by marshy land covered with thick grass jungles interspersed with cultivation here and there. Rice is grown, forest timbers are felled and tea gardens are opened. There are large areas of waste land, swamps, forests and hills, and in some parts of the valley population is beginning to press upon the soil. The slopes of the lower hills are clothed with forest and the rivers pass through gorges of exceptional beauty. Ranges of hills comprising the Naga, the Jaintia, the Lushai, etc., are broken by sharply segregated ridges and deep valleys, all of which alike are covered with forests. The State of Manipur, however, though situated in this portion is a fertile valley surrounded by a range of hills.

The uncultivated portion of the Assam Valley is usually covered with forests or with big grass and reeds (ikra, nal and khagri). The trees found are sal but in the west amoora, michelia, magnolia, ficus and mesua are common. Various kinds of palms, canes, tree ferns, bamboos and plantain trees are also common. The greater part of the Assam range is covered with dense forests or jungle and the most

For practical methods of manufacturing boot polish, metal polish, etc. read **PROSPECTIVE INDUSTRIES**. Re. 1/12, Industry Book Dept., Cal.

valuable timber tree in them, is sal. Others are tita sapa, jarul, stroemia, nathor, sam, gomari, khair, sisu and gunserai. Forests cover about 4 million acres. Lac and silk cocoons are collected from forests.

Forests—The total area of the reserved forests stands at 6,647 square miles and unclassified State forests 14,765 sq miles. The main output of the forests consists of timber, lac, sleepers and bamboo. Medicinal herbs are also available.

Fauna—Assam is full of birds of all kinds, the prettiest of which is the peacock. Black pheasants, jungle fowls, partridges (black and brown), floricans, imperial and green, pigeons are found in large number in these forests. That rare bird, the peacock-pheasant is seen in the southern slopes of the Khasia and Jaintia Hills and in the Garo Hills. In the beels and swamps, ducks of various kinds, teal and other game birds abound. Snipe, the most sporting game bird of India is found in marshes and low lands.

Elephants are found in the province in good number. Elephant catching is said to be a lucrative occupation. There is considerable trade in elephants, ivory and rhino horns.

Crops—The chief crops in the province of Assam are rice and tea. The two great alluvial plains of the Brahmaputra and the Surma are suitable for cultivation. Deep, soft, clayey loam is best suited for the cultivation of rice of various qualities which are grown over huge areas in the different tracts in district. Wheat and barley are grown on a limited scale in the Goalpara district. Jute is grown in Goalpara, in Sylhet and also in Kamrup. Linseed is grown in Sylhet. Garden crops include tobacco, several kinds of plantains, vegetables, palm, areca palm, pepper, and various kinds of spices. Jack fruits, mangoes, papayas, pineapples are grown. The Khasis export potatoes, oranges, pineapples, and leaves of bay tree, and cotton is grown by most of the hill-tribes. Cowdung and sweepings of courtyards are used as manure to garden crops, sugarcane, jute and the nurseries. The great handicap to cultivation is absence of labour and many tea gardens are worked by indentured labour.

Area under jute in 1941 was approximately 356,000 acres, sesamum 23,000 acres, sugarcane 41,000 acres, cotton 41,000 acres, rice 5,426,000 acres, rape seed 287,000 acres, tobacco 15,000 acres.

Minerals—The minerals worked in Assam are coal, limestone and petroleum oil. Coal is found at MAKUM, and KHASI, JAINTIA and NAGA HILLS. The output in 1939 was 274,528 tons, of which the major part is mined in Lakhimpur. Limestones are found extensively on the southern face of the Khasi and Jaintia hills—from the Someswar River in Garo hills to that of the Hail river in the Jaintia. The centre of the trade is SYLHET. Petroleum is worked in the MAKUM FIELDS in LAKHIMPUR and also at some other places (MANIPUR, BADARPUR and BANAK in Cachar). Iron is worked to a very small extent in the Khasi hills. It is also found in Mikir hills. Platinum has been found in the sands of the Dihing river and lead and silver are found in the Khamti hills. A new oil spring has been spotted near Sibsagar.

The existence of huge deposits of coal in various parts of Assam has now been established. Reserves of about 600 million tons in Namchik and nearby areas, over 500 million tons in the area south of the Garo Hills range, nearly 750 million tons in the areas in about Dairangagiri and nearly 10 million tons in the isolated and scattered coal-fields in the Khasi, Jaintia and Mikir Hills, are stated to represent some of the untapped coal resources in the Province. Geologists compute that the reserves of coal average about 750 million tons each.

"Pharmaceutical Preparations" A guide to preparing patent medicines. A formula may earn for you a lot. Re. 1/12. Industry Book Dept., Cal.

in the Langin and Longstoin areas within a depth of 500 feet of the surface and probably over 500 millions tons in the area in the south of the Tura Range of the Garo Hills, west of the Chutmang mountain, at a depth of 200 to 1,000 feet of the surface. But the most important problem in this connection is the difficulty of transport.

Tea Industry:—The predominating industry of the Province is the manufacture of tea, both black and green. The number of gardens in Assam at the close of 1939 was 1,126 against 1,120 of the previous year.

The total area under tea during 1939 decreased from 438,972 acres to 438,272 acres.

The total outturn of tea in 1938 was 261,037,000 lbs of black and 809,000 lbs of green tea. Total output of tea during 1939 was 252,728,000 lbs of black tea and 572,000 lbs of green tea.

Nearly 28,900 labourers were recruited for tea gardens in Assam during 1938-39, according to the latest Annual Report of the Controller of Emigrant Labour in Assam.

Irrigation:—Total area irrigated during 1940-41 was 965,000 acres; of which area irrigated by Government canals is 228 acres and by private canals 562,000 acres, by tanks 1,000 acres, by other sources 402 acres.

Factories:—The number of factories in Assam is about 750. Of these seasonal factories number 645. There are 32 rice mills, 5 saw mills, 12 oil mills, 2 petroleum refineries and 638 tea estates. The average daily number of persons employed in the registered factories is 50,000.

Industries of the modern type including rice mills, oil mills, brick, pipe and pottery works at LEDO (Lakhimpur); paper pulp making at SILCHAR, kerosene oil tinning and packing at BAHADURPUR GHAT (Cachar), railway workshops at DIBRUGARH (Lakhimpur), TEZPUR (Darrang) and JORHAT (Sibsagar), petroleum refining at DIGBOI (Lakhimpur), engineering workshops at DIGBOI, RAHABARI, (Dibrugarh), MARGHERITA, TALAP, BARAHAPJAN, all in the Lakhimpur district.

Cottage Industries: The most common cottage industries of the Province are cotton weaving and sericulture. The cotton weaving industry of Assam exists in three distinct stages among the three different classes of the people. Among the progressive inhabitants of the Surma Valley, the industry may be said to be extinct, and there is little probability of its revival. Among the Assamese proper, it still holds an important position, even in the manufacture of the coarser cloths. It will probably be long before these are altogether superseded by imported fabrics.

Sericulture is practised on a fairly large scale. Muga silk worm is reared in Sylhet, Cachar and Kamrup and is woven into fabrics or exported to Calcutta and other markets. Endi silk was for long the monopoly of Assam but its rearing now extends to Eastern Bengal. The crops are usually reared from September to November and from February to March when the climatic conditions are considered ideal. Silk fabrics are woven both for home consumption and for sale.

Among other industries of the Province may be mentioned manufacture of brass and bell-metal articles, shoes, wooden utensils, wood carving, toy making, pottery, etc. Of the industrial arts may be noted jewellery and enamelling, ivory carving, embroidery and lac bangles. Handicrafts are mat and basket making, blanket and durri weaving, brush and comb making, cutlery, etc.

"Pharmaceutical Preparations" A guide to preparing patent medicines. A formula may earn for you a lot. Re. 1/12, Industry Book Dept, Cal.

The minor industries are burning of limestone, preparation of molasses and mustard oil, making of boats, canoes and tea boxes, the manufacture of earthen vessels and local jewelleryes. Other manufactures are iron work and rough pottery

The district of Sylhet is famous for lime, mats of bamboo and reeds, boxes and furniture made of reeds, bracelet of shell, and lac, agar or atta (a perfume from sap of agar tree), toys, fish-oil, dried fish and boat. There are several oil and rice mills at GAUHATI and in some other parts of the Province. There are saw mills and brick potteries in the Lakhimpur district. The chests are made from simul trees.

The fish industry is one of the most important of the indigenous industries of the province of Assam. It is still carried on in the old methods, either by individual fishermen, or by a combination of fishermen, working under a middleman, who takes the lease of a fishery, and supplies the boats and nets necessary for carrying on business, while the fishermen supply the labour. The industry obtains in several forms.—(1) Exports of fresh and salted fish, (2) Preparation of dried fish, (3) Preparation of fish oil, (4) Sale of fish manure. The possible by-products are fish manure, isinglass, fish skin and fins, preservation of fish may also be tried.

Resources.—Natural resources of Assam are most prolific. For instance, Khasi pines, Eucalyptus, Camphor, Cinnamon, Cardamom, Lemongrass, Geranium, Patchouli, Wintergreen, Chenopodium and numerous other valuable essential oil-bearing plants abound in Assam.

Assam possesses suitable wood for veneers for the manufacture of tea chests. Wood, bamboo, grass, hemp, etc., are extensively found in the forests of Assam. The extensive grass area lies in the angle made by the Brahmaputra and Manas rivers on each bank of the former opposite Goalpara and in the Barpeta sub division and in several centres of Surma Valley and Chittagong Division of the neighbouring province. Hides and skins are abundant.

Timber.—Oaks and pines which one usually associates with cold climate are represented in large number in the Assam Hills. The plains contain a bewildering variety of trees, shrubs and herbs. The giant Hollong tree (*Dipterocarpus pilosus*), the gigantic Hollock (*Terminalia myriocarpa*), the magnificent Sal (*Shorea robusta*) are objects of admiration to any casual observer. Assam forest produces Sissu (*Dalbergia sissu*), Khair (*Acacia catechu*), Cham (*Albizia leucodermis*), Champa (*Michelia champaca*), Gamai (*Gmelina arborea*), Poma (*Cedrela toona*), Bonsum (*Phoebe hainesiana*) and a host of other and ornamental woods. Agai wood (*Aquilaria agallocha*), the famous 'Aguru' of commerce is found in Assam, but the most important items of minor produce that yield large revenue are lac, cane, thatch, and bamboo mahals. The major part of Assam timber goes to Bengal, which is the chief market for Assam hardwoods. A few saw mills in Upper Assam manufacture tea boxes for the tea industry and a small quantity of bamboo chips are sent to paper mills in Bengal.

Trade.—The bulk of the trade, apart from tea, consists of raw products, due to the very undeveloped nature of the Province. The principal imports are generally cotton piecegoods and twist, husked rice, salt, sugar, kerosene oil, mustard and other oils, gram and pulses, tobacco and metals. The chief exports are tea, unhusked rice, oil seeds, coal, lime, rubber, timber, jute, raw cotton, lac, hides, oranges, etc.

The most important centres of trade are GOALPARA, BARPETA, GAUHATI, TEZPUR, NOWGONG, GOLAGHAT, JORHAT, DIBRU

Learn the manufacturing processes of organic and inorganic acids and heavy chemicals from "Chemical Industries of India." Price Re. 1/12.

GARH and SADIYA HABIGANJ, AJMIRGANJ, SUNAMGANJ, CHHA-TAK, BALAGANJ, SYLHET and SILCHAR.

The trade of Assam is chiefly with Calcutta and Chittagong by rail and steamer. The trade of the interior, which however is not considerable, is carried on by carts. Cattle, ponies, sheep and other livestock are generally brought to Assam by road.

Foreign trade is carried on with Bhufan, Towang and the tribes of the lower Himalayas. TEZPUR, LAKHIMPUR and SADIYA are the centres where rubber is brought by these people for sale who take away cotton, cloth, yarn and silk.

Rail and River Borne Trade:—Imports—Cement, coal, yarn, piece-goods, fruits dried, wheat flour, gunny bags and cloth, iron and steel bars, sugar, gur, tobacco.

Exports:—Paddy, rice, hide raw, jute, kerosene oil, rape and mustard, tea, and lime.

Transport and Communication:—The trade of Assam is chiefly carried by river but increasing use is being made of the Bengal & Assam Railway which connects Chittagong (now a major port) with Sadiya on the Brahmaputra. Regular cargo services I G N & R S N Co's. exist. B & A Rly traverses and serves the entire Province.

CACHAR DISTRICT.

The district of CACHAR (area 3,855 sq miles, population 570,531, language, Bengali, Mampui, Kachai, Naga, Kuki, Hindustani and Mikir) is intercepted by the Naga hills, Lushai hills, etc. Rainfall at Silchar is 121 inches annually and at places near the foot of the Assam Range the amount is nearly 170 inches.

The forests of Cachar, contain a large quantity of valuable timber trees, which are used for house-posts, beams, house-hold furniture, tea-boxes, railway sleepers, boats, agricultural purposes, and firewoods. Betel leaves and oranges are cultivated largely.

The staple food crop is rice, pulses, sugarcane and maize, chillies, mustard and linseed are also grown. Tea is largely grown here, the output being 25½ million lbs of green tea in 1938. There are several saw mills. The Manipurians weave cotton and mosquito curtains and manufacture brass vessels. Daos and axes are forged by blacksmiths.

The chief item of exports is tea. Timber and bamboos of Cachar are in good demand in Sylhet. Principal articles of import are rice, flour, betelnuts, salt, sugar, ghee, kerosene oil, piecegoods, iron and steel. The bulk of the trade is with Calcutta but Chittagong is taking a good share. Cachar imports timber, rubber and forest products from Manipur and sends there piecegoods, cotton twist, dried fish, and betelnuts.

SILCHAR (population 13,069) is the headquarters of the district which is the chief business centre. It is a terminus station of a branch line from Badaipur on the B & A Rly and is the centre of tea plantations in the district. The Indian Paper Pulp Co manufacture paper pulp here. There are oil mills also.

HAILAKANDI, SONAMUKH, SIALTEK, DHOLAI, LALA BAZAR, LAKHIPUR and BARKHALA are the other centres of trade. Besides these the tea gardens consume various articles.

There are Railway lines to Hailakandi and Lalaghata from Katalkhal Jn.

DARRANG DISTRICT.

The district of DARRANG has an area of about 2,842 square miles and is situated between the Himalaya Mountains and the Brahmaputra.

Although rice is grown upon nearly 70 per cent. of the cultivated land, tea is the most valuable crop of all, the output being 39,497,544 lbs.

Learn the manufacturing processes of organic and inorganic acids and heavy chemicals from "Chemical Industries of India." Price Re. 1/12.

in 1940 Jute is another crop which is grown far more extensively now than it was done twenty or twenty-five years ago

The trade is carried on to a very large extent with Calcutta merchants. The chief exports comprise of tea, mustard and other seeds, hides, cane and rubber, while the imports include rice, grain, machinery, hardware, kerosene, and piecegoods.

TEZPUR is perhaps a place of call, the main north trunk road passes through the town, and it has also railway connection with the northern portion of the Province.

There are about 2,200 villages in the district, the principal one is MANGALDAI being the other sub-division of the district.

GOALPARA DISTRICT.

GOALPARA is a district in the north-western portion of the province adjoining Bengal with an area of nearly 4,000 square miles.

The Brahmaputra flows through the district, or forms a boundary, for a distance of more than 80 miles and a considerable portion of the land in the neighbourhood of the river is liable to be flooded. The district produces rice and cereals, wheat, pulse, mustard, tobacco, tea, cotton, and jute. The district contains valuable sal forests whose produce exported annually is worth a very large sum.

The district has a good trade in Assam silk cloth (hand woven).

There are about 1,460 villages in GOALPARA. The towns of importance are DHUBRI, GOALPARA and GAURIPUR.

DHUBRI (population 9,435) —It is the headquarters of the district. It is situated on the right bank of the Brahmaputra, and is a place of call for river steamers. The town contains public offices, library, Town Hall, and a High School. A considerable export trade in jute is carried on. There is a match factory here. There are 3 banks and a loan company.

GOALPARA is the third largest town in the district, and is the headquarters of the Sub-division.

GAURIPUR is a busy little place on the Gadadhar River, and a large number of Marwari merchants who have settled here carry on a very considerable export and import trade. It is situated about five miles to the north of Dhubri. A cattle fair is held in March.

Principal goods exported include timber, hides, unhusked rice, silk cloth, fish, cotton, lac, betelnuts, and jute. Among imports are European piecegoods, salt, hardware, oil, tobacco, flour, sugar, spices, and various kinds of pulse.

Vessels for carrying passengers and cargo are run by the India General Steam Navigation Company and the River Steam Navigation Company. There are also branch lines connecting certain centres with the Bengal and Assam Railway Company. There is a ferry service every alternate day between Dhubri and Goalpara of the Brahmaputra.

KAMRUP DISTRICT.

The district of KAMRUP has an area of nearly 3,863 square miles and a population of 976,746 who speak Assamese.

Many different varieties of rice are grown, the majority of the plants being raised from seed sown in nursery beds and then transplanted. Nearly 80 per cent of the cultivated land is under this crop, the remainder being devoted principally to mustard, tea, pulses, jute, sugarcane, and garden produce.

The chief industries at the present day are the weaving of cotton cloths, the rearing of silkworms and the production of silk, the manufacture of pottery, the making of bell-metal cups, jars, boxes, and brass utensils and ornaments of every description.

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re. 1/12, Industry Book Dept., Cal.

Assam silk industry flourishes most at **SUALKUCHI** Bell-metal-warens are made at **SARTHEBARI**

GAUHATI (population 21,797) —It is the district headquarters and is the largest town in Assam It is an important steamer station on the bank of the Brahmaputra river and is a railway station on the B & A Rly Silk cloth is exported and there are a number of banks and insurance companies doing business here The Government Weaving Institute and Sericultural Station are located here There are four colleges including one law college and one ladies' college. The town serves as the gateway to Assam Valley and K J Hills

NALBARI—It is an important rice trade centre There are a number of rice mills here The place is also famous for Sanskrit College

RANGIYA—It is the railway junction of B & A Ry and R T. R. Ry Considerable trade with Bhutan is done here

Other important trade centres are **BARPETA** and **KUKURMARD** (sal trade market)

PALASBARI—It stands on the south bank of the Brahmaputra. There are transactions in endi, muga, paddy, mustard, jute, lac, etc

The district is traversed by Bengal and Assam Railway up to Gauhati The Brahmaputra River serves as an important highway for the conveyance of passengers as well as merchandise

KHASIA & JAINTIA HILLS.

The Khasia and Jaintia Hill district has a population of 289,926 Languages spoken are Khasi, Assamese, Bengali, Hindustani, English, etc

SHILLONG—It is the seat of the Provincial Government and is connected with a sixty-four mile hill road with Gauhati Fruits, potatoes, hill produce, textiles are exported from here There is a hydro-electric company here

LAKHIMPUR DISTRICT.

The district of **LAKHIMPUR** stretches across an area of 4,116 sq miles and is inhabited by a population of 724,582 who speak Assamese

The district of **LAKHIMPUR** is mainly a rice growing tract, about 324,000 acres being under the crop Tea is grown over 110,069 acres Fruits and vegetables are cultivated widely, there being 38,000 acres under them.

The district is the biggest coal producing centre in Assam In 1939 it produced about 238,102 tons of coal

DIBRUGARH (population 18,734) —It is a big tea centre It is the Sadar Station of the Lakhimpur district. It is situated on the bank of the Brahmaputra and is a railway station on the Dibrugarh-Sadiya Rly It is 859 miles from Calcutta

TINSUKIA (population 5,100) —A growing mart There are a number of rice mills here

DIGBOI is the only oil field of Kerosene oil in Assam

MARGHERITA is an important trade centre with a number of saw mills and collieries Timber is available here in plenty.

NAGA HILLS.

The district of the **NAGA HILLS** is merely a narrow strip of hilly country with a total length of about 140 miles and a breadth of less than 30 miles and has got a population of 1,89,511

Rice is main crop and cultivation is only industry apart from one coal mine at **BORJAN** in the Mokokchung sub-division

The principal crops are rice, millet, chillies, pumpkins, cotton; maize and a various assortment of fruits and European vegetables

"Dental Preparations"—An invaluable guide to manufacturers of tooth powders, pastes, mouth-washes, etc. Re. 1/12. Industry Book Dept., Cal.

Cloths woven and garments made by the Nagas withstand the coldest weather, and are in addition, very attractive in appearance. Making of iron spear-heads, implements, pottery, mats and baskets are the primitive industries.

KOHIMA, the headquarters of the district contains an old fort, magazine, post and telegraph offices, together with the official quarters of the Deputy Commissioner.

It is the only trade centre in the district and is situated 46½ miles from Manipur Road Railway Station (B & A. Rly.), Communication is by motorable cart road. There are no other roads in the district.

The remaining villages are about 480 in number and the majority of them are built upon the summits of hills.

MOKOKCHUNG is head quarters of Sub division of that name.

SIBSAGAR DISTRICT.

The district has an area of 5,003 sq miles and a population of 933,326. Language spoken is Assamese.

The district produces rich crops of rice, about 500,000 acres being under cultivation under the crop. Other important crops are rape and mustard, pulses, sugarcane, etc. Tea is grown on a large scale.

SIBSAGAR (population 6,651)—It is a big tea centre. There are oil mills also.

JORHAT—It is the district head-quarter town and is connected by the J P Ry, F B J Ry and the Assam Trunk Road. It is an industrial town and has a first grade college, a Govt Technical Institution and 4 high schools. The laboratories of the Economic Botany, Assam, Agricultural Research Farm and the scientific department of the Indian Tea Association are located at TOKLAI.

GOLAGHAT—It is a sub divisional headquarter.

SYLHET DISTRICT.

The district of SYLHET has an area of 5,413 sq miles and a population of 2,724,432.

The district possesses the largest area under rice in Assam. In fact more than 16 million acres are under the crop. About 89,500 acres of land are under tea. Fruit and vegetables are grown on a pretty large scale. Linseed is also grown. Jute is grown over 37,200 acres. Muga silk worm is reared in the district.

SYLHET is famous for oranges which are exported to Calcutta in very large quantities. Limestone occurs plentifully in the district and is burnt into lime by several factories at SYLHET town and also at SUNAMGANJ and CHHATAK. Sylhet lime is in considerable demand in the Calcutta market and elsewhere as a building material.

SYLHET (population 24,435)—There are a number of banks and loan offices in the town. Bengali is the language spoken here.

KARIMGANJ (population 5,691)—It is an important trade centre in the Sylhet district. There are rice and oil mills here.

List of Fairs—Chandbhanga, 4 miles from Shalstaganj, Station (B & A Ry.) First week of January, Fatepur, 1 mile from Shahj Bazar (B & A Ry.) Middle of December, Kamrup, Ambubachi, Ashar (Religious), Tirhut, Assam, January, (Flower and Vegetable). Madhapur, 7 miles from Itakhala Railway Station (B & A Rly.), First week of December. Rice, cloth, shoes, wooden furniture, varieties, brass, pottery shops, iron made articles for domestic purpose and earthen toy goods, etc., Murakari, 8 miles from Chatyain Station (B & A Ry.) Last week of December. Siddheswar, Katigora, Paragana, Barni Mela, on the Baruni day in March, Agricultural, Industrial and Cattle Fair, 15 days.

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS, Re. 1/12. Industry Book Dept., Calcutta.

MARKET PLACES OF THE NORTH-WEST FRONTIER PROVINCE

THE tract, now called the N. W. F. Province, originally formed a part of the Punjab, but for protection of India against foreign invasion and administrative reasons it was transferred into a separate province in 1901.

The province forms an oblong territory stretching from north-west to south-west, on the western side of the Indus. It borders on Kashmir, the Punjab, Beluchistan and Afganistan. In 1932, it was raised to the status of a Governor's province and the Council under the Reforms was inaugurated on April, 20, 1932. Its total area is 36,356 sq miles. It has a population of 3,038,000, mostly of Pathans speaking Pushtu. Peshawar is the capital city.

The whole tract is very mountainous, the Hindukush mountains (nearly 16,000 ft.) form the northern boundary. The highest peak is Tirach Mir (25,426 ft.). Principal rivers are the Indus, Kabul, Kurram and Kunhar. Diversified climatic conditions prevail in the province. In the more mountainous parts it is much colder, specially in winter.

Average annual rainfall is scanty and varies from 10" to 43.8" in different parts. River valleys and the district of Peshawar are the only fertile and cultivated parts. Agriculture is the leading occupation of the province.

The principal crops in the province are Wheat rabe and mustard, barley, jowar, bajra, maize, gram, cotton, sugarcane, rice, tobacco, fodder crops, fruits and vegetables. The districts where different crops grow in plenty are Rice—Hazara, Peshawar. Wheat—Peshawar, Bannu, Dera Ismail Khan, Hazara, Kohat, Barley—Peshawar, Hazara, Jowar—Dera Ismail Khan, Peshawar, Bajra—Kohat, Dera Ismail Khan. Maize—Hazara, Peshawar, Gram—Bannu, Rapeseed—Dera Ismail Khan, Peshawar, Sugarcane—Peshawar. Cotton—Peshawar. The total area under cultivation is about 27 million acres, of which the area under wheat in 1940-41 was 1,087,000 acres, rice 34,000 acres, barley 159,000 acres and bazra 135,000 acres.

Large quantities of dried fruits, assafoetida (hing), musk etc., are carried from this place to distant parts of India. This province has an entrepot trade with Central Asia and Afghanistan. Numerous caravans enter Peshawar through the Khyber Pass from Kabul and Bokhara, and bring the raw silk, wool, resin, fruits fresh and dried, gold and silver lace, skins, mats and fibres. They take back cotton piece-goods, silk, sugar, salt, tea, and spices. The chief military outposts are Nowshera, Bannu, Kohat and Chitral.

The country is mainly agricultural, there being only 30 factories in operation in all. The factories are mostly owned and controlled by the Government. These include ice and aerated water factories, gin and press, electrical engineering workshops, forage presses, 5 ordnance factories, electric generating stations, and printing press.

There are four State canals in the district for irrigation. These are Lower Swat Canal (length 22 miles and 172 miles), Kabul River

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**, Re. 1/12. Industry Book Dept., Calcutta.

Canal (length 65 miles and 13 miles), Upper Swat Canal (length 138 miles and 403 miles) and Paharpur Canal (length 42 miles and 15 miles). The first two have reached the cultivable area commanded by them but there is still room for extension of area, irrigated by the remaining two.

Public Works Department has commenced the construction of a hydro-electric power station on the Upper Swat Canal where it leaves the Benton tunnel in the Malakand Agency and falls steeply to the plains of the Peshawar District. Two power sites about four miles apart exist on this stretch of the canal, which has a minimum flow of 1,250 cubic feet per second.

Malakand Scheme—The Malakand Hydro-electric Scheme has been completed and with this the prospects for industrial developments in the Province look brighter.

Minerals—The North-West Frontier Province has an almost inexhaustible source of limestone and rich deposits of good quality white statuary marble and handsome banded marbles. White marble found in the Province should be conserved for ornamental work and the more abundant coloured varieties should be used for ordinary building purposes. Coal is available in the Kohat and Hazara districts but has not been exploited.

BANNU DISTRICT

The BANNU district (area 1,693 square miles, population 297,000 and rain-fall 12.82" in 1942) lies to the South of the Kohat District. The crops are wheat, gram, maize, and bajra.

The chief industries of the district consist of pasturage and agriculture. There are some factories of dyeing, bleaching and printing. Earthen-ware is made, iron goods are turned out by blacksmiths. Woollen rugs are also made, woollen pile rugs and phulkaris produced in the district have some artistic merit.

The chief exports of the district are wool, gram and wheat, while the chief imports are sugar, piecegoods, oil, iron and tobacco.

Important towns in the district are BANNU (34,300) and LAKKI (10,000).

Three cattle fairs are held weekly in the district, viz.—On Sundays at Lakki, on Thursdays at Naurang, on Fridays at Bannu.

DERA ISMAIL KHAN DISTRICT.

The DERA ISMAIL KHAN district (area 3,471 sq miles, population 274,064) has an annual rainfall about 10 inches.

The staple crops are wheat (164,000 acres), bajra (91,000 acres), gram (61,000 acres), rape (69,000 acres), jowar (40,000 acres), bailey (4,300 acres) and pulses (10,000 acres) are also grown.

The cropped area of Dera Ismail Khan varies very much from year to year and depends very largely on hill torrent irrigation known locally as Rodkohi. In an average year about 3 lakhs of acres are cultivated and Spring or the Rabi crop the principal crops are—Wheat, Gram and Bailey. In the Autumn or Kharif crop the principal crops are—Bajra, and Jowar. Bajra and Jowar are the staple food crops of the Zamindar and there is usually an exportable surplus.

Coarse cotton cloth is woven in many villages of the district. Turned and lacquered woodwork of remarkable excellence are made at DERA ISMAIL KHAN and also at KULACHI. The commercial importance of the district lies in the fact that it lies entirely on the route of the Khorasan merchants who trade with India. The principal articles carried through it are silk, charas, gold and silver thread, and

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re. 1/12. Industry Book Dept., Cal.

fur from Bokhara, wood and fruits from Ghazni and Kandahar, maddar, wool, ghee, tobacco from Ghazni. The return trade from India consists of indigo, piecegoods, metals, sugar, salt, shoes, leather. Making of many varieties of baskets from palm leaves is carried on in Paniala.

DERA ISMAIL KHAN (population 40,000) is the headquarters. The chief imports here are piecegoods, hides, salt, sugar and fancy wares. The exports are grain, wool and ghee. Lungi weaving and lacquered ware making are the local industries. It is commercially an important town as it lies across the route of the trade carried on between India and Khorasan by travelling Powindah merchants. It is a great centre of trade for dry fruits and drugs which Powindahs bring from Afghanistan. The exports from the place are almonds, wheat, spices, wool, etc., while the imports are hardware, cotton piecegoods, cutlery, etc.

Other town in the district are KULACHI (8,425) and TANK (6,421).

HAZARA.

The population of HAZARA, a mountainous district to the east of the river Indus and west of the Jhelum is given in 1941 Census as 7,39,575. The area is 3,009 sq miles, average rainfall is 43.8 inches. The district is divided into three Tehsils, each of which consists of a small irregular plain encircled by a succession of mountain ranges running parallel to the rivers Indus and Jhelum.

These are HARIPUR TEHSIL, which adjoins the Rawalpindi and Attock District of the Punjab, ABBOTTABAD TEHSIL and MANSEHRA TEHSIL. The principal towns are HARIPUR in the Haripur Tehsil (Population 9,322), MANSEHRA (Population 10,217) and BAFFA (population 7,988) in the Pakhli plain, in the Mansehra Tehsil. Havlian is the railhead and the chief market. ABBOTTABAD is Administrative Headquarters and important cantonment and possess a pleasant winter at 4,100 ft above sea level. The district is quickly afforested, particularly in the impressive mountains overtopping the famous Kagan Valley which leads up to the Babusar Pass and hence to Chilas and Gilgit and on the beautiful 10,000 ft Galgit Range on which are built the hill stations of Thandiani, Nathiagali—summer Headquarters of N. W. F. P. Government and Dungagali. These forests are providing much needed timber for war purposes.

The chief crop is maize, which is the staple diet of the people. Wheat, rice, barley and pulses are also grown.

At present the energies of the people find an outlet in Military service and the district has provided about 75,000 recruits. The only food exports are potatoes and fresh fruit principally pears and ghee, a good deal of which comes from Tribal territory. Trade with tribal territory (Kohistan, Allai, Tikri, the Black Mountain Area and Amb state) is considerable and consists principally in exchange of the ghee, hides, wool products of the tribesmen for salt, sugar, tea etc. There is also a great transit trade with Kashmir, the Abbottabad-Srinagar route via Garhi-Habiullah being one of the two routes from British India into Kashmir.

Fairs—Cattle and Horse Shows are held annually in each Tehsil, at Haripur in March, in Abbottabad in September and in Mansehra in November.

KOHAT.

The KOHAT district (area 2,703 sq miles, population 236,273; rainfall 16.27 inches) is very mountainous with many nullahs. Among chief crops may be mentioned wheat, gram, bajra, maize, pulses, fodder.

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re. 1/12, Industry Book Dept., Cal.

crops, etc. Several salt mines are worked here, other minerals obtainable in the district being petroleum and sulphur to a small extent. Stock raising is practised.

The industries of the district include cotton spinning and weaving, carpentry, leather goods making, bricks and tiles, fireworks, mat weaving and oils. Pattoos of this place are well-known. Pattoos are made at Jungal Khel and Kohat. Other articles manufactured here are table cloth, phulkaries, and namdas.

The exports of the district are almond, spices, wheat, gram, rice, barley, green salt, mats, baskets, etc. The imports are piecegoods, woollen goods, hardware, brassware, general merchandise and kerosene oil.

The headquarters of the district is at KOHAT, which stands near the north bank of the Kohat Tor river, 2 miles from the Southern base of the Afridi Hills. It is also a cantonment.

Cattle fairs are held in Kohat City and Karak on Sundays. Sale and purchase of Live-Stock takes place.

Annually an Agricultural fair is held in the limits of Kohat City under the supervision of the District Magistrate by the local bodies. Arts and crafts of the district are also exhibited. Livestock competition is also held in this very fair. The show lasts for three days and is usually held in spring.

PESHAWAR DISTRICT.

The area of the PESHAWAR district is 2,637 sq miles and the population is 9,74,321. Languages spoken are Persian, Urdu, Punjabi and Pushtu. Average annual rainfall is about 13".

The chief crops grown by wells and tanks are wheat, barley, maize, sugarcane and cotton, apricots, peaches, pomegranate, quinces and other fruits are largely grown round the town of Peshawar. About 10 sq miles are under fruits and vegetables. It contains quarries of slate and marble.

The district is noted for its turbans whether of silk or of cotton and a great deal of cotton cloth is woven. Afridiwad cloths are now largely woven for the European market. Felted mats, saddle cloths, and blankets are also produced. Glazed earthenware, leather goods and copperware are made locally. There are 2 cotton presses here.

PESHAWAR (population 121,886) is the seat of the local government, and the chief trade centre. It is now the largest military cantonment under the Government of India. The bulk of Indian trade with Dir, Swat, Chitral, Bajur, Buner and Afghanistan passes through Peshawar. The chief exports are cotton piecegoods, raw cotton, yarn, indigo, turmeric, wheat, leather goods, brass, copper and iron wares, salt, spices, sugar, tea, tobacco and silver. Trade from and to Kabul and Bokhara passes through it without stopping. A government weaving institute has recently been opened to impart training on handloom weaving, plain and fancy bleaching, dyeing and finishing cotton, wool and silk.

MARDAN (population 26,279) —It is a military station. Important trades are ghee, gur, mash, black jawar, barley, maize, wheat. Ghee is a speciality. Weight of this place is 105 tollahs to a seer.

NOWSHERA (population 29,000) —It is an important military station on the banks of the Kabul river. The place is known for its rice and tobacco. A seer here equals 104 tollahs.

Other important places in the district are CHARSADDA (11,537), PARANG (10,227), TANGI (8,689) and RISALPUR Cantonment (8,016).

"Careers of Agents and Middlemen" A reliable guide on the functions, scopes and qualification of Agents and Middlemen. Price Re. 1/4-

MARKET PLACES OF SIND

SIND formerly a part of the Bombay Presidency has been created into a new province since April 1, 1937. It comprises an area of about 50,000 sq. miles and is peopled by 4,537,000 persons.

The climate of Sind is generally uniform for all years with high temperature of 117°F in May and June and an average of over 100°F from March to October. From October the temperature rapidly goes down to 30°F in December and frost is experienced. Rainfall is usually negligible, being only about 5 inches, but in some years it is as heavy as 20 inches.

In Sind, the soil is alluvial while in Gujrat black cotton and gardu soils are common.

The peculiarity of the soil in Sind is that it is mostly composed of plastic clay which develops into rich mould in contact with water only. The spring crop of the province is chiefly rabi, while the autumn crop is mainly kharif. The rabi crops are wheat, barley, gram, oilseeds and vegetables, and the kharif crops consist of millets, bajra, jowar, rice, sunn hemp, til, pulses and cotton.

Crops—Sind is an agricultural Province, but as the rainfall is very slight and uncertain, the chief source of its water supply for irrigation depends upon the great river Indus. There are about 150 lakhs acres of a very fertile rice land, out of which the area at present under cultivation is about 15 lakhs of acres. Wheat is grown extensively and covers 1,203,000 acres. Among oil seeds, rape and mustard is cultivated and extends over 204,000 acres. Fruits grow abundantly.

Sind depends for its prosperity on the river Indus. The soil is stiff and heavy and saturated with moisture during the rains, and the variety is known as "Salabi". The land is rich and fertile, being made so by the large amount of silt which the Indus carries in its tortuous course and deposits over the surrounding country. But rainfall in Sind is scanty and precarious, and the supplies in the Indus vary. For about eight months of the year the Indus is comparatively a small river, flowing at a very low level and most of the lands, during this low period of supply, cannot take advantage of its waters which pass down the river into the Arabian sea and are wasted. The Lloyd Barrage Scheme has put an end to this uncertainty of water supply and has freed the country around from haphazard cultivation.

The Lloyd Barrage Canals System is the largest single irrigation scheme undertaken in any part of India. It includes the excavation of 6,547 miles of channel and the construction of 1,889 bridges and regulators. Briefly it comprises of the construction of a Barrage across the Indus about three miles below the Lansdowne Bridge at Sukkur and the excavation of seven main canals with their branches, distributaries and water courses, on either side of the river. These canals water crops in all but two districts of the Province. In addition, there are the Flood Protection Bund scheme intended, as its name suggests, to protect the barrage area on the right bank from Khirtar hill torrents and the Manchar Drainage scheme designed to draw flood water from this area and so to prevent waterlogging.

"Careers of Agents and Middlemen" A reliable guide on the functions scopes and qualification of Agents and Middlemen. Price Re. 1/4.

532 INDUSTRY YEAR BOOK & DIRECTORY, 1943

One of the canals on the right bank, the Rice Canal, runs for 6 months in the Kharif season only and irrigation rice cultivation while two of those on the left bank are feeders for the canals in the Khairpur State, the functioning of which was interfered with by the barrage system. A third supplies the Eastern Nara river, which was almost entirely dependent on inundation from the Indus when the river was comparatively high, some 217 miles of this river have now been canalised. The scheme commands a gross area of $7\frac{1}{2}$ million acres, of which area $6\frac{1}{2}$ million acres are cultivated. It is estimated that about $5\frac{1}{2}$ million acres will actually be irrigated annually.

Irrigation—During 1940 total area irrigated in Sind was 4,433,049 acres of which 3,864,191 acres were irrigated by Government canals and 29,205 acres by wells.

Cotton Growing in Sind—The rapid expansion of the acreage under cotton cultivation shows what may yet be achieved in Sind. An ultimate acreage of one million acres under cotton in Sind, in the opinion of the Chief Agricultural Officer in Sind, is well within the bounds of possibility, upon full development of the Barrage areas in thirty years' time. During 1940-41 965,000 acres were under cultivation of cotton.

Factories—More than 300 factories are in operation in Sind, employing about 30,000 hands. The factories include more than hundred cotton ginning and pressing factories about 100 rice mills. Oil mills, tileries, and flour mills also exist.

MARITIME TRADE OF SIND.

The figures for the foreign and coasting trade of Sind comprising imports and exports for the last five years are given below—

	1935-36	1936-37	1937-38	1938-39	1939-40

Cotton Mnfrs.	12	08	07	07	02
Other articles	18	21	21	25	24
TOTAL Re-exports	54	72	59	70	105

The total value of the entire trade of the four ports named below (catering entirely for the coasting trade) increased again from Rs 714 lakhs to Rs 993 lakhs. Rice is the principal article in this trade. Ketī Bandar, Sando Bandar, Shah Bandar and Sokhi Bandar, exported 1160 tons, 374 tons, 2,558 tons and 619 tons respectively, of rice (not in the husk) to Cutch. Exports of rice from Ketī Bandar and Sokhi Bandar to Karachi amounts to 401 tons and 410 tons respectively.

FOREIGN TRADE.

The total Sea-borne trade of the Province of Sind excluding treasure during 1939-40 amounted to Rs 55.03 crores, thus registering an increase of Rs 2.61 crores or 5 per cent by comparison with the previous year. The value of the foreign trade, came to Rs 37.33 crores, an increase of Rs 1.10 crores or 3 per cent.

General review of import trade.—The total value of private merchandise imported into the Province of Sind from foreign countries, including Burma, was Rs 15.55 crores, a decrease of Rs 62 lakhs or 4 per cent, as compared with the previous year. The decline under merchandise occurred under some of the main heads, but the principal articles contributing towards this decline were cotton yarns and manufactures (—Rs 49.66 lakhs), woollen yarn and manufactures (—Rs 27.70 lakhs), vehicles (—Rs 20.52 lakhs), metals and ores (—Rs 11.19 lakhs) and paper and pasteboard (—Rs. 6.18 lakhs). Increases occurred under sugar (+Rs 42.28 lakhs) and oils (+Rs 24.59 lakhs).

General review of export trade.—The export trade in private merchandise (Indian and foreign) from the Province of Sind to foreign countries amounted to Rs. 19.69 crores, an increase of Rs 1.27 crores or 7 per cent. The increase under merchandise occurred principally in exports of cotton (+Rs 3.06 crores), hides and skins (+Rs 23 lakhs), seeds (+Rs. 17 lakhs). Despatches of grain, pulse and flour (—Rs 20 lakhs), registered a decline.

Iraq	106	79	33	51
China	40	85	104	205
America	105	184	179	332

Total imports of cotton piece-goods amounted to 131½ million yds valued at Rs 236 lakhs as against 170½ million yards valued at Rs 284 lakhs recording a decrease of 23 per cent. in quantity and 17 per cent. in value as compared with the previous year. Of the total imports in 1939-40 grey piece-goods formed 27 million yds, white goods 74 million yards and coloured piece-goods 30 million lbs. The shares of the United Kingdom and Japan in the total trade were 71½ million yds. valued at Rs 147 lakhs and 56 million yds valued at Rs 75 lakhs, respectively.

Exports of cotton raw amounted to 208,848 tons, an increase of 8,563 tons or 4 per cent. in quantity. Increases were registered mainly in Shipments to China (+16,275 tons). United Kingdom took 27.8 per cent and Japan 20 per cent of the exports. Due to low level of world prices, exports of Indian wheat showed a further heavy fall of 271,647 tons in quantity and Rs 239 lakhs in value. On the other hand large quantities of Australian wheat were imported notwithstanding the imposition of an import duty on foreign wheat.

COASTING TRADE.

Imports.—The value of imports of private merchandise (Indian and foreign) in the coasting trade, exclusive of imports from Burma, amounted to Rs 7.69 crores, an increase of Rs 12.80 lakhs or 2 per cent. The principal articles responsible for this increase were gunny bags, grey (Indian and foreign) and coloured (foreign) cotton piece-goods, cigarettes, groundnuts and coal. On the other hand, imports of iron and steel, copra, coloured (Indian) cotton piece-goods and cotton twist and yarn showed a decrease.

Exports.—The value of exports of private merchandise (Indian and foreign) in the coasting trade, excluding exports to Burma, came to Rs 9.89 crores, an increase of Rs 1.30 crores or 15 per cent. The increase under merchandise occurred chiefly under wheat but wheat flour, jowar and bajra, rice, hides and skins, fodder and sugar also contributed towards it. Decreases occurred, principally under cotton, pulse, gram, dried fruits and grey and white (foreign) cotton piece-goods.

SUBORDINATE PORTS IN SIND.

The subordinate ports in Sind are Keti Bandar, Sando Bandar, Shah Bandar and Sokhi Bandar. Of the total trade Keti Bandar is responsible for 30 per cent, Sando Bandar for 3 per cent, and Shah Bandar for 25 per cent, and Sokhi Bandar 42 per cent. An analysis of the coasting trade of Sind shows the following trends of trade.

Coasting Imports.—Indian Merchandise.—Cotton Yarn, Piece-goods and Cigarettes were imported mainly from Bombay, coal, matches, iron and steel and gunny bags from Bengal, cement from Kathiawar, groundnuts from Kathiawar and Bombay. Fruits and vegetables and provisions from Bombay, Madras and Kathiawar, copra from Kathiawar and Madras and spices from Travancore, Madras and Bombay.

Foreign Merchandise.—Imports of cotton yarn and piece-goods, cigarettes, motor cars and lorries came mostly from Bombay.

The Sphere of Tea: An exposition of the Cultivation, Manufacture and Trade of Tea in India. Rs. 3. Industry Book Dept., Shambazar, Calcutta.

Coasting Exports—Indian Merchandise—Gram and hides and skins were exported chiefly to Madras, fish to Bombay, salt to Bengal (75,056 tons), fodder to Cutch, Kathiawar, Bombay and Portuguese ports, jowar and bajra to Kathiawar and Cutch, pulse to Madras, Kathiawar and Cutch, rice to Kathiawar, Madras, Cutch, Bombay and Portuguese ports and wheat to Bombay (76,088 tons), Bengal (39,714 tons), Kathiawar (19,312 tons), Cutch (15,090 tons), and Madras (4,276 tons), wheat flour was exported to Madras, Bengal, Bombay, Kathiawar and Portuguese ports and seeds to Bengal, Kathiawar, Madras, Bombay and Cutch. Shipments of cotton amounting to 47,531 tons were made to Bombay (22,859 tons), Madras (10,178 tons), French ports (3,667 tons), Bengal (610 tons) and Kathiawar (217 tons). **Foreign Merchandise**—Carriages and carts went mainly to Bombay, dried fruits to Bombay, Madras and Kathiawar, kerosene to Cutch and Kathiawar, sugar to Baluchistan and Madras and cotton piece-goods to Bombay and Baluchistan.

KARACHI CITY.

KARACHI is the capital of Sind. It is not only a seaport of Sind, but is the natural outlet and inlet for the trade of a hinterland stretching from Siestan to the United Provinces. It also embraces Eastern and Southern Persia, Afghanistan, Beluchistan, vast wheat fields of the Punjab and all the principal trade centres of Northern India. Population is 265,565. The facilities now provided in the Port of Karachi, are great. There is a continuous line of wharfage 8,600 feet in length consisting of 17 ship berths. A Bulk Oil Pier provides accommodations for oil steamers and tankers. Karachi has also gradually expanded into an Air Port of great importance.

Occupations—The main occupations are industry, transport and trade, in which 189, 122 and 172 respectively per 1,000 of the workers are employed. It will be seen that the ratio of workers under trade is nearly as high as the ratio of workers under industry. This is in marked contrast to Bombay. There are in Karachi 281 male and 35 female workers per 1,000 of the population.

Trade—The principal exports from the port are wheat, grains, oil-seeds, cotton, wool, hides and bones. The chief variety of wheat exported from Karachi falls commercially within the definition of "soft" wheat, but there are "hard" wheats also (red and yellow) which are grown in the Central India, these qualities find market in Marseilles and Italy for the manufacture of macaroni. Indian barley, gram, and oil-seeds, which play a very prominent part in the world's markets, pass chiefly through Karachi in very large quantities.

Karachi also plays a very prominent part in the export of wool, and as much as about one-third of the total export from India passes through Karachi. The white wools of Sind, Gujrat and Kathiawar have a recognised commercial value, but much of the quantity enters from Afghanistan. Bones and hides also are exported in large quantities from this port, and during and after the war Karachi has captured much of Calcutta's pre-war trade.

The quantity of cotton exported during 1938-39 was 200,285 tons valued at Rs 9, 11 lakhs as against 208,529 tons valued at Rs 12, 41 lakhs. The "Sind Desi" variety of cotton was especially in demand for mixing with wool, as the price of the latter reached a considerably high level. There was an expansion in exports of raw wool due to increased shipments to the United Kingdom and the USA. The total quantity of wheat exported from Karachi in 1938-39 was 277,097 tons as against 452,271 tons in 1937-38. The falling off in exports of rapeseeds was mainly due to the absence of demand from the United Kingdom and Belgium and smaller purchases by France. Exports of

CLERK'S MANUAL—A comprehensive manual for the guidance of Clerks. Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

wheat flour dwindled due to reduced shipments to Burma, Anglo-Egyptian Sudan and Aden

Imports of piecegoods in Karachi in 1938-39 amounted to 170½ million yards valued at Rs 284 crores of which the United Kingdom supplied 89½ million yards and Japan 78 million yards.

Industries—Industrially Karachi is not yet a great centre. Its chief possessions are well-equipped modern flour mills and North-Western Railway workshops. Various wool, cotton and hides presses flourish, and many engineering firms also pass very busy days in this city. A cement factory has been started recently.

Small industries consist of soap making and glass work, trunk and despatch box manufacturing, fish supplying, motor works, tiles manufacturing, etc., etc. Though an exporter of oil-seeds, Karachi possesses only a few oil mills and some small power driven plants. Salt is manufactured on a large scale at Mauripur Salt Works but the undertaking wholly belongs to Government.

DADU DISTRICT

The DADU district is fertile and produces among others rich crops of rice, wheat, jowar, pulses and various sorts of fruits and vegetables.

Chief crops are Rice, wheat, jowar, grains and pulses, sesamum, rape and mustard, gram, etc.

The district is not industrially big. Cloth, carpets, saddles, shoes, pottery are made on a small scale.

SEHWAN TOWN (population 5,795)—The local transit trade is in wheat and rice, and the local commerce is in cloth and grains. The town manufactures carpets, coarse cotton cloth and pottery. There was formerly a flourishing art of seal engraving which is now extinct.

DADU (population 7,328) is the head quarters of the district. The trade of the place consists of grains, oils, dry fruits etc.

HYDERABAD DISTRICT.

The **HYDERABAD** district has a population of about 6,61,589, mostly agricultural in an area of about 8,291 sq miles. The annual rainfall averages 57".

Chief crops are rice, wheat, cotton, bayra, grains and pulses, sesamum, rape and mustard, oil seeds, tobacco, fodder crops, fruits and vegetables.

The district manufactures blankets, cotton cloths, rugs and metal works, all of which are of superior quality and are much in demand outside the district. It still maintains its pre-eminence for lacquered work, and its glazed pottery and *susi* have a good name in the market. There are 5 cotton pressing factories in the district.

The chief imports into the district are cotton, sugar, spices and English made articles, via Karachi. The district, being situated on the banks of the river Indus, has also a good fishery. The fishes are all exported to the adjoining districts. The chief exports of the district are cotton, wheat, millet and various oil-seeds. Goods are carried by rail and also by boats. The health and climate of the district are on the whole good.

HALA DIVISION—Principal crops raised are cotton in *kharif* and wheat in *rabi*. Bayra and jowar are raised here and there for consumption by poor class people. With the advent of the Lloyd Barrage garden culture has started and mango trees are reared. Tobacco and sugarcane is also grown in fairly large quantity.

The cotton raised in the Division is handled by 17 ginning factories some of which have pressing plants as well. Small plants for milling wheat exist throughout the area. The oil mill of the Sekarias work-

CLERK'S MANUAL—A comprehensive manual for the guidance of Clerks/ Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

ing on the Kali Road at Hyderabad (Sind) is run on scientific lines and the cotton seed oil produced is of the best specification

HYDERABAD CITY (population nearly a lac)—It is the centre of industrial and educational activities and Headquarters of the district. It has 6 cotton factories doing ginning and pressing work, 1 bone factory and 1 oil mill of Sekarias. It is an important centre for tanning of hides. The Bhaibund Industrial Nari Shala has initiated cotton industry in the form of manufacturing woollen and cotton goods like sweaters, underwears, towels, napkins, cot tapes, etc and a variety of embroidery pieces. Hyderabad is a Railway junction and connects Karachi, the capital of the Province, by rail with Bombay and Agra via Marwar on the Jodhpur Railway and Badin and the through line runs up to Lahore.

HALA (population of over 7,000 souls) is noted for its lacquerware and glazed pottery.

TANDO ALLAHYAR with a population of over 5,000 is noted for refining of silk threads and cloth dyeing.

NASARPUR a small Municipal town carries on its old traditional business in the manufacture of 'Sosis' and Khesses.

TANDO MAHOMED KHAN with a Municipality and electric power house is the most important town in the division of Samna. It has got 1 picture house, 4 rice husking, 2 rice grinding and 2 cotton ginning factories. Besides there are a few oil presses and hand looms for local consumption among poorer classes. The trade consists chiefly of export of rice and rough cloth. Nazar Mahomed's fair is held annually which lasts 4 days where some business in cattle is transacted. Some 2½ miles away from it another fair is held at Bulri which is known as Shah Karim's fair, which also lasts for 4 days and cattle business also is transacted there.

KARACHI DISTRICT.

The **KARACHI** district comprises the delta of the Indus proper and contains a population of 6,49,467. The land is cultivated by irrigation from wells, tanks and artificial canals.

The chief agricultural crops of the district are jowar, bajra, barley and sugarcane which are produced here in abundance. Rice forms the staple crop of the place but wheat, sugar-cane, millet and tobacco are also grown. Fodder crops are grown over 140,000 acres. Red Sindhi breed of cattle are reared around Karachi and northwest of it.

The district is not industrially advanced, but some companies are prospecting for minerals and oil. There are a few handlooms at TATTA for the manufacture of coarse cotton cloth and lungis. There are some factories for the manufacture of cement, electric bulbs, wire-nails, tiles, typewriter carbons and ribbons, soap and salt.

Exports from the district consist of wheat (brought from the Punjab, U P and the adjoining districts), cotton (also coming from those places), wool, hides and skins. The chief imports into the district via Karachi, one of the major and important ports, are sugar, kerosene oil, piecegoods, liquor and metals. These articles are sent to up country by rail and are mostly consumed at those places.

KARACHI—It has an area of 17.42 sq miles and an estimated population of over 3 lakhs. Besides being the official Civil and Military capital of the Province of Sind, it is the nearest port to Europe and the third port of India in order of commercial importance, serving the whole of the Northern India. Karachi is a terminus of the N.W. Railway and main-gate of India for aerial service with an airship base and aerodrome at Drigh Road, the Headquarters of the Royal Air Force, and a base for seaplanes at Manora.

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8, Industry Book Dept., Shambazar, Cal.

KETI BANDAR (population 1,655) —The town has lost much of its former importance. The exports comprise of fire wood and a little of rice. The articles are chiefly sent to the coastal ports of Bombay and Madras and imports from these ports are received.

MANORA —An annual fair is held during March and many people assemble there to make their purchases of cattle and fancy goods.

TATTA TOWN (population 9,635) —The road traffic of central and lower Sind passes through Tatta and is therefore an important centre of trade. Its present trade consists of silk and cotton manufactures and grains and pulses. Coarse cotton fabrics are also woven here, which are both plain and coloured. The town imports cotton cloth, rice and sugar, and exports rice, ghee, glass, fruits, vegetables and wool. The local trade is flourishing owing to increasing road traffic.

SHANTINAGAR, 10 miles from Karachi, has an up-to-date cement factory belonging to the Dalmia Group. Daily production is 750 tons of cement.

This district is served by N. W. Ry. But service has greatly quickened traffic. Besides, various steamer lines connect Karachi with Bombay outward through the Arabian sea and other ports.

Fairs:—Meharshah at Mirpur Sakro, near Jungshahi R. S. January; Shah Yakid at Shah Yakki, near Jungshahi R. S. on Chaitra, Bawa Muham at Malu, June, Amir Pir at Khudai near Jhumpir R. LARKANA DISTRICT.

The LARKANA district contains a population of 448,657 in an area of 5,091 sq miles. Owing to its great fertility, this district is generally known as the "Garden of Sind."

The area is irrigated by 3 main Barrage canals, viz., Rice Canal, Northern Dadu Canal and Warah Branch and after the functioning of the Barrage canals the cultivation has much increased specially large tracts of land formerly lying waste in Shahdakt taluka have been brought under cultivation. Dokri taluka has obtained considerable importance on account of Mohan-jo-daro which attracts people from every corner of the globe. Agricultural Research Station has also been established near Dokri.

The agricultural products consists of rice, wheat, jowar, gram, grains and pulses, sesamum, rapeseed, cotton, sugar cane, tobacco and various sorts of fruits. Tamarisk which grows here in plenty and attains a fair size is much used by the inhabitants for firewood.

The manufacture of the district are coarse cotton cloth, carpets, rugs, mattings, salt, metal work, shoes, native saddles and other leather goods, dyeing is also an important industry of the district. There are several rice mills and cleaning factories and they consume enormous quantity of paddy from the surrounding districts and the locality.

The chief occupation of the people is agriculture and the manufactures of this district are coarse cotton cloth (joni, susi and khes), mattings, metal work, shoes and saddles. Dyeing is also an important industry. There are numerous rice husking factories and corn grinding mills. There are two ice factories, one power house at LARKANA and another at KARBAR have been newly started.

The exports of the district comprise chiefly of grains of all sorts, wool, cotton and hides and the imports into the district are chiefly

COMPLETE TAILORING contains the latest information on making of fashionable garments. Rs. 3/8. Industry Book Dept., Shambazar, Cal.

English and Japan manufactured goods Sugar, silk and fruits are also imported

LARKANA (population 26,841) the district headquarter, is thickly populated Local trade in metals, cloth and leather is important The town manufactures cloth of mixed cotton and silk Coarse cotton cloth, metal vessels and leather goods are also made here. There are 10 printing presses here

BUBAK (population 3,002) is a centre of "Bhang" production which is cultivated under license and there is a central warehouse for storing these products here

Other centres of trade are **KAMIBAR** (9,717) and **RATODERO** (7,285).

The North Western Railway runs through Larkana, Ratodero and Dokri taluks Two talukas of this district namely Kamibar and Shahdadkot are served by narrow gauge Railway line called Larkana-Jacobabad Railway.

NAWABSHAH DISTRICT.

Population of the NAWABSHAH district is 5,84,378 The district is agricultural, and grows cotton in kharif and, mainly, wheat in rabi Its prosperity has increased considerably owing to the construction of the Barrage

There are 39 cotton ginning and pressing factories in the district, of which 9 ginning factories and 3 presses are worked at **TANDO ADAM** There is one sugar factory at **PRITAMBAD** in Singhoro taluka, the first of its kind in Sind

Important centres of trade are **TANDO-ADAM** (17,233 pop) **SHAH-DADPUR** (14,721 pop) and **NAWABSHAH** (population 17,509)

No cattle or industrial fairs are held

SUKKUR DISTRICT.

The **SUKKUR** district has an area of 5,403 sq miles and a population of 6,23,875 Sindhi, Urdu and Baluchi are the languages spoken here

Among the Industries of the district may be mentioned weaving of cotton, tassar silk and woollen goods, copper and brassware making, wood carving, boat building, etc There are several cotton pressing factories and cotton mills in the district

The district is irrigated by inundation canals that flow only in the hot weather, and also by perennial canals which come off from the Lloyd Barrage which is just below Sukkur

SUKKUR (population of 69,277) —Exports from this place comprise of silk and cotton cloths, raw cotton, wool, opium, saltpetre, sugar, dyes, brass and copper utensils The upward traffic includes piece goods, metal, wines and spirits and country products It is a growing town, much of the Punjab grain being shipped down the River to Sukkur, where it is entrained, and sent on to Karachi It has a flourishing port, and has a large country boat manufacturing industry Sukkur town has biscuit, cigarettes, and hosiery factories It has many thread ball factories also

SHIKARPUR (population 62,505) is situated on strategic branch of the N W Ry line to Quetta The roadway from Sind to Khorasan via the Bolan Pass runs through this town It receives foreign piece goods, raw silk, ivory, cochineal, sugar-candy, coconuts, metals, coarse cotton cloths, kinkhabs, kirani, drugs of all sorts, various dyes, opium, fruits, antimony, gums and horses The articles chiefly come from Karachi, Marwar, Bahawalpur, Khairpur and Ludhiana The town exports, indigo, senna, metals of all kinds, coarse cloth, cane-sugar,

FOR NEAT PRINTING WRITE TO
INDUSTRY PRESS, SHAMBAZAR, CALCUTTA.

shields, groceries, hemp seeds, hoses, cloths and dry grain. It manufactures carpets and coarse cotton cloth. The old trading and banking firms still exist in Shikarpur and have their Head Offices here. Their branches extend over the whole of India. The town is noted for its pearl trade and also for its goldsmiths.

ROHRI TOWN (population 13,714) stands on the main line of North Western Railway. The trade of the town consists of grains, oil, salt, fullers earth, lime, cement and fruit. Tassar silk is manufactured here in three factories by local Sethias. Cement, which is manufactured by Associated Cement Company, is exported to outside places in large quantities.

GHOTKI TOWN—Ghotki is the Head Quarter town of the Taluka with a population of 4,638 souls, and, is the chief trade centre of the taluka. Trade is chiefly in cereals, skins and wool. Carpentry, wood-carving, staining and weaving of coarse cloth are the local industries. Annual fair of "Cheti Chand" is held in April every year outside the town, where about 6,000 to 8,000 people assemble. Agricultural show is being held at this fair by the Agricultural Department. It is a municipal town.

MIRPURMATHELO TOWN (population 1,838) is the Head Quarter and the central place of trade of the taluka. There is one ginning factory and a few handlooms preparing coarse cotton cloth in large quantity and refined silk cloth for export to big towns in the province. The chief products for export are jowar, bajra, paddy and cotton.

DAHARKI TOWN—It is a railway station near the Taluka, Head Quarter—**UBAURO**. There is a cotton ginning factory. Artistic brass, copper and iron works, such as small boxes, jars, 'hukkas,' rose-sprinklers, knives, sword-sticks, etc. of very nice type are manufactured by blacksmiths by manual labour. It has a population of about 2,109 souls. It is one of the chief centres of trade within the taluka.

THAR AND PARKAR DISTRICT.

The combined THAR and PARKAR district lies on the border of the Thar desert in Rajputana and is mostly sandy. It has an area of about 13,638 sq miles and population 47 lakhs who speak Sindhi.

The chief crops grown are rice, wheat, bajra, jowar, cotton, oil-seeds, pulses, fruits and vegetables. Wild products include elephant grass, a kind of big grass from which hand fans are made. Paban or lotus plant and various grasses from which ropes and mats are manufactured are grown on damp soil of the place.

Chief crops are wheat, cotton, rice, bajra, and fodder crops. Cattle of this place are famous.

The manufactures of the district consist of woollen blankets and rugs. Camel saddles and covers and coarse cotton cloth are also obtainable. There are twenty-one cotton cleaning and pressing factories and several rice mills here which consume the products of the districts. Salt is also manufactured in the district on a small extent.

The exports from this district consist of grain, wool, hides, fish, salt, soda and fan leaves (a kind of weed from which fine fans are made). The imports into the district consist of cotton, metals, dried fruits, dyes, piecegoods, silk, sugar-candy and tobacco.

MIRPUR KHAS (population 19,591)—The trade is in grains and cotton, which is the finest, in the whole of Sind but is not obtainable in large quantities. Piecegoods are also sold here. The market sells vegetables for local consumption only. It is a Rly Station on the Hyderabad branch of the Jodhpur Rly. and the headquarters of the district. There are 7 cotton ginning and pressing factories in the town.

FOR NEAT PRINTING WRITE TO
INDUSTRY PRESS, SHAMBAZAR, CALCUTTA.

MITHI TOWN—Local and transit trade consists of grains, cotton, cattle, camels, ghee, dyes, hides and skins, oils, piecegoods, sugar, tobacco and wool. The trade however is not big.

NAGAR PARKAR—The local manufactures consist of weaving and dyeing of cloths and there is a local trade in wool, grains, coconuts, piecegoods, hides and skins and metals. Besides this there is a small transit trade in grains, camels, cattle, wool, and ghee.

UMERKOT (population 4,275)—The chief occupations of the people of the place are agriculture and cattle breeding. The town is practically situated in the desert. There is a good local trade in grains, ghee, camels, cattle and tobacco. There is also a good transit trade in cotton, metals, dyes, dried fruits, ghee, grains, oil, piecegoods, wool and tobacco. Coarse cloth is the only manufacture of the place. A big fair is held in March in the temple of God Mahadeo.

Fair—A fair is annually held in this district in the town of Fithoro in the month of September and several fairs are also held in various parts of the district which are also largely attended.

UPPER SIND FRONTIER DISTRICT.

The UPPER SIND FRONTIER district lies in the Indus plain and stretches along the northern border of Sind for 110 miles. The area included is 2115.26 sq miles, and the inhabitants number 2,59,709. The language is Sindhi.

The whole district is irrigated by canals. The areas under the principal crops are: Rice 1,39,208 acres, jowar and bajra 1,17,941 acres, cotton 9,220 acres, kharif oilseeds 2,015 acres, wheat 51,836 acres, gram 1,43,361 acres, rabi oilseeds 31,672 acres. Cotton has been recently introduced, and has rapidly become popular; it is cultivated both on the Barrage and on the inundation canals with fair success.

Charcoal is burnt in the forests along the river, and some skins, hides and wool are exported. Village industries, e.g., weaving, lacquer work, rope-making and carpet making exist on a small scale but are of no commercial importance. There are a number of rice husking mills, and a cotton-ginning factory at JACOBABAD.

Grain is the chief export, and cloth and other manufactured articles are imported.

There is a high standard of horse and cattle breeding in the district, and animals are exported to other parts of India in some quantities. The Bhagnari breed of cattle is established in the district.

The principal towns and villages with their population are as follows: JACOBABAD (15,818), GARHI KHAIRO (1,989), THUL (2,982) and KANDHKOT (2,953). Each of these has a grain market, and exports paddy, wheat, oilseeds and cotton (phutlis).

The Rohri Quetta branch of the North Western Railway crosses the district from South to North, with a station at JACOBABAD. From this station a light railway runs east for 77 miles to Kashmir on the Punjab border.

Fair—An annual horse and cattle show is held at JACOBABAD in January, and attracts entries from the neighbouring districts.

Do not hanker after service when you can be your own master. **HOME INDUSTRIES** explains, Re. 1/12. Industry Book Dept., Calcutta.

MARKET PLACES OF ORISSA

ORISSA, made a separate province under the new Government of India Act, covers an area of about 32,000 sq. miles. It comprises of the districts previously included under Orissa Division under the Province of Bihar and Orissa, in addition to the districts of Ganjam and Koraput from the Madras Presidency. Some have come in from the Central Provinces, in particular the new sub-division of Nuapara and attached to the district of Sambalpur. Population of the Province is 8,729,000 and taking into account the population of the Orissa States as well, the aggregate population is estimated at 11,754,000. The language spoken throughout the province is Oriya.

The province is a strip of alluvial coastal plain with tracts in the interior. Out of 32,000 square miles, one-third is deltaic and the rest hilly. There are two large plateaux 2,000 feet or so above sea level, and another of 3,000 feet with several peaks of 4,000 feet. The chief rivers are the Subarnarekha, the Baitarani, the Brahmani, and the Mahanadi. Orissa is blessed with a very large lake, Chilka by name, which abounds in fishes. The export of fresh fish takes place from the Chilka Lake by rail.

Mean temperature during the cold season is 64°F and during summer 83°F. Rainfall averages 65". Great damage is generally done by cyclones in the sea coast of Orissa.

Natural Resources.—Orissa is a great agricultural country, with vast natural resources and fertility. It is mainly a rice-producing country, with vast tracts of rich soil capable of great agricultural development. If its rivers are controlled to avoid devastations of flood it will be a land of wealth instead of poverty.

Crops.—The chief crop raised in the province is rice which thrives vigorously in the fertile alluvial soil of the districts, enriched further by the deposit of silt due to the occasional floods in the rainy season. The area under the rice crop during 1940-41 was 5,070,000 acres. Next in importance is the sesamum crop which was grown on 100,000 acres. Oil seeds are grown to some extent. These include rape and mustard (28,000 acres), linseed (8,000 acres) and castor (16,000 acres). Jute is grown on a small scale in the province, the area under cultivation being 31,000 acres. About 8,000 acres of land are under cotton. Other crops are maize, pulses, mung, etc., spices such as turmeric are cultivated. Coconuts grow abundantly near about RAMGIRI. Betel leaf of the province is considered very delicious. Forest products include sal, gallnuts, nux-vomica, myrobalan, chua from sandal wood, beeswax, honey, etc.

Industries.—The province is industrially backward, there being practically no big industry there. Bell metal wares, horn articles and silver filigree work of Orissa have a good reputation and are sent outside the province. Ice factories have been started near Chilka. Stonewares are made at BALASORE while tassar and silk weaving is carried on in PURI and SAMBALPUR districts. Coarse cloth is woven widely on handlooms. Rice mills exist in GANJAM.

A scheme has been afoot to provide training in cottage industries, such as palm gui, palmyra gur, agriculture and hand made paper. The

Do not hanker after service when you can be your own master. HOME INDUSTRIES explains, Re 1/12. Industry Book Dept., Calcutta.

Government is also encouraging sericulture, tassar rearing, cotton cultivation, training of workers and spinners and supply of more efficient implements. Big industries are alike engaging the attention of the Government which is directly responsible for the promotion of soap, chemical, paint and allied industries in the Province. A limited company has been floated under State assistance for taking up the manufacture of these useful articles of every day use. A sum of one lakh of rupees has already been provided for state aided industries.

The possibilities of manufacturing salt on a commercial scale in Orissa are being investigated upon. In Astarang the people have been manufacturing salt on the Madras system. Salt is also manufactured in the Chilka area on lixivation process, and the quality is also fairly satisfactory. In the opinion of experts Orissa can start a successful salt industry on a commercial basis in Astarang of Puri District, Chilka area and Balasore. In quality, it can compete with Aden and Assab salt, if manufactured at Balasore, Astarang salt is already equal in quality with that of Madras.

Minerals:—The chief mineral obtained in the province is coal. During 1939 the output of coal was 58,687 tons against 44,475 tons in 1938. Coal bearing rocks occur in Sambalpur, and to some extent in Angul. Alum and manganese ore are available in Ganjam, iron ores, antimony and mica in Sambalpur. Copper is also met with. The prospects of getting minerals in the Koraput district seem bright.

Coasting Trade:—The province imports—Keosene, essential oil seeds, sugar, twist and yarn, piecegoods grey, gunny bags, tobacco raw. Exports—Paddy and rice. The chief port sharing the major part of this trade is BALASORE.

The above figures do not take into account the trade done at CALINGAPATAM and GOPALPUR which have considerable coasting trade and have been recently added to Orissa. The aggregate value of the coasting trade during 1938-39 was Rs 33 lakhs. Figures of coasting trade during the three years ending 1938-39 follow.

	1936-37	1937-38	1938-39
		(in 1,000 rupees)	
Imports	17.81	13.25	12.02
Exports	18.57	9.24	20.97

Factories:—About 80 factories are in operation in Orissa, of which rice mills are 50 in number.

BALASORE DISTRICT.

The area of the district BALASORE is 2,085 sq miles and its population is 10,29,430.

The chief crops of the district include rice, jute, sugarcane, pulses, etc. It is a great rice bearing tract. Jute, sugarcane, mustard, grain and pulses, fruits and vegetables, etc., are grown.

There is no local industry of importance. A number of rice mills has been established in the town and it is also a home industry among the females. There is in the town a Technical School where various kinds of furniture of wood and iron are made and supplied on order. Good business is done in bell-metal ware, cotton weaving and mat-making.

Export from the district consists of hides, jute, oilseeds, mats, timber, stone-ware, rice, betel leaves and coconuts and the imports are piecegoods, glass and brass ware, medicines, spices etc.

CHANDBALI is a sea port where steamers from the coastal ports touch. Both cow and buffalo ghee can be obtained here. It is exported to Calcutta by steamer.

TELL YOUR STORY WHERE IT WILL BE READ. Write to
Manager, INDUSTRY, Shambazar, Calcutta.

BALASORE (population 19,141) —The principal exports from this place which is the head quarters of the district are rice, stone-ware, fish (both raw and dry), spices, bidī and provisions Brass dishes, pots, glasses, plates etc. are manufactured and exported to Calcutta and Puri Coarse cotton cloth, bell-metal articles, stone-ware and ornaments of silver are also manufactured

BHADRAK (population 19,550) —Rice and paddy are the chief articles of trade in this market Besides these, buffalo-ghee, kalaī and mustard seeds are also available

CUTTACK DISTRICT.

The CUTTACK district lies in the Orissa Province Its areas including that of Angul sub-division is 4,535 sq miles and a population of 14,31,287 speaking Oriya, Bengali, Urdu, Telugu and Hindi The delta of the Mahanadi and the Brahmani traverses it

Acreeage under crops in 1938-39 Rice 1,13,420, murua 14,380, rape and mustard 8,500, tobacco 5,082, sugarcane 6,685

TELL YOUR STORY WHERE IT WILL BE READ. Write to
Manager, INDUSTRY, Shambazar, Calcutta.

The silver filigree work of CUTTACK Town is well-known, cotton weaving, bell metal work, lac and brass ornaments, pottery, hardware, gunny bags and basket making are the chief industries. Neat toys and sticks are made of buffalo horn, deer horn and ivory and are largely bought by pilgrims visiting the district.

The chief exports are rice (to Calcutta, Mauritius and Ceylon), oil-seeds, hides, jute, timber, horn, lac, nux-vomica, bees-wax, resin and silver filigree work (to Calcutta), and bones, glasswares of Baraugh (to Calcutta and Ganjam). The chief imports are piece-goods, kerosene oil, crockery, glassware, fancy goods, motor cars and accessories, machine oil, metals, yarn, spices and betelnuts and salt from Calcutta and Madras Presidency, jungle products, gram, oilseeds from the Tributary States and C P, and spices and condiments from Ganjam.

The chief trade centres are CUTTACK TOWN, and CHANDBALLI (outside the district).

CUTTACK (population 74,291) —It is temporary headquarters of both Orissa and the district and is situated on the B N Ry. It is 254 miles from Calcutta and 773 miles from Madras. The local manufactures consist of sticks and penholders from the horns of animals. Combs, hookah pipes, toys and chess are also manufactured here. Shoes are largely manufactured and are exported to Calcutta and other places. Timber industry of Cuttack from the jungles of C P and other Indian State jungles is important, and Calcutta gets a large share of its supply from Cuttack. Coloured lac bangles and wooden toys coloured with lac are manufactured and exported to various places. It is also a place of important stone quarrying. It is famous for gold and silver filigree work. It has silver works and cutlery works, (scissors, dao, axe, small daggers, kukries, etc.) the products of which are largely exported to Calcutta. It imports rice, timber, salt, honey, chua, wax, lac, sticks, combs, toys of buffalo horn, broad-bordered dhuties, chaddar, coconuts, hookah pipes, knives, bell-metal utensils, etc. The place is healthy.

KANTARHAT —Large quantities of coarse rice and paddy are imported here which are exported to Calcutta and Cuttack.

ANGUL SUB-DIVISION —It is a sub division of Cuttack district and has a population of 1,65,856 who speak Oriya and an area of 901.86 sq miles. The headquarters of the Sub division is ANGUL, 64 miles away from Cuttack by road and 14 miles from the Meramandali Railway Station (B N Ry).

The principal crops of ANGUL are rice, millets, pulses and maize. Cotton, jute, groundnuts and oilseeds are also grown by the people.

There are coal bearing rocks and mica, the quality being not very good. Iron stone occurring here is locally smelted by the blacksmiths, cotton weaving, basket and mat making are the chief industries. There are also iron, brass and bell-metal works.

The trade is chiefly with Cuttack. The chief exports are rice, millets, gram, lentils, catechu, molasses, oilseeds, shellac, wax, honey, hides and horns. The chief imports are piece-goods, salts, spices, ghee, sugar, dried fish, kerosene oil, petrol, brassware and glass beads.

The chief trade centres are ANGUL, SANKHAPUR and BAGDIA. Goods are carried by carts and Gutias (Small hilly carts).

There are also weekly markets at ANGUL, BAGDIA, BANRPAL, KOSLA, BANTLA, MAIDHARPUR, CHHENDIPADA, MARATIRA, JARPARA and TIKERPARA.

Fair:—A fair is held at Santri in November each year.

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs. 3/-. Industry Book Dept., Calcutta.

GANJAM DISTRICT.

The GANJAM district has a population of 2,413,291. Climate along the coast is cool and healthy.

The district is famous for the good quality of paddy grown. Green grain and horse-grain are largely cultivated and ragi is grown three times a year, but gingelly and sugarcane form the only important industrial crops. Chief crops are —Rice, marua, jowar, grains and pulses, sesamum, groundnut, coconuts, condiments and spices, fruits and vegetables, etc.

A large area of the district is preserved as forest and the products include myrobalans, gall-nuts and oranges. Alum and some quantity of manganese ore are also found here. A sugar factory, a saw mill and a tannery work at RUSSELKONDA and many rice mills exist at BERHAMPORE, PUNDI, PALASA, TILARU and AHMADAVALLASA.

RANGIRI —Timber and other hill products are exported from the taluka. Excellent oranges are grown on the hill-sides which are situated on the western part.

GHUMSUR —This is the most suitable timber-growing area in the whole district. Of the timbers obtainable, sal is the most important. The land is very fertile and is irrigated by Rushikulya project. Sugarcane is also grown here in the centre and south of the taluka.

ASKA TAHSIL —Rice is widely cultivated and sugarcane is extensively grown in this taluk. Sugarcane is treated in a Government factory at ASKA and made into sugar. Markets are at ASKA and SURDA.

BERHAMPORE (37,750). —It is the headquarters of the district. It is the trading centre of the district. The chief industry of the town is the weaving of fine silk and tassar silk cloth of varied colours which are in brisk demand all over India and specially in the Madras Presidency. Sugar is also manufactured here in considerable quantities. Articles available here include jute, rice, coconut, betel leaf (for which it is famous), kuithi kalai, red pepper, turmeric, maize, tamarind, etc. There are many factories for converting sea water into available salt.

BARUVA —It is a growing seaport in the district.

CALINGAPATAM —It is a port mainly doing coasting trade. The exports include grain, pulse, myrobalans and turmeric. The imports are haberdashery, glassware and gunny bags. Exports of groundnut in 1938-39 were 14,691 tons worth Rs. 17,34,000.

PARLAKIMEDI (population 20,072). It is one of the chief towns in the district. Fine mats and ornamental buckets are made here.

MUKHALINGAM, a village in the district, is a place of pilgrimage. Its industries include fine mats, fancy baskets, flower stands, cheroot cases, etc., from a species of reed. The chief trade is in rice.

CHICACOLE (16,588) —It is an important town in the district. It is noted for fine muslins and durable checks woven in the locality. The muslins of Chicacole was at one time the rival of the Dacca product. The industry suffered much from the machine-made fine cloth and the competitive price of these products. But finer kinds of muslins are still obtainable from the weavers by arrangement.

GANJAM —Its chief trade is in rice within the province.

GOPALPUR —It is the chief port of the district. The chief articles of export consist of grains, pulses, hides, timber, hemp, oilseeds, and dried fish from the neighbouring countries. The chief articles imported consist of sugar, piecegoods, apparel, jute manufacture, matches, kerosene oil, cotton twist, etc. The place is healthy, and is resorted to by many health-seekers, both European and Indian. Foreign trade at the port is now insignificant.

Pyrotechnic Matches & Their Preparation are dealt in "Safety Matches & Their Manufacture." Rs. 3/-. Industry Book Dept., Calcutta.

SRIKURMANU—It is a famous place of pilgrimage for Hindus. The most important festival here is Dolatsava held annually in March, when about 20,000 pilgrims assemble.

KORAPUT DISTRICT.

The district of KORAPUT has been newly formed from a portion of the district of Vizagapatam in the Madras Presidency. This district has an area of 9,850 sq miles and is peopled by 11,24,862. Naturally the crops raised are akin to those in Vizagapatam, viz, rice, maize, bajra, cereals and pulses, fibres, coconuts, etc.

The chief centres of trade in the district are JEYPORE and GUNUPUR. Local industries are insignificant. There is a sugar factory at RAYAGHADA. The water falls of the Kolab river may provide cheap power.

Other market places in the Koraput District are Nowrangpur, Hatborandi, Tentulikhunti, Dabugam, Kodunga, Bhattigam, Kottagam, Pappadabandi, Chatikona, Muniguda, Ambodala, Jagadapur, Baluru, Dummuriput, Rasingi, Lunguri, Kudih, Pukkili, Gunapadu, Soguru, Katagada, Chatuva, Teyakonta, Rallagedda, Hingariput or Kotakaru, Avurada, Savai, Redongi, Sanduru, Bhamini, Sakhandu, Jallaru, Mathili, Malkangiri, Benaguda, Dammapoda, Kutnipali, Koogarabada, Mundiguda, Mapugudda, Amalabhatta, Sheshikal, Choripalli, Khedda, Koraput, Dasamanthapur, Lakhimpur, Kakkirigumma, Naodigam, Mahadeviput, Podaguda, Bomdupodar, Simala, Dumaguda, Kotpad, Kontagam, Katragada, Dasumanthapura, Cheptamba, Ronaspur, Bobbia, Dimala, Jeypore, Kotpad, Borigumma.

Combined Cattle & Agricultural shows were held in February 1942 at Kotpad in Nowrangpur Division and at Muniguda in Rayagada Division. These shows are generally held every year in winter in the month of February. Cattle, Agricultural and Industrial sections are exhibited in the shows.

PURI DISTRICT

The PURI district extends over an area of 2,499 sq miles and has a population of 1,034,301. Oriya, Bengali and Hindi are the languages spoken in the district. Average annual rainfall is 58".

Soil is fertile but the district is subject to occasional floods. The chief crops are rice, kulthi, mung, birhi, mohua, castor oil, sugarcane, cotton. Coconut, pulses, oil seeds, fruits and vegetables are also grown. Betel leaf, tobacco and vegetables are largely grown. The chief industries of the district are tassar and cotton cloth weaving, brass and bellmetal utensils making.

Brass, gold and silver ornaments and wicker-work baskets are made. Coarse sugar is also prepared from sugarcane. The chief exports are rice, gram, pulse, unrefined sugar, coconuts, brass, silk, fish and the imports are raw cotton, piecegoods, refined sugar, spices, nuts, iron, tobacco, salt, kerosene oil and copper. The chief centres of trade are PURI, SATYABADI, PIPLI, BALAKATHI, KHURDA and BAUPUR.

PURI (population 37,568)—There is the famous temple of Jagganath on the sea coast. Pilgrims assemble here during the Rathjatra festival (in July) and also during the Doljatra ceremonies (in February) and make purchases of various articles of brass utensils and cloths. There is a dak bungalow.

B. N. Rly crosses the district and it is well supplied with good roads.

Fairs:—Important fairs of agricultural and industrial importance are held annually in this district.—

Sadar Subdivision, Haripur fair.—It is held in village Haripur, P. S. Delang (2 miles from Khurda Rd. Railway Station and 7 miles

INVENTIONS OF TO-DAY makes your information up-to-date. As. 5.
INDUSTRY BOOK DEPT., Shambhazar, Calcutta.

from Piphi) This is held for 4 days just after Dol Purnima and takes place generally in the last week of February Various industrial and agricultural commodities are sold Besides, about 1,000 heads of cattle are brought here for sale from different parts of the district as well as from the neighbouring Indian states and from the district of Ganjam. Dayana-chori fair—It is a big fair which is held in village Ghoiadia, P S Delang generally in March. It lasts for about a week and attracts a large crowd from almost all over the district In this fair too a large number of cattle are brought for sale Siruli Mahabir fair—it is equally an important fair held in village Siruli within the jurisdiction of Sadar P. S It is held in March and lasts for about 3 weeks. Various agricultural and industrial commodities are sold here as well as cattle numbering approximately 500

Khurda Sub division Fairs—Atri fair sits for a month in the middle of January from the day of Makar Sankranti Barunai fair—Sits for 4 days in June from Raja Sankranti

SAMBALPUR DISTRICT.

The SAMBALPUR district extends over an area of 5,394 sq miles. Its population is 1,182,622 Oriya is usually spoken The climate of the district is dry and is generally healthy but occasionally temperature is excessive Average rainfall amounts to about 60"

The land round Sambalpur town and the north of the Mahanadi is most fertile The chief crops grown are rice, sesamum, pulse, urid, kudo, cotton, sugarcane and fruits and vegetables The forests contain sal, bamboos and other timbers A coal field is also situated at HINGIR-RAMPUR Good quantity of coal is mined in the district Iron ores occur on the hilly country and minute quantities of gold are obtained by sand washing Antimony and mica also exist There is one Paper Mill at BRAJRAJ-NAGAR The name of the Mill is Orient Paper Mill Besides this, there are 5 rice mills, 1 at SAMBALPUR, 1 at SASON and 3 at KHARIAR ROAD There is also a soap factory at KHARIAR.

Tassar silk weaving is the important industry Plain and drilled cloth are woven at REMENDA, BARPALI, TORA, BARGARH and SAMBALPUR for local use generally, bell metal industry is carried on at TUKRA Brass pots and iron implements are also made But tassar and bell metal industries are on the decline.

The exports are rice (staple), oil seeds, sleepers, and sun-hemp. The imports are salt, sugar, gur, kerosene oil, cotton cloth, silk, wheat, gram, pulses, arhar, ghee, etc

Local trade is done in weekly markets at SAMBALPUR and BARGARH A large mart for oil seeds is DHAMA; TARATIA is the timber mart, BHIKAMPUR is a mart for selling iron implements, NARSINGNATH and HUMA are centres of grain and cattle trade

SAMBALPUR town is on the bank of the Mahanadi and has a population of 17,079 It is a commercial centre of the district as well as for the neighbouring States It has a depot for cooly immigrants for Assam tea gardens Weaving of tassar and cotton cloth is the chief industry It is the Sadar Station and headquarters of the district. The station stands on B N Rly and is 413 miles from Nagpur and 350 miles from Calcutta

Fairs.—Bhukta and Jamurla, Sambalpur, (Cattle); Huma, Sambalpur, February (Agricultural and Industrial) Cattle fairs are held at BHUKTA and JAMURLA Other markets are In Sadar. Sub-division, Rengali and Kandekela both in P S Mahadebpali, in Nawa-para, S D Jonk, Bisooa, Nawapara and Parkod, In P S Komma, Bhela, In P. S Khariar, Khariar, Bodan, Nilji.

INVENTIONS OF TO-DAY makes your information up-to-date. As. 5.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

MARKET PLACES OF THE INDIAN STATES

THE Indian States cover an area of 711,032 square miles and comprise of 755 towns and 187,138 villages with a population of 92,973,000 souls, as compared with India's total area of 1,805,332 sq miles and 2,316 towns and 685,665 villages, with a population of 388,800,000 souls. Thus the Indian States occupy more than one-third the area and less than one-fourth villages with a population of little less than one-fourth of the whole country.

CROPS—Crops of diverse character are raised in the Indian States. Cotton is cultivated on an extensive scale in Hyderabad, about 3½ million acres being under cotton in that State. It is also grown in the Central Indian States, Baroda, Gwalior, Rajputana and Mysore. The chief wheat-bearing tracts in Indian States fall under the Central India Agency, other States producing wheat on a fairly big scale are Gwalior, Punjab States, Rajputana and Hyderabad. Production of rice in the Indian States is however small, the chief areas under rice being in Hyderabad. Oilseeds are obtained in big quantities in the States. Castor seed grows in Hyderabad, Baroda and Mysore, linseed in Hyderabad, Kotah and Bhopal, rape and mustard in Alwar, sesamum in Hyderabad, Baroda and Bhopal. Tea, coffee and rubber are grown in the States in S India.

MINERALS—Valuable minerals are found in the States. Production of coal in 1939 amounted to 3,093,245 tons of which Hyderabad was responsible for 1,214,568 tons, Korea State 1,048,364 tons, Talcher 44,137 tons, Rewa 327,479 tons and Bikaner 39,204 tons. Other important centres of coal production in Indian States are Khasi Hills, Kolat State and Rajgarh. Rich deposits of manganese, bauxite, sandstone, limestone, saltpetre are distributed widely over the States. Gold is mined in Kolar in Mysore State. Enormous resources of iron ore in Mayurbhanj.

INDUSTRIES—Hand weaving is the biggest industry in the State. Cotton mills are now growing in number in Baroda, Indore, Hyderabad, Gwalior, etc. During 1939-40 the cotton mills in Indian States spun 202 million lbs of yarn and wove 528.2 million yds of grey and bleached goods and 172 million yds of coloured goods. Silk filatures exist in Mysore and Kashmir. Iron smelting is done at Bhadravati in Mysore. Sugar manufacture is progressing steadily in the States, there being now 11 sugar factories which crushed 75,500 tons of cane and produced 29,000 tons of sugar. Output of gur in 1939-40 in Hyderabad was 75,000 tons. Cotton ginning is practised on a huge scale in the cotton tracts belonging to the Indian States.

Besides artwares, utensils, flour mills, oil mills, etc., various new industries are being introduced in the States. Factories for manufacture of match, paper, pottery, glass, cement, soap, etc. are being sent up. Salt is being manufactured on a big scale at OKHA.

AKALKOT STATE.

The AKALKOT State is 498 square miles in area and its population according to the Census of 1931, is 92,605. The gross revenue of

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business. Rs. 2. Industry Book Dept., Shambazar, Calcutta.

the State based on the average of the past five years inclusive of the Local Funds and other items is Rs 7,58,002. The average rainfall is 29.79 inches. Area under forest is about 40,607 acres.

The exports chiefly consist of the surplus agricultural produce such as jowar, bajra, ground-nut, cotton, chillica, linseed, safflower-oil, betel leaves, hides and fire-wood. The chief articles of import are rice, wheat, salt, jaggery, sugar, coconuts, groceries, bangles, hardware, copper and brass utensils, cloth, kerosene oil, petrol and bamboos. There are five ginning factories in the State. Out of these, one factory at KARAJAGI had no work. The total quantity of cotton ginned in the four factories was 331 tons against 224 tons. The weavers as usual are busy with their looms and prepared saris and shirting cloths. WAGADARI, KARAJAGI and CHAPALGAON are noted for weaving industry.

There is also a hosiery at AKALKOT which manufactures cotton and wollen socks, hoses, frocks, underwears, sweaters, scarfs etc., of various designs. The quality of articles produced has won medals and certificates in several industrial exhibitions. An important addition to the industries in the Akalkot State was made recently by the opening of the Jaysingh Match Factory, oil producing industries and a soap factory at the capital. A number of facilities such as leasing of land and supply of water and electricity at concessional rates etc., have been given by the Darbar specially with a view to give an impetus to industries in the State.

ALWAR STATE.

The ALWAR STATE (area about 3,217 sq miles, population 8,23,055 in Rajputana) is intercepted by ridges of rocky and precipitous hills.

The chief crops are bajra (3,83,202 acres), gram (77,604 acres), jowar (68,865 acres), barley (90,881 acres), pulses (89,291 acres), rape (30,367 acres), wheat (44,835 acres), sesamum, condiments and spices. Grass and bamboos grow abundantly in the State. Rath and Mewat breeds of cattle are available.

The State exports ghee, zira, oilseeds, barley, gram, pulses and minerals. Imports include cotton seed, rice, sugar, gur, shakkar, cloth and wheat.

ALWAR CITY (population 54,143) has a Central Jail where carpets, rugs and aerated waters are manufactured. Water is brought to the city by canal system. An Ice Factory and one Talkie Cinema are running.

The State produced 110,429½ tons of minerals worth Rs 3,65,725, in 1941. The minerals included freestone (Rs 32,225), flagstone (Rs 69,310), masonry stone quartzite (Rs 36,400), Kankar lime (Rs 1,22,500). Hardened shales (Rs 11,790), Slates (Rs 1,845), Marble (Rs 75,600), Limestone (Rs 7,910). Barite (Rs 8,145). The localities where the minerals are mined are—Freestone—Chilori, Doli and Buntoli group, Dhaghawala, Kuncha, Mandla and Puthi etc. (46 quarries), Flagstone—Kirwari, Saidpur, Shahpur, Odra, Beraheri, Ulaheri, Toda, Sagar Jadid, Sagar Pahariwal, Bharon Khola, Lalkhan, Pehal, Dantla, Chodala, Ramsinghpura, Santi-khori, Kho, Saleta Basi, Ghata Bandrol, Todiar, Vijaypur Chandoli, Chandoli-ka-Bas, Mundli, Behram-ka-Bas, Mukandpura, Hamirpur, Haldika, Jhakrana Basi—Limestone—Dholayan, Palwa Srichandpura, Machari, Kunch Bahali, Ghatra, Bas Bad Bileta, Narani etc. (16 quarries). Barite, Jamroli, Khora Makrora, Sampuri, Bhagat-ka-Bas, Umrain, Bhankera, Hardened shales—Mehtawas, Slate—Kayasa, Rewana Marble—Jhiri and Dadampur. Masonry

MONEY MAKING BY THE MAIL by K. M. Banerjee reveals the secrets of mail order business. Rs. 2. Industry Book Dept., Shambazar, Calcutta.

stone quartzite—Sonawa, Jarakhwara Ghagohi, Choroti and other similar quarries of State Kankar lime all over the State

The main line of the B B & C. I. Rly (metre gauge), from Delhi to Ahmedabad, passes through this State whereon ALWAR and RAJGARH are principal stations (Another branch line of this railway (Agra Bandikui-Branch) touches the South-eastern border of the State

Lorry services connect the capital to the outside Nizamats and also to Jaipur and Delhi; much of the export and import has now begun to be carried on by motor trucks

Fairs:—Cattle fairs are held in every Nizammat annually where the buying and selling of cattle takes place These fairs have created great enthusiasm among the rural population as besides the buying and selling of the cattle, agricultural exhibitions and demonstrations are given and sports are held Lachhmangarh, Dhaulagarh, Baisakh Badi 2 to 8, Kishengarh, Kishengarh, Asar Badi 5 to 10, Alwar, Malakhara, Bhadon Sudi 2 to 8, Lachhmangarh, Kherli, Asoj Badi 1 to 7, Alwar, Alwar, Asoj Sudi 8 to 11, Rajgarh, Reni, Kartik Badi 4 to 9; Ramgarh, Ramgarh, Ramgarh, Kartik Sudi 9 to 13, Mandawar, Ajeraka Sawan Sudi 7 to 10, Tijara, Tapukra, Bhadon Badi 5 to 8

BAHAWALPUR.

The BAHAWALPUR State is an important State in the Punjab Agency with a total area of 15,000 square miles and an annual income of over Rs 132 lakhs Its population has risen in recent years, and is now over 13 lakhs

The practice of irrigation by inundation canals has given place to irrigation by well controlled channels, and a large portion of the cultivated area now receives canal irrigation Much of the State however is, and must remain pure desert

The chief crops grown are cotton, wheat, rice, millets and gram The first two are the most important. The produce of cotton is roughly estimated at two million maunds a year.

The livestock chiefly consists of bullocks, cows, buffaloes, sheep, goats, donkeys, camels, horses and mules

The natural resources of the State are at present limited to salt-petre and soda prepared from a kind of grass A search for mineral oil has however been recently started

Silk lungis, porcelain and metal cups, earthen vessels and printed bed-sheets are special industries of the State

Cotton is almost entirely exported Wheat, gram, ghee and hides are also exported in fairly large quantities Imports include sugar, cloth and fruits of all kinds

There is one metalled road from Bahawalpur to Deranawab Sahib Besides, another road, Multan Panjnad Reti Road by name, has recently been constructed Unmetalled village roads exist throughout the State There are four railway lines running throughout the State—Lahore-Karachi Main Line from Samasatta to Dandi Railway Station, Samasatta-Bhatinda Line from Samasatta to Qasimwala and Macloodgunj to Amruka, Bahawalnagar—Cholistani Railway and Khanpur—Chachian Railway The last two are owned by the State

The chief means of transport are railways, lorries, camels, bullock carts and donkeys The most important trade centres are BAHAWAL NAGAR, CHISTIAN, HARUNABAD, HASILPUR, FORT ABBAS, KHAN PUR, RHIMYAR KHAN, SADIQABAD

The following cattle fairs are held in the State. Chistian (March), Bahawalnagar (March), Harunabad (October). Agricultural shows are held at all these fairs.

INDUSTRY BOOK DEPT., Shambazar, Calcutta.

BARODA.

The BARODA STATE has a total area of 8,176 square miles and the total population according to 1941 census is 2,855,010 Gujarati is the State language Main crops are cotton, rice, wheat, pulses, oilseeds and tobacco Cotton is grown over 863,000 acres with a yield of 202 bales

The State maintains an efficient Agricultural Department at a cost of Rs 7 lakhs per annum.

The budget estimates of Baroda for 1942-43 show revenue surplus of only Rs 0.35 lakh The net result of all the transactions under revenue, capital, debt and remittance heads however is expected to result in an increase of as much as Rs 4 lakhs in the states cash balances which will amount to Rs 178.15 lakhs at the end of 1942-43

INDUSTRIES—The policy of active help and encouragement of new industries adopted by the State has resulted in steady industrial development of the State which now number about 175 and employ 41,079 hands There are at present 18 cotton mills, 1 woollen mill, 13 oil mills, 2 match factories, one each at PETLAD and BILLIMORA, a salt factory at OKHA and cement factory at DWARKA Textile mills employ 28,953 person of the total of 41,101 employed in industries in Baroda State The extent of growth can be seen from the fact that the number of joint stock companies increased from 89 with a paid up capital of Rs 34 lacs in 1924-25 to 172 with paid up capital of Rs 29,49,84,885 in 1941-42 The development of textile industry is striking The production of piece-goods increased from 64,20,780 lbs in 1924-25 to 43,100,000 lbs in 1941-42 The match factory at Petlad worked satisfactorily with an outturn of 368,658 gross of match boxes while the Billimora factory produced 64,701 gross of safety matches in 1941-42 The Gaekwad Sugar Works and Distillery showed good outturn, producing 36,520 maunds (Bengal) of sugar and 16,516 maunds of molasses The whole stock of sugar was sold and the molasses were used to manufacture rectified spirit

Chemical industry is the second largest industry in the state It occupies an important place in the whole of India and has made rapid progress in recent years There are about half a dozen good chemical works of which the Tata Chemicals Ltd, and the Alenebic Chemical Works are very prominent These factories manufacture fine and heavy chemicals, magnesium chloride, epsom salt, pharmaceutical drugs, rectified spirit, etc Apart from the workshop of G B S Railways there are two important iron works, viz, the Sayaji Iron Works and the Baroda Bolt and Engineering Works

The cement factory at Dwarka is one of the biggest cement factories in India The Salt Works at MITHAPUR produced 8,159 tons of salt during 1941-42 Attempts have been made for the preparation of edible shark liver oil on commercial scale

Deposits of China clay are worked at Ransipur in Mehsana District. The output of refined China clay is 910 tons per annum Rubber goods are manufactured by Gujarat Rubber Works in Baroda

480,000 local maunds of ghee worth Rs 144 lakhs were produced of this 170,000 mds of ghee valued at Rs 51 lakhs are exported from Mehsana, Amreli, Baroda and Navsari Districts

HANDICRAFTS—The State is famous for some of its handicrafts, such as lacquer work of Sankheda, "Patolas" of patan, wooden carved articles, brass and silver stools, and embroidery work with gold and silver and silk thread, iron grill work (balcony railings), etc Number of people engaged in cottage industries in 1941 is 87,137

HEALTH GUIDE will give you ideas that keep you fit. As. 5.
INDUSTRY BOOK DEPT, Shambazar, Calcutta.

BARODA City is the capital of the State with a population of about a lakh and possesses magnificent palaces and beautiful gardens, besides a Museum and a Picture Gallery. It is a growing industrial centre with five cotton mills, one woollen mill, two chemical works of which Alembic Chemical Works is the most important, and other industrial concerns. A research institute Shri Sayaji Jubilee Science Institute has been established to develop the existing industries and starting new ones.

PORT OKHA—Trade at Port Okha has developed considerably in recent years on account of fine harbour and various port facilities and the large market provided by the State territories and adjacent area. The customs duty derived therefrom was Rs 25 lakhs in 1941-42.

TRADE AND INDUSTRIAL CENTRES—Important centres of trade and industry are BARODA, MEHSANA, NAVSARI, PETLAD, KALOL, PATAN, AMRELI, DABHOI, VISNAGAR, PADRA, SANKHERA, etc.

The new industries under contemplation include manufacture of writing paper, kraft paper and straw board. A factory for the manufacture of starch has already been started.

Total length of the railway lines owned by the State is 794.55 miles out of which, 735.71 miles of railway is worked by the State including Broach-Jambusar (71.55 miles) recently purchased. The remaining lines are worked by the B B & C I Railway and the Jamnagar & Dwarka Railway. The railway facilities available in Baroda State are 2.57 miles for every 10,000 of the population.

Fairs—No well established large scale cattle fairs are held in Baroda State. There is one cattle market at Baroda held on every Friday. At Pattan in Mehsana District, many cattle come for sale every day. There is some cattle sale at the Fair of Vetal-Mata near Vyara in Navsari District.

BASTAR STATE.

BASTAR lies to the south-east of the Central Provinces and is bounded on the east by the Koraput district of Orissa. The State is the twelfth largest in the Indian Empire, its area being 13,725 sq miles. The greater part of the State has a heavy rainfall going up to 90" in parts. The population numbered 633,888 (1941 census).

A large portion of the State is covered with jungle and is sparsely populated. The open areas, chiefly in the east and north, are well populated and contain good rice lands. Chief crop is rice, but millets, pulses and rape are also grown in large quantities.

JAGDALPUR (population 11,304), on the Indravati, is connected to Raipur, C P in the north (184 miles). The nearest railway stations to Jagdalpur are Salur (B N. Ry 124 miles) and Dhamtari (B N Ry 136 miles). The trade of the northern portion of the State goes to the latter.

Trade in the extreme south of the State is by river, Konda in the south being a river port of the Saveri, a tributary of the Godavari, down which boats ply to Rajahmundry. The principal exports in the south are timber, including teak, minor forest produce, rice and other agricultural products. In the north and east of the State the principal exports of forest produce are timber, including sal sleepers, myrobalan, lac, cattle, hides and horns. Rice and rape seed are the principal crops exported. The chief imports are salt, kerosene oil, cloth, yarn and miscellaneous metal goods. There is a large and important cattle market at JAGDALPUR and LOHANDIGUDA about 20 miles west of Jagdalpur.

The natural resources of the State are very considerable. A large part of the north, centre and east contains valuable sal forest. There

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE.** Rs. 3. Industry, Calcutta.

is a large amount of excellent quality teak especially in the centre and south of the State and myrobalan, wax, lac and honey, tanning bark, tassar cocoons are also important. There are large iron ore deposits, those in the Baildila range in the centre of the State being possibly the best quality ores in India. Mica deposits are also found including lithia mica.

List of Fairs.—In JAGDALPUR TAHSIL—Jagdalpur town (Kodhobhata), (October) Kartic 4th Suklapaksha, one day, fruits, vegetables, tobacco and fish, Bastar, on Magh full moon day, green vegetables and rice, Chapka. End of dark fortnight of Phalgun, Arrowroot, Gunnv, sugar, tobacco and rice, Tirathgarh, Magh Purnima (bright fortnight), 3 days. Fruits, vegetables and flowers.

In KONDAGAON TAHSIL—Kondagaon, Phagun Astami 7 days, Keskal, Phagun Purnima, (8 days after the Kondagaon fair), 7 days, Bistrampuri, after 8 days of Keskal fair, Dhanora, after 8 days of Bistrampuri fair, rice, vegetables, tobacco, potatoes and pulses.

In ANTAGARH TAHSIL—Antagarh, Magh purnima, Narayanpur, Phagun Purnima, rice, pulses. In DANTEWARA TAHSIL—Dante-wara, Phagun Purnima, 3 days, rice, pulses and ghee. In BIJAPUR TAHSIL—Bijapur, (Chikatraj Fair), Phagun Purnima, 1 day, rice, pulses and ghee. In SUKMA ZAMINDARI—Ramaram, Magh Panchami or Dasmii, 3 days, rice, pulses, and ghee. In BHOPALPATMAN ZAMINDARI—Sakalnarayan, during the fortnight immediately after the holi festival. Rice, pulses, ghee, tikur, tamarind and lac.

BHARATPUR STATE,

The BHARATPUR STATE (area about 1972 sq miles, population 5,75,625 according to the census of 1941) in Rajputana lies in the North-east of Rajputana between Lat 26-43° and 27-50° and Long 76-54° and 77-48°, the extreme length and breadth being 76 and 48 miles respectively and is divided North and South almost into two equal parts by the metre-gauge line of the B B & C I Railway whose direction is due East and West.

INDUSTRIES—The State is well known for its red and white stone quarries. The red stone is suitable for slabs, flooring and ornamental purposes. It is easily worked and has a rich handsome colour. Large quantities of this stone were used in Agra and Delhi forts and it has also been used to a great extent in the construction of New Delhi. The white stone, which is more correctly a cream coloured stone, is of a harder texture than the red stone and is used principally for ornamental work and has also been employed in the Agra and Delhi forts and in New Delhi. It can also be used as slabs for flooring purposes. In addition to these main uses, these stones are used for the manufacture of mill stones which are sent to various parts of India. Generally the product of these stone quarries is eminently suitable for architectural work.

Carpet and durrie manufacture and cotton and silken cloth weaving are of fair importance. The products of BALLABHGARH and BHU-SAWAR both in Weir tehsil and Nadbai are of very superior grade.

CATTLE BREEDING—The State is well known for its Mewat breed of cattle. Eight cattle fairs are held in at different times of the year—at Weir (June-July), Jhil-ka-Bada (Bayana) (April), Rupbas (January-February), Nadbai (December), Nagar (April), Kaman (July-August), Dig (August-September) and Bharatpur (September-October). The most important of these is at the last mentioned place. This fair is of all-India importance. Cattle purchased in the State are taken to such distant places as the extreme ends of the United Provinces and even beyond. A regional show of cattle was held by All-India Cattle show

For experimented formulas for damp proofing matches consult **SAFETY MATCHES AND THEIR MANUFACTURE.**" Rs 3. Industry, Calcutta.

(Delhi) at Bharatpur in October, 1942 From among the dairying products, ghee is exported in enormous quantity to distant places including Hyderabad (Deccan)

CROPS—The chief crops are bajra (149,093 acres), gram (134,711 acres), jowar (78,036 acres), wheat (56,124 acres), barley (41,094 acres) sesamum (22,030 acres) rape and mustard (30,886 acres), white zira (cumin seed) and spices (18,591 acres), tobacco (2,240 acres) Grass for fodder purposes grows abundantly in the State

TRADE—The State exports chiefly oil-seeds, cumin seed, gram, mung, mash and other pulses The chief markets are BHARATPUR, NADBAI, (both on the B B & C I Railway), DIG and KAMAN

BHAVNAGAR STATE.

The State has a population of 500,274 in an area of 2,960 sq miles It is a first-class Indian State in Kathiawar and is one of the wealthiest states in the province About half of the area is regar or black cotton soil There are 13 towns and about 700 villages in the State The capital of the State is BHAVNAGAR which is the chief town and an important port on the Gulf of Cambay There is anchorage eight miles away from the port proper and the goods are moved from the steamers in lighters The port itself has accommodation for small coasting steamers The town is the terminus of the Bhavnagar State Rly MAHUWA, SIHORE, BOTAD, and TALAJA are other important towns in the State besides BHAVNAGAR

The chief product of Bhavnagar is the Bhavnagar cotton which is of good quality Grains, salt, etc., are also obtained and there is a good and booming trade in these articles

BHAVNAGAR Port has got all modern facilities and is connected by rail Chief industries of the State consists of 3 cotton mills, 5 weaving factories, 1 rubber factory, 1 indolite factory, 2 chemical works, 1 horn crushing factory, 1 silk mill, 1 match factory, 1 cement tile factory, 1 hosiery factory, 4 oil crushing mills, 1 hume pipe factory Besides these there are 31 oil mills, 61 ginning and pressing factories, 114 flour mills, and 22 printing presses There are also several small-scale industrial concerns employing manual labour, which produce sugarcandy, copper and brass utensils, chemicals, soap, wood furniture, cotton thread, gold thread, battery cells, trunks and buckets, wooden and ivory toys

The state has launched various schemes of water supply and irrigation The village panchayats and the co-operative credit societies are doing very useful work in improving the economy and social life of rural areas

The trend of the total trade of Bhavnagar during the last three years is shown below —

Year	Rs
1938-39	4,70,25,075
1939-40	3,30,97,629
1940-41	2,80,33,045

BHUTAN.

A free State on the border of India, BHUTAN is mostly hilly and is inaccessible except in the southern part The market of Bhutan continues for about 4 months like melas where the products of the place are sold to foreigners and the local men receive foreign and Indian made articles in return

The articles of trade in the hat are ivory, rubber, honey, oranges, lac, timber, musk, ghee, wax, blanket, endi and silk cloth, tails of bison, etc These articles are generally sold cheap on market day and the

Get a copy of COTTON DYEING & PRINTING and try it yourself.
Re. 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

business is very profitable Chief exports to India are ponies, mules, blankets, wax, butter, sticklac, and cattle while the chief imports from British India are cotton, piecegoods, metals and tobacco leaf

There are also rubber trees and plantations, which are locally known as Bansibat Owing to the hilly nature of the country grains and seeds cannot be grown largely and so these have to be imported

BIKANER STATE.

The State, with an area of 23,317 sq miles, is the second largest State in Rajputana Its population is more than a million and a quarter The population of the capital is 1,27,000, and it is the third largest city in the whole of Rajputana The official languages of the State are English and Hindi, while the bulk of people speak Marwari

The greater portion of the State consists of sandy tracts or is traversed by undulating high sand hills with valleys in which cultivation is done The average rainfall is about 12 inches per year The northern portion is, however, very fertile and since the advent of the Gang Canal there has been considerable rise in the area under commercial crops There are no perennial rivers in the State but a small portion in the North-East and East receives some irrigation from inundation of Ghaggai and Kath rivers during the rainy season The chief crops are bajra, moth, javar, wheat, cotton, sugarcane, gram and taramira.

With the development of the State Railway, export and import trade has steadily grown The chief article of export is wool which is of a superior quality and fetches better price in the English Markets than other Indian wools One wool baling press, one wool cleaning factory, a flour mill, an ice factory, and a soap factory have been established at the capital Considerable industrial development has also taken place at GANGANAGAR, the headquarters of the Gang Canal colony area, and several cotton-ginning factories, flour, pulse-grinding and oil mills, together with an ice factory, two rice hullers and an open pan sugar factory are already working A large Vacuum Pan Sugar Factory is also about to be established

The most important mineral worked in Bikaner State is lignite at PALANA, 14 miles south of Bikaner, and the output of coal mined there, during 1940, was 41,710 tons Fire clay, fuller's earth and limestone are also found in the various parts of the State The red sand stone of DULMERA is used extensively in Bikaner and further markets are being sought for it outside the State Gypsum is found in considerable quantities at JAMSAR 25 miles to the north of the Capital, and is extensively used in the State Gypsum being an important constituent of cement, a great future lies for the manufacture of that commodity in this State

Mandis or grain markets, which are connected by rail, have been established at GANGANAGAR, KARANPUR, RAJSINGHNAGAR, GAJSINGHPUR, KESRISINGHPUR, BIJOYNAGAR, HINDUMALKOTE, SANGARIA, SADULPUR, LAKHUWALI, NOKHA, and GOGAMERI. Prospects of opening of further mandies at suitable centres in the eastern districts of the State have been rendered bright with the recent opening of a new chord line of the State railway, joining Sadulpur with Rewari and passing through Loharu, Jaipur, Patiala and Nabha States territories

Fairs:—Cattle fairs are held annually at Gogameri, Ganganagar and Kolayat The Gogameri fair is held in August or September and a brisk trade in camels and other cattle specially bullocks is carried on The Ganganagar fair is held on dates fixed mainly for the exchange of cattle, but the occasion is also utilised for various other useful purposes

Get a copy of **COTTON DYEING & PRINTING** and try it yourself.
Re 1/12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

poses, such as, improvement in co operative methods and agricultural operations. The Kolayat fair is usually held in November.

Recently a separate department has been set up and organized to develop cottage industries in the State for which suitable raw material exists

BUNDI STATE.

The BUNDI STATE has an area of 2,200 sq miles and a population of 216,722. It is one of the most ancient and premier first class States in Rajputana. The Court language is Hindi.

The State is traversed by a double line of hills and has four passes. The crops raised during the rains are maize, jowar, (87,000 acres), mung, wheat (70,000 acres), barley, gram (35,000 acres), opium, linseed (18,000 acres), rapeseed (19,000 acres), etc., are grown during the cold season. Cattle, ponies, sheep and goats are available here in considerable number. There is a cotton press at DEOLI.

The chief exports from the State consist of cotton, oil seeds, pulses, opium, hides, gum, wool and ghee and the main articles of import are piecegoods, sugar, rice, salt and metals. NASIRABAD is situated about 90 miles off the capital and the Baran-Ajmer branch runs close to the capital.

BUNDI (population 22,000) is one of the picturesque towns in Rajputana, being surrounded by wooded hills.

CENTRAL INDIA STATES.

Central India possesses soil of every class from rich black cotton soil (covering the greater part of Malwa) to the dry stony red earth (met with near Bundelkhand). The principal crops of Central India in 1,000 acres are—Rice (90), wheat (2,244), barley (66), cholum (1,104), bajra (142), maize (126), gram (398), pulses (375), linseed (85), sesamum (172), groundnut (24), condiments and spices (16), cotton (1,090), fodder crops (211), sugarcane (17), sunn hemp (10), arhar, kutki, urid, masur, barley and sunn. Betel, ambhari tobacco and poppy are also grown. All the usual spices and vegetables met with in Northern India are grown here. The deciduous forests of Central India produce timbers, fruits or sap (mohua, khair and sal).

Diamond and coal are obtainable here on the Gondwana rocks in the south of the REWA (Umaria), copper is found at BARDI and TAGWA in Rewa, lead at BARGOA near Bardi and also in SEONDHA hills in Datia, iron throughout the Vindhya rocks near HIRAPUR in BIJAWAR STATE (once a famous centre of iron smelting), near BAWALIHA in INDORE and manganese in the GWALIOR STATE and in JHABUA.

Central India is usually rich in materials of construction, viz., building stone (sandstone of the Vindhyan series). NEEMUCH and SUTNA limestones are exported in considerable quantities. KYMORE sandstones of BHOPAL are of deep, purplish red colour and match with those of Mirzapur and Chunar in quality. Corundum is worked in REWA, asbestos in the BHOPAL area and diamond is found in the neighbourhood of PANNA. Agates and jasper are also found.

Central India was once famous for its fine cloth and muslin produced at several places in MALWA. Saris and dhotiodas of MAHESWAR have a considerable sale. The ordinary country cloth is made in many places. The manufacture of Malwa opium has declined. There are altogether 15 cotton mills in the Agency, chiefly in Gwalior and Indore. These are equipped with 313,572 spindles and 8,339 looms and are progressing well.

Guide to DYEING & CRAFTING—A handbook for amateurs and professionals. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The chief imports to the Agency are salt, sugar, ghee, kerosene oil, hardware, machinery, piecegoods, arms, oilman's stores and wines. The exports are gram, cotton, oil seeds, opium, poppy seed and hides, a certain amount of timber from the eastern part of the State and building stone and Neemuch limestone are also exported.

COCHIN STATE

COCHIN STATE lies in the South-west of Peninsular India with the natural division "Malabar and Konkan" bounded by the Arabian sea, the State of Travancore and British Malabar. The area of Cochin including its lagoons and backwaters and its extensive forest tracts is 1,480 sq miles and its population is 1,42,200 (1941 census)

The State enjoys the benefits of both the South-west and North-east monsoons

Agriculture is the main occupation of the people 54 % of the total area of the State is under cultivation Paddy is the chief agricultural product On the coastal regions there are large coconut plantations The other minor agricultural products comprise ragi, peas, beans, tapioca, banana, etc Arecanuts and cashewnuts are also important products of the State There are 11,967 acres of land in the high-lands under rubber plantations, 1,993 acres under coffee and 1,647 acres under tea

About a third of the total area of the State is covered by forests of the monsoon type which abound in valuable species of timber such as teak, rosewood, irul, etc Nux-vomica, cardamom, honey, wax, grass, bamboos, etc, form the other minor forest products These forests provide fuel for domestic use and also for the working of many locomobiles in the State There are various species of soft wood in the forests and these are useful for the manufacture of packing cases

Coconut oil pressing and coir work are the two main industries based on the coconut palm There are about 651 power driven chucks and one expeller working in the State, besides a number of chucks driven by bullocks Coir industry is largely carried on on a cottage basis though there are five factories processing coir yarn into mats and mattings Government have recently started a Central Coir Depot at MATTANCHERY (Cochin) with a view to protect the small-scale producers of coir yarn A few coir factories have also formed themselves into an Association called the Cochin Coir Manufacturers' Association in order to have a responsible body to undertake large supplies of manufactured coir goods

Ceramic industry is next in importance to oil pressing and coir works The existence of large deposits of clay in the central regions of the State is responsible for the starting of a number of tile factories There are at present 30 tile factories and their total production during the last official year was 11½ million tiles and bricks The Cochin Potteries at CHALAKUDY manufacture glazed wares such as pickle jars, bung jais, stew pots and many other useful household utensils There are two large textile mills with a total number of 50,000 spindles and 400 looms Besides, there are about 3,000 hand looms working in the State With a view to market the products of the State a Cochin Cottage Industries Co-operative Marketing Society has been started at Trichur There is a carving workshop attached to the Office of the Director of Industries and Commerce, Trichur where caskets and other articles of high workmanship and artistic value are made to order under Government management

The other important industries of the State are arecanut curing, fish curing, furniture making, grass and bamboo mat making, bell-

Guide to DYEING & CLEANING—A handbook for amateurs and professionals. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

metal casting, etc., etc. A rubber factory has been started recently where teats, valves, balloons, etc. are being manufactured now.

The Cochin State Railway runs from one end of the State to the other i.e., from Shorannur to Ernakulam, connecting the important commercial centres with the other parts of India. This railway has been extended to the Cochin Harbour.

In order to facilitate the easy exploitation of the forest produce the State has constructed a tram line, 48 miles in length, which connects the interior of the forests with the Railway of Chalakudy.

The COCHIN HARBOUR is one of the major ports on the west coast. It is the easiest port for the export and import trade of South India with western countries. The chief exports at this port are ropes, coir mats and mattings, rugs, coconut oil, copra, oil cake, ginger, pepper, cashewnuts, etc., etc. The chief imports are rice, paddy, piecegoods, hardware, stationery articles, etc. ERNAKULAM is the capital of the State and the seat of Government. TRICHUR, TRIPPU-NITHURA, IRINJALAKUDA, KUNNAMKULAM, WADAKKANCHERY and CHITTUR are the other important towns and trading centres.

Fairs:—The Trichur Pooram which comes off during the period from 15th March to 15th April annually is a festival during which thousands of people from far and near gather in the town and transact business. During this Pooram week an All India Swadeshi Exhibition is also being usually held.

COOCH BEHAR STATE.

Cooch Behar State (area, 1,318 sq miles, population 6,39,898, language, Bengali).

The staple crop is rice. Other food-crops are cheena, kaon, maize, mung, masur, khesari, thakari, kulthi, arahar and oil seeds, all of which are extensively cultivated. The tobacco of Cooch Behar enjoys a high reputation and was sent to Burma for making cheroots. Now Virginia tobacco is being widely grown for the Cooch Behar Tobacco Co. Jute is widely grown (HALDIBARI and CHAURAHA being important centres). Sugarcane is also cultivated.

Rough cloth from silk and endi worms is woven. Excellent gunny cloth is made at MEKHLIGUNJ. Ghee and mustard oil are made in large quantities.

The chief exports are tobacco, jute, rice, mustard seed and oil, and the chief imports are piecegoods, kerosene oil, salt, sugar, molasses, brass, copper and earthenware utensils. Some trade is conducted with Dacca by river. Rice is sent to the Duars and to Sirajgunj by boat. The Teesta is navigable and the State is well served by railway. There is an agricultural farm in the Cooch Behar town, which has been usefully demonstrating new and modern methods of cultivation of various crops, and distributing free seed to the agriculturists. The Industries Department of the State has arranged for training of local candidates in jute textiles, soap making and metal casting and polishing in a Central Institute in the town. There is a Weaving School maintained by the State for the training of boys in cotton, silk and wool weaving. A nursery has been added to this Institution for supplying seed of improved varieties of eri worms to local rearers. Carpentry and smithy are taught in the local Artisan's School. There is a Model Dairy Farm in Cooch Behar Town which supplies pasteurised milk to the State and the surplus to the public.

Major industries—Industries such as cigarette and paper manufacture are being started under State auspices. A new Electric Power Station has been opened at DINHATA in addition to the one already existing at Cooch Behar, so as to facilitate industrial development.

Get a copy of Banerjee's ENGLISH CORRESPONDENCE—That complete book of General Letter Writing Rs. 2/-. Industry Book Dept, Calcutta.

Road development within the State is proceeding on a planned basis, and good cement concreted roads are being constructed speedily. This will give an impetus to the industrial development in the State

CUTCH STATE.

The STATE, with an area of about 7,676 square miles, has a population of 513,829 who speak Cutchi and Gujrati. Wheat and barley of different qualities are cultivated. Cotton, grains and pulses are also grown, besides many other garden products and vegetables of all varieties.

Trees in Cutch are limited in number, prominent trees being neem, pipal and babul, which are met with near the villages. Mango trees require great care here. The state of Cutch is also famous for its houses.

Among minerals, iron and coal are found in the State but iron is no longer smelted and worked, so also is the case with coal the bed of which being very thin cannot be mined. Alum and a coarse variety of saltpetre are also found. Yellowish marble of good quality is also found in the State at KHAUDA.

Trade of Cutch is mostly carried by sea. The chief imports are grain, butter, sugar, groceries, fruit, and timber, and of manufactured articles iron, brass and copper ware, cloth, furniture, stationery and ivory goods are worth mentioning. The exports from the State consist of alum, cotton, millet, pulse, garlic and silver ware. In addition to the beautiful embroidery and silver work for which Cutch is chiefly noted, its manufactures of silk and cotton (cloth) are of some importance.

MANDVI (Population 25,000) —It is the chief port of Cutch. Steamers from here sail to Arabia, Maskat, Sind, Kathiawar, Bombay and Malabar. This is a port of call of all steamers in the British India line. There are two light houses.

ANJAR (population 20,000) —There is a temple with the image of Jaipal, the brother of the Chauhan Prince of Ajmer, on horseback, and it is said that he built the town.

BHUJ (population 27,000) —There are Post Office, Central Jail, Library, School of Art, High School, Hospital and Dispensary. The place is chiefly interesting for its archaeological monuments.

JAKHAN (population 6,000) carries on a large trade with Bombay exporting grain and importing piecegoods, groceries, timber, sugar, oil and dates. It will be a port of some value in the near future.

NALIYA (population 7,000) is a most thriving town in Cutch. The residents of this place are generally retired merchants who have made their fortune either in Bombay or in Zanzibar and have settled here for the rest of their lives.

DHAR STATE.

DHAR STATE (area 1799 3/4 sq miles, population 253,258; languages —Hindi, Marathi, Nimadi, Malwi) —Chief crops are wheat, gram, cotton, oilseed and ajwan. Cotton ginning and pressing is done at different ginning and pressing factories. There are 20 ginning and 4 pressing factories. Cotton weaving is largely practised in towns and villages. Printing of cotton fabrics in various colours is done at various places including DHAR, which is 33 miles west of Mhow Railway Station and at KUKSHI. Oil pressing in country presses (Ghanis) is an important cottage industry. Darbar have recently granted permission to start a large oil mill with side industries like soap manufacture, varnishes, etc. A bidi factory is also in the formation. Permission and certain concession to start a thymol factory has also been

Get a copy of Banerjee's ENGLISH CORRESPONDENCE—That complete book of General Letter Writing Rs. 2/-, Industry Book Dept., Calcutta.

given A State Bank was opened on the 21st October, 1941 Bids are made from tendu leaves, which are available in abundance in the State forests Besides the manufacture of agricultural implements ornamental wooden work is turned out at DHAR and GUJRI Toys are made and lacquered in bright colours Tanning, jaggery-making are also done The chief imports are rice, salt, groceries (from Bombay and Indore), cloths (Nagpur, Ahmedabad, Indore, Madras), silk textiles, lace (from Poona), hardware, stationery, books, coconuts, piecegoods, etc The chief exports are wheat, gram, cotton, jowar, oilseeds, crude thymol, to the neighbouring States and Bombay Ginned cotton is exported to Indore and Bombay, oil seeds to Bombay, tobacco to Indore and Marwar The chief centres of trade are DHAR, BADNAWAR, KUKSHI, and DHARAMPURI The latter two towns attract customers from Khandesh, Berar and Gujrat

Fairs—January—Peer Sadruddin and Badruddin (Nalcha-Dhar) February—Sitamata at Pipri (Nimanpur-Dhar), Peer Biyabani of Chittri (Kali Baori-Dhar), Peer Biyabani at Islampura (Dhar), Shri Nageshwar at Badnawar, Shri Dhareshwar Mahadeo, Maha Shivratra (Dhar). March—Peer Dawalshah (Kotbhidota); Shri Khanderao (Khiledi-Badnawar), Shree Khanderao (Thikri-Dharampuri), Shree Narsinghji (Indrawal-Badnawar), Phul Dol (Bidwal-Badnawar), Peer Balema (Sewra-Dhar), Phul Dol (Kachi Baroda-Badnawar), Phul Dol (Tilgara-Badnawar), Phul Dol (Multhan-Badnawar), Phul Dol (Dotria-Badnawar), Phul Dol (Badnawar), Phul Dol (Kanwan Badnawar), Peer Dudhia Dhar (Miyapura-Dhar). April—Peer Dawalshah Juapura (Dhar) May—Kotnath (Kod-Badnawar), Shri Hanumanji (Bakhatgarh-Badnawar), August—Koteshwar Somwati Amawasya (Kukshi), Dhardi Kund Somwati Amawasya (Nimanpur); Sansthan Bet, Somwati Amawasya (Dharampuri) October—Kamia Punam (Dhar) November—Kotnath (Kod-Badnawar), Shri Hanumanji (Bakhatgarh-Badnawar) December—Shree Bheruji (Multhan-Badnawar); Shree Bheruji (Lingwa-Kuksin)

Most of the above are religious fairs but they also contain agricultural and industrial sections in which improved implements, better types of seeds, articles of every day use of the Household etc, are exhibited The fairs at Lingwa, Chittri, Dhareshwar and Punam (Dhar) attract shops from distant places

The cattle show at Kanwan (22 miles from Dhar) is held every year from June to October and attract customers from different parts of Central India, Khandesh and Berar.

DERANGADHRA STATE.

The State has a population of 88,961 Its area is 1,167 sq miles exclusive of the area of the Dhrangadhra portion of the Runn It is a first-class State The capital town is DHRANGADHRA on the Runn of Cutch

The soil is eminently suited for cotton cultivation, though grains of all kinds are also grown The Dhrangadhra cotton has a reputation of its own for purity of strain and length and quality of its staple

The State possesses unlimited resources for producing a very high grade salt resembling sugarcandy A very large factory for manufacturing soda alkalis as bye products from salt has also recently been erected by the State being the first venture of its kind in India Other manufactures are magnesium chloride, copper and brass utensils, stone ware grinding mill stones, handmade cloth, snuff, etc There are 4 ginning factories and one cotton press in the State

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

MARKET PLACES OF THE INDIAN STATES 563

The State owns a metre-gauge Railway of 41 miles from Wadhwan Jn to Halvad besides a siding of 14 miles connecting the Salt Works at Kuda with Dhrangadhra

DEHROL STATE.

The principal crops of the State (area, 2827 sq miles, population, 27,652) consist of sugarcane and grains, and molasses are largely exported. Coarse cotton cloths are woven by handloom to a small extent. It is a second-class State, 23 miles north-west of Rajkot and 23 miles from east of Jamnagar.

EASTERN AGENCY

The EASTERN AGENCY consists of a number of dependent territories including the following States: Athgarh (50,148), Talcher (69,631), Mayurbhanj (886,745), Nilgiri (68,598), Keonjhar (460,667), Pal-Lahara (27,957), Dhenkanal (84,328), Athmalik (64,276), Hindol (48,897), Narsinghpur (40,882), Baramba (46,689), Tigiria (24,830), Khandpara (77,930), Nayagarh (142,399), Ranpur (47,713), Despaha (42,650), Band (135,248), Bamra (151,259), Rairakhol (35,715), Sonpur (237,945), Patna (566,943), Kalahandi (513,675), Gangpur (356,388), Bonal (90,144). They have a combined population of 4,461,675 and a total of about 30 thousand square miles.

CROPS—The States form a succession of hill ranges rolling backwards towards Central India. The intermediate valleys yield rich crops in return for negligent cultivation and a vast extent of land might be reclaimed on their outskirts and lower slopes. Cultivation is, however, rapidly extending in all the States, owing to improved means of communication and to the pressure of population in the adjoining British districts. The principal rivers are the Mahanadi, the Brahmani, the Baitarani, the Burabaling, the Ang and the Tel.

The staple crop is rice, of which generally speaking two varieties are grown, viz., aus or bali reaped in September and aman or sarad, the late winter rice. This principal food crop is supplemented by millets, such as china mandia or marua, etc., and maize and pulses form a large portion of the dietary of the people, including brinji, mung, kulthi, ahar and gram. The chief oilseeds grown are mustard, sesamum and castor seeds, castor oil being sometimes used by the poorer classes for cooking. Sugarcane is extensively cultivated and a considerable export trade is carried on in the sugar manufactured. Wheat grows luxuriantly in the hill area of the Kalahandi State. Cotton is largely grown, but is mostly of an inferior quality; a good deal of it is locally manufactured for home use, but certain quantity is exported. Tobacco is raised on the rich salt deposits of rivers and near homesteads, where cattle manure is plentiful. Turmeric is extensively grown for export and all the ordinary vegetables are cultivated, the commonest being the brinjal or egg-plant and pumpkin. The forests produce various edible roots, such as the large yam (kanda), arrowroot (tikhuri).

MINERALS—The basin of sedimentary rocks known as the Talcher coal-field extends about seventy miles with a general breadth of from fifteen to twenty miles. It comprises nearly the whole of Talcher, and a considerable portion of RAIRAKHOL, with smaller parts of ATHMALIK, and DHENKANAL. In several places in the Talcher field, iron is worked. Sometimes the iron stones of the Damodar beds are used, but more frequently surface concretions, the supply of which is necessarily limited. The method of smelting the iron in small

Thick Type insertions in these pages are Profit Making—Surely.
INDUSTRY, 22, R. G. Kar Road, Shambazar, Calcutta.

furnaces is similar to that in use in other parts of India, but the bellows employed are worked with the foot. The KEONJHAR State is believed to contain good deposits of iron. The enormous resources of iron ore in the GURUMAHISINI hills in MAYURBHANJ State are well known and are exploited by the Tata Iron & Steel Co at Jamshedpur. Limestone quarries are worked near BISRA along the bank of the Koel river in the north-eastern portion of Gangpur. Lime of excellent quality is produced and exported to Calcutta and elsewhere. Deposits of manganese are found in several parts of this State. Graphite of good quality is found in KALAHANDI State. Graphite is also found in ATHMALIK and PATNA. Bauxite is found in this State as a superficial deposit. Dolomite deposits in GANGPUR State have been worked. Manganese in fair quantity is found in the same State. The granite quarries in the NILGIRI State have been exploited. The hills bordering on BALASORE consist entirely of metamorphic rocks of various kinds. A kind of black magnesia rock intermediate in composition between potstone and serpentine, approaching the former in appearance, but less greasy in texture is quarried to some extent chiefly for the manufacture of stone dishes, plates and bowls. The stones are roughly cut into shape in the quarry, and finished, partly with tools and partly on a lathe, in the village. Coal is mined in KOREA State, TALCHER State and RAIGARH State, the total output being 1,048,364 tons, 440,137 tons and 2,700 tons, respectively in 1939.

CATTLE—Buffaloes and bullocks are employed in ploughing, cows and she-buffaloes are prized for their milk.

INDUSTRIES—Sericulture is also being carefully and scientifically carried on in the States of MAYURBHANJ, DHENKANAL and KEONJHAR, both shrub and tree mulberry are grown.

The States are not remarkable for any very special manufacture, at KANTILO in the KHANDPARA State and in the NARSINGPUR State a considerable manufacture of brass utensils is carried on, these find their way throughout the States, but are entirely of the ordinary pattern and in no wise remarkable either for design or workmanship. The next most important industry is the weaving of tassar cloth at SONPUR and BINKA in the SONPUR State.

Silk and cotton cloth of excellent quality and artistic pattern are manufactured at MANIABANDHA in the BARAMBA State in the States of RAIRAKHOL, and ATHMALIK a considerable number of blacksmiths find occupation in smelting iron, which is of excellent quality and highly valued. In BAND, DASPALLA, DHENKANAL, KHANDPARA, MAYURBHANJ and TALCHER blacksmiths make for local use, iron implements, such as axes, bill-hooks, crowbars, shovels, spades, sickles and knives, some of which are very well turned out. In DHENKANAL and NAYAGARH ivory work of good quality is still made by two families, and in BAND there are skilful silversmiths. In BONAI the Bhumi fashion utensils are made from the soapstone found there, and similar vessels are manufactured in the NILGIRI State. In almost all the villages of the States are found the local cotton weavers, the cloth woven is very coarse, it is however, very much more durable than the mill-made article. The villages are self-contained with their own blacksmith, potter, carpenter, etc.

Traders in the States are represented by itinerant dealers from the British districts, there are but very few local traders. Trade is carried on principally in rice, pulses, oil seed etc., and timber and other forest produce in return for salt-dried fish, imported cotton piecegoods, cotton

Remodel your business methods with the ideas given in K. M. Banerjee's **BUSINESS EFFICIENCY**. Rs 2. Industry Book Dept., Calcutta.

twist and kerosene oil, tassar, cocoons are also exported. There is a considerable export trade in hides and horns. Most of the export and the import trade is carried on with Cuttack and to a smaller extent with Balasore, Puri and Sambalpur.

GONDAL STATE.

The State of GONDAL covers an area of 1024 sq miles and is peopled by 244,514. Rainfall is 20 to 25 inches on an average.

As agriculture is the main occupation of the majority of the people, the chief items of trade are field-produce viz, groundnuts, cotton, food grains and sugar-cane. There is a brisk trade in ground-nuts. Expellers and oil mills are daily threshing out tons of seeds and extracting maunds of oil in GONDAL, DHORAJI, UPLETA and BHAYAVANDAR. The oil is partly consumed in Kathiawar and partly exported. The principal article of trade is food grains. The grain market at Gondal has become a flourishing trade centre.

HANDICRAFTS—There were 1,046 hand-looms for weaving cotton and 144 looms for weaving wool. The craft of hand-loom weaving has by no means fallen an easy victim to the competition of mills as had been feared by many. The work is often more durable and designs more acceptable than those produced by the textile mills. Wherever there are hand-loom weavers there are found Khattris—professional dyers of cloth, Bhavsars—calico printers and Bandhni workers.

Embroidery on silk and cotton cloth in gold, silver and silk thread is produced at GONDAL and DHORAJI. Wearing of embroidered silk is a fashion with the Mahomedan ladies and gentlemen. Such silks are worn by Hindu ladies only on festive occasions.

Weaving of woollen blankets is carried on in several parts of the State. Gondal produces good quality of wool. It is usually cleaned by the Mussalmans Pinjaras and is warped and sized by the weavers. The best blankets are the Dhablas of DHORAJI.

DHORAJI is famous for its wood work turned on lathe, cots, cradles and toys. Blankets are woven. Country carts and implements of agriculture are made in many large villages.

WATER WORKS AND IRRIGATION—Two large tanks have been constructed at Gondal and Paneli Moti for irrigation purposes. Filtered drinking water has been provided for the towns of Gondal and Upleta.

TAXES—The customs and octroi duties have been abolished.

POWER INDUSTRIES—There are hand-mills for corn grinding and pounding and husking rice at GONDAL and DHORAJI. Brass-foundry at GONDAL turns out parts of heavy machinery, and articles of furniture. Nut-crackers made in this foundry are in great demand in several parts of India. A sugarcandy concern at UPLETA manufactures crystal sugar. There are 2 cotton presses and 9 ginning factories in the State. The ice factory at GONDAL manufactures and supplies pure ice to the Gondal and Dhoraji divisions. Tanneries are owned by Mahomedan merchants at UPLETA, DHORAJI.

Stone quarrying is an old industry of the State. Out-put of lime and black stone is very large, but the great distance of quarry pits from the markets hitherto came in the way of the development of this industry. To remove this inconvenience the State has constructed a railway siding connecting the quarry pits with the main railway line.

Of the total area of 42,400 acres covered by forests, 11,000 are grass reserves. GONDAL owns 126.08 miles of railway from Dhasa to Jam-

Remodel your business methods with the ideas given in K. M. Banerjee's
BUSINESS EFFICIENCY. Rs. 2. Industry Book Dept., Calcutta.

Jodhpur with its KUNKAVAV-BAGASAR and KUNKAVAV-DERDI extensions and has a six annas-share in JETALSAR-RAJKOT Railway

A match factory has been started at Gondal. There is also a soap factory at Goadal producing good soap

ELECTRICITY—Electric power has been supplied to flour mills cotton presses, ginning factories and groundnut expellers Electricity has been brought to village and applied to the same purpose

GWALIOR STATE.

GWALIOR STATE lies in Central India between North Lat 22 10' and 26 52° and East long 74 38° and 77 38°. The State has an area of 26,430 sq miles and population of 35,23,070 persons.

Chief crops in 1939-40 were wheat (14,81,000 acres), jowar (14,73,000 acres), gram (7,51,000 acres), pulses (4,94,000 acres), bajra (3,05,000 acres), maize (2,06,000 acres), barley (1,11,000 acres), linseed (1,11,000 acres), sesamum (2,70,000 acres), rape and mustard (34,000 acres), flax and hemp (44,532 acres), cotton (5,46,247 acres), sugarcane (19,127 acres).

The State is rich in minerals such as bauxite, iron ores, manganese ores, galena, copper and iron pyrites, green-earth, pottery clays, ochres, mica, limestone and other materials viz, quartz, and stone, reh, and saltpetre for the manufacture of glass

The chief trees generally found in forests are teak, salar, lac, tan nins, acacia, cutch (Khair), adina cordifolia (Haldi), bassia latifolia (Mahuwa), dalbergia latifolia (Kali Sesame), bombax malabaricum (Semal), sterculia urens (Karai), Amaltas, dashmul, wax, pitpara, mush safed and siah, gums, tejpat, harsingar, chironji, tendu, oil yielding and colour dyeing plants and a good variety of grasses are also found in the Forests

The area, occupied by the Forests amounted to 21,18,948 acres in the year 1937-38

There are 489 industrial concerns in the State, of which 152 are ginning and cotton presses Other chief companies are —Gwalior Engineering Works; (Lashkar), Gwalior Leather Factory & Tent Factory (Morar), Gwalior Potteries Limited (Lashkar); Gwalior Electric Supply Co, (Lashkar, Shivpuri, Sheopur, Ujjain, Shajapur), Alijeh Darbar Printing Press (Lashkar), Jayjirao Cotton Spinning and Weaving Mills Ltd, Gwalior, Motilal Agarwal Spinning and Weaving Mills, Gwalior, Hira Cotton Spinning and Weaving Mills, Ujjain, Binor Cotton Spinning and Weaving Mills Ujjain. Deepchand Cotton Spinning and Weaving Mills, Ujjain, Nazarali Cotton and Spinning and Weaving Mills, Ujjain, Malwa Hosiery Factory, Ujjain, Tobacco Factory, Lashkar, Stavardis Carpet Factory, Lashkar, Gwalior Taxidermy, Lashkar, Nib Factory, Lashkar, Gwalior Gota Factory, Lashkar, Gwalior Cement Company, Banmore; Imperial Match Factory, Gwalior, Scindia Sugar Mills, Dabra, Onkar Flour Mills, Ujjain

LASHKAR—It is the seat of the Government. It is an important trade centre for wheat, fodder, fruits and vegetables, grains and pulses

BHILSA has a mandi (market) for wheat flour, gram, pulses, wheat, sesamum, etc

SHIVPURI is a famous health resort and an important trade centre for cotton piece goods, oilcakes, fodder, wheat, etc

BEHIND—Manufacture of brassware forms the staple industry The place is famous for wheat, oil seeds and ghee

MANURES & THEIR APPLICATION a useful handbook for all amateur gardeners. As. 5. Industry Book Dept., Shambazar, Calcutta.

MARKET PLACES OF THE INDIAN STATES 567

MORENA—It is noted for trade in wheat, moong and ghee. There has been established a laboratory controlled by the State for testing, grading and packing ghee under "Agmark" seal.

SABALGARH—It is noted for wood carving, lacquer and metal works.

SHEOPUR—The place is famous for lacquer work and wood.

GOONA—Wheat and pulses form the chief exports.

CHANDERI—It is famous for the manufacture of fine muslins with borders and coloured silk and gold threads.

UJJAIN is situated in the centre of Malwa. Being the biggest cotton market in Central India and an industrial centre, it exports steam pressed cotton bales and cloth to foreign places. Besides, wheat, cottonseed and jowar are exported in large quantities.

MADHAVNAGAR is a mandi in Ujjain close to the Railway Station. Chief commodities dealt in the Freeganj (Duty Free Zone) are cloth, sugar, tobacco, kerosene oil, groceries and vegetable oils.

MANDSAUR is the chief market for opium, cotton and piecegoods.

JAWAD is a town famous for cloth dyeing industry and manufacture of bracelets.

SHAJAPUR is noted for gram, pulse, cloth printing and dyeing.

SARDARPUR—Chief commodities of trade are grains, pulses and cotton.

Transport and Communications:—G I P Ry and B B C I Ry lines traverse the State. Almost all important places in the State are now connected by metalled roads and their mileage amounts to 2,227. The roads are maintained under the Department of Public Works. Gwalior is an Airway station since November 9, 1937.

Cattle Fairs—In **GWALIOR**—Gwalior Agricultural Fair and Exhibition, 20th December to 10th January, Dhumeswar Fair, Dabra, Aghan Badi 5 to Sudi 5 (November). In **BHIND**—Shri Jagannathji fair, Meghpura, Soni P S, Chet Sudi 1 to Chet Sudi 15 (March), Mahadevi Rameshwar, Ater, Bhind P S, Phagun Badi 14 to Sudi 14 (March), Mela Kalkadevi Baghel, Bhind P S, Baisakh Badi 1 to Sudi Punam (May-June), Ramlila, Bhandei, Chirgaon, Magh Sudi 5 to Phagun Badi 5 (February). In **MORENA**—Jayeshwar Mahadev, Ambath, near Morena P S, Phagun Badi 5 to Sudi 5 (February), Jaura, Phus Sudi Punam to Magh Sudi 5 (Jan & Feb), Nagaji, Porsa, Morena P S, Phus Badi Parwah to Phus Sudi 15 (Jan & Feb). In **SHEOPUR**—Siddhanath Baba, Bijapur, Magh Sudi 12 to Phagun Badi 5 (February). In **SHIVPURI**—Banganga, Shivpuri P S, Phagun Badi 10 to Sudi 5 (March). HYDERABAD STATE

HYDERABAD STATE is an extensive Indian State in Southern India with an area of 82,698 sq miles and a population of 16,338,534 of which 12,099,358 Hindu, and 2,097,475 Mohamed

The northern portion produces wheat and cotton and the southern portion produces rice generally. The hills or ranges are often covered with forests and timber mostly acacia arabica

The crops of the State include rice, wheat, gram, pulses, jowar, bajra, ragi, maize, linseed, sesamum, groundnut, castor, sugarcane, sunn hemp, tobacco, fodder crops, fruits and vegetables, etc. Cotton is extensively cultivated in the black-soil district as well as in Teligana but the cultivators produce the short-stapled variety generally. The total area under cotton during 1939-40, 3,089,000 acres, 635,000 acres were devoted to rice crop, 1,250,000 acres to wheat crop, 387,000 acres to castor seed, 1,675,000 acres to groundnut, 463,000 acres to linseed. Pulses are grown everywhere. The total area under crops amounts to about 35,000 square miles. Oranges are extensively grown in and around AURANGABAD, OSMANABAD, PARBHANI and NIRMAL, mangoes are plentiful, and country and English vegetables are produced during the rainy season. Grapes are grown at DOULATBAD. In Sirpur, Tandur, Mahbubnagar, Warangal, Elgandal and Indur districts large areas of uncultivated land are still available (in Teligana)

MINERALS—The principal minerals found in the State are diamonds, gold and coal. Diamond occurs in the Kurnool series of rocks, gold in the Dharwar series and coal in Barakar series in the Godavari-Pranhita-Gondwana system. Output of coal during 1939 of the Singareni field was 1,214,568 tons. Iron ore occurs in the southern district of the State. Hematite ore has been located on the banks of the Nerbudda but has not been extracted in the absence of coal in the neighbourhood. Barytes, manganese and copper have also been traced.

Cotton weaving is carried on in every taluk (Saris dhotis and khadi). Series of silk are made at NALGONDA, RAICHUR, MAHBUBNAGAR, LINGSUGUR, AURANGABAD, INDUR, ELANGDAL, etc. and some of them are of extra fine quality. AURANGABAD and PAITHAN are noted for embroidery, gold and silver lace work, Khamkhwai (cotton and silk woven together with silver and gold) is obtainable at PAITHAN, AURANGABAD and BIJAPUR are famous for brocades of silver and gold on silk.

Tassar silk is woven at WARANGAL, MATHWADA and HASANPATI, NARAYANPET and KOSGI (Gulbarga Dt). AURANGABAD is noted for silk ware, and bidii ware finely laid and polished with silver and gold are made at BIDAR town. Sword blades and other weapons are made at HYDERABAD, WANPARTI, GADWAL, KALHAPUR, JAGDEOPUR, etc. Daggers, knives and cutlery of good quality are also made.

Attempts have been made both by the Government and the public for the production of useful industries such as starch, chemicals, steel

Those after business will get novel business tips from **START A BUSINESS**. As 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

products, carbon paper, drugs, etc. A number of jointstock companies has been floated during the last year. Among the new cottage industries following may be mentioned Manufacture of clothing and tent fabrics, and table clasp knives. A number of technical centres for turning out skilled labourers has been established.

The manufacturing industry consists of ginning and pressing factories, 272 in number at AURANGABAD and JALAN, MAZALGAON and PARLI in Bidar, RAICHUR and YADGAR in Raichur, LATUR in Osmanabad, also in Warangal, Indur, Parbhani and Nader districts. There are six spinning and weaving mills. Cotton weaving industry receives active support from the State by means of debenture loans and the State is trying to produce good cotton for local consumption and export purposes. The mills are equipped with 1,24,308 spindles and 2,694 looms. Besides, there are a number of tanneries and flour mills in the Dominions. A paint factory has been started. There are State factories for the manufacture of tiles, alcohol, soap, etc.

The chief articles of export from the Hyderabad State are food grains, cotton, linseed, sesamum, groundnuts, castor seed, indigo, oils, timber, cotton cloth, yarn, hides, cattle and coal. The chief imports are mill-made cloth, yarn, raw silk, salt, refined sugar, dried fruits, betelnuts, horses, cattle, silver and gold, copper, brass, iron, timber, mineral oils, and opium.

Trade is principally with Bombay, Madras and the Central Provinces and Berar. Nearly 70 per cent of timber came from the Central Provinces, nearly 80 per cent of Indian-made piecegoods in boxes and bales, come from Bombay.

Cotton is the biggest cash crop and one of the main arteries of the State's economic life. Its price is one of the most important indices of the purchasing power of the masses. The total number of bales exported is 450,000 bales.

The next important commodity under exports is groundnut. The tendency is to export more oil than seeds. There is also a brisk trade in oilcakes. Export of Shahabad stone has been gradually falling off since the last few years, owing to increased use of cement.

The following places are also important commercially, NANDED, HINGOLI, SURAPUR, KOPAL, LATTUR, SERAM, SAHABAD, SADASEOPET, SIDDIPET, KARKHELI, KHANIMAMET and IDLABAD.

There is an extensive horse mart, and fairs are also held at MALGAON and other places. Weekly or monthly cattle and horse fairs are held in every district.

The internal trade much exceeds the external trade of Hyderabad. For purposes of export the products of the country are collected at important centres. The imports from the British territory are brought direct by rail or by carts of pack bullocks in the case of interior districts from such commercial centres as Bansi Sholapur, Ahmednagar, Kurnool, Adoni, Bellary, Bijapur, Jagayyapeta, Bezvada, Bhadrachalam, Rajahmundry and Chandarpur.

The chief channels of trade are the G. I. P. Rly (in W and S), Madras and East Coast Railway in the south and east, and these are connected with the Nizam's Railway, Hyderabad-Godavari Valley railway goes to Nannam from the capital. A comprehensive schemes for the co ordination of rail and road transport is being carried on.

INDORE STATE.

The State occupies an area of 9,902 sq miles and has a population of 13,25,089. Hindi or Hindustani is the language spoken.

Those after business will get novel business tips from START A BUSINESS. As. 5. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Unlimited deposits of slate occur in Kanghetti and Rehti in the Rampura Bhanpura District. Iron ores of high quality are found in the Barwaha region. Limestone exists in abundance in the neighbourhood of iron ore mines. Another rare mineral discovered in the State is barytes which is used in the paint and varnish industry. It is also proposed to start a paper factory utilising the 60,000 tons of grass available in the Barwaha Districts.

The high land tracts of Malwa, with a moderate rainfall of 30 inches a year is the home of all ordinary crops. Sugarcane is now being cultivated on a wide scale and the starting of a sugar factory at MEHIDPUR is under project.

There are 28 towns with a population of 2,92,562 and 3,659 villages with 10,32,527 inhabitants. About 60 per cent of the rural population lives in small villages of less than 500 persons. The chief occupation of the people is agriculture. In the city, the chief industry is cotton.

Textile industry is now the chief industry in the State. There are 7 cotton mills employing 21,000 persons. These are equipped with 6,296 looms and 2,14,724 spindles. Along with the growth of the industry, the number of cotton ginning and pressing factories has gradually increased. With a paid up capital of Rs 15 crores the mills produce annually about Rs 2½ crores worth of cloth which records an expansion double its size in 20 years. They sold 4,35,75,632 lbs of cloth during the year under report. The ginning factories ginned 28,00,916 maunds of cotton, as against 21,36,840 maunds in the previous year. There are 196 flour mills and 40 other small factories such as oil expellers, iron and brass foundries, metal works, etc. Recently a small sugar factory on the open pan system was started as a private concern. The handloom industry of MAHESHWAR is famous. Another important cottage industry is the blanket weaving industry of MANASA. There is also a big hosiery factory employing as many as 180 labourers. A slate factory has been established at PIPLYA in the Rampura District of the State. A sugar factory and a paper factory are under construction. The other industries which are receiving the attention of the Government are the cutlery industry at RAMPURA, calico printing at GAUTAMPURA and handmade paper.

There are possibilities for starting and developing the following industries: Iron, limestone, clays, baryte and green earth.

The Indore Electric Supply is one of the most important State industrial concerns.

INDORE (population 1,46,283)—It is an important commercial centre and is the largest trade emporium in Central India being the chief collecting and distributing centre of Southern Malwa. It is the capital of the Indore State and also the headquarters of the Central India Agency. The City is 374 miles from Bombay and 401 miles from Agra, and Mhow Cantonment lies 13 miles away.

The exports from the town comprise grains, tobacco, opium, pepper, cloth, metal ware and raw cotton. The chief imports are hardware, cloth, stones, machinery, building material, kerosene oil, sugar and raw cotton.

JAFARABAD STATE

JAFARABAD STATE (area 53 sq miles and population 12,092) is situated in the extreme south of Kathiawar. Cows, sheep, goats, horses, camels and asses of Deshi breed are found here.

For full process of manufacture of phenyle, read **DISINFECTANTS & ANTISEPTICS**. Re. 1/12. Industry Book Dept., Shambazar, Calcutta.

Bajra, jowar, sesamum and groundnut are cultivated on a larger scale than cotton and wheat. Besides these, pulse such as mung, math, urid, wal and gram are cultivated. These are monsoon crops. Rabi, jowar and wheat are sown. Vegetables mainly consist of reddish ringana, turia, bhindi, gavar, karela, gajar, dambha and chilli.

The main staple food of the people of this State is bajra and jowar. Wheat is also consumed here which is imported from outside. Rice is consumed here on a comparatively negligible scale.

Lime stone is found here which is utilized in the manufacture of lime. Building stone is also found here. Sticky mud is available in the Jafarabad creek which may be used with advantage in the manufacture of cement.

Fishing industry is carried on from October to January by fishermen who come here from the neighbouring British Indian Ports. The local fishermen carry on their fishing operations to a small extent throughout the year. Sea-water salt is manufactured here. The local weavers make blanket sheets and coarse cotton cloth. Country shoes are made by local shoe-makers mainly for local utility.

The merchants of this place mainly deal in grains, ghee, timber, fire-wood, cloth and other necessaries of life. The trade is carried on on a limited scale and the price of all the commodities depend largely on those prevailing in Bombay markets.

The principal articles of import are cotton-seeds, copra oil cakes, grains, jaggery and kerosene oil and those of export are bajra, ghee, chunam, country stone pieces and dry fish. The exports are to a great extent made by sea in country crafts mainly to Bombay. The imports also especially by sea are partly consumed locally and are partly transported to neighbouring Kathiawar territory. There is no import of foreign goods except sugar and wet-dates and these articles are imported here from British Indian Ports by transshipment.

JAFARABAD is a small port and remains closed during the monsoon. There is no Railway at Jafarabad, but there is a railway station named Rajula City under the Bhavnagar State which is at about a distance of 15 miles from here. There are motorable land routes also for travelling to the neighbouring Kathiawar territory.

JAFARABAD town is the only important trade centre in this State and commodities such as grains, ghee, dried-fish and chunam are exported to Bombay from this centre.

No agricultural, industrial or cattle fairs are held in the State.

JAIPUR STATE.

JAIPUR State (area, 16,681 sq miles population 2,631,775, languages, Hindi and Urdu) is situated in Rajputana. Agricultural conditions vary in different parts of the State and shifting sand is common. The crops grown are bajra, mung, math, etc. Camels are used instead of bullocks in cultivating the land. Jowar, maize, cotton and til are grown round the capital town. Wheat, barley, gram, sugar-cane, poppy and also rice are cultivated in the east.

Woollen cloth and fabrics are woven at MALPURA. Cotton cloth, chintz, marble, saltpetre, enamel work, pottery, brass and lacquer work are also done. There are several cotton presses.

The exports from the State comprise salt, cotton, ghee, oilseeds, printed cloth, woollen fabrics, marble images, brassware and lacquered

For full process of manufacture of phenyle, read DISINFECTANTS & ANTISEPTICS. Re. 1/12 Industry Book Dept., Shambazar, Calcutta.

572 INDUSTRY YEAR BOOK & DIRECTORY, 1943.

bracelets The imports are piecegoods, sugar, rice, tobacco and hardware The trade is chiefly rail borne. From the SHEKHAWATI town the exports are wool, grains, sugar, cloth, spices, tobacco, etc, which are carried by camels

The city of JAIPUR is a fine, large and beautiful city in the whole of Rajputana and has a population of 1,44,179

JODHPUR (MARWAR) STATE.

JODHPUR (area 36,120 sq miles, population 25,55,904, language—Marwari) is the largest Indian State in Rajputana. It is 1,330 miles to the west of Calcutta and 592 miles from Bombay The length of the Jodhpur Railway is 1,125.69 miles

The main crops are bajra, jowar, makh, moong, wheat and gram Sesamum, maize, cotton, barley and mustard seed are also grown Irrigation is mainly from wells, the water being raised in some places by Persian wheels Salt is the principal mineral found in the State at SAMBHAR, PACHPADRA and DIDWANA.

There are no important industries in the State. One cotton-mill (Shri Umaid Cotton-mills) has been started at PALI It is producing nice mill-made Khad: in decent quantity and the export is also satisfactory Hand spinning of cotton and wool and the weaving of coarse cotton cloth as well as woollen cloth, specially blankets, mats and bamboo-basket is carried on in villages The dyeing and printing of cotton and silk cloth in JODHPUR, PIPAR and PALI is famous Brass and iron utensils are made at JODHPUR, PALI and NAGAU, ivory works are found at PALI and MERTA, lacquer works are found at BAGRI and JAITARAN, marble toys are made and quarrying is carried on at MAKRA, and all kinds of white and pink, etc marble pieces connected with buildings decorations and curios are also available, felt rugs are made in MALLANI and MERTA, saddles and bridles are made at SOJAT, tanning is done at BALI, ERINPURA and MAHAMANDIR, NAGAU locks and implements of goldsmiths are famous. Cattle of NAGAU and SANCHORE and horses of MALLANI are famous There is an ice and aerated water factory at JODHPUR Woollen army blankets are being prepared in the Economic Development Department All processes, viz., carding, spinning and weaving are done without the aid of mechanical power Besides, several woollen and cotton presses are working in the districts Jodhpur has large Railway Workshop.

There is a possibility of the following industries to develop in Marwar—Manufacture of soda salts, manufacture of calcium compounds, tanning, pottery works.

The chief exports are salt, cattle hides, bones, wool, cotton, oil seeds, marble, sandstone, millstone, gypsum, lime, limestone, fuller's earth and bentonite for oil refining The State has given afresh the mining lease for mica, beryl and felspar

The chief imports are wheat, barley, maize, gram, rice, sugar, opium, dry fruits, metals, oils, tobacco, timber and piecegoods

Most of the traffic is carried on by rail, 80 per cent of the rest by motor cars, and carts

Fairs.—Ramdeo-ka-mela This cattle fair is held in Nagaur (Railway Station Nagaur, Jodhpur Railway) and the chief cattle brought and sold are bullocks and camels The fair commences on Magh Sudi

OPPORTUNITY BOOKS from INDUSTRY PRESS. Write for recent Catalogue. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

12th and lasts up to Fagun Vadi 5th i.e. for 8 days, but the fair commences 4 days earlier than the official date

Chautri-ka-mela or Tilwara Cattle Fairs —(Tilwara Railway Station, Jodhpur Railway) commences on Chaitvadi 11th and ends on Chait Sudi 10th i.e., 15 days Bullocks, camels, horses and asses are bought and sold

Teja-ji-ka-mela or Parbatsar Cattle Fair —(Parbatsar Railway Station, Jodhpur Railway) commences on Bhadwa Vad 11th and ends on Bhadwa Sud 10th, but the trade actually begins a week earlier. Bullocks, camels, horses, asses and he-buffaloes are generally purchased and sold This is the biggest of all the three fairs

JUNAGADH STATE.

JUNAGADH is situated in the South-Western corner of the Kathiawar peninsula. The State has a population of 6,70,719 of which 5,34,321 are Hindus, 1,27,814 Mahomedans, 282 Christians, 36 Sikhs, 8,073 Jains, 1 Buddhist, 66 Parsis, 14 Jews and 112 Primitive Tribe The total area of the State is 3,337 sq miles The languages spoken are Gujarati and Urdu

Cultivated area is divided into garden land, dry crop land, rice land, and ghed land The agricultural products are cotton, bajra, jowar, sesamum, wheat, rice, sugarcane, grass, timber, stone, castor seed, fish, country tobacco, groundnut, bamboos and onions

The State has some irrigation canals in some Mahals where there are facilities of rivers The State has purchased a tractor which gives fresh facilities to farmers in tilling their land which could not be done so well by ordinary ploughs There are four Agriculturists' Co-operative Societies and one Agricultural Store of which the farmers take good advantage

The State has a big forest known as Gir Forest which covers 494 sq miles The products of the forest are teak, black wood, babul and grass

It has a big area for fruit plantation known as Dudheshwar plantation wherein mainly the mango-trees as well as several other fruit trees are planted There is a big area of land reserved for coconut and sugarcane plantation known as Una Vasoji Plantation There are in the State several quarries of white-stone which is good for building purposes The principal industrial concerns in the State are a match factory, ice factories and a bone crushing mill and a weaving factory The State has a bank of its own

JUNAGADH is famous for its lions, panthers, deer and spotted deer It is also famous for Kathi horses for the breed of which stallions are maintained and placed at centres of several Mahals There is a farm of well-known Gir cows in the State

The State has several routes for Motor Services for passenger traffic and are governed by a transport board

Fairs—Of the various fairs held in the State, Shivratri Fair is the principal one which is held in Junagadh when various kinds of exhibits of garden and forest products are kept for demonstration It is held every year on Mahi Vadi 14

KARAULI STATE.

The State of KARAULI has a population of 1,40,525

The chief Kharif crops are bajra, paddy, jowar, math, moong, urid, til, cotton, sugar-cane, maize, sunn (flax), groundnuts and arhar

OPPORTUNITY BOOKS from INDUSTRY PRESS Write for recent Catalogue. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

The Rabi crops are wheat, barley, gram, zira and sarson. The jungles of the State have not yet been properly surveyed with the exception of one named Sadar Rund, the area of which is reported to be 36,075 bighas

There are no big industries in the State, agriculture is the chief occupation of the people. There is one ginning and two flour mills at the capital and also a power house which supplies electric light to the capital. The chief produce of the country are Indian corn, bajra, jowar, mung, urid, muth, wheat, barley, gram, arhar, ground-nuts, rice, cotton, gur, zira and sunn (flax). The important commodities of export are ghee, zira, rice, chillies, sunn, tatpaties, stone slabs and hides while those of import are cloth, yarn, sugar, indigo tobacco, oil, bries, cigarettes, groceries and articles of general merchandise

The most important indigenous arts and manufactures in the State are —1 Manufacture of Tat-Patties 2 Dyeing and block printing of cloth 3 Lacquer turning and making of wooden toys 4 Manufacture of Kalis for Hukkas (smoking pipes) 5 Moulding of brass and pewter utensils and ornaments 6 Stone carving 7 Weaving of Khadi and other sorts of country cloth

Fairs.—Two big fairs are held in this State (i) Shivratri fair at the capital for 15 days in Falgun (February-March). In this fair about 50 000 cattle are sold and commodities worth lacs of rupees are transacted. Almost all the articles are exempted from Customs duties during this fair. (ii) Kaila Devi fair at the shrine of Kaila Devi 15 miles from the Capital. Lacs of pilgrims flock during the 15 days of Chaitra (March-April) the fair lasts

KASHMIR STATE.

JAMMU and KASHMIR State is in area the largest of the Indian States. Most of the country is mountainous and sparsely populated. The valleys are fertile and well populated

The area of the state is 84 471 sq miles and population at the last census (1941) was 8,042,000. Muslims form 76 % of the population

The population is mainly agricultural. His Highness Government have extended irrigation on a large scale. Co-operative Societies finance agriculture. Special legislation has been passed to relieve agriculturists from the hands of usurious money lenders. The Agricultural Department is responsible for the introduction of new crops and the increase of the quality and outturn of existing ones. The chief crops raised in the state are rice, maize, wheat, bajra, pulses, linseed, sesamum, rape, mustard, cotton, tobacco and hops

The State is rich in minerals the most important being coal, lignite, sapphires, aquamarine, iron, gypsum, limestone, petroleum, natural gas, copper, nickel, zinc, lead and chromium ores. Gold is also met with. Ochres, graphite, bauxite, kaolin, bentonite, serpentine, marble and slate are found in large quantities

The State forests are extensive and form 52 per cent of the total area of the provinces of Jammu and Kashmir and 11.8 per cent of the total area of the State. The State contains by far the most important and extensive forests under conifers in India, and supplies the bulk of conifer timber in Northern India from the two important Timber Depots which it maintains at Wazirabad and Jhelum in the Punjab. Large quantities of fibres, resins, grasses, oil seeds, dyes, gums, bamboos, drugs and spices are found, they are not only an important source of revenue but also a great national asset in as much as they

Utilise your waste products by reading **UTILISATION OF COMMON PRODUCTS. INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

supply valuable raw materials for the various industries connected with the building of houses, furniture, sports, wood pulp, paper, tanning, matches, resin, turpentine, lac, drugs and spices Kuth and artemesia are exported in considerable quantities

LIVE STOCK—The total live stock population of the State is 57,57,722 of which the cattle number 18,00,295 For the improvement of the stock of cattle Government have recently sanctioned a scheme under which Dhanni and Sindhi bulls are purchased and distributed on premium in various cattle breeding centres in the State Two cattle breeding farms, one each in the provinces of Jammu and Kashmir are being opened

The total number of sheep and goats is 28,38,278 Sheep keeping is a valuable subsidiary industry for the farmer

The best kind of wool found in the State is called Pashmina which is sheared from the pashmina goats limited to BANSKAR (Tehsil Kar-gil) The total number of these goats is estimated at over 70,000

CATTLE SHOWS—The Civil Veterinary Department of His Highness Government holds a number of livestock shows at different places in the State with a view to encouraging the improved breeds of animals In the year 1939-40 six shows were held, 3 in Jammu Province and 3 in Kashmir Province The number of animals admitted in these shows in Jammu province was 4301 and that of these admitted in Kashmir province 2630 The owners of selected animals were awarded prizes of Rs 3000

EXHIBITION—A permanent site has been provided by Government for the industrial and agricultural exhibition, which is held every year at SRINAGAR in the month of September Indigenous raw products, such as agricultural products consisting of articles of food, timber of different qualities and kinds, minor forest products, minerals and specimens from fisheries are exhibited

TRANSPORT—A considerable portion of the Jhelum in Kashmir valley is navigable and goods are transported from place to place by water In the Jammu province, which is hilly, the rivers are not navigable The Jhelum valley and the Banihal cart roads connecting Srinagar with Jammu and Rawalpindi are the two chief lines of communication with the outer world Each of them is about 200 miles in length In other places accessible to lorry traffic, the older and slower means of transport such as carts and tongas are gradually disappearing The interior is being linked up with the cities by motorable roads Pack animals play a very large part as means of conveyance in the more distant mountainous districts

INDUSTRIES—The large-scale industrial establishments in the State employ about 6,500 persons The industries covered by these establishments are Carpet manufacture, woodwork and sports works, printing works, manufacture of woollens, tapestry and embroidery silk weaving and raw silk reeling, manufacture of other kinds of textiles: match manufacture, manufacture of indianite, manufacture of pharmaceuticals, leather work, brass and other metal work, oil extraction and oil mills, manufacture of rosin and turpentine, rice mills, namda manufacture, and preparation of half-wroughts

In addition to these, there are a large number of small-scale and cottage industries, including handloom and power-loom weaving in silks, cottons, wools and mixtures gabbas, silver ware, soap and other toilet articles, boot polishes writing inks, brass and metal ware pottery, disinfectants, articles of stationery, bee-keeping, tanning, paper

Utilise your waste products by reading **UTILISATION OF COMMON PRODUCTS INDUSTRY BOOK DEPT., Shambazar, Calcutta.**

making, wicker work, nib-making, pen-holder-making and papier mache

Support to Industries—The Government has set up pioneer concerns with a view to utilising within the State the locally available raw materials or for giving a lead to the local industry. It has set up a cricket bat manufacturing factory, in which willow, produced in abundance in Kashmir, is mainly consumed. The silk-weaving factory, which is in addition to the Government Silk Factory, consumes the high quality yarn produced by the latter from the univoltine species of cocoons in the State. The silk filature of the Government Factory in Srinagar is the largest of its kind in the world. A special quality of raw silk which has been produced can favourably compare with silk produced anywhere else. The rearing of cocoons for silk provides employment for thousands of homes in the villages, exclusive of the labour that finds employment in the factories themselves. The Forest Department has certain large scale works for the utilisation of its major forest products.

Under the State Aid to Industries Act, lakhs of rupees have been paid to firms and individuals in the form of loans to foster the industries started by them. During the last ten years, Rs 2 lakhs have been paid by way of subsidies to the carpet factories in the State, both in the interests of labour and as an aid to this ancient industry. A big drug factory is being started.

A sheep breeding and Research Farm has also been started to improve local breed and wool. A drug factory, a sugar mill and a card board manufacturing factory are to be started soon. A Cottage Tannery School has also been started by the Government. Two bee-keeping centres have been started to train local people in the improved methods of the production of honey.

TRADE—The external trade of the state is steadily rising. Last year it amounted to 70,76,113 maunds valued at Rs 4,36,56,523. The exports were 42,79,207 maunds valued at Rs 1,91,54,840 and the imports were 27,96,906 maunds valued at Rs 2,65,01,683 in 1938-39. Among the chief articles of import are cotton manufactures, tea, grain and pulses, sugar, metals and manufactures of metals, wool and woollens and silk piecegoods. Wood and timber, raw silk and cocoons, fruits and vegetables, woollen piecegoods, hides and skins figure prominently among the exports.

The main trade routes are Srinagar to Jammu and Sialkot, Srinagar to Rawalpindi and Srinagar to Tibet and Central Asia via Leh.

KATHIAWAR STATE.

KATHIAWAR is a peninsula and is properly the western portion of the province of Gujrat. The extreme length of Kathiawar is about 200 miles and its area is about 24,000 sq miles. The State has a population of more than 27 lakhs.

The peninsula is mainly wooded. The mangrove grows on the shores and its wood is used as a fuel. Coconut trees grow rapidly along the shores and the wild date is commonly met with. Excellent mangoes are grown at MAHURO.

The peninsula abounds in minerals of different varieties and is particularly rich in building stones. The principal metallic ore found here is iron. Pearls of good quality but inferior in lustre are found here in the Gulf of Cutch.

Cotton exported from the ports of Kathiawar amounts to about one-sixth of the whole of Bombay's exports to foreign countries and large

You can Manufacture Writing Ink & Sell It. Read MANUFACTURE OF INK. Re. 1/ 12. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

imports of bullion and grain are received by Kathiawar as a part of the price of her cotton. Besides these, cotton cloth, sugar and molasses are largely imported. Wool is also largely exported from this place.

There are a few weaving mills and steam presses for treating the main products of the peninsula, namely cotton and wool. Kathiawar crafts are gold and silver thread making, weaving of silk and brocades, etc. Making of fragrant red powders, fragrant oils, perfumed sticks, and powders of rose and other essences form the occupation. Ivory work and carving of sandalwood are practised in different districts.

The Kathiawar State has lately developed as a centre of sea-borne trade. The preferential duties at the ports of the State have deflected trade from Bombay and Karachi. These are sought to be removed shortly on the ground of undue competition. The total imports into these States during 1939-40 formed only 3.6 per cent of the imports in the same year into British Indian ports as compared with 3.2 per cent in the preceding year, while the proportion of exports was 2.3 per cent as against 3.3 per cent in 1938-39.

Imports.

The following table gives the share of each of the different States in the imports into Kathiawar during the last five years —

Name of State	1936-37	1937-38	1938-39	1939-40	1940-41
	(in 1,000 rupees)				
Baroda	27.75	55.56	60.74	95.19	76.43
Bhavnagar	83.87	65.80	50.95	57.17	30.05

TOTAL	2,53.46	3,24.45	3,47.66	4,85.23	2,46.90

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/12. INDUSTRY BOOK DEPT., Shamhazar, Calcutta.

Exports.

In 1940-41, the total exports aggregated in value Rs 1,76 lakhs as against Rs 3,08 lakhs in 1939-40. The principal articles exported were as usual raw wool, seeds, raw cotton, groundnut cake, ghee and ground nut oil which together represent 71 per cent of the total export during the year.

The following table shows the respective share of each of the different States in the export trade over the last three years —

Name of State	1936-37	1937-38	1938-39	1939-40	1940 41
	(in 1,000 rupees)				
Baroda	93	88	4,56	11,46	23 42

KOTAH STATE.

KOTAH STATE (area 5,684 sq. miles, population 7,77,398) is bounded on the north by Jaipur and Tonk, south by Raigarh, Khilchpur, Indore, east by Gwalior and Tonk and west by Gwalior, Jhalawar and Bundi States.

Crops Areas sown under crops in acres during 1940-41 Wheat 239,037, jowar 343,710, maize 47,409, gram 131,292, linseed 71,249, sesamum 59 014, condiments 24,663, cotton 14,074, fodder 77,582.

INDUSTRIES—Oil pressing, match making, cotton ginning are the chief industries. Paper is made by hand. Floor stone polishing is also conducted. There are a number of printing presses. Stone quarries occur in the state.

MINERALS—The chief minerals found in the state are—Iron ore, Bauxite, Lime stone (carbonate of lime), Calcite (crystallized carbonate of lime), Magnesium lime stone, Fire clay, China clay or kaolin, Quartz Sand (silica), Agate, Jasper, Red oxide of Iron, Red ochre, Brown Haematite-Limonite, nice quality of Slab stone of white, brown and red colour, flooring stones of various qualities.

IMPORTS and EXPORTS—Imports during 1939-40 consisted of silver (2 37,240 tolas), piecegoods (Rs 13,71,150), bisati (Rs 418,020), metal (Rs 1,16,125), gur (20,399 mds), sugar (37,979 mds), iron (9,434 mds), rice (10,351 mds), kerosene (61,239 boxes). Exports consisted of food grains (11,36,494 mds), oil seeds (1,52,610 mds), kirana (138,289 mds), hides (44,034 mds), oil (26,289 mds), cotton (8,162 mds).

Prepare ghee, butter, casein, condensed milk, etc. at home. MILK & MILK PRODUCTS explains the way. Re 1/12 Industry Book Dept., Calcutta.

MARKET—Chief centres of trade are KOTAH, BERAN and RAMGANJ

Fairs—Religious fairs are held at Kotah during Desserah and at Beran during Dole festival Cattle fairs are Manohar thana, Sitabari, Rameshwar, Asnawar, Sanged, Suket Kartek, Suket Baisakhi

The State is well served by B B & C I and G I P Rlys Motor lorries, tonges, bullock carts are the other means of transport

LIMBDI STATE.

LIMBDI STATE (area 343 sq miles, population 44,003)—The local agricultural products are cotton and grains which are extensively cultivated Wheat is certified to be of the best quality by the Agricultural Marketing Officer Coarse cloth is manufactured here to a small extent Matches are manufactured for local consumption Ice factory has also been recently opened here There are three flour mills, a ginning and pressing factory, a cast-iron factory, type foundry, four soap factories LIMBDI is noted for its snuff manufacture

The chief town, LIMBDI, is 14 miles south-west of Wadhwan. The State is connected with the Bhavnagar railway.

MANIPUR STATE.

MANIPUR STATE (area 8,638 sq miles, population 4,45,606) lies between Assam and Burma

The chief agricultural products grown are rice, mustard, sugarcane, pulses, tobacco fruits and vegetables Pottery, agricultural belts, leather goods, etc., are manufactured Manipur State Arts and Crafts, run and financed by the State, manufacture dress, furnishing materials, beside other novelties It is also a teaching institution

The area under rice was (1,85,213 acres), and under other crops was 46,129 bighas (15,244 acres) During 1937-38, 352,175 maunds of rice and 198,559 maunds of chura were exported as against 261,117 maunds and 153,956 maunds respectively in the previous year.

The staple crops in the Hills are rice, millet, job's tears and maize. Cotton and linseed are produced mainly in the hills near the valley where the hillmen can usually find a ready market In the South West area, particularly SENVON and PARBUNG they can get their cotton and linseed exchanged with salt, thread and other articles from men from Cachar

Maize is source of some profit in the east Betel leaf is cultivated in the West by the Kabuls and sold in Cachar and Manipur Potatoes are grown round about UKHURUL but only for local consumption

The potatoes grown in MAO are exported to Assam Oranges are grown in the West During 1937-38 no tea seed was exported

MAYURBHANJ STATE.

MAYURBHANJ ranks first in point of population among the States of the Eastern States Agency The area of the State is 4,243 square miles and population according to Census of 1941 is 9,90,997

Crops—Agricultural statistics for the year ending June 30, 1942 show that the total cultivated area in the State was 11,30,552 acres The following statement gives the acreage under important crops—Maize 8,559 acres Til 3,161 acres, Sugarcane 3,005 acres, Cotton 1,400 acres, Paddy 7,55,729 acres and mustard 3,890 acres

Forest—The Forest Wealth of the State is enormous Besides Sal for which Mayurbhanj is famous throughout India, large quantities of other first class timbers useful for cabinet making and high class furniture like Sisoo, (Rose wood), Piasal, Gamari, Champs—which

Prepare ghee, butter, casein, condensed milk, etc. at home **MILK & MILK PRODUCTS** explains the way. Re. 1/12. Industry Book Dept., Calcutta.

States Kannada is the principal language though the other sister Dravidian languages are also current.

Ragi is the principal crop of the State, and occupies 2.2 million acres. Horse-gram occupies the next place with 750,000 acres, closely followed by paddy. Chief grains cultivated in the State are jowar, rice, gram, pulses, castor, groundnut, condiments and spices, bajra, sesamum, sugarcane, tea, drugs, etc. Cotton and sunn-hemp are the chief fibres and chilli, capsicum, ginger, coriander, cumin seeds are the spices. Tobacco, mustard, cotton and garlic are also grown. Coffee is grown on the slopes of the Western Ghat. Fruit and vegetable productions receive special attention near about BANGALORE. Apples, straw-berries, peas, potatoes, cauliflowers, mango, arecanut, coconut (163,000 acres), and plantain are grown. Arecanuts of NAGAR are famous. There is a horticultural garden at LALBAQH and at BANGALORE and there is an exotic fruit garden at NANDIDROOG. Very little cultivation is carried on in the Mysore Hills other than rice, coffee, cardamoms, arecanut and betel leaf where rainfall is heavy.

Forests:—The reserved forests of Mysore produce sandal-wood, teak, poon, blackwood, lac or jalar, nandi, wild jack, etc. Minor forest products are gallnuts, tannin bark, tangadi, and lac. Soapnuts, gum, honey, beeswax are also obtainable. Elephants are employed for dragging timber from inaccessible parts of the forests. Fuels are also obtained from these forests.

Textile Industry:—The textile industry is a very old and established industry in the Mysore State. It is carried on both on a factory scale as well as on a cottage industry basis. There are at present nine cotton mills, representing a total capital investment of about a crore of rupees (authorised) and affording employment to about 9,800 persons. These mills have in all 349,147 spindles and 2,574 power looms. The total annual output of finished goods in these mills is estimated at 12,816,000 lbs in 1939-40. There are 50 smaller power loom factories employing more than 10 persons each. The major portion of the cotton produced as well as imported into the State is consumed by the cotton mills in the State. The average annual consumption of cotton in these mills is about 73,250 bales of 3½ cwt.

Sericulture:—Sericulture is the largest and most important cottage industry in the State, affords occupation to about one million people. Silk produced in Mysore has acquired a wide reputation for its high tensile strength, lustre and capacity to take fast dyes. The total annual production of raw silk is about 10,00,000 lbs. which is a little more than half of the total production of silk in India. It is proposed to put up 1,410 new basins capable of producing annually 423,000 lbs of reeled silk.

There are at present 72 silk throwing factories in the State having about 12,000 spindles. The quantity of silk dealt with by these factories every year is estimated at 175,000 lbs. and out of this total quantity, 75 per cent is reported to be foreign silk, the remaining 25 per cent being of the indigenous variety. The locally thrown silk is not only being utilised by the handloom weavers of BANGALORE City and DODBALLAPUR within the State in the production of finished goods, but is also exported to Salem, Dharmavaram, Belgaum, and a few handloom weaving centres in Northern India.

The Government Silk Factory manufactures high grade silk fabrics which compare favourably with improved goods. The georgettes and crepe de chin are also manufactured in this factory.

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils." Re. 1/12. Industry Book Dept., 22, R. G. Kar Road, Cal.

Woollen Industry.—The woollen industry in Mysore has been of age-long importance. There are now four woollen mills in the State, with a total authorised capital of about Rs 60 lakhs. These mills have 8,463 spindles and 322 looms, and employ daily, on an average, 1,271 persons. The total quantity of goods produced by these mills during 1939-40 amounted to 1,355,548 lbs valued at Rs 11,99,943. The main products of these mills are rugs and blankets, carpets and druggets.

Half a dozen concerns specialise in the manufacture of druggets and carpets, which find a ready market all over India, Calcutta and the Punjab being the most important markets in Northern India. Some of those goods, particularly pile carpets and druggets, find their way to Burma and even to other foreign markets like the U S A and the United Kingdom. It is estimated that about 100,000 square yards of druggets valued at Rs 3,00,000 are exported annually from Mysore. The total capital invested in the carpet industry in the State is estimated at Rs 2½ lakhs.

Supplies of wool are received from KOLAR, CHITALDRUG and some portions of the KADUR District. The annual production of wool in the State works out to about 2,800,000 lbs which is chiefly consumed by the mills and handloom weavers.

Iron Industry.—The Mysore Iron and Steel Works is by far the biggest industrial venture of the State. The plant at Bhadiavati occupies an area of about 100 acres and comprises of a charcoal blast furnace, wood distillation and bye-products recovery plant, pipe foundry, open hearth steel furnace, rolling mills, general foundry, machine shop and reserve steam power unit. Charcoal pig iron of exceptional quality is manufactured in several grades and it has gained a good reputation in India and abroad. Pig iron produced in the factory in 1939-40 amounted to 29,660 tons and steel ingots, etc to 55,086 tons. The works have spent Rs 5 lakhs on labour welfare schemes. The operations in 1941-42 result in a net profit of Rs 12.20 lakhs.

Handicrafts.—Principal places of iron smelting are MAGADI, MALAVALLI, CHIKNAYANHALLI, HEGGADADEVANKOT, ARSIKERE and TALURKAS in Chitaldroog district. Steel wire is drawn at CHAUNAPATNA. Brass and copper vessels are made at SRAVANA BELGOLA and SITAKAL, bell-metal articles are made at HASSAN and TUMKUR district, SORAB in Shimoga district is famous for ornamental sandal wood carving.

Furniture and toy making have been long in existence in the State. The carpets of BANGALORE are well-known. Gold (circular or of other shapes) and silver ornaments are made.

Good silk fabrics are made at Patvegars and Khattars in Bangalore CLOSEPET, KANKANHALLI, MAGADI, CHIKBALLAPUR, TIRUMAKUDAR-NARSIPUR and BANGALORE are the centres of silk trade.

Other handicrafts include hand weaving and spinning. There are about 30,000 handlooms weavers (each having one loom on an average) engaged in producing cotton, woollen and silk goods in the State. Lacquer manufacture is an old industry employing about 1,000 hands. Improvement in quantity and quality has lately occurred due to introduction of new and improved tools and new designs.

Minerals.—Mysore is rich in minerals. The four gold mining companies on the Kolar Gold Fields produced 314,501 oz of gold valued at £2,437,395 during 1939-40. A gold mine is said to exist near NANGAIRGUD. The output of silver during 1939-40 was 22,746 oz, chromite was obtained to the extent of 36,891 tons, kaolin 3,226 tons, manganese 4,853 tons, copper 226 tons, mica 876 tons, ochres 70 tons, slate-

Make your own Essences & Hair Oils, read "Indian Perfumes, Essences & Hair Oils" Rc 1/12. Industry Book Dept. 22, R. G. Kar Road, Cal.

stone 95 tons, soapstone 695 tons, quartz 92 tons, ornamental stone 6,010 c ft. Chromite has also been traced near DEVANUR in the Kadur Taluk. Galena and antimony ores occur near CHITALDRUG, kaolin near KOLAR and graphite in the BOWRINGPET taluk. Iron ore is obtained in abundance near the KEMMANGUNDI Hills and forms the chief raw material of Mysore Iron Works at BHADRAVATI.

Trade—The chief exports from Mysore are gold, grains and pulses, betel leaf, arecanut, raw silk, sugar, jaggery, coffee, coconuts (dried kernels). The important imports are grains and pulses, iron and steel articles, raw silk, piecegoods, tobacco, cotton and thread. The State has many internal markets where weekly purchases are made and foreign articles are sold.

Government Factories—The Government Soap Factory has put on the market besides soap other toilet preparations of excellent quality like brillantine, vanishing cream, tooth paste, etc. The Government Sandal Wood Factory continues to produce sandal wood oil of superior quality. The Government Porcelain Factory specialises in the manufacture of insulators and fancy porcelain articles are also being manufactured. The goods of the factory find a market all over India. The Government Lac Factory under the control of the Industrial and Testing Laboratory has been specialising in the manufacture of sealing wax, lac varnishes, etc. This Lac Factory has recently been merged in the Paints and Varnishes Factory recently started by Government in the Mysore City. The Government Electric Factory with the growing demand for electrical goods in the State has been engaged in the manufacture of electrical transformers, bakelite articles, manufacture of small machine tools, etc. Latest of the Government enterprises is the starting of the Mysore Implements Factory for the manufacture of agricultural implements and edge tools at a cost of about Rs 2 lakhs at HASSAN.

Apart from the above, several other large industrial concerns have been started with the aid of the Government by way of financial help and other concessions. Of these the important ones are the Mysore Sugar Co. Ltd., The Mysore Tobacco Co., Ltd., The Mysore Paper Mills, Ltd., The Mysore Spun Silk Mills, Ltd., The Mysore Stoneware Pipes and Potteries Ltd., The Mysore Lamp Works, Ltd., The Mysore Chemicals and Fertilisers, Ltd., The Mysore Vegetable Oil Products Co., Ltd., The Mysore Coffee Curing Works, Ltd., and the Mysore Glass and Enamel Works Ltd. The financial aid to these has in most cases taken the form of subscription to the share capital of the Company.

SIVASAMUDRAM—This is 30 miles by road from Maddur, a Railway Station on the Bangalore-Mysore Railway. It is the site of the famous Cauvery falls and the Hydro-Electric works of Mysore.

MYSORE CITY is 89 miles from Bangalore by road and 86 miles by rail. It is the capital of the State.

Cotton cloth, blankets, brass utensils, earthenware, and jaggery (both cane and date) are the principal manufactures. There is also some silk weaving works. The sandal wood oil of Mysore has gained an international reputation and Mysore is famous for its ornamental sandal wood carving.

Grain is diverted to the West Coast, Nilgiris and Coimbatore. There is also a considerable trade with Bangalore and Madras.

BANGALORE the seat of the Government of Mysore, is an ideal holiday resort. Coffee is peeled, sized and sorted in a coffee work at Bangalore in order to prepare the stuff for the European market. Arti

New Careers Await You ! Read MECHANICAL INDUSTRIES, Re. 1/12 INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

ficial manures for coffee plantation is also produced at the factory. Other factories working in Bangalore are sugar factory, brick and tile factory, iron foundry, silk farm, etc. Oil mills are also at work in Bangalore. Tanneries on a considerable scale are managed by Mahomedans and hides and skins are prepared for export purpose. There are also cotton and woollen mills which spin and weave cotton and wool and produce fine stuff.

The carpets of Bangalore are well-known for their durable quality, and for having the same pattern on both sides. It is said that Bangalore carpets are unapproachable by the commercial carpets of any time and place. Silk fabrics of stout texture and excellent design are made in Bangalore where sericulture is conducted on a large scale. Indeed, Bangalore is the centre of the silk trade in the south of India.

An industrial exhibition on a large scale is held every year during the Dassara Season (October) in MYSORE CITY.

War Efforts—Mysore supplies cotton, ammonia and acetate for explosives, iron and steel for armaments, silk for aeroplanes, carbonised coconut shells for gas masks, timber for military camps, and a variety of articles for Army clothing and equipment. Field service medical articles, pharmaceuticals, instruments are also being supplied.

NABHA STATE.

The NABHA State forms an important State under the Punjab States Agency. Its area is 963 sq miles, population 3,40,044. Punjabi is the language spoken.

The chief crops grown in NABHA are gram, wheat, pulses, bajra, bailey, sugarcane and cotton. Stone is quarried in some of the hills in Bawal, as also kankar and saltpetre. The chief industries are the manufacture of silver and gold ornaments and brass utensils for local need. Lace, cotton, carpets and fabrics are among the other manufactures. Cotton presses, ginning factories and oil mills have been established.

The State is well provided with railways and roads.

NAWANAGAR STATE.

NAWANAGAR STATE (area 3,791 sq miles, population, 504,006) lies on the southern shore of the Gulf of Cutch.

The principal products are grain, cotton, wheat and grain. Wheat is produced here without irrigation. There is a good trade in these crops both inside and outside the State. Marble of different qualities is found in the Kandorana and Bhanwai taluks and there is a growing trade in isinglass and shagreen. The fisheries along the coast are important. Cloth and silk are the chief manufactures. Dyeing is an important occupation.

The State has 32 ports, large and small, the principal among these being JODIYA, SALAYA, ROZI and the famous BEDI PORT. In times of yore, JODIYA and SALAYA were the principal gateways for extensive trade of the whole of Kathiawar, JODIYA being particularly famous for its exports of wool to Europe. A long line of sheltered sea-coast imparts to the Nawanagar State ports the unique advantage of being "all-the-year-round" ports while their comparative proximity to the consuming centres in the interior accounts for the popularity of one or another of Nawanagar State ports among importers and exporters during different periods of history.

JAMNAGAR CITY, the capital of the State, is 51 miles by railway from Rajkot.

New Careers Await You! Read MECHANICAL INDUSTRIES, Pt 1/12 INDUSTRY BOOK DEPT., 22, R. G. Bar Road, Shambazar, Calcutta.

BEDI PORT is located on the Gulf of Cutch and at a distance of about four miles from Jamnagar, the capital of Nawanagar State. Small steamers upto about 1000 tons discharge direct on to the Bundar.

The principal articles imported via Bedi Bunder are kerosene, petrol, rice, timber, sugar, liquors, matches, metals, China clay, stationery, hosiery, cutlery, electrical accessories, coconut oil, perfumery, cigarettes, raw cotton and silk piecegoods, cycles, motor cars and accessories, glassware, etc. Exports include cotton and cotton waste, wool, cereals, oil cakes, oil seeds, hides, skins, etc.

Imports and exports in the State are as follows —

	1938-39	1939-40 (in 1,000 rupees)	1940-41
Imports	93,84	1,21,64	35,43
Exports	1,44,27	89,12	15,86

PALITANA STATE.

PALITANA STATE has a population of 76,432 souls and an area of 288 sq miles. The principal crops of the State consist of grains, sugarcane and cotton in which the State has a large and booming trade. The State is celebrated for its Jain temples on the Shetrunjaya Hill, where the Jains perform at least one pilgrimage during his life time. The chief town is **PALITANA**, a station on the Bhavnagar State Rly. The State is also noted for its breed of Kathi horses which are particularly beautiful. The State possesses one of the oldest studs in India. Harmonium reeds are manufactured and are greatly in demand from all parts of India, Burma and Ceylon.

PATIALA STATE.

PATIALA is the biggest State in the Punjab. Its total area is 5,929 sq miles or 37,94,685 acres. The population of the State according to the census of 1941 was 19,36,257 souls. Language spoken by the inhabitants is mostly Punjabi.

The State contains about 14 important towns and 3,608 villages, distributed into 6 districts, each under a Nazim (Deputy Commissioner).

Out of 37,94,685 acres of land, area cropped during the year 1941-42 was 23,93,945 acres, under forest 63,081 acres, under culturable waste 5,41,038 acres, fallow 5,36,125 acres. The most important crops are wheat (4,23,084 acres), sugar-cane (22,565 acres), cotton (2,40,971 acres), gram (4,23,718 acres), maize (1,09,341 acres), barley (91,666 acres), jowar (59,002 acres), fodder crops (4,00,789 acres), fruits and vegetables (15,729 acres), oil seeds (93,835 acres).

Submountainous tracts like **SIRHIND**, **PATIALA**, **RAJPURA**, and **PINJOUR** are famous for the production of good citrus and mango fruits, **NARWANA**, **MANSA** and **BHATINDA** ilaqs are known for good breeds of cattle and are also ghee-producing centres.

Important means of transport are — Rail (Rajpura-Bhatinda line, Sirhind-Ropar line, Ambala-Ludhiana main line, Bhatinda-Delhi line and Ludhiana-Jakkhal line), (i) Carts, (ii) Canals, (iv) Asses, (v) Lorries, (vi) Tongas and (vii) Camels.

Important trade centres are — 1 Patiala, 2 Bhatinda, 3 Narnaul, 4 Bassi, 5 Barnala, 6 Mansa, 7 Narwana, 8 Sirhind, 9 Dhuri, 10 Samana, 11 Sunam and 12 Doraha.

The chief imports consist of wheat (600,000 mds), gram (555,000 mds), potatoes (70,000 mds), rice (175,000 acres), rape seed (105,771 acres), raw tobacco (44,600 acres), sugar (335,722 acres), gur (385,051 mds). The chief exports consist of wheat (2,100,000 mds), gram (2,291,895 mds), maize (40,892 mds), barley (306,600 mds), rice

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUTNEYS & MORABBAS explains the process. Industry Book Dept., Cal.

(43,830 mds), rape seed (94,110 mds), sugar (127,125 mds), gur (240,877 mds)

Fairs —An Industrial Exhibition is held at Patiala every year, generally in the beginning of March. Cattle fairs are held all over the state where brisk business is done by the public

PORBANDAR STATE.

PORBANDAR is a Maritime state in Kathiawar of growing importance and covers an area of about 642½ square miles and has a population of about 1,50,000 Language is Gujarati

The principal crops of the State are jowar, wheat, bajra, til-seeds and cotton and an increasing trade is carried in these productions The principal supply from the sea is fish of many kinds including oysters, pomphrets which are largely found here Lastly the principal production is ghee which is exported in large quantities to Bombay and African ports PORBANDAR is a ghee grading and packing station with a well equipped laboratory, which is authorised to apply AGMARK

A kind of limestone known as Porbandar stone is found here in abundance from the Adityana Quarries and exported in large quantities by rail and sea Woollen blankets known as "Dhabri" of very good quality is manufactured here by local home industries Large quantities of timber are imported here from Burma Malabar and Gujrat ports by sea The exports of agricultural products from the State and beyond go to Continental Ports in large quantities

The principal industrial concerns are the Associated Cement Cos., Ltd, the Maharana Mills, Ltd (Spinning and Weaving Mills), Nadir Salt Works, the Natwarsinhji Match Works and the Natwarsinhji Hosiery Works Their products, viz cement, cotton and artificial silk piecegoods salt matches and hosiery are exported in large quantities to Indian as well as foreign ports There has been a thriving shipbuilding industry in the State Craft built in Porbandar make their voyages all over Indian coast as well as to Aden and Persian Gulf Ports and to Africa

Mention may also be made of Porbandar's silver works, the Natwarsinhji Oil Mill, tin box manufacturing factory and cottage industries The former performs exquisite engine turning on precious metals There are also four ginning factories and two baling presses in the State

PORBANDAR is the chief port and town in the State and is well known as "SUDAMAPURI" Porbandar is known as the "White City" of Kathiawar on account of magnificent white buildings built with stone The Port is well provided with all the modern handling equipments and warehousing accommodation Calls of ocean-going liners included ships of Clan Line, Hansa Line, Anchor Line, Holland and British India Line, British India Steam Navigation Co, Moghul Line, Asiatic Steam Navigation Co, and Scindia Steam Navigation Co But these sailings have become uncertain since the outbreak of War owing to international situation The principal foreign imports are sugar, piecegoods, dates, chemicals, petrol, kerosene, iron and steel, African cotton, art silk yarn, old newspapers, coconut oil, rice, timber, wines and spirits, motor cars and accessories, groceries and other miscellaneous general cargo

The principal commodities of exports are ghee, groundnuts, oil cakes, cotton, stone, lime, salt, cement, and several other minor commodities

Imports and exports in the State are as follows —

Manufacture Pickles & Chutneys at Home. INDIAN PICKLES, CHUTNEYS & MORABBAS explains the process. Industry Book Dept, Cal.

	1938-39	1939-40 (in 1,000 rupees)	1940-41
Imports	27,94	33,91	29,43
Exports	52,53	25,50	19,96

The State has a Railway System covering 41.25 miles. There is a State Bank and also a branch of the Imperial Bank of India at Porbandar.

PUDUKKOTTAI STATE.

The State of PUDUKKOTTAI is divided into 3 taluks, Alangudy, Kolattur and Tirumayam and the area is 1,179 square miles. There are 436 towns and villages. The chief towns are PUDUKKOTTAI, PONNAMARAVATHY, VARPET, RAMCHANDRAPURAM, ARIMALAM, TIRUMAYAM, ALANGUDY, KARAMBAKKUDY, KEERANUR and PILLAMANGALAM, ALAGAPURI. The population of the State is 4,38,348. The area under occupation is 463,312 acres.

The town is being slowly fitted up with modern industrial appliances. Granite and laterite are largely used as building material. The vegetable produces are not of any commercial use except avari (cassia auriculata) and nux vomica.

There is no well defined breed of cattle which the State can call its own. Breeding bulls of Scinde and Kangayam breeds and a Delhi buffalo bull are maintained for stud purposes in the Town Agricultural Farm.

Jack, mango, tamarind, wood apple, cashewnut, portia casuarina and citrus trees also are cultivated in favourable centres. Cultivation of milling variety of canes has been introduced and extended.

Next to agriculture, weaving is the most important industry carried on in the town, TIRUVAPPUR, KARAMBAKKUDY and PARAMBUR. Wool spinning and weaving is carried on, on a small scale in SELLUGUDI, MELUR, VAITIKOIL and KALLUKARANPATTI. Baskets, winnows and fans, are made from palmyra fibre and leaves as well as from country dates and forest twigs, in PERAIYUR, MIRATTUNILAI and a few other villages. Coconut leaves are plaited and used as thatching material and screens. Chetty women excel in making pretty little baskets from the strips of palmyra leaf. Different patterns and sizes are made. Brushes of all kinds are now prepared and sold locally.

Soap manufacture is becoming prominent in the town and two factories are engaged in the preparation of washing and toilet soaps. Many people make ropes from fibrous plants like aloe, marul, palmyra, Deccan hemp (Pulholchaj), coconuts and also from Erukkam. Brass and bell metal vessels are prepared in ALAGAPURI, ALAVAYAL, KOPPANAPATTI, VALAYAPATTI and KULIPIRAI. There is a match factory in the PUDUKKOTTAI town. It makes three grades of safety matches and the products are sold in and outside the State. Flooring tiles and bricks are manufactured in ELLAIPATTI, MUTHUODAYANPATTI and KOSALAKUDI and town (Adappanvayal) brick kilns. Pottery is also carried on to meet the local needs by Kosavars in KOSALAKUDI, MALAYUR, VARAPPUR, TIRUVENGAVASAL and SEVALUR. Multi-coloured flooring and ceiling tiles, bricks, drainage pipes, balustrades, posts, slabs, ovens, flower vases, etc. are made of cement in some factories in the town. Numerous power driven mills are run in the town and all over the State for husking and polishing rice. There are also 3 flour and condiment mills and power driven plants for powdering coffee. Besides, groundnut decorticators have also been installed in ALANGUDI and other places where groundnut is largely grown. Hides are purchased locally and tanned in the town and

Learn the modern methods of Cotton Dyeing from COTTON DYEING & PRINTING. Re. '1/12. Industry Book Dept., Shambazar, Calcutta.

KIRANUR tanneries on a small scale Manufacture of palm jaggery and sugarcane jaggery is being tried in four villages and the results have to be watched Cane crushers and boilers have been used in RAYAVARA, KOLLAGUDI, SATTANUR and KILLANUR for manufacturing jaggery

The chief articles of export are granite slabs and posts, grinding stones, mortars and pestles, fuel (casuarina and country wood), jack fruit, mangoes, groundnut, yams avarai barks, acacia bark and nux vomica seeds

The chief articles of import are salt, paddy, straw, hardware, tobacco, betel leaf and arecanuts plantain, fruit, sugar and coffee seeds, timber Calcut tiles and bricks, Cuddapah slabs, cotton and silk goods, petrol and kerosene oil

Internal trade is carried on at the shandies or markets which are both collecting and distributing centres The most important weekly shandy of the kind and the biggest one is held on Friday at the capital town The chief articles that are brought for sale in the markets are paddy, cereals, pulses and condiments Fish, straw and vegetables are also sold A big cattle fair is also held on the shandy days

Communication and Transport:—Trichinopoly-Manamadura Railway line connects Trichy with Pudukkottai and other important places in Ramnad and Madurai districts Motor buses also ply from Trichy, Tanjore and Madura districts to the capital town wherefrom branch lines run to all the important villages in the State Commercial articles are transported by railway motor lorries and by carts

PUNJAB AGENCY STATES.

The Punjab Agency States covers an area of 31,241 sq miles and has a population of 5,459,000 The principal States in the Agency with their population are LOHARU (23,338), SIRMUR (148,568), BILASPUR (100,994), MANDI (207,465), SUKET (58,408), KAPURTHALA (316,757), MALERKOTLA (83,072), FARIDKOT (164,364), CHAMBA (146,370), PATIALA (1,625,520), JIND (324,676), NABHA (287,574), and BAHAWALPUR (984,612)

RAJKOT STATE.

The RAJKOT State has an area of about 282.4 sq miles with a population of 1,03,100

A tramway service has been established by the State between Rajkot and the Beti River

RAJKOT is situated at the junction of three Railways, viz (1) the Gondal Railway including the Jetalsar-Rajkot Railway, (2) the Jamnagar-Dwarka Railway and (3) the Morvi Railway The four trunk roads of Kathiawar namely, (1) the Rajkot-Junagadh Road, (2) the Rajkot-Bhavnagar Road, (3) the Rajkot-Wadhwan Road and (4) the Rajkot-Nawanagar Road converge at Rajkot where the Agency Headquarters are located To facilitate transport, the State runs a motor service between Rajkot and Atkot and Rajkot and Chotila

The principal crops are grain, sugarcane, cotton, groundnut which are largely exported in addition to ghee, yarn, molasses, copper and brasswares, castor-oil seeds, white and black stones, hides and skins Chief imports are hardware, copper and brass metal sheets, timber, silk, ivory and chemicals

Industries:—The following are the existing industrial concerns 1 Rajkot Spinning and Weaving Mills, 26 flour mills, 2 oil mills, 40 soap factories, 2 ice factories, 13 metal works, 1 foundry, 6 steel trunk factories, 15 printing presses, 26 tanneries, 6 wool carding factories, 1

Learn the modern methods of Cotton Dyeing from COTTON DYEING & PRINTING. Re 1/12. Industry Book Dept., Shambazar, Calcutta.

cotton milling and pressing factory, 1 peppermint factory, 7 saw mills, 10 motor car repair works

Building lime stone of a fair quality which is quarried in the outskirts of the Beti River, supplies local requirements and even exports to other places. Black hard stone quarried from the bed of the Aji River also serves as a good building stone

REWA STATE.

REWA is the biggest State in the Central India Agency with an area of 13,000 sq miles and a population of 18,20,306. The two Railway lines G. I. P. Rly and B. N. Rly pass through the South and South-West portion of the State. The Great Deccan Road passes through the capital which is connected to the various parts of the State through a network of roads on most of which buses ply regularly. There are 1,030 miles of roads and several new roads are under construction. The nearest Railway Station is Satna (G. I. P. R.) which is 31 miles from the Capital town Rewa.

In Kharif the staple crops are rice and kodan, which are grown all over the State. Cotton and sugar-cane are also grown in certain parts. Wheat and gram are the main rabi crops but linseed is also sown largely in the north. In southern Rewa, maize is a popular crop but mustard is also grown in this part.

The State is rich in forest wealth. The Chief timber species at present commercially important are sal and teak. Bamboos are found in abundance and there are still large areas which, due to their present inaccessibility, still remain to be tapped. Rewa sticks (Solid bamboo sticks) and Balees (used for country Charpoys) are already famous in parts of Western U. P. and the Punjab. About 2 lacs maunds of myrobalans are collected and about 2,000 mds. of Katha (Catechu) are manufactured annually. The State produces about 50,000 mds of stick lac. Honey, gum, wax and several other forest products are produced and exported in varying quantities. Large quantities of bamboos, bagai and sabai grasses are exported outside the State which would serve as good raw material for a paper mill.

Mineral.—The State is very rich in mineral deposits. The important economic mineral deposits occurring within the State are coal, corundum, ochres, lime stones, gypsum and sillimanite and bauxite. All of these except the last are being worked on an appreciable scale. Out of 2,000 square miles of coal bearing area, at present three coal mines, one at UMARIA, the other at BURHAR and the third at BIR-SINGPUR are being worked and a fourth is going to be operated very shortly. Lime-stone and other raw materials required for the manufacture of cement are available in large quantities near Satna railway station and it may prove a good site for a Cement Factory. Extensive bauxite deposits which are rich in alumina are available in the Malkal Hill range. Among other minerals of the State are copper ores, iron ores, galena, mica, pot-stone, felspar, soda trap pebbles, garnets, ballast and road metal, building and ornamental stones. Out of the extensive thick beds of fire clay deposits lying on both sides of the B. N. Rly, at present, only the deposit—close to Chandia Rly Station is being worked. The proximity of Chandia to Umari Colliery is another point in favour of establishing an industry at CHANDIA for the manufacture of fire-bricks, tiles, glazed and sanitary ware etc.

The nature has been bounteous in giving more than half a dozen of water-falls, many of which are of great potential economic and commercial value for generating cheap power.

Fairs.—At Deo Talab (Tahsil Maungung), 30 miles eastward from Rewa, the fair is usually held thrice in the year, from the 13th of

DISINFECTANTS & ANTISEPTICS gives full details of preparing all sorts of insecticides & medicated cottons. Re. 1/12. Industry, Calcutta.

Shukla Paksha (second fortnight) of Asadh to 13th of Krishna Paksha (first fortnight) of Sawan, from 13th of Shukla Paksha of Kartiek to 13th of Krishna Paksha of Aghan, from 13th of Krishna Paksha to the 15th i.e., Puranmashi (full moon day), of Shukla Paksh of Phagun Merchants and traders dealing in cloth, vessels, gold and silver are drawn there from the Satna, Rewa and Mirzapur markets besides retail and petty dealers from short distances. At Amarkantak, near the Pendra Road Station on the B N Ry., a fair is held from the 11th of Shukla Paksha of Phagun (Hindu month) and lasts for 15 days. A fair is held at Anandgarh 16 miles from Rewa, from the Ramnaumi day (7 days). It is notable because of the Industrial and Agricultural exhibits. Elephants and camels, horses and bulls etc., are sold.

A fair at Semaria, at a distance of 25 miles from Satna Railway Station, commences from the Basant Panchmi day (three days).

Transport—A branch line of the G I P Ry. passes through that tract of the State where extensive deposits of ochres sand and lime stones occur. The dense forests and rich coal, fire-clay and gypsum deposits are traversed by a branch line of B N Ry.

Trade—The Baghelkhand Bank, Rewa affords all reasonable credit facilities at moderate rates.

SANDUR STATE

The soil of the SANDUR State is well adapted for the cultivation of European vegetables. Forests abound in sandalwood which is as rich in oil content as that of Mysore. The State holds extensive and excellent deposits of very important economic minerals, especially manganese and iron. The manganese ore in the State, especially in certain localities is very rich in manganese and contains a high percentage of pyrolusite. "Area for area Sandur deposits probably contain the largest manganese reserves so far found." Sandur manganese was formerly exported largely to Continental markets, mainly to Belgo-Luxemburg consumers, to the United Kingdom and Japan and commanded first grade unit prices from continental buyers. It has been found to be very useful in the manufacture of ferro-manganese. It appears to be suitable for application in the paper industry or for high quality porcelain and refractory manufacture.

The State has also extensive deposits of red and yellow oxide of iron which have been found to be very useful in the manufacture of paints by leading firms in Bombay and Calcutta, who import this commodity in large quantities. Paints manufactured out of Sandur oxides of iron have been found to satisfy India Supply Department's requirements. Very many facilities are offered to manufacture paints in the State. The gold quartz found in the area in the vicinity of Tarana-gari contains indications of promising reefs at very moderate depths. Enormous quantities of high grade jasper, most useful for the manufacture of mosaic-tiles is found in Sandur Hills. Dr V S Dubey of the Benares Hindu University, who visited the State recently, reported very favourably on all these deposits.

Ramgad Technical Training Centre is opened by Government of Sandur on Ramgad Hill Station the climate of which is very healthy and bracing. Ramgad is reached by car either from Bellary or Hospet in Madras Presidency. There is provision for 300 Trainees. The courses taught are—Carpentry, Smithy, Fitters, Upholsterers, Electricians and Engine artificers.

There is arrangement for boarding and lodging, Electric lights water-pipes and Medical attendance.

DISINFECTANTS & ANTISEPTICS gives full details of preparing all sorts of insecticides & medicated cottons. Re. 1/12. Industry, Calcutta.

There is parade in the morning and games like foot-ball, cricket, etc., in the evening

All courses are of 5 months' duration, after the completion of which Trainees are taken in service in their respective lines. If any trainee wishes, he is recommended for Army, Navy or Indian Air Force

SAWANTWADI STATE.

SAWANTWADI is one of the ancient Mahratta States in Western India. It is a compact territory unbroken by the lands of other States or Districts and is about fifty miles long and from 10 to 30 miles broad. The State comprises an area of 930 square miles and is bounded on the north by the Malvan sub-division of the Ratnagiri District and is separated by the line of the Sahyadri hills, on the north-east from Kolhapur territory, and on the east and south east, from the British District of Belgaum. To the south lie the Dicholi and Pedna sub-divisions of the Portuguese territory of Goa, and on the west and north-west the Ratnagiri sub-divisions of Vengurla and Malvan. The general aspect of the country is strikingly picturesque. The population of the Sawantwadi State is 2,52,170 according to the Census of 1941. Out of which 1,21,476 are males and 1,30,694 are females. The ratio of literacy to the total population is 17.3 as compared with last Census which was 7.6. For administrative purposes the State is divided into two Pethas viz, Kudal and Banda. Each Petha is in charge of a Kamavisdar. Both the officers are responsible to the Diwan of the State.

The State pays no tribute to the British Government. It is rich in forests of teak especially near the Sahyadri hills—blackwood, am, kher and jambha. Near the sea the more important trees are the jackwood, mango and bhirand. The principal fruits are mangoes, plantains, citrons, limes and jack fruit. Coconut and cashew-nuts are very plentiful. The staple agricultural produce in the State is rice but the quantity being insufficient for the wants of the people, a good deal is imported from outside. Iron ore of fair quality is found in the neighbourhood of the Ramghat in the Sahyadri Range. The Akari stone, a slate—coloured talc-schist, extremely hard, compact and heavy, is univalued for building purposes. The principal sources of income are (1) Land Revenue, (2) Forest and (3) Abkari. The gross revenue based on the average of the five years is Rs 6,42,957.

The principal industries of the State consist of gold and silver embroidery work on both leather and cloth, fans, baskets and boxes of khus-kas grass ornamented with gold thread and beetle wings, lacquered toys and playing cards, and elegant drawing-room ornaments, carved from the horn of the buffalo and bison.

TRAVANCORE STATE

TRAVANCORE STATE, which has an area of 7,624 sq miles, and a population of 6,070,000 is the most picturesque part of South India. Pre-eminently an agricultural country, her principal crops are rice grown on an area of 663,000 acres, coconut comprising 577,000 acres, palm, pepper, arecanut, jack, tapioca, ginger and cardamoms. Coffee and tea are grown on 84,000 acres of her highlands. Travancore has also 97,125 acres of rubber plantations.

The waterfalls in the High Ranges, the home of tea and rubber, are being harnessed to generate electric power. The Palliavasal Hydro-Electric Scheme is designed to supply cheap power for conducting agricultural and industrial operations.

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re. 1/12. Industry Book Dept, Shambazar, Calcutta.

Cotton weaving, manufacture of coir mats and matting, making bricks and tiles, extraction of coconut oil, manufacture of paper, roasting and finishing of cashewnuts, mining of monazite, ilmenite and zircon form the chief industries of the State. ALLEPPEY is the centre for the coconut and coir industry and QUILON has several factories. There is a rubber factory at TRIVANDRUM and a clay refining and porcelain factory at KUNDARA.

The soft woods and the numerous varieties of reeds, bamboos, grasses, etc., provide excellent raw material for the manufacture of rayon, paper and the several cellulose industries.

The principal exports are the products of the coconut tree, such as copra, coir, oil and nuts, and pepper, jaggery, arecanuts, dry ginger, salted fish, timber, ludes, tamarind, tea and coffee. The chief imports are tobacco, rice, piecegoods, cotton and yarn.

The total value of the foreign sea borne trade of Travancore ports of which the most important are ALLEPPEY and QUILON is as follows —

	1936-37	1937-38	1938-39	1939-40	1940-41
			(in lakhs of rupees).		
Imports	39	1.31	1.40	1.26	1.12
Exports	188	153	161	158	87

Among imports, the principal articles were grain, pulses, etc. mainly rice (Rs 60 lakhs), fruits and vegetables dried etc., mainly cashew nuts (Rs 39 lakhs), tobacco raw (Rs 4 lakhs), machinery, mill work and metals chiefly iron and steel (Rs 1 lakh), instruments, chiefly electrical (Rs 3 lakhs).

The principal item of export from Travancore consists of coir manufacture, shipments of which during the year were valued at Rs 39 lakhs as against Rs 106 lakhs in 1939-40. Of these coir mats and mattings accounted for Rs 15 lakhs, the United Kingdom taking Rs 10 lakhs as against Rs 29 lakhs in 1939-40. Shipments of coir yarns were valued at Rs 11 lakhs while exports of other sorts of coir manufactures, mostly to the United Kingdom, accounted for Rs 13 lakhs. Ilmenite comes next, and exports during the year were valued at Rs 20 lakhs as against Rs 21 lakhs in the preceding year. The bulk of the shipments of ilmenite went to the United States of America. Dried fruits and vegetables mainly cashewnut kernels accounted for Rs 5 lakhs. Exports of raw rubber, monazite, spices, chiefly pepper and ginger were valued at Rs 2 lakhs each, and dyeing and tannin substances chiefly turmeric were valued at Rs 1 lakh each. Exports of fibres for brushes and brooms were valued at Rs 3 lakhs.

ALLEPPEY PORT —At this port the chief articles of exports are coir manufactures, pepper, raw rubber, tea, dry ginger and copra which increased during the year 1938-39 to 66,548 tons against 58,293 tons last year. The imports are metals, cotton piece-goods, manufactured tobacco, etc. Among the minor exports, important are cashewnut kernels, dry ginger, fish and turmeric. Imports during the year 1938-39 decreased to 34,997 tons valued at Rs 70.42 lakhs as compared with 47,073 tons valued at Rs 85.03 lakhs last year.

QUILON —The principal articles of import are unmanufactured tobacco from Ceylon and cashewnuts from the African coasts. The chief exports are tiles and manufactures of wood and timber.

COLACHEL —The exports from this port are ilmenite, monazite and palmvral fibre.

Other centres of trade in Travancore are KOTTAR, KAYANCOLAM, CHANGANACHERRY and KOTTAYAM.

You can Manufacture Writing Ink & Sell it. Read MANUFACTURE OF INK. Re 1/12. Industry Book Dept., Shambazar, Calcutta

Travancore is abundantly provided with the means of communication, both roads and waterways, and TRIVANDRUM, the capital, has a fine air port, which is linked up with the airways of the world.

Two industrial and agricultural exhibitions are regularly conducted in South Travancore, one under the auspices of the Y M C A, at MARTANDAM, and the other, the Vavubali Exhibition at KUZHITHURA, besides the one held at TRIVANDRUM every year in connection with the birthday of His Highness the Maharaja. In addition to these, several exhibitions are conducted from time to time in different parts of Travancore under the auspices of various organisations.

UDAIPUR STATE.

UDAIPUR STATE in Rajputana has a total area of 1,052 square miles, and a population of 97,730.

The principal crops in autumn are maize, jowar, til, cotton and sugarcane, while in the cold season the important staples are wheat, barley, gram and poppy. Irrigation is mainly from wells of which there are several thousands.

Among the minerals, lead, zinc and iron are found in the State but are not worked. White marble is available at RAJNAGAR and black marble near CHITOR. Sandstones occur near DHEBAR.

The chief products of manufacture in the State are swords, daggers, embroidery, ivory, tin utensils, stone toys, earthen jars, wooden bangles and cotton cloth printed in gold and silver.

WANKANER STATE

The principal agricultural products of the State (area, 417 sq miles, population 44,280) are grains, sugarcane, cotton and ghee. A good quality of limestone suitable for building and lime making and sandstone of a superior kind are obtainable in large quantities in the State. Clay suitable for making Mangalore tiles, fire-bricks, and porcelain occurs over a large area near WANKANER town as also many varieties of Chalcedony stone.

There is one cotton weaving and spinning mill in the State with two cotton ginning factories and one cotton press. Other industries include silk and cotton hand loom weaving, pottery, etc. The china silk cord of Wankaner make is well-known in the market and finds a ready sale far and wide.

WANKANER is a Railway Junction connecting lines from Rajkot, Morvi and Wadhwan.

The famous ancient temple of Shri Jadeshwar Mahadev is situated in Wankaner territory about 7 miles from the capital and is a place of pilgrimage.

Electroplating In Practice

By M. N. MITTER, M.Sc.,

*Author of Manufacture of Disinfectants and
Antiseptics and Dental Preparations*

There is a lot of money in the electroplating trade which includes gilding, silvering, chromium and nickel plating, copper and zinc plating, etc.

Here is a book which reveals the secrets of the trade and describes in details the accessories and equipments necessary in the trade, the bath solutions and the practical manipulations with hints about remedying of defects, if any.

Cloth bound with 11 illustrations. Price Rs. 2/8, Postage extra.
INDUSTRY PUBLISHERS LTD., Shambazar, Calcutta

MARKET PLACES OF NEPAL

NEPAL is an Independent Kingdom occupying the southern ranges of the Himalaya mountains and across the northern frontier of British India. It is bounded on the north by Tibet, on the west, by the British districts of Pilibhit, Kheri, Bahraich, Gonda, Basti, Gorakhpore, Champaran, Muzaffarpore, Darbhanga, Bhagalpore and Purnea, on the east by the British district of Darjeeling and the State of Sikkim. Nepal is about 450 miles in length from east to west and 160 miles in breadth. The area of Nepal is about 56,000 square miles and has a population of about 55,80,000. The chief languages generally spoken are Nepali, Newari, Tamang, Gurung, Magar, Kiranti, Bhutia and Hindustani.

Agriculture.—It is largely an agricultural country, having vast agricultural resources and potentialities. The principal crops of the country are rice, wheat, maize, millet, barley, buckwheat, oats, oil-seeds, red pepper, potatoes, cauliflowers, cabbages, radishes, sugarcane, ginger, turmeric, coriander seeds, garlic, onions, tomatoes, red potatoes, gram, etc. A Krishi Parishad (Board of Agriculture) has been established to look after the agricultural development of the country, with its head office at Kathmandu, Nepal.

Animals.—Poultry-keeping and breeding forms a common feature in rural and urban areas. Cows and buffaloes are usually reared, mostly by agriculturists, partly for dairy purposes, and partly for manure and ploughing in the rural districts. Ghee manufacture and honey culture form subsidiary sources of income in the village and hill districts as ghee and honey command a popular market all over the country and are exported to different parts of British India. Sheep breeding and wool culture form favourite and useful leisure-time hobbies amongst the farmers and hill weavers. Horses of local and foreign breed are usually reared by civil and military circles. Elephant breeding and hunting form favourite pastimes in princely circles. Buffaloes and goats are imported from the west and sheep from Tibet.

Banking and Finance.—Nepal Bank Limited was opened in November 1937 under the Nepal Bank Act 1993 Vikram Samvat with authorised capital of rupees one crore in Nepalese currency, issued capital being rupees twenty-five lacs. It is financing the export and import trade of the country and has agents in foreign countries.

Industrial Exhibition, held usually every alternate year lends great impetus to industrial development in Nepal. It is organised by the Udyog Parishad (Development Board).

Sylviculture.—The forests of Nepal are famous for their various kinds of timber and wood especially the well-known Sal trees, and attract a fair source of income to the Government by allowing leases to Nepalese and Indian contractors. Some of them are being used for match and frame factories. Indian paper mills take in almost all the available sabai grass which also fetches a good revenue to the Government. They abound in numerous herbs and drugs which are in constant demand amongst Ayurvedic dispensaries and physicians also from allopathic doctors and manufactories. They are also exported

"Safety Matches & Their Manufacture" explains every aspect of the Industry. Rs 3/-. Industry Book Dept, Shambazar, Calcutta

by local merchants and the Government Botanist has been deputed to collect and sell and export them through centralised marketing centres. Nepali paper plant is well-known for its excellent and durable paper pulp and supplies raw materials to the local paper mills.

Cedrela, adina, schleicheia and eugenia found here in plenty, are of great economic importance. Himalayan tea and rubber trees have also been located. Resin, shellac etc. are also available in plenty. Steps are being taken by the Government to conserve the forests and develop their natural products.

Mines and Mineral Deposits:—There are several rock deposits suitable for various industries. Mica, cobalt, asphalt, antimony, iron, copper and graphite mines are existent. Amongst precious stones barytes and corundum have been found out. Coal and coal deposits have been located at Kapundol and other places. Various kinds of silica, earth, stone and sand are available for ceramic industries. Rock-salt deposits are being explored at Thak, north-west of Nepal. Facilities for salt, ceramic and hydro electric and other important surveys are being afforded by the Government.

Cotton Cultivation & Textile Manufacture:—Hand spinning and weaving form the home industries in rural and urban areas. They form the leisuretime hobbies of the womenfolk and there are still cottage industries in the cities of LALITPORE and BHAKTAPORE. The flyshuttle and Hattersley and Japanese automatic looms find a place in some factories in the cities. The Government Technical School provides free teaching in textile manufacture, dyeing and bleaching to all. The Central Jail Department has weaving and hosiery sections and has also introduced power weaving for the manufacture of Khaki cloth for the Army. It has also a section for the weaving of carpets and durries. Under the auspices of the Udyog Parishad (Development Board), the Nepal Vastrakala Prachar Sanstha (Textile Institute) has also been set up to supply yarns at minimum rates to weavers and to demonstrate the utility of up-to-date hand and power looms and appliances. The Chandra Kamdhenu Charkha Prachar Mahaguthi established by the Government about a decade back, is spreading hand spinning, weaving and dyeing as home industries amongst women and all. For further organisation and development of Nepali Khadi and cottage industries in Nepal, the Department of Cottage Industries has been set up. The Government has also arranged for further experimental cotton culture in different parts of the country by introducing best varieties of cotton seeds of the world. Woollen blanket weaving, carpet weaving and embroidery work are subsidiary industries to-day.

Exports From Nepal Into India:—Since time immemorial India and Nepal have been carrying on import and export trade. Nepal exports raw and ready-made materials to different provinces of India. Amongst the exports might be mentioned grains, oilseeds and pulses, cattle, sheep, and ponies, animal hides and skins, Himalayan drugs, herbs and spices, sabai and other kinds of grass, timber and various woods, mine and mineral products like iron, saltpetre, mica, cobalt, antimony, graphite, jute and cane products, wax, honey and yoktails (Chamars) wool and woollen shawls, borax, madder and resins, gorchuan, musk and shilajit, Nepalese and Tibetan art curios, and Buddhistic and artistic metal wares, Himalayan crystal, and art crystal images etc., stone and ivory artwares, cloth shoes and boots, rudraksha and pure Nepal incense and candle sticks. The total exports exceed Rs 251 lacs.

Imports From India Into Nepal:—Nepal imports from various parts of India specific goods such as cotton and cotton yarns,

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products," Re. 1/12. Industry Book Dept., Cal.

mill dhoties and productions, Kashmere alwans, dhussas; black and rock salts, Indian spices, tobacco-leaf, betel-leaf etc; Algarh cutlery and other hardwares, Kashi printed fabrics, Dacca muslins, Murshidabad, Assam and Kashi silk and silk goods, Bombay mangoes and Kabul grapes and bedanas, etc

Imports from Abroad:—By the Treaty of Friendship between Nepal and Great Britain, all imports are duty-free in British Indian ports such as Calcutta. Imports from the United Kingdom and British Dominions, Japan, Germany, Italy, France, Czecho-Slovakia, Belgium, U S America, China etc, include cotton piecegoods, leather, requisites, porcelainware, cutlery, machinery, silk yarn and goods, perfumery, glass and glassware, electric and radio sets and accessories, tea, etc

Imports from India and Abroad into Nepal exceed Rs 150 lacs

Exports from Nepal to Tibet include cotton and woollen cloth, cotton piecegoods, silk and silk goods, hardware, spices, herbs and drugs, rice and pulses, wheat, brass, copper, bell-metal and iron utensils, Buddhist images and metalwares of Nepalese art, cloth shoes and boots, medicines, dried fruits

Imports from Tibet into Nepal—include sheep and yak tails (chamars), pashmina (shawl and wool) and carpets, salt, borax, musk, yellow arsenic, gold-dust, tea, etc

CENTRES OF TRADE with India and Abroad are —Birgunj, Nepalgunj, Pashupatinagar (Ilam), Bhadrapur, Butaul, Dhulabari, Hanuman Nagar, Bettiah, Darbhanga, Bahraich, Gorakhpore, Bhagalpore, Pilibhit, Muzafferpore, Patna, Purnea, Darjeeling, Basti, Bahraich, Gonda, Saran &c

Fairs:—Of the several melas held in Nepal the chief are the Sivaratri Mela and the Bodhnath Mela, others being of local importance

THE SIVARATRI MELA begins some days previous to the Sivaratri Day usually in the month of February when thousands of the Hindus, pilgrims, visitors and ascetics from different parts of India come all the way to pay their respects to PASHUPATINATH and other great shrines of Nepal Local businessmen set up shops during the mela

BODHNATH MELA —This usually commences in the middle of December when thousands of pilgrims, visitors and traders of Tibet, Bhutan, Sikkim, Ladakh etc, come on pilgrimage to Bodhnath and other Buddhist shrines of Nepal The actual Mela is held usually in Magh (January), lasting for nearly a month when local traders set up their shops A good interchange of Nepal goods for Tibetan commodities takes place

The chief cities of Nepal are.—**KATHMANDU, LALITPORE and BHAKTAPORE**

KATHMANDU.

KATHMANDU, the capital of Nepal, is situated on the east bank of the Vishnumati river Lat 27 degrees 36 seconds, Long 85 degrees 24 seconds Elevation about 4,330 feet above sea-level Population 134,442 Distance 622 miles north-west from Calcutta and 72 miles from Raxaul Station on the Tirhoot Section of the B & N W Railway It is an industrial mainly commercial centre and commands a premier place in the trade and commerce of Nepal There are numerous small industries and a large number of the chief mercantile firms carry on export and import trade in this city It is well provided with the modern facilities for industrial purposes such as electric energy for industrial purposes, transport services such as ropeway transport, trolley and motor services Besides, the Central Customs Department is located here The highly artistic carvings and architectural build-

Complete information on manufacturing all sorts of milk products are contained in "Milk & Milk Products." Re 1/12. Industry Book Dept., Cal.

ings and shrines exhibiting the Nepalese school of art attract a large number of foreign visitors. The famous Swayambhu Nath, Kathe Simbhu, Bodh Nath and four Asokan Stupas and chaityas attract thousands of pilgrims from Tibet, Bhutan, Sikkim, etc. A fine fair takes place during the winter season at Bodh Nath. The holy Pashpatinath Temple, located two miles north-east of Kathmandu, is visited and worshiped by about 50,000 Hindu pilgrims, sannyasis and saints of India during the Sivaratri days.

LALITPORE (PATAN).

LALITPORE as the name implies, is a "beautiful city," being rich in its wonderful artistic treasures and monuments. It is famous for its stupas and temples of Asokan and Nepalese art, such as the four Asokan Stupas (Thoors), Matsyendra Nath, Maha Buddha, Krishna and Kwabhat. It is visited for its highly artistic memorials by eminent people and scholars of the East and the West. Population 133,947. It is the second city of Nepal, two miles south of Kathmandu, situated on the eastern banks of the Bagmati. It is an ancient industrial and commercial town with a major number of arts and manufactures, industrial artisans and smiths, and of merchants and traders supplying home-made and imported goods to the towns, districts and villages lying in the southern and south-eastern valley of Nepal and exports to India, Tibet, Bhutan, Sikkim and abroad, forest products, metalwares of Nepalese and Buddhist art, crystal goods, curios, Himalayan products etc.

SUB-TOWNS —KIRTIPORE (Agricultural centre), PHARPING (source of Nepal premier hydro-electric power), BUNGAMATI (agricultural centre), KHOKNA (mustard oil manufacturing centre), CHAPAGAON (forest product), HARSIDDHI (agricultural centre), GODAVARI (herbs and marble quarries), LELE, etc.

BHAKTAPORE (BHADGAON).

It is the third city of Nepal, and is noted for its agricultural produce, curd, pottery and minor village industries. It is situated seven miles east of Kathmandu. It is well-known for its ancient architectural temples and buildings, mostly of mediaeval Hindu art. Population is 93,170. It was electrified by the Government in 1939.

BIRGUNJ.

It is an important transport centre, being nearest to the British Indian main frontier railway station, Raxaul, in the Champaran District on the Tirhoot Section of the O & T R line. Just nearby lies the Nepal Government Railway leading upto Amlekhgunj Station, where the local motor transport service takes passengers and goods upto Bhimphedi, 22 miles from Kathmandu. Near Bhimphedi at Dhorsing commences the Aerial Ropeway Service transporting goods between Dhorsing and Matatirtha, near Kathmandu. Telephone facilities were extended in 1939 by the Government making direct communication between Kathmandu and the British Indian frontier, Raxaul. The Juddha Match Factory Limited, incorporated under the Nepal Companies Act, and other factories are also situated here.

BIRATNAGAR

It is a growing and prosperous town with a population of 68,571. Various kinds of Nepal produce are exported and foreign goods are imported. It is growing as an industrial and commercial centre. A hostel is attached to the College which provides boarding and lodging for about 30 students and the expenses amount to about Rs 21 per student per month.

COLLEGE OF ENGINEERING, GUINDY, MADRAS.

Courses of study — B E degree in Civil Engineering, Mechanical Engineering and Electrical Engineering. Candidates must have passed I.A. Examination in the group of Mathematics, Physics and Chemistry. There is also a diploma course Licentiate in Civil Engineering class. Candidates must have passed S S L C or Matriculation Examination.

Fees Engineer's Rs 180 per year, L C E class Rs 60 per year. Books and Instruments for whole course, Rs 100 to Rs 120, Camps and tours Rs 75, Room rent etc., per year Rs 25, Boarding charges Rs 30 per month.

COLLEGE OF ENGINEERING,

Sangam, R. S. Shivajinagar, Poona.

The College of Engineering, Poona is a Government Institution and is affiliated to the University of Bombay and conducts courses for the Degrees of Bachelor of Engineering (Civil, Mechanical and Electrical).

It is the only College in India that is recognised by the Institute of Civil Engineers (London) for purposes of exemption from parts A and B of the Associate Membership Examination of the Institution.

It has courses leading to the Diploma in Civil Engineering and the Diploma in Mechanical and Electrical Engineering awarded by the Government of Bombay.

If a graduate in Mechanical Engineering desires to take the B E (Elec) Degree also, he is required to put in a further period of one year.

The College has residential accommodation for 82 students of the Degree classes and for 48 students of the Diploma classes. Rooms are also available in several private bungalows in the close vicinity of the College.

The College has extensive playing fields adjoining the Hostels and a Boat Club run by the students.

Candidates for the degree of Bachelor of Engineering must have passed (1) I Sc in the group of Mathematics, Physics & Chemistry (2) B Sc in Physics and Mathematics or Physics and Chemistry only or (3) Inter Arts with Mathematics as optional subjects and the B.A. Examination with Physics and Chemistry as the optional subjects of the Bombay University or of a University recognised by the University of Bombay. Applications must be made before 15th May. The students should not be more than 22 years. Each student must pay in advance a half yearly fee of Rs 150 and if he is a native of an Indian state Rs 200. Approximate expenses including fees, books, etc., will be above Rs 800 during the eight months of residence in the College each year.

Learn all sorts of office works by reading **CLERK'S MANUAL** Re. 1/4.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Diploma classes—Civil and combined Mechanical and Electrical Engineering courses which extend over a period of three years for the former and 4 years for the latter.

The Workshops consist of all the Departments of a Mechanical and Elec Works i.e Machine tool room, carpenter's section, filter's section, blacksmith's shop, tinsmith's shop, foundry, engine and boiler rooms. Both oil and steam power plants are installed

Fees Rs 50 (or Rs 75 for students from outside the Bombay Presidency) and Indian States for each half year of the course. The cost of books etc, for the 2nd years of the course will be about Rs. 60 per annum subsequently

COLLEGE OF ENGINEERING & TECHNOLOGY, BENGAL,
Jadavpur, Jadavpur College P.O., 24-Pargs.

The Session lasts from 1st of July to 30th of June. Applications for admission must be accompanied by a registration fee of Re 1/- and are entertained from the middle of June

Prospectus is supplied on application with Eight one-anna postage stamps

Following are the Courses of Study in the College —

(1) Mechanical Engineering Course, (2) Electrical Engineering Course, (3) Chemical Engineering Course—Training in the aforesaid courses extends over a period of four years and successful students at the final Examination are awarded diplomas by the Council. Students who have passed the I Sc Examination of any recognised University with Physics, Chemistry and Mathematics or the Preparatory Engineering Examination of the National Council of Education are eligible for admission to these courses

Students who have passed the B Sc Examination (with Physics, Chemistry and Mathematics) are admitted into the Second year class of the Chemical Engineering Course but by the end of the academic year such students will have to satisfactorily finish the class work in Drawing prescribed for the Engineering First year class and must pass the examinations in Drawing prescribed for this class

(4) Junior Technical Course (3 years' course)—The minimum qualification for admission is that the candidate has passed or appeared in the Matriculation Examination

(5) Survey, Draftsmanship and Agricultural Courses (Two years' course)—The minimum qualification for admission for any student is that he has prosecuted a regular course of study up to the Matriculation Standard.

Admission fee Admission fee is equal to one month's tuition fee and is payable at the time of admission

Tuition fees (i) For Engineering Courses the tuition fee for each complete session is Rs 120/- and is payable in monthly instalments of Rs 10/-

(ii) For Junior Technical Course the tuition fee is Rs 96/- for each complete session and is payable in monthly instalments of Rs 8/-

(iii) For Survey & Draftsmanship Course the tuition fee is Rs 84/- for each complete session and is payable in monthly instalments of Rs 7/-

Other fees, Magazine fee Re 1/- Contingency fee Rs 2/-. Students' Union fee Re 1, and Sporting fee Rs 4; per annum have to be paid each session in the month of January with the tuition fee for the month. Besides these fees have to be paid at the time of admission

Every First year student must be prepared to provide himself with a set of Drawing instruments and other requisites which will cost approximately Rs 30/- to Rs 40/-

THE RETAIL TRADE—an exposition of Methods that build up Retail Trade. Price Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

Two Hostels at Jadavpur are according to the present arrangements reserved for Hindu students of the College or Engineering & Technology.

Caution money of the amount of Rs 20/- is payable in advance with every application for admission. Admission fee of Rs 2/- for a complete term shall be paid by every student on admission into the Hostel. Each boarder shall have to pay the following scale of rent including charges for light and medical attendance by the 10th of every month: Ground floor, Rs 60 per annum, First floor, Rs 78 per annum, be paid in 10 equal monthly instalments beginning from the month of July in every session.

ENGINEERING COLLEGE, OSMANIA UNIVERSITY.

Hyderabad—Deccan.

The course of instruction for the B E Degree students extends over 4 years, of which 3 years are spent in the College and 4th year in Practical Training. University Examinations are held at the end of each of the first three years known as B E I, II, and Final Examinations respectively. There will also be a University Examination at the end of the fourth year's Practical Training.

The College years consist of —(1) a first term extending from about 21st June to 18th September (b) a second term extending from about 21st September to 16th December (c) a third term extending from about 6th January to 31st March.

Minimum attendance is 70 per cent of the lectures in each subject and also in the practical classes.

A candidate shall be deemed to have passed the B E Examinations if he obtains a minimum of 33 per cent in each of the written papers and also in the practical examinations and 50 per cent of the aggregate marks. Those who obtain 70 per cent or more of the aggregate marks shall be placed in the First Class and those obtaining between this and 50 per cent in the Second Class.

Candidates seeking admission must have passed the Intermediate Examination of the Osmania University or of a recognised University in the Second Class with the following as optional subjects —

- 1 Mathematics
- 2 Physics
- 3 Chemistry

They will be admitted at the discretion of the Principal after a Competitive Examination.

The tuition fee payable in advance by students while at the College is Rs 100/- for the session or Rs 12/- in nine monthly instalments.

The Overseer Class of the College affords theoretical and practical instruction in the subjects qualifying for the subordinate service of the Public Works Department, Local Boards, Municipalities and Railways.

Candidates who have passed the Matriculation Examination of the Osmania University or the H S L C Examination in the Second Class or its equivalent are eligible for admission. They will be admitted at the discretion of the Principal after a Competitive Examination.

The tuition fee payable in advance is Rs 45/- for the session or Rs 5-8 in nine monthly instalments.

The course extends over 2 years.

The medium of instruction and examination in the College is Urdu.

THE RETAIL TRADE—an exposition of Methods that build up Retail Trade. Price Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

The Prospectus giving full details may be obtained for payment of Re 1/- from the Office of the Principal, Engineering College, Osmania University, Hyderabad-Deccan

**GOVERNMENT ENGINEERING SCHOOL,
Kamptee Road, Nagpur.**

This Institution trains students for examinations for diplomas in Civil, Mechanical and Automobile Engineering of Nagpur University

Candidates for admission to any of the above courses must be between the ages of 16 and 21 years on the first day of admission. In exceptional circumstances, the Principal may admit candidates who are over 21 and under 30 years of age, they, however, are not eligible for scholarships or guaranteed appointments. The candidates must have passed the High School Certificate Examination of the Board of High School Education, Central Provinces and Berar or an examination recognised in accordance with the provision of section 33 of the Nagpur University Act as equivalent thereto.

The duration of the courses is 3 years. The tuition and hostel fees are Rs 54 and Rs 27, per session, respectively.

Qualified students from the School are eligible for appointments in the Subordinate Engineering Service of the C P Public Works Departments, and as Subordinate Engineers in the Railways, Municipalities, District Boards, Engineering Workshops and Factories.

GOVERNMENT SCHOOL OF ENGINEERING, PUNJAB, RASUL.

Courses for Overseers for S E S and Draftsmen commence during the first week of October annually. The duration of the Course for Overseers and Draftsmen is two years.

A 3rd Year Reinforced Concrete Course for a further period of 4½ months commences from October annually.

Tuition fee—First 2 years Rs 100, per year, 3rd Year Reinforced Concrete Class Rs 50, Hostel fee for first 2 years Rs 14, per year—3rd Year R C C Rs 7.

All candidates for admission into the Overseer and Draftsman Classes must have passed the Matriculation Examination of the Punjab University or its equivalent and be between 17 and 21 years of age.

There is a Special Course in Reinforced Concrete Construction and Design for P W D Overseers and Draftsmen.

Classes are also held for Artisan and Bricklayers.

**HEWETT ENGINEERING SCHOOL.
Jagat Narain Road, Lucknow, (U. P.)**

The object of the School is to train candidates as Overseers for the P W D, Railways, Irrigation, M E S, District Boards, Municipalities and State's Engineering Services. Course is of two years' duration. Only those candidates are eligible for admission who have passed the High School Examination, approved by the U P Govt. Syllabus comprises the following subjects—(a) Building Construction, Roads, Railways, Bridges, Irrigation, Sanitary Engineering, Field Engineering and Carpentry (b) Mathematics and Applied Mechanics (c) Surveying (d) Drawing, based on Civil Engineering and Building Construction (e) Mechanical and Electrical Engineering (f) General Science, Accounts, Process Work (g) Project and Civil Engineering Design. The Final Examination is held by the Director of the Public Instruction, U P at the end of the two years' Course. The Overseer Certificate is granted by the Department of Public Instruction, U P. The certificate is recognised by the Governments of U P, C P, Assam, Baluchistan, N W F. Prov., the Military Engineer-

ing Services, and 65 Prominent Indian States Tuition fee (including supply of Books), Rs 550 for two years, Instruments, Examinations fee etc Rs 100, Board & Lodging expenses Rs 25 per month There is a School Hostel with accommodation for 200 candidates

The Session commences from July every year, but enrolments are made from January till 31st July or earlier if the required number is reached

Admission is open to all candidates, irrespective of age, caste or provincial restrictions

INDIAN SCHOOL OF MINES, DHANBAD

Admission is competitive, there being an Entrance Examination held early in July each year Provided a sufficient number of candidates come forward the Entrance Examination is held at various centres throughout India Application for admission must be made early in June but preferably in May on the appropriate forms obtainable from the Principal Permission to sit for the Entrance Examination is granted only to candidates possessing certain educational qualifications, for example, ISc or IA of an Indian University The subjects taken in the Intermediate Examination must have included English, Mathematics and either Physics or Chemistry Certain equivalent examinations are recognized (Vide Prospectus) No candidate is admitted if he is over 22 years of age on the 1st of January of the year of admission The following courses of study are provided—(a) Three years course leading to Certificate in Coal Mining, (b) Three years course leading to Certificate in Geology, (c) Four years course leading to Diploma of Associateship in Mining Engineering, (d) Four years course leading to Diploma of Associateship in Geology

The Diploma of Associateship entitles the possessor to indicate it by the letters "A I S M" Students are normally required to reside in the Hostel Students arrange their own messes under the guidance of the Hostel Superintendent

Fees, etc.	Rs As
Entrance Examination Fee	10 0
Admission Fee	10 0
Caution Money deposit (The balance of this is returnable to Students)	50 0
Tuition Fees—	
First year—(in 2 equal instalments)	120 0
Second year "	120 0
Third year "	180 0
Fourth year equal	180 0
Monthly Charges excluding mess charges—	
Consolidated Hostel charges (at present)	8 4
Examination Fee for the Certificate at the end of the Third Year	25 0
Examination Fee for the Diploma at the end of the Fourth Year	40 0

The session begins on the 1st of November each year and lasts until 31st July in the following year with short breaks at Christmas and at Easter During the long vacation each student is required to obtain practical experience for at least two months in a mine or (if taking the Geology Course) in the field

Scholarships.

The Government of India and Provincial Governments award scholarships of values varying from Rs 30, per month to Rs 75, per month In most instances these are awarded on the results of the Entrance Examination

Full particulars about making and recharging batteries are available in **MANUFACTURE OF BATTERIES**. Re. 1/12. Industry Book Dept, Cal.

Students who obtain the Certificate in Coal Mining or Diploma of Associateship in Mining Engineering obtain concessions in respect of the period of practical experience in a coal mine required from candidates for the Department of Mines Examinations. The period of practical experience required is reduced by one year in the case of candidates for the Second class Mine Manager's Certificate and by two years in the case of candidates for the Sirdar's Certificates and candidates for the First Class Mine Manager's Certificate. A similar reduction of 18 months is granted to students possessing the Certificate in Mining or the Diploma in Mining Engineering in respect of the Examination for the Certificate of Competency as Mine Surveyors.

The Diploma of Associateship in Mining Engineering entitles the holder to a similar exemption, viz., of two years, in respect of the Examinations for First Class and Second Class Certificates of Competency under the British Coal Mines Act, 1911. Further, the School has been recognised by the University of London for the purpose of its B.Sc. Degree in Engineering (Mining).

NADIRSHAW EDULJI DINSHAW ENGINEERING COLLEGE, KARACHI

The College is affiliated to the Bombay University for the degree courses in Civil, Mechanical & Electrical Engineering. The course extends over three years, and every student has to pass (1) Inter Science in Group A (Mathematics, Physics and Chemistry) or (2) Inter Arts with Mathematics as optional subject and the B.A. Examination with Physics and Chemistry as the optional group of the University of Bombay or of any other University recognised by the Bombay University.

Tuition fees are Rs 125 per term for Sindhi students and Rs 165 per term for non-Sindhi students. At present, the College has no Hostel of its own, but there is a private Hostel in the vicinity of the College, where some of the students are accommodated.

The College also runs a three-year Diploma Course in Civil, and combined Mechanical & Electrical Engineering, the minimum qualification for admission being the Matriculation standard. Tuition Fees are Rs 60 for Sindhi students and Rs 80 per term for Non-Sindhi students.

A Class to train a few students in Wireless Operator's Course is attached to the College. Lectures are held in mornings and evenings. The qualification for admission is the same as the Diploma Courses. The duration of the course is 1½ years and the fees charged are—Admission Fee Rs 25 and Tuition Fee Rs 150.

The College is a centre for the City and Guilds of London Institute examinations.

ORISSA SCHOOL OF ENGINEERING, CUTTACK.

The courses of instruction consist of two branches: (1) Civil Engineering and (2) Mechanical and Electrical.

(1) The minimum qualification for the Civil Engineering Subordinate classes is a pass at the Matriculation Examination and the course consists of three years' duration at school and one year outside. The school fee Rs 3 per month.

(2) The Mechanical and Electrical section provides training in the workshops with the necessary theory. The minimum qualification for admission is the Vernacular Middle Examination. The course of instruction, which is free, extends over 5 years. All students get stipends ranging from Rs 5 per month in the first year to Rs 20 per month in the final year. The course is divided into three classes, viz., (1) Diploma Course for those who undergo the full 5 years' course in

Principles of construction of storage batteries and their care are dealt in Manufacture of BATTERIES. Re. 1/12, Industry Book Dept., Calcutta.

theory and pass the craftsmanship test, (2) the Chargehand course for those who complete the theory portion of the first three years and pass the draftsmanship test at the end of 5 years and (3) Journeyman course for those who complete the full 5 years' course in the workshop only and pass the craftsmanship test at the end of 5 years

PROVINCIAL INSTITUTE OF ENGINEERING,

Hoshiarpur, (Punjab)

There are three courses of Instructions namely —

1 Engineering, (a) Electrical, (b) Mechanical, (c) Radio Engineering Complete courses of Instructions leading to the Final Examination of the City and Guilds of London Institute Period of training two academic years Admission fee Rs 15 Tuition fee Rs 10 p m Adequate arrangements for practical training in Electrical Installations, Armature winding, Battery charging, Repair of Machines Operation maintenance and testing of Electrical Machinery Part time apprenticeship in the Local Electric Supply Co and other mills and factories

2 Electrical Supervisor's Course —Syllabus as prescribed by the Electrical Licensing Board Punjab Govt Examinations held under the Presidentship of the Director of Industries to the Punjab Govt Complete up-to date training in theory and practice of Electrical Installation work together with the above syllabus of practical training for the Engineering courses Admission Fee Rs 10/- Tuition Fee Rs 8-8 Period of training one year

Electrician and Mechanics Course —This course is intended to prepare candidates taking up this Course for the Military Transport, Heavy repair Shop Tests for Electricians and Mechanics Period of Training Six Months Admission Fee Rs 10/- Tuition Fee Rs 5-8 P M

Hostel accommodation limited Hostel Fee with electric light Rs 2/-

The average cost of living Rs 20/- p m for an Engineering Student and comparatively less for the others

Poor and deserving candidates are admitted at full or half rate concession in fees particularly at the recommendations of the Heads of the Schools or Colleges last attended

Minimum standard of education for admission in the Engineering Courses is Matriculations for others lower standard of education is acceptable

**PUNJAB COLLEGE OF ENGINEERING AND
TECHNOLOGY, LAHORE**

The Punjab University (B Sc) Engineering Degree Course (Civil, Mechanical and Electrical Engineering) 30 vacancies each year Candidates must have at least passed the Intermediate examination with Mathematics, Chemistry and Physics and will be selected in order of merit Age limit between 16 and 21 Duration of course 3 years in College and 2 years on works Monthly expenses approximately Rs 70/-

The Engineering Certificate Course —40 Vacancies each year, 15 of which are reserved for the nominees of the N W Railway Candidates must have at least passed the Matriculation and School Leaving Certificate examination in 2nd division with Mathematics and Science and will be selected in order of merit Age limit 16—19 years Duration of course 5 years—approximately 20 per cent of this

Principles of construction of storage batteries and their care are dealt in Manufacture of BATTERIES. Re 1/12 Industry Book Dept., Calcutta.

to be spent in College and the remainder in the N W Railway Central Workshops Monthly expenses approximately Rs 30/-

The Artisans Course—50 Vacancies each year Candidates must be literate with a fair knowledge of English and will be selected by an interviewing board Duration of course 3 years No fees are charged. Books and tools are supplied by the College Age limit 15-19 years

PUNJAB ENGINEERING INSTITUTE, JULLUNDER TOWN.

There are four courses (1) Electrical Engineering Course which prepares students for the examination of the City and Guilds Institute of London, the examination being held under the supervision of the Director of Industries, Punjab Government Candidates who are F.A. or F.Sc. or First division matriculates get preference in admission But those possessing inferior academical qualifications are admitted after a test in English and Mathematics by the Institute The diploma of Electrical Engineer is awarded after two years of training for the City and Guild of London Institute Admission Fee Rs 20 Tuition fees—First year Rs 8 p m and Second year Rs 10 p m Admissions in June

(2) Electrical Overseer's Course—Matriculation Certificate from any Indian University and a character certificate are necessary for admission to this course Candidates are admitted at the end of every month Period of training one year Admission fee—Rs 20, monthly tuition fee—Rs 8

(3) Electrician Course—Candidates with the minimum qualification of anglo-vernacular middle pass are admitted at the end of every month Period of training one year Admission fee Rs 15, tuition fee Rs 6 per month

(4) Electrical Mistri Course—Candidates having certificates of passing primary school examination are admitted Admission at the end of every month Period of training one year Admission fee Rs 10 Tuition fee Rs 4 per month

(5) Radio Electrician Course 6 months' course, tuition fee Rs 60 Only matrics to be admitted

Students are admitted from all provinces of British India and States

Monthly expenses of lodging, boarding, etc are Rs 15 per month

SCHOOL OF CIVIL ENGINEERING,

Andar St, Teppakulam Post, Trichinopoly

The School provides training in Civil Engineering to fit up persons for Subordinate Engineering Services as draughtsmen, surveyors, inspectors, etc

Admission shall be open to holders of completed S S L C or any equivalent or higher studies, in January and July

The Course extends over the year The tuition fee may be paid either in one sum of rupees one hundred or in ten instalments of rupees ten and annas eight each

SCHOOL OF ENGINEERING, BANGALORE.

The school admits students for the Diploma Course in Civil, Mechanical or Electrical Engineering, three years' course followed by a year's practical training and for the Certificate Course in Mechanical or Electrical Engineering (2½ years' course)

The qualification for admission to the Diploma course shall be a pass in the S S L C Examination (E C) with mensuration, survey-

Methods of Imports and Exports are discussed in full in **TRADER'S MANUAL**. Re. 1/4. Industry Book Dept., Shambazar, Calcutta.

ing and workshop practice for Civil Engineering, and corresponding subject of Group C for Mechanical and Electrical Engineering. A candidate who has passed the S S L C Examination in Group B (E C) shall be eligible for admission, subject to certain conditions during the first year and in workshop practice during the vacation at the end of the first year, a candidate admitted to the Mechanical and Electrical Engineering Course shall undergo a course in one of the workshops during the vacation at the end of the first year according to the prescribed course.

The tuition fee for the course is Rs 60 per year for Mysoreans and Rs 120 per year for non-Mysoreans, payable in four equal instalments. The fee for admission is Rs 5 to be remitted with the application for admission.

The qualification for admission to the certificate course shall preferably be a pass in the S S L C Examination (EPS). There shall be only one course in Electrical Engineering. The course in Mechanical Engineering shall consist of a main subject such as Machine shop, Fitting and Plumbing, Carpentry and pattern making, Foundry, Smithy, Power Plant and Pumps, Electric Wiring, and a subsidiary subject from among the following: Fitter, Smithy, Fitter, Pattern making, Fitting, Carpentry and Fitter. A candidate for a Certificate in Mechanical Engineering in groups 1 to 6 shall, in addition, be required to attend classes in sketching, workshop practice, descriptive engineering and estimating; those taking group 7 shall attend classes in sketching, electric wiring and estimating. The tuition fee for the course is Rs 45 per year for Mysoreans and Rs 100 for non-Mysoreans, payable in four equal instalments. The fee for admission Rs 2.

The maximum number of students to be admitted shall be 75 for the Diploma Course and 75 for the Certificate Course.

Every student on admission will have to pay a security deposit of Rs 10 in respect of Mysoreans and Rs 15 in respect of others. Sports and association fees shall be Rs 5. The medical examination fee of one rupee shall be paid by the first and third year students.

THOMASON CIVIL ENGINEERING COLLEGE, ROORKEE.

Civil Engineering Class—Course 3 years. Candidates must not be under 17 or above 21 years of age. Overage candidates upto 25 years of age on June 1, preceding the examination can also appear under certain conditions. Session commences on 16th October. Application to be made not later than the 1st May. An entrance examination (fee Rs 20) is held in the first week of June. The minimum qualification is a pass in the Intermediate Examination with Chemistry or Physics and Mathematics.

Tuition fee Rs 24 p.m. Hostel Rent Rs 5-12 per mensem, Books cost about Rs 185. Final Examination fee Rs 40.

Sixteen scholarships of Rs 50 per mensem are sanctioned for this class. Of these 6 will be awarded to first year students, five to second year students and five to third year students one in each year is reserved for a scheduled caste student. Only United Provinces students are eligible for these scholarships.

Common Mess is maintained. Messing Charges (approx), Vegetarians Rs 30 and Non-Vegetarians Rs 40 per mensem. These charges are included in the monthly expenses.

Overseer Class—Course 2 years. Candidates must not be under 16 or above 21 years of age. Overage candidates upto 25 years of age on June 1, preceding the examination can also appear under certain

Methods of Imports and Exports are discussed in full in TRADER'S MANUAL. Re 1/4, Industry Book Dept, Shambazar, Calcutta

conditions. Session commences on 16th October Application to be made not later than 1st May. An entrance examination (fee Rs 10) is held in the first week of June The minimum qualification is High School Examination or its equivalent

Tuition fee Rs 6 per mensem Hostel Rent Re. 1 per mensem

Sixteen scholarships of Rs. 25 per mensem are sanctioned for this class Of these 8 will be awarded to the 1st year students and 8 to the second year students, one in each year is reserved for a scheduled caste student Only United Provinces students are eligible for these scholarships.

Draftsman Class—Course 3 years Session commences on 16th October Applications to be made not later than 1st May. The entrance examination is held in the 1st week of June The minimum qualification is a pass in School Promotion Examination in Class VIII of an Anglo Vernacular School

No fee and no rent Instruments will be supplied free.

There are 12 scholarships of Rs 4 per mensem for this class out of which three are reserved for scheduled caste students, one in each year

TRAVANCORE UNIVERSITY, TRIVANDRUM, TRAVANCORE.

Faculty of Technology.

Engineering. Degree (B Sc Eng) Diploma and Certificate Courses in Civil, Mechanical and Electrical Engineering are provided in the College of Engineering The Degree Course extends over five years (four years at College and one year's practical training) The duration of the Diploma Course is four years Admissions to both these Courses are made on the results of selective tests The minimum qualification for admission to these Courses is the Intermediate and School Final (Matriculation) Examinations respectively.

Textile Technology The Institute of Textile Technology offers three-year Diploma Courses in Textile Technology and Textile Chemistry Two-year Certificate Courses in (i) Weaving—Hand and Power Looms, (ii) Bleaching, Dyeing, Printing and Finishing, and (iii) Embroidery, Needlework and Knitting (for women only are also provided).

SUPPLEMENTARY LIST

Govt School of Engineering, Fort City, Mysore

FOREST COLLEGES

INDIAN FOREST COLLEGE, P.O. NEW FOREST, DEHRA DUN.

This college provides training for officers for Superior Forest Services

The course covers two years, and among other conditions an honours degree in a natural science, agriculture or mathematics not lower than 2nd class, or a pass degree in agriculture not lower than 1st class, is required as a qualification for entry Only those students are accepted who are deputed by their Provinces or States, or who have a guarantee of employment on their successfully completing the course. The present class (April 1942 to March 1944) consists of 28 students

The fees at present fixed are Rs 3,500 per year and the total cost of the course is about Rs 11,000 is follows —

Fees @ Rs 3,500 per year	7,000
Stipend @ Rs 100 p m (to cover living expenses)	2,400

TRADE TERMS & ABBREVIATIONS : Unique collection alphabetically arranged. As. 6. INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Travelling expenses for field training and tours	---	1,000
Camp outfit, etc	-----	600
		<hr/>
TOTAL	----	11,000

The next course will commence in April, 1944

All applications for admission should be addressed to the President, Forest Research Institute and College P O New Forest, Dehra Dun

INDIAN FOREST RANGER COLLEGE,

Dehra Dun.

This College is a residential institution attached to the Forest Research Institute and trains men for the posts of Rangers in provinces and Indian states and for private employment

There are four categories of students (1) Students already in Government service, (2) Government probationary students, stipendiary or non-stipendiary, (3) Students deputed by Indian States, British Colonies, etc, (4) Private students

Private students are not admitted unless they hold a guarantee of employment on passing out of the College

Candidates of categories 1, 2 & 3 must apply to the heads of the forest department in the province and state concerned

Candidates must not be less than 18 nor more than 25 years of age on 1st April of the year in which they are admitted

All applications must be accompanied by the following certificates a certificate of age, a health certificate in the form prescribed in Article 49 of the CSR, 5th edition, a certificate of respectability and good moral character, a certificate of having passed the Intermediate examination of any recognised Indian university with one or more of the following subjects Mathematics, Physics, Chemistry, Botany, Zoology

Every candidate will be required to pass a qualifying examination in the following subjects (1) English Essay, (2) General Knowledge, (3) Mathematics, and (4) Dictation

The examination is held in October simultaneously in a number of centres all over India

The selection of students from among the qualified candidates rests with the provinces or states concerned

All selected students, not already in Government service, will be required to undergo preliminary training in the forests for at least 3 months Before they are admitted to the College, they must produce certificates signed by the Divisional Forest Officers under whom they served and countersigned by the Conservator of the circle or by a state authority, that they have undergone the course of preliminary training satisfactorily and are likely to make useful forest officers

The College course is one of two years and starts on 1st April of each year It includes lectures at Dehra Dun and practical work in selected forests

The training fees are fixed at Rs 1,500 per annum, payable in two equal instalments each year by the deputing authorities The fees will cover the cost of tuition, lodging, light, water and other services

In addition to the fees, Indian States are required to deposit with the Director of the College, for each student, Rs 1,200 to meet the ordinary expenses of living and Rs 600 to cover actual expenses of touring Several provinces grant stipends of Rs 50 per mensem to their students

TRADE TERMS & ABBREVIATIONS : Unique collection alphabetically arranged As 6 INDUSTRY BOOK DEPT., Shambazar, Calcutta.

Students are required to wear a prescribed uniform. They are also required to live in the College hostel and to take their meals at a common mess, catering separately for vegetarians and non-vegetarians.

Successful students are awarded certificates (Honours, High Standard and Lower Standard, as the case may be) on passing out of the College.

For further information application may be made to the Director, Indian Forest Ranger College, Dehra Dun, U P.

INDUSTRIAL & TECHNICAL INSTITUTIONS.

BALASORE TECHNICAL SCHOOL, BALASORE, ORISSA.

This is the technical department of the Christian High and Technical School, Balasore. Some Industrial work is taught to all classes in the high school, Spinning in Classes IV, V and VI, Bicycle Repairing in Class VII, Woodwork and General Science in Class VIII, Toy making and electricity in Class IX, Manual Training and Commerce as additional subjects for the Matriculation Examination.

Technical Diploma courses (5 years) are offered with half time theoretical instruction and half time practical shop work in any of the following trades—Carpentry, Painting and Polishing, Blacksmith, fitting, Machine shop, Motor Car Repair, Electricity, Water Supply and Sanitation.

Artisan Courses (3 years, full time shop work) are offered in Carpentry and Blacksmith only with opportunity for the best students to proceed to other trades mentioned above.

Part Time Commercial courses are offered in Typewriting, Shorthand and Book keeping, and Full time Commercial courses with half time in office practice.

Minimum entrance requirements for Commercial work are 9th Standard passed with good knowledge of English, for Technical Diploma course Middle English passed, for the Artisan Course no educational qualifications.

BERAR VICTORIA MEMORIAL TECHNICAL INSTITUTE, Amraoti, Berar

In the Institute there are two courses, namely Carpentry and Metal. In the Carpentry section instruction is given in joinery, cabinet making, wood turning, polishing, varnishing and Machine drawing. The Metal section comprises Forging, Fitting, Moulding and Mechanical Drawing. Both sections have three years course and scholarships are awarded to students learning in the two sections. Candidates who have studied up to VIII, Vernacular Standard and who are below 19 Institute for boys of both sections. Messing charges come to Rs 5 per boy per month approximately. No fees are charged for boys who years of age are admitted in the school. New session of the school begins from the 16th June every year. A hostel is attached to the Institute.

CALCUTTA TECHNICAL SCHOOL, 110, Surendra Nath Banerjee Road, Calcutta.

The School offers the following courses of instruction—
1 Mechanical and Electrical Engineering Course. Five years' (10 terms duration) course. Candidates must have passed either the Entrance Examination of the School or the Board of Apprenticeship Train-

ing Admission Examination They must be bonafide apprentices of recognised workshops Candidates must not be under 16 years Session begins in July Tuition fees Rs 8 per month

2 Plumbing and Sanitary Engineering Course Qualifications same as above Session begins in July Tuition fees Rs 8 per month

3 Electrical Supervisors' Course of 1 year Session commences in the 1st week of March Tuition fees Rs 5 per month.

Other short courses are Shoe and leather goods manufacture, foundry work, cutlery manufacture and textile industry

CENTRAL TECHNICAL INSTITUTE, LASHKAR, GWALIOR

The Central Technical Institute is a Government Institution run by the Education Department, Gwalior Government, and provides instruction in the following courses —1 Certificate course in Mechanical Engineering (3 years), 2 Fitting Manual (2 years), 3 Carpentry (3 years), 4 Certificate course in Weaving Technology (3 years), 5 Weaving Manual (2 years), 6 Dyeing and Printing (2 years)

A fourth year advanced (Diploma) course, intended for students passing the Certificate examination in Mechanical Engineering and Weaving Technology courses is also provided Students of the Institute can as well appear for the respective and equivalent examinations of City and Guilds of London Institute for which Central Technical Institute Gwalior is one of the centres It is also one of the centres for the Drawing Examinations (both Elementary and Intermediate grades) of the Bombay School of Arts and Crafts conducted by the Government of Bombay.

The minimum qualification for admission to the certificate courses in Mechanical Engineering or Weaving Technology is that the applicant shall have passed the High School examination (with Science as one of the subjects) or any other equivalent examination recognised by the Inspector General of Education, Gwalior Government For other courses, the minimum qualification for admission is that the candidate must have passed the Gwalior State Middle Examination, or its equivalent Application for admission is to be made before 15th of July, on which date the Institute's regular session begins

Outside students shall pay a yearly fee of Rs 36 in the first year, Rs 48 in the second year and Rs 60 in the third year of any course

Excellent Hostel accommodation is also provided, but as there are only a limited number of seats available for outside students applications for Hostel accommodation should preferably be made at least two weeks before the sessions begins

Recently the Government of Gwalior has made additional provision for coaching 89 War trainees under the Government of India Technical Training Scheme in (i) Fitters, (ii) Turners and (iii) Machinists courses and the actual working with nearly the full quota of trainees has been started from the beginning of the session 1941-1942

COLLEGE OF INDUSTRY AND TRADE,

Correspondence Course in —(1) Electrical Engineering (Diploma from U S. A.) (2) Cosmetic mfg (3) Soap mfg. (4) Torch light Battery mfg (5) Dipper Rubber Goods mfg

CRAIK TECHNICAL SCHOOL, LAHORE.

There are two major Departments.—(a) Electro-Mechanical Department, and (b) Die Press Sheet Metal Works Department In each of the Departments the full course is of 4 years' duration

1 Electro-Mechanical Course —The students will be given a general idea in the following so far as they are connected with the Course — 1 Technical Drawing, 2 Pattern Making, 3 Foundry work, 4 Turning and Smithy, 5 Fitting, 6 Electro-technology, 7 Theory of Machines, 8 Electrical Design, 9 Armature Winding, etc

Candidates for admission to the Electro-Mechanical department are selected on the results of an entrance examination which is held at the end of May or early in June each year at the Science Amphitheatre of the School The minimum qualification for admission to the entrance examination is the pass of the Vernacular Final Examination, or the Anglo Vernacular Industrial Final Examination, but preference will be given to those possessing higher qualifications

II Die Press Sheet Metal Works —General idea will be given in —Technical Drawing, Die-sinking by Hand, Die Press work, Pattern making, Foundry work, Stove Varnishing, Electroplating, Sheetmetal work etc

The session begins on the 1st of June each year Casual students are admitted any time of the year

Applications for admission must be made on the prescribed form on or before 15th May.

The tuition fees vary from Re 1, to Rs 2, per month Extra Provincial students, i.e., subjects of Indian States or other non-Punjabies, are charged Rs 65 per annum as fees and are not eligible for any concession

D. B. TECHNICAL SCHOOL, BURDWAN, (Established 1893). (Aided and Affiliated under Industries Department, Govt. of Bengal).

There are 3 courses of studies —

(1) Sub-Overseer Department —Generally Matriculates are admitted in July each year There is no restriction of age and monthly tuition fee is Rs 3, besides admission fee of Rs 3, Games fee Re 1-8 and caution money deposit Rs 5 on first admission Course extends over 1 year 9 months 30 candidates are admitted

(2) Junior Technical Department —Students with M E pass or of the 4th Class Standard of H E Schools are admitted in January each year Those with age about 15 years and of good physique, are preferred for admission Monthly tuition fee is Rs 3 besides the Games and admission fees as above The course extends over 4 years and 8 candidates are admitted annually

(3) Improved Artisan Department —Students with knowledge of the class V standard of H E Schools are admitted in January each year Boys above 12 years of age are admitted without any fees

The average monthly expenses in Messes are Rs 14 nearly.

DAYANAND INDUSTRIAL SCHOOL, Langley Road, Lahore.

Courses of Study Tailoring (3 years), carpentry (3 years), book binding (1½ years) and cycle repairing (6 months) Candidates must

There is lot of money in Confectionery making. Read MANUFACTURE OF CONFECTIONERY. Re. 1/12. Industry Book Dept., Calcutta.

have read up to Lower Middle standard, minimum age 14 years Admission takes place twice a year, i.e., 1st to 31st April and October

**DEPARTMENT OF CHEMICAL TECHNOLOGY,
UNIVERSITY OF BOMBAY, BOMBAY.**

Two courses of study, textile chemistry and chemical engineering, each extending over two years, have been organised. The course in textile chemistry is intended to prepare students to occupy responsible positions in a textile mill or in an industry connected therewith, while that in chemical engineering is designed to give the student a general knowledge of chemical engineering and its application in industrial chemistry, so that he may be able to play his part in the building up of the chemical industries of the country.

A course in Pharmaceuticals and Fine Chemicals, leading to the degree of BSc (Tech), will be instituted in June 1943.

Admission—The minimum qualification for admission is a BSc of the University of Bombay in the second class with chemistry as principal and physics as subsidiary subjects or other equivalent qualification. Twelve students are admitted to the course in textile chemistry and ten to that in chemical engineering every year. The seats are allotted strictly according to merit.

Fees—The tuition fees for graduates of the Bombay University are Rs 125 per term and for other students Rs 200 per term.

Facilities for Research—Facilities are also provided for students working for the higher degrees of MSc (Tech) and PhD in the Faculty of Technology. Other qualified students intending to carry out research work within the purview of the Department are also admitted if accommodation is available. The fees for the former are Rs 30 per term, those for the latter being fixed in individual cases subject to a minimum of Rs 30 per term.

The Department is fully equipped for conducting research on all the common chemical industries. A research laboratory, and experimental dyeing laboratory, a dyehouse carrying a complete range of semi-scale plant for all processes from singeing to finishing and a very well-equipped optical laboratory are available, in which any problem in the chemical technology of textiles can be investigated. The technical chemistry and fuel laboratories provide facilities and accommodation for several workers in these subjects. The chemical engineering laboratories, containing unit plant of every type, offer opportunities for carrying out semi-scale work on chemicals and for the trying out of works processes. Special apparatus and small scale plant may be fabricated in the departmental workshop.

Arrangements have been made to supply mills and factories with copies of the research papers published by the Department.

Analytical work and technical investigations—The institution acts as a central research and analytical laboratory for the benefit of the industries of the Province.

DIAMOND JUBILEE INDUSTRIAL SCHOOL, RAJSHAHI

The following are the departments —Sub overseer—2 years' course
Class begins in July

School Final for Surveying and Manual Training

Amin—1 year's course from August

Artisan—Carpentry and Blacksmithy 3 years' course Also machine shop

There is lot of money in Confectionery making Read **MANUFACTURE OF CONFECTIONERY.** Re. 1/12 Industry Book Dept., Calcutta.

No restriction of age to the Sub-overseer and Science course classes, but the students must have completed at least 16th year for the amn and 13th year for the artisan class

School fee will be charged from the Sub-overseer students at Rs 2-8 and Rs 3-8 per month, and from Amn students at Rs 2 and Rs 3 per month, for residents of Rajshahi District and other districts respectively.

ELLIOT BANAMALI TECHNICAL SCHOOL, PABNA.

The school consists of the following departments—Sub-Overseer Department, Survey Department, Motor Mechanic Classes, Artisan or Industrial Classes

Sub Overseer class—Pass in the Matriculation Examination of the, Calcutta University or of the Dacca Intermediate Board in English, and Mathematics Session commences in July The course extends over a period of one year nine months only, the first year class running from July to June and the second year class from July to March The full course of study for the overseer students extends over a period of 4 years The first two years are termed the Sub-Overseer course, and the last 2 Overseer course

Survey Dept—Candidates must have passed at least the M E Examination Preference is given to candidates with higher educational qualification One year's course begins from August

Motor Mechanic Class—Both theoretical lessons and practical demonstrations Session commences in January Full course including driving, 1 year, fees Rs 2-8 per month Professional driving course 3 months Fees Rs 25 for the full course Special course of driving for owners, 1 month, fees Rs. 20

Artisan Course—Training imparted in carpentry and smithy. Course 4 years Free tuition

Hostel Accommodation—There are one Hindu and one Muslim Hostel for giving accommodation to the students

A number of stipends in the Sub-Overseer and Artisan classes

War Training Classes—Under the Government of India Technical Training Scheme, special classes have been opened for imparting training to the War Trainees in Turners, Fitters, Blacksmiths, Surveyors and Mechanical Draughtsmen Trades

FARDUNJI SORABJI PAREKH TECHNICAL INSTITUTE, Sonl Faha, Surat.

Three years' graduated courses in Mechanical and Automobile Engineering, and Carpentry and Furniture Making, and two years' graduated courses in Mechanical Apprentices and Motor-Mechanics, and one year's Electrical Wiremen's Course

Fees of Rs 11 per term ($\frac{1}{2}$ year) for Mechanical Engineering, Automobile Engineering and Electrical Wiremen's Courses, and a fee of Rs 3 per term for the Mechanical Apprentice, Motor Mechanics and Carpentry Courses Applications should be sent before the 5th June Session commences from June.

Candidates for admission to Mechanical Engineering and Automobile Engineering Courses must be above 15 Students who have passed English VI Std are admitted Those who possess less qualifications than above are admitted to any one of the remaining Courses

Minimum cost of living at Surat is Rs 15 to Rs 18 per month

One year course in Handmade paper making industry has been added

If you want to market Crops, learn preliminary process from PREPARING CROPS FOR THE MARKETS. Re. 1/12. Industry Book Dept., Cal.

GOVERNMENT CARPENTRY SCHOOL, ALLAHABAD.

The School is under the control of the Director of Industries U P Application for admission should reach the Principal not later than June 30th and, if necessary, an examination may precede admission.

The following classes are run —(1) General wood-working class (Course 3 years), (2) Advanced wood working class (Course, 3 years) Admission to this class is made on completion of General Wood Working class, (3) Teachers' Training class (Course 2 years, admission being restricted to men who have completed the General or Advanced Classes in the Allahabad or some kindred school, or who can demonstrate their ability to take up the subjects within the period prescribed for this course), (4) Polishing and Painting Class (Course 3 years) and (5) Upholstery class (Course, 3 years) Special Classes for Factory foremen and Managers may also be arranged

All Tuition is free for U P students and substantial prizes are given on merit each year

**GOVERNMENT CENTRAL WOOD-WORKING INSTITUTE,
Bareilly, U P.**

The institute trains wood-workers in the use of improved hand and machine tools and provides facilities for the training of men in the allied trades of timber seasoning, wood-finishing and upholstery Instruction is provided in both machine and handwork

Session commences on July 1, and ends on May 19 each year and application on the prescribed form must reach the Principal of the Institute not later than June 15 each year Admission are made on the result of an examination held on the opening of the session

The following courses of instruction are provided —

Cabinet-making and Joinery (2 to 3 years' course), Wood-working Machinist's Course (3 years), Painting, Polishing and Wood-finishing (2 years), Upholstery (2 years), Kiln Seasoning Course (1 year).

GOVERNMENT INDUSTRIAL SCHOOL, BELLARY

The School provides instruction in cabinet-making and general mechanics course No tuition fee is charged and apprentices who make satisfactory progress are paid stipends

44 fitter trainees and 4 turners are being trained in this school under the Technical training scheme started by the Government of India, Department of Labour

GOVERNMENT INDUSTRIAL SCHOOL, CALICUT

The school was started in July 1929 It provides full time instructions in Mechanical Engineering and Cabinet making Students with S S L C or equivalent general educational qualifications are admitted to the former and those with lesser qualifications to the latter The Courses are of five years' duration and the education is imparted free Admission is made in July Students attending these courses are paid daily wages ranging from 3 As to 6 As

The following additional course was started in 1938

Casting and Metal Working Course of one year's duration Admission is limited 12 in any one year Four scholarships at the rate of Rs 5 per mensem are awarded to deserving poor students

About 150 War Technicians are being trained in the school now

GOVERNMENT INDUSTRIAL SCHOOL, MADURA

The School provides apprenticeship in carpentry and cabinet making, general mechanic's work and metal work and a short special course

If you want to market Crops, learn preliminary process from PREPARING CROPS FOR THE MARKETS Re. 1/12 Industry Book Dept, Cal.

of 12 months in oil engine driving and the care and management of running machinery Besides, a course of two years, to train pupils in Practical Wiring has been introduced

Admissions are made on 1st July each year Candidates must be over 15 but under 18 years No fees will be charged for tuition The hostel fees about Rs. 12 monthly Special short courses in oil-engine driving and the care, adjustment and economic running of industrial machinery are also conducted Fees will be charged at Rs 12 per month

Fees for Practical Electrical Wiring Course, Rs 8 per annum There is a hostel attached to the school

GOVERNMENT METAL WORKING SCHOOL, ALIGARH, U. P.

There are two courses of instruction --(i) Mechanics class of three years' duration, (ii) Artisan class of two years' duration

Mechanics class—Qualifications up to middle standard The medium of instruction is vernacular, except for technical terms which will be English

Artisan class—No educational qualification necessary, except that candidates shall be literate, preference to be given to boys of artisan class The course is thoroughly practical There will be three sections, (a) Lockmaking and Engraving, (b) Sheet metal work and Pressed metal work, (c) Building and Furniture Fittings

No tuition fee from students of the United Provinces Games fee Rs 3 per annum from all students Age—Ordinarily not less than 14 years

Application for Admission should reach the Superintendent before the 1st of July Session commences from 1st July

GOVERNMENT METAL WORKS INSTITUTE, AMBALA CITY.

The Institute is equipped with the most up-to-date Machinery and provides 4 years training in the Trades of Automobile repairer, Machinist, Turner, Pattern makers and foundry makers

Institute Fee is As 12, Hostel Fee is Rs 4, Institute Security is Rs 10 Hostel Security is Rs 2, Library Security is Rs 2 Boarding house is provided for outsiders

Candidates for admission must have minimum qualifications of vernacular middle Matriculates below 20 years are preferred

GOVERNMENT METAL WORKS INSTITUTE, Paris Road, Sialkot.

The Institute provides practical training in Metal work by modern methods, including the use of power Machines, and gives the students a sound knowledge of Mechanical Drawing and theory

Qualifications for Admission First preference Matriculated, Second preference Anglo-Vernacular industrial final school passed Third preference Vernacular industrial final school passed, Fourth preference Vernacular final passed

Admission to the Institute takes place in April and May each year Not more than 30 pupils are to be admitted in the regular course Fees Punjabi students in all classes Annas 12 per mensem Non-Punjabi students Rs 155 per annum

GOVERNMENT RATTAN, CARPENTRY & SMITHY SCHOOL, University of Travancore, Trivandrum.

The School has three sections (1) rattan; (2) carpentry and (3) smithy The course on carpentry and smithy extends for 3 years and

You like to prepare chocolate, lozenges, drops, etc. Read MANUFACTURE OF CONFECTIONERY. Industry Book Dept, Shambazar, Cal.

that on rattan for 2 years. The school year begins by the 2nd week of July, candidates for admission to the school shall be Holders of vernacular school leaving certificates or should have passed English third form.

In addition to the above courses, this school also imparts instructions in carpentry (theoretical and practical) and machine drawing to the diploma and certificate course students of the Institute of Textile Technology, University of Travancore.

GOVERNMENT SCHOOL OF TECHNOLOGY, MADRAS.

The following are the courses of study in the institution —

	Duration	Fees
1 Mechanical Engineering	5 Years	Rs 36/- per year.
2 Electrical Engineering	4 "	" 36/- "
3 Printing —		
(a) Composing and Proof-reading	2 Years	Rs 12/- per year.
(b) Machine Binding	2 "	" 12/- "
(c) Binding & Management for those who have completed courses (a) & (b)	1 "	" 12/- "
4 Practical Elec Wiring	2 "	" 12/- "
5 Mechanical Drawing Classes in		
(a) Metal Work	2 "	" 5/- "
(b) Wood Work	2 "	" 5/- "

Students will be admitted to only one course at a time. The minimum general educational qualification for admission to the course (1) to (3) is S S L C.

Diplomas of L M E, I E E, and L P T, are awarded to successful candidates in Mechanical Engineering, Electrical Engineering, and successful candidates in other subjects.

There is also a Preparatory Section for young boys with 1st form or 8th standard qualification and who are below 14 years of age.

The Perambur Branch School is attached to the Madras and Southern Mahratta Railway Workings.

The school conducts the Electric Wiring Competency Examination and the examinations of the City and Guilds of London Institute, London.

6 Plumbing Course	2 Years	Rs 12/- per year
7 Minor Sanitary Service—1 year for those who have passed Plumbing and who have studied upto S S L C	--	Rs 12/- per year.
8 Light Metal Casting Section—for young boy 8 year, no tuition fee is charged		

GOVERNMENT TECHNICAL INSTITUTE, GORAKHPUR.

Mechanical and Electrical Engineering Class—Course is of three years, followed by two years' practical apprenticeship in recognised mills and factories.

The minimum qualification for admission is Class X standard of an Anglo-Vernacular School. A competitive examination is held in July. Candidates should be between 15 and 20 years of age.

Training in the Artisan class is given in the following sections: Electric wiremen's work, Engine and Boiler attendants work, Pattern making and moulding shop work, Machine shop work, smithy and fitting shop work. Fees for Mechanical and Electrical Engineering class

You like to prepare chocolate, lozenges, drops, etc. Read MANUFACTURE OF CONFECTIONERY, Industry Book Dept, Shambazar, Cal.

is Re 1, per mensem and Artisan class As 8 per mensem Non-U. P men are required to pay Rs 360, per year as institute fees

GOVERNMENT TECHNICAL INSTITUTE, JHANSI.

Age limit for admission is 17 to 19 years on the 1st January following the admission examination Educational qualifications—High School examination pass or Junior Cambridge with mathematics Admission examination is held in November each year

Course of training—Railway Mechanical and Electrical Apprentice Class (9 months in the shops at Jhansi or Bombay and 3 months at the Institute for the first four years and the complete fifth year in the shops) Period of training five years

GOVERNMENT TECHNICAL INSTITUTE, LUCKNOW.

The institute provides training in the following branches and is a centre for the City and Guilds of London institute Examinations

(a) (i) Mechanical Engineering course, (ii) Electrical Engineering course The duration of course is 3 years followed by 2 years of practical apprenticeship in railways or other workshops Admission to these classes will be opened only to those students who have passed the High School or an equivalent examination or the Senior Cambridge Examination with Mathematics and Physics as subjects in each case

(b) Light Machine Mechanics course—Three years' training in the Institute Candidates who have passed or appeared for the VIII class of High Schools are eligible for admission

(c) Painting class—Three years' training in institute

(d) Oil Engine driving class—Five months' training in institute. Admission to this class will be made on the 1st July and 2nd January.

Fees—Engineering (Mechanical and Electrical) and Light Machine Mechanics—Re 1 per month Oil Engine driving—Rs 15 for the whole session of five months No fees are charged for Painting and Saturday Morning and Evening Classes Ex-provincial students are admitted only on special terms

Hostel—A hostel is attached to the institute and Re 1 per month as hostel fee (inclusive of medical fee) is charged Admission fee of Re 1 is charged extra The approximate cost of living in the hostel is Rs 15 per month

GOVERNMENT TRADES SCHOOL, MANGALORE

The classes consist of a mechanics course of five years' duration for the benefit of apprentices employed in general engineering in the local factories and workshops and a Wood-workers' Course of two years' duration The syllabus followed is that adopted for the Engineering classes of the Perambur branch of Government School of Technology, Madras The school is a training centre for War-Technicians approved by the Government of India

HARCOURT BUTLER TECHNOLOGICAL INSTITUTE,

P O Nawabgunj, Gawnpore, United Provinces

There are two separate sections in the Institute—(1) General Research Section, and (2) Oil Section

General Research Section—There is no regular teaching in this section but advanced research workers who possess a degree in science or agriculture are admitted for a period of two years, the number being limited to a maximum of three each year These advanced research workers by actual work and being associated with and helped by the staff of the section, receive training in methods of industrial research Two of the above workers who have obtained the diploma of the Institute may be admitted in the Post Diploma Course in the

Want to Prosper in Business Read HOW TO DO BUSINESS. Re 1/4.
INDUSTRY BOOK DEPT., Shambazar, Calcutta.

General Research Section for a further period of two years advanced research on completion of which they are entitled to Fellowship Diploma of the Institute if the work is satisfactory

Oil Section—There are three courses in this section (1) A two years' diploma course for oil technologists to which twelve students who possess the BSc degree in science or agriculture are admitted every year (2) A two years' post diploma course to which three students, who have obtained the diploma of the Institute, may be admitted each year (3) Three short courses of six to eight months in (i) oil milling (ii) soap making, or (iii) the preparation of oils, paints and varnishes, to which eight students who possess a degree in science or agriculture are admitted each year

No tuition fee is charged from U P students. In case of available vacancy Non-U P students are admitted only on payment of Rs 500 per annum for regular courses, i.e. the major course of two years' duration, and Rs 25 per month for the minor courses

The application for admission should be made in the prescribed form and should reach the Principal complete in every respect, before June 15. A registration fee of Re 1 and a deposit of Rs 15 should be sent along with the application

There is a hostel attached to the Institute. It provides accommodation for about seventy students. A fee of Rs 3 per month per student is charged. Students make their own messing arrangements

HINDU INDUSTRIAL INSTITUTE, 25, Amherst St., Calcutta.

This institute provides free training to Hindu boys in tailoring, book-binding, embroidery and knitting. Accommodation in school hostel for 20 boys. Admission fee Rs 5 only. No other fees. Scholarships awarded to poor and deserving students. Raw materials for practice provided by the school free of charge. Students are helped to find employments or to establish their independent business after finishing the course of training

IMPERIAL INSTITUTE OF SUGAR TECHNOLOGY, CAWNPORE.

Regular Courses—There are six regular courses of training for students desiring to qualify for technical posts in sugar factories, viz., the Fellowship Courses in Sugar Technology and in Sugar Engineering, the Associateship Courses in Sugar Technology and in Sugar Engineering, the Sugar Boilers' Certificate Course, sugar engineering certificate course

Short-term Courses—Special short courses are held during the non-working period of sugar factories, from July to October each year. They are specially suitable for men whose services are not needed at the factory during the non-working season. The short term courses are (1) Chemical Control, (2) Bacteriology, (3) Pan Boiling, (4) Fuel and Boiler Control, (5) Statistical Methods (for research students), (6) Statistics (for sugar students), (7) Dutch Language and (8) German Language (9) Milling Plant operation and Control and (10) Sugar Storage. The first two extend over two sessions while the rest are of one session. The last date for the receipt of applications for admission to all sugar courses is 10th June and the new session for them starts from 10th July. Admission to the Associateship Course in Sugar Engineering will be received upto 15th July and the new session will start from 7th August

J. N. TATA HUNARSHALA (TECHNICAL INSTITUTE), Khushrooh Building, Navsari, (Baroda State).

Courses of instruction, (1) Mechanical Engineering, (2) Workshop apprentice course, (3) Electrical Wiremen's course and (4) Cabinet mak-

INDUSTRY BOOK DEPT., Shambazar, Calcutta.

ing course Each course except the Electrical Wiremen's course takes 3 years and the Wiremen's course takes one year Mechanical Engineering classes admit students who have studied up to VII standard The term commences from June 15th Fees for Mechanical Engineering Workshop apprentice course and Electrical Wiremen's course are Rs 11, per term of 6 months and Rs 4 for cabinet making A student's average monthly expenditure is Rs 20

JAMSHEDPUR TECHNICAL INSTITUTE, JAMSHEDPUR.

The Tata Iron & Steel Company consider applications for admission to the Jamshedpur Technical Institute, from Indians who wish to take up a career at the Company's Works at Jamshedpur and who possess any one of the following qualifications —

Class B A Degree or Diploma in Mechanical or Electrical Engineering or Metallurgy of a recognised Indian or Foreign University, Technical Institute or College

Class A (1) An Honours of First Class Degree or Diploma in Mechanical or Electrical Engineering or Metallurgy of a recognised Indian or Foreign University, Technical Institute or College, preferably accompanied by Works experience Abroad

Class A (2) An Honours of First Class Degree or Diploma in Mechanical or Electrical Engineering or Metallurgy of a recognised Indian or Foreign University Technical Institute or College, accompanied by not less than 6 months continuous practical experience after graduation in an Iron and Steel Works Abroad

The age of a candidate on December 31st 1942 must not exceed —(1) Graduates in Engineering or Metallurgy, Foreign Universities, 27 years, (2) Graduates in Engineering or Metallurgy, Indian Universities, 24 years

Applicants must be of robust physique and be fit to perform hard manual labour and pass a medical examination by Company's Medical Board at Jamshedpur before being accepted for admission.

A combined theoretical and practical training of two years' duration is given at the Institute and in the Works of the Company

Apprentices will receive Rs 75 per month during the period of their apprenticeship if in Class A (1) or Rs 50 per month if in Class B, or Rs 200 per month if in class A2 Selected candidates will be required to supply a surety

The approximate cost of living for apprentices in Jamshedpur is Rs 50 per month Hostel seat rent Rs 4 per month

On completion of their training, the General Manager will select such apprentices as he considers suitable for employment with the Tata Iron & Steel Co, Ltd

KALA-BHAVAN TECHNICAL INSTITUTE, BARODA

For Diploma Courses candidate must have passed Matriculation or Senior Cambridge or Oxford Senior Local Examination except for Painting For admission in Painting a student must have passed the intermediate grade examination in Drawing Candidates must have completed their 16th year. Standard of admission for all Certificate courses except the Commercial course is Vernacular V Std or English III Std pass For women's course the standard is English V Std

Diploma courses Engineering —(1) Mechanical Engineering (2) Civil Engineering (3) Electrical Engineering Technology —(1) Chemical Technology and (2) Weaving Technology Art & Architecture —(1) Architecture (2) Painting Certificate Courses —(1) Turner,

Organise your business with hints from "Theory & Practice of Commerce and Business Organisation." Rs. 4/8. Industry Book Dept, Calcutta.

Filter or Foundry & Smithy (2) Wiremen (3) Carpentry (4) Dyeing & Textile Printing or Soap making (5) Weaving (6) Draftsmanship & Tracing (7) Photography & Photo-Process (8) Motor Mechanics (9) Drawing (10) Commerce (11) Typewriting & Shorthand

The tuition and other incidental fees are as follows —

For Baroda State subjects —Diploma—Rs 71/- per year Certificate—Rs 37/- per year, Vocational Course—Rs 52/- per year For outsiders —Diploma—Rs 101/- per year, Certificate—Rs 67/- per year, Vocational Course—Rs 77/- For Typewriting Course for Baroda subject or outsider—Rs 52/-.

Kala-Bhavan Hostel can accommodate about 50 students only. The cost of living in Baroda is about Rs 30/- per month

KERALA SOAP INSTITUTE, CALCUT.

Training of apprentices —Apprentices are admitted for training in the manufacture of soaps. There are two courses of training. The long course extends over a period of one year and the short one covers three months. Students who have undergone the long course may take an advanced course of training for a further period of one year. Term begins from the middle of June

Fees	Students from the Madras Presidency	Students from other Provinces including Indian States
	Rs	Rs
One year's course	100	150
Short course	75	125
Advanced course	50	50

Qualification S S L C, but in special cases applications from candidates with lower educational qualifications will be considered

LAL SINGH MANSINGH INDUSTRIAL SCHOOL

Mainpuri, U. P.

Session begins from July and ends in May. Training and lodge free. Qualification for admission is vernacular final standard. Courses consist of carpentry, cabinet making, polishing upholstery, drawing, fret work, burnt wood work, tarkashi, tailoring, weaving, designing, calculation, drawing, dyeing, spinning, cane work, music (vocal and instrumental) and Blind class for teaching music, cane furniture making, cutting, sewing, tailoring. Carpentry and Tarkashi have 3 years' course each, Weaving and Tailoring 2 years' course each. Monthly expenses of a student are Rs 8 only.

MOBERLY TECHNICAL SCHOOL, HOOGHLY.

Artisan Class —There are arrangements for the following courses of study —Electrical wiring shop (2 years course), Carpentry (3 years course), Smithy (3 years course), Fitters shop (3 years course), Machine shop (3 years course), Motor Mechanics shop (2 years course). There will be no age limit for artisan boys.

Junior Engineering Classes —Boys between 12 and 15 years of age will be admitted for those who intend to go for Board Apprenticeship Examination, otherwise no age limited. Boys in this department are trained to be Junior Mechanical and Electrical Engineer.

Students who have read at least up to the fourth class or class VI of the High School or up to the First class of an M E School will be eligible for admission into Junior Technical Department, while those who are at least barely literate will be admitted to the Artisan classes.

The session commences from January

Organise your business with hints from "Theory & Practice of Commerce and Business Organisation," Rs. 4/8. Industry Book Dept., Calcutta.

A fee of Rs 3 per month will be payable by the Junior Technical Department students as well as by the artisan Students in the Motor Mechanics shop and Electrical wiring shop should pay Rs. 5 per month

There is a short course of 3 months duration in Motor Shops for Driving only Fee Rs 50 only, payable in advance

There is an attached Boarding house for mofussil students Seat Rent free Expenses for messing about Rs 7 to Rs 8 only

MUNICIPAL MAHILA SHILPA BHAWAN, TRADE & INDUSTRIAL DEVELOPMENT COMMITTEE, Municipal Board, Allahabad.

The school imparts vocational education to poor and middle class adult women Instructions are given in Embroidery of Tailoring, Plain-sewing, Fancy Leather Craft, Knitting, Weaving, Toy-making, Jewellery box making, Card-board box making, Rag doll making, Cane work, Book binding, etc Lectures are also given on "Sick-Diet," Home-nursing, Care of babies, Cooking and Confectionery. Students read upto Primary IV standard are directly admitted in the 1st year and they complete the Diploma course in 2 years No tuition fee is charged from students coming from a family having an income upto Rs 50 p m, but they will be charged conveyance fee only Applicants must be above 15 years of age Admissions are made from July

O'BRIEN TECHNICAL INSTITUTE, KOLHAPUR.

There are various branches in which candidates will be given theoretical and practical training—1 Mechanical Engineering (3 years), 2 Mistry class (3 years), 3 Manual Training (2 years), 4 Weaving (2 years), 5. Electro plating (1 year), 6 Engraving (1 year), 7 Dyeing (1 year) Medium of instruction is mainly marathi and English

Term—Each year is divided into two terms, the first term extends from the 10th June to the 30th September, the second from 1st November to the 20th April

Admission to students in all the classes, is given every year in the second week of June Applications for admission should reach the Superintendent on or before the 31st May of each year

Fees for each branch per term—(1) Mechanical engineering Rs 15, (2) Mistry class Rs 10, (3) Manual Training Monthly Fee of Rs 2 only (4) Weaving Rs 5, (5) Electro plating Rs 10, (6) Engraving Rs 10, and (7) Dyeing Rs 5, Qualification for admission—(1) students for Mech Engineering Class, electro plating and dyeing must have passed the English Standard VI, students for Mistry class must have passed Standard V

Monthly expenses including boarding and lodging Rs 12 to 15

PREM MAHA VIDYALAYA, BRINDABAN.

(The Free Industrial National College).

of measurement, Cutting and paper Cutting Students able to read and write Hindi well are admitted to special and Tailoring classes.

Spinning and Civics are compulsory for all students.

RANCHI TECHNICAL SCHOOL, RANCHI

The Institute offers five years' improved apprenticeship course of training in the following trades.—Carpentry, pattern making, cabinet making, printing and polishing, moulding, smith's work, fitting, machining, electrical fitting or electrical wiring, motor machines

Candidates for admission should be between the age of 15 and 19 years Selection is based on the result of a competitive admission examination up to the middle vernacular standard held in January. The period of training is not less than five years

Tuition Free A number of stipends ranging from a minimum of Rs 5 per month in the first year and gradually rising to Rs 12 by annual increments are available

Instruction comprises lectures in theory as well as craftsmanship training in the workshop The medium of teaching is vernacular. (Hindi)

SRI CHAMARAJENDRA TECHNICAL INSTITUTE, MYSORE.

Subjects of instruction —

Five Years' Courses —(1) Drawing and Painting comprising Free-hand, Geometrical, Perspective, Model. Common objects and Nature and Painting in Oil, Water-Colour, Tempera etc., from Casts of ornaments, Antiques, figures Flowers, Fruits, Still life, Drapery and Living model, (2) Modelling in Clay, Wax and Plaster of Ornaments, Antiques and Life figures, (3) Inlaying, (4) Engraving and Enamelling, (5) Metal Work, (6) Rattan Work, (7) Fitters' Work, (8) Black smithy, (9) Wood Carving, 10) Sandalwood and Ivory Carving

Six Years' Course —Carpentry and Cabinet making

Designing for furniture, inlay, carving and other artistic industries is included in the syllabuses for the above subjects

Applications for admission should be made between 15th May and 1st July Admissions are restricted to students who have completed the primary Course in general Education Admission Fee Re 1

Fees and Stipends —No tuition fee is charged to Mysoreans Non-Mysoreans should pay Re 1 per month for Industrial Classes and Rs 2 for Drawing and Painting sections Stipends are granted to Mysoreans only For further particulars and prospectus apply to the Superintendent, Chamarajendra Technical Institute, Mysore

SRI KRISHNA RAJENDRA SILVER JUBILEE TECHNICAL INSTITUTE, Bangalore.

The Institute imparts instruction in the following courses —

(1) The Diploma Course in Textile Technology In this Course, branches of textile (cotton, silk and wool) manufacture—i.e., weaving and hosiery, dyeing, bleaching, printing and finishing of textile fabrics—will be imparted to enable the young men thus trained to organize and work small scale factories, to enter into business connected with textiles, or to occupy responsible positions in organized large scale textile industries The course extends over three sessions (three academic years) at the institute followed by practical training in an approved mill or factory for a period of six months

The candidates seeking admission to this Course should not be more than 22 years of age in the case of Brahmans and 24 years of age in the case of non Brahmans and should have passed the Intermediate

"Sketches of Indian Industries" discusses industrial situations and industrial ideals Vol. I & II. Re. 1/4 each. Industry Book Dept., Calcutta.

(Science) Examination, with Physics, Chemistry and Mathematics as special subjects of the University of Mysore as its equivalent

(2) The Certificate Course in Textile Technology The training imparted in this course will, so far as the practical requirements of the industry are concerned, be similar to that of the Diploma Course, instructions in theory being less exhaustive and limited only to the essential requirements The Course extends over a period of two years at the Institute followed by practical training in a recognised mill for a period of six months on the satisfactory termination of which a certificate will be awarded to the successful candidate The candidate seeking admission to this Course should not be more than 20 years of age (next birthday) and should have completed the S S L C Course, preference being given to those who have taken weaving as a vocational subject in the Secondary School Course

(3) The Artisan Course This Course is intended to train up candidates in theory and practice of any of the following sections of the Textile Industry 1 Handloom Weaving, 2 Powerloom Weaving, 3 Dyeing and Printing, 4 Hosiery The course extends over a period of one year The instruction will be in Kannada

The number of candidates to be admitted in the next session to the Diploma, Certificate and Artisan Courses is limited to 12, 15 and 20, respectively

SRI MEENAKSHI TECHNICAL INSTITUTE,

Great Cotton Road, Tuticorin.

The Institute offers coaching for the City and Guilds Examinations Grades I, II and III in Electrical Engineering

TECHNICAL COLLEGE, DAYALBAGH, AGRA.

This college admits students for the Mechanical Engineering, Electrical Engineering, Automobile Engineering, Leather Working and Wiremen's Classes Candidates for the Mechanical & Electrical Engineering Classes must be at least High School finals with Science, those for the Automobile Engineering and Wiremen's Classes must hold a certificate of having passed Class VIII with Science, while candidates for the Leather Working Class must be able to read and write English or one of the vernaculars of the province viz Urdu and Hindi

Courses of study extend to four years in the case of Mechanical & Electrical Engineering Sections, two years in the case of Automobile Engineering Section, 3 years in the case of the Leather Working Section and one year in the case of Wiremen's Section Tuition fees for the Mechanical & Electrical Engineering Classes are Rs 2 p m, for the Automobile Engineering Classes Rs 5 per month, during the first year and Rs 8 per month during the second year and Rs 2 per month for the Wiremen's Class, while instruction in the Leather Working Classes is free of tuition fees Sessions begin on July 8 Last date for application, June 30 Hostel accommodation available for Mechanical and Electrical & Automobile Engineering students only The college is a centre for the examinations held by the Department of Technology, City & Guilds of the London Institute These examinations are also open to outsiders

TECHNICAL SCHOOL AT KANCHARAPARA.

Apprentices are admitted annually in July, the apprenticeship commencing on the first working day of the month Candidates must have passed the Admission Examination of the Board of Apprentices-

POPULAR HANDBOOKS As 5 each Write to.—
INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

ship Training and they must not be below 16 nor over 19 years of age on the 1st of July of the year in which they desire admission

The syllabus and rules for the Admission Examination may be obtained from the Secretary, Board of Apprenticeship Training, 110, Suiendra Nath Banerjee Road, Calcutta and application for permission to sit for the examination must be made to him

Each apprentice is given a stipend in addition to free board and lodging The stipend rises by annual increments from Rs 10 per mensem in the first year to Rs 30 per mensem in the 5th year, the increments being subject, in every case, to satisfactory work both in the Workshops and the School

The ordinary period of training is for 5 years in the Railway Workshops and the Technical School The classes are held during workshop hours and each apprentice has to attend his class for about 10 hours a week Alternatively, an apprentice, after 4 years' satisfactory training at Kancharapara, may go for higher training to the B E College, Sibpur, and qualify for the diploma in Mechanical and Electrical Engineering or the Associationship in Mechanical Engineering of the Board of Apprenticeship Training A number of scholarships are awarded on the results of the examination for admission to the College

There is no guaranteed employment on the completion of training

TIRHUT TECHNICAL INSTITUTE, MUZAFFARPUR.

Industrial Diploma Class—These classes are intended to prepare students for an active part in modern manufacture Training is given in (1) Carpenter's shop, (2) Cabinet maker's shop, (3) Painter's shop, (4) Smithy, (5) Fitting shop, (6) Machine shop, (7) Pattern shop, (8) Foundry, (9) Motor shop

The course of instruction will ordinarily cover five years Instruction is given in the vernacular and includes lectures in theory as well as practical training in the workshop

Candidates for admission must not be below the age of 15 and above 19, and preference will be given to the natives of the province and persons domiciled therein Selection is based on the result of an admission examination followed by a personal interview with the Superintendent Fifteen stipends ranging from Rs 5 to Rs 18 per month are awarded each year in this section, for each class

Leather working—The length of the course of instruction is two years Instructions, practical only, are given in Vernacular

Candidates should preferably be between the ages of 15 and 18 years and should have passed the middle vernacular or higher examination Artisans in those classes are paid stipends calculated roughly on the amount they are capable of earning and varying in value from Rs 4 to Rs 8 p m Fifteen stipends are awarded each year in this class

VICTORIA JUBILEE TECHNICAL INSTITUTE, King's Circle, Matunga, Bombay.

The following are the courses of instruction at the Institute —

Mechanical Engineering, Electrical Engineering, Textile Manufactures, Technical and Applied Chemistry embracing specialised courses in (a) Textile Chemistry—Dyeing, Bleaching and Sizing, (b) Foods and Drugs, (c) Technology of Oils, Fats and related products, and Sanitary Engineering and Plumbing Each course extends over four yearly sessions, and Diplomas (according to the standard attained) are awarded by the Board of the Institute to students who pass their Final Examinations

POPULAR HANDBOOKS As. 5 each. Write to:—
INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

Candidates for admission (who should not be less than 16 years of age) are selected on the result of the Entrance Examination which is held early in June at the Institute (and also in Calcutta, Cawnpore, Lahore, Madras, Nagpur, Patna, Cuttack and Karachi under the supervision of the respective Directors of Industries) Applications are accepted only on the prescribed forms obtainable from the Institute There are two terms per session and the fees per term are Rs 65 for bonafide Bombay Presidency (excluding Indian States) students and Rs 90 for all others

Hostel accommodation is available for 150 students in 75 rooms The rent is Rs 38-8 and Rs 44-8 per term per student for ground and first floor accommodation respectively

The average expenses of a student, inclusive of fees, boarding, lodging, books, tools, etc are about Rs 60 per month

The Institute also conducts Apprentice Classes (Short Courses) in Engineering, Textile Spinning and Weaving, Wiremen's and Electrician's work and in the Radio Service Work, for apprentices/men employed in Engineering and Railway Workshops, Cotton Mills, Electrical and Radio Trades The classes in Radio Service Work are held on three evenings a week and the rest once a week only.

VISVA-BHARATI SILPA-BHAVANA, SRINIKETAN.

The Institution imparts training to apprentices in the following crafts —

Weaving, Durry, Carpet and Ashana-making, Dyeing and Printing Textiles, Lacquer work, Leather work, Book-binding, Pottery, Carpentry, Condiment-manufacture, etc

SUPPLEMENTARY LIST.

Boys' Industrial School, Balasore, Brojo Mohan Technical Institute, Backerganj, Chemical & Toxicological Institute, Goa, Govt Industrial School, Delhi, Industrial School for Boys, Berhampore, Jamalpur Technical Institute, Jamalpur, Krishna Vilas Technical Institute, Tanjore, Khalsa Industrial School, Darya Ganj, Delhi, Maharajah Cossimbazar Polytechnic Institute, 1 & 3, Nandalal Bose, Lane, Baghbazar, Calcutta, Mahila Shilpa Bhaban, 6-1, Vidyasagar St., Calcutta, Mahila Vidya Bhaban, 1-6, Raja Dinendra St., Calcutta, Nabadurga Free Industrial School, Banamali Naskar Road, Behala, Calcutta, Nani Siksha Samity, 6-1, Vidyasagar Street, Calcutta (For ladies only), National Electric Institute, (Regd.), Mahuva, Kathiawar, Monohar Academy, 45, Olai Chandi Road, Calcutta; Royal Institute of Technology, Bellmorar, Delhi, Soap Training House, Saidpur, Rangpur, Bengal, Srimulam Technical School, Travancore, St Joseph's Industrial School & Press, Trichinopoly (Metal Casting, Turning & Fitting, Cabinet Making, Painting), Surma Valley Technical School, Sylhet, Sree Andhra Jatiya Kalashala, Masulipatam, Victoria Technical Institute, Pantheon Road, 5, Egmore, Madras, Indian Bakery and Confectionery Institute, 10-1, Chakraberia Road, Bhawanipur, Calcutta

MERCANTILE MARINE.

INDIAN MERCANTILE MARINE TRAINING SHIP "DUFFERIN," Mazgaon Pier, Bombay.

Candidates seeking admission must be British subjects, whose parents are domiciled in India, or subjectss of a Ruling Prince in India, and must be between the ages of thirteen years 8 months and sixteen on January 15th of the year of entry into the "Dufferin" They will be required to pass a qualifying examination in Arithmetic,

Solve unemployment Problems? Read CAREERS FOR AGENTS & MIDDLEMEN. Industry Book Dept, Shambazar, Calcutta.

Algebra, Geometry, English, History, Geography and General Knowledge conducted in English and set on the syllabus of a standard three standards below Matriculation. This examination will be held about the 1st of November simultaneously at Bombay, Calcutta, Lahore, Lucknow, Patna, Madras, Delhi, and Karachi each year.

Candidates who pass the qualifying examination will be required to come to Bombay for an interview with the Selection Board and to undergo an eye sight test for vision and colour blindness, also a medical examination. Certificate of fitness from a Government medical officer, not below the rank of an Assistant Surgeon, must accompany the candidate's application. These tests and the selection will ordinarily take place about the 8th of January.

The full course in the training ship lasts for 3 years. Each year is divided into 2 terms. First term January 10th to May 31st, Second term September 1st to December 10th.

Fees are Rs 50 plus Rs 10 for extras for each month of residence, and the cost of uniform on joining and upkeep. The fees are payable strictly in advance. The first term's fees, payable before the 10th January, amount to Rs 225, the second term's fees payable before 1st September, amount to Rs 175. These fees include board, lodging, tuition, medical attendance and games.

After completing the course Executive cadets proceed to sea as apprentices in shipping companies, the initial expenditure incurred at that time being about Rs 700 to Rs 1,000.

Engineer cadets proceed to certain approved Dockyards or Workshops as apprentices for further training prior to going to sea as Engineer Officers.

About 27 scholarships—Government and private—are available to cadets of either branch while training on board the "Dufferin," and also about 16, while serving as apprentices in the case of engineer ex-cadets. A limited number of private scholarships are also available to executive ex-cadets during their apprenticeship at sea.

The total number of entries in each year is limited to 50 cadets, 25 for the Executive Course and 25 for the Engineering Course.

The Official prospectus giving full information of training and future prospects and containing the necessary application form will be sent on receipt of As 14 by Money Order to the Captain Superintendent, I M M T S "Dufferin," Mazgaon Pier, Bombay 10.

NB—Applications must be posted so as to reach the Secretary to the Governing Body, I M M T S "Dufferin," Mazgaon Pier, Bombay, on or before the 15th September at the latest, complete with all certificates and the Qualifying Examination Fee of Rs 10.

MISCELLANEOUS INSTITUTIONS.

ANBIAN'S COLLEGE, ARUMUGANERI, S. I. R.

The College provides the following Special Courses designed for the busy men and women: Special English Course, Cambridge Senior, London, Matric Course, Public Speaking Course, Course in Bio-Psychology, Foreign Extension degrees and Research.

AUTOMOBILE ENGINEERING INSTITUTE,

(Under the Management of—The Great Indian Motor Works, Ltd.),
33, Rowland Road, Calcutta.

Courses and Fees —1, Special Automobile Engineering Course, with driving (with allowance) for 18 months Rs 300, 2 Full Course, with driving (with allowance) for one year Rs 200, 3 Full Course, (without driving) for nine months Rs 100, 4 Full Course (with driving service

pathy, 6 months, Rs 115/-, Dietotherapy, 6 months, Rs 125/-, Physiotherapy, 6 months, Rs 125/-, Massotherapy, 6 months, Rs 125/-
There is a Licentiate Course open to Matriculates Fees from Rs 52/- to Rs 66/-

INDIAN INSTITUTE OF SCIENCE, BANGALORE.

The laboratories of the Institute provide facilities for postgraduate work in (1) Physics, (2) Applied Chemistry, (3) General Chemistry, (4) Organic Chemistry, (5) Biochemistry, (6) Electrical Technology, (7) Cosmic Ray Research Unit and (8) Aeronautical Engineering. The Departments are well equipped. The charges in the messes vary from about Rs 20 to Rs 30 per mensem excluding the fee of Rs 10 charged as room rent per month and service.

The Institute awards (1) Studentships of the value of Rs 125 per month to deserving students, for a period of one year at a time, the total period not exceeding five years. The minimum qualifications should be in all cases a Ph.D. or a D.Sc. degree or other equivalent qualification. (2) Research scholarships of the value of Rs 60 per month will be awarded to students whose minimum qualifications should be an M.Sc. degree by research or a first class M.A. or M.Sc. or Associateship of the Institute or equivalent qualification or a certificate in the case of Electrical Technology Department. (3) Research stipends of the value of Rs 40 per month are awarded to students whose minimum qualifications should be a first class B.Sc., or a B.Sc. (Hons.), first or second class of an Indian University.

Department of Physics—As the department is organised solely for research work, in physics, admission will be restricted to students having special qualifications, the minimum ordinarily required being the B.A. (Hons.), or B.Sc. (Hons.) or M.Sc. degree with distinction in Physics or Mathematics.

Department of Pure and Applied Chemistry—It is intended primarily for research work in the different branches of chemistry. Students who wish to work in the laboratories will be required to show that they possess a sound knowledge of the science before they are admitted. Facilities will be given to students who wish to study the analysis of minerals, oils, fats, etc., to those who wish to make an examination of plant extracts, essential oils, or fixed oils, and generally to those who wish to take up the study of branches of pure and applied chemistry allied to physical, inorganic or organic chemistry.

Department of Biochemistry—Preference will ordinarily be given to those who have taken either a high Honour degree in pure chemistry, or B.Sc. First Class or M.Sc. degree by research in an allied subject. Courses of advanced lectures in general biochemistry and practical classes will be held from time to time.

The Department of Electrical Technology provides advanced courses of instruction in the subjects leading to (a) the Certificate of Proficiency in Electrical Technology and (b) the Certificate of Proficiency in Electrical Commercial Engineering, and (2) affords to students who have undergone a sufficiently extensive course of training, facilities for carrying out original investigations. Applicants for admission to the Certificate courses must either be —(a) Graduates in science with physics and mathematics as their subjects or Graduates in mechanical engineering, or Graduates in electrical engineering, in which cases the courses will cover 3 years, 2 years and 1 year, respectively.

A Cosmic Ray Research Unit for work in Experimental and Theoretical Physics was started in the beginning of the session 1942-43. The

MANUFACTURE OF SOAP? Read "MANUFACTURE OF SOAP"
INDUSTRY BOOK DEPT., 22, R. G. Kar Road, Shambazar, Calcutta.

minimum qualifications for admission to this Unit are B.A. (Hons.) or B.Sc. (Hons.) or M.Sc. degree with distinction in Physics and Mathematics

A Department of Aeronautical Engineering was also started during the session 1942-43. Applicants for admission to this course should be graduates in Engineering (Electrical or Mechanical), or holders of Proficiency in Electrical Technology of the Indian Institute of Science. The course extends over 16 months.

The Central Workshop provides instruction in Workshop practice to all students of the Institute including especially those of the Department of Electrical Technology.

Classes in French and German are held for students with a view to assisting them to attain such a knowledge of these languages as will enable them to read technical journals.

INDIAN OPTICAL INSTITUTE & REFRACTION HOSPITAL, 7-1C, Lindsay Street, Flat B2, Calcutta.

The Institute imparts instructions in Applied Optics with a view to qualify students as (A) Optometrists & Opticians (B) Optical Mechanics. Minimum qualification for (A) Course is Matriculation, for (B) Course candidates should have an elementary knowledge of English and Mathematics.

Classes are held daily in the evening. The course extends over a period of 10 months and the session begins from the middle of July every year.

Fees.—(A) Course —Admission fees Rs 10, Tuition fees Rs 200, for the whole course to be paid in advance. Fees of extra course Rs 25, (for candidates not having preliminary knowledge of Light). Punkha fees Rs 3, Examination fees Rs 20, Diploma fees Rs 25.

(B) Course —Admission fees Rs 10, Tuition fees Rs 100, payable in advance, Examination fees Rs 10. Punkha fees Rs 3.

NAIR HOSPITAL DENTAL COLLEGE, Near Central Station, Lamington Road, Bombay.

Course of instruction for the Diploma of I.D.Sc. Bombay, covers four years. Students wishing to go for I.D.Sc. (Bombay) Examination must have passed at least the Matriculation Examination.

Candidates for admission must submit application to the Dean before 15th June.

SAROJ NALINI INDUSTRIAL SCHOOL FOR WOMEN, 23-1, Ballygunge Station Road, Calcutta (Estd 1925).

Subjects taught in this adult Bhadrolok Women's School —(1) Sewing and Cutting, (2) Embroidery and Drawing, (3) Carpet and Durry Weaving, (4) Plain and Fancy Cotton Weaving, (5) Cotton and Wool Dyeing, (6) Jaipur Ornamental Brass Works, (7) Knitting Socks, Scarves, Mufflers and Children's Cap by machines, (8) Toy Making, (9) Leather Embossing, (10) Fret Work, (11) Music and (12) General Education in English and Bengali upto Class VII standard.

Girls of sixteen and above are admitted in the School Industrial Section is free but there is a nominal fee for literary classes and a bus fee of Rs 4 to Rs 5 per month is charged according to the distance. 5 per cent of the students are granted free studentship. Literary training is compulsory. Charges for the attached Boarding House (for Hindus only) —Seat rent Rs 4, Messing Rs 7 per month.

There is also a Teachers' Junior Training Class for women.

Up-to-date methods of production, preservation and marketing of fruits are given in **ALL ABOUT FRUITS**, Rs. 2/8. Industry Book Dept., Cal.

SCHOOL OF CHEMICAL TECHNOLOGY,

P-154, Lake Road, P O Rashbehary Avenue, Calcutta.

Special courses of instruction by post designed to train individuals to become useful members of society and to develop scientific cottage industries in pharmaceutical and technological fields

SCHOOL OF HANDICRAFTS (Govt),

Pusa, Darbhanga.

Subjects taught Weaving and dyeing (2 years' course), Tailoring (2 years' course), Carpentry and Toy Making (2 years' course), Brass and Bellmetal Works (2 years' course), Eri rearing and Spinning (6 months' course), Cane Basketry and Rope Making (6 months' course) Candidates for the first four courses should have passed Middle English Examination Applications for admission to be made to the Supdt of the School by 1st December Free hostel accommodation to out-students

SCHOOL OF MOTORING,

12-1, Government Place East, Calcutta.

Provides course for motor engineering and driving Monthly allowances to candidates in special engineering course

**STRI ZARTHOSTI MANDAL & SIR RATAN TATA
INDUSTRIAL INSTITUTE,**

Hughes Road, Bombay.

The Institute imparts training in small-scale industries and crafts to enable Parsee women to earn their livelihood There are nine departments 1 Cooking and Fancy Confectionery 2 Chocolates, Butter and Jam 3 Hand-Embroidery 4 Machine-Embroidery 5 Sewing 6 Hand-weaving 7 Laundry 8 Recolouring and Cloth-Printing 9 Hand-Painted Cards

USHAGRAM EDUCATIONAL COLONY, USHAGRAM, ASANSOL.

For Boys Along with the Matriculation course, each boy must take one vocational subject, choosing from among the following Carpentry, weaving, agriculture, tailoring, printing, book-binding, art, including music There is also provision for Vocational training apart from Matriculation classes Fees —Rs 4 in the Matriculation Class to Rs 2 in Class III Two hostels are maintained

VICTORIA TAILORING AND CUTTING COLLEGE,

**Budhwar Chowk, Poona No. 2. Branches: Rajkot (Kathiawar)
and Ahmedabad**

Course of study Diploma course Cutting fees Rs 100 only and tailoring fee at Rs 5, a month Duration of cutting 3 months and cutting and tailoring 9 months Tuitions are given in one or more courses Fees are accepted on instalments

The Institution offers individual instructions in scientific cutting and tailoring and undertakes to secure a Diploma of Merit, First class or a First class standard London, for its students

Government examinations are held twice a year Five scholarships are given every year to the students of backward communities

ORDNANCE FACTORIES.

GUN AND SHELL FACTORY, COSSIPUR, CALCUTTA.

Apprentices receive training in Mechanical Engineering trades Recruitment is through the Federal Public Services Commission Candidates must not exceed 19 years in age and must have passed the Intermediate Examination in Science or Engineering of a University or Board approved by the Governor General in Council or have obtained the Cambridge School "A" certificate of the Higher Diploma of the Mayo College, Ajmer Period of training extends over 5 years, combined with an approved course of theoretical instruction at the Calcutta Technical School Apprentices are required to live in Government Hostel

In addition, the Boy Artisan Training Scheme provides a five-years' course of training for selected boys between the ages of 15 and 17 years This course is intended to produce craftsmen, capable, ultimately, to fill junior supervisory posts in Mechanical Engineering Workshops The practical training is supplemented by special course of education in the Factory School

INDIAN ORDNANCE FACTORIES,

Rifle Factory, Ishapore, Bengal.

Employment of Apprentices during the present emergency has been suspended

INDIAN ORDNANCE FACTORIES,

Cordite Factory, Aruvankadu, Nilgiris.

The training of apprentices has been suspended during the period of the present emergency

In substitution the Government of India have approved the introduction of special courses for the training of supervisors and artisans

RADIO TRAINING INSTITUTIONS.

ABDULLA FAZALBHOY INSTITUTE, St. Xavier's College, Bombay.

This Institute conducts the following Training Courses —

Preparatory Courses Minimum Admission Standard Matric Standard in Science, Mathematics & English Matric Certificate not essential Duration One Term of 5 months Fees per term, Rs 135

Radio Service Course Minimum Admission Standard Inter Science Standard in Physics and Mathematics, or Preparatory Course Certificate Duration One Term Fees per Term Rs 135

Wireless Telegraphy Course Minimum Admission Standard Matric Standard in Science, Mathematics and English Matric Certificate not essential Duration Two Terms Fees per Term Rs 135

Electrical Wiring Course Minimum Admission Standard as in Wireless Telegraphy course Duration Two Terms Fees per Term Rs 30

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation. Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

Radio Engineering Course Minimum Admission Standard B Sc in Physics and Mathematics or equivalent degree Duration Four Terms Fees per Term Rs 135

Cinema Projection Course Minimum Admission Standard Matric Standard in Science, Mathematics and English Matric Certificate not essential Duration One Term Fees per Term Rs 135

Photography Course Minimum Admission Standard As in Cinema Projection Duration One Term Fees per Term Rs 135

Cine-Photography Course Minimum Admission Standard As in Cinema Projection Duration Four Terms Fees per Term Rs 135

Sound Recording Course Minimum Admission Standard I Sc Standard in Physics or Preparatory Course Certificate Duration Three Terms Fees per Term Rs 135

CHICAGO RADIO INSTITUTE,

129, Esplanade Road, Fort, Bombay.

This Institute gives training in radio engineering both theoretical and practical The whole course including practical covers approximately six months Admission is made twice a year in April and June Classes are held from 9 a m to 11 a m Practical training is given in the workshop for about 2 hours every day, in small batches

Registration Fee Rs 5 with application Tuition Fee Rs 75 for theory only, including examination fee Tuition fee Rs 125 for both theory and practice, including examination fee Re examination Fee Rs 25

Those students who appear for the City and Guilds Examination and the Associate Membership examination of the Institute of Radio Engineers, London get additional lectures free of cost

E M F. TECHNOLOGICAL INSTITUTE,

The course of study includes Radio Communication, Wireless Telegraphy and Electrical Engineering

Radio Engineering Course Knowledge of English sufficient to follow lectures is essential New session starts in the first week of January, April, May, July, October and November Course 4 months, fees Rs 75

Radio Communication Course—Minimum qualification for admission is that the candidate must have read upto the standard of the Matriculation Examination of the Bombay University or equivalent thereof Non-Matrics are also admitted New sessions begin in the first week of January April, May, July, October and November Course 6 months, fees Rs 100

Electrical Communication (A) Intermediate This is equivalent to the course provided for the Department of Industries (Bombay) Certificate in Radio Communication and may be passed on completion of the aforesaid course The Examination Fee is Rs 6 only (B) The Final Grade Examination is held only in the first week of May each year Duration of studies four months, additional fees for this course Rs 75, examination fee Rs 8

Radio Service Course —Admission given to those who have learnt the theory of Radio Communication Monthly fee Rs 21, a deposit fee Rs 30 to cover breakages etc

Wireless Operator's Course —Six months course Fees Rs 135

Electrical Engineering Course —Six months course, total fees Rs 100

ALL ABOUT FRUITS—A most handy guide to fruit culture and preservation Price Rs. 2/8. Industry Book Dept., Shambazar, Calcutta.

Wheeman's Course —(a) 4 months' course, fees Rs 40, (b) 6 months' course, fees Rs 60

INSTITUTE OF RADIO TECHNOLOGY,

Jestharam Baug, Bombay, No. 14.

The Institute offers training for the following courses:—

Electrical & Radio Engineering, Radio Servicing, Radio Engineering and Servicing combined, A M I E E & Wireless Operators' Courses
Fees for Radio Engineering and Servicing combined Rs 150 (1 year), Radio Servicing Rs 100-8 (6 months), A M I E E Rs 280 (2 years) and Wireless Operators' Course Rs 110 (9 months)

Coaching is given for City and Guilds of London Institute examinations and Bombay Government examinations Hostel attached

RADIO ELECTRIC INSTITUTE,

Lamington Chambers, Bombay 4.

This Institute is recognised by the Dept of Industries of the Govt of Bombay for Examination and Certificate purposes and specialises in intensive short period courses preparatory to .

- (1) Govt of Bombay Examination in Radio Servicing (1 year)
- (2) Govt of India's Examination for 1st & 2nd Class Certificates in Wireless Telegraphy (1 year)
- (3) City & Guild's London Institute examination in Radio Communication & Electrical Engineering practice (duration 1 year & 2 years respectively)
- (4) I E E (London) examinations for the A M I E E (London) etc (2 years)
- (5) Diploma & Certificate examinations in Radio Mechanics, Radio Engineering, Electrical Engineering held by the Institute

The average fees are Rs 100 per head per term Hostel charges vary from Rs 90 to Rs 70 per term

SUPPLEMENTARY LIST.

Radio College, 191-1, Bow Bazar Street, Calcutta

Eastern Institute of Technology, 58-B, Rash Behari Avenue, Calcutta.

George Telegraphy and Training Institute, 136, Bow Bazar Street, Calcutta

College of Wireless and Commerce, 212, Bow Bazar Street, Calcutta

TANNING INSTITUTIONS.

BENGAL TANNING INSTITUTE, PAGLADANGA, CALCUTTA.

The Institute imparts training in tanning, boot and shoe and leather-goods manufacture The tanning course is one of two years, one year at the Chemical Laboratory and the other at the Demonstration Tannery Theoretical lectures are delivered on (1) Principles and Methods of tanning (2) Applied Chemistry of Leather manufacture and (3) General Chemistry Science graduates and candidates who have passed the I Sc examination are usually eligible for admission In special cases matriculates having connection with the leather trade may also be admitted There is accommodation for 24 students Of these 24 seats sixteen are for Bengal and eight for Bihar candidates

The course for boot and shoe and leather goods manufacture is of one year The Boot and Shoe classes are held at 110, Surendra Nath

Valuable directions for construction of aeriels and receivers are explained in **RADIO RECEPTION IN THEORY & PRACTICE.** Price Rs. 2/8.

Banerjee Road, the premises of the Calcutta Technical School. Matriculates and even non-matriculates are admitted to this course. There is accommodation for 24 students all from Bengal.

National Chemical Test House**A SPECIAL CENTRE OF RESEARCH IN INDIA.**

The work done here is expected to be particularly appreciated in Europe and India. All chemicals are analysed in this house and certificates are issued herefrom. The companies dealing with such articles as Phenyle, Soap, Hazline, Oil etc can get certificates from this centre and these articles declared tested by the National Chemical Test House. The fee charged for this purpose is rupees thirty-two in India

Dollars Fifteen in America

Pounds Three in London.

Those who desire to manufacture medicines can get for twenty five rupees advice on each medicine in India. In America the fee charged per medicine is twelve dollars and one pound and ten shillings in London. Drugs from barks of trees, leaves and roots found in Europe and India, are prepared here and opinions given for twenty rupees on each drug. Other kinds of research work is also performed here.

INDIAN TOBACCO**AND ITS PREPARATIONS**

With tried recipes and practical hints with
details of every process simply explained
and the secrets fully exposed in a way
understandable and workable without any
chemical training.

The Preparation of Hukkah Tobacco, the various
Khambirras, Surti, Zarda, Kimam, Snuff and other ingre-
dients had hitherto been a trade secret These have been
thoroughly exposed by an expert who knew this business
for nearly half a century. Manufacturing processes of
beedies and cigar for which there is an ever-increasing
demand in the country have also been appended

Manufacture these by the best and the easiest process
and make the most of the tobacco market

Price New Edition Rs. 2/8.

NEW & REVISED EDITION

ORGANISE YOUR BUSINESS BY READING
THEORY AND PRACTICE OF

COMMERCE & BUSINESS ORGANIZATION

By Prof. J. C. MITRA, F.S.S. (London), F.R.E.S.
WITH FOREWORD

BY SIR R N MOOKHERJEE, KCIE, KCV.O, DSC, F.A.S.B.,
FOURTH EDITION EXHAUSTIVELY REVISED.

The man who soon will be in a much better position than he occupies to-day is the man who is devoting some of spare time to commercial study now. He knows what hidden opportunities are revealed to strengthen his earning ability in spite of the market.

The momentous requirements of Businessman and Commercial students have been anticipated and practical applications of the tried theories of commerce and business have been indicated. A descriptive treatment has been given to every topic that appertains to commerce and industry just to the point.

That 700 Page Cloth Bound Volume Demy 8 vo. size
Price Rs. 4/8 only, Postage Extra.

INDUSTRY PUBLISHERS LTD., Shambazar, Calcutta.

The Business Library

OF EVERY IMPORTER & EXPORTER

SHOULD CONTAIN A COPY OF THE

INDUSTRY YEAR BOOK AND DIRECTORY 1943

A practical book for your daily personal use—pages crammed with ten-thousand-and-one business and marketing points, details that you are always wanting in your every-day work, and with the up-to-date on-the-spot Traders' Lists that you have never before been able to find and that you need just now more than ever.

It is the Right Book at the Right Moment...
When Business Careers are being carved
out of initiative, opportunity and study....
When Commercial Information is the
Foundation of fortune....

When Big Money is breeding from war
condition.....

The Book is a mine of information for Everybody

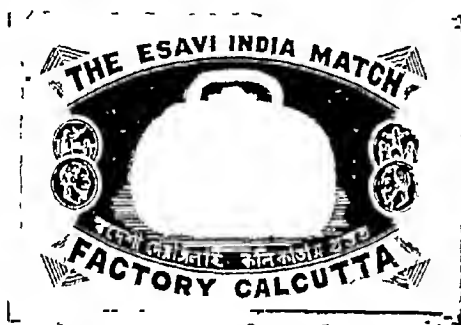

Join the ever increasing number of representative business houses who know and appreciate the value of the Book as an advertising medium and who always put the Book in the forefront of their advertising programme. You will then be in a very good company.

It's a sure Trial worth undertaking

Composite CONTAINERS

Composite containers can replace Essential metal

metal supplies are now urgently required for Government services.

Manufacturers at present using tin boxes or other metal packings should investigate at once the possibilities of our Composite containers the modern local packing for dry and other similar goods body of which is entirely made of spiral wound board, thereby saving more than 75 per cent of tin sheet. Thousands of tons of metal a year could be released for work of war importance by the substitution of Composite containers.

Our production capacity can meet all demands.

Such metal containers and full particulars are available on request.

Specialty wound straw board tubes of any dimensions manufactured.

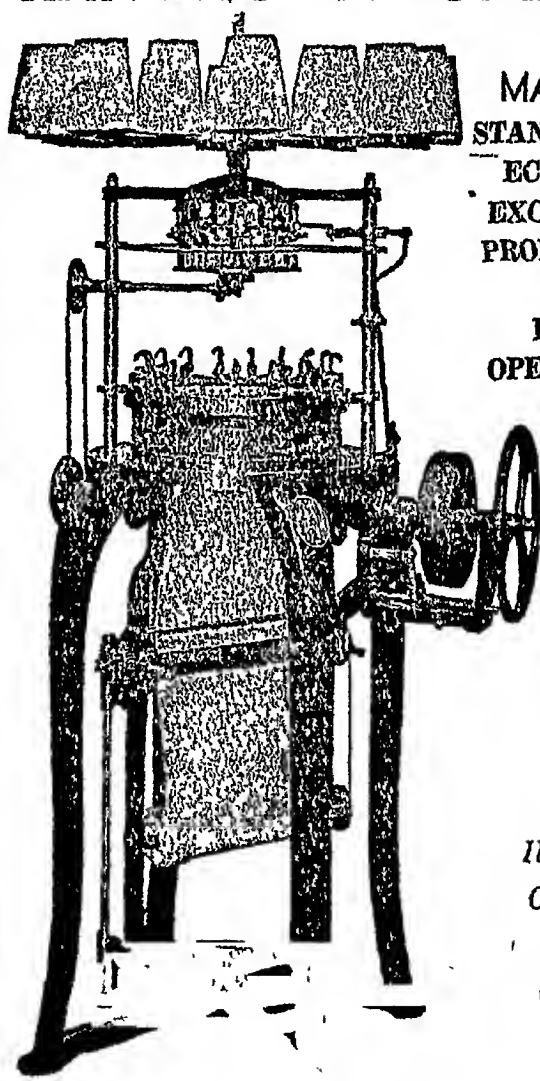

Write for Samples & Quotations.

Faultless and Distinctive Printing

The standard and solidity of a business house is often judged by the general "get-up" and quality of its printed matter. Good printed matter is an advertisement of untold value, the best business-getter and the cheapest representative.

Faultless and distinctive printing will enhance the reputation of any firm, no matter whether it is an old established one or not. Good Printing gives clients more confidence.

You will have everything that is good printing in our shop. Our estimator, designer, artist and block-maker will be at your service whenever demanded. Our rates are always competitive.

INDUSTRY PRESS,
Shambazar, Calcutta.

That complete book of general letter writing.
 Now that Letter-Writing is growing to be the
 essential requirement of success in all spheres
 of activity in society and business
You Cannot Neglect to Master the Art.

The 12th Edition of
 Mr. K. M. BANERJEE'S
 WIDE WORLD

ENGLISH CORRESPONDENCE

Contains hundreds of actual and Typical Letters, besides a very elaborate and comprehensive general introduction covering the whole of letter writing and the particular branch of grammar and idiom that relates to it, with special introduction for special branches of letters giving in details the kinds of subject a particular letter should contain and also the kinds it should avoid

Do not hanker after service when you can be your own master. HOME
INDUSTRIES explains, Re. 1/12. Industry Book Dept., Calcutta.

PICKLES, CHUTNEYS AND MORABBAS

Luscious lovely names. Yet! You can manufacture them as also Kasundi and Jams, Jellies and Marmalades at your home and carry a roaring sale in your local market. Elaborate process and well-tried formulas given by a specialist in simple English in the new enlarged Edition.

Containing details of ingredients, spices used, preserving mediums, curing agents, methods of preservation, marketing possibilities, together with well tried recipes and an exhaustive glossary containing vernacular names, weights etc., etc.

Price Rs. 1/12, Postage extra.

INDUSTRY PUBLISHERS LTD.,

— Keshub Bhawan —

22, R G KAR ROAD, SHAMBAZAR, CALCUTTA.

The characteristic taste and delicate flavour of the wide range of confections made in Bengal have an irresistible appeal to people of all nationalities.

TO PREPARE THEM AT HOME FOR
PLEASURE OF FOR PROFIT, READ

ADVERTISE IN

THE ASTROLOGICAL MAGAZINE

(Established 1895 by B SURYANARAIN RAO)

— A MONTHLY OF INTERNATIONAL —
REPUTATION & INFLUENTIAL CIRCULATION.

The Astrological Magazine founded in 1895 is in its 33rd year of publication and has had a unique career during the past 32 years. Here is the Magazine that brings most substantial results to an Advertiser. You can sell from a pin to a Rolls Royce through the Astrological Magazine which as an Advertising Medium is without a rival in value. The Astrological Magazine covers effectively the whole of India and Ceylon, and has an immense circulation being subscribed for by Maharajas, Officials, General Public and all classes of people. It has agencies throughout India and Ceylon besides being sold in all the Big Stalls of A H Wheeler & Co, Higginbothams and Swadesamitran.

Manufacture of Tobacco, Snuff, Zaida, etc., Read, INDIAN TOBACCO & ITS PREPARATIONS. Rs 2/8. Industry Book Dept, Calcutta.

COMPLETE TAILORING

With over 90 illustrations to make the text clear and helpful for the beginners and masters too

A comprehensive treatise on scientific method of cutting and tailoring of Gent's, Ladies and Children's Garments in accordance with the latest styles and fashions.

About 350 pages. Price Rs. 3-8.

MANUFACTURE OF SOAP

The Book contains discussions on Raw Materials—Principles of Manufacture—Factory Equipments—Preliminary Operations—Washing Soap—Processes, Recipes—Treatment of Waste Soap—Toilet Soap—Glycerine Soap—Transparent Soap—Soap Powder—Liquid Toilet Soap—Floating Soaps—Mottled Soap—Medicated Soap etc In other words it is **Everything on Soap.** Re. 2-8.

ELECTROPLATING IN PRACTICE

Here is a book which reveals the secrets of the trade and describes in details the accessories and equipments necessary in the trade, the bath solutions and the practical manipulations with hints about remedying of defects, if any

With 11 illustrations. Price Rs. 2-8.

VEGETABLE OIL INDUSTRY

WITH MODERN METHODS OF REFINING AND BLEACHING.

A handbook comprising a detailed description of the various oil seeds in India and the up-to-date methods of expressing of extracting oil from them The modern method of making butter substitute from oil has been included

Fully Illustrated. Price Re. 1-12.

Utilisation of Common Products

LEARN The Utilisation of Citrus Products Manufacture of Alcohol from Molasses, Utilisation of Bagasse, Manufacture of Papain, Sathi, Abir, Banana products, Manufacture of Essential Oils, Tinctures etc, Manufacture of Palmyra Sugar, Catgut, Glue, Casein, Bone Phosphate

Price Re. 1-12.

MANUFACTURE OF DISINFECTANTS & ANTISEPTICS

With processes of manufacturing Liquid Disinfectants, Insect Powders, Disinfectant Soap, Insecticides, Antiseptic Preparations Medicated Cottons and Gauges, etc, etc

Price Re. 1-12.

In all Cases Postage Extra.

INDUSTRY PUBLISHERS LTD.,

— Keshub Bhaban —

22, R. G. KAR ROAD, SHAMBAZAR, CALCUTTA.

COTTON DYEING & PRINTING

By dyeing and printing cotton yarns it has now become possible to compete with the foreign stuff in price as well as in appearance
GET A COPY AND TRY IT YOURSELF.

Price Re. 1/12, Postage Extra.

PRACTICAL METAL CASTING

A treatise on the art of founding with practical details of pattern maker's shop, foundry shop, melting, pouring and cleaning shop and non-ferrous casting
Price Rs. 2/8, Postage Extra

MANUFACTURE OF BATTERIES

A new avenue opens before you You can take up the manufacture of primary cells, dry cells or storage cells which are daily getting into popularity Full particulars of recharging given with illustrations
Price Re 1/12, Postage Extra

HOME INDUSTRIES

REVISED AND ENLARGED EDITION

You will get Practical Methods of Manufacture—manufactures which can be done at your own home, in your leisure even

Price Rs 2/8, Postage Extra

MANUFACTURE OF SYRUP

Reveals the trade secrets in making natural fruit syrups and artificial syrups for pleasure or for profit Methods of preparing sherbet, ice-cream, syrup-powder and aerated waters have been explained in full

Price Rs 2/8, Postage Extra

DENTAL PREPARATIONS

A comprehensive guide for those who intend to take up the Manufacture of Tooth Powders, Tooth Pastes, Tooth Creams, Mouth Washes, Medicinal Preparations for the Teeth, etc The modern methods of manipulation have been incorporated in the book

Price Re 1-12, Postage Extra.

INDIAN PERFUMES ESSENCES & HAIR OILS

Giving out in elaborate details secrets of Manufacture of Natural and Artificial Perfumes, Indian Essences, Hair Oils & Toilet Preparations

Price Re. 1/12, Postage Extra

INDUSTRY PUBLISHERS LTD.,

Keshub Bhavan

22, R. G. KAR ROAD, SHAMBAZAR, CALCUTTA

MECHANICAL INDUSTRIES

There are many marketable articles which one can manufacture by help of small machines and yet may make some profit by selling them. This book reveals a number of such manufacturers with detailed descriptions and illustrations of machines.

Price Rs. 2/8, Postage Extra.

MILK & MILK PRODUCTS

There is a wide field of possibility in India in the manufacture of milk products like ghee, butter, casein, evaporated milk, etc. Complete information on manufacturing all sorts of milk products including malted milk and milk sugar is given in the treatise.

Price Re. 1/12, Postage Extra.

Manufacture of Confectionery

A handbook comprising detailed descriptions of manufacture of foreign and Indian Confections such as Fondants, Drops and Lozenges, Caramel, Toffee, Nougats, Chocolate, Bonbon, Jams and Jellies, Preserved Fruits, Indian Confections, etc., etc.

Price Re. 1/12, Postage Extra.

Pickles, Chutneys & Morabbas

Luscious lovely names. Yet! You can manufacture them as also Kasundi and Jams, Jellies and Marmalades at your home and carry a roaring sale in your local market. Elaborate process and well-tried formulas given by a specialist in simple English.

Price Rs. 2/8, Postage Extra.

Independent Career for the Young

It introduces you to profitable occupations as: Etching and Embossing on Glass—Staining and Gilding Glass—Painting on Glass—Metal Engraving and Etching—Embossing—Mirror Making—Wood Engraving—Process Block—Line Block—Tone Block—Lithography—Stereotyping—Electro depositing of Metals—Machine Shop Practice, etc.

Price Re. 1/12, Postage Extra.

PROSPECTIVE INDUSTRIES

The Book Discusses in Minute Detail Following Industries

Manufacture of Boot Polishes—Manufacture of Depilatories—Tambul Bilas—Hair Dyes—Sealing Waxes—Varnishes and Lacquers—Cements for Glass, Rubber, etc—Metal Polish—Incense Sticks—Crayons—Manufacture of Mustard—Oil Cloth, etc.

Price Rs. 2/8, Postage Extra.
